BOUNDARY CREEK TIMES

A Weekly Paper published in the interests ot the Boundary Creek Mining District.

Vol. IV. GREENWOOD, B.C., SATURDAY, JUNE 18, 1898. No. 15.

OUR NEXT MEMBER.

THE Rossland convention made an excellent selection. The great desideratum of the approaching election is the defeat of the Turner government. Mr. Martin will do his share by carrying the Rossland constituency by an overwhelming majority. He is well known, and possesses the confidence of all the electors. His politics are sound. He is in favor of progressive legislation and is therefore unequivocally opposed to the Turner administration.

While Mr. Martin's election is assured, those opposed to the Turner government should make every effort to have as large a majority as possible. It is in the interests of the whole constituency and particularly in the interests of Boundary Creek that the expression of disapproval of the Turner government should be most pronounced. Every vote should be polled on July 9th.

When Mr. Martin is elected we feel sure that he will not prove a disappointment to the constituents. He is pledged to a platform that recognizes the rights of Boundary Creek to a member immediately and outlines legislation that is in the interests of this district. Mr. Martin will endeavor to carry out his pledges and as he goes to parliament a supporter of the party which will then be in power, he is sure to succeed in securing for Boundary Creek that justice and consideration which had been denied by the moribund administration whose members are now alarmed at seeing the active preparation for their burial, that are being made by the electors of the province.

MISAPPLIED ABILITY.

The editor of the Rossland miner is an amusing cuss. He began the campaign in favor of the Turner government by assuming that the electors of the Rossland constituency and more particularily those of Boundary Creek were fools and that their only course was to make the Miner their political guide. His versatility is exceeded only by his lack of political conscience. He writes not a syllable in favor of the government whose cause he espouses but hopes to run an election by manufacturing dissension. When one election canard fails, he manufactures another. It is a pity that so much ingenious lying should be thrown away; it is a greater pity that so great a man should work in so limited a field. The editor of the Miner would find a proper scope for his genius as a San Francisco Examiner correspondent. There he would find a market for his peculiar style of journalism. In the Rossland constituency he succeeds in amusing the electors and strengthening the cause of the opposition party.

The Miner would lead the people to believe that harmony does not prevail within the ranks of the opposition party because more than one candidate allowed his name to go before the convention. Accepting the Miner's conception of harmony we have it in the highest form in the government ranks for no one appears foolish enough to allow his name to go before a government convention. The Miner's brand of harmony is not popular on the opposition side. The oppositionists are thankful that their cause is encouraging and that there is in their ranks plenty of suitable material for a provincial member. The Rossland convention made clear that the party is solidly united in its opposition to the Turner government. Did the editor of the Miner not hear Mr. Boyle's eloquent declaration that he was too loyal to his political principles and his opposition to the Turner government, not to stand by the choice of the convention? The talented editor of the Miner does not do himself full justice until he discusses the action of the Boundary Creek delegates at the convention. He made frantic endeavors to induce Boundary Creek to nominate Boundary Creek candidates and when the delegates refused to fall into his clumsily laid trap, he announces that Boundary Creek has forfeited all right to criticize the redistribution bill! Now that is the style of argument that takes. It is most convincing. It is sure to win friends for the government and more firmly establish the editor of Miner's reputation for political sagacity.

Seriously speaking the editor of the Miner is sacrificing his reputation in the interests of the Turner government. A continuance of the course outlined will give him a permanent reputation for being politically the greatest simpleton that ever edited a newspaper. With his elastic journalistic conscience he could easily eulogize the Turner government and would thus do his party better service than by attempting to dictate to the oppositionists what they ought to do and then declaring a lack of harmony in the party because they do not follow his directions.

A LIBEL ON BOUNDARY CREEK.

"There is not a man in the Boundary country capable of representing this district in the assembly—for if a man could not stand before the Rossland convention he certainly cannot fill a legislative office."

The above is from the Grand Forks Miner. We are surprised that a man possessing the politicl astuteness of the editor of the Miner should give utterance to a sentiment that libels the people of this district. The Miner should remember that an unwillingness to sacrifice the interests of a party to personal ambition or the interests of a certain portion of the constituency does not show incapacity on the part of those making the sacrifice.

The Turner government has treated Boundary Creek so disgracefully that for the present every interest must be trampled under foot if necessary to accomplish the defeat of the Turner government. When this is accomplished and Boundary Creek receives her full measure of political power the Miner will find that there are plenty of aspirants for political honors and that they compare very favorably with those in other sections of the province.

The editor of the Miner must know that Mr. Martin of Rossland would poll more votes in the Rossland constituency than any Boundary Creek man. If he is as anxious to defeat the Turner government as most people in the district he must know that it was politically expedient to secure the nomination of a Rossland man.

We have always opposed and always will oppose weakening the chances of securing the return of an opposition candidate by pitting Boundary Creek against Rossland. The Rossland Miner and government supporters have attempted to breed sectionalism and we are forced to state that we fear the Grand Forks Miner has fallen into the trap prepared by designing government politicians.

The duty of Boundary Creek is clear. Every vote should be polled as a protest against the treatment accorded the district by the Turner government. Any other course would be disloyal to the best interests of the district.

The Miner should not forget that it has a very grave duty to perform in connection with the election and neither selfish interests nor personal predjudice should influence its policy. The absence of a Boundary Creek candidate is not sufficient excuse for divorcing itself from the position it so ably upheld during the past few months.

RAILWAY NEWS.

Last week Vice-president T. G. Shaughnessy of the C. P. R. visited Robson and other points along the line of railway. Interviewed at Rossland he stated that sub-contracts on the line between Robson and Boundary would be let immediately.

Mr. Shaughnessy also visited Vancouver where he was interviewed by a News-Advertiser representative. He said:

"The contracts have been let for the construction of the line from Robson to Penticton."

"The other portion has been left in abeyance."

"Yes."

"Do you intend to go on with that portion at an early date?"

"Messrs. McKenzie and Mann will go on with that part, at least the Vancouver, Victoria and Eastern will make some arrangement about it. Our portion of the work is from Robson to Boundary."

"Can you tell what arrangement Mackenzie and Mann have made?"

"No, I cannot say what arrangements they have made; if any."

The contractors for the road have 400 men at work near Robson. Already canvas towns have sprung up along the line of construction. Brooklyn is the name given to a new town at the mouth of Dog Creek. Here the contractors have their headquarters. Another railway town is New York.

J. Hamilton, the C. P. R. land commissioner and W. H. Tye the chief engineer, are expected in Greenwood any day. The object of their trip is to arrange for station and yard room in the different towns and also lay out new townsites if in their opinion it is wise to do so.

It is also reported by the Rossland Miner that R. T. Wilgress of the C. P. R. service, Vancouver, and F. W. Russell, of the land department, Winnipeg left Rossland for the Boundary Creek country, to arrange townsite and right of way matters in connection with the Columbia & Western road from Robson. The first point they will make for will be Cascade City and from there they will follow the location of the rail way through Midway.

Returned From England.

M. E. D. MacKay of the Kootenay Development Company returned to Greenwood this week from England. His company have under bond the Snowshoe, Republic group and other properties in Boundary Creek under the management of R. W. Macfarlane, M. E. Mr. MacKay reports that during his visit to London as much interest was taken there in the war as in New York and consequently investors lost interest in mining for the time being. He is of the opinion however that an encouraging reaction will set in at the close of the war and that a large amount of English money will be invested in British Columbia mines.

Thos. P. Carter, Vancouver, representing Mendelssohn Piano company, visited Greenwood this week.

EAST YALE.

Donald Graham, M. P. P., having recovered from his recent illness has consented to accept the unanimous nomination of the opposition party and is now actively canvasing throughout the district. Mr. Graham's many Boundary Creek friends are delighted to learn that Mr. Graham is making the run. He has been too useful a member to retire from politics at the present time. East Yale too is to be congratulated that Mr. Graham will remain its member. From Donald Graham to Price Ellison is too great a retrograde step to be thought of for one moment. Reports from the district south of Penticton are to the effect that Mr. Graham will there secure at least ninety per cent. of the votes.

The News-Advertiser has the following to say regarding Mr. Graham:

"The many friends of Mr. Donald Graham will be glad to learn that he has so far recovered from his illness as to be able to reconsider his decision not to be a candidate again and that he will offer himself for re-election for East Yale. In the four years during which he has represented that constituency, Mr. Graham developed qualities which made him an admirable member of the Legislature. Modest in demeanor he showed himself to be a sagacious and prudent legislator, one who dealt with public affairs as he would with his own interests. Industrious and painstaking on committee work he always had the ear of the House when he addressed it and on more than one occasion he came off an easy victor in wordy contests with the Premier and Attorney-General, while the Chief Commissioner always found himself hopelessly defeated in any controversy with the canny Scot from the Okanagan Valley.

In the present electoral contest Mr. Graham should receive the hearty support of the people of East Yale.

A DUNSMUIR CABINET.

Should the Turner government be returned it is reported that there will be certain cabinet changes. The personnel of the new cabinet follows: Premier and minister of finance, Hon. J. H. Turner; president of the council, Mr. James Dunsmuir; attorney general, Hon. C. E. Pooley, M. P. P. for Esquimalt, solicitor for the Dunsmuirs; chief commissioner of lands and works, Mr. Joseph Hunter, government candidate for Cariboo, and superintendent of the Dunsmuirs' Island railway; minister of mines, Mr. John Bryden, M, P. P. for North Nanaimo, and managing director of the Dunsmuirs' iron works; minister of education, Dr. W. W. Walkem, M. P. P. for south Nanaimo, surgeon of the Dunsmuirs' colliery and editor of the Dunsmuirs' Wellington organ.

THE CORBIN RAILWAY.

Mr. E. V. Bodwell at a public meeting held recently in Victoria made the following pointed references to the provincial government's railway policy.

"Heinze sold out for $800,000, and when the Kettle River valley railway asken a charter the British Columbia government asked that the charter be refused, although the company were pledged to construct the road for nothing. And when the government knew the C. P. R. had bought the V. V. & E. charter the government bonused them $4,000 a mile. It must be plain to the public that no railway except the Canadian Pacific railway can do any business in the province. Had the Kettle river railway bill passed it would have opened up the country to the Grand Trunk and wonld have been continued to the coast. Thus it was seen that the government were working against a scheme which would have been an advantage to the country.

Robson-Penticton Railway.

Rossland, B. C., June 15.—"The contractors on the Robson-Penticton railway are making active preparations for commencing work," said John G. Sullivan, the principal assistant engineer in charge. "A little town called Brooklyn is springing up at the mouth of Dog creek on lower Arrow lake, just across the lake from Deer Park. A force of men are engaged in building a wagon road from the lake to the divide pass on the summit of the divide. As soon as the wagon road is completed, so that supplies and tools may be taken in, the work of grading will be actively pushed all along the line of the proposed railway. The work would have been commenced to-day but the rain has delayed operations for a day or two.

Greenwood Cemetery.

It is hoped that the city council will join with the fraternal societies for the purpose of placing the Greenwood cemetery in a presentable condition. To-day it is a disgrace to the town and its people. The cemetery should be cleared and fenced. There should be some indication that that the residents of the city are sufficiently civilized to show some respect for the dead.

NOTES.

The opposition in Victoria have nominated Col. G. B. Gregory, A. B. Belyea and Ex-alderman Stewart. As Hon. Robert Beaven decided to run, it was deemed advisable not to place another candidate in the field.

The Grand Forks Miner gives space to certain nonsensical political utterances of the Rossland Miner and the Rossland Miner republishes the matter as the opinion of the Grand Forks Miner.

The Rossland Miner is the authority for the statement that W. B. Townsend, the returning officer for this district, addressed a meeting of government supporters since his appointment. W. B. Townsend evidently does not realize that impartiality should be one of the characteristics of a returning officer.

POLITICAL NOTES.

The government candidates in Victoria are Messrs. Turner, Helmcker, McPhillips and R. Hall.

It is reported that Hon. J. H. Turner will hold meetings at different points in Boundary Creek district.

James Martin the opposition candidate will make a tour through Boundary Creek within the next ten days.

The following opposition candidates nominated last week are sure winners in Vancouver: F. C. Cotton, R. MacPherson, Hon. Joe Martin and Charles Tisdall. Mr. Tisdall is a new man in provincial politics but he enters the field possessed of the confidence of all and also sufficient armament to knock out any government candidate in Vancouver. The other candidates are well known throughout the province.

W. W. B. McInnes who is going to save the province (vide his manifesto) has found a seat. D. McKechnie will run for the Dominion house and the boy orator will run in Nanaimo. The people of Nanaimo evidently did not completely swallow the bombastic and egotistical manifesto for they made "Billy" promise he would be a good opposition candidate and not try to run a party on his own hook. The people of Nanaimo acted wisely. Unless the boy orator is checked there is a great danger of having "too much McInnes" in the province.

Alex Henderson and James McQueen are running as government candidates, the one in New Westminster, the other in Richmond. Alex says he is a liberal and Jim says "A men." Alex attended an opposition convention in New Westminster so did James. Alex was appointed a member of a committee to draft a platform; so was James. Alex attended the meeting of the committee in the Hotel Guichon so did James. Alex shouted "good" and still ringing in our ears is the strident Scottish notes of James as he reiterated "Amen" when this plank was adopted:

"We denounce the Turner Administration, which has justly forfeited the confidence of the people of this Province by its reckless squandering of the public revenue; its alienation of the public lands by grants to railway promotors and private speculators (notably, the grant to the Cassiar Central Railway Company); its system of class taxation; its encouragement of monopolies; its open support of Oriental labor; and its persistent attemps to encourage sectional jealousies between the Island and Mainland, for political purposes. And we denounce the practice of Ministers of ihe Crown making use of their official positions to promote their private interests by associating their names with mining and other speculative companies."

Is it surprising that they are endeavoring to hide their treachery to the liberal party underneath a mantle of independence!

C. P. R. Survey.

If the last C. P. R. survey is any indication of where the line is to be placed, the good people of Greenwood cannot complain that the powerful company is going to build away from the town. In fact a number of property owners complain bitterly that the C. P. R. is altogether too affectionate and that they would like it better a little farther off. A party of surveyors put in pegs this week. They followed the eastern slope to the new Catholic church, down the valley ran through the soda water works, disturbed the pigtailed Mongolians who chatter in the wash house by the bridge, divided Mr. Gordon's house in two, crossed Silver street by C. J. McArthur's residence and on through the Sutherland addition. Should the railway be built along this route, the company will pay a heavy sum for expropriating valuable property. It is quite possible however that the route adopted will be along the west side of the river where the land has been reserved for that purpose. The surveyors are now working in the vicinity of Boundary Falls.

Off to Scotland.

Dr. Christie who left Greenwood on Saturday last on a three month's holiday trip to Scotland carries with him the well wishes of his large circle of acquaintances in this district. The doctor is one of the pioneers of the district who showed his confidence in its wonderful mineral resources by staying with the camp. It is gratifying that he as well as others of the early pioneers have been in a measure rewarded for their years of patient waiting. It is rumored that the doctor will not return alone but that a Scotch lassie will be taken into a life partnership. THE TIMES extends its congratulations in advance.

Okanagan Flour Mill Co.'s Flour is THE BEST!

BASEBALL MATCH.

The ball game between Greenwood and Grand Forks on the 10th inst. was a fairly good one, although both teams showed a want of practice. The game was started at 3 o'clock with R. Radcliffe as umpire. Grand Forks went to the bat, Medill pitching for Greenwood. The players from the Village of Floods piled up seven runs, getting five bases on balls. In the second half the home team failed to find the direction in which Campbell was pitching, and were retired with a 0. In the first half of the second innings Medill got down to work, and Russell, Donogh and Goodeve tickled the atmosphere in one, two, three order. In the second half O'Leary failed three times to loosen the stitching on the ball and gave place to Geo. Miller, who hit a two-bagger to left field. Nels LaPlant sent the ball out to right field, bringing Miller home. Medill and Sterrett fanned, leaving LaPlant on third. In the third, Fred Russell and Frank Coryell scored for Grand Forks, and Thomas and Smith for Greenwood. In this inning both teams did considerable arguing in reference to the umpire's eye, alternately contending that it was good or evil as the decisions were for or against. The umpire didn't bring his gun with him, so had to hedge repeatedly. In the fourth Hallett was in the box for Greenwood, Newton and Coryell scoring for the visitors. Hallett, Thomas, Medill and Sterrett made the home plate in the second half. In the first half of the fifth Hallett failed to hit the bat of Donogh, Newton and Wilson, and these three were equally successful in evading the ball. In the last half LaPlant and Medill scored, Hallett, Thomas and Sterrett retiring the team. Hallett again shut out the visitors in the sixth, Smith and Geo. Miller scoring for the home team. This made the score 11 all. In the seventh, Campbell, Clyde and Donogh failed to find the ball, and Thomas, M. E. Miller and Smith piled up the same number of runs for the home team. In the eighth the visitors scored 4 and the home team 2, and in the ninth Grand Forks added 1 and Greenwood 3. Following is the score by innings:

	1	2	3	4	5	6	7	8	9	T.
Grand Forks	7	0	2	2	0	0	0	4	1	16.
Greenwood	0	1	2	4	2	2	0	2	3	16.

NOTES.

Thomas played a faultless game on first.

Dick Radcliffe wasn't a bit rattled. It was some other person.

Frank Coryell did some excellent work at short stop as well as in the box.

Fred. Smith can handle the ball and bat as well as any of them, but he dont understand the tricks of baseball.

A very closely contested match was played the past week between the first nine and a scrub team. It was a spectator's game throughout. The score was 134 to 114 in favor of the first nine. No one appeared to be overheated at the conclusion of the match.

MR. TURNER'S VISIT.

Last year the very Hon. John Herbert Turner, Premier, Minister of Finance, Minister of Agriculture, Director of the Klondyke Golden Twin Swindle Co., etc., announced that he intended visiting Boundary Creek but he didn't come. THE TIMES then pointed out what the honorable gentleman missed by not coming. The announcement is again made that the premier will visit Boundary Creek and THE TIMES desires to point out certain things the premier ought to tell us.

Hon. J. H. Turner is not likely to discuss matters in which the people of Boundary Creek take a direct personal interest. He will tell them about "my government," what an economical, efficient, progressive government it is. He is sure to devote at least 15 minutes towards furnishing Hon. George Bohm Martin with a reputation. Cheap money for farmers will also occupy some time as will also the circulating library. The railway policy of my government will be discussed in a general way.

Now all this no doubt will prove exceedingly interesting but the good people of Boundary Creek are more anxious to learn something about the redistribution bill. They wonder why Boundary Creek has been tacked on to Rossland and if the government really considers a man in Boundary Creek should have only one-tenth as much political power as a man in Esquimalt. They are also anxious to know why their resolutions and petitions were treated with contempt and a constituency formed against the wishes of nine-tenths of the people directly interested.

The people are also anxious to learn the particulars regarding railway legislation. They would like to know why Mr. Turner worked so strenuously to defeat the Corbin charter and then saddled the province with an additional debt of nearly one million dollars to secure railway facilities that Mr. Corbin offered to give without costing the province anything. They are also anxious to learn all about the promised immediate building of a railway from Penticton and sundry other particulars regarding the railway policy of the government.

The numerous business men and prospectors who contributed so extensively towards the construction of roads and trails in this district are very anxious to hear something definite about the government system of expending money upon public works. They would like to know if it is fashionable and just the proper caper in other portions of the province for the people to pay taxes into the provincial treasury and build roads themselves.

There are many other matters of peculiar interest to the people of Boundary Creek and it is to be hoped that when the premier reaches Greenwood he will lay aside his "speech" and tell us something locally interesting.

Of course all this is conditional upon his coming. He may come but then he may not.

Independent Candidates.

An independent candidate is a weak, vacillating, paper-backed individual, the victim of the Turner government and the clique. He is the tool of a government who is anxious to have some sort of a candidate in every constituency and the stalking horse behind which the government organs bleed the province by means of useless advertisements and exorbitant prices for the publication of voters' lists. He is generally a loud-mouthed, bombastic fellow who has but little stake in the country; is without political principles and is willing to "sacrifice" himself so long as his campaign expenses are paid.

One of those independent supporters of the Turner government will oppose James Martin in this district. Look out for him. He will be the paid tool of the Turner government and the branded plaything of the Rossland Miner.

GREENWOOD AND DISTRICT.

E. B. Simmons is away on a mining trip to Meyer's creek.

Jeff Davis, mayor of Grand Forks, was a visitor to Greenwood last week.

E. A. Bielenberg is working three men on the Gem in South Deadwood Camp.

The machinery for the Mother Lode is arriving slowly but the big boilers have not yet reached the mine.

Rev. Mr. Guy left on Tuesday's stage for Vancouver. He will remain there for a few weeks when he will take a holiday trip to Scotland.

J. W. Nelson of the Pioneer hotel returned from Canyon creek this week where he spent a few days looking after his mining interests.

Dave Bryant has several men at work on the Golden Treasure in West Copper Camp one of the claims owned by the B. C. Kettle River Company.

Wm. Miller, the tailor, returned this week from a months' prospecting trip up the West Fork. He succeeded in locating some promising claims in that vicinity.

Ed Styles of Anarchist Mountain visited Greenwood this week. He reports that there is absolutely not one government supporter in his section of the country.

Mrs. R. Smailes and family left on Saturday for Vernon where they will spend a brief holiday proceeding from there to the coast. Mr. Smailes accompanied them as far as Camp McKinney.

The Midway Townsite Company is advertising in this issue for tenders for the removal of a rail fence enclosing a portion of the townsite and also for cutting hay on the company's property on Eholt meadows.

G. R. Naden, Managing Director of the Bealey Investment & Trust Co., and Police Magistrate Hallet left on Saturday last for Vernon. Mrs. Naden and Mrs. Hallett accompanied them. They are expected home to-morrow.

At the regular meeting of Boundary Valley Lodge, I. O. O. F., held on Tuesday evening last a committee was appointed to wait upon the city council and the Masons with a view to ascertaining what steps can be taken towards placing the Greenwood cemetry in a more presentable condition.

WANTED—Delegates from Boundary Creek district to the Government Convention to be held at Rossland June 21st, 1898. Fare and expenses paid by the government. Free whiskey and cigars. For further particulars apply at the Government office, Government street. Greenwood, or at the branch office, Boundary Falls. *

It is to be hoped that Hon. J. H. Turner will experience no difficulty in going from one portion of the Rossland constituency to the other. The premier of the province ought to receive courteous treatment while traveling in a foreign land, particularly when it is considered that some time ago he signed a petition asking that Father Duncan,s Mission be annexed to the "land of the free" because justice could not be secured under the British flag. Such a recommendation ought to be sufficient pas-port for the premier between Sheep Creek and Cascade City.

An opening ball was given in the new Windsor hotel last evening.

J. P. McLeod of Midway went to Grand Forks Thursday on legal business.

W. H. Covert, the well known Grand Prairie nurseryman visited Greenwood this week.

Scott McRae has just completed the assessment work on the Little Johnnie in Copper camp.

Chas. Gire the well known mining engineer came over from Grand Forks on Wednesday.

Sam Bond returned this week from Ald. Barrett's recently acquired properties between James Creek and the West Fork.

J. E. Hooper, Managing-Director of the B. C. Kettle River Company, arrived from Sicamous by Wednesday's stage and left for the company's properties in West Copper camp.

Peter T. McCallum, J. P., and Neil McCallum of Upper Grand Forks paid Greenwood a visit this week. They are both confident that Mr. Martin will secure a large majority in their section of the district.

H. St. Q. Cayley of Grand Forks who was appointed distributing officer for East Yale returned on Wednesday from Vernon. Mr. Gayley refused to act as distributing officer and W. B. Cochrane a Vernon lawyer has been appointed in his stead.

A TELEPHONE LINE.

Greenwood is going to have a telephone line. There appears to be a certainty about it this time and the residents are not asked to clear the right of way and erect the poles. THE TIMES pointed out a few weeks ago that the Nelson & Vernon, a British Columbia Company, were endeavoring to take advantage of Greenwood by making it a condition precedent to giving telephone connection that the town should clear the right of way, furnish the poles and erect the same. W. B. Aris and W. H. Oakes of the company who are operating the line to Republic and between Spokane and Rossland visited Greenwood this week and corroborated the statement in THE TIMES regarding the Nelson & Vernon Company. Mr. Aris stated that the Nelson & Vernon Company were under contract to connect his line with Grand Forks and Greenwood but for some reason the N. and V. company had made no effort towards carrying out the contract. He stated that Greenwood ought to have telephone connection and he had made up his mind to run a line from Republic via Midway. "We don't want a bonus either" said Mr. Aris. "The line will pay and that is all we care about."

Mr. Aris' company goes to work at once. The line is to be rushed and by July 1st, Greenwood is likely to have telephone communication with the outside world.

WATCH THE VOTERS' LIST.

While other districts of the province have their voters' list completed, the electors of Boundary Creek are still ignorant regarding the names which have been transferred from East Yale to the Rossland constituency. It is quite possible that in making the transfers Mr. Cochrane may inadvertently leave off many names that ought to be recorded. As the people here are opposition to a man such a course would not prove distasteful to the government. Errors will often arise and consequently an opportunity ought to be given to correct omissions and inaccuracies in the new list. Boundary Creek has suffered sufficiently already without being further disfranchised in transferring votes from one constituency to another. We do not say that omissions will arise but there is a strong probability that such may be the case and as soon as the lists are made public every elector should carefully scruntinize the same to see that his name has not been omitted.

Rossland Miner Brand.

When the opponent of James Martin, the Opposition candidate for the Rossland riding, enters the field, he will, in all probability, be known as an independent supporter of the government—Rossland Miner.

In Boundary Creek district he will certainly be known as a reckless, servile supporter of the government; otherwise he would not enter the field.

THE CITY COUNCIL.

The regular meeting of the city council was held in the court house on Monday evening last. His Worship, Mayor Wood, presided and the following aldermen were present: Ald. Galloway, Paton, Barrett, Phelan and Parry.

Geo. H. Cropley asked permission to place public weighing scales on his lot on Silver street. The permission was granted subject to the supervision of the city engineer and to removal at three months' notice from the council.

Chief of Police Taylor reported that the alley between Copper and Government street was being built upon. A long discussion ensued regarding the matter. It appeared that the registered plan shows a 15 foot alley but Copper street lot owners claim a depth of 110 feet which would leave only a five foot alley. The matter was deferred for two weeks until Mr. C. Æ. Shaw could be present.

A motion was carried inviting the Police Commissioners to attend the next meeting of the council for the purpose of jointly discussing questions affecting the public morals.

Ald. Barrett gave notice to introduce a by-law dividing the city into wards.

The council then adjourned.

A FRUITLESS MISSION.

John H. McKane, J. Fred Ritchie and Earnest Miller of Rossland arrived in Greenwood on Monday last. They represented the government party in Rossland and the object of their visit was to size up the political situation and if possible secure delegates to a government convention which is to be held in Rossland on Tuesday next. They were accompanied by F. H. McCarter of the Grand Forks Miner and Chas. Van Ness. The Rossland politicians enjoyed their trip immensely but found few government supporters in the vicinity of Greenwood.

They made the best of a very bad cause. Not one word did they say in favor of the Turner government. They were even gracious enough to admit that Boundary Creek had been cruelly treated by the government but James Martin was not the right man. He was everything that is bad excepting that he was honest and a shrewd business man. If D. B. Bogle or A. B. Clabon or some one else other than James Martin had been nominated in all probability no government candidate would have been placed in the field. This peculiar style of argument did not convince the hard-headed Boundary Creek elector and after the Rossland delegates had exhausted their vocabulary in abusing "Jim" Martin, the electors politely suggested the advisability of enumerating some of the virtues of the Turner government.

Mr. McKane intimated that Tuesday's convention would bring forth a man that would carry the constituency and reform the government. He was so sorry the opposition had nominated "Jim" Martin. Then he proceeded to again dissect "Jim" Martin pointing out his frailities, and his peculiarites. "Jim" is a good fellow, an honest fellow, a shrewd business man but then he will not make a suitable representative." Mr. McKane's greatest objection to Mr. Martin was that he refused to be the mayor of Rossland last year.

It was rather amusing to listen to politicians attempting to convert the electors. They would forget the object of their trip and denounce the redistribution bill, the government's action with reference to the Corbin charter and its general policy. They would then remember that they were here in support of the Turner government and atone for their political back sliding by a still more bitter dissertation apon Mr. Martin's peculiarities. They were listened to with greatest good humor and when any one suggested that the Turner government had certain sins they must answer for the invariable reply was "'Jim' Martin will not make a suitable representative."

Mr. McKane occasionally had spasms of eloquence, particularly so when he told of the interest Rossland took in the Boundary Creek district. "Why," he exclaimed, "I, myself, as secretary of the Rossland Board of Trade spent $50 in telegraphing to the Dominion government to grant the Corbin charter." An elector mildly suggested that the expenditure of so much money would probably not have been required if his friends the Turner government had acted as it ought to have acted in the matter. "Quite true" replied Mr. McKane "but 'Jim' Martin is not the right man."

Mr. Ritchie and Mr. McKane returned on Tuesday. Mr. Miller who is a young lawyer will remain here until after the election and may settle here.

Accidental Death.

A Camp McKinney correspondent sends the following particulars regarding the death of Victor Engston. He was a young man of about 20 years of age, and weighed 200 pounds. He had just worked two days in the Cariboo as mucker and was coming up in the cage with the steel at about 5:30 p. m., Saturday last when the engineer, Charles Keeley, felt the rope shake and immediately stopped the engine and sent for the foreman who accompanied by another miner went down the ladder and found the unfortunate man had fallen out or been knocked out of the cage, he had fallen about 200 feet and struck a plank over the dump in which was 10 feet of water. The plank was broken in two and the body was fished out of the water and was buried on Sunday week last.

Church Social.

The ladies of the congregation gave a church social in Rendell & Co's. hall on Saturday evening last. There was a good attendance. An excellent and diversified programme was rendered. Refreshments were served by the ladies. At the close the chairman in behalf of the ladies presented Rev. Mr. Guy with a well filled purse. The reverend gentleman made a suitable reply.
