THE CITY COUNCIL.

THE regular meeting of the city council was held on Monday evening last. Owing to the absence of the Mayor and Ald. McKenzie and Hamill only four members were present. Ald. Rendell presided.

The City Clerk returned the completed assessment roll to the council. On motion of Ald. Phelan seconded by Ald. Galloway, the assessment roll was received and the city council will sit as a court of revision at ten o'clock on Monday, 29th inst., in Rendell & Co's. hall, to hear all complaints against the assessment.

The assessment roll shows a total assessment valuation in the city of $228,345. Of this amount $193,725 is for land and $34,620 for improvements. The largest assessed owners are Robert Wood & Co., who are assessed for nearly $82,000. The total assessment for the 640 acres within the city limits would be considerably increased were it not for the fact that there are included at least three mineral claims which are not yet subdivided and which therefore cannot be assessed under the municipal act. Improvements were assessed at 50 per cent. of their full value.

After disposing of the assessment roll, the aldermen engaged in a discussion dealing with hawkers and their licenses. It had been found that certain Okanaganers were hawking without taking out a license and the collector was instructed to take legal steps to enforce the license law. Another matter which engaged the attention of the aldermen was the question of laying down sidewalks. Those who are building are anxious to know the proper grade for the sidewalks and the width. The council decided that all sidewalks on Copper and Government streets must be seven feet wide and the street grades will be secured as soon as Mr. C. Æ. Shaw, C. E., who is now rushed with work, can give the matter his attention.

Ald. Galloway gave notice to introduce a road and dog tax by-law, to take effect next year. The council then adjourned.

❋ ❋ ❋

WATERWORKS ASSURED.

Greenwood is going to have a system of waterworks before Christmas. The Greenwood City Waterworks Company have so decided, and as Mayor Wood and Ald. Galloway are the principal shareholders in the company, the citizens feel assured that their decision will be carried into effect. The work will be commenced immediately. Mr. C. Æ. Shaw, C. E., has secured the necessary levels for the pipe lines and Ald. Galloway is calling for tenders for excavating the necessary trenches for the pipes. Pipe of the very best quality has been ordered from Spokane and will be brought here as quickly as the freight teams can haul it from Marcus.

The system contemplated is chiefly for fire protection purposes and will be laid with a view to extending it with the growth of the city. From the dam, about one-quarter of a mile above the city, an eight-inch pipe will be laid along Greenwood street to Government and Copper streets. Then branches will be run on Copper and Government streets for 600 feet on either side of Greenwood street. This will carry the system to Mr. Walsh's building on Copper street south and beyond Mr. Butler's harness shop north and on Government street the pipe will extend to the furtherest buildings on both sides of Greenwood street. The pipes on Government and Copper streets will be four inches in diameter. Hydrants will be placed at different points on both streets and sufficiently frequent to insure that no building will be destroyed by fire if water can prevent it.

The company will of course make connections with residences and hotels if the owners so desire. There are four or five establishments in the city that are anxious to use waterwheels and those will mean a considerable revenue to the company.

The dam on Twin creek is partially completed and with the expenditure of a small amount of money can be made sufficiently safe to hold a large volume of water. The dam is at such a high altitude that water from a nozzle will knock the shingles off any roof in the city. The city council will necessarily purchase a good supply of hose before the system is completed. Then there will be only a few of the houses on the outskirts of the town that cannot be reached in case of fires.

The decision of the company to begin work immediately is gratifying news to the citizens. It shows a confidence in the city, will insure more liberal treatment from insurance companies, and it will mean the expenditure of money and the employment of a large number of men. With a good water system Greenwood will also be a more desirable place to live in and owners of real estate will have another inducement for expending money in improvements.

❋ ❋ ❋

BEGGING AGAIN.

The Victoria, Vancouver & Eastern Railway & Navigation Company have written to the City Councils of Vancouver, New Westminster and Victoria, asking the councils to appoint delegates to act with delegates from other cities in urging upon the government to grant the subsidy of $4,000 per mile—which had been voted for the construction of the line; also stating that the company was now ready to go ahead and that the expenses of the delegates would be paid.

To say the least this action is startlingly peculiar. If the company have now plenty of money to build the road as its officers mentioned, why should it be necessary to take the action suggested? The $4,000 a mile was appropriated by the legislature for any company who would build the road, and when the road is built by the V. V. & E. Company they will get the bonus. The best way for that company to secure the bonus is by building the road. Until then the councils of the coast cities would be foolish to commit themselves by endorsing a company who may or may not be in a position to carry out all the promises they make. Such action on the part of the cities may prejudice the interests of other companies who are probably in a better position to build than the Victoria, Vancouver & Eastern.

In the light of past experiences with railway companies city councils should fight shy of such a scheme as that proposed by the Victoria, Vancouver & Eastern Railway & Navigation Company.

Railway promoters would do well to refrain from attempting to draw the public into their schemes. The lessons of last session are still fresh in the minds of the people and they are not likely to look kindly upon schemers whose only object is to make money out of railways built by private parties by the use of public money.

The promoters of the V., V. & E. while they may be short of cash are not lacking in gall. Their offer to pay the delegates' expenses is characteristic of the company. We can scarcely believe that Messrs. McKenzie & Mann who secured the charter, authorized the secretary of the company to write such a letter to the city councils. The work is altogether too coarse for such astute business men as they are known to be. It is more like the work of the amateurs who haunted the lobbies of the legislature halls at Victoria and Ottawa last winter.

BRANDON AND GOLDEN CROWN.

Annual Meeting of the Company Held at Greenwood.—Congratulatory Reports from President—A Wonderful Property, well Equipped and Systematically Developed.

Few mining companies operating in this province have been fortunate enough to make such a favorable showing as that presented by the Brandon & Golden Crown Co., at its first annual meeting held in the managing-director's office, Greenwood, Tuesday last.

The manager's reports showed that in the six months in which active work had been carried out on the Golden Crown exceptional progress had been made in uncoverirg the wonderful richness of this property. Conservative purchasers of mining stock—those who buy with discretion—first look to the character of the mine, but almost as important is the method of prosecuting the work on the property. When these two things are taken into consideration, it is not surprising that the Brandon & Golden Crown stock should sell rapidly at 10 cents, should be just as eagerly sought for at 15 cents and that the sales should be still larger at 20 cents. Investors are being convinced of the value of the property as the work of development proceeds and the directors confidently expect just as ready a sale at 25 cents—the price at which the stock is now quoted.

Among those who were present at the annual meeting were: Hon. Thomas Mayne Daly, Rossland, president; Andrew Kelly, Brandon, Man., vice-president; W. L. Orde, Rossland, secretary-treasurer; W. A. McDonald, Q. C., Nelson, B. C., director; G. H. Collins, managing-director; W. J. Porter, director, and Messrs. Ald. Galloway, Ald. Rendell, J. A. Russell, J. Farrell, J. Sanderborn and other local shareholders. The total number of shares represented at the meeting either in person or by proxy was 1,122,000.

Hon. T. Mayne Daly, the president, occupied the chair and after the minutes of the last general meeting were read by the secretary and adopted, the president read his report and placed the financial statement before the shareholders. In his report Mr. Daly congratulated the shareholders upon the very flourishing condition in which they would find the affairs of the company. The sale of treasury stock already totaled over 153,000 shares and the demand was increasing. The financial statement which he laid before them showed that although $8,500 had been already expended in development work exclusive of amount paid for machinery, there were still ample funds on hand to carry on the work of the company.

The report of Mr. G. H. Collins, the managing-director, was equally encouraging and it is given in full below. These reports were received and unanimously adopted.

After making unimportant amendments to the by-laws of the company the shareholders proceeded to elect directors for the ensuing year. The new directors were all members of last year's board excepting Mr. J. Jermyn of Toronto. Mr. Jermyn who is well known to the people of Greenwood has invested heavily in the company. The new board of directors is as follows: Hon. T. Mayne Daly, Ex-Minister of Interior; Andrew Kelly, of Alexander, Kelly & Co., Brandon; Hon. J. N. Kirchoffer, senator, Brandon; W. A. McDonald, Q. C., Nelson; W. A. Fuller, Spokane; W. M. Johnson, Brandon; G. H. Collins, Greenwood; W. J. Porter, Greenwood; J. Jermyn, Toronto.

It was decided to hold the next general meeting at Greenwood, on the first

Wednesday in June, when, as Mr. Daly stated, the company could probably decide what should be done with the ore as a railway will be under construction by that time.

In the evening a meeting of directors was held and the old officers were re-elected. The directors decided to raise the price of the mining stock to 25 cents a share.

They also decided that development work should be vigorously pushed during the winter. The machinery is now on its way from Marcus and as soon as it is placed in position, which will be before the end of the month, sinking will be proceeded with on the No. 1 lead. The shaft will be sunk to a depth of 400 feet. The work on the tunnel which is now in over 200 feet will also be continued.

The meeting was harmonious throughout, every shareholder being apparently delighted with the affairs of the company.

Below is the manager's report:

Office of the Brandon & Golden Crown Mining Co., Limited.
Greenwood, B.C., October 1st, 1897.

To Shareholders and other Investors:

The management of the Golden Crown Mining Company, Limited, has much pleasure in submitting the following facts for the information of shareholders and others who may be disposed to invest money in a valuable and well managed mining property—that is now being energetically and systematically worked, with such excellent results that it already ranks with the best of the mineral claims of the important district in which it is located.

COMPANY'S PROPERTIES.—The company owns the well and favorably known mineral claim, the Golden Crown, which is a gold property, located in Wellington camp, in the Grand Forks Mining Division of the District of Yale, B. C. It adjoins on the northwest the "Winnipeg" a high grade gold copper proposition, yielding ore assaying all the way from $20 to $1,200 in gold, the average of the ore body being about $50 per ton. The company's title to the Golden Crown is indisputable, the claim being crown granted by the former owner whose transfer to the company has been duly registered at the District Land Registry office, Kamloops. The Golden Crown is a full sized claim 1,500 ft. by 1,500 ft., with an area of about 52 acres.

The company also holds under bond the Calumet mineral claim, which adjoins the Winnipeg on the southeast. This claim has not yet been prospected the company's operations having been thus far mainly restricted to opening up the Golden Crown leads.

It may be here mentioned that the Winnipeg claim, although only a fraction, with an area of 33¾ acres, was recently sold for a large amount—stated to be $60,000 and that its valuable main lead has already been proved to extend for at least 600 feet into the Golden Crown.

EARLIER DEVELOPMENT.—The former owner of the Golden Crown, Mr. J. W. Porter, did a good deal of effective work on the claim before it was purchased by the company. This work included several open cuts and prospect holes, and two shafts, one 53 feet in depth and the other 31 feet. A cross cut was run 15 feet from the bottom of the latter shaft: in all five ore veins were exposed by Mr. Porter, these ranging from 18 inches to 5 feet in width and yielding ore, giving assay values up to $600 in gold.

LEAD NO 1.—Early in May 1897, the company commenced prospecting for this lead, which is an extension of the main lead of the Winnipeg, the first work being done was the making of an open cut, with the object of cutting the lead on the Golden Crown near the south line of the claim. In tracing this lead six separate surface cross cuts were made, at intervals of about 100 ft. and in each of these the lead was met with, running in a northwesterly direction. At a distance of about 500 ft. from the south line of the claim the company afterwards started to sink a double compartment shaft, 4 ft. by 8 ft. in the clear, but at a depth of 52 ft. the shaft became so wet that work here had to be suspended until the pumping and hoisting plant, already ordered, shall be installed and set to work. In sinking the ore was found to vary from 3 to 5 ft. in width. An average sample taken from near the surface returned an assay value of $97.56 in gold and 3 to 6-10, per cent. of copper. The dip of the lead having taken it out of the vertical shaft, a cross cut was run in 9 ft. at the 50 foot level, this exposing the lead and showing 5 ft. of solid ore, samples of which generally maintained similar assay values to those mentioned above of ore obtained near the surface.

LEAD NO. 2.—This lead which runs parallel with No. 1, has not yet been extensively prospected along its course, but a shaft has been sunk on it 31 ft. and at the 30 foot level a 15 foot cross cut has been run, intersecting a quartz vein from 8 to 10 inches in width.

LEADS NO. 3 AND 4.—A prospect hole has been sunk 5 ft. on lead No. 3, this exposing a 5 ft. vein of ore; a similar hole, 4 ft. six inches in width. An average sample of ore from the latter vein returned $21.54 in all values.

LEAD NO. 5.—A shaft has been sunk on lead No. 5 to a depth of 53 ft. The vein is about 18 inches in width, and an average sample of ore, taken from the bottom of the shaft, gave an assay value of $136.01 in gold and copper.

LEAD NO. 6—This lead shows a width of about 5 ft. in a shaft sunk 10 ft. An average sample of the ore assayed $12.-10 in gold and copper.

CROSSCUT TUNNEL.—As leads 3, 4, 5, and 6, which outcrop on the surface and are general parallel, occur in a big dyke of diorite, a cross cut tunnel, 4 ft. by 6 ft. six inches, is being run to intersect them. It was thought probable that several blind leads would also be cut by this tunnel and this expectation has already been realized, for, although to date it has been driven only about 175 ft. 3 blind leads, of 6 inches, 18 inches and 4 ft. respectively, have been met with. It is anticipated that several more will be encountered ere the tunnel is in the distance of 300 ft., which it is proposed to run it. In fact the development work so far done and other indications, together, appear to justify the conclusion that the Golden Crown will eventually be found to contain a perfect network of leads, which will further enhance the value of this highly favored mining property.

CHARACTER AND OUTPUT OF ORE.—The general character of the ore is copper pyrites and pyrrhotite (magnetic iron pyrites) with a quartz gangue. As already stated, it carries good values in both gold and copper, the bulk of it being of a shipping grade. The dip of the ore veins is almost uniformly 85 degrees S. W. As soon as the company's mining plant, particulars of which follow, is in operation it will be quite practicable to maintain a steady output of pay ore in such quantity as shall be deemed advisable. The shipments of ore will for economical reasons, necessarily be comparatively small in quantity under the existing unfavorable conditions of transportation; but immediately railway facilities with a suitable smelting point shall have been secured, the output will be large and continuous and the returns therefrom proportionately remunerative. A project for the erection at Midway—which is within ten or twelve miles of the Rock Creek coal deposits and less than twenty miles from the Golden Crown mine—of a smelter to treat Boundary Creek ores is already receiving the attention of men having practical experience in the business.

PLANTS AND MACHINERY.—The hoisting and pumping plant lately ordered by the company from the Ingersoll-Sergeant Drill Company comprises a 50-horse power locomotive boiler, a 30-horse power Standard Ligerwood hoisting engine and a 140 gallon Knowles vertical sinking pump, together with a full complement of accessories, including 400 feet of ¾ inch wire rope, buckets, piping, etc. This plant is expected to arrive at the mine during the month of October. When received it will without delay be placed in position at the main working shaft on lead No. 1, and thereafter sinking to a depth of 400 ft. will be proceeded with as expeditiously as possible.

MINE EMPLOYES AND BUILDINGS.—The company now employ from twelve to fifteen men, whose work is directed by a fully competent superintendent of considerable mining experience. It is anticipated that after the installation of the pumping and hoisting plant from eighteen to twenty men will be continuously employed in developing the mine. Ample and substantial building accommodation for the men and for other mine purposes, including boarding house, bunk house, store powder house, blacksmith shop, etc., has already been provided for. The company has recently erected a large shaft house, a commodious building for the protection of its hoisting plant, soon to be installed.

NATURAL ADVANTAGES.—There is growing on the Golden Crown claim plenty of good timber, suitable for use both in the mine workings and as fuel; an abundant supply of water, for all ordinary purposes, is also possessed. The altitude of the claim, which is situated at the summit of the mountain ridge between Fourth of July creek, flowing south-east to Kettle river, and Lind creek, running west to Boundary creek, is about 4,500 feet. The main wagon road between Greenwood and Grand Forks crosses the claim, from which there is a down grade nine miles in the opposite direction to Grand Forks. The railway line now being surveyed from the Columbia river westward to Penticton will pass close to Grand Forks, as well as down Boundary creek, so that when constructed it will be easily accessible for ore shipping purposes by wagon road or tram line at the two points mentioned.

MANAGEMENT.—The directorate of the company includes men of high standing, who may be thoroughly relied on to manage the company economically and successfully. The officers exercise a careful general supervision of the affairs of the company and the work at the mine is carried out under the efficient direction of the resident managing director and the mine superintendent.

GENERAL.—The foregoing facts fully warrant the management in confidently recommending the company's stock as a very desirable and promising investment. Summarised, the position is that the company owns one of the most valuable claims in the district, having well defined leads containing ore that runs well as regards both quantity and quality; that the property is fully paid for, has already been extensively prospected with very gratifying results, and gives much promise of soon developing into a permanent and payable mine; that the machinery having been obtained and all preliminary difficulties overcome, operations will henceforward be carried on energetically, with every reasonable prospect of eminently satisfactory results.

Mr. W. A. MacDonald, Q.C., of Nelson, regretted he was unable to make a longer stay in Greenwood. He intends returning in the spring and spending several weeks in the district. Mr. MacDonald was formerly from Brandon, Man.

An Erratic Change.

Mr. Justice Walkem is nothing if not ambitious. His greatest desire is to be the chief justice of this province. Long before Sir Matthew Begbie shuffled off the mortal coil and went to be tried before the highest tribunal, Justice Walkem had his eye on the Chief Justiceship. Since Hon. Theodore Davie secured the coveted position Mr. Walkem has been nursing his disappointment but his ambition is as strong as ever. He now appears to have become possessed of the idea that the better way of reaching the goal of his ambition is by imitating the erratic conduct of the late Chief Justice. In the few years previous to his death, Sir Matthew became famous for his decisions. Mr. Justice Walkem will become equally famous, if his recent action at Nelson is any indication of his course in the future.

Pete Costello, who has the contract for the Rossland sewers, was tried before Justice Walkem and a jury for kicking Edward Cronyn, a lawyer, into insensibility. The evidence was strong against the accused; the Judge's charge to the jury was equally strong and the jury found Costello guilty. Mr. Justice Walkem sentenced him to six months' imprisonment in Kamloops jail. But during the night the Judge found that Costello had business interests which might suffer by his confinement and he changed the sentence from imprisonment to $100 fine. The fine was promptly paid and Costello was a free man.

We would strongly suggest to the Department of Justice to superannuate Mr. Justice Walkem without delay. Our courts have always been lauded for their method of dispensing justice but their reputation will not stand many such "bad breaks" as that of Mr. Walkem's.

Ruckle Bros'. Land.

The now famous Ruckle Bros.' case has reached the courts. It will be remembered that it was the subject of a parliamentary investigation last session. The particulars ought to be fresh in the minds of the people in this district. Through the action of the Chief Commissioner 67 acres of valuable land near Grand Forks were taken away from the Ruckle Bros. and given to E. M. Johnson, acting for Miss Davey. The price paid was one dollar per acre. The Ruckle Bros. through their solicitors brought action against Johnson and Miss Davey. The case was tried before Judge Drake and he dismissed the action against Johnson. The Ruckle Bros. have appealed from this decision.

The ladies of Midway gave a very pleasant Hallowe'en social in McNicol's Hall, Midway, on Friday evening last. There was a large attendance, several being present from Greenwood. Songs, Hallowe'en games and appetizing refreshments served by the ladies, made a pleasant bill of fare for the audience. A good sum was netted for church work.

GREENWOOD AND DISTRICT.

W. T. Smith returned this week from a business visit to Spokane.

G. H. Byrne of Rossland is paying Greenwood a business visit.

Ald. Hamill is reported to be seriously ill with typhoid fever at Armstrong.

Good progress is being made on the Anaconda mine. There are twelve men now employed there.

Mr. Leslie Hill, manager of the Prospecting Syndicate of B.C., returned on Monday from the Coast.

The Hamilton Powder Company intend erecting a large magazine on the hill leading to Greenwood camp. It will be placed at a safe distance from the city.

W. Gutelius, the manager of the Columbia & Western Railway Company, arrived in Greenwood on Sunday and rode to Penticton with Mr. Sullivan, the engineer who has charge of survey.

The officers of the Brandon & Golden Crown Co. returned to Marcus by a private carriage on Thursday morning. The meeting of the company would have been held on Tuesday but Mr. W. L. Orde, the secretary, missed the train at Northport and consequently did not arrive until Wednesday.

Ald. Barrett is having a building for the men erected on Mr. A. Drucker's properties, the Hidden Treasure and Buttercup, in Deadwood camp. A number of men will at once be set to work developing the properties. The Hidden Treasure and Buttercup are opposite the Mother Lode.

It is reported that Mr. Leonard Norris and Mr. C. A. R. Lambly have awarded a grant of the power at Cascade City to the Cascade Development Co. who own Cascade City. The other applicant was the Cascade Water Power & Light Co. in which Dr. Jones and other Victoria capitalists are interested. They will likely appeal from the commissioners' decision.

One Vindex writing from Fairview undertakes to criticize the article regarding that thriving town which appeared in a recent issue of the BOUNDARY CREEK TIMES. He resents the familiar reference to police officers and other public servants. As the writer of the article never attempts to please snobs it is not surprising that Vindex should be called upon to criticize the article.

The Willow Gold Mining Co. held its annual meeting in Spokane recently and re-elected its former officers. Judge Spinks is president.

A hospital will shortly be erected by the citizens of Fairview. Messrs. Dier, Davidson & Russell have contributed the necessary lots.

Mr. Andrew Kelly, the vice-president of the Brandon & Golden Crown Co., is interested in the Helen and other mining properties in the district.

The Winnipeg.

Mr. W. F. Honey, of Grand Forks, North Dakota, one of the principal shareholders in the Winnipeg Company, has arrived at the property and will remain there for some time. Mr. Honey is a prominent banker of Dakota. The machinery of the Winnipeg is now on the road from Marcus and will be installed immediately. Mr. McIntosh has a number of men at work on the property.

Customs Seizures.

O. B. and P. B. Nelson, J. J. Askulik and E. Pharr of Nelson, Wash., and Phil Cressor and F. Reany, of Eureka, are in trouble with the United States Customs officers. It appears that the nearest U. S. officers to Nelson, Wash., are located at Marcus, 50 miles distant and the business men of Nelson and Eureka rather than go that distance to clear their goods, shipped them across the line without the formality of paying duty. They have offered to pay the duty since but the customs authorities are anxious to push the matter. If Uncle Sam wishes to collect duties, he should place an officer at such an important place as Nelson.

Additional Deals.

Mr. Walter Stirling of Vancouver left Greenwood for the coast on Tuesday but expects to return in about two weeks. Before leaving he made several additional investments. He purchased Mr. Garland's lot on Government street, where Mr. A. S. Black's office is located for the sum of $525. He also bought several mining properties, among them being the Big Iron and V fraction in White's camp. These properties were sold by Messrs. Strong and Francis. They are situated near the Cornucopia and have very promising showings.

Ruby Bonded.

Outside capitalists are rushing after Boundary Creek properties and consequently scarcely a day passes but what one or two deals are reported. Among the properties which have recently changed hands is the Ruby in Smith's camp, about one mile from Boundary Falls. It was owned by W. G. McMynn, George Cook and Capt. Lamb. On Tuesday it passed under the control of R. W. Macfarlane, an English mining engineer, and Mr. A. S. Mackay. Mr. Macfarlane experted the property and finding good indications, they secured a bond for $10,000. Ten per cent. of the amount was paid down and the balance in twelve months. The bond calls for the expenditure of $2,000 in development work. Mr. Macfarlane is also examining other properties and it is possible that he may invest further for his principals.

On November 1st, the winter service of the Okanagan branch of the C. P. R. went into effect. Hereafter the train service will be tri-weekly instead of daily as at present, leaving Sicamous every Monday, Wednesday and Friday morning and from Okanagan Landing every Tuesday, Thursday and Saturday. Connecting trains will leave Vancouver every Sunday, Tuesday and Thursday. This, however, does not interfere with the through service to Penticton, Fairview, McKinney, Greenwood and Boundary Creek points.

Notice is given in the current issue of the British Columbia Gazette that the Comstock—Mammoth Quartz Mining & Milling Co. has been reincorporated. The capital stock is $150,000, divided into 20 cent shares. To purchase the Comstock and Mammoth mineral claims is among the objects of the company. The head office is at Fairview.

CROWN GRANTS.—When applying for crown grants, request that the advertising thereof be published in THE BOUNDARY CREEK TIMES,—the mining paper of the district.

DESTROYED BY FIRE.

The Vernon "News" office was completely burned a week ago last Thursday. All of the employees were out when the fire started, and when it was discovered it was bursting through the windows and roof. The "News" was to have moved into its large new block on Friday. The loss on plant and stock will be about $5,000; insurance in the Royal company, $3,000. The building was owned by the Townsite company and the loss on it is about $1,000. It was insured. Wulffsohn & Bewicke's block, which was only 20 feet from the "News" building, caught fire several times, but the brigade and citizens managed with the fire engine to quench the blaze. The damage to this block will not exceed $200 and is covered by insurance.

THE TIMES extends its sympathy to the "News." We are sorry we are not near enough to Vernon to offer the free use of our plant.

A Handsome Residence.

Mr. A. B. Campbell has prepared plans for a handsome residence for Ald. S. Moulton Barrett to replace the one recently destroyed by fire. The plans show an exceptionally tasty and well arranged one-and-a-half storey building surmounted by a dome. Underneath the building will be a large basement in which will be placed a furnace to heat the entire building. The ground floor has two wide halls, a front office and private office, a bed room, bath room, kitchen and pantry, a dining room and parlor. A broad veranda will run around the building, and there will be six rooms on the second floor. The kitchen and dining room will be panelled throughout and the other rooms will be plastered. There will be an entrance from the dome to the front bed room.

Mr. Campbell also prepared plans for Ald. Barrett's block but these were destroyed by the fire. They will be duplicated however, and tenders for the erection of both buildings will be called for in a few days.

TAX NOTICE.

UNPAID TAXES WITHIN THE MUNICIPAL LIMITS OF THE CITIES OF

Greenwood and Grand Forks.

AS PROVIDED by the "Speedy Incorporation of Towns Act, 1897," a rateable portion of the real estate taxes within the municipal limits of the cities of Grand Forks and Greenwood for the year 1897 is payable to the respective municipalities. In order that the Provincial Assessment Roll may be closed, in so far as relates to property assessed within said cities, notice is hereby given that unless all arrears of taxes due and payable on said property are paid to the undersigned at the Assessor's Office, Osoyoos, on or before the

30th Day of November, 1897,

the lands and property against which taxes are then unpaid will be advertised for sale in accordance with the provisions of Tax Sales under the "Assessment Act."

Municipal Elections for 1898.

THE following persons are entitled to vote, viz.:

FOR MAYOR:

Any person qualified to vote for Aldermen is entitled to vote for Mayor.

FOR ALDERMEN:

The following persons are entitled to vote, that is to say:

Any male or female, being a British subject, of the full age of twenty-one years, and

(a) Who is the assessed owner of lands or of improvements or the assessed occupier of land situate within the municipality; or

(b) Who is a resident of and carries on business and is the holder of a trades license in the municipality, the annual fee for which is not less than $5.00 and who has paid on or before the 1st day of November, 1897, the full license fee therefor; or

(c) Who is a householder within the municipality. A "householder" is defined as a person who holds and occupies a messuage, dwelling or tenement, or any part of a messuage, dwelling or tenement within a municipality, paying therefor a rental or rent value of not less than sixty dollars per annum.

Householders must have paid all municipal rates, taxes and license fees (exclusive of water rate or water rent) on or before the 1st day of December, 1897, to entitle them to make the declaration as mentioned below, and in order to be included in the voters' list must, on or before the 1st day of December, 1897, enter their names with the Assessor or Clerk of the municipality as a voter, and make and personally deliver to the Assessor or Clerk at the same time a statutory declaration as set out in section 2, subsection 2, of the "Municipal Elections Amendment Act, 1897."

Forms of said declaration may be obtained at the office of Duncan Ross, City Clerk.

No Chinese, Japanese, or Indians are entitled to vote.

By order.

A. K. STUART, Vancouver.

THE SUMMIT ROAD.

Owing to a complication of adverse circumstances, work has been suspended on the new wagon road to Summit camp. An excellent road has been constructed the whole distance excepting a mile, which can be built for $250. The government appropriated $500, while the Townsite Company and other residents of Greenwood contributed about $600. Mr. A. H. Harrison, of the B.C. mine, also built about 1½ miles of road from the B.C. towards the Emma. The work from Eholt creek was in charge of Mr. Lindsay and he succeeded in reaching a point about 1½ miles from the road from the B.C. when the funds were exhausted. The road could have been completed for the amount subscribed but for the unusually high wage of $3.00 per day. The government pays only $2.00 per day. Mr. L. V. Cuppage, the road superintendent, was in Greenwood this week and he expressed his anxiety to see the road completed, but says the appropriation for the district is exhausted and if the government are to contribute further it must be a special appropriation.

Now that nearly $1,200 has been expended, the road should be completed. Hon. Mr. Martin promised $1,200 for this road, then $600, and the appropriation was only $500. As R. Wood & Co. and the citizens of Greenwood have already contributed thousands of dollars in building public roads, it is surely not too much to ask the government to contribute the necessary money to complete the much needed road to Summit camp.

A Handsome Drug Store.

The two-storey building erected by Mr. W. S. Fletcher for his extensive drug business is completed and he has removed the stock from the old store. The new premises have been handsomely fitted up and have all the conveniences of a well-appointed drug store. Mr. Fletcher intends increasing his stock, having now more space at his disposal.

Sheriff Pemberton passed through Greenwood on Thursday on his way home to Ducks. He was in charge of Manly & Averill's store at Grand Forks for several weeks. Dr. Averill has now full charge of the business. He has received an extension of time from the creditors.

MINING NEGOTIATIONS TRANSACTED.
OFFICE:—CAMP McKINNEY.
N.B.—Some valuable Mining Properties in Camp McKinney and vicinity for disposal.

GREENWOOD AND DISTRICT.

Mayor Wood returned yesterday from Armstrong.

Mr. J. P. Graves, the manager of the Old Ironsides Company, arrived from Spokane yesterday.

Mr. George R. Naden, the manager of the Bealey Loan and Trust Co., left on Wednesday on a business trip to Rossland.

Owing to his successor not having reached Greenwood, Mr. Leith did not get away this week as expected. He will probably leave early next week.

Mr. Jas. Punch, the manager of the Boundary Falls Mining Co., has a number of men at work on the Pasadena group in Greenwood camp.

Mr. L. Ostroski, of the Greenwood City Mercantile Co., returned with his family from Davenport on Thursday. They have moved into their handsome residence which has just been completed.

A meeting will be held on Saturday evening, Nov. 6th, in Mr. Guess' assay office, for the purpose of considering the construction of a skating rink. Everyone who skates or wishes to learn should be present.

Hans Giese, the German Consul at Tacoma, has again returned to Boundary Creek. He was anxious to secure the Snowshoe but it was bonded to Patsy Clark before he could make arrangements with the owners. Mr. Giese is looking at other promising properties in Greenwood camp and it is probable that he may secure one of the best properties in the district.

City of Greenwood.

The trim little steamer, City of Greenwood, built by Mr. Bassett was launched last week and made her initial trip to Okanagan Falls. The water in the Okanagan river is exceptionally low and it is reported that the steamer had considerable difficulty in making the stream. The Dominion government have promised to make the river navigable, however, and the resident engineer, Mr. Roy, has already had several men at work. He intends to visit the river again and carry on further work.

The City of Greenwood is so named as a compliment to this city. She is a well built vessel, capable of carrying 60 tons of freight in the river, and also passengers. She draws nine inches of water light, and 13 inches loaded. The steamer is in command of Captain Cummings.

The people of the entire district hope that the steamer may prove a success. The worst piece of road is the eighteen miles from Okanagan Falls to Penticton and this will be avoided if the steamer can be navigated through the shallow waters of Okanagan river.

A New Lieutenant-Governor.

As THE TIMES goes to press we notice an Ottawa despatch which states that "Senator McInnes of British Columbia has been appointed lieutenant-governor of that province and William Templeman, proprietor of the Victoria Times, has been called to the senate in place of Mr. McInnes. Mr. Templeman is regarded as one of the ablest men in the Liberal party in the western provinces."

Secretary-Treasurer: W. L. ORDE, Esq., Rossland, B.C.

BOARD OF DIRECTORS:

Hon. J. N. Kirchoffer, W. A. Macdonald, Q.C., Fred. Nation, W. L. Lindsay, Wm. Johnson, W. A. Fuller, W. J. Porter, and G. H. Collins.

Owns the "Golden Crown" mineral claim and has a bond on the "Calumet," situated in Wellington camp, Yale District, B.C.

Winnipeg Machinery.

The machinery for the Winnipeg is daily expected from Rossland where it was purchased from Mr. F. R. Mende - hall, the enterprising agent for the Jenckes Machine Company. The machinery includes a complete hoisting and pumping plant, a 50-horse power boiler and a 20-horse power hoist, a No. 5 pump with all app rtenances. The plant will be placed in position by one of the Jenckes Machine Co's. men. This company also sold the plant for the Ironsides mine.

Mr. Graham's Visit.

Donald Graham, M. P. P., returned on Monday from Grand Forks where he held a public meeting on Saturday night with Mr. Addison in the chair. Mr. Chas. Hay introduced a resolution urging the early construction of a railway and recommending that the government undertake the work if the $4,000 a mile be not sufficient to induce a company to build the road. A resolution was also introduced in favor of subdividing the district of East Yale. Both resolutions were carried.

Mr. Graham left Greenwood for his home on Tuesday.

Building Activity.

Building operations continue active in Greenwood. Several houses are in the course of erection while the finishing touches are being made on some of the large buildings.

Mr. W. E. Medill is busy plastering the Hamill block which will be ready for occupation in about three weeks. It has been leased by Messrs. Graham and Perry who will open a first class hotel about Dec. 1st. The hotel will be called the Imperial.

Mr. Medill is also building a neat cottage for himself on Copper street. When completed it will be occupied by his family who arrived from Nanaimo recently.

Mr. L. Ostroski's residence is also nearly completed. Mr. Ostroski left on Sunday for Davenport and will return in a few days with his family who will reside here during the winter.

W. S. FLETCHER

GREENWOOD, B. C.

Mail orders receive prompt attention.

We Want no Better Evidence

Than the large and increasing trade we are doing in Boots and Shoes, that the people are getting better value for their money from us than can be had anywhere else in the district.

The secret of our success is not due to our ability to sell a pair of Shoes better than our competitors, but to the honest and reliable goods we carry and to our being satisfied with a fair profit. We carry only goods manufactured by reliable makers; of these the foremost are

The Ames Holden Mfg. Co., Montreal,

the largest and most reliable manufacturers in the Dominion. We have on hand a fine line of these goods and guarantee every pair bearing their name, to which we invite your inspection.

Note a few of their special lines in Men's goods:

MEN'S CHROME CALF BALS.. RUBBER SOLE.
" " " " SCOTCH WELT.
" CHOCOLATE " " LEATHER LINED.
" ENGLISH CALF RIFLE BALS.
