Hunter-Kendrick
COMPANY, LTD.

NO TWO ALIKE

OUR NEW EMBROIDERED CASHMERES are cut in waists lengths only. If you have one of these there will be no other like it in this community. Very handsome goods.

FRENCH FLANNELS — The new stripes and figures are exceptionally pretty. All the popular colorings are shown and must be seen to be appreciated.

WRAPPERETTS — A good assortment of Fancy patterns—striped and figured. Prices range from 12½c to 25c.

HEADQUARTERS FOR LADIES' AND MISSES' COATS
We not only have a nice selection of these made up, but can supply the goods. A BIG SPECIAL for Misses' and Children's coats will be found in our 52 inch Ladies' cloth, which we offer at $1.25

NEW ASSORTMENT OF
Ladies Fancy Collars. Elegant in style. Reasonable in Price.

ASK TO SEE
The EPINGLE "LIANE" Hair Pins.

NEW LINES OF
LINENS, TABLINGS, TOWELINGS, HANDKERCHIEFS

NEW
Fall Goods Arriving

We are showing the nicest line of all-wool clothing at $15.00 ever brought in town

Fall and winter underwear ranging from $1.25 a suit. The Wolsley at $5 50 a suit, guaranteed

Our Mackinaws in English and Canadian goods are union made and guaranteed at $5.00

SHOES — A nice line of Slater's Invictus Shoes just in, which we can highly recommend, and at prices to suit the times. — SHOES

Stetson Hats best quality from $4.00 to $5.50.

In shirts, collars and cuffs we carry a neat range of the W. G. & R. goods,

RUSSELL-LAW-CAULFIELD CO., Limited.

AMERICAN SHOES

The Original "Julia Marlowe" LacBoot with elastic instep $5.00

RICH'S FAMOUS JULIA MARLOWE SHOES

With or Without "Elastic Instep"
THE GENUINE HAVE THE NAME ON EVERY SOLE. ACCEPT NO SUBSTITUTES.

"Julia Marlowe" Lace Oxford Shoes, fine Kid with elastic instep $3.25

THE NEW "JULIA MARLOWE" LACE BOOT WITHOUT ELASTIC INSTEP ..... $. 50

We announce with great pleasure that we are the exclusive agents of this famous make of fine shoes and have in stock a variety of the best styles.

RENDELL & CO.
Agents for Mason & Risch pianos.

RAILWAYS RUNNING RACE

C. P. R. and Great Northern the Contestants.

TO THE SIMILKAMEEN

Both Companies Are Closely Watching Each Other.

Will the Great Northern go into winter quarters or will it continue to fight for territory on the Canadian side during the winter? This is a question which the C. P. R. would like to have answered. The big Canadian company is ready to give battle to its principle enemy on the hills or in the valleys of the glorious Similkameen but it is not particularly anxious to continue hostilities while the mercury sinks below zero and the Italian navvy chatters his teeth and spends his time in longing for the warm rays of sunny Italy rather than in making railway grades. But if fight they must they have got the men. they have got the charter and what is still more important they will have the money in a short time. The Canadian Pacific Railway Company is making a raise of some twenty-five odd millions of dollars, and with this, in the inside pocket, it does not propose to allow the Great Northern to get all the trade in the Similkameen and Nicola.

In the meantime the officials of both companies are kept busy watching each other. When they meet they give each other the glad hand and their smiles are always childlike and bland but friendship goes no further. The Great Northern has been sending its best and brainest men to size up the situation and figure out the amount of tonnage in sight, and it has also sent out its engineers to find a feasible route over the divide between Kettle River and Okanogan. Last year J. H. Kennedy followed instructions of J. J. Hill and surveyed a road on a 1 per cent grade over the mountain. The result was that a long detour had to be made into the United States before the Okanogan valley could be reached. It was gently hinted to Mr. Hill that the country to be traversed was not a one per cent country and that it would be more profitable to supply the power to haul trains over the mountain on a two per cent grade than build and maintain a road on a one per cent grade. So the Great Northern engineers this year are finding a new route with more grade and less distance. Already Chief Engineer Hogeland and Chief Contractor Shields have been in the Okanogan, and this week R. C. Morgan, superintendent of the S. F. & N. and the V. V. & E., and John C Eden, general traffic manager in the west' left Midway for the west. They are looking for tonnage and as it can easily be found no doubt they will bring in a good report of the promised land.

The chief scout of the C. P. R. forces is Harry E. McDonnell of Nelson. He can make a 100 mile ride on horseback and return as gay and debonair as ever, or he can smell a ton of freight if it is within reasonable distance of the C. P. R. line. Mr. McDonnell journeyed into the Similkameen a few weeks ago and his report to his superior officers would be gladly welcomed by men who have Similkameen mines to sell. Mr. McDonnell was here on Wednesday last and on Thursday he went out into the west. Somewhere between Midway and the City of Tulameen he will meet R. C. Morgan and John C. Eden. They will meet as brothers. Railway yarns will swapped and other things done, but Harry McDonnell will not tell the men of the Great Northern when the C.P.R. is going to invade the Similkameen.

This much is certain. When the actual fighting commences the hills will reverberate with the blasts from the railway camps, and the good people to the west, whose hearts have been made sick by hope deferred, will see not one but two railways building into their district.

PLEASED WITH WEST

R. T. Riley of Winnipeg an Interested Visitor.

R. T. Riley a well known financial man of Winnipeg was in the city last week after having visited the coast. Mr. Riley made some investment here a few years ago and he does not regret having done so. He believes that British Columbia mining is beginning an era of better times. The wheat growing sections and the manufacturing centres have had their season of prosperity; a change is sure to come sooner or later and when it does come money which is now required in carrying on the extensive industrial institutions of the east will look for investment in British Columbia mines. The days of wild catting have disappeared and the second boom will be on a legitimate and permanent basis.

NEW MINES ACQUIRED

Montreal and Boston Company Buying Properties.

THE LANCASHIRE LASS

And Sudbury—Force Under Superintendent Collins Increased.

The Montreal and Boston Consolidated Mining & Smelting Company are acquiring more properties. Recently the Lancashire Lass in Summit camp was bonded from W. G. McMynn and Thos. Hardy. This week the Sudbury, in Deadwood camp, was bonded from J. Graham. Both properties have ledges of good copper ore. Superintendent Collins has already a force of men at work on the Lancashire Lass and work on the Sudbury will be commenced in a few days.

Good progress is being made in enlarging the shaft on the Brooklyn; Work was commenced last week on the Rawhide and this week on the Stemwinder. With all these properties working the company will soon be in a position to commence large and regular shipments of ore to its smelter at Boundary Falls which will be blown in early in October. Coke is now arriving for the smelter and a good reserve will be in the bunkers when smelting will begin.

The company made a substantial payment on properties recently acquired. The original owners of the Athlestan, who are principally local people, being among those paid.

General Manager Pemberton left for Spokane Tuesday. He will meet A.A. Munroe there who is coming here for the first time since the big amalgamation was successfully floated. Mr. Munroe will remain here for several days.

Gorman West and G. O. Guise are down from the West Fork.

The Providence Mining Company has declared a fourth dividend of ten cents a share.

H. J. Baron, representing the Mining Reporter, a high class mining journal published at Denver, was in the city this week.

The list of property to be sold for taxes will be published in about two weeks' time. Those who can arrange to pay their taxes before date of publication will save some expense.

W. Macey, Phoenix, who is interested with O. B. Smith in the Skylark bond, was in the city this week and confirmed the report published in the Times last week that a deal had been made for this famous property.

BONDED THE E. P. U. MINES

Duncan McIntosh Secures For Himself and

SOME DAKOTA CAPITALISTS

Messrs. Beecher and Honey Again Invest in Boundary Mines.

One of the best developed high grade properties in the district again changed hands on Monday last when Duncan McIntosh, acting for himself and some North Dakota capitalists, secured the E. P. U. mines. The bond is in the name of W. F. Honey of Park River, N. D. Associated with them are D. H. Beecker and Geo. E. Towle, both of whom are identified with the banking interests of Grand Forks and Park River, N. D. Messrs. Beecher, Towle and Honey were associated with Mr. McIntosh in the original Winnipeg company. They sold out some years ago and are again turning their attention to mining in the boundary.

The E. P. U. mines have been developed to such an extent that there can be no doubt regarding the value or permanency of the property. The group includes the E. Pluribus Unum, the Lancashire fraction, the Marjorie and the E. P. U. fraction. The property is located a short distance above the city hall on Twin creek.

D. H. McVicar and associates bonded the property some two years ago from Pittock and Sluggett. Since then considerable work has been done on the property and over 250 tons of ore shipped which netted, after freight and treatment charges, over $60 to the ton. The work includes a 300 foot tunnel and shaft 85 feet in depth. The vein is a true vissure one and the values are in gold and silver.

A well built gravity tram was constructed last year to carry the ore from the mine to the wagon road above the city resevoir.

Mr. McIntosh took the property over on Tuesday last and immediately installed James Drum as foreman. He has 12 men under him. Regular shipments of high grade ore will be made from the property.

The new owners intend forming a joint stock company which will be run as a close corporation. No treasury stock will be issued.

WORKMAN'S DAMAGES

Case Held Under the Act at Greenwood Courthouse.

Mrs. Christensen, widow of the late N. P. Christensen, and her two children are seeking damages from the B. C Copper Co. under the Workman's Compensation Act. The evidence in the case was heard at the courthouse, Greenwood, this week, His Honor Judge Leamy sitting as arbitrator. S. S. Taylor of Nelson appeared for the Christensens, and H. C. Shaw for the defendant Company. Christensen, while working at the smelter in April last, was seriously injured and died at the hospital two days later.

His honor reserved his decision in the case.

Next Thursday evening at the Auditorinm, the Greenwood Citizen's band will be hosts at a concert and dance given for the purpose of raising money to pay for the handsome uniforms which the band boys are now wearing. The band is a credit to the city and district and should be encouraged. For this reason alone there should be a bumper house, but those who buy tickets will have the additional satisfaction of attending a concert and dance well worth the full price of admission.

Thos. Macaulay, proprietor of the hotel at Beaverdell, was in the city this week.

DOMINION ELECTIONS.

It now looks as if the Dominion elections were going to take place this year. For some time the general impression prevailed that another session of parliament would be held before appealing to the country. It is quite possible that this will yet be done. The government undoubtedly possesses the confidence of the people, it has a large majority in the House of Commons and it would be justified in carrying on the affairs of the country for the full life of parliament without appealing to the people.

There are two good reasons to advance for an early dissolution. A new redistribution bill was passed two sessions ago and the electors are entiled to representation under that act at the earliest possible date. Then again the people should have an opportunity to express their approval of the Grand Trunk Pacific scheme and thus stop the insane criticisms that disappointed Tories are directing against a project which means so much to this country. The exact date of the election will be decided by Sir Wilfrid Laurier. No doubt he has consulted his colleagues or will at an early date regarding this important matter. If the elections are to be held this fall an announcement will be made in a few days.

NOT WANTED.

Holding up railway trains is an innovation which will not be appreciated in this country. Canada has been particularly free from assaults of this kind, and it was worth something to this country that its denizens and even strangers within its boundaries had confidence that person and property were always safe. Our reputation in this regard is too valuable to lose and every effort should be made to apprehend the daring men who held up the C. P. R. train this week. When they are captured our courts can be depended upon to inflict such punment as will be a warning to desperadoes not to ply their trade on this side of the international boundary line.

MINING ACTIVITY.

The news columns of the Boundary Creek Times this week tell a story of remarkable mining activity in Greenwood and vicinity. Not since the early days of the camp when outside capital made investments here, has there been such a boom in mining. This activity is of the greatest possible advantage to the camp because in the majority of instances it is local money which is being invested and paid to local men and which is consequently being expended and distributed in the city. Every new deal means the employment of more men and distribution of more money among business men and others in the city. Greenwood's high grade belt means much to Greenwood, and there is every indication that in a short time every property of merit will be exploited.

Those who have to do with His Majesty's customs should bear in mine that changes have been made in the Customs act during last session. An Order in Council was recently issued dealing with duplicate invoices, new certificates and declarations on invoices and changes in the oath on customs bills of entry. Such changes take effect on October 1st, when duplicate invoices will be required with bills of entry.

Parents are again urged to send their children to school. The attendance at present is not at all in keeping with the size of the city. It is quite evident that there are a number of children of school age who are not being educated. A strict enforcement of the compulsory attendance clause may be necessary.

The Grand Trunk Pacific officials have returned to the east without giving out any information regarding the western terminus of the transcontinental road.

Victoria is making a bid for the western terminus of the Grand Trunk Pacific.

There is something doing in the high grade belt.

Greenwood is a high grade camp.

These are growing times in Greenwood.

Mail Contract

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, 7th October next for the conveyance of Her Majesty's Mails, on a proposed Contract for four years, twelve times per week each way, between Anaconda and Greenwood from 1st November next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Anaconda and Greenwood and at this office

POST OFFICE INSPECTORS OFFICE, Vancouver, B. C., 26th Aug., 1904.

JOHN R. GREENFIELD, Post Office Inspector

NOTICE

IN THE MATTER of the Railway Act, and Amending Acts, and In the Matter of the Columbia and Western Railway Company and portion of Lot 534, Group 1, Osoyoos Division, Yale District, British Columbia.

NOTICE IS HEREBY GIVEN that the said Railway Company is the owner and in possession of its Right of Way over the subdivided portion of the West Half of the above described lot, as shown on the map or plan of the main line of the Columbia and Western Railway, on file at the Land Registry Office at Kamloops, by virtue of an agreement in writing dated the 5th day of August, A. D., 1898, made between Edward Ruckle and Francis Ruckle of the one part and the said Railway Company of the other part, according to the provisions of the Railway Act, 51 Vict., Chapter 29, and Amending Acts, an authentic copy whereof is filed in the office of the Clerk of the County Court of Yale, at Greenwood in the said County.

AND FURTHER TAKE NOTICE that the sum of $262.40, the amount of compensation for the said lands, and interest thereon, has been paid into Court, and all persons claiming an interest in or entitled to the said lands or any part thereof are required to file their claims to the said compensation or the portion thereof to which they may claim to be entitled, in the said office.

Dated this 9th day of September, A. D. 1904.

A. M. WHITESIDE, Solicitor for the Columbia and Western Railway Company.

To Edward Ruckle, Francis Ruckle, the Grand Forks Townsite Company and to all others whom it may concern.

Death of Herbert Redpath

A most deplorable accident which cast a gloom over the community and through which Herbert Redpath lost his life occurred at 8:55 this morning. The deceased was breaking on the ore train which runs from the Mother Lode mine to the smelter at Greenwood. The train was in charge of Conductor Wells and was made up of the engine and four cars. At the time of the accident, the cars were being shunted on the weigh scales and Mr. Redpath was engaged in cutting off three of the cars. He slipped and fell and the trucks of the empty car next to the engine passed over his legs before the train could be stopped. His legs were horibly cut and all the bones shattered. He was immediately taken to the hospital where a consaltation of the medical men of the city and Dr. Gordon of Phoenix was held. They decided that there was no hope to save his life by amputation as the shock was too great. The poor fellow passed away at noon today.

Herbert Redpath was about 23 years of age. He was born near Niagara Falls, Ont., where his aged mother still resides. He has lived in the Boundary for several years and was a universal favorite with all who knew him. Much sympathy is expressed for his brother E. R. Redpath, C. P. R. station agent here with whom Herbert generally made his home when in the city.

Mr. Redpath has decided to take the remains back to Niagara Falls, for interment. He will leave either by tomorrow's or Monday's train. Due notice of the funeral services here will be given later.

P. BURNS BUYS COAL LAND

Says That Alberta Product Beats Pennsylvania Variety

A mountain of hard coal has been purchased by P. Burns & Co. for $320,000, says the Winnipeg Free Press of September 6th. The property is on the Misty range, 36 miles west of Okotoka, Alta., and comprises 16,000 acres. It was discovered by an explorer, Julius Rickart, D. L. S., and a party of surveyors spent several weeks in the district and made a thorough inspection of the coal seams as exposed in many tunnels made by the miners in the pass.

From information gleaned by the Okotoks Herald from Mr. Rickard and others members of the survey party, there exist a veritable mountain of pure anthracite coal. The situation of this phenomenal coal bed is most picturesque. Upon either side there towers huge, precipitous mountains thousands of high and nestling in a valley is this mountain of coal, which is twelve miles long and three miles wide in extent. The formation of this mountain differs vastly from the surrounding mountains, inasmuch as it is covered with vegetation, while the others are bare limestone. The place selected and laid out for townsite is preetily situated. There are fully five square miles of valley to build upon any quantity of pure, sparkling mountain dew and timber in great abundance. The situation is most picturesque, the scenery being magnificent.

For some time past miners have been engaged making tunnels into the mountain and succeeded in exposing 26 veins of coal, which varies from four feet up to forty feet. Samples of this coal were sent to assayers in Denver, Vancouver and other cities, and in every case remarkable reports were made. The assays of this coal run faom 87 to 92 per cent. carbon. The following is the report received of the assay of the four-foot vein: Hydrocorpic water none, volatile matter, 4 per cent; fixed carbon, 92 per cent; sulphur, none; ashes, 4 per cent. The physical desciption is briefly given in the report: Color of ashes, white; weight per cubic yard, 2,680 pounds; specific gravity 1.54.

According to these figures it will be observed that this coal excels the Pennsyivania article. Wnat particularly attracted the attention was the total absence of rock, and in burning there is practically no smoke, but a blue blaze. A test was made in an ordinary coal stove, it being filled with coal, which burned for 71 hours. Upon investigation they found only a small amount of white ashes, without any signs of clinkers. The coal ignites easily, and from their experience in burning it they feel satisfied it excels the well known Pennsylvania coal

The advantage of working this mine is a great consideration. In driving the first tunnel at right angles to the strike, the average dip being about 50 degrees, it will cut the first vein at about 100 feet, and from then vein after vein at your pleasure. They ran chambers to right and left of main tunnel, which has a rise of six inches to every 100 feet whereby practically no machinery is required for taking water out of the mine.

Julius Rickard, the discoverer of this mine, has had a varied experience. Three years ago it was that he landed at Banff and inspected the anthracite coal mines there. Since then he has been searching for the mother lode. Arriving at Okotoks in August, 1902, he drove out west, and after exploring the mountains he at last discovered the real thing. Producing samples, he got Pat Burns greatly interested, with the result that the latter paid out to the government $320,000 for the 16,000 odd acres of coal land which he now possesses. Mr. Burns is highly elated with his purchase, and is of the opinion that it will develop into the largest mining camp in the Dominion. Of late that gentleman has examined the ground on several occasions, and only returned on Saturday from a trip, in which it is said he was contemplating the purchase of more territory. The whole of the country west is one huge bed of coal, but up to the present the soft variety was the only coal in evidence.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5 00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square.

Claimes are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each seperate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior.
Department of the Interior, Ottawa.

NOTICE OF FORFEITURE.

TO DAVID BEATH, HENRY SHIELDS, or to any person or persons to whom they may have transferred their interest in the Paymaster mineral claim, situate in the Greenwood Mining Division of Yale district.

You are hereby notified that I have expended the sum of $1000 for surveying the above mentioned claim and $2.50 for recording the same for an assessment, such being required and necessary to hold the said claim for the year ending October 11, 1903, under the provision of the Mineral Act and Amending Acts; and if at the expiration of ninety days from the date of the first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure, namely, $51.25, together with all costs of advertising, your interests in said mineral claim shall become invested in me, [your co-owner] upon filing in the proper office in that behalf the affidavit required by section 4, of the Mineral Act Amendment Act, 1900."

Dated this 9th day of June, 1904.

ROBERT WOOD.

BIG FIRE AT MIDWAY

J. McNicol's Store and Other Buildings Burned.

THE LOSS IS HEAVY

The Midway Advance Office is Completely Wiped Out.

Midway was visited by a disastrous fire on Friday night. J. McNicol's big general store, the Advance office, the barber shop and one or two vacant buildings were destroyed and it was only by blowing up a building with dynamite that the fire was checked and the rest of the town was saved. fortunately there was little or no wind because on account of the lack of water little could be done to check the flames.

The origin of the fire is unknown. About half past eleven Friday night James Bush was awakened by noise and looking out of his window saw flames running up the side of McNicol's store. When he got to the scene of the fire the stairway going up the hall above the store was all in flames and in looking into the store he could see fire inside; showing that the fire had started from the inside. As everything was as dry as tinder around the store it is presumed that a tramp had thrown down a match or cigarette, or some passerby smoking had carelesly thrown his stub near the building. Before the town could be aroused the entire building was in flames, and what little wind there was being from the west, the Advance building soon caught and was also doomed. In order to save Hain & Co's store and post office, the barber shop run by Ed. Mellville was blown up with dynamite; this checked the flames. Thomas' drug store to the east of McNicols received a scorching as did also the customs office across the street.

The losses are heavy and insurance small. The largest loser is McNicol. He is one of the pioneer merchants of the district and carried a large stock of general merchandise. His store buildings and all his goods were completely destroyed. His loss will easily reach $12,000, with about $5,000 insurance.

The Midway advance was the pioneer newspaper of the Boundary. It was established in 1894 by Norris and Stuart. C. M. Crouse acquired the plant and building about three years ago and conducted the paper since then. The Loss is about $2000 with $600 insurance.

There was no insurance on theGuess building which years ago was used by Guess Bros. as an assay office, but which was vacant at the time of the fire.

The building which was used for a barber shop and was blown up was owned by Geo. Cunningham, the mining recorder. A small insurance was carried.

Flathead Valley Oil Lands Development Company Limited.

CAPITAL $250.000 Divided into $1,000,000, at 25c Each.

The area of an oil field is the most valuable land known to commerce, its shares are a good investment because those that invest now get in on the ground floor. Get a prospectus of the Company read it carefully and ask yourself the question whether it is not a fair risk that this company should come to occupy an equally commanding position in the oil industry.

SHARES ARE NOW FOR SALE IN BLOCKS OF FORTY AT TWENTY FIVE CENTS PER SHARE.

For Full Information Apply to **Frederic W. McLaine**

Broker & General Insurance Agent, Copper Street, Greenwood.

GREENWOOD MEN

Now Engaged in Mining and Smelting in Alaska.

The Mining Journal published at Ketchekan, Alaska contains an interesting account of the mines and smelters of the Brown Alaska company. A number of familiar names are mentioned in connection with the enterprise as the following will show:

J. J. Parker, a mine operator and manager of ability and long practical experience, has charge of the mine, and unlike his predecessors is proceeding on a systematic plan of development looking to the largest production of which the mine may be capable, and that his efforts in that direction will be abundantly rewarded may be fairly well consicered a reasonable certainty.

Dr. Paul Johnson, under whose personal supervision and direction the plant was begun and brought to its present state of perfection, stands high among the scientific and practical smelting managers and operators of the U. S., and to his signal ability and indomitable energy is mainly due the credit for the inauguration within so short a space of time of an industrial enterprise destined to be so prolific of future, if not immediate, beneficial results to this immediate section of Alaska. In this work he has had the aid of an able staff of assistants—notably L. C. Shaw, chief constructor of buildings, C. Sorenson, master mechanic, R. Liden, draughtsman, and Gus. Sunberg, assayer.

W A. Harkin, who was in the city for several days this week, bonded the Canadian and Coro claims from James Sutherland. The claims adjoin the Crescent in Skylark camp, owned by the Chicago & B. C. Mining company. The Crescent lead passes through them. The ore runs high in silver and gold and assays run from $100 a ton upwards.

CONCERT POSTPONED.

Owing to the sad and sudden death of Herbert Redpath a member of the Citizen's band, the concert announced in another column is postponed until a later date.

Notice to Creditors

In the matter of the Estate of John Sullivan late of Boundary District, Kettle River, near town of Midway, British Columbia, Deceased.

NOTICE is hereby given pursuant to the "Trustees and Executors Act" that all creditors and others having claims against the estate of the said John Sullivan who died on or about the 19th day of February A. D. 1902, are required on or before the 1st day of October A. D. 1904, to send by post prepaid or deliver to the undersigned their Christian and surnames, addresses and descriptions, the full particulars of their claims, duly verified, the statement of their accounts, and the nature of the securities (if any) held by them.

AND FURTHER TAKE NOTICE that after such last mentioned date the executor will proceed to distribute the assets of the said deceased amongst the parties entitled thereto having regard only to the claims of which he shall then have notice and that thesaid exeutors will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated this 15th day of June A. D. 1904.

STRATHMORE IS BONDED

C. Scott Galloway's Property Acquired

BY STRONG SYNDICATE

A High Grade Mine in the High Grade Belt.

Smith Curtis, Rossland, F. H. Knight, Grand Forks, Alex. Millers and others are a syndicate which have secured a working bond on the Strathmore from C. Scott Galloway the owner. Their intention is to incorporate a company to acquire and develop their high grade claim.

The Strathmore is a full claim It is situated in what is locally known as the north belt, being separted from the Providence by only one property.

A shaft 60 feet deep has been sunk on the lead. At the bottom of the shaft the vein was found to have faults ed, and accordingly a cross cut was run a distance of 60 feet, when the lead was again encountered. In this working the vein is quite strong, averaging six to eight inches in width and in several places swelling to a width of twelve inches. Drifts were also run from the 50-foot level of the shaft in both diretions for nearly 60 feet. From these workings, and from the sides of the shaft, considable ore was extracted by the late owners. On the surface there are numerous open cuts and a deep trench opened up along the course of the vein. Thus far the property has shipped about thirty tons of high-grade ore, some of which was hauled in the early days in sleighs to Marcus, whence it was shipped by rail to the Tacoma smelter. The last shipment of three tons was extracted from the surface workings, about a year ago. It was treated at the Boundary Falls smelter and netted $78 per ton in silver and gold. The latter represents 10 per cent of the total values.

The Syndicate intend to drift south on the vein shown up on the 50-foot level and extend the working to a point underneath the trench and open cuts from which the last shipment of ore was extrated. Then the work of stoping out the ore will be rushed in order to make a carload shipment before the end of next month. The Strathmore also has a 150-foot tunnel which will cross-cut the vein at a depth of 150 feet when extended and additional distance of about sixty feet. As soon as this proposed work shall have been accomplished, the management will have little difficulty in keeping up the shipments, as ample stoping ground will then be available Recent assays of ore in the shaft gave a return of $198 per ton. The management anticipate that ore of that value will be struck, as no attempt was made to sort the ore in the early shipment. The vein is a true fissure, occurring in a contract between granite and lime. Two others parallel veins on the Strathmore also give promise of disclosing equally high grade ore when developed. They will ultimately be reached by the cross-cut tunnel, which has already been driven 150 feet in the direction of No. 1 vein.

Wise and Otherwise

J. Lawrence, superintendent of the C, & W. was in the city this week.

Miss Myra Thompson of Spokane is visiting her sister Mrs. Duncan Ross.

Alex Miller manager of the Helen left on Tuesday morning for San Francisco, his father being seriously ill there.

Rev. Mr. D. McKee left on Monday to attend a meeting of the Presbytery of Kootenay which was held at Fernie this week.

W. T. Hunter, manager of the Hunter-Kendrick company left this week on a business trip to North Dakota.

Geo. D. Clark, a well known Grand Forks merchant was in the city this week taking a look at a genuine high grade mining camp.

Mr. and Mrs. McDonald of Molson were in the city this week accompanied by their daughter Mrs. S. Breslauer who is visiting them from San Francisco.

Sydney M. Johnson, C. E-, returned this week from a professional trip to the West Fork country. His work included the survey of Gauvereau's ranch.

P. Welch manager for J. W. Stewart was in the city this week and reports that good progress is being made on all railway construction under his charge in the province.

The Thomas Drug Company has moved to the Guess block. The new premises have been specially refitted for the drug store which is one of the best equipped in the province.

Geo. R. Naden of the Bealey Investment company left this week on a business trip to the Similkameen. E. H. Mortimer of Phoenix is looking after his business interests during his absence.

Smith Curtis was over from Rossland this week in connection with the deal on the Strathmore. The annual meeting of the Denoro Mines, Ltd. was held in Rossland last week. A very encouraging report was read by J. S. C. Fraser the retiring president. All the liabilities of the old company have been paid and the directors were authorized to purchase new properties.

Mayor Rumberger of Phoenix was in the city this week.

J. Cuthbert Welch, superintendent of the Montreal and Boston smelter, has returned from a business trip to Spokane.

The funeral of the late Adolphus Ferguson took place Saturday afternoon and was largely attended. Services at the grave were conducted by Rev. W. A. Robins. The pall bearers were Messrs. G. A. Rendell, A. Patterson, A. S. Black, J. McCreath, Phil McDonald and C. Scott Galloway.

E. H, Thurston of the Carmi mine was in the city this week arranging a contract for treatment of concentrates. The stamp mill and concentrator on the property have been running for several days. The plant is running smoothly under the superintendence of R. C. Longley. This is the first plant installed on the West Fork and its success augurs well for the future of that promising dIstrict.

At an annual meeting and dinner of the Kettle River Pioneers Association held recently at S. T. Larsen's, Rock Creek, P. T. McCallum of Grand Forks was elected president and W. Powers, secretary-treasurer. The dinner was an excellent one which did credit to the host and hostess and was much enjoyed. Speeches song and reminisences of the glorious past made the evening pass away very quickly.

Chas. Wyatt, met with a serious accident at the Emma on Monday last. He had just gone on shift after a blast in the quarry, a large piece of rock was overhanging and thinking it necessary to blast it he was preparing to do the same when the piece fell throwing him over a pile of rock. The bones of his arm were so badly shattered at the elbow that he was taken to the Greenwood hospital where it was found necessary to amputate the arm above the elbow. Wyatt has a wife living in Spokane.

Louis Bosshart who recently returned from the main Kettle river district brought down with him some magnificent specimens of free gold from his claim on Cedar creek Cedar creek empties into the main river near Sullivan's ranch and Mr. Bosshart's claims are located abont 12 miles up the creek. He has called the camp Silver camp. He has exposed a rich galena vein on the surface for about 1000 feet and has sunk a shaft 12 feet at the bottom of which is from 2½ to 3 feet of quartz carrying free gold. The camp is practically a new and undeveloped one and Mr. Bosshart is being congratulated on having again struck it rich.

COMBINATION IS BONDED

Local Miners Secure a High Grade Property.

IN THE PROVIDENCE CAMP

Rich Ore Taken From the Shaft Some Years Ago.

D. McGillis, M. Carvlan and L. M. Knowles, well known local miners, have leased and bonded the Combination in Providence camp. The property is owned by a joint stock company, the principal shareholders of which live in Spokane. The Combination is located on Boundary Creek, immediately above the Elkhorn. It was bonded in the early days of the camp and some magnificent specimens of high grade ore were taken from the shaft which was sunk on the claim. For the past four years the property has not been worked. A narrow vein of high grade gold and silver ore has been exposed on the property and further development work is likely to uncover new veins. Work was begun on the claim this week.
