Boundary Creek Times.

Vol. 10 GREENWOOD, B. C. FRIDAY, MARCH 7, 1902. No. ~~27~~ 26

THE LEAD QUESTION

Conservation of the Canadian Market Sought by Canadian Interests—Increased Duty Will do it.

The lead supply of Canada today is not beyond the market demand for the same could that market which naturally belongs to it be conserved to the home producer. At present the low duty on manufactured lead exposes the Canadian market to raid from without. The request to be made of the government that such duty be increased to a parity with that imposed on similar classes of goods is not unreasonable. No part of Canada feels more the effect of protected goods than the mining regions of British Columbia. Nearly everything it uses is protected to a greater or lesser degree and nothing that it produces is similarly helped. It buys in a protected and sells in an unprotected market.

All that the lead producers ask is that the duty be so increased on manufactured lead products that the home market may be open to them. This done they claim that the consumer will pay no more than now for white and red leads, etc., and the mining and smelting intereets will be helped to the extent of the home demand.

There appears no valid reason why home mines and home smelters and home refineries should not have home markets. They cannot get into the American market because of a practically prohibitive tariff. If they cannot have access to the American market why may they not have the Canadian. It is not a question so much of high tariff as it is a question as Mr. Charlton said speaking on another matter recently in the House of Commons of "self-protection."

We trust that the committee recently appointed by the Associated Boards of Trade to lay this matter before the Dominion government may be successful and that the present duty of five per cent may be at least quadrupled.

Greenwood Man in Montreal.

Percy F. Godenrath the whilom versatile newspaper correspondent at Greenwood is at present in Montreal endeavoring to attract the attention of homeseekers to the beautiful Kettle River valley. "Own a piece of the Earth" is his sententious advice to the easterner as expressed in the title of a handsome pamphlet just issued by him a copy of which lies on our desk.

The pamphlet contains in addition to descriptive matter and figures on small, intensified farming, some very fine illustrations, among others a view of the Covert farm between Columbia and Carson, and the Granby and Greenwood smelters. We wish Mr. Godenrath success in his mission. The growing mining industry of the Boundary means a good market for all first-class products of the orchard and farm that may be grown for many miles around.

Greenwood Miner's Union.

The semi-annual meeting of the Miner's Union was held on Saturday last and resulted in the choice of the following officers:

President.....Daniel McGlashen.
Vice-President.....Samuel McLelland.
Secy.-Treasurer.....Geo. P. Dougherty.
Rec.-Secretary.....Roland Morrison.
Conductor.....James Davidson.
Warden.....Nels Larsen.
Trustees {.....Samuel McLelland. .....Nels Larsen. .....Murdoch Kempt. .....H. E Poulinier. .....J. D. Whalen.

The membership of the union is growing fast and its brotherhood work as shown by its expenditures for sick benefits most commendable.

THE MINERAL TAX

Radical Change Suggested by the Associated Boards of Trade in Regard to the Mineral Tax.

The following is the text of the resolution passed at the recent Boards of Trade meeting at Kaslo. It provides for additional revenue at expense of both rich and poor.

"Whereas, it is believed that a considerable portion of the revenue, which it may be deemed equitable to levy upon the mining industry, could be derived first. from the tax already legally collectable upon crown-granted claims, upon which less than work to the value of $200 annually is done, if such tax were systematically and promptly collected, or in default thereof, if the said crown granted mineral claims were to be sold by the government to the highest bidder and, second, by changing the conditions in regard to such crown-granted claims, so that work to the value of $400 annually should be required, or failing that a tax of 50 cents per acre be imposed, and third, by requiring that instead of work to the value of $100 being the annual assessment conditions on non-crown granted claims, work to the value of $80 be accepted with an increase of the fee for recording assessment work to $12.50, with no increase in the number of assessments, before the issuance of crown grants, and by these means the development of the resources of the country would be stimulated; be it resolved that the government be asked to look to the means herein suggested for a portion of the revenue from the mining industry and to reduce by so much the amount to be derived from the tax on minerals produced, and to charge the incidence of the tax by deducting from the value of the ore the cost of mining, exclusive of capital expenditure and headoffice expenses, such reduction to be subject to the jurisdiction of such officials as the government may designate."

BRIEFLETS.

Dr. MacRae is absent this week attending the induction of a brother clergyman at Trail.

W. C. Wilson has returned from Sandon and taken the position at the C. P. R. depot recently vacated by the popular Joe.

The funeral of Mrs. Lawless of Anarchist Mountain took place from the undertaking parlors of Gulley and company on Tuesday last.

Some enterprising citizen ought to go into the ferry business at the Smailes-White corner of Greenwood and Copper streets—mud ferry.

The Enid Martin Concert company very kindly assisted in the musical part at the service in the Presbyterian church last Sunday evening. Miss Martin's solo was particularly enjoyable.

East Lynn drew quite a crowd at the Auditorium on Monday evening, and afforded great pleasure to those present. Tuesday evening's sequel was hardly up to the mark whether considered by management or audience.

A row in the Italian colony last Sunday evening threatened at one time to result in the barbering of one man's ear's and eyes by the other man with the razor. The judge thought the evidence hardly sufficient to order arrest and the feud stands over.

A letter from the Hon. Smith Curtis explaining his part in the Martin-McBride prayer-chair incident comes too late for publication. The public hereabout however have never censured Mr. Curtis for his action in this unhappy schopl-boy bit of legislature horse-play.

Miss Stone has finally been located and rescued by the American people. A lecture tour by that lady would now be in order and would net her good results. This particular Stone will never again have an equal opportunity of rolling down the hill-side of American sympathy and gathering in a "pile".

The Phoenix colored minstrels under the leadership of J. F. Hemenway will give an entertainment in Greenwood on April 2nd. We can promise the brigade a bumper house.

Smelter Resumes.

The Greenwood smelter compelled to close down for a few days on account of fuel failure is again grinding out a ton of ore every 3½ minutes day and night.

Musical Event.

The Kirschner Family Orchestra will give a musical entertainment in Miller's Hall, Friday evening next, 14th inst.

Voters—Attention.

Is your name on the local list? If not, why not? If on some other list get it transferred at once. Blanks at Smith & McRae's.

New Chief Justice.

Dispatches from Ottawa confirm the report of the elevation of Gordon Hunter to the chief justiceship of British Columbia. The new chief justice will be sworn in at once. The appointment is universally conceded to be a good one.

West Fork Road.

The secretary of the board of trade is in receipt of a letter from Hon. Smith Curtis stating that he has the assurance of the Hon. the Minister of Lands and Works that the estimates will contain a sufficient amount for the completion of the West Fork road.

Better Service.

The C. P. R. is planning a better train service for the Boundary country. With the early spring a fine train is to be put on between Nelson and Midway. It won't be long either we opine before a large through travel between the east and the coast will roll down Boundary Creek. Events appear to be marching our way.

The Literary.

Mrs. F. Keffer's paper "The American Illustrator" read at the regular meeting of the Literary Society on Wednesday evening last was voted a treat by all who heard it.

The music furnished by Mrs. Shaw and Miss Fiesher and by the male quartette was much appreciated.

Housekeeper desires situation in either town or country. Apply at this office.

THE MOUNTED RIFLES

Fine Appearance Presented by the Local Company on Parade.—A Dream That May Come True.

The editor had completed his labors for the day. He had wrestled with the problem of collections, had been sent for by the bank manager and had an interview in the sweat box, had been waited on by an enterprising citizen of the town and requested to discontinue the paper, had bowed out several who wanted cheap notices, had been urged to attack labor unions by one and grinding monopolies by another and he was tired. Little wonder that a few minutes repose in an arm chair luxurious to the degree that only editors may enjoy and the quieting influences of such a cigar as only bankers and plumbers and newspaper men may afford, induced slumber, and the editor dreamed as he slept. He thought it was glorious summer, and he was resting beside the road between Midway and Greenwood. He heard the sound of feet of many horses and looking through the dust which their multiplied feet made saw a goodly company of men—the mounted rifles of Greenwood The dust was too thick to allow recognition of all the brave riders, but several prominent Greenwood gentlemen could be distinguised from the crowd.

There was Johnston in command and shouting this order "North 15 East". There was Smailes on Pinto, his martial mien showing to advantage, and Naden on a lyew-necked bay complacently smoking, there was Gully on a snow white steed and Foster on a coal black, there was Chesterton on the Saints' Rest "rat" 8¾ hands high, and McRae on the long-legged steed of the last year racing fame record ¼ of an hour), there was alderman David on a cute little sorrel racker, smiling at the thought of warfare, there was Lawder on "cayote" looking his very best, and White clinging to the mane of a high stepper, there was Coles on a mule and Hallett on "nigger" the nigh horse of the fire team, there was Merritt his gaze so fixed and stern and Bailey fresh from the Similkameen on a blooded brown, there was Frith the personification of war and Williams placid as if passing the plate, there were McMynn and Ashcroft and—— but just at this juncture Pinto bolted and threw his rider, and somebody shouted "I w— my horse would throw me so I would have an excuse for walking", and the editor awoke. The company looked all right to a man in a dream and we know they will to a man wide awake. Good luck brave boys.

FRIDAY, MARCH 7, 1902.

THE KASLO CONVENTION.

The meeting of the Associated Boards of Trade of eastern British Columbia held in Kaslo last week was considered an unqualified success by those present who had attended every session of the association since its inception. The fourth session was marked by courtesy, good fellowship, moderation and strict attention to business. The reception of the delegates by the people of Kaslo was warm and hearty and the arrangements made by the local board of the most complete and satisfactory character. A banquet in the Kaslo hotel on Thursday evening relieved the routine of work and afforded a display of genuine fellowship unmarred by anything to which the most fastidious could take exception. The officers elected for the current year were G. O. Buchanan, president, and H. W. C. Jackson, secy.-treas. Every question put on the notice paper was promptly brought up and friends and opponents of every measure discussed the same with unvarying good nature even though the argument grew intense at times.

The recommendations on the lead question not only re-affirmed the bounty application but asked that the duty on manufactured white lead should be increased from 5 to 25 per cent in order if possible to conserve the home market for home producers. On this and other matters a committee of three was appointed to confer with the Dominion government.

Resolutions were passed asking for a member of the provincial parliament for the Boundary, and for one for the commons for that part of Yale-Kootenay west of the Columbia river.

The most radical action of the board was found in its resolution regarding assessment work on mineral claims. The board was asking the government to reduce mining taxation and royalties and thought it opportune to suggest means by which such decreased revenues might be fairly offset. The belief of the convention was that if the government enforced collection of taxes now chargeable against crown-granted claims and for claims not granted reduced the yearly assessment to $90, say, of which $10 should be in cash, the income from the mining sections would be not only increased but the burden be more equitably distributed. While we share in a degree in the justice of the contention and believe it will remedy the evil of undue claim holding and bogus assessments yet it will if carried into effect work great hardship on many prospectors. The argument used that prospectors who were not in position to pay this cash assessment of $10 rather than do $20 worth of work were usually partner with merchants and others who would put up the cash, is not sound we think. If all prospectors were able to get cash work for the time they would consume in doing the other $20 worth of work they could afford to pay part of their assessment in cash, but it very frequently happens that such is not the case, and in all such cases injury will work to the prospector. We have little expectancy of seeing this radical recommendation adopted by the government. Tis true the government needs a much larger income but if a country's resources are such that the prospector can afford to pay such an excessive tax on his mineral claims, then the resources are such that the government can afford to pledge the country's future and use its credit for its development.

One of the boards recommendations we trust the government will particularly observe however and that is permission to do work on roads or trails, instead of assessment work, where the claim holders so desire. We may say that we believe the work of the convention generally good, the above excepted.

NOT SO SLOW.

The American people are wont to complain that we are too slow up here in B. C. They have evidently not read the following from the advertisement of the Mt. Hamilton Land and Oil company in the the Province newspaper of Vancouver.

"We sold a portion of the company's holdings at Coalinga to a Chicago syndicate and they are going to begin at once to erect an oil refinery at an expense of Forty Million Dollars ($40,000,000). Plant will be completed inside of 90 or 100 days."

The company that can begin at once and complete inside 100 days a Forty Million plant must certainly be a "gusher". Men will be standing around pretty thick to work up an average of $400,000 a day. To a poor man it seems as if the promoters are using figures rather carelessly. We beg to submit that the company pull off some of those figures or else lengthen out the time for erection. Anyway, isn't the plant going to be a trifle large?

ONE JOKE LESS.

The Laidlaw monument below town is about to be transformed. Mr. Goodell has arrived from Colorado and is hard at work and in place of a dead Pyritic smelter we will soon have a live Sunset one. With its purchase by the Sunset people the old name will pass away and with it the old jokes on its name. The "pirate" will cease to get in its work and the "paralytic" will be constitutionally renovated.

Practical men, with practical plans are now in the saddle and the pay-roll of the concern will soon include other names than merely those of the officials in charge. Good luck to the Sunset.

You May Catch Them.

We quote from the Nelson Miner some facts regarding trout fishing recently brought out at a discussion in the Nelson fishing club, for the infor- of our readers who delight in angling.

"Some discussion took place as to what could be done toward the protection of the fish in the lakes and streams of the interior, and W.H. Bullock-Webster, of the provincal police, who was present, made some valuable suggestions, being thoroughly conversant with the regulations as they now stand. He pointed out that under the present regulations, which are those of the Dominion government, it was not contrary to law to catch trout at any season of the year, the provincial game act not having provided for these fish. After discussion it was resolved to instruct the secretary to write to W. A. Galliner, member for the riding, to ask him to use his influence to have the order-in-council of March 3rd, 1894, making fishing regulations for the province of British Columbia, amended so as to provide a close season for charr, rainbow trout and land locked salmon.

MINERAL ACT 1896.
Certificate of Improvement.
NOTICE.

WHITE HORSE mineral claim in the Kettle River Mining Division of Yale.
Where situate: In Copper Camp.

TAKE NOTICE that I, B. L. Wood, Free Miner's Certificate No. B. 41502, on behalf of myself and as agent for James Graham, Free Miner's Certificate No. B 40609 and Annie Hudson, Free Miner's Certificate No. B42634 and Margaret E. Mercer, Free Miner's Certificate No. B55805, intend sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 16th day of December, 1900.
First issue January 10. B. L. WOOD.

PIONEERS TAKE NOTICE.

Owing to the unavoidable absence of the secretary and treasurer of Kettle River and South Okanagan Pioneer Society and consequent oversight in sending out notices for the meeting to have taken place at Grand Forks on Saturday next, March 1st, the meeting is hereby postponed. The next regular meeting will be held at Grand Forks on Monday, Sept. 1st, next.

THOS. MCAULEY, President.

Corporation of the City of Greenwood.

NOTICE IS HEREBY GIVEN that a Court of Revision for the City of Greenwood, B. C., on Monday the 7th day of April, 1902, at the hour of ten o'clock in the forenoon, and following days if necessary, for the purpose of hearing complaints against the assessment as made for the year 1902 by the Assessor, and for revising and correcting the assessment roll for that year.

Complaints to be made in writing to the undersigned, at least ten days before the sitting of the Court.

G. B. TAYLOR, C. M. C.
Greenwood, B.C. February 25th, 1902.

Aged 25 20 YEAR ENDOWNMENT.....
ACTUAL RESULTS of "savings fund" policy No. 241,490 at end of its accumulation period.

Twenty years ago, in 1882, Mr. F. W. C.—, then twenty-five years of age, assured his life in the Equitable, under Savings Fund Policy No. 241,490, for $1,000. This policy was issued on the 20-Year Endowment form, on which the annual premium was $47.68. For twenty years then Mr C—— has been protected by $1,000 of assurance, and if he had died at any time his family, would at once have received $1,000. However, he has not died, and now, in 1902, he has the choice of the following options:

1.—To Receive the Endowment in cash, and also a Cash Dividend of	$1,000.00 467.25
TOTAL CASH,	$1,467.25
2.—To Convert the Cash Value into paid-up Life Assurance for Subject to Society's approval of risk.	$3,200.00
3.—To Convert the Cash Value into an Annuity for Life of	$94.20

THE EQUITABLE
Life Assurance Society of The United States.

EDITORIAL CHAT.

It would look as if the referendum might prove to be a resterendum for Mr. Ross.

The Hon. Joseph couldn't have been paying much attention to the prayers that day. Does he doubt the efficacy of prayer in his case that he is so inattentive to the chaplain?

Marconi reports that his latest achievement in wirless telegraphy was the exchange of messages between Poldhu in Cornwall, and a point in the Atlantic 2099 miles distant.

From this distance it would look as if Col. Prior might be the chosen of the Victoria electorate Monday Ottawa dispatches indicate that the recently elected member for the commons, Mr. Riley, was favorable to Prior's return.

The Northern Securities company is evidentally preparing against the possibility of encountering legal obstrcles south of the international line by organizing one in Canada. The Canadian child may be able to do what the parent cannot.

As an illustration of what an advantage the manufacture of lead propucts in Canada would be to Canada, and that the Canadian consumer would pay no more for the same if the market were protected it may be stated in example, that the St. Eugene mine, at Moyie, last year shipped 10,000 tons of silver-lead concentrates to Antwerp, paying $17 per ton for freight alone. These concentrates were smelted and refined in Antwerp; the pig lead was then turned into white and red lead, and several thousand tons of these products shipped back to Canada, again paying heavy freight charges, all of which the Canadian consumer paid.

Canadian Northern.

This is the way the Colonist tells the story:

"The Hon W. C. Wells received yesterday from Toronto from J. N. Greenshields, K. C., the following important telegram:

"Leaving at once for Victoria with railway contract signed."

The reference of course is to the negotiations between the Dunsmuir government and Messrs. Mackenzie & Mann for the construction of a railway from Bute inlet to the eastern boundary of the province, which have been carried on by Mr. Wells, and have now been crowned with conspicuous success.

In another despatch received yesterday by Mr. Wells, the reason for Mr. Greenshields coming to Victoria at this time is given. His visit is in connection with other improtant negotiations, concerning which he is the bearer of despatches from Messrs Mackenzie & Mann to the Premier.

No premature announcement of the ssbject matter of these negotiations would be proper at the present time. The Colonist is authorized to state that the head offices of the Canadian Northern system for British Columbia will located in Victoria, making Victoria the terminus of a transcontinal system.

NOTICE TO CREDITORS.

In the Matter of the estate of Charles Wesley Vedder, late of the City of Greenwood in the Province of British Columbia. Insurance Agent, deceased.

NOTICE IS HEREBY GIVEN in pursuance of the Rules of the Revised Statutes of British Columbia, 1897, Cap. 187, that all creditors and others having claims against the estate of the said Charles Wesley Vdder, who died on the 27th day of December, A. D., 1901; are required on or before the 17th day of April, A. D. 1902, to send by post prepaid, or deliver to the undersigned, solicitors for Mrs. Cora May Vedder, Administratrix of the personal estate and effects of the said deceased, their christian names, surnames, addresses and descriptions, with full particulars of their claims, a statement of their accounts and the nature of the securities (if any) held by them, duly verified.

And further take notice that after the said 17th day of April A. D., 1902, the said administratrix will proceed to distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which she shall then have had notice, and that the said Administratrix will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by her at the time of such distribution.

Certificate of the Registration of an Extra-Prpvincial Company.

"COMPANIES ACT, 1897"

I HEREBY CERTIFY that "The Waterloo Consolidated Mining and Milling Company" has this day been registered as an Extra-Provincial Company, under the "Companies' Act, 1897" to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in the City of Spokane, State of Washington, U. S. A.

The amount of the capital of the Company is $125,000, divided into 1,250,000 shares of 10 cents each.

The head office of the Company in this Province is situate at Camp McKinney, and Patrick H. Graham, miner, whose address is Camp McKinney aforesaid, is the attorney for the Company.

The time of the existence of the Company is fifty years.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 10th day of February, one thousand nine hundred and two.

[L.S.] S. Y. WOOTTNN,
Registrar of Joint Stock Companies.

The following are the objects for which the Company has been established:

1. To do, transact, carry on, and engage in the business or undertakings hereinafter enumerated and specified within the United States of America, in the Province of British Columbia, and throughout the whole Dominion of Canada:

2. To locate, buy, purchase, acquire, hold, own, maintain, equip, work, develop, improve, operate, sell, let, demise, exchange and mortgage mineral claims, diggings, mines, and mineral rights of any and every kind, nature or description whatsoever:

3. To buy, purchase, hold, own, deal in, sell, exchange and hypothecate metals, ores, minerals, concentrates and bullion of every kind, nature and description:

4. To treat, smelt, mat, mill, stamp and reduce ores, minerals, metals, bullion and concentrates of every kind, character and description:

5. To erect, construct, maintain, operate, buy, purchase, acquire, sell, dispose of, lease, let, exchange and mortgage mills, smelters, concentrators, and any and all kinds of machinery and appliances for the purpose of smelting, matting, concentrating, working, reducing, crushing, refining and handling ores, minerals, metals and bullion of all kinds:

6. To acquire, locate, buy, hold, own, sell, let, lease, demise, maintain, develop, operate, distribute, transmit and furnish water, water rights, water power, electric lights, electric light plants, electric power, steam power, and any and all kinds of power and power plants for mining and milling purposes:

7. To purchase, acquire, construct, build, own, hold, operate, maintain, equip, sell, lease, dispose of, mortgage, and deal in and with ditches, flumes, railways, and tramways, both surface and aerial, for mining and milling purposes, and for transmitting and transporting supplies to, and the products of, mines, mills, smelters, and concentrators; and finally, to do any and every thing necessary, proper or convenient in order to have, possess, and enjoy all and every of the powers, rights, and privileges herein set forth, and to fully and completely carry out the said purposes and objects above specified, in their fullest and broadest sense and meaning.

Robt. Wood or C. Scott Galloway, Greenwood.

THINGS IN SHORT METRE.

PROVINCIAL PRESS.

Hon. C. C. Pooley has been elected speaker of the legislature, succeeding the late Hon. J. P. Booth.

The legislature has resumed its sitting and the game of legislative "ping-pong" is getting warm.!

The contract with McKenzie & Mann for the building of the Canadian Northern through British Columbia stipulates as follows: Work to begin at Bute before June, 1903, and the line between Bute Inlet and Yellowhead Pass to be completed within five years. The company is to get $4.600 per mile for the first 50 miles commencing at Bute Inlet; from the end of the first 50 miles to Quesnelle,, about 150 miles, they get $4,000 a mile and from Quesnelle to Yellowhead pass they get $4,500 per mile. The mileage grant is payable at the end of each 20 miles of railway constructed. The company also get 30,000 acres per mile in Westminister. Lillooet and Cariboo districts The land granted is not subject to provincial or municipal taxation until alienated by lease or sale. The same applies to the stock of the company until ten years after the completion of the railway. Free miners are to have access to the lands of the railway.

Thanks.

These are busy times in government circles at Ottawa and Victoria. This is the time of year when the officials earn their salaries. Every mail recently has brought us large quantities of blue books from the federal and grey books from the provincial capital. Among the former are department reports of auditor general, agriculture, marine, railways and canals, interior, public works, trade and commerce, canals, peni tentiaries, Indian affairs etc., and among the latter reports of public accounts, schools and mines. Some day we trust to be able to look into their reports and tell our readers somewhat of their contents.

Mounted Rifles.

Lieut-Col. Holmes, district officer commanding, has been in town this week inquiring into the advisability of forming a company of mounted rifles here.

Already over 40 names have been enrolled for such a prospective company and considerable enthusiasm has been developed among the young men of the viciniiy. On Monday evening about 40 gentlemen sat down to a banquet at the Armstrong given in honor of the visiting officer. The military spirit was kept in check by a liberal supply of mineral water.

Card of Thanks.

MR. H. ALLENBERG,
Manager Equitable Life,

MY DEAR MR. ALLENBERG: Will you accept a widows thanks and gratitude for your prompt payment of the $2,500 policy on the life of my late dear husband Mr. Vedder, which has reached me safely through the Bank of Montreal this 27th day of January, 1902. Very gratefully,

CORA A VEDDER.

Greenwood, B. C., Jan. 27, 1902.

Our Curlers Wouldn't Do It.

We are glad to be able to state that the report that the Greenwood Curlers defeated the Phoenix team in the return match last Tuesday, is UTTERLY WITHOUT FOUNDATION. The boys wouldn't do such a thing. The luxury of living in the valley where the ice season is so short, and season of grass and flowers so long, unfits the Greenwood men for competition with the boys of the hills who have ice to practice on the year round. To be brief as gentlemen they wouldn't if they could, as curlers they couldn't if they would.

We want 2nd hand goods. Ring up 106 A. L. White 2nd Hand company.

MINERAL ACT 1896.
Certificate of Improvement.
NOTICE.

WHITE HORSE mineral claim in the Kettle River Mining Drvision of Yale.
Where situate: In Copper Camp.

TAKE NOTICE that I, B. L. Wood, Free Miner's Certificate No. B. 41502, on behalf of myself and as agent for James Graham, Free Miner's Certificate No. B 40609 and Annie Hudson, Free Miner's Certificate No. B42631 and Margaret E. Mercer, Free Miner's Certificate No. B55805, intend sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 16th day of December, 1900.
First issue January 10. B. L. WOOD.

CANADIAN COMMENT.

Prince Henry called on Canada at Niagara Falls last Wednesday.

It looks as if Sir Wilfred Laurier was contemplating a vigorous trade policy in regard to the United States.

The Dominion government proposes to assist Marconi in his experiments by contributing to the erection of a station in Nova Scotia.

A bill is before the Manitoba legislature which increases the liabilities of the province over a million and a half. It is in the nature of a subsidy to the Canadian Northern railway.

The Canadian Mining Institute spent some time the other day in discussing the short-comings of the Dominion government. The convention considers that the government does not do enough for the mining industry, and asks that a bureau of mines be established.

Thirty-one delegates, representing fourteen places in Canada, are in Ottawa attending the meetings of the Dominion Board of Trade, which has not been active for twenty-two years. It is expected that the organization will be revived and eventually have a membership composed of representatives from every important city and town in Canada.

Engineers, Firemen, Machinists & Electricians send for 40 page pamphlet containing Questions asked by examining board of Engineers to obtain Engineers license. Address, Geo. A. Zeller, Publisher. 189 4th t. St.

Pretoria will remain the capital of the Transvaal.

Both British and Boers have been getting in some very lively work lately The sum total howexer is "advantage in " with the British.

The liberal unionists at the recent meeting of their council definitely repudiated any intention or desire to follow the lead of Lord Roseberry.

In parliament Tuesday last Mr. Brodrick announced that the government was still dispatching 13,000 remounts monthly, and according to the Pretoria correspondent of the Times remounts are still badly wanted in South Africa.

LONDON, March 3.—In a dispatch from Pretoria dated today, Lord Kitchener sends details of the disaster to the escort of the convoy of empty wagons at Vondory, southeast of Klerksdorf, Transvaal Colony. The British casualties, killed, wounded and men made prisoners, reached the total of 632. In addition the Boers captured two guns.
