RENDELL & CO.

ELECTION ECHOS

Sir Wilfred Laurier has tendered either Gaspe or Wright constituencies to Hon. Mr. Aylesworth who will remain in the cabinet.

The Premier has agreed not to oppose the return of Hon. R. S. Borden in any constituency that may be opened for him, if the conservatives will not oppose Mr. Aylesworth.

Failing the return of Mr. Borden, the leadership of the Conservatives is likely to fall to Mr. Foster.

Every province of the Dominion but Prince Edward Island and Ontario gave the liberals a majority.

Nova Scotia on the Atlantic and British Columbia on the Pacific have not returned a single conservative.

Col. Sam Hughes has tendered his seat to Mr. Borden, provided his committee consents.

Laurier, Prefontaine and Oliver had the banner majorities, over 2000 in each.

Liberal gains were made in Ontario.

MR. ROSS IN THE WEST.

Mr. Ross is still the prime favorite in this locality, and if he does half as well in the other parts of the riding he will have such a majority as will make the Conservative candidate wonder why he left Grand Forks to monkey with the wide naughty world. Every day brings new supporters to Liberal cause here, and it is quite safe to say that in the outlying polling stations from Armstrong Mr. Burrill will not get a dozen votes. The only thing liable to hurt the Grits is being too sure.—Armstrong Cor.

THANKSGIVING DAY RATES

Account Thanksgiving Day the Canadian Pacific Railway will sell tickets to and from all stations west of Port Arthur including Kootenay Lake and river steamers landings at fare and third for the round trip. On sale Nov. 16th and 17th, good to return till Nov. 10th.

Now that Laurier has been returned you would be wise to buy your Teas and Coffees, apples, gum and candy at the South End Grocery Store, where a good supply will be kept from this date.

ANOTHER RICH STRIKE

Of Considerable Importance Recently Made on

THE PROVIDENCE PROPERTY

The Discovery is Near the Southwest Corner of the Claim.

The Providence continues to be the banner claim of the district. The property never looked so well as at present and the new management ought to make this a record year. They not only took charge of the property in excellent shape in the old workings, but they are uncovering what promises to be a valuable new vein. The new lead is well down on Providence creek, near the southwest corner of the claim and near the Coronation. The lead has been stripped about 300 feet and shows rich and strong the entire distance. The vein is from 10 to 12 inches wide and assays made yielded $10 in gold and $95 in silver. The ore favors that of the Elkhorn in appearance showing much native silver.

This new strike confirms Mr. H. V. Fuller in his estimate of the Coronation claim just south and on Wednesday he put men to work to discover if the lead does not run into his property.

At the old workings of the Providence a contract has been let to sink a shaft to the next level. The stockholders of the Providence are congratulating themselves on the property's present outlook, and well they may. The dividend paying properties of the Providence were never so assured as now.

THINGS AT PHOENIX

There is a great deal of activity in and around Phoenix at present. The Great Northern Railway has removed the Union and Miner's Exchange Hotels out into the street and is driving piles for the crossing to the grade on the south hillside.

Grading on the main line, spurs, and sidings is being rushed.

The Great Northern Railway improvements have cut up the town very considerably but its entrance into the town means more than long streets would. The bunkers up on the hill on the branch to the Granby's upper levels are being rushed to completion. At the mouth of the lower tunnel some extensive crib-work is being put in, and large ore bunkers will be erected where the goal now stands. Taken all in all we have never seen Phoenix losking as busy and as well as at present. The Granby is running its full complement of men, and the Montreal & Boston are employing about sixty, with prospects of early large increase. Phoenix stands to hold its position as the premier mining camp in British Columbia, undisputed, for a long time.

Thinking of wall paper? All we ask is that you let us figure on your work, either for paper only or paper and hanging it on the walls. We can save you money.—Smith & McRae.

GRAND LIBERAL RALLIES.

The liberals will have a grand field night at the Auditorium, Greenwood, this (Friday) evening. The chair will be taken at 8 o'clock. The speakers of the evening will be Hon. Senator Templeman, W. W. B. McInnis and Duncan Ross, the liberal candidate.

On Monday evening next in the Miners' Union Hall, Phoenix, Hon. Senator Templeman and W. W. B. McInnes, M.P.P., will address the electors in the interests of Duncan Ross. Opposition speakers are invited to attend both meetings.

EHOLT MEETING

Smith Curtis in a Lengthy Speech Discusses the

GRAND TRUNK PACIFIC

The Meeting Enthusiastically Received and Supported Mr. Ross.

A largely attended meeting was held at Oro Denoro on Tuesday night in the interests of the candidature of Duncan Ross. Over 100 electors were present and they listened attentively to the powerful speech made by Smith Curtis. They also gave Mr. Ross a very cordial reception and showed their appreciation of the brief but pointed speech of F. J Deane of Nelson.

Mayor Naden presided. Mr. Curtis spoke at length dealing effectively with the Grand Trunk Pacific and conservative objections to the scheme. He dealt with labor problems and demonstrated to the satisfaction of the audience that Liberals always had been and are now the champions of the masses. He closed the magnificent two hour speech by appealing to electors to support Mr. Ross the government candidate.

Mr. Ross spoke briefly. He asked the people in the south to join with those in the north who on election day would give him an overwhelming majority. The election was won, it was only a question of majority and he wanted to go down to Ottawa with the good votes and good wisnes of his home district as well as those of the northern part of the riding.

Mr. Deane spoke as an elector of Kamloops. He said that Mr. Ross was nominated because the north realized the growing importance of the Boundary district and were prepared to give it recognition if a suitable man from the south were available. In Mr. Ross they found such a man. He would make a capable representative and an aggressive champion of the west. Mr. Ross would get a large majority in the northern part of the riding and he felt sure the south would give an even greater majority.

The meeting closed with three hearty cheers for Laurier and Ross.

Tell your friends to stop at the Pioneer hotel, Greenwood. They will all be satisfied.

THE MORRISON.

"What has become of our Morrison stock?" This is the inquiry sundry owners of that stock are asking these days. Many moons ago the Morrison management reported the sale of that property to the Montreal and Boston Consolidated and offered to pay cash for the stocks at two cents per share, or to convert it into Consolidated stock at one for thirty.

Many sent in their stock for cash to the company at Spokane. Some got the money and some did not, the stock being returned. Many others sent in their shares for exchange. Thus far they have the receipt from the Morrison people for the stocks. but they have not received either the Montreal and Boston's stock or even a receipt from that company for the same. Is the Morrison sold to the new company? If so why not produce the certificates? Is it not sold? If not why not return the former certificates? They may not be very valuable but they are better collateral than the receipt of any officer connected with the Morrison company. Is anybody monkeying over this business? If so, who? The Montreal and Boston owes it to itself and the public to either confirm the sale or to repudiate the reported sale. Who will speak first?

CORRUPT RUSSIA.

Gen. Kouropatkin's boast of last spring that he would drive the Japanese into the sea by the fall was answered by his crushing defeat at Liao-Yang. His recent announcement that Russia was not strong enough to assume the offensive has been followed by his army putting its head into the Japanese dragon's mouth with the resultant loss of about one-fourth of his troops. Now comes the report of the Baltic fleet's blunderings in the North Sea. The world stands astonished at Russia's blunders. What is their cause? Some Russian writers have given us an answer by explaining the widespread corruption prevailing in their country, corruption that has gained ground until it has invited national disaster.

In no countries, however, has corruption and demoralization permeated so deeply as in Russia and Turkey. The fatalism of those peoples perhaps enables them to tolerate abuses more readily than others, so that the evils grow there to a greater head. In Russia, from the Grand Dukes of the Imperial family downward the embezzlement of public funds and the receipt of bribes is almost univeral. In the days of the Bulgarian war a million roubles is said to have been paid to the mistress of the Grand Duke Nicholas, commander-in-chief of the army, by a contracting firm. Today great ministers of state have to retain on their side the actress mistress of the Grand Duke Alexis—the prince who visited this country over thirty years ago.

* * *

Stepniak (Michael Dragomanov) has given us wherever possible the documents in the case—reports of state trials and other facts. He tells us that each war only repeats the former in the way of corruption. As he wrote some years ago, and therefore before the present war began, it will be well to compare his accounts and forecasts with what is now transpiring. Stepniak tells us how many army officers have been deported to Siberia for holding liberal opinions. Many of these men were among the most brainy and conscientious of the Russian officers. The government is too apprehensive of their making short work of the dynasty if they held high position to call such men to the front. Less efficient men, more suited to serve as tools of the autocracy, are selected. Liberal generals might put a reforming czar on the throne, and grant a constitution. High intelligence and conscientiousness naturally sympathize with reform and liberal aspirations.

The writers tells us how during the Crimean war frauds so outrageous were revealed as to be afterward cited as something portentious and abnormal. But they were repeated in the Russo-Turkish war. Almost the sole food of the Russian soldier is black bread biscuits. An examination by a commission composed of professors of Kieff university, of this commodity as supplied by Prince Uroosoff and M. Perivoshikoff, showed it to contain 13 per cent. of sand, clay, straw and other inutritious ingredients. It was made up with impure water, consisting of a red brown liquid more like cocoa and milk, swarming with living organisms From motives of economy the ovens were not kept at a temperature exceeding 160 degrees Fahrenheit, whereas to destroy the organisms a heat of 250 degrees was needed. As a result the biscuits became the breeding ground of every sort of bacteria, those creatures spreading over them and forming "a green and brown velvet-lik covering." The mortality and disease in the army from such poisonous food was in consequence great. Similarly the preserved meats of the contractors, Messrs. Kohan and Gorvitz, were so putrid that they had to be buried to avoid an epidemic.

* * *

In the present war his prophesy has already been fulfilled, from the time when Port Arthur was surprised in its Belshazzar feast by an enemy as alert as Cyrus. Only a few days ago telegrams announced that many Russian soldiers were said to be wearing Chinese clothing, indicating that their winter clothing had not then arrived, while from the continent of Europe among the friends of Russia come sinister reports of the demoralization of the Russian army by typhus and other diseases. In the Sunday Call of Sept 11 a letter, accompanying Manchurian photographs, taken by a Newarker, gives an eyewitness' testimony to the soldiers drinking "vodka" from morning till night until they were surprised by the Japanese and driven out of New Chwang, and how the correspondents were, nevertheless, forbidden to send anything but favorable accounts. The writer tells that he saw five sacks supposed to contain quinine opened and found to hold common table salt.

More serious still are the recent revelations in the letters of the Russian General Count Keller (killed at the battle of Ta-Wan) to his wife: "Whole regiments," he says, "were without uniforms or proper clothes. Others had no boots. The deficiency in fanitary arrangements were appalling." He expressed himself strongly concerning the capacity of his colleagues, and has a poor opinion of Gen. Kouropatkin. It is not surprising to hear that Countess Keller has been persuaded to postpone the publication of her husband's memoirs until after the war. Everybody knows of the quarrel between Kouropatkin and Alexieff, and how they try to thwart each other. It would seem that this contentiousness is widespread, for the officer says: "It is a shame to see officers constantly quarrelling, dividing into cliques, and fighting for their own interests, until Japan, the common enemy is forgotten Every one, from Kouropatkin to insignificant subalterns, is quarrelling and unwilling to obey orders. Our brave soldiers go into battle like sheep to the shamble. No one can deny their loyalty, but until they are properly officered their loyalty is wasted."

MEETING AT PHOENIX.

Messrs. Smith Curtis, F. J. Deane and Duncan Ross attended a meeting at Phoenix, Thursday evening in the interests of the liberal candidate. A large audience was present, a combination of conservatives, liberals and socialists. Quite a number of questions were asked the speakers all of which were answered in a dignified and generally in a convincing way. The questions propounded were all in good spirit and well within the rights of the audience. Existing difference of opinion does not destroy harmony among gentlemen.

Next Thursday, Nov. 17th, will be Thanksgiving Day.

The Strathmore which is being operated by a local company under the management of C. Scott Galloway is working in ore running $98 to $190 per ton and showing free gold and native silver. They have several tons of good ore ready for shipment and expect to send a car load to Trail within a short time.

Timber Notice.

Notice is hereby given that thirty days after date we intend to apply to the Hon. hief Commissioner of Land and Works, Victoria, B. C for a 21 year lease to cut and carry away timber from the following described lands; commencing at a post placed on the West side of the main fork of Kettle river near the mouth of Canyon creek marked Heyland and Hamilton's South west corner post, thence East 400 chains, thence North 400 chains, thence West 160 chains, thence North 800 chains, thence East 400 chains, thence North 400 chains, thence East 640 chains, thence North 400 chains, thence East 160 chains; thence North 400 chains thence West 400 chains, thence North 400 chains thence West 640 chains, thence North 400 chains, thence West 400 chains, thence South 640 chains, thence East 160 chains, thence South 160 chains, thence East 160 chains, thence South 400 chains, thence West 320 chains, thence South 2000 chains to said place of commencement.

Dated this 12th day of May, 1904.

SCISSORS and PASTE POT

VICTORIA, Nov. 8—The B. C. legislature is expected to meet, according to Premier McBride, early in January.

L. E. Shields, of the firm of Siems & Shields, railway contractors of St. Paul, passed through Grand Forks recently on his way to Franklin camp, where he has gone to inspect the various properties in that camp. He is also making arrangements to do some extensive development work on a group of claims in that camp.

ST. JOHN'S, Nfld., Nov. 1—Election returns received today strongly favor the Bond government. Ferryland has elected Cashin and Ellis; Harbor Main has elected Morris and Lewis, all Bondites; Bay de Verde has elected Hutchings, Bondite, and Windsor, opposition Premier Bond has now six seats and the opposition only two. Counts now in progress indicate the return of six more Bondites for St. John's city.

John Kirkup, gold commissioner for this district, was a busy man Tuesday. In the role of government auctioneer he offered for sale a large number of crown-granted mineral claims, on which the limit had been reached in delinquent taxes. Little or no interest was manifested in the sale, and most of the properties offered met with no response. A few were bought by interested parties. There were, however, some notable exceptions. A large number of claims were redeemed at the eleventh hour.

That the Laurier goverment's railway commission is of decided advantage has again been proved to the satisfaction of the coast district of British Columbia. It has issued an order that the Canadian Pacific and all other companies must desist from charging a higher rate upon cedar than is charged upon pine, fir, spruce and other lumber. When the commission sat in Vancouver recently one of the longest and strongest arguments made before it was in behalf of the lumber millmen of the Pacific coast. Mr. Miller, manager of the transportation department of the Canadian Manufacturers' Association, presented the complaint of the coast lumbermen in reference to a discrimination in rates imposed upon cedar lumber and shingles from Vancouver and other coast points to Manitoba. The rates charged by the C. P. R from the Pacific coast to Winnipeg and points common thereto, are: cedar lumber (also shingles), 50 cents per 100 lbs.; fir, spruce and other lumber, 40 cents per 100 lbs. This discrimination against cedar of 10 cents per 100 lbs. does not apply from the Canadian lumber mills in the mountains, from which to Winnipeg and common points the rate for lumber of all kinds is 33 cents per 100 lbs. Shingles from the mountain mills are charged 5 cents per 100 lbs. higher than lumber. The east-bound rates to St. Paul and Winnipeg and common points are, by agreement among the railways, usually the same. The rates charges by the Northern Pacific and Great Northern from United States Pacific coast points to St. Paul, and points common thereto, are 50 cents and 40 cents, the same as those charged by the C. P. R. to Winnipeg. It is, therefore, probable that as the C. P. R. has been ordered to change its rates the American lines will follow suit.

TENDERS WANTED.

YALE-CARIBOO.

Yale-Cariboo would have returned a Liberal had the election in this riding taken place on the same day the general election. Possibly no other district in the Dominion has so much to expect from the splendid policy of railway construction and development inaugurated by the Laurier government. The electors appreciated this and were prepared to endorse the government at the polls. The general election was such a decisive endorsation of the Liberal policy that in Yale-Cariboo it is now simply a question of majority.

The Conservative party have only one argument left. They are pointing to the fact that Sir Wilfrid Laurier's majority is now too large already and that it is the duty of the electors of this riding to reduce the majority. This argument might be effective in a constituency in the east which has been developed to the fullest extent and where the government can contribute little to its prosperity excepting in the application of a sound general policy. In Yale-Cariboo much depends upon the good will and good wishes of the government. The construction of railways, of telegraph and telephone lines, of public buildings in the growing towns; the opening of new post offices and custom offices where required, the clearing of our streams to assist the great lumber industry, the encouragement of settlement on Dominion lands, the effective administration of Indian reserves—all these and many other matters are dependent on the assistance of the Dominion government. Under our system of party government which has possibly been developed to an extreme extent, if a member can do effective work, for his constituency he must have the ear of the government. It would be suicidal, then, for the electors of this riding to return a member opposed to the government. There is not the slightest possible chance of this happening but every elector who has the best interests of this great district at heart should poll a vote for the government candidate and thus show Sir Wilfrid Laurier that the splendid railway policy of his government is appreciated by the solid west.

The electors of the Boundary have a special reason for supporting the government candidate. The Liberals of Yale-Cariboo in convention assembled paid a tribute to the growing importance of this great mining district by selecting a Boundary man as their candidate. Cariboo, Lillooet, Kamloops, Yale and Okanagan will roll up big Liberal majorities on the twenty-second. Surely the home district of the candidate of the dominant party will not fall behind in showing their endorsation of the best government Canada ever had and in also showing the north country their appreciation of the fact that the member for Yale-Cariboo will be a Boundary man.

What is true of Yale-Cariboo is equally true of Kootenay and the electors there have a special duty to perform. They should accept the opportunity to pay a tribute to the splendid service rendered by W. A. Galliher during the four years he sat in the Dominion parliament.

THE VOICE OF REASON.

What is the reasonable thing for the people of the Boundary to do in the election now approaching? What is it the district's interest to do? Here is a section with greater possibilities of development perhaps than any other in the province. Railways are needed in this development. Here is a long stretch of country being fast developed in spite of many difficulties and whose development will be most marked once it is provided with railways and public improvements so essential to its growth. Without doubt the Dominion government will assist every legitimate enterprise that has right to lay claim to its bounty regardless of who shall represent it in parliament, as it is a fair government and one most zealous for the country's welfare, but it cannot be disputed that it will be much less difficult to get our demands promptly before that government if we have a representative favorable to the party in power than otherwise.

Regardless of the qualifications of the candidate now before the electors of Yale-Cariboo, it certainly would be wiser for the district to return a Liberal candidate and that with a majority that would emphasize his standing at Ottawa.

Concede that Mr. Burrell is an estimable gentleman. Concede that he is ready on the platform and good in debate. Concede that he would make a very desirable representative under favorable conditions. Concede all this and yet what would the district expect to gain by his election? It will not be pretended that his abilities are such as to make him a bright particular star in the opposition firmament and even if so what could he do for the district. A vote for him may be a graceful thing, a complimentary thing, but for all practical purposes it will be a lost opportunity.

Admit the Socialist candidate, Mr, Mills, to be an intelligent gentlemen of unquestioned character and fit to be the people's representative, what would it avail to vote for him? Are opportunities for helping your district so abundant that you can afford to throw away the present, just to say that you think society has admitted wrongs that ought to be righted?

The Liberals have a record of administration, equitable alike to the interests of the millionaire and poor man and such a government if it does only a small part of what it ought to do will be doing infinitely more than a solitary Socialist would, were he never so clever and never so able.

The qualities of the Liberal candidate left out of the question entirely the voice of reason ought to suggest to every voter that a great opportunity now awaits the Boundary and that is to return the Liberal candidate to parliament with a rousing majority. His election is sure, the effect may be intensified by the majority.

GRAND TRUNK PACIFIC.

The construction of the Grand Trunk Pacific means much to British Columbia. It means directly the expenditure of millions of money, all distributed in a way to do the country vast good. The money will go into the channels of trade. It will be paid out for labor, for supplies, for material, swelling each pay day the amount of money current in the country. The farmer will have a market at home for his produce, the laborer a market for his skill. Money spent in this kind of public works gets into general circulation. The merchant, the hotelkeeper, the farmer, the millman, the laborer, each shares in its distribution.

But there will be another benefit to British Columbia in the building of this great transcontinental highway the full measure of which can only be conjectured. It will bring into the province a large number of people many of whom attracted by railway building will become acquainted with the country's magnificent resources and will launch into other enterprises.

It will open up a vast stretch of country suitable for farming, cattle raising, lumbering and mining, all largely valueless until opened up by means of transportation. Without the Canadian Pacific British Columbia so far as its interior is concerned would today be largely a wilderness, rich in opportunity but of little value. Another railway will duplicate the work done by the Canadian Pacific, bringing in people and multiplying the country's wealth.

The grand endorsement of the Grand Trunk Pacific railway given by the people of Canada at the polls indicates for northern British Columbia,

"The first low wave upon the shore,
Where soon shall flow a living sea."

A LITTLE ADVICE.

To many the advice we are about to give will appear gratuitous, to others it will seem needless.

To those who are conservative by birth, breeding. education, environment, affinity and past favors it will be gratuitous, to those who are so strongly liberal that they can see no reason for any one being anything else, it will seem needless. The man who boasts that he never cast a grit vote and never will, will not listen, the man who boasts he never cast anything but a grit vote will see little cause for the advice.

But our words are directed to others. They are meant for young men just entering upon the proud rights of citizenship, to those newly naturalized and to vote for the first time on the 22nd inst., to those unpledged to party, unfettered by past alignment, to those more desirous of seeing a country prosper than party leaders and party friends merely personally succeed.

The Dominion of Canada has enthusiastically endorsed the good government and the wise policy of the Liberal party. The people of British Columbia have thus far sent a solid delegation favorable to the party and it will be for the best interests of Yale-Cariboo that it be unmistakably in line with the rest of the province and with the Dominion. A good majority is now assured for the liberal candidate. But this is a time of sweeping victories and the greater majority you give the liberal nominee the greater his influence at Ottawa. The gods help those who help themselves, and if by helping yourself now you can at the same time associate yourself with the party that is doing so much for Canada why not do it. Our advice to you is this:—

Vote.
Vote early.
Vote for Ross.
Vote for Liberalism.
Vote for Yale-Cariboo.
Vote for prosperous times.
Vote for the Grand Trunk Pacific.
Vote for the party with a definite policy.

To The Electors of Yale-Cariboo

As the Liberal candidate in this electoral district, I respectfully solicit your votes and influence.

No attempt will be made to discuss the general issues of the campaign in this address. Since receiving the Liberal nomination in January last, I have visited many parts of the riding and made myself thoroughly acquainted with its requirements. This work will be continued until election day but owing to the large extent of territory to be covered it is a physical impossibility to visit all sections or personally interview all the electors. I therefore avail myself of this opportunity to ask for your suffrage.

Permit me to direct your attention to some matters of local importance. Yale-Cariboo fully warrants the expenditure of public money in its development. The government has already done much in this direction. It has granted aid to several lines of railway; government owned telegraph and telephone lines have been constructed; the necessary money has been voted to secure telephonic communication through the rich Nicola and Similkameen districts, and telegraphic communication between Vernon and Kelowna. In order that the practically inexhaustible mineral, timber and agricultural resources of the district may be fully developed, this policy of governmental aid must be continued.

It is important that Yale-Cariboo shall return as its member one who can direct the attention of the governmen to matters of vital importance to the district and who will support the government in its aggressive policy of development. It is particularly important that the electors of this riding should show their appreciation of the government's broad, statesmanlike plan of constructing another transcontinental railway which will be the chief factor in opening up the northern portion of the riding. Branch lines to connect with the southern transcontinental lines will surely follow and the whole interior of the province will be opened up.

Briefly, my policy, so far as Yale-Cariboo is concerned, is a policy of development of all its important sections. With a leader whose record fills with pride all people of this country, irrespective of party affiliations; supporting a government whose eight years of wise, progressive administration has placed Canada in a proud position among the nations of the world, and at the same time has more closely connected the ties which bind us to the mother country, and fully endorsing a policy which means so much to the western portion of the Dominion, and more particularly to the District of Yale-Cariboo, I await with confidence, your verdict.

Yours very sincerely,

DUNCAN ROSS.

TUNNEL AND STOPE

The Montreal and Boston people are getting their properties in fine shape and before the end of the year will be supplying ore sufficient for the operation of three furnaces. The Brooklyn is sending out daily eight carloads of ore, the Stemwinder two cars and the Athelstan 1 care. The Rawhide will be able to output 600 tons a day as soon as the railway spur is completed.

The Combination is looking particularly well. The bondholders are running a drift at the bottom of the old shaft and have a fine lead of high grade ore. They are delighted with the property and the prospects are favorable for making good money out of the enterprise.

The Great Northern ore bunkers on one of the upper leads of the Granby are nearing completion. It is reported that a million feet of lumber have been ordered for their large bunkers on the lower levels ore for which will come out of the big tunnel.

The Boundary ore output for 1904 already exceeds that of last year and from present appearances at least 150,000 tons more will be mined and smelted before next New Year's day.

Reports from the Beaverdell district say that this year's work has resulted in giving many claims on Wallace mountain particularly all the earmarks of great properties.

Superintendent Galloway is much pleased with the showing being made on the Strathmore. Some good ore is coming out of the property now.

The highest grade copper ore ever mined in the Boundary is that now being taken out of the Brooklyn.

Some very fine native copper has been found in the rich gold ores of the Athelstan.

The Emma looks bigger and better than ever and is sending out a large daily tonnage.

A contract has been let for sinking a shaft from the 300 ft. level of the Providence.

Jos. Chenier and Thos. Thieband have gone up West Fork to do six months' work on the Monte Carlo.

All the claims in Skylark camp are looking well.

THE UNITED STATES ELECTIONS.

For those of our readers who do not see the United States papers dealing with the recent elections there we have pleasure in presenting a summary of the same. The Republicans swept the country, carrying every state but the solid south, and there Missouri appears to have gone republican.

President Roosevelt was elected by the largest majority of the electoral college since 1872. The electoral college vote will be about 343 to 133. His popular majority was the greatest in the history of the country, being in round numbers about one and one-half millions. He beat candidate Parker in his home precinct and received his oppponent's congratulations on the results quite early in the evening of election day. It seems to have been a great year for Roosevelt and Laurier, for Republicanism and Liberalism, the sweep in the United States for the one being a parallel with that in Canada for the other.

CHURCH CORNER.

Rev. W. A. Robins said farewell to his friends at St. Jude's Hall on Tuesday evening last and on Wednesday started on an extended tour of the far east, before settling down to his ministerial duties in a prominent English parish. He has been in Greenwood for five years during which time he has been instrumental in erecting a neat church building and in building up a flourishing church society. He was the recipient at the farewell meeting of an address by his parishioners and of a testimonial in the shape of a well-filled purse.

The services in St. Jude's were taken on Sunday last by the Rev. Archdeacon Beer in the morning and by the new rector, Rev Lawrence Amor, in the evening. The new incumbent comes from New Westminster.

Rev. E. Manuel who supplied for Rev. J. B. Knox in the Methodist church last Sunday, has conducted a series of meetings in the same place during the present week.

Rev. Father Bedard recuperated by his recent trip is again hard at work in the arduous duties of his large parish.

WHAT IS CONSCIENCE ?

A correspondent asks us to define conscience. As we are neither a moral scientist, nor a religious teacher either in school or church, we refrain from a personal opinion, but quote from Webster's unabridged dictionary.

CONSCIENCE

(a) Knowledge of one's own thoughts or actions.
(b) The faculty, power or inward principal which decides as to the character of one's own actions, purposes and affections; warning against and condemning that which is wrong, and approving of and prompting to that which is right; the moral faculty passing judgment on one's own self; the moral sense.
(c) The conviction of right or duty.

"Pinto" Shell Cordovan

Used in H.B.K. Mitts, Gloves and Moccasins—tough as whalebone, flexible, soft, pliable, scorch-proof, wind-proof, boil-proof, crack-proof, tear-proof, rip-proof, cold-proof, almost wear-proof—certainly the greatest leather ever used in mitts and gloves.

Like buckskin it is tanned without oil, unlike buckskin it is not porous, it is wind-proof—will outwear three buckskins.

"Pinto" Mitts and Gloves never crack or harden, never get sodden, are always warm, pliable, soft and comfortable.

Sold at all dealers but never without this brand:—

KITAMAT ROAD BONDED.

MONTREAL, November 9.—It is reported here that parties holding authority from the Grand Trunk Pacific have secured an option on the purchase of the charter of the Pacific, Northern & Omenica railway, running from Kitamat to Hazelton on the Skeena river. This charter carries with it a subsidy from the British Columbia government. It is understood that the option was secured on the payment of $5000. The agreement calls for the closing of the option on or before January 1st, 1905, at a figure of $60,000. The option on the charter of this railway was taken subsequent to the return of C. M. Hays, president of the Grand Trunk Pacific, from his tour of the British Columbia coast. By personal investigation Mr. Hays is said to have confirmed the reports of his surveyors and engineers that it would be impossible to use the Skeena river as a medium of transportation for railway construction material and supplies when the building of the G. T. P. is commenced in British Columbia. It therefore became necessary to run a railway from some point on the Pacific coast right into the heart of that section of British Columbia which would be traversed by the new transcontinental line. It was then that the Pacific Northern & Omenica charter was found and tied up pending the result of the Dominion election.

When construction is commenced west of the Rockies, it is said the line from Kitamaat to Hazelton will be built. Over it all the materials and supplies to be used on the road in British Columbia will be taken. Hazelton will be the distributing point. While in some quarters the securing of the charter from Kitamaat is taken to mean that that place will be the Pacific coast terminus of the Grand Trunk Pacific, there is no authority that such will be the case. Railway men who are qualified to hazard an opinion think that possibly the Grand Trunk Pacific may only use the line from Kitamaat as a feeders for the main road during construction, ultimately running the main line to some other port. In the latter event, however, it is the consensus of opinion that the Kitamaat line would be operated as a branch road.

BRITISH PRESS ON THE ELECTIONS

LONDON, Nov. 4—The Daily Graphic says Sir Wilfrid Laurier has scored a great triumph. Imperial tariff reform has caused no division of opinion, Sir Wilfrid Laurier's views are well known in England, whilst Mr. Borden, notwithstanding Roseberry's extraordinary assertion, pledged himself and his party to the principle of mutual preference two years ago. After speaking of the Grand Trunk Pacific being the main party question, the Graphic says: "The Canadians, however, are too prosperous to feel greatly inclined to go 'agin the government'."

In a speech at Edinburgh Sir Henry Campbell-Bannerman said little light had been thrown from the other side of the Atlantic by the news of the results of the elections in Canada. There was a party there more committed to what might be called Mr. Chamberlain's policy, than the other. It was not Mr. Chamberlain's friends who had had the best of the contest.

Referring to Sir Henry's speech, the Post says it is hardly necessary to say that there is not even a scintilla of justification for the inference that the Laurier victory is an evidence of anti-Chamberlain sentiment.

The News says the question before the electorate of Canada is reduced to one question, the Grand Trunk Pacific contract. The tariff question was absolutely quiescent during the campaign.

The Times says Sir Wilfrid Laurier's victory illustrates the difference between political conditions in Canada and Great Britain. The swinging pendulum is not yet acclimatized in the Dominion. Success breeds fresh success, and victorious ministries seem to enjoy the means of postponing indefinitely their downfall or decline. After commenting on the present prosperity in the Dominion the Times says Sir Wilfrid Laurier's personality may have had some bearing on the result. The one recent episode, the Dundonald affair, which may have led Englishmen at home to regard the Canadian government with misgiving, has probably strengthened his hold on French Canadians. It is only fair to say that the Militia Bill was introduced after Lord Dundonald's dismissal. The result of this contest shows that the people do not share Mr. Borden's apprehensions regarding the Grand Trunk Pacific scheme. The Times quotes Sir Wilfrid Laurier's remarks on the preference question. It does not think that they bear out the ideas of some American writers that his success constitutes a rebuke to Chamberlainism.

MADDEN BROS.
FINANCIAL AND MINING AGENTS

MINING PROPERTIES OF MERIT PURCHASED OR EVELOPED

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5 00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square.

Claimes are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comdtroller.

No free miner shall receive a grant of more than one mining claim on each seperate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior.
Department of the Interior, Ottawa.

Thanksgiving.

And have our hearts grown cold? Are there on earth
No pure reflections caught from heavenly light?
Have our mute lips no hymn—our souls no song?—
Let him that in the summer-day of youth
Keeps pure the holy fount of youthfu feeling,
And him that in the night fall of his years
Lies down in his last sleep, and shuts in peace
His dim pale eyes on life's short wayfaring,
Praise him that rules the destiny of man.

—Longfellow.

Now is your time to make a selection of a lot or two on which to build yourself a happy home. Prices and terms will be right.—Apply to Ralph Smailes agent for the Greenwood Townsite Co.

TOWN TOPICS

The hotels report business improving.

Business is better and collections easier than for a long time.

W. T. Hunter has returned from a two months' visit to North Dakota.

Mr. George Swayne is suffering severely from an abscess on the face.

Dan McLaren is opening a blacksmith shop in the old Whiteside building opposite the Arlington.

R. Wood & Co. are improving the block at the corner of Government and Deadwood streets. There are now some nice suites of rooms there for good tenants.

F. J. Deane of the Nelson News is a visitor in town this week. He is assisting Duncan Ross in his public meetings. He reports the north end of the county strong for Mr. Ross.

Mr. George H. Cropley who recently bought out his partner, Mr. J. H. McNeil, in the feed store and livery stable, reports business good in his lines.

Boundary Valley Lodge, I.O.O.F., is making elaborate preparations for a dance in the Masonic hall, on the evening of Thanksgiving Day, 17th inst. Music by the Greenwood orchestra.

Messrs. Anthony J. McMillan and W. J. Astley both prominently identified with the Snowshoe Mining company and recently returned from England looking hale and hearty, were in Greenwood Wednesday last.

The wagon road to Skylark camp is now completed and the Silver King, Silver Cloud, Bay and other claims have now an easy and direct way into town, and incidently to the railway and smelters. The work was done under the superintendency of George Findlay and that is a guarantee that the job is a good one.

Mr. H. M. Pemberton manager of the Boston and Montreal Consolidated got a severe shaking up Monday by being thrown from his horse. The animal, usually very docile, got frightened at a moving locomotive at the company's works and became unmanageable. Although quite seriously injured Mr. Pemberton is making rapid headway to recovery and hopes to soon be out again.

A tridenum of prayers and instructions shall be held Sunday, Monday and Tuesday next in the Church of the Sacred Heart in compliance with the ordinances of the jubilee granted this year by His Holiness Pope Pius X. on the occasion of the fiftieth anniversary of the Proclamation of the Dogma of the Immaculate Conception of our Blessed Virgin Mary. During these three days mass shall be at 10 o'clock a.m. and evening service at 7:30 p.m.

Rev. Father R. Pecoul, O.M.I., assistant to Rev. Father J. A. Bedard, O.M.I., arrived in Greenwood last Tuesday. Rev. Father Pecoul is a promising young Priest who has been already three years in B. C., speaks fluently English and Italian. He was born in France and made his studies in Rome. From Greenwood Fathers Bedard and and Pecoul shall look after spiritual welfare of the Catholics of the Boundary district.

Rev. Father T. Atthoff, P,P., of Nelson was a visitor in Greenwood this week.

Xmas Goods arriving every week. This year's stock is a wonder.—Smith & McRae.

Two evening of first-class amusement were afforded the patrons of comic opera at the Auditorium on Wednesday and Thursday evenings last, when the Beggar Prince Opera company played to large and delighted houses..

Is the city council going to allow that wrecked house to remain in Boundary creek all winter, only to threaten damage to public and private property when the spring freshet comes?

Mr. and Mrs. Keffer and Robert who have been making a tour of the sunny south are expected home tomorrow.

The ladies of the Presbyterian church will give a "hard times" social in the Auditorium, Monday next, 14th inst. For particulars read the bills.

H. A. Kennedy, chief engineer of Great Northern construction in the Boundary was in town today.

Fred Munn who has been summering in Thunder mountain, came in on Thursday evening's stage.

For a town lot at the bottom price. See RALPH SMAILES, Agent Greenwood Townsite Co.

THAT DEER HUNT.

The residents of the valley just above town were surprised one day about two weeks since to see what appeared a war party marching with an air of victory through the valley. Whether Japs or Russians was conjecture for a time. There did not appear mobility enough about the squad for Japs, there was not whiskers enough for Russians. The party appeared to be a compromise between infantry, cavalry and artillery possessing qualities of all. The equipment was complete as to arms and ammunition. If they carried any ikons they were carefully packed in a box marked "Canadian Club" for safety, for no camp follower in Boundary creek would dare to break open such a box. But after the last ranch had been passed the disguises were removed and then were revealed the faces of Messrs. Richardson, Logan, Halberg and Large. Their destination was the divide between Boundary creek and Canyon creek at a point about 20 miles removed from Greenwood where they had learned deer were very abundant and it was deer and bear they wanted. They spent ten days in the wilderness and located many fine deer and had lots of target practice at them. Some of the party spent a large part of the time looking for a strayed horse. To secure this involved a walk to town for a saddle horse and its subsequent return and a walk back. The deer made excellent targets for the marksmen but unlike their practice days at the butts no flag was ever seen to indicate that the mark was reached. About the last day of the trip a dead deer was found and an evening was spent in debate around the oil can stove as to whether it should be credited to Richardson who had fired seven times at a buck, or to Halberg who had unloaded his rifle ten times on one. The debate ended in a draw.

The trip was voted a great success for the boys got a few rabbits and fool hens and a rancher who happened their way with an old musket got them a deer.

For Sale or Rent—Sewing machines, typewritters, bob stays, guns, wagons, house furniture "or any old thing."—A. L. White & Co.'s New and 2nd Hand Store.

Webb's Chocolates are best, purest and always fresh at Smith & McRae's.

THE WAR SITUATION.

There is little change in the war situation in the east. The Japs keep hammering away at Port Arthur, gaining minor advantages and steadily pressing to the ultimate fall of the evidently fated city. The advantages gained are at enormous cost to the attacking army, who seem to count the sacrifice of life as nothing that the desired end may finally be gained. The Russians are displaying great stubbornness and powers of resistance in the face of what appears to be an inevitable issue. Up north the armies are face to face, each fortifying their lines against what would appear to be near at hand—the bloodiest battle in modern times, Liaoyang and Sha river not excepted. Any day now may witness the terrible clash of the mighty forces and the result none can foretell. Some critics prophesy that the armies will not come together this autumn but it will be surprising if the Japs do not undertake the offensive almost at once. They are flushed with victory after victory, are rested from their late battles and appear to be casting envious eyes on Mukden for winter quarters.
