Vol. 10 GREENWOOD, B. C. FRIDAY, MAY 23, 1902. No. ~~38~~ 37.

GREENWOOD'S HIGH GRADE MINES

NEARBY PROPERTIES LOOK PROMISING

Sunset Smelter Building About Completed—A Big Strike on the Waterloo Mine at Camp McKinney—Mining Notes During the Week.

The carpenters practically completed their work at the Sunset smelter this week and everything is now in readiness to receive the ore crusher and sampler which are daily expected to arrive. The machinery was shipped from the foundries in April but for some unaccountable reason have been delayed in transit.

The old pyritic smelter building can scarcely be recognized in the present premises, so important are the changes which have been made. A new railway trestle has been extended along side and beyond the building. This trestle has an elevation which permits of ore bunkers underneath. The ores from the bunkers pass directly into the crusher without extra handling which means a great saving in labor. Other labor saving devices have been introduced. Some important improvements have been made around the furnace. The wooden floor has been removed and an iron floor replaces it. Other protections against fire have been introduced. A pumping station has been established at Boundary creek and a large force pump placed therein. This can be used as an auxiliary to the flume and will also prove effective in case of fire.

The machinery has all been overhauled and placed in shape so that when the sampler and crusher are placed in position it is expected that everything will run as smoothly as clock work.

In visiting the smelter, the first thing that strikes one is the successful way in which the various parts have been constructed to avoid frequent handling of ore or carrying it a long distance. The ore cars will pass directly above the crusher into which the ore passes by gravitation without handling. From the crusher it passes into the ore bins, convenient to the furnace in a similar way, so that the least possible amount of labor will be be required at this smelter.

The delay in securing the sampler and crusher makes it impossible to state definitely when the smelter will be blown in but it is safe to say that it will not be later than July 1st.

Rich Waterloo Strike.

CAMP MCKINNEY, B. C., May 22.—(Special to the Times.)—A rich strike was made at the 150 foot level on Waterloo today. A drift on this level ran into a vein of rich ore in which the free gold can he distinctly seen. The vein is fully three feet in width and is widening out. The strike has caused considerable excitement here as the showing is the best ever uncovered in the Waterloo.

ANOTHER REPORT

CAMP MCKINNEY, May 22, 1902.—A very important strike has been made on the Waterloo, claim, on which development work has been progressing during the last three months. Since the sad death of the late Capt. Howe, who was superintendent at the time he met his death, Mr. A. W. Boyd, the old Superintent, has been in charge of the works, and under his direction. After the completion of a station and sump at bottom of the shaft, a depth of 150 ft., a drift was run in a northerly direction for twenty six feet, when the ore body was encountered, the vein is between three and four feet wide well mineralized, free gold being plainly visible, and in parts quite a quantity of the yellow metal.

It may be rembered that last year, Mr. Boyd opened up a body of ore in the winze, about 150ft. to the north of the present workings. Since the Company has been re- organized, (the stock being made assessable), in order to give the necessary funds for pushing development, with the very satisfactory results now attained. Mr. Boyd has been connected with the working of the property for some time and has thoroughly studied the breaks and faults in the vein, he is now satisfied he has in sight over 1000 feet of the vein without a break and is most sanguine of the ultimate success of the mine.

The strike has caused no little stir in the cam p. where times have been for some time very vuiet, and it is hoped that the good showing on the Waterloo. may lead to work being resumed on the Fontenoy, whose sideline is little more than one hundred feet east of the first named claim.

"After thirty years experience in the mining camps of the west, I can confidently say that I never saw more promising ground than the ridge between Twin creek and Providence creek immediately below Greenwood" said an old prospector this week. "I have examined the ground throughly and it affords a most promising field for one who is looking for high grade propositions. The veins are narrow but they are numerous and well defined and it cannot be a difficult matter to find high grade ore in any part of the hill. I cannot understand why people should be anxious to rush to Thunder Mountain and elsewhere when right at home is ground that is as promising as anything in that much advertised district. I was in the Thunder Mountain country years ago and know what I am talking about."

This opinion is shared by a good many people and is being confirmed by recent development work. The Providence is looking better each day and Mr. Fowler has a large quantity of high grade ore ready for shipment.

The same is true of the Elkhorn. Messrs. Smith and Longly are getting out considerable ore and a shipment will be mde to the local smelter next week.

Bob. Donagin has a claim up Twin creek, immediately above the Gold Finch. The claim is rather unique in as much as it has a spring of clear sparkling water from which there is a large and steady flow all the year round. Mr. Donagin thought the water would prove valuable since he believed that the people of Greenwood would prefer pure spring water to that of Twin creek. While waiting for the city to buy his water he thought he would look for high grade ore, the claim being in the high grade belt. He started work last week and succeeded in uncovering a ledge which looks as promising as anything that has been found in the camp.

C. Scott Galloway and Peter Lover are busy hunting for a ledge nearer the city. They are doing some surface work on a claim above the hospital. They have not succeeded in striking a ledge yet but are hopeful that they will do so.

There are several people after a lease on the Gold Bug one of D. W. Holdbrook's properties. Mr. Holbrook is away in the Thunder Mountain country. Several letters have been sent to him and it is possible that one of the applicants may secure a lease on this ground. The G. A. R. and other properties of the B. C. M. & M. Co., and also well worth looking for high grade ore.

EHOLT ECHOES.

From our own correspondent.

While we have not been making much of a splurge of late, our town has not been standing still by any means, Quite recently Mr. Kaiser the proprietor of the Commercial Hotel, completed two fine dwellings on Barclay ave. and is at present erecting a very nice residence on Columbia avenue, to be occupied by W. Woodhouse, who has lately come from Trail, to take charge of the C. P. R. shops.

Messrs. Paulson & Bilton, also in the employ of the C. P. R. are building residences for themselves. In fact this place is rapidly becoming a railway town, whereas this time last year it was purely a mining town, so that when the mines in this vicinity, such as the B. C., Rathmullen, Oro Denoro, Emma, & etc., start working again we shall be in a very enviable position, being both a railway and mining center.

The people of Eholt are very much dissapointed and disgusted at the escape of the prisoners from tne Greenwood jail, last Monday night. Mr. Torney and Judge Rendell spent considerable time and money in securing the arrest of these men, and then for them to simply walk out of prison, and across the line is very annoying. The negligence which has been displayed somewhere should be certainly remedied.

On Sunday morning last another robbery was committed here, but the the robber made his escape before he could be arrested. The want of a provincal policeman is greatly felt, and we cannot but think that if Mr. Darraugh was stationed at Eholt, instead of Phoenix it would be a much more satisfactory arrangement than at present.

Mr. Evans, in doing assessment work on the "May", in Smmmit camp struck what appears to be a very good grade of copper ore. This claim adjoins the B. C. on the East and is distant 2 miles from Eholt.

Mr. Sweeny of the Eholt Trading Co has gone on a trip to the coast.

PASTOR LEAVING

A special meeting of the Kootenay Presbytery was held in the Phoenix Presbyterian church on Tuesday the 20th. inst, to consider the Rev. J. Millar's resignation. There were present Rev. D. Wright of Nelson, Rev. J. Robertson of Grand Forks, Rev. W. Calder of Columbia, Rev. J. Millar of Phoenix, and Rev. Dr. MacRae of Greenwood. After Mr. Millar and the commissioners from the congregation had been heard Presbytery most regretfully accepted the resignation.

On the first of Iune Mr. Millar preaches his farewell sermon. The pulpit will be declared vacant on the 8th of that month.

Dr. MacRae was appointed moderator of the vacant confregation.

Rev. Mr. Millar goes to Calgary to supply for Dr. Herdman during June. Great regret is expressed on all hands at the departure of this highly esteemed clergyman who during his residence in Phoenix made warm friends not only in his own congregation, but among the residents of Phoenix and Greenwood as well.

New goods at reduced prices at Mitchells.

REWARD.

Wanted to know the whereabouts of David Henderson of Greenwood, B. C. Last heard of December, 1901. Reward given by communicating with T. H. HENDERSON, Fairview, B. C.

JAIL DELIVERY

Two Provincial Prisoners Make Good Their Escape.

WERE IN CITY LOCK-UP

Liberated by an Accomplice From the Outside.

In the quaint language of officialdom "A Court of Assize' Nisi Prius, Oyer and Terminer, and General Gaol Delivery will be holden in the City of Greenwood, at eleven o'clock in the forenoon, on Monday the 19th day of May." The general Jail delivery took place in a very informal way and possibly an effort would have been to meet the other requirements of the notice in the same manner had they been written in plain every day English. On Saturday last Court Stenographer Brydges reached here and Constable Young brought over two prisoners from Nelson to stand their trial at the court on Monday. They were Hayes and Stewart charged with burglarizing Torney's store at Eholt. The learned Judge was delayed and notice was sent to registrar McMynn to adjourn the the court until Friday of this week which was done.

Now the two prisoners should have been kept in close confinement in the cells at the Provincal Police jail, but there is a rather congested state of affairs down there. The building is small and there are no less than four officials with offices there. There is William Grahame McMynn, who has offices to numerous to mention; F. M. Elkins sheriff, James S. Birnie, clerk and Geo. Cunningham, deputy mining recorder and police constable.

None of these gentlemen are too greatly blessed with avordupois, in fact outside of Mr. Cunningham who is fast getting fat and good natured, the bunch hover round the ragged edge of tenuity. But even thin men take up space and when four officials and their desks are placed in the building there is very little space left, save the cells. But there are thousands of official documents to be kept there. When every other nook and corner was filled, the cells had to be used and they have been converted into rather unsatisfactory vaults for the preservation of state papers. A larger and more suitable government building is of course needed but that is another subject.

When constable Young arrived with his prisoners, the Province had no place to keep them and the City lock up was placed at the disposal of the Provincal officers.

The City cells are evidently not built to keep prisoners. Greenwood being certaintly an extremely law abiding town, it was doubtless considered that any kind of cell would do in the City and long before this the government would have built a strong jail to keep the bad men that came from Eholt, and other uncivilized places. The City cells have a unique record, and any prisoner who remained there for more than 24 hours was considered a very dull fellow, while he who staid confined until committd to a common jail was looked upon as a veritable chump.

But Hayes and Stewart were placed in the city cells on Saturday afternoon because there was no other place to put them. The bars were placed in position, doors were securely locked and Provincial and city police solemnly resolved that no more prisoners would escape from the city cells.

Alex Currie city driver and special polceman was deputized to feed the prisoners. He did so on Sunday and Monday and early Tuesday morning he walked in with the cheery "well boys here's your breakfast. He unlocked the doors, let down bars and marched boldly into the cells, but no boys were there. He minutely examined the various corners of the cells but could find no one, and coming to the conclusion that they must have escaped through the key hole, he gave the alarm. All the Provincal officers in the various towns were notified and the sheriffs on the other side, but Hayes and Stewart are still breathing the air of liberty. How they got out can only be surmised. As there is no jailer or night watchman at the city hall, an accomplice secured keys that would fit the lock, and thus liberated the prisoners, taking the precaution to relock the doors after them.

The moral of this little story is plain. The Provincal government should lose no time in erecting a suitable Court house and jail in the City of Greenwood.

Assize Court.

Opened by Mr. Justice Walkem this Morning.

His Lordship, Mr. Justice Walkem arrived in the city by yesterday afternoon's train and opened the court of assize at eleven o'clock this morning. Today having been proclaimed a public holiday, after addressing the grand jury and handing them the indictments in the criminal cases adjourned the court until ten o'clock Monday, remarking in doing so that he had no intention of interfering with the arrangements for the celebration.

There was a large attendance present. In addition to a dozen lawyers in wig and gown and the court officials there was a large number of witnesses and spectators. The grand jury selected G. Arthur Rendell, J. P., of Eholt, as their foreman. The following is the list.

White, Milton D., Grand Forks; Rendell, George Arthur, Eholt; Murray Hugh, Thomet, C. L., Midway; Garland, T. A., Anaconda; Gulley, T. M. McCreath, Jas., Ferguson, A., Johnson S. M., Jacobs, E., Barrett, L. S. M. and King, H. A., Greenwood.

His lordship began his address to the jury by congratulating Greenwood upon the fact that not one of the cases on the list originated here. He briefly reviewed the different criminal cases and gave instructions to the jury. The learned judge then referred to the remarkable development made in this section of the province. This was pratically the only part of the province he had not heretofore visited and the many evidences of development and prosperity were a revelation to him. He dealt in an interesting way with the wonderful development in mining since the golden days of Cariboo and paid a glowing tribute to the class of men who are usually found in mining districts. In closing he referred to the recent escape of prisoners, suggested to the grand jury that they should investigate the matter and that he would be pleased to receive a presentment from them on this and other matters which they might deem worthy of consideration.

After arranging the work for next week the court was then adjourned until Monday at ten o'clock.

Among those in attendance at court are W. H. P. Clement, barrister, Grand Forks; A. C. Sutton, barrister, Grand P. T. McCallum, and D. H. Rice, Grand Forks; Police Magistrate Johnson, Grand Forks, and Police Constable Dinsmore. There are several cases to be heard and the court will probable sit the whole of next week.

TOMORROW'S CELEBRATION

Everything is in readiness for the big celebration tomorrow. The weather which threatened during the week cleared up to day and the prospects of a fine day are excellent. Rossland, Grand Forks and Phoenix are sending big delegations to the celebration. The committee have everything arrar ged for a big day's sports.

THE RIGHT SPIRIT.

Ald. Caulfield's remarks are very refreshing after the season of grumbling and complaining which British Columbia has passed through. The people have lacked faith in themselves, in their province and its magnificent resources. Instead of having confidence in the province and defending it against the often unmerited criticisms of outsiders they have joined in the chorus of those who sang nothing but the main songs.

What is wanted is men of Mr. Caulfield's stamp who has faith in the province and who loses no opportunity to remove evil impressions. What is true of the province generally, is also true locally. If the people would only stop grumbling and all pull together with the impression that things are not half as bad as the pessimists painted them, wonderful improvement could be wrought in a very short time.

After all an organized band of boosters can help the game a great deal more than a rabble of knockers and the game of developing the resources of the province and settling it with happy and contented people is well worth boosting.

There is room enough here for millions of people and wealth enough to keep them comfortable. The people are anxious to come here and make their homes in the west. It should be an easy matter to get them here, if British Columbians would pull together and quit quarrelling among themselves.

AN OBJECT LESSON.

The escape of provincial prisoners from the city lock up most eloquently calls attention to he urgent necessity of a proper public building in this city. Without discussing the disadvantages under which gold commissioner McMynn and his staff labors in the present quarters and the grave responsibility which the government assumes in allowing numerous important documents to remain in the present building which is lacking a fire proof vault or any other means of security, we are bound to say that unless the administration of justice is to fall into disrepute, dangerous characters awaiting trial should feel that they are incarcerated in a building that will hold them until their trial takes place. It is a serious matter that so many prisoners have so easily made their escape from the city lock up across the international boundary line.

We are glad to announce that $7.000 has been placed in supplimentary estimates for a jail and court house in Greenwood. This sum is inadequate to meet the cost of the building required, but it is sufficient for a start and we hope that the government will lose no time in beginning the erection of the building in Greenwood. Proper cells should be provided in the basement of the new building so that there cannot be a recurrence of the informal general jail delivery which took place here this week.

COMPULSORY EDUCATION.

The public schools will reopen on Monday next after having been closed for some time on account of an epidemic, of measles. Previous to closing the schools, the attendance was small and irregular, due to some extent to the natural fear of a disagreable infection, but this irregular attendance is in a large measure accounted for by the indifference of some parents and their neglect in sending their children to school. It is important from a public standpoint that all children should have at least a common school education and laws have been made so that indifferent parents may be punished for neglecting one of the most important matters in the upbringing of their children. The city has a financial interest in seeing this law enforced.

Under the provisions of the school Act which places the responsibility for the maintenance of the schools on the cities, the government assists the municipalities to the exent of a $20 capita grant which is based on the attendance at school. Every child of school age who absents himself from attendance at the public schools inflicts a direct loss of $20 annually on the city. The only remedy against negligent parents and wayward children is to enforce the compulsory clauses os the school act. This the board of school trustees intend to do. A truant officer will be appointed who will have instructions to strictly enforce the act. When he does this, offenders will find that it is an expensive matter to violate law in this regard. The penalty on first conviction is $5. and this fine is doubled on every subsequent conviction. It is hoped that there will be no necessity for taking extreme measures, but if from no other than a financial reason the attendance of all children of school age must be secured.

The Boundary Creek Times joins the citizens of Greenwood in extending a cordial welcome to the many visitors who are coming on Victoria day. May they have a pleasant time and go away with the impression that Greenwood is a hospitable city as well as being the mining, smelting, commercial and financial centre of the Boundary district.

A NEW POLICY

No Land Grants to Be Given Railway Companies.

STRAIGHT CASH SUBSIDIES

For the Coast-Kootenay and Canadian Northern.

Obstruction by the oppoosition, and Joseph Martin's desire to save at least the tatters of the platform of the recent convention at Vancouver, combined to force the government to abandon its policy of giving enormous land grants to railways. Immediately before the Victoria bye-election the government announced that it had arranged with McKenzie & Mann for the construction of the Canadian Northern railway.

The government intended to ask parliment to ratify an agreement which gave this railway a cash subsidy of $4.800 for a portion of the road and $4.000 a mile for the balance, also 20.000 acres of land per mile for the road through B. C.

The government held this out as a bait to the Victoria electors and they took the bait. The opposition strongly opposed this arrangement, claiming that the subsidies were exhorbitant and that as MeKenzie &Mann were in any event going to build to the coast, there was no good reason why such large subsidies should be granted to induce them to do so. They twitted Martin, and his supporters on having deserted the liberal convention policy of opposition to land grants to railways. When the government announced having entered into an agreement with McLean Bros, to build the Coast Kootenay road, the contractors to receive public aid to the extent of $4.000 dollars per mile and 1,000,000 acres of land, the opposition in the house, had pointed out that the government had received a bonafide offer from the V. V. &E. last year to build the road for a cash subsidy of $4.000 a mile without a land grant, and announced that they would refuse supply to be voted until the objectionable railway legislation was withdrawn.

Two of the opposition members Helmcken and Hawyard deserted their party, and went over to the government. This gave the government 20 supporters in the house counting Martin and his three supporters, and leaving the opposition with 16.

At least two of the government supporters viz, C. D. Clifford and Price Ellison, were dissatisfied, the former because promised aid to a northern railway was not forthcoming, and the latter because the government failed to provide aid for the Midway &Vernon road. The government then introduced a bill giving aid to Clifford's road but Martin declared himself. He told the government he was opposed to land grants and could not support the railway policy of the government. A dead-lock was the result. No progress was made in the house for two weeks.

On Ttesday last the government announced the withdrawal of its rail-legislation and the introduction of a measure which eliminated land grants altogether. It authorizes the governor-in-council to aid the Vancouver and Coast-Kootenay Railway Company, or any other railway, by giving $4,000 per mile cash from Vancouver to Midway, not exceeding 230 miles.

To run from Vancouver via New Westminster along south of the Fraser to Midway, and also down to the mouth of the Fraser, and connect with the Vancouver Island and Victoria. The security is set at a hundred thousand dollars, work to start in three months after satisfactory Dominion aid. It is exempt from municipal and Provincal taxation for ten years, and there after gives 2 per cent of the gross earnings in lieu of taxation. The government controls the rates, and the agreement is void if work is not started before September 1903.

In the case of MacKenzie & Mann's road' the subsidy is placed at $5000 per mile, conditions otherwise are similar to the Coast-Kootenay road. Head office for the Pacific divison is to be at Victoria.

The opposition regard it as a great victory and a justification of their obstruction of the estimates, inasmuch as the cash subsidy was increased but very little, while the entire and enormous land subsidy was saved to the province.

THEY HAVE MUCH MONEY

Prejudics Against B. C. Could be Removed.

The predjuice against British Columbia investments is not so strong in the East as we are led to suppose," said ald Caulfield upon his return from Montreal, Toronto and other eastern centers last week. "Times were never better in the East than they are at present" he continued. Money was never more plentiful and those who have it are eager to invest it. They have been leaving British Columbia mining properties alone because it had been continually dinned into their ears that conditions were bad here, and they would not have a good run for their money. They have switched to cool speculations, timber and about everything else that offered them an opportunity to speculate with their surplus money."

"Although eager for investments, but little Eastern money is being invested in British Columbia mines. The fault to a large extent lies with ourselves. We have developed into a body of chronic grumblers. This is peculiarly noticeable in traveling on the railway. In one car you will find a body of men damning capital, while in the next car are capitalists cursing the unjust system of taxation, the high rate of wages and labor unions. Now all this combines to frighten capital away from the Province.

"But I did not find the feeling against investment in the Province was strong. In conversation with business men in Montreal and Toronto, all the arguments that are being used against this Province were advanced but they were anxious to hear the other side, in fact they appeared eager for an excuse that would justify them in investing their money here. They have plenty of money lying idle and if a fair opportunity presented itself they would willingly invest it.

"It is interesteng to watch the way the investing public of the east follow each other. Coal caught last spring and anything that looked like coal would find ready takers. Timber too became popular and there is a hot skirmish for timber speculations. If it were only possible to get things down to a settled basis in this province and quit grumbling, it would be an easy matter to make B. C. mining investments popular and money would simply pour in here.

"In Manitoba too, the outlook was never brighter and settlers are coming in by thousands. Several American land syndicates have acquired large areas in the Province and are bringing colonies from the states to live and settle on these lands.

"Throughout the whole Dominion prosperity reigns except in British Columbia, where the advantages are greater. Our turn is coming however, and when it does come the east will furnish all the money that is needed.

CAMP FAIRVIEW

Is Again Coming Rapidly to the Front.

RECENT DEVELOPMENT WORK

Dominion Consolidated Company in Good Shape.

Fairview Camp of which little has been heard for some time is again coming to the front. The new Fairview Corporation ahd the Dominion Consolidated Mines Company, Ltd., are doing considerable development work which is demonstrating that the large bodies of ore can be profitably worked and treated with intelligent management. During the early days of the Fairview camp a large amount of money was expended, expensive plants were installed, but neither work nor plants were adopted to the character of the ore and loss and dissappointment were the result. With new managers profiting by the bitter experience of their predecessors, there is now every assurance that Fairview will occupy a leading place among the mining camps of the province.

On the properties of the New Fairview Corporation, a large amount of construction work has been done, under the superintendence of Charles Ostenburg. The shaft on the Stemwinder has been sunk an additional 25 feet in order to put in a large sump and ore pocket to receive the large quantity of ore which the third level will supply. Ore chutes are now in for over 300 feet in the different levels and all preparatory work well advanced in order to enable the company to extract large quantities of ore when necessary.

Twenty more stamps have been purchased ane are being placed alongside of the 26 stamps which are now in operation. This work will take about 60 days, when 150 tons of ore per day will be treated. A cyanide plant is being erected for the treatment of concentrates of which there are over 200 tons on hand.

Mr. Ostenburg, the superintendent says the ore can be treated for a total cost of less than $1.75 per ton and there are thousands of tons in sight running from $4 to $6 per ton.

The Domonion Consolidated Mines Co. Ltd, are developing their properties, the Flora, Western Hill and Virginia by a series of tunnels. The stock of this company is being eagerly purchased in the east, and a large amount of capital is available for the development of their properties. The company have also secured interest in the power at Okanogan Falls and work will early be commenced there with a view to installing a large power plant capable of furnishing ample power to all the mines in the district.

The company has a capital of $500,000 divided into 2,000,000 shares of 25 cents each. The officers are Geo. H. Maurer, Montreal, President. L. W. Shatford, Secretary-treasurer, Fairview and the following are the directors: John R. Barber, M. P. P. Toronto, W. J. Bickell, Toronto. I. Oppenheimer. Vancouver; Stephen Magott Fairview; A. E. Nelson, Fairview, John Love Fairview.

The stock of the company is selling freely at par on the eastern exchanges. In 1899, T. H. Trekeway, the well known mining engineer made a report on the properties of the company in which he pointed out that the vein on the properties is well defined and fully 18 feet in width. Samples taken from a 27 foot shaft on the footwall, gave an average return of $7 in gold, $1.35 in silver, making a total of $8.35 a ton while the balance of the vein gave a return of $2 in gold and 70 cents in silver, so that $5.25 may be considered a fair average for the full width of the vein.

The Dominion Consolidated Mine Company., is in the hands of conservative busness men who have the confidence of the investing public in the the east and with properties of such promise, there is no good reason why further operation of the company should not be in every way successful.

REWARD.

Wanted to know the whereabouts of David Henderson of Greenwood, B. C. Last heard of December, 1901. Reward given by communicating with T. H. HENDERSON, Fairview, B. C.

"LOVERS LANE."

The New York raging success, "Lovers Lane" is one of the songs sang in "Too Rich to Marry" which comes to the Auditorium, Friday, June 13th.

You can hear all the latest songs and there are a number of them with this comedy hit.

A POPULAR LECTURE

Mr. Will Gibben of Winnipeg will preach in the Methodist Church on Sunday morning and evening, May 25th, and will deliver his popular lecture on Monday evening. The subject of the lecture is, "Leaves from a travelers note book on a trip to the Eternal City." Collection at the close.

Mr. Gibben is a speaker of ability and his lecture has been spoken of in the highest terms by the papers of the coast cities.

LAID THE TRACK

Track laying on the V. V. & E. is now completed from Marcus to Nelson Wash. The latter point was reached this week. Since the dismissal of the injunction against the company rapid progress has been made in the laying of rails. The Company expect to get to Republic in June. When this is completed work will be started from Curlew northward to Greenwood.

SPECIALLY MENTIONED.

Included in the list of names mentioned by the officer commanding in the famous Hart River battle for conspicious bravery and good work performed is that of Capt. R. G. Edwards. Leckie who is better known to the people of Greenwood as Major Leckie, M. E., Major Leckie had charge of the Republic mine for some time and he and his brother Jack are among the fourth contingent officers in South Africa.

HAS AN OBJECTION

P. C. Shine yesterday filed an objection in the superior court to the proposed disincorporation of the Yellowstone Gold Mining company, owning a group of claims in the Osoyoos mining division of the Yale district of British Columbia, says the Spokesman Review. Mr. Shine alleges that H. Shallenburger and R. McCullough, president and vice president of the of the company respectively, connived to defraud the stockholders in the sale of the claims to the Chicago-British Columbia Mining company. Mr. Shine claims to control 143,000 shares of the capital stock of the Yellowstone.

A FULL MEETING

For the first time since the election of the present council, there was a full attendance at the regular meeting on Monday night. During the winter one or more members were absent, with the return of Ald Caulfield last week Mayor Naden had the presence of all his flock. Only routine business was considered at the meeting. The rate bylaw was finally passed, and current accounts were ordered paid.

The best selected stock of fresh candy in town at Munroe's.

Mrs. C. H. Fair has returned from a three months' visit to the east.

Miss Tye is the guest of her cousins Mr. and Mrs. Sydney M. Johnson.

Try those branded cherries at Munroe's- Only one dollar a pound.

Mrs. J. L. White left last week for Victoria where she will spend some time visiting relatives.

H. P. Dickenson agent of the Giant Powder company left on Monday for a holiday trip to Victoria. He will return after the Victoria Day celebration.

Capt. Gifford and wife returned to Nelson on Friday last. The Captain visited the Rock Creek Placer company's properties and will make a report to the company regarding the best plan for future operations.

J. N. Greenshields, K. C. and T. G. Holt are expected in Greenwood today. Mr. Greenshields is one of the directors of the Montreal & Boston Copper company owning the Sunset mine and smelter. He and Mr. Holt have been in Victoria for sometime representing McKenzie & Mann in the negotiations in connection with the Canadian Northern contract.

Look to Your Eyes
Consult an Optician.

When your eyes dim and when you cannot continue for any length of time to regard small objects as in reading.

When you involuntarily frown or partly close the eyes when looking at an object.

When things "swim" or become dim after being looked at for some time.

When the eyes ache, smart or water; when your eyelids get inflamed often, or when you have pain in the eye ball, orbit, temples or forehead.

When you have any nervous derangement that you cannot otherwise account for.

Don't let the matter of expense keep you from visiting us. Sight is as precious to you as life itself, and we test the eyes free of charge.
