Vol. 7. GREENWOOD, B. C. FRIDAY JULY 24. 1903. No. 48

## THE WIND SHE BLEW

### Wednesday's Storm the Worst in Years.

## MUCH DAMAGE WAS DONE

### Trees Upturned, Windows Broken, Smoke Stack Blown Over, Etc.

An extremely violent wind storm was experienced in the Boundary Creek district last Wednesday afternoon. Considerable damage was done to property and there were several narrow escapes from serious injury to persons who were travelling along roads, passing through growing timber. About three o'clock the sky became overcast with heavy clouds and the rising wind sweeping up the valley brought blinding clouds of thick dust. Rain quickly followed, laying the dust, but meanwhile the rain had wrought havoc. tearing down trees along the comparatively narrow path of the storm, blocking roads and doing damage to buildings and other property.

The greatest damage done appears to have been done at the Greenwood smelter and at the Russell, Law, Caulfield company's fine store building on Copper street, Greenwood, respectively At the smelter the big steel-plate smoke stack, 90 feet high and twelve tons in weight, was toppled over, the force of the wind being so great that the wire cable stays gave way and the tall column fell off its brick base and lay across the Deadwood branch of the C. & W. railway until Master Mechanic Irish and his gang of workmen cut it in two and thus cleared the track. As arrangements for building a brick stack to replace this one were already in hand the damage done to the top half of the steel stack will not greatly matter, since the lower half will be placed back in position to serve its purpose until the new stack shall have been completed and put in use. There will be but little, if any, interruption to smelting operations during the replacement, which will be the work of only two two or three days.

At the Russell, Law, Caulfield company's store it appears as if the wind forced in the sheet of plate glass about 6 feet wide by 13 feet 8 inches high, at the south end of one of the large show windows, and then blew out the two 9 feet by 13 feet 8 inch sheets and a smaller one above them, the thick glass falling on the sidewalk and shattering into thousands of small pieces. Fortunately the local company is protected from loss by insurance, but the New York Plate Glass company will have to replace the glass, which will involve an expenditure of about $500.

The West Fork stage came to grief during the storm. George McKenzie was on his way from Boundary Falls. and whilst driving through the timber above the smaller townsite was knocked out of his rig by a falling tree, which also frightened his team. McKenzie lay stunned on the road for a while and his horses galloped on to Greenwood, keeping ahead of the falling trees and steering clear of all obstacles until they got into Greenwood where they ran into a telephone pole and wrecked the rig. McKenzie had a narrow escape, for when he recovered his senses he found that several trees had fallen near where he lay.

From other parts of the district also come reports of blocked roads and minor damage. All communication by telegraph and telephone with outside points was cut off and the local telephone service was much deranged. On the whole though, considering the violence of the storm, the district escaped lightly.

WANTED AT ONCE.—First-class coat maker. Nelson scale of wages paid, Apply to H. A. CLEVE, Slocan, B. C.

## More Crop News.

R. G. Sidley, J. P., was down from Sidley last Sunday and Monday. He confirms the reports published last week of good crops in the Rock Creek and Anarchist Mountain section. In places the hay suffered during the earlier part of the season for want of rain, so these crops will be light, but speaking generally the outlook is promising for an abundant harvest, oats and barley especially looking well. On Mr. Sidley's own farm, which is the largest in the district, grain, hay and root crops are all in splendid condition so that a heavy yield is expected from them.

J.W. McBride, of Bolster, Wash., who came in on Tuesday, has a similar story to tell of the crops across the International Boundary line, about Myers creek, Chesaw and Bolster. Wild hay will be short this year, the rapid and early melting of the snow last spring having left the land without sufficient moisture until the late rains came. This hay is already finding ready sale at $10 per ton, with a prospect of there being a larger demand than supply. All the cultivated crops appear to be strong and healthy and settlers throughout the district are encouraged to look for a satisfactory return from their fields.

Settlement has been steadily proceeding in that section until now it is difficult to obtain a homestead with any considerable area of plough-land. Small areas with up to 40 or 50 acres each suitable for cultivation, can still be found but these, too, are generally being bought up.

## The Waterloo Mine.

Chas. H. Wolf, of Spokane, one of the directors of the company owning the Waterloo mine at Camp McKinney, was in Greenwood at the beginning of the week on his way to the mine. From him it was ascertained that the 5 stamp mill on the Waterloo is treating daily about 10 tons of ore averaging in value $30 per ton. This ore is being taken from the mine workings in the ordinary course of development work. It is intended to shortly enlarge the stamp mill by the addition of five more stamps. When this shall have been done stopes will be opened and the output of the mine doubled.

The Waterloo shaft is now down about 260 feet. Levels have been run at 50, 150 and 250 ft. depth. A winze was sunk 60 ft. below the 150 ft. level, and a raise from the 250 ft. made to connect with this. Another raise will shortly connect the 60 and 150 ft. levels. The vein opened up in these workings varies in width up to about eight feet, nearly all milling ore. From two to four feet of the vein is a pay streak running into high values, and the remainder of the ore is described as of sufficient good quality to make it practicable to treat it at a profit. Mr. Wolf expects to return via Greenwood early next week.

Our mosquito lotion keeps off mosquitoes and all insects. It's a genuine "fisherman's friend." You can enjoy "the good old summertime" if you take along a bottle of this lotion. Price 25c. At J. L. White's.

## TO BUILD NEW STACK

### At the B. C. Copper Company's Smelter

## MORE HIGH GRADE CLAIMS

### Local People Secure Option on B. C. M. & M. Co's Claims

Although the resident officials of the B. C. Copper company are not at present disposed to talk for publication about intended improvements and additions the company is planning to make to its smelter at Greenwood it is known that important betterments are to be made. All the definite information obtainable just now in this connection is that a substantial brick stack is to be built, and that preparation is being made for other important additions to the plant and works.

The new stack is to be 120 feet in height, or 30 feet higher than the steel plate stack now in use. It will be built on the solid rock between the existing stack and the "highline" or Deadwood branch of the Columbia & Western railway. In planning the works the later erection of a brick stack to replace the temporary steel structure was provided for, and this intention is now to be carried out. There will not be any interruption of the smelting operations whilst the construction work is in progress, and when the new stack shall have been completed connection with the dust flue chamber will be made and the steel stack be removed without shutting down the works.

No contract has yet been made for building the new stack but an order for the 400,000 bricks required has been placed with Frank Coryell of Grand Forks, who supplied most of the bricks used in building the furnaces and the big dust flue. The work of building will be put in hand with as little delay as possible, so that the stack may be finished and the bricks well set before the sharp frosts of the winter come on.

An official denial has been given to the statements recently sent out from Phoenix to the effect that the B. C. Copper company had made arrangements with the Cascade Power company to utilize electric power for operating the Greenwood smelting works, and that a survey had been made and contract let for a pole line between Phoenix and Anaconda. Whilst it is probable that eventually electric power will be substituted for steam power it is entirely premature to state that any definite arrangements have yet been made in this direction. Even if it should be decided to replace steam power by electricity it is well known to all who have an intelligent knowledge of the situation that it would take months to obtain the motors and other electric plant and to make the requisite preparations for such a change of power, so that there is little probability of this being effected during the current year.

Last week H. V. Fuller of Spokane and Duncan McIntosh and W. M. Law of Greenwood, secured an option on 10 claims originally owned by the Boundary Creek M. & M. Co., and the Gold Bug owned by D. A. Holbrook. Messrs McIntosh and Law were in the syndicate who successfully floated the Providence and they have already secured more than a sufficient number of local men to join them in floating the new venture. It is expected that a little later on a company will be incorporated to take over the option and develop the properties. The claims were among the first to bo developed in the district. The B. C. M. & M. Co. was incorporated in 1896 and considerable development work was done until in later years the company got into financial difficulties. Mr. Holbrook never lost faith in the claims and stuck to them until the deal was consummated last week. The claims are in the high grade belt. Shipments have been made from the GoldBug to the Trail smelter which gave high values, and from the D. A. and other claims in the group assays as 200 ounces in silver have been secured.

## Similkameen Liberals.

### W. J. Snodgrass Will be the Standard Bearer—A Rousing Convention.

Keremeos, July 18.—W. J. Snodgrass of Okanagan Falls, was unanimously elected the liberal standard bearer for the Similkameen district at a representatative convention held here yesterday. Every section of the large district was represented, some of the delegates travelling for three days to reach Keremeos. W. A. McLean, of Hedley City, was voted in the chair, and George Kirby, of Keremeos acted as secretary. Mr. MacLean, an old campaigner, made an excellent chairman, in fact he could have had the nomination if he so desired, but for business reasons he declined.

The credentials committee reported that there were 23 delegates in attendance, seven represented by proxy. After an executive committee for the district was appointed, and Duncan Ross, secretary of the Interior Liberal Council, addressed the convention on the work of organization, the following were placed in nomination: W. J. Snodgrass, of Okanagan Falls; F. H. Latimer, Long Lake; Jas. Schubert, Penticton, and L. H. Patton, Fairview.

Several ballots were necessary to a choice but finally Mr. Snodgrass secured 18 out of the 30 votes and the selection was made unanimous.

The winning candidate was loudly applauded when he rose to thank the convention. In a brief but eloquent address he discussed some of the political issues and closed by stating that his best efforts would be put forth to win Similkameen district for the liberals.

In the 1900 election Mr. Snodgrass ran against Price Ellison, and had a big majority in what is now the Similkameen district. He is considered a very strong candidate and is sure to be elected.

## J. R. BROWN IS THE MAN

### Unanimous Choice of the Liberal Convention

## VERY SUCCESSFUL MEETING

### Brief Sketch of the Liberal Standard Bearer

J. R. Brown was the unanimous choice of the liberal convention held in the city hall last Friday evening. Over 100 delegates were present from the various liberal associations in the district and sufficient represented by proxy to make a total vote of 155 in the convention. C. Scott Galloway of Greenwood made an excellent chairman. The committee who had charge of the details of the convention did their work well and everything ran as smoothly as clock work. No nominating speeches were made and the delegates proceeded to ballot. The first vote showed 96 ballots for J. R. Brown 56 for Thos J. Hardy and three complimentry votes. As Mr. Brown had a clear majority he was on motion declared the unanimous choice of the convention amid loud applause.

Mr. Brown then addressed the convention thanking them for the splendid vote and for the unanimous nomination. He briefly dealt with political issues and declared himself in favor of government ownership of public utilities, of legislation to prevent strikes and lockouts, and of compulsory arbitration. He spoke briefly on the necessity that exists for a better administration of public lands; contended that the liberal party is not a capitalistic party as declared by the socialists, instancing in support of his contention the dominion legislation in favor of labor passed by the federal government since they came in power in 1896; and concluded by expressing his intention to use all legitimate efforts to carry the Greenwood district in the liberal interest at the forthcoming provincial election.

The nominee, John Robert Brown, is a son of Thomas W. Brown of Sarnia, Ontario. After leaving school he worked on a farm until he was 20 years of age. Then he spent two years at the High school Toronto. Next he studied law in the office of Judge Lister, judge of the court of appeals, Sarnia, and later practised law in that town for two years. He came to British Columbia in the fall of 1898, and to Greenwood in the following spring, opening a law office here and practising alone until February, 1901, on which date he entered into partnership with J. P. McLeod, also a barrister. Since then the firm have been doing one of the best law businesses in the district. Mr. Brown has during his residence at Greenwood, always taken a prominent part in liberal politics. He is an active member of the local board of trade, and is a man with a good clean record, both in the profession and in private life.

## Death of J. H. Fox.

L. S. Moulton Barrett, one of the chief owners of the Golden Eagle mine, on North Fork of Kettle River, recently received a letter briefly advising him of the death of J.H.Fox, who at the time the Golden Eagle was being worked, was superintendent of that mine. All the particulars given to Mr. Barrett were that Mr. Fox died at Kalispell, Montana, from typhoid.

Although it is probably two years since the deceased lived in the Boundary there are many residents of Greenwood and surrounding district who will remember him as a big, strong, husky looking man and one of the last they would expect to see at his time of life claimed by death as a victim.

The late Mr. Fox held mining interests in this district, among others some stock in the company owning the Golden Eagle, which property he had confidence would, with the expenditure of a moderate amount of capital, develop into a payable mine.

## THE RIGHT MAN.

The Liberals of Greenwood Electoral District, made a wise choice in the selection of a candidate at their convention on Friday last. J. R. Brown is the right type of man to send to the legislature at Victoria. Honest, upright, industrious and persevering andof splendid ability, he worthily represents the great liberal party and when elected will make a useful member, not only in so far as Greenwood district is concerned but, the province generally would benefit by return of several J. R. Browns to the legislature. The declaration for party lines has already accomplished something by inducing good men to allow their names to go before the party conventions. It is of the highest importance that both parties should nominate only their best. Greenwood liberals have set a good example in this respect. We feel sure that Mr. Brown will be elected and that the electors will not regret their choice.

## FOUGHT A GOOD FIGHT.

Peter M. Arthur, the Grand Engineer of the Brotherhood of Locomotive Engineers, who dropped dead while speaking at the banquet closing the annual convention of the Brotherhood at Winnipeg on July 16, was one of the most remarkable men of his time. While running his engine daily he took an active part in the organization of the engineers into the Brotherhood, and was soon recognized by his fellow members as a natural leader, and made their presiding officer. He set his face against strikes and avoided entangling alliances with other organizations, believing that the Brotherhood would best achieve success and prosperity by minding their own business. In dealing with the railroad officials in all parts of the country his candor, moderation of speech but forceful representation of the wishes and claims of the engineers commanded universal respect. All parties in contention came to look upon him as an upright friend, and the engineers found their condition in life constantly improving under the concessions he peacefully gained for them. They selected him with acclamation at every term ending, and by the time when he died had come to idolize him almost. When he rose to speak at the banquet in Winnipeg he was greeted with deafening applause, which must of touched him deeply. He began as follows:

"Out of the fullness of the heart the mouth speaketh.' This to my mind, is a fitting close of three days of unalloyed pleasure, bestowed on me and my associates in this City of Winnipeg. As I look over this audience, it is a scene that inspires my heart with gratitude to the Giver of All Good, that I have been permitted to look upon your faces upon this happy occasion. It is a scene that ought to inspire the heart of every member of this Brotherhood, because if we had no brotherhood, you would not be here to-night. Let me impress this upon every member, that the fact of your having a brotherhood in Winnipeg has enabled you to gather to-night and dine together. I want to say a few things, as it may be my parting words to many of you. No one can tell—"

Chief Arthur then fell backwards. He was carried to an adjoining room where all possible was done to restore consciousness, but death came in forty minutes.

As an illustration of the respect in which Mr. Arthur was held by railroad officials: Last summer a big strike of all employoes was threatened on a Mexican railway Chief Arthur was asked by the general manager of the railway to arbitrate the trouble and promised that whatever course he decided upon would be carried out. The chief decided that the men were entitled to a 17 per cent salary increase and they got it.

The organization of which he has been the head since 1873 has contracts with 95 per cent of the railroad companies, including all the great trunk lines. Besides voting from $35,000 to $40,000 at every convention for disbursement among needy widows and orphans, it has paid out in the aggregate eleven millions of dollars to injured members and heirs of deceased members. These facts are strong testimony to the power of the dead chief for the perfect organization of the Brotherhood, and with his lovable manners and character account for the remarkable love shown toward him by all the engineers in the land.

One who knew him well says: While his loss will be keenly felt, there was a fitness in his end. He fell at the supreme moment when the affection of his associates for their venerable chief had just been manifested in the presentation of a beautiful emblem, and he was endeavoring to express his appreciation. If it were his lot to die suddenly it could not be at a happier moment."

Brown is in town and Brown will be very much in town on the evening of October 31st.

The general elections will be held on October 31st. Nominations two weeks earlier.

## B. C. Club.

### Initiation Ceremony at Victoria University, Toronto, was Merry Event.

At the first meeting of the B. C. Club formerly western students, of Victoria University, the initiation ceremony was conducted by the president. The members passed into the assembly under cans of British Columbia salmon, with which they were afterwards crowned.

The cans of salmon were afterwards opened, and the company sat down to a supper. Speeches were made and the club song was given with much enthusiasm. Experiences in the mountains and various parts of the sunset slopes of the Pacific were freely told, and it was generally felt when the first meeting came to its close that British Columbia would soon have a large place in the life of the university. The Rev. J. H. White, newly appointed Superintendent of Domestic Missions in British Columbia, was elected honorary president.

B. C. CLUB SONG.

Tune: John Brown's Body.

Where's the place for mountains, where's the place for gold,
Where's the place for sunshine, where you never catch a cold,
Where's the place for youth and beauty, where you ne'er grow old?
Why—British Columbia!

Where grow the spruce, the cedar, fir, and pine,
Where bloom the fragrant hops athwart the trailing vine,
Where's the place on earth that we may call divine?
Why—British Columbia!

O where are the rugged mountains, cloudlost, capped with snow.
At evening bathed with golden fire and saffron-tinted glow.
And verdant valleys rich and fair are stretching far below?
Why—British Columbia!

Ho for the stony trail along the mountain side!
Ho for the miner's camp, the silver lake beside!
Ho for the province—the Dominion's richest pride!
British Columbia!

Where do the salmon in their millions yearly run,
Where grow the sweetest apple, peach, and pear and plum,
Where drops the deer to the wily hunter's gun?
Why—British Columbia!

Where can we hear the stamp-mills crushing ore,
Where can we hear the smelter-furnace roar,
Where does the miner say he's sorry that he swore?
Why in British Columbia!

Then take your grub and blankets, boys, and take your bible, too;
Work and sing, and preach and pray, and help the miner through;
Let them see you're both a man and sky pilot, too—
In British Columbia!

So leave the slow and crowded east, the west is calling "come;"
Pay your bills and pack your books, and kiss the folks at home;
Tell them that a fairer clime invites you there to roam—
In British Columbia!

## THE LIBERAL PLATFORM

The liberal platform, as adopted at the provincial liberal convention held at Vancouver on February 7th, 1902, is as follows:

1. The immediate redistribution of the constituencies of the province on the basis of population but allowing a smaller unit of population per seat for the outlying districts.

2. Government ownership, Dominion, provincial and municipal, of public services of utilities i ssound and should be carried out in British Columbia.

3. Should it be advisable at any time to grant aid to a railway company such shall be in cash and not in land and no bonus of any kind shall be given without definite and effective means being taken to safeguard the interests of the province in the management of the road, control of the freight and passenger rates, and provision made against such railway having any liability against it except for actual cost.

4. Immediate construction of the Coast-Kootenay railway; the Cariboo railway; a railway from Alberni to a point on the east coast of the island; a road in the northern part of the province from the coast to the eastern boundary with an extension to the northern boundary; the railway from Vernon to Midway by north fork of Kettle river; with necessary branch lines, ferries and connections.

5. The enforcement of the act now in force compelling the scaling of logs by government scalers.

6. That such legislation should be enacted as will result in making the lands included in the various dyking areas available for cultivation as quickly as possible and secure prompt payments of assessments when due.

7. That the government should keep in touch with the conditions in connection with mining, protecting said industry against combines and trusts and if necessary for the purpose build and operate smelters and refineries. No reasonable change should be made in the mining laws without full notice to all parties interested, giving full opportunity for discussion and criticism.

8. As the province can only advance by the settlement within its borders of thrifty and prosperous citizens, and as Orientals never become citizens in any proper sense of the word, we declare it to be the duty of the government to discourage Oriental immigration and employment by every means within its power, and we appeal to our fellow liberals throughout the Dominion to aid us in our efforts to protect ourselves against the ruinous competition of men having a standard of decency and comfort immensely below that of civilized peoples, and who shirk every duty and obligation of citenship which the law will allow them to escape.

9. The government ought to prevent the waste and suffering caused by strikes and lock-outs, and an eanest effort ought to be made to provide some means of preventing such strikes and lockouts, and we approve the adoption of compulsory arbitration.

10. The fiscal system of the province stands in need of revision. Taxation should bear upon privilege rather than upon industry, and no addition should be made to the debt of the province except for public works properly chargeable to capital.

11. The retaining of the resources of the province as an asset for the benefit of the people and taking effective measures to prevent the alienation of the public domain except for actual bona fide business or industrial purposes, putting an end to the practice of speculating in connection with the same.

12. The construction and maintenance of roads throughout the province to aid in the development of the mining and agricultural districts.

## Spokane's Big Carnival.

In the columns of the Times this week will be seen a display ad of the Midsummer Carnival to be held at Spokane for one solid week commencing Aug. 24th. The carnival is given under the auspices of the Labor Unions of Spokanh and the receipts are to go toward the building of a magnificent Labor Temple. From all rpeorts, this Carnival will be the biggest event ever held in the Northwest.

The programme as being arranged now is certainly a magnificent one, and every day will have a feature of more than the usual run of affairs. We will print a complete list of the attractions and the programme in our next issue. Special excursion rates will prevail on all railroads within a radius of 200 miles.

This in itself will no doubt cause thousands of visitors to flock to Spokane during that week.

**CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.**

The uniform success of this remedy has made it the most popular preparation in use for bowel complaints. It is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale by J. L. White, Greenwood and A. F. Thomas Midway.

Protect your most valuable faculty and save your sight, by having your eyes examined by one who has made defective vision a life study, and can advise you what is best for them. Consult Dr. W. J. Harvey. At Greenwood Monday and Tuesday Aug. 3rd and 4th.

## THE COUNTY COURT CASES

### His Honor Judge Leamy Has a Busy Session in Greenwood

His Honor Judge Leamy held sittings of the county court in Greenwood on Tuesday and Wednesday of this week. There was a deal of business requiring the attention of the court, and in connection with one or other of the cases barristers were in attendance from Revelstoke, Rossland, Grand Forks, Phoenix and Greenwood. There was a long list of applications for naturalization, these numbering 77 and coming from all settled parts of the Boundary district and as far west as Fairview. These were as follows:—

FROM GREENWOOD.—Giovanni Campolieto, Pasquale Campolieto, Salvatore Castano, Bruce Craddock, James Cass Dale, John Davis, Thomas Dobie, Robert Donagin, James T. Erwin, Charles Gilbertson, David A. Good, William Green, Samuel Austin Grierson, Thomas Trimble Henderson, Howard Hartford Huff, Charles E. Johnson, Leon Loutier, John Lucy, Henry Benedict Madden, John Mulligan, John Noren, Daniel Olson, Frank H. Parker, Vincenzo Pascuzzo, Thomas Peickart, Aton Portmann, John Portmann, Leutfried Portmann, Edward Howard Rippeto, Andrew Sater, James Smith, Albert Soderstrom, Peter Steffeno, Charles Wieland.

FROM PHOENIX:—William Henry Barnett, George Blackhall, Edward Brown, John Alexander Chisholm, Christ Hein, William Clarence Hower, AlphonseKobloth, Battista Malandrini, GeorgeWashington McAuliffe, Stephen McNeill, Julius Simeon Mueller, Charles Sanberg, Eugene Patrick Shea, William Champlain Tilsley, Joseph Werner, Arthur S. Williamson.

FROM GRAND FORKS—Nels Setterlund.

FROM NORTH FORK OF KETTLE RIVER.—Russell Mayhew Hill, Max Kunty.

FROM EHOLT.—Archie Conners, Jas. Francis Cunningham, Charles Lund, Michael McDonnell, William Tallon.

FROM BOUNDARY FALLS.—William Wellington Craig, Joseph Marcineck.

FROM MIDWAY.—Spencer Benerman, Felix Warren Shaser.

FROM BEAVERDALE.—Charles Max Ball, George McClellan Barrett, William Meadows, Washington Henshaw Rambo, Henry Bjornsen Thoen, Henri Eugene Jeremi Vacher.

FROM CAMP MCKINNEY—Hosea Sherman Edwards, Charles R. Held, Charles Gust Johnson, Allen Ferguson Lusk. Vander John Rose.

FROM SIDLEY.—Albert Maurer.

FROM FAIRVIEW.—Nicholas Pickard, Sylvester Rayburn.

No objection having been taken to any of the applications all were granted.

Gillis vs. Lindsay.—This was an action against James Lindsay, as administrator of the estate of the late John Lindsay, for money claimed as due. Both sides called a number of witnesses, after hearing whom the court dismissed the case.

Jarrett vs. Lindsay.—In this case plaintiff obtained a judgment awarding him $39.55.

Frank vs. Lindsay.—This matter which was the third action against the Lindsay estate, was adjourned to a date to be fixed by the parties hereto.

Massey vs. Yale Columbia Lumber Co., Ltd.—Plaintiff claimed damages for alleged wrongful dismissal by defendant in whose employ he had been as a cook. G. S. McCarter, of Revelstoke, defended, Hallett & Shaw representing the plaintiff. The jury consisted of: D. C. McRae, foreman, H. A. King, G. A. McKague, R. Stuart and C. W. Wilson. Seven or eight witnesses gave evidence for and against The jury decided that no yearly contract existed as alleged. The claim for damages therefore failed.

The remaining cases on the list were not of general interest. The court sat until Thursday afternoon when adjournment was taken.

Do you use Blue Ribbon Tea ?

### HIS LAST HOPE REALIZED.

[From the Sentinel, Gebo, Mont.]

In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his travelling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutet the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by J. L. White, Greenwood, and A. F. Thomas, Midway.

## LOCAL EXTRACT

Mrs. H. C. Shaw is in Nelson visiting Mrs Paul Johnson.

Butter beans, cucumbers and toma toes, just in. H. B. Munroe.

J. H. Macfarlane is visiting his home after spending some time at the coast.

Mrs. Chas M. Rendell is in from Eholt on a visit to friends in Greenwood.

F. H. McKenzie of Spokane spent several days with his family here this week.

P. Kennedy is down from the West Fork where he has been doing work on some promising property owned by himself.

Mrs Watt of Nelson who was visiting with Mrs R. K. Steven, has returned to her home.

Madames Elkins, Steven, and Ross have been spending a summer outing at the Lancashire House, Midway.

At a depth of 30 feet on the Little Chief in Skylark camp good ore has been struck. Jim Smith, the owner, will continue work on the property all summer.

J. A. Dick, a mining man from London, England is here looking over several mining properties in the neighborhood.

It is stated that Thos J. Hardy, of Greenwood, and C. M. Crouse of Midway, contemplate starting a newspaper at some suitable point in the North West Territories.

W. Tomlison, chief clerk for the Snowshoe Mining Company was in the city this week enjoying the first part of a well earned vacation, the latter days of which will be spent in Spokane.

C. Janion arrived from Victoria last Saturday to take the position of assistant to B. M. Snyder, chief assayer at the B. C. Copper Company,s smelter in place of Sam Belt who has rejoined a Great Northern railway party at Kettle Falls Wash.

Miss McCreath, of the Greenwood staff of the Vernon & Nelson Telephone Company, went out on last Monday's train en route to Hamilton, Ont., where she will spend a holiday of several months' duration.

J. W. Winkleried is down from the Snowshoe mine having his injured right hand cared for. Some rock fell on the thumb of that hand, csushing it so much that part of it had to be taken off. He is likely to be idle several weeks as a result of this misfortune.

The pastor Rev. J. D. P. Knox will conduct the services in the Methodist church at 11 a. m., and 7.30 p. m. next Sunday, and in the evening service Miss Gladys Harvey will render a solo. The morning class will be held at 10.20 and the Sunday School will be held at 2.30 p. m.

Consult W. J. Harvey, O. D. M. F.E. C. O., about those headaches, pains in the eyes, eyes crossed, double or indistinct vision, or any error of Refraction or the fitting of spectacles that are absolutely correct, and will so neutralize the defect as to enable you to see without an effort. At Greenwood Monday and Tuesday Aug., 3rd and 4th.

Sam Burrell, a C. P. R. brakeman, met with a painful accident at the Greenwood smelter last Sunday morning. He was coupling some freight cars and kicked the pin, when the draw heads of the cars came together, catching his left heel and crushing it badly. He was taken to the hospital where he is being well cared for, but it will be some time before he will again have the use of the foot.

Mrs. A. Lawder returned last week from Spokane, to which city she had taken her little daughter to have an operation performed to give the child relief from some nasal trouble. Upon arrival back at home at the B. C. mine Mrs Lawder found that during her absence her boy had cut his knee cap with an axe. The little fellow now has to use crutches to get about, but is making progress towards recovery.

Go to H. B. Munroe's for fine fresh cherries.

A. I. Goodell, superintendent of the Boundary Falls smelter, is back from a business trip to Montreal.

P. C. Bucklick, of the Allis-Chalmers Company, Chicago, recently spent several days in Greenwood and vicinity.

R. P. Williams of the Jenckes Machine Company made a business trip to Nelson this week.

Grape juice the summer drink. Pure unfermented grape juice is as nutritous as beef and as harmless as water. J.L. White.

J. M. Humphrey of P. Burns & Co., and C. A. Bell of the Hunter-Kendrick Co., have returned from a holiday trip to Spokane and coast cities.

J. E McAllister, superintendent of the Greenwood Smelter, went over to Nelson on Wednesday on a business visit. He is expected back today.

S. Barry Yuill and Chas Dempsey of this city have leased the Boundary Falls hotel from Thos Wake for two years. Both are well known and deservedly popular and will doubtless do well in the busy smelter town. Mr. and Mrs. Wake who has so long been identified with the Boundary Falls hotel will reside at their ranch on McCarren Creek.

Dr. W. J. Harvey, O. D. M. F. E. C. O., Professor of Physiological Optics in the Empire College of Ophthalmology, Toronto, is scheduled for a visit to our city; and may be consulted free, about all errors of Refraction, Accommodation, Convergence, and general anomalies of sight, or the fitting of spectacles, at Greenwood Monday and Tuesday Aug., 3rd and 4th.

Dr. McRae, writing from Calgary on 18th inst., states his intention to be in Greenwood next Sunday, when he will preach his farewell sermon in the Presbyterian Church. He hopes there will be a good attendance of those among whom he ministered during his pastorate of the church. He will probably remain a week in the Boundary bidding adieu to friends.

Herbert Redpath came in last Saturday from Sandon, where he had the misfortune to injure his foot. He was passing along on top of a train of freight cars and was stepping from one car to another when the latter was hauled away. To avoid falling on the track he jumped to the grounds alongside the rails, and, landing with one foot on the end of a tie, injured the instep. He can get about with the aid of crutches, but will not be able to dispense with them for some days.

Miss Isabel T. Kerr, elocutionist, and Miss Queenie McCoy, vocalist, known as the Canadian Entertainers, gave an entertainment in the Auditorium last Friday night. The attendance was small, but little publicity having been given of their coming, and three meetings in Greenwood the same night taking the attention of a large proportion of the male population. The program presented was an excellent one, and the talented performers were freely applauded. They appeared at Eholt on Saturday night, and Grand Forks on Monday night.

Fresh bananas at Munroe's.

H. B, Munroe has the finest cherries on the market.

Fresh consignment of fruit just received at Munro's.

Apricots, blackberries and peaches, received last night by H. B. Munroe.

**BAD EYES**

ARE your eyes bad? Do you have headaches? Do your eyes twitch after you have been reading a little while? Do they ache, smart, water and get red? Are you getting nervous? Do your eyes roll up?

If they do you ought to have them attended to at once. Come in and let us examine your eyes and see what ails them. We will tell you just what is the trouble and will not charge you a cent for telling you. If you need glasses we will be pleased to fit them to your eyes, so that you will not have any more trouble.
