Special For $15.00

Special orders taken, six hundred samples to choose from.

RENDELL & CO.

THE MIDWAY AND VERNON

Engineer Hazen is Now Examining the Route.

FOR NEW YORK SYNDICATE

Work Will Be Commenced if Report Is Favorable.

Ralph Smailes returned last Saturday from the coast where he visited his family for a few days. Mr. Smailes spent the winter in England endeavoring to finance the Midway & Vernon railway. He found the English market in an unsatisfactory condition and a strong prejudice against British Columbia investments due largely to ignorance of local conditions and soreness on account of bad investments in "wild cat" mining stock. Mr. Smailes returned to New York where he succeeded in interesting a synicate of capitalists and practical railway men in the construction of the road. The terms of the agreement are not made public but should the syndicate's engineer report favorable, active construction will be immediately commenced.

W. T. Hazen, a railway engineer of St. John, N.B., arrived here on Monday. He is acting for the New York capitalists and his report will largely determine whether the road will be built by them or not. Mr. Hazen, Mr. Smailes and Mr. Thurston left on Tuesday for Carmi. There a man thoroughly acquainted with the country was to be engaged and the party was to continue over the proposed route to Vernon. Mr. Hazen will examine into the feasibility of the line and the possibilities of business. It is more than probable that his report will be favorable since conditions are so favorable that a practical railway man is almost certain certain to see the advantages of having this railway constructed.

Mr. Hazen expects to have his report in before June 20 and should it be as anticipated, arrangements will be made immediately for the construction of the road.

SIMILKAMEEN PROPERTY

King Edward Mines, Ltd., Organized by Fairview People.

The King Edward Mines, Ltd., has issued a particularly attractive prospectus descriptive of its mine. The company was organized in Fairview this year;local men are on tne directorate. R. H. Parkinson, C. E., is president; H. Jones, vice-president; W. B. Hine, sec.-treas., and W. A. Hanning, managing director. The other directors are Thomas Ellis, Penticton; Dr. White, Fairview, and Dan Brathwaite, Fairview. The authorized capital is $500,000 divided into dollar shares. The company has the King Edward and eight other claims lying between between Suswap and Hunter Creek in the Similkameen valley. On the King Edward considerable work has been done to prove that the ore bodies are of vast extent. One ledge is over 40 feet wide and eight other well defined leads have been uncovered on the King Edward and other claims. The prospectus says:

The value of this property lies in the deposits of gold, silver, copper, and molybdenite contained in the ore, and until a mill test of say 100 tons has been made, no absolutely accurate idea of the value can be obtained; but the company has done everything possible apart from the mill test to arrive at a fair estimate of the value of the ore. The property has been examined at different times by two mining engineers, who have each reported favorably after sampling and assaying the ore. Their reports are appended hereto.

The managing director of the Company has repeatedly sampled the ore, the assay returns giving values ranging from $2.00 to $85.00 per ton in gold, silver and copper. The assay returns returns did not include the molybdenite values and go to show that the gold and silver values are about equal, while the copper averages a little over 5 per cent., but in places goes very much higher. The smaller leads on the Bank of Fairview claim range in value from $2.00 to $15.00 per ton, chiefly in gold and silver.

There is abundant water for all purposes in the two streams—Susap creek and Hunter creek—which flow on either side of the King Edward group. Both streams have an abundant flow of water at all seasons of the year, and as their course is practically a series of cascades they afford splendid facilities for the development of power and for generation of electricity sufficient and more for all the purposes of this Company. This water power is in itself a very great advantage, as it does away with all the necessary expense of the installation of a steam plant and the continually increasing expense of labor, fuel and wear and tear consequent on the use of steam."

The property is only a short distance from the line of railway which will be built up the Simikameen valley. With the transportation question solved there is no good reason why the King Edward should not become one of the big dividend paying mines of the province.

MOREEN SOLD.

Minneapolis People Secure a Good Thing in Deadwood Camp.

H. H. Shallenberger has sold to Minneapolis parties control in his Moreen property in Deadwood camp, which adjoins the Buckhorn mine. The development work on the Moreen has been confined to open cuts and shallow shafts. The work done has proved the existence of a large body of copper gold ore. The Buckhorn Mine, which adjoins the Moreen on the north has the highest grade copper ore in Deadwood camp. The same ore body is continued through Moreen claim. The purchasers are all well known business people of Minneapolis and have had a wide and successful mining experience. A company has been formed and will be known as the Alliance Gold and Copper Mining Co. The officers are as follows: President, Wm. E. Ellis; secretary, I. M. Parsons; treasurer and general counsel, D. M. Farnam. H. H. Shallenberger will be the manager and will begin operations at the mine shortly. Mr. Shallenberger has had a wide and successful mining experience and will no doubt place the Moreen on the shipping list in the near future.

BOARD OF TRADE.

Supplementary Exhibit Will be Sent to St. Louis.

A meeting of the Greenwood Board of Trade was held Wednesday afternoon with President DeVeber in the chair and the following members present: G. Arthur Rendell, T M. Gully, King Reese, E. W. Bishop, Fred. M. MbLaine, Duncan Ross, W. Allison, J. P. Myers Gray, Geo. R. Naden, J. J. Caulfield, R. C. G. White, J. R. Brown, M.P.P., and Secretary Gaunce. A letter was read from H. B. Monroe stating that as the Boundary exhibit of minerals was not complete at the St. Louis exhibition, he had arranged for a supplementary exhibit and asked that the Board arrange to send the same. The Secretary and Messrs. Naden and Caulfield were appointed a committee to look after this matter.

The Board endorsed the movement to establish local time and then adjourned.

"Not if it cost Ten Dollars

A bottle would I be without Polson's Neviline, writes J. A. Ruth, a farmer living near Trenton, Ont. Nerviline is the best household liniment I know. We use it for stomach troubles, indigestion, headache and summer complaint. I know of nothing better to take in hot water to break up a cold, or to rub on for rheumatism or neuralgia." Every farmer should keep a few bottles of Nerviline handy and have smaller doctar bills. Large bottles 25c at the Thomas Drug Co.

EMPLOYERS' LIABILITY

William Robb Asks For Compensation

FROM THE GRANBY MINES

His Honor, Judge Leamy, Arbitrator. Hears Evidence.

One of the first cases under the Workmen's Conpensation Act was heard by His Honor Judge Leamy, sitting as arbitrator in the court house, Greenwood, on Tuesday last. The applicant was Wm. Robb and the respondent, the Granby Company. Robb was employed on Xmas day, 1903, on a trestle for the company when he was ordered by the head carpenter to go and assist in putting a car on the track. He started to do so but fell between the stringers a distance of 31½ feet and was so seriously injured that he remained in the hospital from that date until Feb. 6, 1904. It is alleged that his right lung was ruptured and that he was otherwise seriously injured.

Robb then proceeded to claim compensation for injuries under the Act. He filed with Registrar McMynn a request for conspensation amounting to $900. The registrar in turn forwarded this request to Mr. Justice Irving of the Supreme Court who appointed Judge Leamy arbitrator with all the powers of a supreme court judge. His Honor proceeded to hear the evidence on Tuesday last, H. C. Shaw appearing for Robb and D. Whiteside of Grand Forks for the company.

Dr. Spankie and Robb himself gave evidence for the applicant. Under the Act he had to submit to a medical examination at the request of the company and Dr. Oppenheimer who made this examination gave evidence. Superintendent Williams, head Carpenter Wright and Engineer Smith also gave evidence for the company.

The arbitrator reserved his decision until he received the stenographer's notes

As soon as the award is made if in favor of the applicant, his judgment becomes a judgment in the County Court. Either side has the right to appeal to the full court.

The Workmen's Compensation Act was passed by the legislature two years ago and is similar to the law in force in England. It imposes on the employer a liability for any accident to a workman arising out of his employment. This is the first case to be tried under the Act at least in the interior and the final outcome will be awaited with interest.

KAMLOOPS ELECTION.

Kamloops, May 30.—Hon. F. J. Fulton, provincial secretary, was reelected by acclamation, no opposition candidate being nominated. It was the intention to run either F J. Deane, of the Nelson News, or Dr. Wade, of the Inland Sentinel, as a Liberal candidate but neither was in a position to take the field at this time. Mr. Swanson, a lawyer here, was offered the nomination, but it was finally decided, in view of the shameless action of the government in regard to the short notice to the electorate, not to contest the election.

Had Deane or Wade been able to run, Fulton would have been defeated without question.

The next move of McBride is to steal a march in Lillooet. The premier met Archie McDonald, of Lillooet, on the train at Ashcroft last week. Together they came to Cherry Creek, near here, where they took the westbound train, McDonald returning home to prepare his friends for the fight, and McBride sneaked to the coast again..

MINING DEAL A SUCCESS.

Montreal & Boston Co. Will Take Boundary Properties.

"When I left New York last Wednesday, the deal for the purchase of the mines in the Boundary country by the Montreal & Boston Consolidated Mining & Smelting company was practically closed," said Fred H. Oliver, manager of the Morrison mine, who returned yesterday from the east, to the Spokesman-Review.

"The stock for the Morrison stockholders will be issued at once, and I understand that the first payment on the Dominion Copper company's properties was made a week ago last Saturday. There is a large amount of stock to issue, but it is to be attended to at once.

"The Montreal & Boston company, which is controlled principally by New York men, has now about 70 per cent of the Morrison stock. We take all stock in the new company for our Morrison company stock, giving 30 shares for one.

The company gets all the Dominion Copper company's properties, amounting to about five claims, three fourths of the Emma group, the other one fourth being owned by the Hall's mines. The company already owns the Sunset, which will make four copper mines that will all be operating soon. In addition this the company gets the Athelstan gold and silver property.

"The one mile spur to the Morrison mine will be started at once and work will follow. The smelter at Boundary Falls now has two furnaces. One additional furnace is on the ground ready to be installed and another will be sent from the east at once. In addition to this a converter plant will be put in this summer."

LEAD BOUNTY EXTENDED.

Ottawa, June 2.—The bill to amend the lead bounty act, so as to meet the wishes of the Associated Silver-lead mines and the boards of trade of Southern British Columbia, passed through committee and was read a third time this afternoon. Under the amended act, provision is made for the payment of a certain proportion of the bounty upon surplus ore exported from Canada for treatment.

Phoenix, June 2.—Dr. Otto Sussman of Frankfort, Germany, an eminent metallurgist, has been spending the week in the Boundary, making a close examanination of our mines and smelters. Most of the time was spent in a thorough examination of the Granby mines, both above and below ground. Dr. Sussman is connected with the German branch of the American Metals Co., a large New York concern, that has something to do with the handling of the product of the Boundary mines when it gets into marketable form. He has been at Butte, Salt Lake City, Denver and other western points and will shortly proceed to Arizona, where he will continue his exhaustive examinations of the metalliferous deposits and reduction works. His firm in this way keep in touch with the sources of supply of the metals in which they deal so extensively.

THE GRAND TRUNK PACIFIC.

Sir Wilfrid Laurier has displayed great patience in the debate on the Grand Trunk Pacific. The Opposition has been animated by two motives—to gratify the Canadian Pacific by attacking a rival project, and to waste time in order, if possible, to throw the general elections over into next year, when a formidable ally, in the form of hard times, might perhaps come to Mr. Borden's aid. Sir Wilfred would have welcomed all fair criticism of the Government's scheme, but, instead of that, the Tories have kept the House listening for weeks to far-fetched predictions of disaster, to aspersions upon the good faith of the Grand Trunk directors, and to the mere multiplication of words for the sake of prolonging the session.

It has been argued that the Grand Trunk Pacific is getting too much; also that it is getting too little and must return to Parliament for relief.

Mr. Blair's condemnation of the scheme has been made much of by Mr. Borden. But he has ignored Mr. Blair's condemnation of his own proposal to acquire the unprofitable Lake Superior division of the Canadian Pacific.

The running-power provision has been derided as impracticable, yet a similar provision appears in Mr. Borden's plan for reaching Winnipeg, that is to say he would buy the Lake Superior section of the Canadian Pacific and allow other roads to use it.

Mr. Haggart admits that the Canadian Pacific carries wheat in winter from Winnipeg or Fort Willian to St. John for loading on its Atlantic steamers, but insists that the Grand Trunk Pacific, with more favorable grades and curvatures, will not be able to do so.

Mr. Lennox says in effect that the back country of Ontario and Quebec is an irreclaimable desert and the Government, in building this road through it, is simply throwing away money. Then he adds that if there is much good land there, Ministers are neglecting their duty in not retaining control of the line; in other words, in renting it to the Grand Trunk Pacific.

Mr. Osler, a Canadian Pacific director, denounces the provisional directors of the Grand Trunk Pacific as "fakirs." They consist of such men as Sir Rivers Wilson, who was sent by Lord Beaconsfield to handle the finances of Egypt, and who is chairman of the Grand Trunk Railway with its 40,000 shareholders in the United Kingdom; Lord Welby, a distinguished public man, and Mr. Smithers, one of the best known men on the London Stock Exchange, both directors of the Grand Trunk; to say nothing of Mr. Hays, Senator Cox and Senator Gibson. These "fakirs" have deposited $7,000,000 as security for the fulfilment of their contract. Mr. Osler and his co-drrectors of the Canadian Pacific deposited only $1,000,000.

This sort of thing does not enlighten any one and was not intended to. The Opposition took its cue in this matter from Mr. Osler, and Mr. Osler wants to head off a rival road. Meanwhile the West is crying aloud for better rail facilities for handling its constantly increasing crop, and the older provinces, that have been losing ground of late, desire to see their vast tracts of new territory brought within reach of a market. Having to choose between the interests of the Canadian Pacific and the interests of the country at large, Sir Wilfrid prefers to serve the latter.

This is the real issue between the two parties. It became clear when Mr. Borden proposed to take the Lake Superior section of the Canadian Pacific off its hands while paying it a price sufficient, at a most moderate estimate, to complete and equip a better route between Winnipeg and Sudbury or North Bay through American territory. From beginning to end the Opposition has been steered by Mr. Osler, with the object of preventing all-rail competition to and from the West, national considerations being treated as of no account, just as in the United States the existing transcontinental roads are fighting against the construction of the Panama Canal.

For Sale—Good saddle horse and cheap pack horses also a good 2700 pound work team, light and heavy wagons, carts and a black dress with 2nd hand marriage license. A. L. White, 2nd Hand Man.

NOTICE IS HEREBY GIVEN THAT sixty days after date we intend to apply to the Chief Commissioner of Lands and Works for permission to purchase the following described lands: Commencing at the northwest corner of lot No. 2036; thence west along north boundary of lot No. 849; thence to the east line of lot No. 2337; thence north along east line of lot 2337, to the southwest corner of lot 2336; thence east along south line of lot No. 2336, to the northwest corner of lot No. 848; thence south along west boundary of lot No. 848, to point of commencement, containing about 147 acres.

ROBERT HAMILTON
SAMUEL G. STOOKE.
Dated the first day of January, 1904.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

IN THE MATTER of the "Judgments Act, 1899", and Amending Acts, and

IN THE MATTER of two certain judgments obtained in this Honorable Court at the suit of

WILLIAM PRICE — Plaintiff (Judgment Creditor)

AND

THE WESTERN COPPER COMPANY, Limited. (Non-Personal Liability) — Defendant (Judgment Debtor)

NOTICE IS HEREBY GIVEN, that on the 20th day of June, 1904, at the hour of eleven o'clock in the forenoon, at the Court House at the City of Greenwood, I shall sell by public auction for cash, t the highest bidder, the lands and minerals hereinafter specifically described, to satisfy two certain judgments above mentioned, amounting to $9088.32 and $9140.64 respectively, with interest accrued due from the 26th day of April, 1904, to the date of sale, at the rate of five per centum per annum, and costs taxed at $105.63, and costs of sale.

Following is the description of the said lands and minerals: "All that parcel or lot of land situate in the Osoyoos Division of the Yale District and numbered Lot one thousand and fourteen (1014), Group one (1) and known as the "Greyhound" Mineral claim, on the official plan or survey of the said Osoyoos Division of Yale District, and all minerals, precious and base (save coal) which may be found therein in veins, lodes or rock in place, and whether such minerals are found separately or in combination with each other."

The following charges and incumbrances appear registered at the Land Registry Office at Kamloops, against the said lands and minerals

1. Judgment in favor of William Price against the Western Copper Company, Limited (Non-personal liability), dated the 3rd day of January, 1902, registered the 11th day of January, 1902, and the 11th day of January, 1904, for the sum of $8146.52.

2. Judgment in favor of Henry E. Price against the said Comp. ny, dated the 3rd day of January, 1902, registered the 11th day of January, 1902, and the 11th day of January, 1904, for the sun of $1096.37.

3. Judgmen in favor of William Price against the said Company, dated the 9th day of June, 1902, registered the 12th day of June, 1902, for the sum of $8354.46.

Intending purchasers must satisfy themselves as to title.

Dated this 2nd day of June, 1904.

WM. G. McMYNN,
District Registrar.

ARTHUR M. WHITESIDE,
Solicitor for Judgment Creditor.

GREENWOOD June 2, 1904 REGISTRY.

L. S. — LAW STAMPS, 50 cents.

IN THE SUPREME COURT OF BRITISH COLUMBIA.

IN THE MATTER of the Land Registry Act, and Amending Acts:

and

IN THE MATTER of the amendment of a certain Map and Survey showing a subdivision of a portion of the Western part of the South half of the North-East quarter, and the North half of the South-East quarter of Section 32, in Township 70, in the Osoyoos Division of the District of Yale in the Province of British Columbia, deposited in the Land Registry Office at Kamloops, and numbered 97:

LET ALL THE PARTIES CONCERNED attend before the Honorable Gordon Hunter, Chief Justice, or such other Judge as may be sitting at the Court House in the City of Vancouver at the time specified at the foot hereof upon the hearing of an application on the part of Frederic Keffer and Mary Garland for an Order that the Map or Plan numbered 97, and deposited in the Land Registry Office at Kamloops, and showing a subdivision of a portion of the Western part of South half of the North-East quarter, and the North half of the South-East quarter of Section 32, in Township 70 in the Osoyoos Division of the District of Yale in British Columbia be amended or altered by striking out of the said Map that portion thereof described as follows:—Commencing at the South-Westerly corner of Lot 1, in Block 3, being the intersection of the Northerly limit of Garland Street with the Easterly limit of Vancouver Street; thence North thirty-three degrees and four minutes East 330 feet, or to the North-Westerly corner of Lot 10, in Block 3; thence 40 feet North fifty-six degrees and fifty-five minutes West, or to the North-Easterly corner of Lot 10, in Block 7; thence 430 feet North thirty-three degrees and four minutes East, or to a point in the North-Easterly limit of Norway Street; thence South fifty six degrees and fifty-five minutes East 9.8 feet, more or less, to a point in the Westerly limit of Block 58; thence 85.8 feet South fourteen degrees and five minutes West; thence 301.5 feet South forty-eight degrees and forty-seven minutes East to a point on the Westerly bank of Boundary Creek; thence South-Westerly along and following the bank of Boundary Creek to a point in the North-Easterly limit of Garland Street; and thence 243.7 feet North fifty- six degrees and fifty-five minutes West to the place of commencement:

Dated this 28th day of May. A.D. 1904.

GORDON HUNTER, C. J.
Per W. G. M., Reg'r.

This summons was taken out by Isaac H. Hallett, of Greenwood in British Columbia, Solicitor for Frederic Keffer and Mary Garland.

To,
W. H. Edmonds, Esq.,
Registrar of Titles,
Kamloops, B. C.

And to all parties interested.

In support of the above application will be read the affidavits of Frederic Keffer and Thomas A. Garland, sworn and filed herein.

NOTE.

If you do not attend either in person or by your Solicitor at the place above mentioned at the time mentioned at the foot hereof, such Order will be made and proceedings taken as the Judge may think just and expedient.

Let this Summons be heard at Chambers at the Court House at Vancouver, B. C., on Wednesday the Sixth day of July, A.D. 1904, at the hour of 10.30 o'clock in the forenoon, or so soon thereafter as the Judge may sit and Counsel can be heard.

And further let this Summons be served upon W. H. Edmonds, Esquire, Registrar of Titles, Kamloops, B. C., and notice of application published in the Boundary Creek Times, a weekly newspaper published in the City of Greenwood, until the return hereof.

G. HUNTER, C. J. — GREENWOOD May 28, 1904 REGISTRY.

UNION LABEL

FRIDAY, MAY 27 1904

CHURCH UNION.

There are good grounds for believing that the much discussed union of the Presbyterian, Methodist and Congregational churches in Canada will materialize. No good reasons have been advanced against such a movement. It is rather a striking commentary on the enlightened Chistianity of the twentieth century, that there is to-day keener competition among the churches than probably any other institutions. Here in Canada two and often three men are doing one man's work, each drawing half or third pay while work for two men in some other point remains undone. The religious side of this question is left to clergymen to discuss. From the standpoint of good citizenship, a live progressive church is a valuable asset in any community. Those who have the best interests of this great country at heart would regret to see communities built up in the unsettled portion without the church and the school. Today ministers of separate denominations are starving each other out of some localities while there is a loud call for men to go and preach the gospel in many places and there are but few who answer the call.

Should the union take place, the church would become more progressive and aggressive in the older settled communities and its ministers would be able to take a position more in keeping with their high calling, and then there would be men available to build up, what is necessary in every healthy community—a live church.

THE MAN AND HIS MISSION

Even a knocker is sometimes useful. William Fleet Robertson, the provincial minerologist, has relieved the anxiety of those timid ones who conjectured all sorts of trouble as soon as the East Kootenay reserves were thrown open. It was feared that there would be such a rush into this much advertised and much discussed district, that there would be many disputes about locations, and that serious trouble might ensue. There is not much danger now if Mr. Robertson's opinion is worth anything and if it is not, then his salary should be saved to the province.

The government was beseiged by importunate licence seekers. It knew not which way to turn. Whatever action it might take would offend an opposing faction and the government was not particularly anxious to offend any one. So William Fleet Robertson was sent into the Flathead district. He returned and published a report. Prospectors and speculators in oil fields who take any stock in Mr. Robertson's report will not give a button for a license. They will not make any strenuous fight for locations which such a renowned expert describes in concluding his very interesting report as follows: "I would report the actual seeping of oil in three or four places; that the existence of a body of oil underground is quite possible though exceedingly problematic; that if such body of oil does occur it can only be demonstrated by boring in all probability to a considerable depth and at considerable cost."

Thus is peace and good order in this glorious province maintained. Who would want to have this province disturbed by an inrush of people such as have made mining camps on the other side notorious? 'Twere much better that our resources should be belittled than have a large influx of people. British Columbia can get along without population anyway. Man has a nasty habit of spoiling natural scenery and scenery is what every true British Columbian boasts about. The province is of course in debt but debt only adds to the charm of living so long as there is scenery.

It is not the first time that William Fleet Robertson headed off a threatened boom. Last year there was exceeding great danger that the Popular Creek district would become possessed of a "boom" but Mr. Robertson went there and reported. Since then all one hears of Popular Creek is contained in the pert paragraphs of Jim Grier in the Popular Nugget. And then there is the Similkameen. A few years ago Mr. Robertson went there and reported. Since then the Similkameen rich in mineral and other resources has not been troubled with a boom and its people have had abundant opportunity to study its magnificent scenic beauties.

A few misguided residents of this province who have not yet realized that its ideal destiny does not lie in the exploitation of its natural resources, suggest that it is unfair to monopolize the valuable services of William Fleet Robertson; that other countries less rich in natural advantages should not be entirely shut out from the benefit of his services; and that that Mr. Robertson should be spared for a brief season. This is of course a selfish world and it is good policy when you have a good thing to stick it. Experiments are sometimes costly and in the absence of Mr. Robertson the mineral resources of the province might be developed, there might be an influx of capital and men—in fact a boom might come.

TO ENCOURAGE REPATRIATION.

The Times has been asked to draw attention to the fact that to further encourage the repatriation of Canadians who have taken the oath of allegiance to a foreign country the Government of Canada at the last session caused an act to be passed providing that any such who renewed their domicile in Canada can be re-naturalized in a period of three months. Aliens who have not at any time been British subjects cannot be declared British subjects until after three years' residence in Canada and subscribing to the necessary legal formalities.

RAILWAY RUMBLINGS

G. N. R. Sub-Contractors Getting Busy.

THE CHIEF ENGINEER HERE

C. P. R. Officials Pay the Boundary a Visit.

J. H. Kennedy, chief engineer for the Great Northern and C. A. DesBrisay, right of way agent, were in the city this week. It is thought that as soon as the Grand Forks-Phoenix contract is well under way, arrangements will be made to complete the road from Eholt to Midway. Work on the Curlew-Midway branch will be commenced immediately.

The railway men are getting to work according to the Grand Forks Sun. It says:

Andrews & McDowell, who have the contract for the Granby spur and the first mile and a half of the Phoenix branch, are locating their camp on the Rankin ranch, near W. H. P. Clement's new residence. They will move their horses out today, and will be at work in a few days now.

Four carloads of horses, several car loads of supplies and a large contingent of men arrived by last night's Great Northern express. The station presented a metropolitan appearance and crowds of people were to be seen moving in all directions.

Frank Corell, through whose ranch the Phoenix branch of the V. V. & E. runs, is asking $500 from the contractors who have the contract for that portion of the road to go on his property in order to commence work on the right of way, which was purchased from him and paid for some time ago by the railway company. If this occurs on every piece of property through which the branch runs the contractors will have more trouble than C. A. DesBrisay, Great Northern right of way agent, had in securing the right of way.

P. D. Hughes and family arrived in the city from Spokane last Saturday, and left for Phoenix yesterday. Mr. Hughes has a contract for one mile of the Phoenix branch near Phoenix.

C. A. DesBrisay, Great Northern right of way agent, arrived in the city Tuesday over the C. P. R.

P. Welch's commissary building is about completed, and the grain and hay warehouse is well under way.

E. White, bookkeeper for P. Welch, is expected to arrive in the city this week. He will occupy the old Columbia Townsite company's offices on Government avenue.

The Great Northern Railway Company has appointed H. Sheedy, late of Marcus, Wash., as agent at Grand Forks, vice W. E. McDaniel, who will hereafter have charge of the freight department. Mr. Sheedy comes well recommended as an efficient railroad man.

The tower house at the Great Northern and Hot Air line crossing has been closed, and Mr. Lawrence, who has been in charge of it, is helping at the Great Northern while the rush is on. Later he will move to New Westminster to accept a position with the Great Northern.

R. Marpole, general superintendent of the Pacific division of the C. P. R., and party of railway officials were in the Boundary this week. Mr. Marpole came to Nelson to install J. S. Lawrence as successor to F. F. Busteed who has been promoted to the position of assistant chief engineer. Mr. Busteed accompanied Mr. Marpole. A. E. Stevens, chief train despatcher has been appointed trainmaster to succeed J. S. Lawrence.

Just arrived, a nice new lot of Spaulding's Sporting goods. Baseballs, bats and mits, etc. At A. L. White's, the Second Hand Man.

The Best Stock in the Market

AT THE PRESENT TIME IS COAL.
AND OF THAT THE INTERNATIONAL COAL & COKE CO., IS THE BEST.

Where would our mines and smelters be to say nothing of the thousand and one other industral establishments, without this commodity. Have you ever thought about that ?

WE ALL ONE WAY OR THE OTHER INVEST EVERY CENT WE MAKE

Then why not put your money in something that is far above the average investment, something that in the near future will not only return DOLLAR FOR CENT but whose interest from its investment alone will keep the average man in comfort for the rest of his life. Some who have taken my tip have bought now, and why not you, put in a few dollars and feel you have made the best bargain in your life. SHARES ARE GETTING SCARCE and soon will be all bought up, who will kick themselves then?

Opposite the Post Office. GREENWOOD, B. C.

WINNIPEG MINE

Is To Be Sold—Lien Claimants Likely To Be Paid.

This week R. B. Kerr, solicitor for the complainants, received the official papers in the case of Samuel McLelland and 27 others against the Winnipeg Mines, Ltd., and the Bank of Montreal, in which the latter endeavored to have its claim preferred over the mechanics' liens. As stated in the Pioneer some weeks ago, the appeal of the Bank of Montreal was dismissed with costs against the bank. Before further action could be taken by the lien claimants, the official documents were required to be in hand.

These documents show that the case was considered by the Hon. Chief Justice Hunter, the Hon. Justice Irving and the Hon. Justice Duff in the Supreme Court on the 26th of April last, when the appeal was dismissed as stated. C. R. Hamilton appeared for the Bank of Montreal, appellants, and W. J. Bowser, K. C., appeared for the respondents. The appeal from the order of Judge Leamy, of the county court of December 28th, was set aside and dismissed with costs.

The total of the claims of the 28 claimants is $4,230.33. It is probable that Mr. Kerr will appeal to Judge Leamy in a day or two for an order to sell the assets of the Winnipeg Mines, Ltd., in which case the sale is likely to occur about the last of June. The bank of Montreal had judgment of some $3,500 and other debts bring the liabilities of the Winnipeg Mines, Ltd. above $12,000. It appears certain now that the men who worked at the Winnipeg, and others who had liens, will be paid.—The Pioneer.

CHURCH OF ENGLAND.

The Bishop of the Diocese of Kootenay, the Rev. John Dart, D.D., will pay his annual visit to this parish on Saturday, 11th June, spending Sunday the 12th here and leaving for Eholt on Monday. The Bishop will celebrate the Holy Communion at St. Jude's Hall at 8 a.m on Sunday and will preach at the morning service at 11. In the evening at 7.30 he will hold a confirmation service.

The Rev. W. A. Robins will be absent next week at Revelstoke for the annual meeting of the Synod of the Diocese, June 8th.

VERY LOW RATES EAST

June 7th, 16th, 17th and 18th; July 1st, 2nd and 3rd, and August 8th, 9th and 10th, from this territory to St. Louis and Chicago. Are you going ? If so, write me for detailed information. The Best Service between St. Paul and Chicago over "The North-Western Line.".

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square.

Claimes are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged. the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comdtroller.

No free miner shall receive a grant of more than one mining claim on each seperate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory—Locations suitable for hydraulic mining having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years provided the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining; and does not include within its boundaries any mining claims already granted. A rental of $150 for each mile of frontage, and a royalty at the rate of two and one-half per cent. on the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than $5,000 must be expended annually. The lease excludes all base metals, quartz and coal, and provides for the withdrawal of unoperated lands for agricultural or building purposes.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior.
Department of the Interior, Ottawa.

Rocking chairs for one dollar and up, at Clint's, Copper st.

A SUBSTANTIAL GROWTH.

The annual statement of the Equitable Life Assurance Society of the United States, which appears in this issue, is a very commendable one for the Equitable Life.

In the year just past they have paid in dividends to policy holders $5,682,295.00, the largest sum ever paid by this or any other company in a single year, and have in surplus the measure of financial strength; and the fund from which dividends are paid, a larger amount than that held by any other company, thus retaining its name and place as the strongest in the world.

The new business secured by the society last year was the largest amount ever written in one year without any deviation from its usual careful method of selecting risks.

By looking over the statement carefully the reader will see that the year just past has been a satisfactory one to the society and its large number of policy holders.

NOTICE TO CREDITORS

IN THE MATTER OF THE ESTATE OF B. HARVEY BEACH, LATE OF THE MOTHER LODE MINE IN THE DISTRICT OF YALE, CARPENTER.

NOTICE is hereby given, pursuant to the "Trustees and Executors Act," that all creditors and others having claims against the estate of the said B. Harvey Beach, who died on or about the 19th day of June, 1902, are required, on or before the 25th March, 1904, to send by post prepaid or deliver to Messrs. Hallett & Shaw, at their office in the Rendell Block, in the City of Greenwood, solicitors for Andrew Sater, the administrator of the estate and effects of the said deceased, their christian and surnames, addresses and descriptions, the full particulars of their claims, the statement of their accounts, and the nature of the securities, if any, held by them.

And further take notice that, after such last mentioned date, the said administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and that the seid executor will not be liable for the said assets or any part thereof to any person or persons of whose claim notice shall not have been received by him at the time of such distribution.

Dated this 25th day of February, 1904.

HALLETT & SHAW,
olicitors for the said Administrator

Keep.. A close  on Your Print'ng

Styles are constantly changing and you do not want to use out of date stationery. We are keeping abreast with the times by adding new stock, new type, and all material necessary for the execution of first-class work. Look over you stationery and if you are in need in any lines drop in and make known your wants and we will do our utmost to satisfy you, or easier still call us up on phone 29 and our solicitor will call on you.

The Only Printing Plant in The Boundary Country Run by Power

This enables us to turn out a greater amount of work than the other offices. The capacity of our three presses for a days work of nine hours is 50,000 impression, thus enabling us to do your work quicker, cheaper and better. If you have never seen a power printing press work, come in and we will explain it to you, it is kept here for your purpose—printing.

..The Boundary Creek Times..

Published by us is recognized as the leading weekly in the Boundary, giving the mining news seven days earlier than its neighboring weeklies. The progressive business firms of this city recognize this by the liberal use of its columns to sell their wares. In price, one year's subscription is only $2.00.

GRAND TRUNK PACIFIC.

Reasons Given by Frank Oliver M.P. for Construction of G. T. P.

Because it doubles the industrial and productive area of Canada.

Because it doubles opportunity for every man in Canada.

Because it offers the shortest and best all-Canadian line from tide water to tide water, summer and winter.

Because it is the only all-British railway across the continent under one management.

Because it is so situated as to be secure from foreign invasion; giving depth, and therefore, strength to our country, to the advantage to both Canada and the empire.

Because it gives development and competition in transportation to 1,200 miles of grain-growing country in the West, as compared with 400 miles of such country developed by the Canadian Pacific Railway.

Because it develops vast coal fields on the Saskatchewan, Athabaska and Peace rivers, for the supply of fuel to the prairies.

Because it gives the most northwesterly part of the prairie region, which is furthest from the Atlantic, a short outlet to the Pacific.

Because it connects the railway system of Canada with 2000 miles of steamboat navigation on the Athabasca, Peace, Laird and Mackenzie rivers, their great lakes and the Arctic ocean.

Because it developes mining and lumbering in northern British Columbia and provides facilities for profitable interchange of mutual necessities between the prairies and mountain regions of the far West.

Because in ensures the third railway outlet from and through the wheat fields to the lakes.

Because it developes a thousand miles of northern Ontario and Quebec, at present unknown and inaccessible.

Because it cuts nearly 200 miles off the present Intercolonial distance between Quebec and Canada's winter port, St. John.

Because by government ownership and control of rates, with modern construction and adequate equipment, in provides an all-year-round outlet for western grain; and gives the merchant and manufacturers of eastern Canada profitable access to the market of the great West.

Because it does this without land grant, tax exemption or provincial or local aid of any kind.

Because it induces the investment of one hundred millions of British capital in Canada; and correspondingly interests the British public in Canada's welfare.

Because co-operation with the Grand Trunk. Company secures effective, satisfactory and business-like operation; ensures fulfilment of all engagements, provides business from the start, and secures the government from payment on its guarantee.

Because by that co-operation all principal points in eastern Canada are put in direct connection with the West without extra cost.

Because it transfers the through traffic interests of the Grand Trunk, from the Western States to Western Canada.

Because it provides against over-capitalization for effective government control of rates, and secures running rights to other roads throughout its whole length.

Because an Atlantic outlet for the Canadian Northern, and extension of the Intercolonial to the wheat fields, is provided for without a cent of additional public cost.

Because it gives maximum public control for a minimum public outlay, and absolute security for the financial responsibility assumed.

L. A. Campbell of West Kootenay Power & Light Company, and W. Anderson of the Cascade Company, were among the visitors to the city this week.

Five carloads of Contractors' supplies passed through Greenwood today for Midway. They are consigned to Caughren & Wilson contractors for the Midway-Curlew branch of the Great Northern.

H. A. McLean, deputy attorney-general, having been appointed a commissioner to inquire into the administration of justice in Phoenix, opened the investigation there on Tuesday last. Several witnesses were heard and the recent trouble in the town received an airing.

For Sale.—1 or 7 saddle horses from $22 to $35, 1 buggy and 1 buckboard, 3 spring and 4 heavy wagons, 1 set of double harnes, bridles and a nice line of whips and everything wanted for your horses. A. L. White, 2nd Hand Man.

J. S. Hammond of San Francisco and M. Freeborn were in the city this week and left for the Similkameen. They are interested in irrigation on a large scale and are looking for large tracts of arid lands which they hope to make fertile by the introduction of modern irrigation.

Mrs. Hugh McCutcheon gave a musicale and ice cream social at her residence on Thursday evening. The proceeds were in aid of the funds of the Presbyterian church. Mrs. McCutcheon, Mrs. Oliver, Mrs. Dill, Miss Graunce, A. M. Whiteside and others took part in the programme which was much appreciated by the audience.

Presbyterian services, morning and evening, 11 a.m. and 7.30 p.m., will be held in the Auditorium Sabbath, June 5th, and on Sabbath June on 12th reopening services of the church will be held.

The Boundary has again supplied an excellent superintendent for the Le Roi. J. H. Trevarrow who was superintendent at the Snowshoe has gone to Rossland to take R. H. Anderson's position. Mr. Anderson went out with S. F. Parrish.

At the Presbyterian church is undergoing extensive repairs. Services on Sunday next will be held in the Auditorium both morning and evening. On the Sunday following special re-opening services will be held in the church particulars regarding which will be announced in next week's issue.

A large body of ore was recently uncovered on two claims in Wellington camp, the Jackpot and Iron Clad. The former is owned by Al Sanderson and a partner, while the latter is owned by J. J. Farrell, W. J. Porter and G. W. Rumberger. The ore is said to be similar to the Athelstan ore, where the values are so good. The lead is said to be 40 feet wide, and no one knows how long, the location being pretty close to the new line of the Great Northern.—Pioneer.

At the regular meeting of Boundary Valley Lodge, I.O.O.F., held Tuesday night the following officers were elected: Geo. R. Naden, N.G.; J. A. Crawford, V.G.; F. B. Holmes, Recording Sec.; G. B. Taylor, Fin. Sec., and Frank Spearing, Treas. The other officers will be appointed on installation night. D. Whiteside, D.D.G.M., of Grand Forks visited the lodge.

The passenger department of the Great Northern railway is doing good work in attracting business men to the Northwest. It has published a number booklets descriptive of the resources of the country traversed by its lines. The latest publication is "Business Openings" which is full of information regarding the growing towns of the Northwest. It can be secured by addressing F. I. Whitney, G. P. T. A., Great Northern, St. Paul, Minn.

Richard Armstrong who was head of the Grand Forks townsite syndicate in the early days and who is well known in the Boundary, arrived from Chicago this week and spent some time examining high grade mines in the district. Mr. Armstrong is now in business in the big city and is interesting some of the people in Greenwood's high grade properties. He was accompanied by Alex. Miller who is working the Helen under a bond.

At a meeting of the city council on Monday evening it was decided to circulate a petition among the business men and others to get an expression of their views regarding changing the time. The petition was largely signed by the business men and the smelter management. A few objected to the change but as the great majority wish to begin the day's work an hour earlier and have an additional hour in the evening, the change is likely to go into effect on Monday next.

H. T. Pemberton general manager of the Montreal & Boston Copper Company, has returned from a business trip to Spokane. Mr. Pemberton had nothing to say for publication regarding the progress of the merger excepting that all the details were being satisfactorily worked out and that in due time the necessary transfers would be made. The merger includes so many valuable interests and there are so many shareholders in the various companies affected that it is somewhat slow work adjusting the innumerable details. There has been no hitch in the negotiations, however, and the final completion of the merger is fully assured.

The trial of Johnson vs. the Yale Mining Company was commenced. This is an action brought by Daniel Johnson, an employee of the defendants, who was injured on the 14th of July, 1903, whilst at work on the construction of a stamp mill on the Nickle Plate mine at Hedley City. The rope, in connection with the steam hoist, used in hoisting timbers for the plant in question, broke and the plaintiff was struck by the falling timber, had his collar bone broken, his head severely cut and suffered other injuries. The plaintiff claimed that the rope was not strong enough, and that he was compelled to use it. The defendants pleaded that the accident happened through no fault of theirs and charged contributory negligence on the plaintiff's part. S. S. Taylor, K.C., appeared for the plaintiff and E. V. Bodwell, K. C., for the defendants. The plaintiff was the only witness called by Mr. Taylor. He detailed the circumstances in connection with the accident and the injuries he suffered in consequence. He was laid up in the hospital until October 15th. He earned $3 per day. The defence called S. S. Fowler, M.E., who in this instance gave expert evidence on the construction and relative strength of ropes generally. H. R. Swan and D. J. McNally also testified. At the conclusion of a brief argument by counsel, judgment was reserved and at 1.10 the court adjourned until 2.30.—Nelson News.

LOADED CARS BURN FIERCELY.

A fierce fire raged among several loaded cars in the C. P. R. railroad yards at Grand Forks last Saturday. The car in which the fire started contained acids, oils and other inflammable stuff, and explosion followed explosion, making dangerous work for the firemen who, however, stuck to their posts until the blaze was under control. Had there been a wind blowing it would have been impossible to have saved the station, freight sheds and a large number of loaded cars which were on the sidetrack. The origin of the fire is supposed to have been the acids, of which there were four cases consigned to the B. C. Copper Company at Greenwood. Loss is placed between $3000 and $4000, including the loss of the box cars and the other partly destroyed. This was the second fire in the C. P. R. railroad yards within the last week.

"We live to eat, and eat to Live" is an old axiom but in order to live you must get the best to eat.
