BOUNDARY BETTERMENT

Changes of Recent Years Very Marked.

CHEAP MINING AND SMELTING

Changes Made In Five Years Are Graphically Described.

GREENWOOD, Friday, Aug. 14.—In his interesting book "From Ocean to Ocean," Dr. Grant very aptly and beau tifully described British Columbia as a "sea of mountains." Across mountain range after mountain range, into canyon after canyon, along valley after valley, the hardy pioneer forrced his difficult way. Sometimes his bread was made of flour, sometimes from an oily nutritious moss that grows on certain trees, but in the earlier days much of his food consisted of the flesh of animals killed by his unerring aim.

Then the pioneer merchant with his pack train pushed his way along uncertain trails farther and parther and farther away from railway and wagon points, and brought bacon and flour so near that the prospector, if he had the price, might by several days of exceedingtoil add small supplies to his scanty larder.

So recently as five years ago, when the writer first saw Boundary Creek in the Kootenays, a primitive stage made the trip seventy miles from Marcus on the Spokane Falls & Northern Railway and another from Penticton, at the foot of Lake Okanagan, ninety miles into the little mining camp of Greenwood. But the roads were rough and hilly, the equipments mediocre and the miles very long. The writer recalls the ninety-mile trip from Penticton in January, 1899, with the mercury from 30 to 40 degrees below zero, part way on wheels and part way on runners, with slow teams and infrequent changes. It was midnight when the more than half-frozen passengers were put down at Camp McKinney, the half way point for those of us destined for Boundary Creek.

But the potentialities of Southeastern British Columbia were not unknown to the enterprise of the Canadian Pacific Railway which eventually worked its way over mountain pass after mountain pass, by switchbach and tunnel into this a region which in three years has shown itself a factor in the world's production of copper and earned from the greatest copper experts of the world the distinction of making the world's record for cheap copper mining and smelting of copper ores.

The railway has wrought a revolution in more ways than one. It has cheapened and varied living, and in some ways it has cheapenen and varied men. The typical old prospector is fast becoming extinct. The typical miner, who spent most of his earnings on his personal gratifications, has been largely supplanted by more thrifty ones from the farms down east, who although not averse to a stratum of enjoyment in the life formation, conceive a bank account not an altogether unfortunate thing to possess.

But the changes wrought by the advent of the railway are marked in other ways. The good will and generosity and trust that existed among the old-timers seems in part to have run away. A few years ago no padlocks were needed on the doors of the rude cabins up in the hills. No hungry one ran ran any risk in going into a prospecct-cabin and resting for the night or making himself a meal. He was welcome to everthing in the cabin that his circumstances demanded, but his honor bound him to in no way abuse his privilege. Theft was unthought of and unprovided against. Those truly were chivalric rays among the people of those lonely hills. But wherever a cabin is found today within easy reach of the towns or railway, the padlock on the door tells its story distrust. Sometimes, still, the door is kept unlocked, and a kindly notice on the door is intended to do more effectively than even a lock would do for the preservation of proprietary rights. Sometimes a rudele written legend like this may be found playing police for a cabin in some secluded spot:

"You are welcome to go in and help yourself to anything you may need; but for God's sake don't turn thief and carry off the stove."

Yes, the changes of recent years have been very marked. Five years ago the first cabin built in the valley stood where today stands the Canadian Bank of Commerce. A half dozen years ago from its dorway the owner replenished his larder by shooting the deer as he crossed the valley in search of food or water. Today the discount clerk gets in his deadly work on the selfsame spot, while at the doorway one meets not the man with the rifle, but the man coming out to tell you "that the manager would like to see you."

And who shall say that the deer did not have the best of it? The bullet of the prospector might miss but that of the bank messedger never. And thus the change goes forward.

It seems but yesterday when a perpetual Sabbath-like calm rested upon the entire country. Men sat at their cabin doors and smoked and told tales of other lands and wondered if ever railways and reduction works would make their ironcap of value. Today the clang and roar and whistle of the railway locomotive, the rattle of the sampling works, the buzz of the hoist, the din of smelter and mill tell that busy life has supplanted old ideals. Northward, westward, primitive ideas and primitive methods have been pushed. Life that was extremely simple has become intense, and methods that were crude have changed into the complex. The resultant of the forces at work is that Boundary Creek this year will mine and smelt three-quarters of a million tons of ore.

A Cucumber Story.

We found on our desk this morning a monster cucumber of the English variety known as the "Lord Roberts," grown by Ferguson & Patterson, gardeners, Greenwook. It measured 19½ inches in length. Fungus says its flavor beats anything in its line in British Columbia.

Fungus justly complains of the lack of support by the Greenwood people generally, who for some reason continue patronizing Chinese farmers and gardeners. The public should remember that all fruits and vegetab'e handled by Chinamen out of town are picked the evening before, and after a long haul in a hot sun are not to be compared with with the produce of the Ferguson gardens which is picked the morning it is placed on the market, and are as clean and fresh as if taken from a private garden. The prices are as low as any and the vegetables are not sent out to market a second time, as is the case with the Chinamen, to be sold for what they will bring.

Fungus states his vast hygienic reputation on the fact that it is the consumption of so many stale greens that enables the corner drug store to dispose of so many bottles of Chamberlain's cholic mixture.

MUCH FOR GREENWOOD

Report That Negotiations Were Successful.

SMELTER WILL BE ENLARGED

Snowshoe Ore Will Be Treated At Greenwood Smelter.

The Boundary Creek Times Wall street correspondent is the authority for the statement that the rumoured amalgamation between the B. C. Copper company and the Snowshow Gold & Copper company has been affected in London Eng. Mr. Underwood of New York the president of the B. C. Copper company went over to London for the purpose of discussing details of the amalgamatation with Geo. S. Waterlow Chairman of the Board Directors of the Snowshow, Anthony J. McMillan, Managing director and others interested. It is reported in New York that the negotiations were successful and in a short time these two big mines will be owned and operated by an amalgamated company who will treat the output of both mines at the Greenwood smelter which will be enlarged.

It is now nearly two years since the amalgamation was first suggested and since then the mines have been thoroughly experted by representatives of the respective companies. J. W. Astley M. E. Superintendent of the Snowshoe spent several days at the Mother Lode and W. H Thomaa of the B. C. Copper company thoroughly experted the Snowshow. The announcement is confirmed by the fact that Snowshoe ore will now be all treated at the Greenwood smelter and plans are being unshed for the additional furnaces and conuertor plant. The Snowshoe and Mother Lode ores make a good blend so that the amalgamation is mutually advantageous.

The proposed amalgamation means much for Greenwood.

A Typical Cowboy.

The are telling a good story at the expense of Frederic Keffer manager of the B. C. Copper Company. Recently Mr. Keffer paid a visit to Banff and combined business with pleasure by riding some eighty miles from the famous spring to expert a mine. The trip occupied several days and Mr. Keffer an his guide returned dirty, dusty, unkempt and unshaven. As they approached the hotel they were accosted by two young ladies from New York who asked them to stop while they could take a snap shot. "We have been trying to get a good pieture of typical cowboys of the west" explained the two young ladies "and this has been the first favorable opportunity." The good natured mine manager stood for the picture and the young ladies went away delighted. Imagine their consternation when at the dinner table that evening they found their typical cowboy transposed into a clerical looking gentlemen whom the afterward discovered was manager of one of the big mines of British Columbia.

Charles McArthur has returned from a trip to the West Fork country where he has been inspecting mining property recently acquired by him, and upon which he has a number of men employed. While on a hunting trip with Harry Blythe of Westbridge he succeeded in capturing a couple of bears. One of them is a magnificent specimen of the black bear, the pelt measuring 7 feet 6 inches in length. Mr. McArthur reports an abundance of all kinds of feathered game within easy reach of Westbridge hotel. He returns much pleased with the appearance of the ledge which has proved to be at least 14 feet in width with good gold and copper values.

Rev. J. D. P. Knox left on Wednesday for Nelson where he attended the financial district meeting of the West Kootenay District on Thursday. Mr. Knox returned home today. A publis meeting was held in Nelson last night to commorate the 200th anniversary of the birth of John Wesley. The meeting was addressed by Revs. J. Calvert of New Denver, R. F. Stillman of Rossland and J. D. P. Knox of Greenwood.

William Dunstan a miner from the Sunset is in the hospital as a result of an accident at the mine yesterday. In attempting to step clear of a mass of ore he was dislodging he tripped and fell injuring his back and chest, and sustaining a severe cut in the temple and a badly lacerated hand. Dr Spankie attended the injured man and had him removed to the Sister' Hospital, Greenwood.

Spokane Interstate Fair.

One of the handsomest exhibits to be seen this year at the Spokane Interstate Fair in October, will be the display made by the various marble companies and some of the individuals who own quarries of marble and other ornamental stones. W. A. Coplen, superintendent of the mining department, has been assured of some handsome exhibits in this line. There is a rivalry between a number of the marble companies to see which can put on the most beautiful specimens. The companies which will exhibit are the U. S. Marble Co., the Crystal Marble Co., the Great Western Marble Co. and the Spokane Marble Co. Many novel exhibits will be made, not only of marble but of onyx, serpentine and similar stoues. The city of Spokane was unable to think of anything more beautiful and novel as a gift to President and Mrs. Roosevelt than a set of goblets made from some of this material. Each one of the companies mentioned will itself make an exhibit which will be far superior to all the marble exhibits heretofore made at any one fair. This marble is proving one of most valuable products of the country and is in great demand in the east.

MINING ASSOCIATION

Much Important Business Transacted.

GOING AFTER CANDIDATES

List of Queries to Be Addressed to Candidates for Legislature.

The Executive of the Provincial Mining Association met in Rossland on Tuesday and Wednesday of this week and transacted much important business. After a lengthy discussion it was decided to carry the fight for better legislation into the realm of practical politics. This will be done by addressing a list of queries to all candidates, regardless of party, as to whether or not he is in sympathy with the aims and objects of the association generally, and with the following particularly:

1. To repeal the two per cent tax.
2. To amend the mineral lact so as to provide that failure to keep up a free miners license shall not operate as a complete forfeiture of rights acquired under it but that some reasonable provision be adopted for extension of time within which the certificate must be renewed.
3. To entitle the owner of mineral claims to the use of timber on such claims without the imposition of the royalty now enforced.
4. Crown grants on mineral claims to be reduced from $25 to $10.
5. To inquire into the operation of the Boiler Inspection Act with a view to ascertaining to what extent the said act works unnecessary hardships upon the owners and operators of steam boilers and to remove by amendment any just grievance.
6. To amend the Placer Mining Act to enable holders of placer claims to secure title thereto by crown grants.
7. To pass a conciliation act for the settlement of labor troubles.
8. To revise and consolidate the acts relating to quartz and placer mining, to remove numerous anomalies in existing acts and to simplify laws relating to mining.
9. The desirability of opening Indian reserves throughout the province for mining purposes.

Copies of the foregoing in extenso are to be sent to the candidates nominated throughout the province and to the newspapers.

On motion of Messrs Howse and Kirby it was resolved that the executive should convene at Kamloops on November 23rd next.

At the close of the session the executive was banquetted by the Rossland branch of the association. Replying to "Our Guests" President John Keen urged greater effort to increase the membership of the association, while Mr. Howse took advantage of the occasion to eloquently describe the mineral resources of the Okanogan country.

Replying to the toast "The Province" E. B. Kirby gave solid satisfaction to the Rossland branch by declaring that Rossland had passed the depression stage of its existence and could now look forward to more prosperity than had been the case for some time.

"The Press" was responded to by Duncan Ross of the Boundary Creek Times, and a thoroughly enjoyable evening came to a close by the singing of the national anthem.

Local interest in matters pertaining to the association has been stimulated by the meeting of the executive in Rossland. The local secretary reports a large number of prompt responses to the circular recently sent out calling for new members, the majority of the new members are miners and prospectors, the hotels and large mercantile houses coming in more slowly.

FLIRTING WITH THE POLITICIANS.

The action of the Provincial Mining Association executive at its Rossland meeting was in our opinion ill-advised. We are quite prepared to admit that politics should be to secure good government and the only way to secure reforms is through political action. Such action to be effective must be by one of the two great political parties. Labor parties, Socialist parties or even Mining associations may flatter themselves with the idea that they can purify the body politic without party affiliation, but experience teaches that their actions tend to delay not hasten reforms. The Provincial Mining Association started out as a non-political institution: It now wants to flirt with the candidates. We venture to say that the letter of the Association demanding categorical answers to certain questions will meet with scant courtesy from many of the candidates who are not responsible to any other than the electors in the various districts which they are to contest. In the event of their answers not being satisfactory to the executive of the Provincial Mining Association what is that body going to do? If they attempt to discipline such candidates they will find that members of the Provincial Mining Association will stand by the candidate of their party in preference to the Mining Association. Boards of Trade and similar institutions can do effective work in influencing the government or legislature by making proper representations at the proper time, but the usefulness of a board of trade would be destroyed did it attempt to interfere in a political contest. The same is equally true of the Provincial Mining Association. Its individual members will be found loyally working for their party candidate and they will give but slight consideration to resolutions passed by the executive. It would have been much wiser for the executive to take a holiday until after the elections are over.

EDITORIAL NOTES.

Not satisfied with providing a place for their dead, the Conservatives want a medical man to look after their wounded. The Conservatives have a reputation for looking after themselves.

Premier McBride, on his return from a political trip to the north, expresses the opinion that Mr. Clifford will win on account of his personal popularity. The wish is doubtless father of the premier's thought, but in that thought is conveyed a severe though true reflection on the McBride government. There is nothing in the government, nor in the Conservative record, to commend itself to the intelligent electors. Mr. McBride's only hope lies in the personal popularity of the candidates supporting him. An attempt is being made nearer home to make a showing with a personally popular candidate. But the people are waking up. Personal government is a thing of the past. The people want something besides a hail fellow well met.

PRESBYTERY MEETING.

Much Important Business Transacted.

The simi-annual meeting of the Kootenay Presbytery convened in St. Andrew's Presbyterian church Rossland on Tuesday morning and proceeded to its work of reviewing the labors of the past six months Those in attendance were: Rev. H. Young, moderator; Jas. Ball, clerk; J. R. Robertson, Grand Forks; D. L. Gordon, Fernie; W. G. W. Fortune, Cranbrook; Dr. Wright. Nelson; V. M. Purdy, Phoenix; Wm. Simmons, Slocan; E. C. W. McColl, Columbia; T. S. Glasford, Nakusp; W. G. Brown, New Denver; George H. Findlay, Ainsworth; W. S. Graham, (elder), Greenwood; Rev. A. S. Thompson, B. A., Midway; and Rev. Dr. Herdman.

The first session was taken up with reading of minutes of past meetings and an instructive Bible reading on the 91st Psalm by Rev Dr Herdman. The afternoon session was wholly taken up with reading of the home mission report, which was presented by the convener, W G W Fortune. The report showed that in the face of the general depression throughout the county the ministers of the church are doing an aggressive and successful work In closing the report the superintendent of missions, Dr Herdmen, expressed his gratitude to the Presbytery for the help accorded him in his work, and to the ministers throughout the Presbytery for the fruitful labors in the hard places within our bounds.

The session on Tuesday evening was taken up by an address and conference on the live topic of socialism. Dr Wright of Nelson, read an instructive and inspiring address and laid down the true principles for social reform. Rev D L Gordon followed with a paper opening up the subject for conference, which provoked some discussion. Those taking part in the discussion were Rev J R Robertson, Rev E C W McColl and Rev Jas Ball, and the conference closed with a thoughtful and suggestive paper by Rev V M Purdy.

The session of Wednesday morning opened with an instructive and interesting Bible reading led by Rev Jos McNeill, who is at present supplying St. Andrew's church, Rossland.

The resignation of J R Robertson, B A, of the pastoral charge of Knox church, Grand Forks, which has been before the Presbytery for the past three months was taken up and disposed of. The finding of the Presbytery was as follows: "Having heard the report of the previous meeting of the Presbytery and the letter written by Mr Turner, it was moved by Mr Fortune and seconded by Mr M Coll that the Presdytery requests Mr. Robertson to withdraw his resignation for the following reasons:

"The large majority of his congregation is opposed to his resigning.

"Generally speaking the active workers of his congregation are very hearty in their opposition to his resignation

"The cause of Christ would suffer if Mr and Mrs Robertson left at this particular juncture.

"And in conclusion we assure Mr Robertson of our sympathy with him in upholding the things that make for righteousness.

The resolution was unanimously carried and Mr Robertson in reply thanked the Presbytery for their confidence and consented to withdraw his resignation.

The resignation of V M Purdy, B A, of the pastoral charge of St. Andrew's church, Phoenix, was presented and accepted with regret. A resolution of confidence and esteem was passed expressive of Mr Purdy's heroic services in the midst of adverse conditions and of sympathy with him that because of the high altitude his physician urges a change without a delay. Rev J R Robertson, of Grand Forks, was then appointed moderator pro tem of the congregation of Phoenix to declare the pulpit vacant next Sabbath. M. Robertson was also appointed moderator of the Greenwood congregation during its vacancy.

It was with regret the Presbytery learned that Rev A L Burch, B A, had found it necessary to decline the call extended to him by the people of St Andrew's church, Rossland, but the Presbytery hopes the congregation may soon be happily settled so that the danger of a prolonged vacancy may be avoided.

The commissioners of Presbytery to the general assembly in Vancouver, including Rev H Young, M A, Rev Dr Wright, Rev J R Robertson, B A, and Mr. W S Graham, gave brief addresses on their attendance at the assembly. They all reported that the assembly had a very successful meeting, that the church realized more than ever its great heritage of Western Canada, and that that the interest of the people in the great work of the church was marked and intense.

Remarkable Cure of Diarrhoea

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by J. L. White, Greenwood, and A. F. Thomas, Midway.

THE LIBERAL PLATFORM

The liberal platform, as adopted at the provincial liberal convention held at Vancouver on February 7th, 1902, is as follows:

1. The immediate redistribution of the constituencies of the province on the basis of population but allowing a smaller unit of population per seat for the outlying districts.

2. Government ownership, Dominion, provincial and municipal, of public services of utilities i ssound and should be carried out in British Columbia.

3. Should it be advisable at any time to grant aid to a railway company such shall be in cash and not in land and no bonus of any kind shall be given without definite and effective means being taken to safeguard the interests of the province in the management of the road, control of the freight and passenger rates, and provision made against such railway having any liability against it except for actual cost.

4. Immediate construction of the Coast-Kootenay railway; the Cariboo railway; a railway from Alberni to a point on the east coast of the island; a road in the northern part of the province from the coast to the eastern boundary with an extension to the northern boundary; the railway from Vernon to Midway by north fork of Kettle river; with necessary branch lines, ferries and connections.

5. The enforcement of the act now in force compelling the scaling of logs by government scalers.

6. That such legislation should be enacted as will result in making the lands included in the various dyking areas available for cultivation as quickly as possible and secure prompt payments of assessments when due.

7. That the government should keep in touch with the conditions in connection with mining, protecting said industry against combines and trusts and if necessary for the purpose build and operate smelters and refineries. No reasonable change should be made in the mining laws without full notice to all parties interested, giving full opportunity for discussion and criticism.

8. As the province can only advance by the settlement within its borders of thrifty and prosperous citizens, and as Orientals never become citizens in any proper sense of the word, we declare it to be the duty of the government to discourage Oriental immigration and employment by every means within its power, and we appeal to our fellow liberals throughout the Dominion to aid us in our efforts to protect ourselves against the ruinous competition of men having a standard of decency and comfort immensely below that of civilized peoples, and who shirk every duty and obligation of citenship which the law will allow them to escape.

9. The government ought to prevent the waste and suffering caused by strikes and lock-outs, and an eanest effort ought to be made to provide some means of preventing such strikes and lockouts, and we approve the adoption of compulsory arbitration.

10. The fiscal system of the province stands in need of revision. Taxation should bear upon privilege rather than upon industry, and no addition should be made to the debt of the province except for public works properly chargeable to capital.

11. The retaining of the resources of the province as an asset for the benefit of the people and taking effective measures to prevent the alienation of the public domain except for actual bona fide business or industrial purposes, putting an end to the practice of speculating in connection with the same.

12. The construction and maintenance of roads throughout the province to aid in the development of the mining and agricultural districts.

Valuable Time Saved

Slight injuries often disable a man and cause several days' loss of time and when blood poison develops, sometimes result in the loss of a hand or limb. Chamberlain's Pain Balm is an antiseptic liniment. When applied to cuts, bruises and burns it causes them to heal quickly and without maturation and prevents any danger of blood poison. LOCAL EXTRACT

S. S. Fowler, of Nelson, was in the city this week.

For rent, a three-roomed furnished house. Apply at Arlington Hotel.

J. Peck McSwain has left for Curlew and Republic on a short holiday trip ?

Manager George Collins of the Athelston left this morning for the mine with nine men.

J. E. McAllister, superintendent of the Greenwood smelter, visited Rossland and Nelson this week.

Mrs strickland and daughter and Mrs. Hirsch of Rossland are in the city visiting Mrs. E. G. Warren.

The boys are practising their hose cart races these fine evenings, getting ready to get some easy mon y at the Phoenix sports on Labor Da

Services will be held in the Methodist church here, next Sunday at 11 a. m. and 7:30 p. m. Class meeting at 10:20 a. m. Sunday school at 2:30 p.m.

Miss Jean Miller, formerly of Greenwood but now a resident of Vancouver, left for home on Wednesday after a fortnight's sojourn with friends in the city.

Saint Columba Presbyterian church. The Rev. V. M. Purdy, of Phoenix, will conduct services on Sabbeth first at 11 a. m. and 7:30 p. m. All are cordially invited.

Mr. Jno. C. Keffer of Cleveland, Ohio who with Miss Keffer have been spending the last two months with the manager of the B. C. Copper company left on Thursday for their eastern home.

Duncan Ross, who has been appointed Liberal organizer for the interior constituencies of B. C., left Sunday morning on an official trip for Rossland, Nelson, Slocan and East Kootenay points.

Mrs. J. H. Methot and children have returned from a two months' trip in the Kalispel valley Washington. The Misses Laidlaw, of Spokane, came up with Mrs. Methot for a month's visit in the Boundary country.

His Honor Judge Leamy is in the city on judicial business. As the long vacation occurs in August and September His Honor, and the legal fraternity generally, are enjoying a period of rest from the labors of litigation.

"Automatic" sox is the latest ad. in a local window. Whether that means that the sox work themselves on and off, or only off, or that once off never get on again, we cannot say, but Mr. Petch will tell you all about it.

George Findlay has moved his road gang camp up to the McDonnell ranch on the Anaconda road. While he is up there we trust he will make a road across the Trilby and thus render it easy for D. McVicar to ship the ores of the Gold Finch and E P. U. mines.

Albert I. Goodell, superintendent of the Boundary Falls smelter, attended the meeting of the executive of the Provincial Mining Association held this week at Rossland. From there he went to Spokane to meet Mrs. Goodell and family who are returning from a visit to Colorado.

Rev. E. P. Flewelling, rector of Phoenix for the past two years, has received a call from the Anglican church at Dawson city and will shortly leave to take up work in his new field of labor. The members of his congregation at Phoenix greatly regret his departure. Rev. W. G. Wood late of Trail will be his successor.

A number of Greenwood people including Mrs. Wm. Roe and family, Mr. and Mrs. George Dougherty and little daughter, Mrs. Hancock, Annie and Arthur Prout, W. T. Hunter, H. Munroe and Foulds Bros. returned yesterday from the Rossland carnival and report having a good time in spite of bad weather. Foulds Bros. took second money in the drilling contest, being seven-eighths of an inch behind the winning team.

Smith Curtis, J. S. C. Fraser, Mr. Prescott, one of the proprietors of the Commercial hotel, Vancouver, and R. H. Anderson, superintendent of the Le Roi mine, visited the Oro Denore mine on Tuesday. Mr. Curtis has just returned from a business trip to St. Paul and Chicago. He met with much encouragement, thanks to the splendid showing at the mines and the satisfactory smelter returns from the ore shipped. Mr. Curtis will make another visit east this fall.

Our $6 Johnston & Murphy's shoes are taking with everybody. Have you taken a pair? Hunter-Kendrick Co.

A WELL KNOWN ALBANY MAN

Recommends Chamberlain's Cholera, Colic and Diarrhoea Remedy

About eighteen months ago W. S Manning, of Albany, N. Y., widely known in trade circles as the representative of the Albany Chemical Co., was suffering from a protracted attack of diarrhoea. "I tried Chamberlain's Colic, Cholera and Diarrhoea Remedy," he says, "and obtained immediate relief. I cheerfully recommend this medicine to those similarly afflicted." For sale by J. L. White, Greenwood and A. F. Thomas Midway.

Business Locals
