THE BAY CLAIM

In Skylark Camp Makes a Wonderful Showing.

SPLENDID GOLD SPECIMENS

Brought to Town Wednesday Excite Universal Interest.

Skylark Camp that has long been neglected gives evidence of becoming the banner one of the district. In recent months some very fine claims have been developing up there but it remained for the Bay to yield the finest specimens of gold yet brought town from the camp. The E. P. U. has been a producing mine for some time, but operations in the camp were for a long time confined to that one claim. During the present year, however, other claims have been making very fine showings. The Silver Cloud and Skylark particularly have been yielding some very high grade ore. But the new strike on the Bay appears to eclipse them all. Some months ago Mr. H. V. Fuller of Spokane bought a half interest in the Bay for a few hundred dollars and bonded the other half for something like $2500. He has been quietly working away all summer in a small way getting out some very fine ore, but on Wednesday of this week he opened up a lead from 12 to 15 inches wide which is literally spotted with free gold. The quartz is of a greenish tinge and sets forth the yellow of the gold to good advantage.

The Bay claim adjoins the E. P. U. on the east and is only about a mile and a half from town. The E. P. U., Bay, Gold Finch, Skylark, Silver Cloud and Dynamo, all close together, promise to make a camp that means much to the owners and to the city of Greenwood. Thus again is verified the remarks made elsewhere that the Greenwood district is a section of prize packages and that so far there are no blanks. The work of prospecting the field about us has scarce begun and already a dozen claims justify many times the amount of development work yet done.

If the Greenwood district were in Nevada or Arizona or in some remote corner of the earth, men would be flocking thereto by the hundred. Being reached however by parlor cars, being well watered and well wooded, opened up with good roads, and possessed of an excellent climate, there does not appear to be hardship enough about it to excite the capital from abroad. The result may be better in the end, however, for now worthy men without large capital are making the handsome stakes of the district.

THE WAR

General Kodama says that the troops of the Mikado will winter inside Port Arthur. There appears to be considerable strenuous work before them if they accomplish this.

Skirmishes more or less severe are the order of the day along the Sha river. Neither army appears desirous to precipitate a general engagement.

The Russian army stretched along the north bank of the Shathe river is now reported to number 300,000 men.

A general assault began on Port Arthur on Nov. 24th and was still in progress Nov. 27th according to Chefoo advices. It looks very much as if the Japs wanted to clean up some of their business relations with Russia before the fleet would be required to meet the Baltic fleet.

It is claimed that with the capture of 203-Metre hill by the Japanese, ninety per cent. of the work of the complete occupation of Port Arthur is finished.

PRIZE PACKAGE

May Still Be Had in the Greenwood District.

GOOD GOLD MINES ARE HERE

If You Have the Courage to go After Them Right.

Now that the election is over the people of the country generally will be able to address themselves more closely to business for after all business must not be neglected under the most happy auspices of government. It is true that governments have to do with conditions that make profitable business possible, but after governments have done all they may, the real question of doing things is up to the people. That government which becomes too paternal makes weaklings of the people, and that government which neglects its proper functions discourages them. There are many things in this new country still open to reform by the local government, there are many enterprises still deserving of the support of the federal government. Gradually these must be reformed by the one and assisted by the other, and gradually this will doubtless be done. But the great work of planning enterprise and of carrying it forward rests with the individual. The depression of the last few years in Greenwood will illustrate out point. The people had expected too much of the big corporations, too much of governments. Out of the circumstances however courage was developed. A number of properties that for years had lain idle were seized upon as fitting fields for work and a few of the more courageous ones of the district set themselves to work thereon. Some were able to interest capital, while others, the majority too, took pick and shovel and with stout hearts pitched in. And what a transformation they and their example have wrought. At least 125 men immediately around Greenwood are making good wages in what were then silent places, and quite a number of our citizens stand to grow rich therefrom. All these years these properties waited, waited for the time when individuals awakened to the fact that large companies alone must not be depended upon to develop the country. Men gave up discussing taxation and went to work. They stopped debating the coal and coke question and drilled the rock. They thought some and talked some still of subsidies and bounties but realized that work was magic, properly applied. And so today a dozen high grade mines, some small and others still smaller 'tis true, are working out their destinies, adding to the comfort of their owners and ably seconding the efforts of the big corporations to make the Boundary the greatest mining district in the West. And the work has only begun. There are others just as good. Time is being lost in regret that you did not get in on this or that one now proven all right. Get to work on some of the others. Nature is not so partial as you may believe. She did not unload all her wealth into the Providence and Elkhorn and E. P. U. and Last Chance and Strathmore, or the the others we might name. Much of her stores of gold and silver still lie close to you untouched, and ten years hence men will lament lost opportunities just as today. In every instance he who has had the courage to draw an envelope out of the box has drawn a prize. There has not been a blank and those left in the box are not all blanks of that you may be sure. Don't wait to get a mine for nothing. They are worth going after in the Boundary and you reader, if you have the nerve and judgment and industry may still draw a prize.

LARGER SMELTERS

On Boundary Creek is the Order of the Day.

SEVEN FURNACES OPERATED

In a Few Months Producing High-Priced Copper.

The present indications are that within six months from this date at least seven furnaces will be in commission at the smelting works on Boundary creek. The Montreal and Boston will have their second furnace busy in a few days and preliminary work is going forward for the installation of the third now at the works. The B. C. Copper Co. will proceed to set up two additional furnaces as speedily as the matter can be discharged. At a recent meeting of the directors of that company in New York it was decided to double the present capacity of the plant immediately. This of course will require considerable time but it is safe to guess that the coming spring will see four furnaces operating at the one plant and three at the other. The mines of both companies will then be in condition to supply the needed ore. The price of copper is good and every inducement exists for hurrying things. Surveys are already under way at the one plant and excavations at the other for the contemplated enlargements.

We are glad to know that Col. Weir, one of the Boundary's early friends, has again become identified with the B. C. Copper Co. and has joined its directorate.

We may mention also that New York papers report a decided improvement in the stocks of both these concerns.

The persistent courage of Mr. F. Keffer of the B. C. Copper Co. and of Munro Brothers of the Montreal & Boston Consolidated is going to win out handsomely both for the corporations they represent and for Greenwood and the Boundary.

CITY COUNCIL.

Indemnity By-Law Will be Introduced Next Week.

The regular meeting of the City Council was held Monday evening with Mayor Naden in the chair and Ald. Caulfield, Bunting, McKenzie, Parker and Ross present. Routine business was transacted and Ald. McKenzie gave notice of an indemnity by-law which will be introduced at the next meeting of the council. The details of the by-law are not yet decided upon but it is understood that the majority of the council are in favor of an allowance of $5 for the mayor and $3 a sitting for each alderman in actual attendance at meetings of the council. Owing to the unsatisfactory condition of city finances heretofore, the council did not think it opportune to impose additional burdens on the taxpayers but now after four years' careful administration, the city's finances are in good shape and the majority of the council feel that a small allowance should be made particularly to the mayor who heretofore gave much time and labor to the work of the city often at a financial loss to himself.

OKANAGAN ENTERPRISE

Shatford Bros. of Vernon and Fairview, general meachants, have managed to finance the Ellis ranch deal, and the land will now be subdivided. The amount mentioned in connection with the deal is $400,000, of which $300,000 is for the land and $100,000 for the stock. The company in which the Ellis ranch is to be vested is to be capitalized at $500,000. The shareholders will comprise business men from every part of Canada, from the Atlantic to the Pacific,

EMPLOYERS' LIABILITY.

Mr. D. C. McGregor was in town this week conferring with his local representatives, Gaunce & Wickwire. Mr. McGregor represents the Employers' Liability Assurance Corporation of London, England, a concern which carries on a large liability insurance in all parts of the world. While here he paid the B. C. Copper company's loss in the case of Christenson recently referred by Chief Justice Hunter to Judge Leamy. Judge Leamy adjudged the defendant company liable for the full amount of $1500. The case of Oscar Hammar who died from injuries received at the smelter is also in process of settlement.

PROSPECTS BRIGHT.

It cannot for a moment be believed that with the increased smelter activity developing on Boundary creek, the Great Northern will long delay in pushing construction into Greenwood. A large part of the ore of the Montreal & Boston Consolidated will be drawn from their Phoenix properties and the Great Northern is not likely to see the Canadian Pacific carry this tonnage exclusively very long, when the construction of nine miles of road will put the Great Northern system in touch therewith direct as well as with the B. C. Copper Co. and the general business of the best town in the Boundary. We look to see the coming winter and spring the liveliest Boundary creek has ever seen.

You are invited to inspect our new Xmas stock—not to purchase—but simply to examine our goods and prices. You can save money. But don't take our word for it, come and see for yourself.—Smith & McRae.

CUT FLOWERS FOR XMAS.

Mrs. Benard wishes to announce that she can supply, in any quantity, Cut Flowers for Xmas and New Years. Parties desiring same should place their order as early as possible. Cal up phone 31.

JOKES AND JESTS.

"She is worth a million in her own name."

"Then she can take her own time about selecting another name."

"I am afraid I can't raise the rent this month "

"What'll the landlord do about it?"

"Raise Cain, I presume."

"What is the prisoner's reputation for truth and veracity?"

"I don't know, except that I have frequently seen him go past with a fishing pole."

Binks — The Russian fleet hasn't scored a victory for a good while.

Jinks--No, the weather has been so bad lately that all the fishing fleets have had to stay in the harbor.—Cincinnate Commercial-Tribune.

CLASSIFIED LOCALS

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts. bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5 00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark; and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square

Claimes are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged. the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comdtroller.

No free miner shall receive a grant of more than one mining claim on each seperate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

SCISSORS and PASTE POT

The Indian population of the Dominion as shown by the report of the Indian Department for the year ending June 30, was 107,978. The year previous it was 108,233, and in 1903 99,717.

It has just leaked out that the character of the uniform worn by Hon. Jabez Snowball, Lieut.-Governor of New Brunswick, was called in question by an officer of Lord Minto's household. The officer in question claimed that the governor's uniform was one which only the governor-general or an imperial privy cauncillor had the right to wear. The governor asserted that he had his London tailor's authority for the statement that the uniform was of the right class, and refused to change it. The grades of official uniform are five in number, viz.: 1, governor-general and imperial privy councillor; 2, lieut.-governor; 3, privy councillor and solicitor-general; 4, deputy-minister; 5, secretary to the governor-general. The uniform is the same in all cases except that the higher the rank the greater the amount of gold lace worn.

OTTAWA, Nov. 29—The total arrivals of immigration in Canada for the four months ending Oct. 31st were 40,880, of which number 10,926 came from the United States and 29,954 through ocean ports. For the same period of 1903 the total number of arrivals were 38,792, of which 13,827 entered from the United States and 24,965 through ocean ports. Canadians are returning to Canada in increasing numbers. In July there were 311, in August 324, in September 534 and in October 241. Of the total emigrants in July 5014 were males, 1825 females, and 2013 children under 12 years of age. In August there were 4377 males, 1945 females and 1527 children under 12 years. In September there 3677 males, 2088 females and 1745 children under 12. In October there were 2803 males, 1479 females and 1426 children under 12 years.

SAFE AND SAM.

Dr. George R. Parkin, C. M. G., who has chief charge of the Rhodes' scholarship scheme, recently asked president Roosevelt whether it would be wise for the selecting committee in the United States to take the governor of each state into their confidence in making choice of students to send to Oxford. The president replied promptly: "Not one of them; I wouldn't trust one of them. The thing is academic—keep it academic. Why," he added, "if you mentioned that scholarship to my good friend, and one of my best supporters, governor Blank, his first thought would be how to use it for the next election." All this at a large political luncheon at the White House. Sundry governors of states to whom Dr. Parkin told the story laughingly endorsed the judgment as correct.—Nelson News.

J. P. FLOOD, Prop.

From a score of verses received by Smith & McRae in their Xmas card competition they have chosen the following:—

I've waited long for cash and stocks
To come from drilling country rocks,
Trusting each year for signs more fair
That I some day the stuff would share,
But fate has fooled with my best ore
I've iron-cap but nothing more.

Some lucky chaps, both young and old
Have gotten rich from high-grade gold,
But I'm still digging, bound to win,
And when I do you'll share the tin;
Meantime a Xmas card must do
And this my friend I send to you.

FRIDAY DECEMBER 2, 1904

A WORD OF CAUTION.

Greenwood today is in a better position financially than any other town in the interior of British Columbia. Overdrafts have been paid to the banks, there is no current indebtedness, there is a good surplus available and the city's only liability is its bonded indebtedness for which interest and sinking fund have been fully provided. The ratepayers are to be congratulated upon the healthy financial condition of the city but they should also remember that this gratifying result was secured only by hard work on the part of the mayor and aldermen and a policy of strictest economy. Four years ago, the city was financially and legally involved through the vicious and extravagant administration of a gentleman who is now strenuously endeavoring to rehabilitate himself in the city. It took five years of hard work to undo the evils of an incapable and spiteful mayor. The work has been accomplished and the city is again in a position to be exploited. Rumor has it, that same gentleman is going to make a second raid on municipal offices. Those who want stagnation and litigation, debt and turmoil will come to his assistance but those who have some pride in their city and are anxious to see it prosper will be on their guard against any chances of a repetition of maladministration.

IMPROVED MAIL SERVICE.

Daily trains will be running into Phoenix over the Great Northern before the New Year. J. F. Royer, who is running the present stage between Greenwood and Grand Forks intends to run a fast stage between Greenwood and Phoenix when trains run to the latter. The Great Northern railway carries the American mail and some Canadian mail. If the mail for Greenwood were hauled by stage from Phoenix, it would mean a day's saving of time. The Board of Trade should take the matter up and make representations to the proper official who would in all probability grant the increased service.

CITY COUNCIL.

There is a strong feeling in the city that Mayor Naden should be persuaded to seek re-election for another term. To him, more than any other member of the council, credit should be given for the splendid position the city municipally occupies today. He has already given four or five years of active service, in two of which he occupied the mayor's chair. The city is now in a position to do things. The extension of the waterworks and other important public works can now be undertaken because the city is in a position financially to secure the necessary money for such projects. It is important therefore that next year's council should be a strong one. Mayor Naden has proved a wise and capable chief magistrate and it is hoped that he will consent to accept nomination for another term.

It is understood that the majority of the aldermen will consent to nomination. Ald. Ross retires after four years' service in the council and it is understood that Ald. McNeill will not seek re-election. Ald. Caulfield has had four years' experience in the council and to him much of the credit is due for the satisfactory position in which the city now stands. Ald. McKenzie, Bunting and Parker have also proved careful and conscientious servants of the city. With Geo. R. Naden as mayor supported by the four gentlemen referred to, in council, the ratepayers and citizens generally will feel every assurance that the interests of the city are in capable hands.

RESERVED LANDS.

A question which should be seriously discussed at the forthcoming meeting of the Associated Boards of Trade of Eastern British Columbia is the lifting of numerous reserves which have been placed on the public lands in this province. The day of land subsidies is past. All available land should be thrown open for settlement. A particularly aggravating case is that of the Columbia and Western railway reserve which continues in effect for reasons only known to the McBride government and the Canadian Pacific Railway company. These reserves are the greatest obstacle to the opening up of the province.

The value of certain newspaper support in a political campaign is very problematical. The personality of the editor of a large daily does not count. It is what the paper says not what the editor says the people consider. But with a paper published in a smaller town it is different. The county weekly's influence depends on the personality of its editor. The editor who knows little about the politics of this country and cares less and who sells his support for so many dollars does not draw votes to the candidate he is supporting. The money spent by the Conservative party in the recent contest on at least two newspapers published in the Boundary was money wasted. These papers did not bring Mr. Burrell a single vote;—on the other hand they lost him several.

The influence of the first Conservative government British Columbia ever had was exerted in the interests of Conservative candidates in this province. The result accurately gauges the amount of influence Premier McBride and his government exerts over the electors of this province.

TUNNEL AND STOPE

The last car of ore shipped by the E. P. U. weighing less than 20 tons netted over $2000.

The Elkhorn has a car of ore out running very high in grey copper and free silver and which it is expected will make a new standard of returns not only for the mine but the district

W. T. Smith has another car of ore from the Last Chance below town ready for shipment. Mr. Smith is now wondering why he has been spending so much time looking for a good thing when he owns one himself.

Hope No. 2 in Skylark camp, owned by Robert Donnegan, has been bonded to Mr. Cornish and work thereon has begun. Hope No. 2 is in good company being near the Silver King, Silver Cloud, Bav and Skylark.

The number of men on the Combination has been increased to six. The property looks well, and some good ore is being taken out.

It looks now as if the next high grade claim to be seriously developed would be the Gold Bug, negotiations to that end progressing favorably.

The Carmi, Wellington, Bounty and Sally at least, and possibly others, will be shipping from the West Fork this winter.

Negotiations are pending for bonding the Riverside claim on the Kettle river a few miles above Rock Creek. The claim was recently sampled and if the values are satisfactory a deal will go through.

Reform or revolution is near at hand for Russia. The Czar appears to look favorably on the Zemstro movement but whether or not he will grant the reforms is doubtful. The nature of the reforms demanded spell constitutional government, neither more nor less. Reforms will be granted or a bloody revolution will deluge the great nation of the north.

COMPANY NOT TO BLAME.

W. F. Robertson, provincial minerologist, and Mr. Roberson, spent yesterday in Nelson and leave for Victoria this morning by way of Spokane.

Mr. Robertson has been attending the inquest into the death of the Morrissey miners at the accident in which 14 men were killed. The coroner's jury of six men had viewed the remains when they were recovered from the mine. The evidence of the doctor, who made the post mortem examination was to the effect that all had died of suffocation. The formal inquest began at 7 o'clock Monday evening and lasted until 12:30 on Tuesday. Twelve witnesses were in all examined and there was no conflicting evidence of any kind. The whole statement of fact and cause is summed up with admirable conciseness in the finding of the jury, subscribed to by all the members:

"We find that the deceased came to their death from suffocation caused by a blowout of gas in No. 1 mine, Morrissey, the property of the Crow's Nest Pass Coal company, limited, on the morning of the 18th of December, 1904. We are unable to find that any blame attaches to the Crow's Nest Pass Coal company, or any of its officials."—Nelson News.

Hon. A. G. Blair has returned from his trip to the world's fair at St. Louis. Mr. Blair stated that there was nothing definitely settled yet as to his assuming the managership of the Toronto Roller Bearing company, and he has nothing to say as to his intentions for the future.

NOTICE.

NOTICE is hereby given that all creditors and persons having claims against the estate of the late Adolphus Ferguson, who died on the 9th September last, 1904, are required on or before the 31st December, 1904, to file a statement giving full particulars of their claims duly verified, the statement of their account and the value of their securities (if any) held by them.

And further take notice that after such last mentioned date the Administrator will proceed to distribute the assets of the said deceased amongst the parties entitled thereto having regard only to the claims of which he then shall have notice and that the said Administrator will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated this 14th day of October, 1904.

Notice is hereby given that I shall proceed to sell by public auction at the above time and place herein set out the above mentioned lands and improvements respectively unless the arrears of taxes, interest and costs are sooner paid.

Dated the 17th day of October, 1904. (Seal)

G. R. Naden,
Mayor.

G. B. Taylor.
Collector of the Corporation
of the City of Greenwood.

I. O. O. F.

Officers For Ensuing Term Elected Tuesday Evening.

Tuesday evening was a busy night at Oddfellow's hall, not only was the routine to transact, but the second degree was conferred and then came the time to choose who should fill the different offices for the ensuing term. This year the interest had not lacked any of its old time vigor and all offices were closely and keenly contested for, in fact in one instance the Noble Grand was compelled to cast a deciding vote. The following officers-elect will be installed in their different offices on January 3rd: N.G., W. Elson; V G., James McCreath, jr.; Rec.-Sec., Fred B. Holmes; Fin.-Sec., G. B. Taylor and Treas., Frank Spearing.

Much credit is due the retiring officers for the manner in which the affairs of the lodge were handled during their six months' term and if the example set by them is maintained and carried forward by the new officers Boundary Valley lodge will in a short time have a larger membership, a larger bank account and a larger amount of brotherly love among its members than any other fraternal organization in the interior. May the good work continue.

CURRENCY.

And now the majority for Duncan Ross, member-elect for Yale-Cariboo, stands at over the 200 mark.

The current prices of metals are certainly encouraging. Lead is steady, silver climbing, copper soaring and even zinc jumping at a lively rate.

To all appearances both provincial and federal parliament will be convened early in January. Few towns of the size of Greenwood loses two citizens temporarily by such events, but Greenwood has the distinction of having a resident member of each house.

The Phoenix Pioneer ought to be liable to action for libel for the publication last week of that picture labelled Duncan Ross. If that picture had appeared before election in the place of the Pioneer's editorials Ross might have been defeated.

It is reported from Victoria that the breach between premier McBride and his Socialist supporters in the provincial parliament over the government's declination to cancel the appointment of Mr. Adolphus Williams police magistrate of Vancouver, has been widened by events in the late election campaign.

The Thomas Drug Co. has been incorporated under the Companies Act with a capital of $15,000.

It is claimed that despite reports to the contrary none of the mooted places will become the Pacific coast terminus of the Grand Trunk Pacific, but that a town to be called Laurier will be the terminus. Where Laurier will be, however, is still kept in the dark.

Judge Spinks has been appointed a commissioner under the Public Inquiries Act to examine into the conduct of Alexander Dick who, in his capacity of government mine inspector, is charged with having given untruthful reports as to the condition of the Coal creek mines prior to the terrible accident of a few years ago, and for doing which he was paid by the company.

The maledictions of the bad are as complimentary to a man as the benedictions of the good. See the Grand Forks Gazette of the 26th ult. in its eulogy of Duncan Ross.

The King's head series of postage stamps has been enlarged by the addition of a twenty-cent one. The series now consists of one, two, five, seven, ten and twenty cents. The color of the new stamp is similar to that of the Queen's head series of the same denomination.

Don't you believe that Sir Wilfrid Laurier ever gave an interview in Salt Lake or elsewhere in which he said Port Simpson would be the Pacific coast terminus of the Grand Trunk Pacific railway.

TOWN TOPICS

Robert Wood and Ralph Smailes went to Beaverdell on a business trip on Wednesday last.

R. G. Sidley of Anarchist mountain sent in 100 head of hogs this week to the local market of P. Burns & Co.

Xmas goods, new and nobby, fancy 7 piece glass water sets, $1.60 to $2.50 per set.—A. L. White & Co.

Edward Perry is making arrangements for a masquerade ball at the Masonic hall on Dec. 15th next.

Messrs. Fuller and McIntosh went to Spokane on Thursday, it is understood in connection with an important mining deal.

George B. Leyson who has been in Montana for the past year returned to Greenwood on Monday evening's stage.

The new furniture department annex to the O I C, A. L. White & Co., will be called the Red From Furniture Store.

Smith Curtis was in town this week hustling about in his usual active way.

Patrick Welch, Great Northern contractor, came down from Phoenix Tuesday.

Herbert Bunting is removing the Dempsie building which last spring took a plunge into Boundary creek.

St. Andrew's day was celebrated by several festive ones—Scotchmen and others—in a season of good fellowship at the Imperial hotel in the evening.

A young man soliciting orders for Clark & Stewart of Vancouver, without license, last Tuesday found it wiser to take a layoff and get out of town.

"Dead" in line, the very latest in plain and fancy toilet sets.—A. L. White & Co.

E. J. Wilson has been in Greenwood this week looking into his business affairs here. He was greeted by a host of friends, pleased to see him looking so well.

Mr. Stowe of the Bank of B N. A., has returned from a two weeks' holiday at Beaverdell. He reports a good season of recreation with enjoyable company and good shooting.

Mrs. H. C. Shaw and family left on Wednesday to take up residence in Vancouver, her former home. Mr. Shaw will remain a few weeks longer to close up business before joining her.

Just received large consignment of latest patterns in iron, stone, crockery and glassware. See these goods and get our prices.—A. L. White & Co.

Rev. E. W. C. McColl of Phoenix, who exchanged pulpits with Rev. W. D. McKee last Sabbath, preached very acceptable sermons. The Rev. W. D. McKee will supply his own pulpit this Sabbath.

As an evidence of the firm's business prosperity and of its faith in Greenwood, Messrs. Holmes & Kennedy have purchased the property on Copper st. in which it is now doing business.

LeB. Deveber, for the past two years manager of the Bank of Montreal here has been promoted to the management of the Nelson branch. While congratulating Mr. Deveber on his deserved promotion we regret the loss to the good citizenship of Greenwood, sustained by his removal. He will be succeeded here by W. F. Proctor of Vancouver.

THE World's Best Music

Played or Sung in Your Own Home by the World's Best Artists

¶We will supply you with either a Berlines or Columbia Gramophone, for less than you can get the same for from the factory, either for cash or on the installment plan. ¶We will take back your old records, and give you a cash allowance or a new record on the latest exchange plan.

We can and will give you a better deal than any other firm in the Music Line

Thomas Drug Co

D. W. Duke of the B. C. Permanent Loan and Savings company, is in the district showing investors where they can place their surplus money to good advantage. The loan company Mr. Duke represents has enabled several pesple in Greenwood and Anaconda to acquire homes on the monthly payment plan.

The regular monthly meeting of the Greenwood Curling Club will be held in the club room at the rink on Tuesday evening next. The election of skips for the winter's campaign will take place in about two week's and it is desirable that all contemplating joining the club should send in their names at once.

K. OF P.

Election of Officers Held Wednesday Evening.

At the regular weekly meeting held on Wednesday evening the local lodge of Knights of Pythias elected the following officers for the coming term: C.C., L. B. Hodge; V.C., J. Cameron; P., J. Wilmshurst; M. of W., A. Hallberg; F. and R.-S., A. D. Hallett; M. of F., C. Dunne; M. of E., K. C. B. Frith; M. at A., N. McLeod; I.G., A. Lind; O. G., H. Wells. The lodge is in a good healthy condition, several members being added to the already large membership of this fraternal organization during the last six months.

BRIC-A-BRAC.

It seems rather absurd but it is true. The Canadian Goldfields Syndicate is declaring a dividend out of profits on stock held in the St. Eugene, a silver lead mine.

Some of us would like to have a few pleasant moments with a banker like President Beckwith of the Citizen's National Bank of Cleveland, Ohio, who loaned Mrs. Chadwick four times as much money as the entire capital of the bank.

Mr. Cortelyou was accused of being a "lightweight" before election and some knowing republicans thought he would "mix" things. The mixture was a good one certainly.

The Methodists of Winnipeg deny the fake story sent out that they were about to inaugurate a club run on the plan of Dr. Potter's New York saloon.

Rev. Dr. Matthews of the First Presbyterian church, Seattle, in a recent lecture at Bellingham, said: "John D. Rockefeller is the biggest criminal walking on the face of the earth today." That's pretty hard on the deacon, but if the remark had been uttered in a prayer meeting we think a hearty response would have come from the "Amen corner."

There appears to be a boom on in Boundary copper stocks, the Montreal & Boston, B. C. Copper Co. and Granby all going up at a lively clip and are being freely traded in both east and west.

PHOENIX-GREENWOOD SERVICE.

Long since some of the enterprising ones of Greenwood discussed the matter of an automobile service between Greenwood and Phoenix and some gentlemen went so far as to inquire into the possibility of the same. They learned that such a thing was feasible so far as grade was concerned, but doubted the quality of the road and the degrees of curves which obtain to make it a successful undertaking. Since then, however, the roadbed has been vastly improved and many of the worst curves considerably reduced. Mr. J. F. Royer says it is feasible and has accordingly ordered a machine with accommodations for twelve people for delivery here April 1st next. Meantime Mr. Royer plans to put on an excellent stage service between Greenwood and Phoenix beginning with the date of running Great Northern passenger trains into Phoenix which from present appearances will be early in the New Year. Mr. Royer has been in town this week looking up office and warehouse rooms and stables and will move his outfit into Greenwood. If arrangements can be made for the carriage of mails between Phoenix and Greenwood by stage, we may hope to receive our American mail a day earlier than now and our Spokane papers several hours earlier each day than now.

TOKIO, Nov 30—Imperial headquarters made this announcement: "Our force operating against 203 Metre Hill advanced at 10 o'clock today from trenches already captured near the summit of the hill, and are now struggling for the southeastern portion of the fort on the summit. A fierce battle was still in progress at 7 o'clock tonight."

TOKIO, Dec. 1—The Japanese have captured and now hold 203 Metre Hill,
