RENDELL & CO.

Agents for Mason & Risch pianos.

RAILROAD WRECK

Runaway on The Phoenix Branch

HAPPILY NO LOSS OF LIFE

Ore Train Gets Away on Grade Crew Jumped.

The wreck of last Tuesday on the Phoenix branch of the Canadian Pacific railway affords the kodak fiend a choice subject Near Denoro City a railway engine, 23 ore cars and over 600 tons of ore are piled up in fantastic confusion.

It would appear that Conductor Halfpenny was coming down the long grade just beyond Denoro city with a string of 24 laden ore cars when for some unaccountable reason the air refused to go on duty when summoned, with the result that there was a runaway. The crew knew they had lost cause when neither air nor hand brakes could be made effective and having reversed the engine there remained nothing to do but seek personal safety safety. This they did by dropping off the train. Down the grade and around the curves rushed the long, long train for a mile or so when it decided to leave the rails. The result was ruin as may be imagined. The entire train with the exception of two cars was a complete wreck. The crew escaped with minor injuries.

PIONEERS

The annual meeting of the Kettle River and South Okanagan Pioneer Society will be held at the Riverside hotel, Rock Creek, on Thursday, Sept. 1st next. Teams will be at Midway on the arrival of the Canadian Pacific west bound to carry members to the meeting place.

LARGE TROUT

Mr. Fisher, teller in the Bank of Montreal, holds the fishing record for 1904, for this section of country. On Saturday last he captured a beautiful trout in the Kettle River, just below Midway, which measured 21 inches and tipped the scale at 4½ pounds. That's trout fishing.

OUR BAND AT THE FORKS

The Greenwood City Band left on Tuesday last to afford the citizens of Grand Forks and the carnival visitors, music for the entire carnival. We feel quite sure that the boys will in every way reflect credit on their home town and give the full value for the money. This is the kind of neighborhood feeling that ought to exist between sister towns. It manifests a very kindly spirit on the part of Grand Forks to engage a Greenwood Band.

CITY TEAM

The city purchased a fine new horse, a good mate for the surviving one of the old team, and Alex is getting him accustomed to all kinds of noises and things, not overlooking the hook and ladder wagon.

THE PLAINS OF ABRAHAM

It looks now as if the historic Plains of Abraham were to be sacrificed to the commercial idea. There ought to be sufficient room elsewhere for manufacturing purposes. This historic spot should remain a great Canadian recreation ground, or public park. The battlefield ought to be sacred to both English and French, who although they met there in enmity, now live so happily together, trying to work out the great problem of national life.

Delicious whipped cream puffs at the Star Bakery.

BUILDING UP YOUR TOWN

Are you helping to build up your town? If not, why not? Do you speak hopefully of it to strangers? Do you speak favorably of the town's business houses and mines? Do you patronize home institutions, and home enterprises and home goods? Do you believe in the capabilities of things and people here? Do you applaud the man who is trying to build up something or do something for the country's betterment? Do you do your share of the public dead work, a certain amount of which exists in every community?

If you do all these things you are assisting in the material upbuilding of the community.

On the other hand, if you buy goods abroad that ought to be bought at home, if you malign men and enterprise just from petty jealousy or pure cussedness, if you place your business with outside agents who flatter you a little, rather than with those who maintain offices in your midst, if you refuse your time and talents to help along public movements only to criticise those who do, you are not assisting in the betterment of things. Your ideas may differ from others, let the public have the benefit of them, but don't sulk if they are not accepted. The majority is more liable to be right than you, so let the majority rule.

The man who sits in his chair and snarls, snarls at the government, at the public officials, at business men, at proposed undertakings, at the Board of Trade, at the churches, at the Benevolent societies, at everything but himself is neither useful nor ornamental to the community. He neither helps nor adorns the town where he lives. Don't be a dead weight, don't be a wet blanket, don't be a knocker, be a positive, helpful [illegible]

FAMILY QUARREL

A valuable horse belonging to P. Burns & Co. received rough treatment at the hands, or rather the feet, of his mate during Thursday night. The horses were apparently on friendly terms when put in the corral Thursday evening. This morning one of them was found cut and skinned and scarred in a frightful manner. He was treated by the veterinary surgeon. He looks as if he had been in the Denoro train wreck.

THE V. W. & Y. RAILWAY

The completion of the new railway bridge across the Fraser river at New Westminster permits the Great Northern to run trains direct from Seattle into Vancouver over the V. W. & Y. branch road just opened for traffic.

CARIBON

Harry Morgan reports having seen a herd of nearly 20 cariboo recently on Boundary creek, about 40 miles up from Greenwood. They had doubtless been driven south by the fires that have raged so fiercely in the Fire Valley country lying north.

MINOR MININC MATTERS

Messrs. Haas and Smith are working at present on the O. B. one of the group of the Boundary Creek M. & M. company's properties they have under bond.

A small pumping and hoisting plant has been installed in the Silver Cloud.

The work of retimbering the Brooklyn is progressing favorably. Beginning at the bottom of the shaft which is 380 feet deep, the timbering has been done up to the 150 foot level.

The whim being constructed on the Silver King is about completed, and sinking on the lead will begin next week.

Phil McDonald and Robt. Robinson are doing some work on the Connection claim just overlooking the town on the east. When their shots are fired, so heavy are the charges and so near, one almost fancies he is in Port Arthur and that the Japs are taking the town.

Mr. Brannan, who made an examination of the workings of the Barbara this week, was much pleased with what he saw, and congratulates himself on his good [illegible] in having become associated with Mr. Miller in this property.

PROVIDENCE MINE

Litigation Ended Very Summarily

OLD DIRECTORS STILL REMAIN

The Case Heard at Vancouver on Thursday

For some weeks past a crisis has been apparent in the affairs of the Providence Mining Company. A number of Chicago people through their representatives have been trying to get possession of the property. Recently Messrs. Madden, Heenan and Hyland of Chicago, interested in the mine, made a prolonged stay in Greenwood accompanied by Attorney W. A. Macdonald, K. C., of Nelson. They expressed some dissatisfaction with the mine's management and asked the local directors to resign This request was met by a decesive, definite refusal. Thereupon the matter was taken before the court at Vancouver and the law was invoked to remove these directors for cause The case was heard on Thursday of this week, but the court refused the prayer of the petitioners.

Irregularities may have [illegible] mitted by the local directorate but the surprise would have been general, where these men are well and favorably known, if it had been shown that any part of their management had been tainted with fraud. Meantime the Providence keeps shipping high grade ore as never before.

RUNAWAY ACCIDENT

On Thursday afternoon last as Mrs. McKarracher and daughter were returning to Midway their horse became unmanageable just below Anaconda and overturned the two wheeled cart in which the two ladies rode. Mrs. McKarracher escaped with minor injuries but her daughter was quite severely bruised. She was taken to the home of Miss Embree near by, where she received the kindest attention. It is thought that she will speedily recover.

REAL ESTATE

Gaunce & Wickwire report the sale of Mrs. E. E. Harve's house on Silver street to Mrs. Grace Rowe. The property was sold at a great bargain. There is more inquiry at present for cheap residence property and for real estate snaps than for a long time.

TO SAY FAREWELL

Lord Minto, who is to leave Canada in the near future, is arranging a farewell tour from ocean to ocean. It is now 20 years since as military secretary to Lord Lansdowne, His Excellency first visited Canada. The regret at his departure will be widespread and sincere, so warmly is he held in the affections of the people.

RAILROAD RUMBLINGS

The O. R. & N. R'y is usually up-to-date, but we protest against its recent circular giving our enterprising sister city of Grand Forks credit for less than 500 people.

An interesting circular issued by the Canadian Pacific Railway shows road owned and operated by the big company exceeding 11,000 miles.

STANDARD OIL

British Columbia now has a Standard Oil company all its own. So says the British Columbia Gazette. We trust no Lawson will some day be writing up its iniquities under the caption of "Frenzied Finance."

HIGH SCHOOL.

Quite a number of our young folk have already gone or are presently going to the coast in pursuit of higher education than is attainable at home. Several mothers have gone with the young folk and will keep house that their children may not be deprived of home influences at a particularly formative age.

Only yesterday we were talking with one of our most prominent citizens along this line and he remarked that he feared he would be obliged to remove his family to a town of greater privileges for his boys. It would seem that it ought to be possible for Greenwood to maintain a high school in which our boys could complete an ordinary English education seeking only the special or the professional elsewhere. San Francisco, Portland, Spokane, Vancouver, and other places are affording to our boys today school privileges which ought to be had at home. No town can afford to overlook the educational and moral interest of the young. Investment in things intellectual and moral is better for a town than in many other directions.

With our lower altitudes and geneal clime a high school here ought to attract pupils from the neighbouring towns of Eholt and Phoenix. From many points west contingents would come. A high school is a thing worth striving for. It means more good families and good families are a valuable asset. It means development of a boys pride in his home towns institutions and that is much.

It means affording the many what only the few can now secure, an opportunity for an advanced education.

We presume that our school board has already given this matter serious thought. If so the subject is worthy further pursuit, if not the neglect is culpable.

IMMIGRATION.

British Columbia appears to have gotten some good advertising at the recent exhibition at Winnipeg. Of course all the world knows that this sea of mountains is rich in ores of all kinds, but few comparatively have ever considered its resources from an agricultural or horticultural standpoint. The fine exhibit of fruit at Winnipeg was a surprise to our prairie friends A taste of the luscious fruits sent fresh daily, confirmed the judgment of the eye. A little of this kind of advertising pays the province well. The effect of this exhibit will be to stimulate inquiry into the capabilities of the province, and inquiry will result in immigration. We say this from an unprejudiced standpoint because there are no farming lands about Greenwood for sale. But the valleys of the Kettle, the Similkameen and the Okanogan ought to have thousands of settlers who would not have the advantages of the fine summers offset by the rigors of winter. Many Manitoba farmers weary of the long, cold winters, are coming into British Columbia, and others will follow. There has developed of late quite an inquiry for Okanogan and Similkameen lands. For product, for climate, for beauty the valleys of interior, southern British Columbia challenge the world.

EDITORIAL NOTES.

The Grand Trunk Pacific officials accompanied by the Hon. R. Prefontaine are about to make a visit up the coast seeking for a terminus for their great railway.

It is reported that some minor changes are to be made in the ministry at Ottawa. Should such occur we trust that a portfolio awaits the Hon. Mr. Templeman, eminently fitted by ability, industry, and temperament for such responsibility.

Chilliwack is showing an enterprise worthy a larger town. It has embarked on a somewhat extensive power and lighting scheme. Some Rossland people are promoting the matter which includes an electric road through the thickly settled, productive valley.

The Dominion parliament has authorized an increase in capital stock sufficient to enable the Kettle Valley Railway company to extend their road up the North Fork and beyond, and extending the time for completion of the company's lines.

The Japs are busy these days digging trenches, dismantling forts, investing Port Arthur and burying their patriotic dead. Army and navy seem equally industrious, equally capable, equally successful in solving a serious problem.

The process at Port Arthur is one of slow but sure strangulation. Nearer and nearer to the doomed fortress the enemy approaches. Forts are falling into Jap hands day by day, and the cord grows tighter round the throat of the brave ones within the fortress who know how to fight and are not afraid to die. No surrender is the Russian watchword.

FOR SALE

Six roomed house and out buildings, situated on Everett avenue, Anaconda. Lath and plastered throughout, good cellar, Lynn Creek water at door. Can be purchased cheap and on easy terms. Apply: B. J. CAMERON, on premises.

THE NEW BABY

Our head compositor is sadly out of condition today. Yesterday the mother and baby were brought home and the proud father volunteered to look after the little one. But the baby didn't like the looks of his stern parent and kicked up a row. Father walked the floor until his strength gave out, sang his choicest baby carols of which he had a stock that surprised himself, used words that awoke and saddened the mother, and then rushed out in the cold air of early morning to cool his fevered brow. Today he is telling his friends about the cuteness of that kid and incidentally inquiring into the merits of paregoric and peppermint.

THE CARNIVAL

Those of our people who were fortunate enough to be able to visit Grand Forks on Thursday report a first-class time. There was a large number of visitors present. The race meet was liberally patronized and some good sport enjoyed.

The Grand Forks Derby, the event of the day, a one mile race for $400, was won by Chileno, a Spokane horse. Time 1.49.

The town was full of people and all the side shows were liberally patronized. A large number of visitors from Nelson and Rossland came.

..THIRD ANNUAL..

Race Meeting and Summer Fair

Under the auspices of the Grand Forks Driving Park and Athletic Association

GRAND FORKS

AUG. 25, 26, 27, '04

BOUNDARY MAN RETURNING HOME.

From the Victoria Times of Aug 19th, inst we clip the following:—

F. Whitewell, from the Boundary country, who has been down the coast operating the Cascade mine on Uchuchlesett harbor, returned this morning on the steamer Queen City. He reports that he has successfully opened up the property and has taken out 150 tons of very high grade ore inside of three months. This ore arrived on the steamer Queen City, Mr. Whitwell having finished his contract with the owners of the property. The ore, he says, was taken from a prospect in which there had never been a shot This goes to show the charcter of the mine, as only two men had been employed during the three months mentioned. A gravity tram has been completed within the last month, connecting the works, 600 feet up mountain side, with salt water, and important developments will follow immediately. It is intended to sink a shaft a distance of a hundred feet before any other further work is done. The ore will be shipped to the Tacoma smelter for treatment, and it will be of interest here to state that so valuable is it that 150 tons will pay expenses thus far incurred. Mr Whitwell believes that the ore will continue to do so if the mine is managed right.

Mr. Whitwell, who is a practical and theoretical expert, says that there are many mineral deposits very promising on this Island, and if good practical men are secured the Island should go ahead in the mineral industry. There has been a great deal of "dead" work done, and this has held the industry back and kept it in its present condition.

The Cascade is a copper mine, and Mr. Whitwell pronounces the ore just obtained the very best that has ever been shipped from the coast.

Mr. Whitwell was one of the leaseholders who opened the Providence mine at Greenwood, and who made a great success of that property. He leaves for the Boundary country in a few days, but expect to return to Victoria shortly.

Mr. Whitwell has several claims up Providence Creek just across the gulch from Bailey's Camp. The Great Northern extension into Phoenix passes near the property which is known as the Maori group.

NEW STYLE OF REDUCTION

The teeth in a sheep's jaw which a dog was gnawing in London, England, attracted the eye of a doctor. He noticed a peculiar color about them and had them analyzed. The result was "a trace of gold", and the inference is that somewhere in Australia, whence the sheep came, the pastures growing on auriferous deposits are short-cropped by the sheep whose teeth coming in contact with the mineral gradually absorb it, The emminent assayers, Messrs. Johnson, Matthey & Co., to whom the teeth were submitted for analysis, report the presence of gold "but not in paying duantities." Even in golden Australia sheep will continue to be raised for their wool and mutton, rather than teeth.

It is a very simple process of amalgamation if it could be made to work.

Wise and Otherwise

William Fowler leaves on Saturday for Scotland where he plans to pass his declining years. A worthy man is leaving us, and wishes are general for his future happiness.

With about four per cent of the population of Canada, British Columbia owns about 12 per cent of the Dominion's net tonnage of sailing ships and steamers.

POSITION WANTED.—Man of thirty, with energy and executive ability. Have had seven year's experience at head of general insurance agency in east. Desire position in any line of business with promising future. Have good knowledge of all lines of business. Personal interview if desired.

G. M. SEWALL,
Red Deer, Alberta.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft-coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5 00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may b obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square

Claimes are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comdtroller.

No free miner shall receive a grant of more than one mining claim on each seperate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior.
Department of the Interior, Ottawa.

NOTICE OF FORFEITURE.

TO DAVID BEATH, HENRY SHIELDS, or to any person or persons to whom they may have transferred their interest in the Paymaster mineral claim, situate in the Greenwood Mining Division of Yale district.

You are hereby notified that I have expended the sum of $1000 for surveying the above mentioned claim and $2.50 for recording the same for an assessment, such being required and necessary to hold the said claim for the year ending October 11, 1903, under the provision of the Mineral Act and Amending Acts; and if at the expiration of ninety days from the date of the first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure, namely, $51.25, together with all costs of advertising, your interests in said mineral claim shall become invested in me, [your co-owner] upon filing in the proper office in that behalf the affidavit required by section 4, of the Mineral Act Amendment Act, 1900."

Dated this 9th day of June, 1904.

ROBERT WOOD.

PHIL McDONALD

Dated Jlny 15, 1904.

TWO FATALITIES

The second fatality since construction work was inaugurated on the Phoenix branch occurred Tuesday morning at 8:30 o'clock at Andrews & McDonald's camp No. 1, near the old Rankin place, a mile west of Grand Forks. Nels Nordeen, a station man, and his companion had drilled and prepared six holes ready to touch the match to them. Nordeen lighted all six, but only five went off. After waiting a moment he turned to his companion and said he had forgotten to light the sixth hole, and ran up to set it off. While in the act of touching the match to the fuse the blast went off, hurling him down the hillside and fracturing his skull, from which injury he died five minutes after the accident. Dr. Foster, of this city who is acting for Corner Kingston, Grand Forks, decided that an inquest would be unnecessary. The funeral was held Wednesday. Beyond the fact that Nordeen was a native of Sweden, little could be learned concerning him.

Aaron Jackson was seriously injured by a premature blast at Andrews & McDonald's camp No. 2, near the dam, at Grand Forks, Tuesday morning last at 9 o'clock. He received the full charge of the blast, losing the sight of both his eyes, besides having a wrist and thumb broken. His injuries were were attended to by Dr. Northrop. He was sent to the Sacred Heart hospital in Spokane for further treatment.

What the Press Is Saying

Re the Grand Trunk Pacific's, Pacific coast terminal, the Toronto Globe says: "To prevent a saturnalia of real property speculation, usual in such cases, the British Columbia government will act wisely if, following the precedent set by the Ontario government in the construction of the Temiskaming railway, it pre-empts the whole of the land about the selected terminus, makes with the railway company mutually advantageous arrangements and adjustments, lays out the site of what will yet be one of the greatest cities in the world, and secures for the province the benefit of the profit arising from the increase in value due entirely to the presence of the railway and not at all to the work of speculators.

"It will argue on the part of that government phenomenal obtuseness, criminal neglect or deliberate connivance at fraud if the opportunity thus afforded is allowed to pass unimproved in the light of economic discussions of the past thirty years. Indeed, the method of treatment here suggested should be applied to every station along the line of railway, from the Pacific ocean to Moncton.

The Coal Company have adopted the name of Carbonado for the location of their colliery formerly known as Tonkin—Fernie Free Press. The public generally will commend the company's good taste.

The Ledge very aptly says: "Canadian capital is being sent into Mexico in large amounts. The Canadians, like others, can always see green in the fields that are far away. The opportunities for making millions in British Columbia are almost unlimited but the country is too easy to reach. If we could move Kootenay into Mexico or the United States, half of Canada would fall dead with exertion from attempting to get there first."

The Poplar Nugget grows facetious in this manner: "Two good jobs are now vacant in British Columbia—the lieutenant-governorship and a supreme court judgship. It is said that Senator Bostock will get the former, and a turnip hoer the latter. His many friends—shall we say retainers—in the newspaper business in British Columbia will be pleased to see Hewitt the representative of his majesty in B. C. The salary is a good one and the Hon. Bostock is not at all niggardly is distributing largess to the faithful."

JUST FUN

It was an Irish farmer who said to his sweetheart: "I met you last night but ye didn't turn up. Now, I'll meet you tomorra whether ye turn up or not If you're there first stick a stone on the rafin', an' if I'm there first I'll knock it off."

"If it wasn't for my wife," grumbled the first man at the reception, "I wouldn't be here."

"Neither would I," replied the other one. "The hostess is a great friend of my wife's. Is she a friend of yours?"

"No, she's my wife."

Parishoner—I believe you had a fire at the manse this morning. Any serious damage?

Minister—Yes, ten years' sermons were burned.

Parishoner—(with the memory of weary Sunday mornings)—Man, they made a grand blaze—they were so dry.—Pall Mall Gazette.

Four days of general entertainment and merrymaking in which the whole Boundary country is cordially invited to participate. An interesting feature will be

The Coronation of The Queen

who will be elected by popular vote. Candidates are entered from Rossland, Nelson, Greenwood, Phoenix, Republic, Northport and Gaand Forks, and a close and spirited contest is looked for. On the day of election the carnival directors will present the successful candidate with a purse of $250 for preparatory expenses of coronation. There will be a

ROCK DRILLING CONTEST

for a valuable prize $200, in which the best drilling team in the surrounding country will meet in competition. Another feature will be

GRAND MIDWAY PLAISANCE

which will be stocked with novelties of every description. The gala attraction will be a Mardi Gras Gight when everyone is invited to mask from 7 to 11:30 p. m. For further particulars see posters.

J. E. ANNABLE, Sec., Nelson.

New York Life Insurance Co.
Is a Mutual Co., and paid and loaned to policy holders in 1903
$50,000,000.
In September 1903, I handed to A. Lusk of Camp McKinney, B.C., policy No. 3463824, amount $2000. On July 11th, 1904—ten days after Mr. Lusk's decease—his beneficiary received a check from the company for $2000 in full settlement of claim.
The New York Life Insurance Co., fulfils its obligations and it does so without delay.
F. M. ELKINS
DISTRICT MANAGER, GREENWOOD.

Wise and Otherwise

R. Smailes returned from his eastern trip last Saturday.

Mr. Fred Stork has the honor to be the first mayor of Fernis.

J. B. Johnston of Rossland was in the city Wednesday.

Blake Wilson, manager for P. Burns & Co., was in Greenwood this week.

Mr. S. S. Fowler, manager of the Cascade Light and Power Co., is a guest at the Imperial Hotel.

Mrs. Frank H. Parker left early in the week for a visit to her mother in Denver, Colorado. We wish her a pleasant trip and safe return.

Mr. S. P. Brannan of Chicago accompanied by Mrs. Brannan have been guests at the Imperial this week. Mr. Brannan is interested in the Barbara.

Harry P. Dickinson, agent for Bennett's fuse and Giant Powder, was in town a few days this week. He reports business good.

Mr. S. Grierson put some plate glass windows in for Russell-Law-Caulfield company this week, to replace those broken while being set last autumn.

Mr. A. M. Brydges, agent for the Great West Life Insurance company, left Wednesday for a business trip into the Similkameen country.

Mr. J. H. Morgan late representative of the Mutual Life insurance company of New York in the Boundary, has removed from Grand Forks to Chilliwack where he has assumed management of the Chilliwack Power and Light company, limited.

The city schools opened on Monday last. Mr. Clark, last year's principal is again in charge. He will have as associate teacher this year Miss Martin, who did such good work at Deadwood last year. The initial enrolment was very satisfactory.

A very pleasant affair was that at the National hotel the other evening, when Misses Rose and Ruth Wright were honored by a birthday party at the hands of their friends. The rooms were beautifully decorated and dainty refreshments served. Mr. Cascadden presented the young ladies with a choice birthday cake and Mr. Charles Wilson, acting on behalf of the assembled party, delighted each of them by the presentation of a gold locket.

Frank Sherwood, delegate from Greenwood Typographical Union No. 358, which embraces all the cities of the Boundary, to the fifth annual convention of the Typographical Union, held in St. Louis from the 8th to the 13th inst., returned last Friday. Mr. Sherwood says the convention was the most successful ever held in the history of the union. There were over 400 delegates in attendance. The total number of representatives of the "art preservative" present was swelled to over 2000 by visiting ex-delegates and printers and members from the Ladies Auxiliary. It cost the St. Louis union about $12,000 to entertain the delegates. The next annual convention will be held in Toronto, Ont. The Times acknowledges the receipt of the most artistic souvenir of the convention that has ever reached this office. Prior to the convention Mr. Sherwood spent a couple of weeks at the Clifton Spring Sanatorium, Colorado Springs, Col., where he received treatment for cellular inflammation, and he returned home much improved in health. Mr. Sherwood who is one of the army of U. S. customs officers and stationed at Danvill, Wash., was in the city yesterday en route to Midway.

Dalgetty, 300 miles south of Sydney, New South Wales, has been made the capital of the southern confederation.

Mr. W. M. Law, Secretary-Treasurer of the Providence Mining company, is spending a few days on the coast.

T. M. Gulley is making his cottage on Greenwood street more attractive by enlargement and improvement.

Charles R. Pittock left yesterday for an extended trip in the east and south. Charles was one of the old landmarks of the place and will be missed. Nearly eight years ago he started the Gem restaurant on Copper street and the place has never been closed day or night from date of opening to date of sale. Attention to business has enabled the former owner to lay up considerable money which, supplemented by large mining interests, have made him independent. We trust to see him back after a well earned rest.

QUERIES

Labor Day will soon be here. Is there any celebration or public function in sight?

What about the usual autumn lawn tennis tournament?

What about the shooting before September 1st. Are the official keeping a look out?

What about a skating rink for next winter. Anything doing?

What about a nice local display of ores for the interest of visitors? Isn't such a desirable thing possible?

BETTER ROADS

The government road gang has completed repairs on the highway between Greenwood and Eholt and has moved to Deadwood. There is a great deal of traffic between Greenwood and the Mother Lode and George Findlay hopes to improve the grade very materially.

Hardup—"I'm very sorry, but I can't pay you today. You see, the grocer has just been here, and——"

Butcher (interrupting)—"Yes, I just met him, and he said you put him off because you had to pay me. So here's the bill."

MIDWAY AND VERNON RAILWAY

(From our special correspondent)

New York, Aug. 26, 1904.—From what we consider reliable sources the report comes that prospects are good for early work on the Midway and Vernon railway. The eastern syndicate that has been considering this project very seriously has about concluded to take up the scheme. Some minor modifications in the proposed contract may be necessary, but the deal is likely to go through.

BRITISH COLUMBIA FRUIT.

Mr. R. M. Palmer, B. C. Commissioner at the Winnipeg exhibition writes: "The British Columbia exhibits have been the great attractions at the fair to both Manitoba people and visitors. Wholesale and and retail fruit merchants have also taken a very lively interest in the fruit exhibits and crops in the province generally. We are deluged with orders for cherries especially, far more than can possibly be filled. The press has given splendid notices and reports in regard to the fruit exhibits, both fresh and preserved. Altogether the province has been better and more widely advertised than I think could have been done in any other way on account of the thousands of people who have seen for themselves.

There has been a little jealousy, due to the feeling that people would be drawn from the Northwest to British Columbia, but the consensus of opinion amongst really representative men is admiration of the exhibit and the enterprise shown in making it."

Mr. Thomas Cunningham, provincial fruit inspector, returned on yesterday's Imperial Limited from a tour of the interior, during which he attended the quarterly meeting of British Columbia Fruit Growers' Association at Nelson. Mr. Cunningham stated that all through the Kootenay district the sun was almost obscured with the smoke of many forest fires. Much valuable timber was being destroyed throughout that district, and men were on guard day and night to protect farm dwellings which were threatened by the flames. The smoke has in a measure delayed the ri ening of some of the fruit throughou the Kootenay district, according to Mr. Cunningham, yet the fruit crop generally is in splendid condition. In one place in the interior he had seen an orchard 4000 feet above sea-level so loaded down with apples and other fruit that the trees had to be propped up to prevent the weight of the fruit breaking down the branches.
