Vol. 10 GREENWOOD, B. C. FRIDAY, MARCH 21, 1902. No. ~~21~~. 28.

THE ARLINGTON-BURNS

The Arlington-Burns Group in Deadwood Camp Purchased by Eastern People—The Riverside Group also Sold.

When Mr. J. P. Flood returned to town last week bringing with him some American capitalists it was suggested that an important mining deal was on. Only a very few days elapsed before this belief was confirmed and the announcement made that Mr. Stephen H. Jones and his associates, capitalists of Duluth Minnesota, were arranging the purchase of both the Arlington Burns and the Riverside group of claims.

The Arlington-Burns property is situated in Deadwood camp just south of the Mother Lode and Sunset properties. Being in the same mineral belt, this group may become the third of a trio of great properties. The Mother Lode is now shipping 400 tons daily to its smelter and the Sunset is in position to do the same as soon as their smelter is ready to receive the ore. This will be early in April.

The Riverside group comprises three claims, the Riverside, (crown granted), Emmeline and Badger Fraction. They are situated on the Main Kettle river about four miles above Rock Creek, and are exceptionally well placed for transportation facilities, the survey of the Canadian Pacific Railway passing close by the property, and a good wagon road from Greenwood and Midway parallels the railway. Over $5,000 has been spent in judicious development on the Riverside and Badger, resulting in the proving of a very high grade gold-silver vein for 500 feet of its length and 250 feet in depth with a width of from one to five feet. Below are some of the assays of this ore taken from various parts of the vein.

	Gold	Silver	Total.
No. 1.	$6.00	$81.42	$ 87.42
2	2.00	23.94	25.99
3	3.20	155.88	159.08
4	1.80	59.82	61.62
5	1.80	11.10	12.90
6	6.00	25.00	31.00

Values per ton of 2,000 pounds.

No. 6 is the sample assay of a car load shipped to the Granby smelter. Another car load shipped to the Boundary Falls smelter netted $41 per ton. There are over 1500 tons of ore blocked out in the mine at present. On the Badger fraction there is a vein of gold-copper orewhich assays $41 in gold and copper values.

We congratulate Mr. Jones and his associates on having succeeded in obtaining two such sterling properties as the Riverside and Arlington-Burns and are confident it will not be long before thir enterprise is well rewarded.

Since Mr. Jones left town Mr. H. Johns has taken charge of the Riverside property and put some men at wsrk. It would be a very happy sequel to his already successful career if Mr. Johns should make a great success of the Riverside. He it was who did much pieneer work on the Mother Lode and he who has had charge of the Sunset property for the last two years bringing it forward from a mere prospect to the assurance of a great mine. Mr. Johns has formed a very high opinion of the Riverside and expects it to become a great property.

Under the Glass.

A Times' reporter caught the breath of summer and saw the prophecy of good things just ahead while being shown through the hot houses of Messrs. Ferguson & Patterson, by the genial proprietors, the other day. Lettuce ready for the table, tomatoes in bloom, early potatoes just-a-jumping, cresses and radishes and spinach in profusion are all in evidence and in plenty.

It mattered not that the reporter mistook some luscious looking mushrooms for the vulgar toadstool, his escort maintained his genial smile, and let him take a sniff at the flowering primrose and sweet forget-me-not and stately wall-flower standing about to relieve the sea of gracious green. This firm find a ready home market for their product and are constantly extending their facilities to gratify the taste for the best things that grow. All that Fungus asks for is seed true to their kind and he'll do the rest.

Special to Times.

PENDING LEGISLATION

Specimen Paragraphs From Bills Now Before the Provincial Legislature.—Title of the Bills and by Whom Introduced.

We are not able to present very much of any one, or even selections from many of the very many bills daily being introduced into the Legislature of British Columbia but we herewith submit suggestive paragraphs from some of the more striking bills thus far presented. The Canadian Northern railway bill has so many startling therein that we do not attempt to discriminate among its many provisions,

„Act Respecting trade Unions" Mr Curtis.

"No such trade union or association, or its officer, member, agent or servant, or any other persons, shall be enjoined or liable in damage, nor shall its funds be liable in damages for publishing information with regard to a strike or lock-out, or proposed or expected strike or lock-out, or other labour grievance or trouble, or for warning workmen, artisans, labourers or employees or other persons not to seek employment, in the locality affected by such strike, lock-out, labour grievance or trouble, or from purchasing, buying or consuming products produced or distributed by the employer of labour party to such strike, lock-out, labour grievance or trouble, during its continuance."

"Act to Regulate Immigration Into British Columbia"-Mr Tatlow.

The immigration into British Columbia of any person who, when asked to do so by the officer apointed under this Act, shall fail himself to write out and and sign, in the characters of some language if Europe, an application to the Provincail Secretary of Province of British Columbia, to the effect of the form set out in Schedule "B" to this Act annexed, shall be unlawfuli.

"Act to Amend The Wills Act" Mr Curtis.

Section 25 of chapter 193 of the Revised Statutes, 1897, being the "Wills Act," is heraby amended by adding thereto the following words:—

"But where any devise, gift, bequest, benefit or legacy under any will hereafter executed is made to the surviving widow or widower of testator and is made revocable or terminable wholly by the subsequent marriage of such widgw or widower, such marriage shall not in any degree revoke, take away or end the right of the devisee or legatee to the whole of the devise, bequest, benefit or legacy, but the same shall be wholly held and enjoyed just as if the will contained no such provision or condition respecting the subsequent marriage of the devisee or legatee."

It shall be unlawful for any wagon or other vehicle carrying a load in excess of that mentioned in the Schedule hereunto annexed to be drawn or driven on any of the public highways of that portion of the Province of British Columbia situate west of the Cascade Range of mountains:"

"Carts or other two-wheeled vehicles shall not carry a load in excess of the following:—

On tires under 2 inches in width				600	lbs.

The Literary.

The regular weekly meeting of the Literary Society was held in St. Jude's Hall on Wednesday evening last. The exercises consisted of a duet by Miss Fisher and Mr. Hodge, a song by Mr. Galloway and an address on "King Lear" by Rev. Mr. Miller, of Phoenix. The latter gentleman's paper which was in the nature of an abstract of Shakespeare's great tragedy was regarded a treat by the audience present and everybody felt indebted to the speaker for his successful effort in giving them a pleasant hour.

Ping Pong

The Nelson Juniors got worsted in a recent ping-pong encounter with the Greenwood Juveniles.

Thinks Well of Greenwood.

Mr. A. Wylie of Toronto, inspector for the Reliance Loan & Savings Co., of Ontario has been in town the past few days looking after his company's interests at this point. The Reliance has loaned a large amount in Greenwood, through its agents, Gaunce and Wickware, during the last three years. After a very careful examination into his company's securities here and into conditions in general, Mr. Wylie expressed himself as delighted with what he saw, and found Greenwood's conditions and outlook much better than what he had been led to expect.

There is only one loan in Greenwood in arrears and that only for a small amount. This gentleman was in fact so well pleased with the class and conditions of his loans here that he has instructed the company's agents not to be too conservative in forwarding further business.

The Reliance has lots of money to loan on good houses and can fill applications with despatch. The visit of such careful and influential men as Mr. Wylie and their favorable reports in the money centres east means much for Greenwood. Mr. Wylie found Greenwood a much more substantial town and the country much more forward than he had been led to expect, and entertains no doubt whatever of the camp's assured future.

We want 2nd hand goods. Ring up 106 A. L. White 2nd Hand company.

The Phoenix Minstrels.

The Phoenix Minstrels will be in the Auditorium on the 2nd of April. Save up and take it in without fail. Show our neighbors that we are their friends and are appreciative of the good things they have in store for us.

No Blizzards.

The citizens of the Boundary are in love with the climate of the same. The moderate snowfall, the moderate cold and heat, and the absence of high winds continue to make the climate of either summer or winter very agreeable. But when they read of the terrible blizzard that so late in March has been working discomfort and destruction in Manitoba and the Dakotas their sense of appreciation of home comforts becomes intensified.

When we are denied our eastern mail for three consecutive days because trains are snow-bound we can realize faintly what the conditions must be back where the storm raged. The blizzard which set in last Friday is characterized as the very worst that ever swept Manitoba. The Dakotas fared no better.

GROSS NEGLECT OF DUTY

The Member for Rossland after the Provincial Cabinets.—Makes Grave Charges and Demands Inquiry.

The Nelson Miner published a special from Victoria dated March 18th setting forth that Hon Smith Curtis had on that date made a definite charge against Premier Dunsmuir and the rest of the ministers in connection with the railway deal, and will to-morrow move for a committee of enquiry. The charges are that Mr. Dunsmuir was enabled to sell the E. and N. railway for a larger sum than would otherwise have obtained through the subsidy to the Canada Northern, thus reaping a large advantage. He also charges all themembers of the executive witn grave misconduct and gross and wilful neglect of duty in employing Mr. Greenshields as agent for the government while he was acting as the representative for Mackenzie and Mann.

Church of England.

Next Sunday, Palm Sunday, the services will be as usual, but in the eqening the choir will sing Staner's anthem, "God so Loved the World". There will be special services during Holy week, as announced On Good Friday there will be morning service at 11 a. m.; an address on 'Two words from the Cross' at 12 noon ;a children's service at 2:30 p. m., evensong at 8 p. m. Easter Day services as usual. There will be celebrations of Holy communion at 8 and 12. The services will be choral, and in the evening the choir will sing "Christ our Passover is Sacrificed for us" anthem by Goss. Printed notices of the Holy Week and Easter services can be had at St. Jude's Hall.

Lacrosse at Grand Forks.

At one of the largest attended meetings of its kind ever held in Grand Forks the lacrosse club of that place was reorganized for the coming season last Wednesday evening, when the following officers were elected for the season: President, Lloyd A Manly; 1st vice-president, Geo. A. Fraser; 2nd vice-president, A. M. Dunham; captain Fred W. Grant; sec-treas., Arthur O. Cochrane. Executive committee: K. C. McDonald, A. E. Savage, A. C. Henderson, E. Miller and W. D. Betts. It is hoped that a Boundary league can be formed, including Trail, Rossland, Nelson, Phoenix, Greenwood, and the local team, and that a schedule of games extending over the greater portion of the season can be arranged.

BOUNDARY REPRESENTATION.

The Greenwood Board of Trade is strongly of the opinion that the Kettle River Mining Division ought to have and is entitled to have a representative in the provincial legislature. It has moreover taken the opportunity to impress its opinion as above upon the government.

The Boundary country ought to have two representatives and presumably the better way in making such arrangement would be to give the Grand Forks Mining Division one representative and the Kettle River division the other. This arrangement while perfectly natural and geographically correct would put Cascade, Grand Forks, Columbia, and Kettle River valley for some distance in one riding, and Phoenix, Greenwood, Anaconda, Deadwood, Boundary Falls, Midway and a large section of the Kettle River valley in the other.

It is to be hoped that such representation will be given at once and that two representatives from the Boundary may sit in the present session of the provincial parliament. Then shall the troubles of two more men begin, then a farewell token to all that's best in life, and a longing ensue for the time and place when "the wicked cease from troubling."

Yes there will be more ambitious men, or patriotic men, or public-preferred men who will be obliged to go to Victoria if the bill pass and help save the province.

Who will they be?

Who wants to go?

Seriously, however, the present is a time for men who feel responsibility and who are willing to give faithful service and conscientious thought to such a trust as the one suggested.

DEFILEMENT OF THE CREEK.

If the proper authorities would take a walk up to the Louisa street bridge they would find a wagon load of evidence in Boundary Creek that some one who respects neither himself nor his fellow-citizens has committed a grave offence against the health and decency of the town. It would certainly be worth while for the city and health authorities to try to detect the man who so wantonly has defiled the creek.

So long as men are permitted to hurl defiance in the teeth of decency as well as law so long does properly constituted authority appear a farce.

To Correspondents.

We regret that we cannot publish the very readable descriptive bit sent us entitled "They were from Missouri and had to be shown", unless the writer will subscribe his name thereto. We regret this because it is full of merit and because it says so many pleasant things regarding so many deserving people and firms. The firm of which the acting editor is a member is vain enough to like to see the kind things said of it in print but to publish them unsigned would expose the editor to censure of having had a pipe dream.

If the correspondent who signs himself "knocker" will answer the following questions to go as a postscript to his letter we will print the same next week.

How long have you been in Greenwood?

How much money have you invested in British Columbia?

How many days have you worked since coming?

How many jobs have you applied for and got, and how long have you held them?

How many have you applied for and failed to get?

What is your business besides knocking?

Does it Pay?

DOES KICKING PAY? Ask the man whose would-be-father-in-law saw him out.

DOES ADVERTISING PAY? Ask the man who lost his boots and found them after one ad. in the Times.

DOES WILD-CATTING PAY? Ask those down easterners who held up their friends and then blamed B. C.

DOES BANKING PAY? Ask the manager for an over-draft and tell me the words he used.

DOES KNOCKING PAY? Ask that tired fellow with the little hammer and great faith in every place but that in which he lives and everybody but those he happens to know.

EDITORIAL CHAT.

Victoria is known as the place where they raise cane and cabinet ministers.

That roof-garden-chuch idea of Rev. Charles R. Scoville of the metropolitan church of Christ, Chicago appears to be a good one. The plan is to supersede rag-time with sacred music and vaudeville with ice-cream served by pretty waiters.

In asking for 40 Canadian lady teachers to engage for service in Africa to teach the Boer children in the concentrated camps, generous Britain exposes her feelings of humanity and maguanimity to a foe.

Some of the American papers are comparing the visits of King Edward, when Prince of Wales, and Prince Henry much to the advantage of the former. They claim that the Prince of Wales took time to see enough of American life and motive to form some adequate conception of the nation, which has not been the case with Prince Henry.

The Canadian Northern Railway has been constructed in the minds of the Victoria people and we trust that is all that will come of it under the proposed ache me.

MINING NEWS.

Work has been resumed on the Riverside property under the superintendence of Harry Johns of Sunset fame.

A deal is pending for the transfer of the Butcher Boy property on West Fork to an influential American syndicate. The agent of the capitalists concerned visited the property in company with James Dale one of its owners, this week, and went away pleased with his examination and confident in the success of the deal. The consideration will reach well up to the six figure mark and if carried through will mark the beginning of better things for Carmi and West Fork.

Indications point to an early resumption of work on the Carmi property. The mine is being unwatered this week.

This sum is to be divided between his mother, sister, brother and self. This is a steak that is a stake.
