Berry Sets, Chocolate Pots.

GREENWOOD'S GREATEST STORE

ORE IN ACRE TRACTS

Description of the Oro Denoro Workings

QUARRIES AND GLORY HOLES

Output of the Mine Will Soon Be Doubled.

Recent advices from Denoro state that the Oro Denoro mine is producing a lot of excellent ore in the big quarry where the ore body is 80 feet wide and has been traced on the surface within 50 feet of the other quarry indicating that the two quarries are probably on the same big ore body. Shipments have been curtailed at both the Oro Denoro and Emma mines for want of ore cars. The C. P. R. ordered months ago a large number of ore cars but these have not yet been received though expected in a few weeks. The tunnel to tap the magnetic vein on the Oro Denoro is now in ore and next week will be under a big open cut 40 feet long and 12 feet deep in good ore to which an upraise is to be made when the ore will be glory-holed and the output easily doubled as soon as cars are available. Mr. K. L. Burnet, P.L.S., has been this week making accurate surveys of all the workings and ore exposures preliminary to making a plan of same for the company and its shareholders. This plan will show that large areas aggregating acres of the surface of the claim are all ore while it is known that other areas so far undeveloped are likely to show large ore bodies with exploration. The development work has for some time has been in charge of S. L. Graham, foreman, and has been well done.

The dry season has curtailed the water supply so that the power plant has been shut down occasionally, but this difficulty is now being overcome by a well and a short pipe line to an additional rivulet. Taken in all the mining outlook at Denoro was never better and a most hopeful tone is manifest which is likely to be made more so by the big B. C. mine being re-opened in the near future.

SCHOOL CLOSING.

At the closing exercises at the public school last Friday the following programme was rendered: Piano solo, Dorothy Yates; chorus, "Shoemaker," Div. II.; club swinging, Hazel Skelton, vocal solo, Annie Prout; recitation, William Johns; chorus, "Kitty," Div. II.; Recitation, Alice McMynn; chorus, "Jack Frost," Div. II.; piano solo, Olive Bunting; vocal duet, Hazel Skelton and Olive Roberts; recitation, Evangeline Phillips; chorus, "Away! Away!" school.

A Certain Cure for Croup

When a child shows symptoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years and has never known to fail, viz: Chamberlain's Cough Remedy. Give it a chance and a quick cure is sure to follow. Mr. M. F. Compton of Market, Texas, says of it, "I have used Chamberlain's Cough Remedy in severe cases of croup with my children, and can truthfully say it always gives prompt relief." For sale by all druggists.

For Christmas and New Years holidays the Canadian Pacific railway announces a rate of fare and a third return between all stations from Port Arthur to Vancouver including branches. Tickets on sale December 23, 24, 25, 26 also 30, 31 and January 1 and 2, final limit on all tickets Jan. 4.

HIS FAITH UNBOUNDED

Richard Armstrong on Greenwood's Future

HIGH GRADE MINES HERE

Predicts Large Investments by American Capital.

Richard Armstrong of Chicago is an enthusiast about Greenwood high grade properties. He owns a large interest in the Barbara mine. Mr. Armstrong arrived a week ago, expecting to remain a couple of days, but so much did he find to inspect that he delayed his departure long enough to miss an important Christmas engagement in Chicago. Not a moment of his waking hours was wasted during his stay here. In descending shafts, tracing surface leads or climbing up stopes the Chicago visitor displayed a restless energy that taxed the capacity of his guide and expert adviser, W. H. Jeffery, M. E. Mr. Armstrong wanted to gain first knowledge in order that he might discuss the possibilities of the camp with intelligence based on personal observation. It is safe to assume that Mr. Armstrong's visit will lead to an interesting sequel involving the transfer of several American drafts to a local bank. Before leaving for home he had all the data of the mines and their output at his finger tips. Mr. Armstrong is a great believer in the future of the camp and his enthusiasm stimulated everybody with whom he came in contact.

"I am amazed at the remarkable development now in progress in the vicinity of Greenwood," he observed to the Times. "When I visited here two years ago the Providence and Elkhorn were the only high grade properties that were being opened up and at that period neither attracted especial notice until a few months later. Claim owners themselves did not appreciate the fortunes that were to be made out of the high grade true fissure veins. Reports of an encouraging nature soon began to reach me so I re-visited the camp last June and was delighted at the transformation that had taken place. The possibilities of the camp had then been so clearly demonstrated that I acquired an interest in the Barbara, an investment upon which I can heartily congratulate myself. Now on the occasion of my third visit I find that the number of shippers has doubled in the past six months and that the shipping mines are constantly making additions to their respective payrolls. This is indeed a very encouraging sign, indicating as it does that Greenwood is yet to see more prosperous times than were experienced before.

"If the history of mining camps and countries is any criterion this camp will soon be attracting the attention of mining men and capitalists both of this country and the United States. It is a remarkable circumstance that in every instance where the development of a claim in the high grade belt has been undertaken, a shipping mine has resulted. No other camp on the continent can present the same record of winners. Already it seems settled that no 1500 feet of these true fissure veins, extending as they do six or seven miles north and south, has failed to carry rich ore chutes. Therefore, intelligent work on undeveloped claims in the same belt should produce new shippers without any possibility of failure. The fact that you have now nearly a dozen high grade propositions on a dividend paying or self-sustaining basis . . all accomplished within two years tells its own story. I look for greater achievements, growth and progress in the ensuing two years. The people of Greenwood should feel

Continued on page two.

HIS FAITH UNBOUNDED

Continued from page one.

of their heritage. Money, work and energy will soon make this one of the famous high grade camps of the continent. Greenwood is not as well known in Chicago or the middle west as it should be because the American daily press ignores the growth of the British Columbia mining industry. All that is being done in the way of attracting American capital to this camp is the work of a few individuals, who appreciate Greenwood's mineral resources at their true worth.

"The provincial government could help turn the tide this way if it undertook the publication for general distribution among American newspapers of bulletins giving reliable information of mining progress. A large influx of American capital would follow just as surely as the sun will rise tomorrow. Then the people of British Columbia would witness the same rapid development here that characterized South Africa fifteen years ago when Cecil Rhodes startled the world with the story of South Africa's riches by lavish advertising in the press of London, Paris and Berlin.

"At the St. Louis fair I inspected the mineral exhibit, which included displays by nearly every state in the union, the South American countries and British Columbia. The universal opinion prevailed that the British Columbia exhibit in charge of H. B. Munroe, surpassed all the others both in character and extent. The B. C. samples were larger than those from other countries and were displayed to better advantage. Some of them ran $100,000 per ton and huge pieces of copper ran over 65 per cent. in copper. British Columbia captured 72 prizes out of 85 competitions. Had the same exhibit been made by any American state, the American press would have gone wild and a tremendous boom would have resulted."

TOWN TOPICS

There is some talk of organizing a hockey club.

Sleighs for boys, girls and babies at Smith & McRae's.

Ore is being sacked at the Barbara preparatory to shipment.

W. G. Gaunce is spending the holidays with his family in Seattle.

Ralph Smailes has gone to the coast for the Christmas holidays.

Judge Leamy will hold a sitting of the county court here on Tuesday.

There will be special Xmas services at the Presbyterian church on Sabbath

Mayor Rumberger has been elected president of the Phoenix hockey team.

Mrs. H. V. Fuller is returning from Spokane tonight to spend the holidays here.

Rev. A. H. Cameron, Presbyterian missionary at Sidley, was in town this week.

Don't overlook Webb's chocolates in dainty basket and boxes at Smith & McRae's.

The skip on the Rawhide tram jumped the track again Thursday and was smashed to pieces.

Mr. Hunter, principal of the Kaslo school, is here spending the holidays with his family.

Local merchants report a marked improvement in the holiday trade during the past three days.

Don't worry about the Christmas cake. Call up Jaynes at the Star Bakery and tell him your troubles.

Supt. McAllister, of the B. C. Copper Co.'s smelter, reached home Tuesday after enjoying a holiday in the southwestern states.

Ald. McNeil has returned home from an extended eastern trip. He visited the St. Louis fair and is loud in his praises of the British Columbia mineral exhibit.

In order to enable the public every facility to get their Christmas mail, the wicket at the local postoffice will be open until 9 p.m. Saturday, Christmas eve.

The assortment of cakes, pies and puddings at the Star Bakery for the Xmas trade is the finest ever shown in the city.

We acknowledge the receipt of a package of holly gathered in the gar- of Victoria last week. The ghtfulness of the Victoria Times preciated.

e furnaces at the local smelter anked for about thirty-six hours early part of the week owing to ak-down of the engine that e slag pots.

The Best Xmas Present You Could Give

Would be a Block of Stock in the . . . . **Greenwood-Strathmore Mines, Ltd.**

What would make a more acceptable gift to Wife, Children or a Friend, than some shares in the STRATHMORE. If only two Christmas's ago you had invested in the Providence, Elkhorn or E. P. U. mines, what would your share be worth now? The STRATHMORE has the VALUES, the ORE and the LOCALITY. It is Fortune knocking at your very door, will you hear it? It might be the last time and if you miss it you will have lost your opportunity of being in on the ground floor in a mine which is bound to become a great property.

CALL AT ONCE AND SEE

Frederic W. McLaine,

MINES AND REAL ESTATE BROKER
COPPER STREET, GREENWOOD, B. C.
OPPOSITE POST OFFICE.

FOR RENT.—A three roomed furnished cottage. Apply to F. M. Munn.

There is some talk of running a business men's excursion from Phoenix to Spokane on the occasion of the completion of the Great Northern extension.

H. C. Shaw, barrister of this city, left Wednesday for the Okanagan where he will hold sittings of the court of revision prior to locating in Vancouver. Mr. Shaw will be followed by the good wishes of scores of friends who will miss his genial personality.

There will be no midnight mass in the Catholic church this year. The services on Christmas day will be as follows: First mass, 8 a.m.; second mass, 9:30 a.m.; third mass, 10 a.m.; evening service, 7:30 a.m.

At the entertainment given Thursday night by the Sunday school scholars of the Presbyterian church, Miss Tillie Graham sweetly rendered a vocal solo, "Two Marionettes," and was encored. The other young people acquitted themselves very creditably.

Xmas gifts galore—to suit all purses and all people. We have the goods; you need them. We want to sell—the prices are lower than elsewhere. That about makes a bargain, doesn't it?—Smith & McRae.

Two hundred head of cattle consigned to P. Burns & Co., were driven here this week from Thos Ellis' ranch, Penticton. Nelson and Rossland are being supplied with beef from Greenwood. The local market also shipped a carload of pork to the same points. The hogs were bought in the Anarchist mountain district.

At Monday night's meeting of the city council, on motion of Ald. Caulfield, a resoluion providing that in future the regular meetings be held every alternate Monday, beginning Jan 9th, was adopted.

Dr. C. M. Henderson, Dominion veterinary surgeon, left Wednesday for the coast where he will be operated on for appendicitis. During his absence Dr. Hodwen of Nelson will look after his official duties.

In the Methodist church special Christmas sermons will be preached by the pastor at 11 a.m. and 7:30 p.m. on Christmas day. The musical part of the services may be expected to be of a very interesting nature as special practices have been held for preparation. On Monday night following, the Sunday school children will have their annual Christmas concert which promises to be very good. At the close of the programme the Xmas tree will be unladen to the joy of the juvenile hearts. Admission on Monday night 25 cents. Entertainment begins at 7:30

A Merry Christmas To All

ANNOUNCEMENT

TO THE PEOPLE OF GREENWOOD:

At the request of a number of citizens I shall again be a candidate for Mayor at the elections to be held on the 12th day of January, 1905. I take this opportunity of thanking the electors for their assistance in the past and ask for a continuance of their support and encouragement.

Respectfully,

GEO. R. NADEN.

Corporation of the City of Greenwood

MUNICIPAL ELECTIONS, 1895.

VOTERS' LISTS.

The following persons are entitled to have their names placed on the Voter's Lists for the Municipal Elections for the year 1905, for Mayor, Aldermen and School Trustees of the City of Greenwood.

Any male or female, being a British subject of the full age of twenty-one years who

a. Is the owner of real estate of the assessed value of not less than one hundred dollars, or

b. Is the representative, being a resident British subject duly authorized by the directors of an incorporated company, which is the assessed owner of lands, or of improvements of lands, situate within the municipality, or

c. Is the holder of a trades license, the annual fee of which is not less than five dollars, or

d. Is a householder, who has paid on or before the 31st day of December in the year immediately prior to the day of the nomination, all municipal rates, taxes, assessment rentals, and license fees, which are not chargeable on land, payable by him or her to the Municipality.

Provided, however, that in the case of the holder of a trades license or in the case of a householder, he or she shall, during the month of December, in each year, make and cause to be delivered to the City Clerk a statuary declaration set out in Section 2 of the Municipal Elections Act Amendment Act 1902.

Forms of the said declaration may be obtained at the office of the City Clerk at the City Hall, Greenwood, B.C.

Valises,
Grips,
Fans,
Shopping bags,
Photo frames.
Fine shoes.
Umbrellas.

RENDELL & CO.

BIG PAYROLL.

Local High Grade Mines Employ Over 100 Men.

The payroll of the high grade properties, a thing unknown a few years ago, continues to expand and gives promise of faster growth in the near future. There are easily over one hundred men employed in the various properties. It is safe to say that ninety per cent. of them reside within the city limits. The importance of this payroll from a business standpoint cannot be overlooked. The encouaging feature is that in many instances the next few months will see doubled the working force at various high grade properties; and when one reviews the long list of low grade mines in this vicinity faith in the great destiny of Greenwood as a mining and smelting centre turns to positive conviction. The rich shippers tell their own story; and unless all signs fail the early montns of spring will see a revival in mining activity unparalleled in the boom days.

Below is given a list of the high grade properties, comprising shippers or those that will soon be in that category. In giving the number of men employed the estimate is only an approximate one:

Mine	Men Employed
Providence	35
Elkhorn	14
Strathmore	3
Coronation	3
Combination	4
E. P. U.	17
Barbara	4
Bay	6
Last Chance	12
Skylark	12
Hope No. 2	2
Republic	4
Total	116

An Emergency Medicine.

For sprains, bruises, burns, scalds and similar injuries, there is nothing so good as Chamberlain's Pain Balm. It soothes the wound and not only gives instant relief from pain, but causes the part to heal in about one third the time required by the usual treatment. As it is an antiseptic all danger from blood poisoning is avoided. Sold by all druggists.

BOUGHT "BULL CON."

Phil. McDonald and James Sutherland, owners of the Elkhorn mine, have purchased the E.H., better known as the Bull Con, fraction from J. H. McDonald, of Molson, Wash. The deal was closed this week. The Bull Con adjoins the Elkhorn to the northwest and lies between the Providence and Combination. It is regarded as valuable ground as the claim is traversed by the Elkhorn lead. The new owners are regarded as showing good judgment as the property can be developed from the lower working of the Elkhorn, only two or three hundred feet distant.

Must Be Quick.

Pains in the stomach and attacks of the colic come on so suddenly and are so extremely painful that immediate relief must be obtained. There is no necessity of sending for a doctor in such cases if a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. No doctor can prescribe a better medicine. For sale by all druggists.

CURLING.

At a meeting of the Greenwood Curling club neld Monday night skips were elected and 14 rinks were drawn for the season's play. The list will be published next week. Weather permitting, the first match, president vs. vice-president, will be played Monday commencing at 10:30 a.m.

Buy your Xmas fruit cake and English plum pudding at the Star Bakery.

CUT FLOWERS FOR XMAS.

Mrs. Benard wishes to announce that she can supply, in any quantity, Cut Flowers for Xmas and New Years. Parties desiring same should place their order as early as possible. Call up phone 31.

BANK SYSTEMS COMPARED

A luminous comparison between the Canadian and American banking systems was made by J. B. Forgan, president of the First National Bank of Chicago, at a banquet tendered him at Toronto. Mr. Forgan is exceptionally well qualified to speak with authority. His early banking experiences were gained in Canada. That he displayed aptitude for his career is evidenced by his rise to one of the most eminent banking positions in the United States. Mr. Forgan declared that the Americans have a great many things to learn, and a great many things to do before they can establish or evolve as sound and perfect system of banking as that enjoyed by the Dominion. The worst feature of the American system is that it has led to the establishment of isolated banks, ten thousand in number, each under its own separate and distinct management, and working for its individual profit without regard to the rest. When lulls in progress occur the weakness of the system is more apparent. The people become nervous and frightened. Then the various banks instead of being able to act together and concentrate their reserves for mutual protection do exactly the reverse. Each one acts for itself, the fears of the customers spread to the bankers, and what is known as a bankers' panic results. Besides the bad effects of such conditions in times of financial stress, the Americans are grossly extravagant in the use of cash reserves in ordinary times. With them every shipment is an absolute parting with so much of the cash reserves, and at certain seasons in each year it ties up pretty tight at the centres, while at others they have more money on their hands than they know what to do with. The main advantage Canadians possessed in the opinion of Mr. Forgan was in the combination of the branch banking system with the excellent system of bank circulation, which has sufficient elasticity in it to ebb and flow with the varying [illegible] business necessity.

This is a season when it is well to realize it is from the fundamental unity of life and the normal relations of men in society that our duties flow; for these are the very conditions of social existence. The direction of the process of the world is an upward one. As thought and love in their noble unfolding carry man up to the heights of the spiritual life, these higher qualities of soul are seen to be more precious than anything that has preceded them. They are recognized as the only things that have worth in themselves. Measure the amplitude and elevation of personality, and we see in the wider and deeper emotions of humanity, in man's larger faculties and activities, in his clearer insight, his purer will, his nobler aims, his fuller and higher life, a most wonderful gain in recent centuries. The vision of perfect humanity is yet only faintly discerned. But however poor and crude the ideal of a complete manhood may be, "it keeps the man," as has well been said, "in the pathway of human progress." Duty is the equation demanded by conscience between our actual and our ideal manhood. The moral worth of personality ought to be recognized as something that never ought to be degraded into a means to anything else. It is an end in itself. The ultimate standard of worth is personal worth, and the only progress that is worth striving after, the only acquisition that is truly good and enduring, is the realization of our truer and higher self, in that fulness of powers and elevation of character that constitute the moral perfection to which man instinctively strives. Unless social improvement includes the improvement of the character and inner life of the individual members of the race, it is a sham and a delusion. In the light of modern science, humanity is one vast organism, whose span of life runs back to the very dawn of animal existence upon the earth. We who are now on the stage are not only the inheritors of the past but the trustees of the future. By our unfaithfulness and negligence we can retard and mar the progress of humanity; by our diligence and loyalty we preserve and further it.

The Trail Board of Trade is asking the provincial government to remove the reserve from the land in the Columbia & Western railway reserve lying between Trail and Robson. At present in the territory referred to there is no method of acquiring title to the land, or any legal right to cut timber. It is by such sweeping acts that the provincial legislature has alienated the public domain and given vast tracts to railways, thus retarding the settlement and development of the agricultural resources of the interior. The same iniquitous conditions prevail in the region extending from Christina lake to the Okanagan. All the available land therein has been handed over to the C. P. R. and not a single acre is available for preemption. To make matters worse, irrespective of the blocks already selected, the reserve has been extended to a point sixty mile north of the boundary line. It is high time that the legislature, having regard for the future of the country, should show more concern for the rights of the people than for the clamorous and exhorbitant demands of railway corporations.

According to the returns received by the clerk of the crown in chancery from 203 constituencies lawyers will predominate in the next Dominion parliament. The law will have 66 representatives. Occupations of others include the following: farmers, 24; merchants, 21; doctors, 15; manufacturers, 15; journalists, 10; agents, 4; bankers, 1; brokers, 2; contractors, 1; distillers, 1; druggists, 1; live stock exporters, 1; lumber merchants, 13; millers, 2; miners, 1; notaries, 3; ranchmen, 2; veterinary surgeons, 1, and unclassed, 16.

Great are the agricultural possibilities of the Okanagan district. The tobacco leaf grown there is said to be superior in quality and in great demand by eastern cigar manufacturers. J. A. Inkster, a mining man, recently organized a company in Winnipeg for the purpose of devoting large areas of Okanagan land to the cultivation of tobacco which will be converted into fragrant perfectos.

The Montreal and Boston Consolidated Copper Co. made a large cash payment on the 10th inst. on account of purchase of mining properties. This alone furnishes convincing proof that the company was not involved in the financial difficulties of Munroe & Munroe, the New York underwriters, who had been handling the stock of the copper company.

Hon. J. Israel Tarte, ex-minister of public works, will represent his newspaper, La Patrie, in the press gallery at Ottawa during the coming session. Mr. Tarte's pen is more caustic than his tongue. He will probably take advantage of the opportunity to settle old scores.

Among The Mines

Silver has advanced to 61 1-8 cents per oz.

Free gold was encountered the other day in the south drift of the Strathmore.

A strike of tellurium was recently made in the Opal mine near Chesaw, Wash.

It is reported that the Skylark mine is to be capitalized for half a million dollars.

The owners of the Sudbury claim in Deadwood camp will shortly make a carload shipment.

The Montreal and Boston Co. is about to start work on the Idaho claim one of its Phoenix properties.

President J J. Hill of the Great Northern, is reported to have advised the purchase of Granby stock around $5.

The Boundary Falls smelter has abandoned the former method of granulating the slag and is now dumping it hot.

Operations on the June Bug, on the west side of Boundary creek, a mile below Anaconda, will be resumed next month.

The Rawhide commenced shipping ore to the Boundary Falls smelter last Tuesday. It will maintain an output of 300 tons daily.

J. W. Nelson of this city has sold a three-twentieth interest in the Silver [illegible] Skylark camp, to Geo. W. Rum[illegible] of Phoenix.

The Last Chance shipped another carload of ore to Trail this week. Mr. McVicar is making good his promise to mine five tons daily.

A deal for the acquisition of a well known group in Deadwood camp is impending, but, by request, details are withheld for the present.

The Brooklyn mine at Phoenix is now providing 300 tons of ore daily.

The E. P. U. mine shipped two carloads of ore to the Trail smelter this week.

There are about 8000 tons of zinc ore mined and milled lying around Sandon awaiting purchasers and another 5000 tons are lying at the Kaslo sampler All this ore is of good grade.

The second furnace of the Boundary Falls smelter was blown in this morning. This will give the plant a treatment capacity of 700 tons daily. The third furnace will be in operation early next month.

The lower workings of the Goldfinch were cleaned out this week preparatory to the early commencment of operations next month The property was recently acquired by Mark F. Madden, of Chicago.

Extensive mining operations will be carried on next year at the Sullivan group of mines. With the smelter at Marysville blown in, the aerial tram in operation, the output of the mines will be from 150 to 300 tons daily.

The Imperial Coke and Cole company have been opening up their coal areas on the Fording river. Should the C. P.R. build a branch to its own colleries in that vicinity, the company may be expected to put in its own spur and thus have connection with the outside world.

The Southeastern Kootenay Coal and Petroleum company is the name of an organization which has been formed to work coal and oil lands in East Kootenay district. The company has taken an American charter, and is capitalized at $250,000 in 1,000,000 shares of 25 cents each.

J. Cuthbert Welch, superintendent of the Boundary Falls smelter, was elected a member of the council of the B. C. Institute of Assayers at a recent meeting held at Rossland. A scale of minimum assay charges was adopted and recommended by the institute for use throughout the province.

At Enderby, Okanagan district, a local syndicate has applied for a tract of 10,000 acres where a discovery of coal was made two months ago and has since been prospected, a seam of bituminous coal of good quality between four and six feet in thickness having been uncovered.

Alex. Robinson has sold his interest in the bond on the Silver Cloud to his partners, C. Johnson, J. McCreath and F. A. Smith, who are making arrangements to resume development work. The property is one the most promising claims in Skylark camp. It has a 40 foot shaft sunk on the lead. The last shipment ran $120 per ton.

L. A. Manly of Grand Forks inspected a number of high grade properties here this week. Mr. Manly was favorably impressed with the Helen and Barbara and expressed himself as enthusiastic respecting the future of the camp. He declared that Grand Forks possessed similar propositions but that they were unfortunately covered by the heavy wash in the valley.

The Ah There in Deadwood camp will soon enter the shipping list. Jack Lucy and Geo. Leyson on Monday started up the plant and unwatered the mine. It is the intention of the company to extract ore from the 100 foot level. The Ah There is regarded as a property of great merit. It has a 240-foot shaft and several drifts. Messrs. Lucy and Leyson are large shareholders in the company.

The Bay mine will make a 35-ton shipment to the Trail smelter about New Year's. H. V. Fuller, one of the owners, feels confident that it will net higher returns than any carload lot hitherto shipped by any of the high grade mines. A recent assay of Bay ore, which did not contain free gold, ran $482 per ton. The force at the mine will soon be increased. A new shaft is now being sunk on the same lead that has been opened up in the tunnel and winze. Although a depth of only a few feet from the surface has been attained in the shaft the vein looks very strong as the quartz contains free gold and tellurides.

Machinery is being hauled to the Betts and Hesperus mine on Hardy mountain. The boiler for the air compressor has already been placed on its foundation, and other portions of the plant are rapidly being placed in position. The work of erecting a boarding house, office and compressor buildings at this property is progressing favorably, and it is expected that they will be completed in two week's time. Eight men are now employed at the mine on development work. This force will be increased when the new machinery is placed in commission.

OUR GIFT HARVEST

Our Holiday Stock of Gift Jewelry awaits your inspection. You will wonder at its variety, its freshness and its scope. It bristles with suggestions of correct "giveable" things—gifts to suit all tastes, all purses and all circumstances.

WATCHES from the dainty, diminutive timepiece of novel design to the finest standard makes.

Diamonds in every size and variety. Pins, Rings, brooches, etc. Should you contemplate gift purchasing, and during the next few weeks who will not? Drop in. Our goods will satisfy you, so will our prices.

LOGAN & CO.

YALE-CARIBOO.

Official Count Gives Duncan Ross, M.P., a Majority of 161.

Yesterday the two ballot boxes which two of the deputy returning officers in Grand Forks riding had failed to send in on time, arrived and returning officer O'Hara set about his task of making the official returns. The result of the count shows that out of 6,906 names on the voters' list, 4,348 votes were cast. Of these M. Burrell received 1,850, E. Mills 487, and D. Ross 2,011, giving a majority of 161 for Ross. There were 24 rejected and 48 spoiled ballots.

The returns in the several ridings show a liberal majority in all except Lillooet and Grand Forks.

	Burrell	Mills	Ross
Cariboo	153	11	164
Lillooet	142	4	98
Yale	140	8	174
Kamloops	382	25	422
Okanagan	509	47	530
Similkameen	126	49	192
Greenwood	140	180	232
Grand Forks	261	163	199
Total	1850	487	2011

The returning officer made the official declaration of Mr. Ross' election and the writ was returned to Ottawa last night.—Kamloops Sentinel.

Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mrs. J. S. Egleson of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip."

It is a good plan to take a dose of the Tablets when you have a cold. They promote a healthy action of the bowels liver and kidneys which is always beneficial when the system is conjested by a cold or an attack of the grip. Sold by all druggists.

The latest creations in Chinaware at prices that will delight you as much as the goods.—Smith & McRae.

AWARDED DAMAGES.

Judge Leamy acted as arbitrator at Grand Forks last week in the claim of Henry W. Munro for damages against the Granby company. Munro is a miner and broke his leg by the falling of the cage in No. 1 shaft of the Old Ironsides mine last April. After hearing the evidence the judge awarded Munro compensation equal to eight months' salary. A. M. Whiteside of this city represented Munro and D. Whiteside of Grand Forks acted on behalf of the Granby company.

Books for old and young, the latest and best the world affords at Smith & McRae's.

TUNNEL AND STOPE

The Canadian Mining Institute is renewing its attempt to get a department of mines with a minister of the Ottawa cabinet at its head. British Columbia members of that institute are personally wielding whatever influence they may possess in getting that portfolio attached to this province. Three years ago a deputation of the Canadian Mining Institute, fifty strong, after the passage of a strong resolution the institute waited upon the Ottawa government urging the claims of the mining industry, outranked by none in importance in the Dominion, to a separate portfolio. It was argued in rebuttal that the work of such a department was already accomplished by the geological bureau and that there should be no idea entertained of superseding this bureau in favor of a mining department in view of the excellent work it had accomplished and was accomplishing. The deputation pressed their request strongly, nevertheless, on the grounds that there was no intention of interfering with the work of geologists. That work was admitted to be of great service to the country, but after all it merely dealt with the mining conditions from a scientific point of view, whereas a minister of mines would deal with mining from the industrial and economic conditions. The geological bureau would be a valuable addition to this department and would be of the utmost service to such a minister.

BOUNDARY VALLEY LODGE No. 38, I. O. O. F.

Meets every Tuesday Evening at 8:00 in the I. O. O. F. Hall. A cordial invitation is extended to all sojourning brethern.

G. R. NADEN, N. G. FRED B. HOLMES, Rec.-Sec.

Comfortable Living

WITH A

Chatham Incubator

Poultry raising with a Chatham Incubator is a very profitable and easily managed occupation. Unless you want to go into it extensively it need take but very little of your time. Government reports show that the demand for chickens in Canada is greatly in excess of the supply and Great Britain is always clamoring for more. That means a steady market and good prices for chickens.

You cannot raise chickens successfully with a setting hen. She is wasting time setting when she should be laying. While she is hatching and brooding a few chickens she could be laying five or six dozen eggs. The percentage of chickens she hatches is much less than that produced by the Chatham Incubator.

It will pay you to own a Chatham Incubator.

Chatham Incubators contain every improvement of importance in Incubator construction that has been produced. They are made of thoroughly seasoned wood, with two walls, case within case. Between these walls mineral wool is packed forming the very best insulation. Each piece of the case is mortised and grooved and screwed, making the whole as solid as a rock. Chatham Incubators are equipped with scientifically perfect regulators which are an infallible means of regulating the temperature.

No cash to pay until October, 1905.

We will start you raising poultry for profit with a Chatham Incubator without one cent of money from you until next Fall. That means that you can take off seven or eight hatches and make considerable money out of the Incubator before the first payment becomes due.

We couldn't make this offer if we were not certain that if you accept it you will get complete satisfaction, if we were not positive that the Chatham Incubator will pay you a handsome yearly income.

This is a straightforward offer. We make it to show our supreme confidence in the Chatham Incubator. We want you to accept this offer as we are sure of the satisfaction our Incubator will give. Every machine we have put out so far has made other sales in the same neighborhood.

Our offer is to send you a Chatham Incubator at once, freight prepaid by us without one cent of cash from you. You make your first payment in October, 1905. The balance to be paid in October, 1906, or if a Cash Buyer you get it cheaper. Could any offer be fairer or more generous?

SMITH FALLS, ONT., November 19th, 1904.
The Incubator and Brooder that I bought from your agent, on time, I wish now to pay the whole amount this fall, if you will give me a discount. I am very much pleased with both Incubator and Brooder, and would not be without them, because I cleared this season, more than the Incubator and Brooder cost me.
Yours respectfully,
MRS. W. HYSLOP.

Write us to-day for full particulars of our offer and mention this paper. Don't put it aside for another time as this special proposition may be withdrawn at any time.

GROWING LARGER

Pay Chute in Strathmore 6 Inches Wide.

VALUES ALSO IMPROVE

First Shipment of High Grade Ore Will be Made Snortly.

The greatly improved appearance of the lead in the south drift of the Strathmore mine in the north belt has caused the local shareholders to rejoice. The quartz vein averages over six inches in width and contains the best looking ore yet encountered in any of the workings. A shipment will be made to the Trail smelter before the end of the month. It promises to average over $120 per ton.

At the bottom of a 60 foot shaft sunk on the vein, the occurence of a fault led to the driving of a 60 foot crosscut at the end of which the lead was again found in place. At the 50 foot level drifts were run north and south on the vein 20 feet and 60 feet, respectively. From the former drift ore running $100 per ton was stoped out up to the surface. In the other drift good progress is being made. Sixty feet of additional drifting will bring the level to a point directly underneath the open cut on the surface whence four and one half tons of rich ore were extracted by the former owners. A crosscut tunnel farther down the mountain and in 220 feet will tap the lead when extended an additional 60 feet. This will provide 150 feet of stoping ground. The outlook for the Strathmore is indeed encouraging and the confidence of its owners promises to be richly rewarded at an early date. A parallel lead farther up the hill has not yet been opened up. It presents a good showing on the surface. The Strathmore is located on promising ground as it is only separated by one claim from the Providence, the high grade dividend payer.

Development work is in charge of C. Scott Galloway who is accomplishing results with due regard for economy. The Strathmore is owned by a joint stock company with a capital of $150,000.

The forthcoming shipment will comprise ten tons of $130 ore. During the present week Mr. Galloway assayed samples from the second grade ore and to his surprise got an average return of $106.57 per ton. The values were gold $20.80, and silver $85.77.

The meeting of the British Columbia Live Stock Association which is called for Jan. 4th at Kamloops, should be attended by every man in the interior who is interested in the cattle industry. There is much to be gained by both buyers and sellers from a system of association which can be made of mutual benefit. Large owners, small owners, drovers and dealers in British Columbia all have interests which are mutually inter-dependent and by combination these interests will all receive their just recognition.

Are you going to make the usual New Year's resolution?

"Surprise No. 3" Mineral Claim, situate in the Greenwood Mining Division of Yale District. Where located: In Skylark camp.

TAKE NOTICE that I, F. W. Groves, Free Miner's Certificate No. B 72155 intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificates of Improvements for the purpose of obtaining a Crown Grant to the above claim.

And further take notice that actions, under section 37, must be commenced before the issuance of such certificates of improvements.

Dated this 22nd day of October, 1904

F. W. GROVES

NOTICE OF FORFEITURE.

TO Robert Henry Bergman and Frederic W. McLaine, or to any persons to whom they may have transfered their respective interests in the "Last Chance" and "New Oro Fino" Mineral Claims, situate in the Greenwood Mining Division of Yale District.

YOU are hereby notified that I have expended the sum of $133.33 (one hundred and thirty three dollars and thirty three cents) for assessment work on above mentioned claims, such being required and necessary to hold the same for the year ending 21st June, 1904, under the provisions of the Mineral Act and Amending Acts, and if at the expiration of ninety days from the date of the first publication of this notice in the "Boundary Creek Times" you fail or refuse to contribute your portion of such expenditure namely $25.00 due by you Robert Henry Bergman and $20.40 due by you Frederic W. McLaine, together with all costs of advertising, your interests in said mineral claims shall become vested in me (your co-owner) upon filing in the proper office in that behalf the affidavit required by section 4 of the "Mineral Act Amendment Act 1900."

Dated this 7th day of November, 1904.

MARIAN ATWOOD.

NOTICE.

NOTICE is hereby given that all creditors and persons having claims against the estate of the late Adolphus Ferguson, who died on the 9th September last, 1904, are required on or before the 21st December, 1904, to file a statement giving full particulars of their claims duly verified, the statement of their account and the value of their securities (if any) held by them.

And further take notice that after such last mentioned date the Administrator will proceed to distribute the assets of the said deceased amongst the parties entitled thereto having regard only to the claims of which he then shall have notice and that the said Administrator will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated this 14th day of October, 1904.

T. H. PATERSON, Greenwood,
Administrator of the estate of the late Adolphus Ferguson, deceased.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5 00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date. Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged, the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each seperate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

JAMES A. SMART,
Deputy of the Minister of the Interior.

TOWN TOPICS

Grand Forks has a new skating rink.

L. A. Manly of Grand Forks was a guest at the Imperial this week.

J. McNicol, of Midway, spent several days here this week, a guest at the Imperial.

Smith Curtis, managing director of the Oro Denoro, was here this week on mining business.

Alex. McQueen, representing the Inland Cigar Co., called on his numerous customers this week.

Fred Starkey, of Nelson was here Tuesday. He reports business very good in all the Boundary towns.

A dividend of five per cent., amounting to $2000, was recently declared by the Phoenix Electric Light Co.

E. J. Wilson, formerly in charge of the Northport smelter, was a visitor here this week.

A. N. Pelly, who recently returned from England, is visiting friends in Vernon.

The Phoenix Pioneer will issue a profusely illustrated holiday edition early in the new year.

C. A. DesBrisay, right of way agent of the Great Northern was a visitor here early in the week.

Richard Armstrong of Chicago and Alex. Miller of this city on Wednesday inspected the big mines at Phoenix.

LeB. DeVeber, late local manager of the Bank of Montreal, left Tuesday for Nelson to assume the position of the bank's agency in that city.

E. S. J. Howley, a New York chartered accountant, is here making an annual audit of the books of the British Columbia Copper Co.

James Petrie, formerly in charge of the compressor plant at the Mother Lode mine, arrived here Tuesday from Moyie in order to spend the holidays with his family. Mr. Petrie now performs the same duties at the St. Eugene mine.

Mark F. Madden, who is interested in the Providence and Goldfinch mines will visit Greenwood early next month.

Mrs. Edna Abbott, late of Phoenix, was married recently at Coleman, Alta., to M. C. Davidson, late of Grand Forks.

The Nelson Board of Trade has asked the Dominion government to rearrange the duties on lumber in order to enable British Columbia sawmills to meet American competition.

Duncan Ross, M.P., received this week from Daniel O'Hara, returning officer, a certificate of his election as member for Yale-Cariboo and an intimation that the writ had been returned to Ottawa.

W. T. Clark, principal of the public school, is spending the holidays in Nelson. At the closing exercises last Friday the pupils of his division presented Mr. Clark with a beautiful Morroco bound volume of Shakespeare.

Francisco Fera is being tried at Grand Forks for perjury. This prosecution, which was ordered by Judge Leamy, grew out of the suit of Tony Scarpelli vs. Francisco Fera, tried in the county court last week, and which involved the ownership of mineral claims near Phoenix.

There promises to be a large attendance at the ball to be given under the auspices of Greenwood lodge, No. 29, Knights of Pythias, in the Masonic hall on Monday night, January 2nd. Supper will be served by the ladies of St Jude's Episcopal church.

Everything points to railway construction west of Midway in the spring. Despite the lateness of the season the Great Northern surveyors are still in the field. They are now making the location survey, working east from Oro towards Midway.

The fourth annual holiday number of the Anaconda News presented a very creditable appearance. Typographically it was superb, while the letter press and illustrations could not be excelled. Master Keffer, the precocious editor, is entitled to hearty congratulations.

On Thursday, Dec 15th, there was a quiet wedding at the residence of Mr. E. M. Cudworth, Sidley, B. C., when Mr. Arthur D. Kean, Chesaw, Wash., and Miss Jennie A. Cudworth, Sidley, entered into partnership. The Rev. A. H. Cameron was the officiating clergyman.

Alex. McQueen, traveller for the Inland Cigar Co., has purchased the stock and business of W. H. Dowsing, retail cigar and tobacco dealer, Nelson, and will carry on the business. The genial Alex will retain his position with the manufacturing company.

J. A. Marcil, who has been acting as relieving clerk at the local branch of the B.N.A., left Wednesday for Montreal on a visit to his parents. Mr. Marcil made many friends during his stay in Greenwood. Until September last Mr. Marcil filled an important position in the service of the same bank at Dawson, where he spent three years. In the Yukon he had some thrilling experiences, the recital of which proved very interesting.
