Vol. 10 GREENWOOD, B. C. FRIDAY, MAY 2, 1902. No. ~~36~~ 34

IS HOME AGAIN

Mr. Godenrath Returns to the Boundary.

TELLS OF HIS TRIP EAST

Interest in General Regarding the Boundary.

After an absence of nearly four months spent in eastern Canada, Percy F. Godenrath returned home on Wednesday. His mission east was on behalf of W. H. Covert of Grand Forks in connection with the c olonization of his ranch which had been divided into 10 acre plots. Speaking of his trip Mr. Godenrath said: "I was successful in interesting people in investigating the possibilities for diversified farming and fruit raising in the Kettle River valley, and as a result a number will come out this summer. One or two families have already arrived at Grand Forks and taken up land--people whom I was personally instrumental in sending west. Little by little, as the resources of the valley become known, there will be a large population which must contribute to the general prosperity of the Boundary district."

Speaking of Toronto and Montreal he continued. "In Toronto I found considerable money ready to acquire coal and timber lands but little for metal mining. The Similkameen coal basin had attracted great attention, due principally to favorable reports made by Wm. Blakemore, M. E., formerly superintendent of the Crow's Nest Coal company. Mr. John D. Edwards, a financial agent of that city was most successful in floating the Ashnola Coal company, owning a group of eight claims in the heart of the coal basin. This undertaking is now financially able to start operations and it is reported will join forces with the Similkameen Valley Coal company in the exploitation of their respective holdings with the aid of a bore drill. This drill is now en route to Princeton. I found also that much interest was being manifested in the timber resources of the province and that enquiries were being made with a view to acquiring vast holdings.

"Montreal is closely following the commercial success being achieved by the Granby Consolidated company. Mining operators in that city have been badly bitten in other camps, but have faith in the future of the Boundary. When the time comes for the Granby to pay dividends—and I can assure you that it is fast approaching I believe that Montreal will come to the front to acquire and develope mines in this section. The acquisition of the Standard Pyritic smelter by the Montreal & Boston Copper company, owning the Sunset mine, has also had its good effects back east. From the time the smelter starts operations, its history will be as closely followed as is the case with the Granby company. I must say I was agreeably surprised to find how well posted were eastern operators on Boundary mines, tonnage and ore contents. The fact is that to obtain absolutely reliable news one has to go to headquarters—and most cases they are in the east.

"Conditions throughout the older provinces are exceptionally prosperous. Much money has been made on the exchanges, especially in "rails" and "industrials", in fact there has been a healthy upward tendency all along the line" he concluded.

Mr. Godenrath expects shortly to "hit the trail" again in the direction of Princeton.

WEST FORK.

The West Fork country ought to make much progress the coming summer. In addition to government appropriation for a wagon road, there is what appears to be a well-authenticated report that that region will enjoy railway building as well. Those who claim to know state that a survey party will be in the field within a few days.

ODD FELLOWS ANNIVERSARY.

The Odd Fellows of Greenwood and vicinity celebrated their 83rd anniversary of the order by assembling at divine service in the Presbyterian church on Sunday evening last. Dr. MacRae's sermon was appropriate to the occasion. Special music was provided. Societies which thus publicly participate in worship of God need no better commendation.

ODD FELLOWS DANCE.

Nearly 100 people enjoyed the dance in Odd Fellow Hall Tuesday evening last. It was well along towards morning before the merry makers left the hall. The committee in charge have reason to congratulate themselves on the success of the affair.

New goods direct from Great Britain just arrived at Mitchells the Tailor.

ODD FELLOWS

Anniversary Services at the Presbyterian Church.

WAS AN ELOQUENT SERMON

Rev. Dr. MacRae Address To Odd Fellows.

The sermon by Dr. MacRae Sunday evening last was based on the text I Peter 11-17.: "Love the Brotherhood, Fear God." After indicating the difference between craven fear and holy fear, the sinner's fear and mistrust of God and man, the christians reverence and trust in the Father, the preacher spoke of the claims to be based on the two great christian truths—the Fatherhood of God and the Brotherhood of man. These principles are writ large in its legends, its ritual, and its instruction. Resting on this foundation, it aims to lead men out of darkness and mistrust into light and love. It is the part of the true Oddfellow, not only constantly to keep in mind his responsibility to God and his duty to man, but also to lead and instruct others by his life and example, his word and conduct. Oddfellows are, and are to be, members one of another, not bound in the chains of patriotism, conviviality, or self-interest, but by the links of Friendship, Love and Truth.

The preacher dwelt upon the beauty of these virtues and then turned to consider the relation of the great and good secret societies to the Church of Christ. He spoke in part as follows:

The altar of the great secret societies has been termed one of secrecy and obligations; that of christanity, consecration and communion. The former teach morality, the latter requires spirituality. Can Oddfellowship save a man? No. Can churchmembership save a man? No! The great Teacher has said "Except a man be born again" "except a man be born of water and of the spirit, he cannot see (or enter into) the Kingdom of Heaven.". Morality has to content itself with telling man what it is right to do, christianity undertakes to make men disposed to do it. Conscience doth make cowards of us all, not because sin, which has washed the earth with tears and deluged it with blood, is due merely to ignorance, but because it is due to a bad moral disposition. Moral teaching might dispel the former, naught but the spirit of God, the divine power and energy, as it was and is in Christ, can avail to enable man to be rid and delivered of the latter.

Men and brethren go to church, God's dwelling place, to learn these things—that the flesh cannot produce spirit. The flesh has no life in itself; if it had, it would not corrupt and die. it is the spirit that giveth life." It is the spirit, the life and strength of God, that can make Friendship, Love and Truth, the rule, where it is now the exception (if that) in our lives.

This spirit, the spirit of meekness and love was in Jesus Christ. Let this mind and spirit be also in us. Find it, by the grace of God- a place in us, then are we regenerated. Finds it not how can we fear God and love the Brotherhood? I pray God we all may be possessed of this spirit, till, passing beyond the stages of impulse, appetite and passion, we all, by God's grace, attain unto "the unity of the Faith and of the knowledge of the Son of God unto a perfect man, unto the measure of the stature of the fulness of Christ." AMEN.

FREE PASS BILL.

In sympathy with one of the planks in the platform of the Progressive Party recently formed at Kamloops, Hon. Smith Curtis has introduced a bill into the provincial legislature providing that every railway company operating a railway for the transportation of passengers within British Columbia shall issue and give free transportation within the limits of the province, as first-class passengers, on all cars and trains carrying passengers to the following persons: To every member of the legislative assembly, and, in case of dissolution, for three months thereafter, to every one who was a member at the time of dissolution, to every judge of the supreme and county courts of the province, to the surveyor of taxes and inspector of revenue, and to the assessor of taxes of the province. It further provides that where a railway company owns, operates or controls steamboats or steamships, plying within the waters of British Columbia, or waters adjacent thereto, it shall give transportation to all of the aforesaid classes of persons on such vessels.

The act further provides for an annual report by every road of all passes given during the year and the reasons for which given.

BURGLARY AT EHOLT.

Two men, named Hayes and Stewart were arrested by the provincial police in Greenwood Monday morning charged with having broken into the store of W. T. Torney the preceding night. Word was telephoned to Greenwood from Eholt and the men were promptly nabbed on entry to town. Sufficient evidence was forthcoming on trial before Judge Arthur Rendell to warrant their being sent up for trial before a higher court. The men elected to be tried before the assizes of the supreme court to be held here May 19th.

OF LOCAL INTEREST.

The May number of the Canadian Magazine contains some articles which are of considerable local interest. Miss Agnes Deans Cameron of Victoria has a brief illustrated article on the Lost-Sloop-of-War Condor, Harold Sands of Vancouver tell a very interesting story dealing with Spanish Mis-rule of British Columbia. Mr. F. C. Wade has a very interesting article, entitled, Business Talk on the Yukon. and Mr. John Nelson contributes a readable sketch on Senator Templeman.

EXCURSION AND BASE BALL.

An excursion under the auspices of the Citizen's Band, will be run to Midway, Sunday next, leaving Greenwood at 1 o'clock and returning at 5:30.

There will be a base ball match between the Midway and Greenwood club The following will be the Greenwood line-up, under cpataincy of George Miller: Parker, pitcher; Smith, catcher; Dill, 1st base; Wilson, 2nd base; McCreath, 3rd base; Frith, left field; Saunders, centre field; Medill, right field; Miller, short stop.

CHURCH OF ENGLAND.

Next Sunday, May 4th, the services in St. Jude's hall will be taken by the Rev. F. H. Graham, the rector of S. Saviour's Pro-Cathedral, Nelson, B. C. Mr. Graham is a graduate of McGill university, and of the Montreal Diocesan college. He was for five years rector of Trinity church, Montreal. He is an extremely able and gifted preacher, and has succeeded in the few months he has been at Nelson in doing a very remarkable work for the church. The Rev. W. A. Robins will be absent next Sunday at Nelson.

COMMENDABLE.

The friends of Samuel Morris an old-timer who is sick, have been busy the last few days in making up a purse for him in order to enable him to seek a warmer climate where he may hope to recover from his illness, The object is commendable and the response hearty.

"BETTER TO BEAR THE ILLS."

Fungus went to see the Providence mine and straightway got funny. "Talk about going to Thunder Mountain, indeed" said he, "to my mind 'twere better to bare the 'ills they know than to rush to mountains they know not of.

New goods at reduced prices at Mitchells.

THE GOLD FINCH

A Rival for Honors With the Providence.

A PROMISING PROSPECT

The Lead a Strong One And Assays High.

Within a half-mile of the city hall a very promising prospect is being opened by Messrs. Sutherland and McDonald. The claim is already in the race for honors with the Providence. It is the old Gold Finch which mining men have prophesied would develop into a mine. Last autumn while prospecting the hill just east of town Jas. Sutherland come across some very fine looking float which upon assay proved to be very rich in gold and silver values. As soon as the snow had left this spring he set to work to find the lead and succeeded presently in locating it. Associating with himself Philip McDonald he secured a lease and bond on the property, the Gold Finch, and recently went to work exploiting the claim. They have exposed the ledge for about 300 feet, running nearly north and south. The lead will average a foot in width and several assays made have returned from $50.00 to $75.00 in values. The rich find in the Providence has stimulated interest in this locality. Several rich leads have for a long time been known to exist along this mountain but outside of shipping out a few tons of high grade ore little development has been done.

The Crescent, Defiance, Strathmore and other claims have produced small lots of very rich ore, but until the recent strike on the Providence little interest has been taken in the small ledges of the camp. As a supplement to the great bodies of low grade ores these smaller high grade properties are very gratifying to the entire camp.

THE TIME TO CLEAN UP.

The medical health officer wishes to call attention to the need of cleaning up all back yards and vacant lots upon which rubbish has been thrown. Clean, dry back premises now that the sun is beginning to have power will save decomposition of vegetable or meat offal and promote a better bill of health during the summer. It is scarcely necessary to point out that typhoid fever and other diseases are caused by decomposing animal matter. Therefore whatsoever can be destroyed by fire should be burnt. The inspector of nuisances, Mr. A. D. Hallett, will give information as to the disposal of old cans and other indestructible articles.

50 Pants patterns to choose from at Mitchells.

LACROSSE IN ENGLAND.

The Canadian boys won the lacrosse match with the Duke of Argyll's team Saturday last in the presence of His Majesty King Edward. Score ten goals to three in favor of the Canadians.

REWARD.

Wanted to know the whereabouts of David Henderson of Greenwood, B. C. Last heard of December, 1901. Reward given by communicating with T. H. HENDERSON, Fairview, B. C.

FOR RENT.

3 or 6 rooms partly furnished for housekeeping, Silver street, Fisher's addition, formerly occupied by Frank Miller. Enquire on premises of Miss Brooks.

$5.00 buys the 50 egg Incubator at the O. I. C. 2nd Hand Store.

CARD TO THE PUBLIC.

GREENWOOD, B. C.,

MAY 1ST, 1902.

DEAR SIR:

On the first day of next month the firm of T. M. Gulley & Co., will be dissolved by mutual consent.

In view of the circumstances we are obliged to ask all parties now indebted to us to make payment before such date and we beg you to call and arrange the amounts now owing by you.

After June 1st all outstanding accounts will be handed to our attorney for collection.

Trusting that you will give this matter your immediate attention, We remain,

Yours truly,

T. M. GULLEY & CO.

ATHLETIC GROUNDS.

It is a great pity that provision was not made in the earlier days in Greenwood, when land-values were low, for good central athletic grounds. The reservation of a block of land for that purpose near the centre of the town would have been a wise provision. There appears no good reason why such a course would not have been justified. If such grounds existed today down on the flat in the vicinity of the steam laundry they might be made the source of daily healthful recreation and the scene of weekly pastimes that would be very attractive. All about us are many men off shift on Saturday afternoons, say, who would gladly avail themselves of an opportunity to take part in and to patronize such events.

A town like Greenwood dependent upon industries employing large bodies of men, owes it to herself and to her patrons to provide such amusements. Greenwood's central position would make it the common point for athletic contests of all kinds between teams from the Mother Lode and Sunset, Greenwood and Phoenix; Eholt and Midway, etc., in addition to home contests whether in base ball, lacrosse, tugs-of-War, etc. A city makes no mistake in its early history in providing for public parks and such recreation grounds as suggested. The present athletic park is much too far out to be attractive and if some means could be devised to provide for good central grounds the same would prove a good investment for the town.

ONE WAY TO KEEP "ABOVE WATER."

The Miner Gazette says: "While Greenwood is figuring upon what is the best thing to be done to keep above water and get ready for the rush that that is expected in this country within the next few months, Grand Forks, with its usual progressiveness has gone ahead and got ready."

The balance sheet of the city of Grand Forks shows that with the end of 1901, that city had issued debentures amounting over $207,000 of which $22,000 were on hand, a neat debenture debt outstanding of $185,000.

Greenwood's debt is less than half that or $90,000. Some day Grand Forks may be figuring in a very realistic way as to how to "keep above water."

There is progressiveness that is not progress, and there is a going slow that is ultimate haste.

RETURN FROM VICTORIA.

Delegates Smailes and McIntosh who went to Victoria recently to interview the government in connection with matters of interest to the welfare of Greenwood and the Boundary, returned last evening.

They report themselves delighted with the reception accorded them by the members of the government. They were treated with every courtesy and the several matters they had in hand were gone into very earnestly and carefully by the different members of the executive.

They found the government's action hampered in many ways by an extremely factious opposition in the house, and believe the former anxious to do all it can for the general welfare of the country.

THE V. V. & E. RAILWAY.

We are able to add another chapter to our tabulated history of the V. V. & E. as submitted last week. The court has again dissolved the injunction against the road obtained by the "hot air" people and the contractors are once more at work. There remains but one other chapter to add to complete our table and that will read something like this: The V. V. & E. railway bill passed its final reading by the house of commons and becomes law. Then will follow the climax of the story—the road builds to Phoenix via Boundary Creek and Greenwood becomes its headquarters.

A NEW INDUSTRY.

The Canadian Smelting Works at Trail will early in May have their lead refinery in full operation. Already they have demonstrated the successful working of the plant. This is the only silver-lead refinery in Canada and the product already turned out proves to be the highest grade of lead, free from impurity, and admirably adapted for the manufacture of paints.

It is too bad that the Dominion government will not take steps to foster this infant industry with a measure of protection equal to that extended other similiar classes of products. This mountainous part of British Columbia lives largely on protected goods, and feels that it has a right to ask protection for this the only product demanding protection. We consume large quantities of eastern Canada protected goods and feel that if the principle is at all right here is a fair justification most apparent. Moreover it is believed that the demanded increase in duty will not add to the cost to the consumer. At present British Columbia lead ore is marketed abroad, largely at Antwerp, where it is converted into white lead and returned to Canada. The added tariff charge would not be greater than this double freight rate across to Europe and return, but the tariff would save the market to Canada.

Public meetings are being held in the Kootenays praying the government to take action in the matter.

EDITORIAL CHAT.

The Rossland Miner and Spokesman-Review appear to have been rubbing it in a little in regard to that "hot-air" celebration and last golden spike business.

The Deputy Minister of Agriculture in a recent report on dairy farms surroundings speaks highly of the healthful conditions in which he founds the "byres." Byres mind you.

"I'll away, I'll away to the promised land" is the grand chorus so many Americans are joining in this spring as they make ready to take up the fertile lands of Manitoba and the North west.

Like the man with one side packed in ice and with a huge mustard plaster on the other, Nebraska recently was complaining of the blizzard freezing the life out of everything on one side of the state and the hot wave scorching every green thing on the other.

According to reliable data 44,000 people have settled in the State of Washington already this spring. The people and capital of the east follow the lead of men like Mr. Hill who are doing so much and so successfully to exploit Washington.

Nobody can blame the C. P. R. for not wanting to divide up the three-quarters of a million a year say, it is getting out of the infant mining industries of the Boundary, nor can any one blame Mr. Hill for the desire to get his finger in the pie.

It cost New Brunswick just $22,273.37 to entertain the Prince and Princess of Wales 18 hours last summer—a trifle of $20 a minute. The real thing comes high.

PROVINCIAL SECRETARY'S OFFICE,

His Honour the Lieutenant-Governor has been pleased to make the following appointment:

14th April, 1902.

AINSLEY MEGRAW, of Camp McKinney, Esquire, J. P. to be a Deputy Mining Recorder for that portion of the Kettle River Mining Division situated on the Upper West Fork of Kettle River, with Sub-Recording office at Beaverdell.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday the 30th May, for the conveyance of Her Majesty's Mails on a proposed contract for four years, twelve times per week each way, between the Greenwood Post Office and Columbia and Western Railway station, from the 1st July next.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the Post Office of Greenwood and at this office.

NOTICE OF FORFEITURE.

To

George D. Edwards, and to any person or persons to whom he may have transferred his interests in the "Uncle Sam" mineral claim and "First Chance" mineral claim, both situate in Skylark Camp in the Kettle River Mining Division of Yale District, British Columbia.

You are hereby notified that I have caused to be expended $205.00 to hold the said mineral claims under the Mineral Act, that the proportion you should contribute for your undivided one-third interest in each of the above claims is $68.33, and if within ninety days from the first publication of this notice you fail or refuse to contribute the said sum of $68.33, which is now due, with all costs of advertising, your interest in each of the said mineral claims will become the property of me, the undersigned, one of your co-owners, under section four of an Act entitled the "Mineral Act Amendment Act, 1900."

Dated at Greenwood, B. C., the 25th day of March, A. D., 1902.

THE PROVIDENCE

Local Capital Secures an Interest.

MANY VISIT THE PROPERTY

Many Thousands in Ore Ready For Shipment.

The Providence property is justifying the expectations of that veteran miner Mr. Fowler who took it over on lease and bond only six months since. The few months the present management have had it have seen it converted from a piece of ground known to have some good ore on it, to a prospect of a most promising character, with thousands of dollars worth of ore on the dump ready for shipment, with a fine ledge exposed for a considerable distance and with two shifts of men at work thereon.

For years Mr. Fowler has been looking forward for the opportunity that has come his way, never losing the assurance he felt that a great property was waiting here for the man willing to risk a few months of judicious work on his belief in the property. The work of Mr. Fowler and his associate for the past six months developed ore enough to buy the property which he had bonded for a few thousand dollars.

For some days a deal, only just completed, has been pending whereby a few local gentlemen have secured an undevided half interest in the property, the claim being valued at $50,000. Eight thousand dollars ($8,000) were paid in cash and the balance is to be paid on short time. The new owners are pleased with their investment and beginning yesterday enlarged the working force somewhat. The purchase price could have been subscribed locally many times over but Mr. W. M. Law and associates are the lucky buyers. Large crowds of people visited the claim Sunday last and were delighted with the sight of the tons of stuff in the ore house in which the unaided eye could revel in free gold, native silver, grey silver and lead.

The phenomenal blooming of the Providence into a great prospect has stimulated interest in adjacent claims and leases and bonds are being largly sought.

At a regular meeting of the Greenwood Miners' Union held at Mother Lode Hall, May 2nd, 1902, the following resolution was unanimously adopted.

Whereas, it has pleased almighty God our all wise creator to remove from our midst our esteemed and worthy brother and co-laborer, and whereas, in the death of Brother Johnson we are again reminded of the uncertany of life. Therefore be it resolved that while we deplore the sad calamity that has befallen us we bow in most humble submission to his divine will. Be it further resolved that in the death of Brother Johnson this union loses a staunch advocate and a faithful worker, the family a true and loving son and brother and the community a good and a loyal citizen.

Be it further resolved that our charter be draped for thirty days, a copy of these resolutions suitably engrossed be sent to the parents of our deceased brother, a copy be spread upon our minutes and that a copy be published in the local paper and also in the Miners Magazine.
