GENERAL MINING

Development work on the White Bar copper properties, Rock Creek, owned by Messrs. Younkin and Hamilton have disclosed a large body of ore with values chiefly in native copper.

All placer mining claims in the Nelson and Arrow Lake mining divisions will be laid over from Feb. 16th to June 1st.

The Bluebell on Kootenay Lake employs 60 men.

Efforts are being made to have the Riverside group on the West Fork taken up by New York capitalists.

Sixty men will be employed this summer in working the black sand deposits at Rose Spit, Queen Charlotte Islands.

It is reported that the White Bear Mining Co. will shortly resume operations.

Snow blockades and slides are seriously hampering mining operations in Utah, Colorado and California.

A factory at Berlin, Ont., manufactures grindstones from Portland cement and silicon sand. It is claimed that the stone remains true about ten times as long as the common grindstone.

The principal change the legislature has made in the Mining Act is an increase in the fee charged for the issuance of a crown grant from $5 to $10.

Hereafter the application must be made to the chief commissioner

Cobalt ore shipments to Feb. 27 totalled 4,443 tons.

It is rumored that a ten million dollar syndicate is endeavoring to secure control of all the mines in Orient camp.

The gold-bearing section of Sheep Creek is estimated to be five miles in width and 30 miles in length.

Development on the Queen has reached a depth of 700 feet.

Development work on the Metropolitan and Kingston at Hedley is giving most encouraging results.

The New Republic mine is shipping $200 ore to the Granby smelter.

The Rambler-Cariboo has followed its high-grade ore bodies to the 1,050 ft. level.

The Blue Bell on Kootenay Lake is shipping 600 tons per month of lead concentrates.

The Journal of Commerce estimates the stocks of refined copper in Europe at 225,000,000 lbs., which, with the 144,000,000 lbs. in this country, makes a total of 369,000,000 lbs. of marketable or refined copper. The same paper estimates stocks at smelters at 308,000,000 lbs. making a total of 677,000,000 lbs.

The Copper King Mining company at Chewelah, Wash., is running a 925-foot tunnel so as to strike the ledge at a depth of 200 feet below the lowest level. The tunnel is now in 520 feet. The tunnel passes through the Amazon claim, owned by the Oppenheimer brothers. Last Saturday a ledge seven feet wide of copper ore was struck. From its appearance it seems to be rich.

An extensive find of quick-silver is reported from Prince Albert, Sask.

The discovery was made 100 miles down the river and six claims have been recorded at the land office.

Montana produced during February gold bullion to the value of $141,120.

The Silver King on Toad mountain has resumed operations

The ore shipments from the Rossland camp for last week were: Center Star, 3410 tons; Le Roi, 875 tons; Josie, 525 tons, making a total of 4810 tons. The year's shipments amount to 31,113 tons, to which the Center Star has contributed 20715 tons, Le Roi 5748 tons. Josie 4605 tons and I X L 8 tons.

President Taft.

Yesterday, March 4th, was inauguration day in the United States when William Howard Taft, of Ohio, was installed in office as President of the Republic, whose administration it will be his duty to lead wisely and well for the next four years.

Mr. Taft's cabinet as completed is as follows:

Secretary of state, Philander C. Knox, of Pennsylvania; secretary of the treasury, Franklyn MacVeagh, of Illinois; secretary of war, Jacob M. Dickinson, of Tennessee; attorney-general, Geo W. Wickerman, of New York; postmaster-general, Frank H. Hitchcock, of Massachusetts; secretary of the navy, Geo. Von L Meyer, of Massachusetts; secretary of the interior. Richard A Ballinger, of Washington; secretary of agriculture, James Wilson, of Iowa; secretary of commerce and labor, Charles Wagel, of Missouri.

Will Make it Fashionable.

The London women who are going to prison in their efforts to secure the franchise may promote an unexpected movement for prison reform. The inherited stupidity with which incarcerated criminals are treated tends to make it impossible for them ever again to become useful citizens.—Globe.

NEWMAN CAPTURED.

Going to press we learn that Constable Bunbury has captured Cleve Newman, the escaped Bridesville bandit, at Portland, Ore.

Rebekah's Ball

The annual ball given by the local lodge of The Daughters of Rebekah last Friday night was a big success and everybody had a good time.

The music was good and the hall was tastefully decorated with evergreens and the Rebekah colors, green and pink. Some sixty couples participated in the program which was under the direction of W. B. Fleming.

Lost Her Grip.

On Wednesday evening Mrs Towns drove in from the Jewel mine with Mr. Palmer and left her suit-case at the front door of a friend's house on Kimberley avenue about six p.m. while she went up town.

Returning in about twenty minutes she found that the grip had been stolen and no trace of it has as yet been found.

Among the contents was $70 in cash, and a check for $200 on the local branch of the B.N.A.

It is a most regrettable occurrence, and it shows the need of carefulness with valuables in even the most respectable kind of a locality in an orderly city.

Hudson Bay Railway Survey

The greater portion of the surveys of the Hudson Bay railway has been completed. On February 1st, 365 out of the total of 465 miles had been finished, and while no despatches have reached the head office since, it is felt that another two weeks will practically finish the work.

Conservation of Resources.

The report of the international conference at Washington for the conservation of the natural resources of North America recommends a world's conference on conservation, the adoption of the principle that timber, water, lands, minerals, power, fuel, and other natural resources, necessary to the public welfare, should be regarded as public utilities and protected from monopoly and waste; that extensive forest reservations should be created under the control of trained forestry officers, that the taxation of standing timber should be regulated so as to encourage reforestation, and that irrigation works should be under the government rather than private control.

Resolution Against Opium Traffic

The International opium committee has virtually completed its work at Shanghai by the adoption of nine resolutions suggesting means of fighting the opium traffic.

The commission declared that unrestricted morphine traffic constituted a grave danger, and that the morphine habit showed signs of spreading, and urged upon all governments the importance of drastic measures to control the manufacture, sale and distribution of morphine and other noxious derivatives of opium.

It was urged also that all countries should adopt measures to prevent the shipment of opium or its derivatives to any country which prohibited entry.

Killed in the Granby.

Patrick Killen died at the Phoenix hospital on Tuesday night as the result of an accident in the Granby mines on Monday. Killen was on the bench barring down rock to set up a machine when a large piece of ore fell. In trying to escape he missed his footing and fell off the bench to a depth of 30 feet and rolled on down a raise into a chute. He was unconscious and when taken to the hospital it was found he was seriously injured internally. He was 32 yeass of age and was well known in the Boundary, having been working here for some years. The Miner's Union, of which the deceased was a member, had charge of the funeral arrangements.

Ralph Smith Chairman

Ralph Smith will probably be appointed chairman of the new standing committee of the Commons on Mines and Minerals, thus giving British Columbia the chairmanship of what promises to be one of the most important committees of the House. In the last parliament the province had no committee chairmanship.

Timber Land Sale.

Twenty thousand acres of timber lands have just been purchased from a syndicate of Vancouver capitalists by J. M. Miller, manager in British Columbia for F. R. Pendleton, H. S. Gilkie & Co. and the American Timber Co., comprising Minneapolis and Wisconsin capitalists, who have extensive and valuable holdings in Washington. The acreage taken over is situated 200 miles north of Vancouver, and makes the second large tract in British Columbia which has passed into the possession of Messrs. Pendleton and Gilkie.

Spokane Freight Rates.

Spokane has won its contentions before the interstate commerce commission and will get a tariff reduction on certain commodities to terminal rates, and a flat reduction of 16⅔ per cent on all class rates, which will enable Spokane jobbers to compete with the wholesalers of the American coast cities.

CITY COUNCIL.

At the regular meeting of the City Council on Monday evening all the members were present with the exception of Alderman Johnson.

COMMUNICATIONS.

From Dr. Oppenheimer accepting the position of Medical Health Officer.

From the Miner's Union stating that they are satisfied with the present time and do not wish for any change.

From city clerks of Nelson and Grand Forks information re chimney fires.

From F. W. McLaine releasing part of recreation grounds owned by C.P.R., and from F. B Holmes removal of burnt buildings in Block 12 Copper street. Mr. Holmes' letter was received and filed and the matter left with Aldermen Gulley and Dixon to be dealt with.

Letters from Dr. Oppenheimer, Miner's Union, city clerks of Nelson and Grand Forks ordered filed.

Mr. McLaine's letter was received and filed and the clerk was instructed to write informing him that the council had nothing to do with building the fence and have no responsibility in the matter.

The fire and light committee reported having accepted the hook and ladder truck and recommended that it be housed in the premises known as the B C. hotel.

Cemetery and pound committee reported that Mr. Sturbridge had secured a release in the case of the city farm and that he would rent it for the balance of the year. The clerk was instructed to inform him that he may have the ranch at the monthly rental of $7 for nine months commencing March 1st, rent payable in advance, and ask him to call at Mr. McLeod's office to sign agreement; and that the clerk write Mr. Graham forbidding him to remove any more manure from the city farm.

The Conservative Toronto Telegram says that either Mr. Borden's despatch bore the meaning which was emphasized by the interpolated words of a forgery, or it meant "absolutely nothing."

The Opposition in the Alberta legislature has split on the question of opposing the policy of the government which was highly commended by Hiebert, of Rosebud.

The Hamilton Times might safely ask the Saturday Sunset "by what process of reasoning it arrives at the conclusion" that the support of the candidature of Joseph Martin could be interpreted as a friendly act toward the Liberal party.

Misery likes company, and that explains why the Kamloops Standard is so very greatly perturbed over the fact that Comox-Atlin has a representative who can do things.

A Toronto clergyman and a Toronto paper are being sued for declaring that a house was haunted. A fortune awaits the owner if the allegation can be proved.

C. W. Cross, Attorney-General for Alberta, is a man of initative. The other day he told the coal operators who objected to the new Workmen's Compensation Act, that the Albertan government might go into the coal business themselves as they had done in the telephone business.

Without a dissenting voice the following resolution of censure on the McBride government was passed by one of the largest meetings ever held by Nanaimo Conservatives:

"Resolved, That in view of the fact that the Provincial Government has ignored the Nanaimo Conservative Association, and only given it a half-hearted support, to the benefit of the Socialist party, and owing to the recent appointment of Socialists on the Boards of Police and License Commissioners for Nanaimo, we consider that the days of our usefulness have ceased, and therefore disband, and that this resolution be laid before the meeting of the Provincial Executive, which meets in Vancouver on February 25th."

In a paper on the Hudson's Bay route from a military point of view, Lieut. J. W. Tyrell says that Fort Churchill is the most feasible port of the bay and that the straits are open from June 15 to Nov. 15 to which time two weeks might possibly be added.

From a military point of view the route would be an advantageous one as a line of communication to Great Britain in case of war.

A number of B.C. papers have commended the action of District 18, U.M.W.A. in opening their membership rolls to Orientals.

But we imagine it will be a long time before the Asiatic is admitted to the Western Federation.

The forgery did have a potent effect on the Victoria election. Barnard's majority was only thirteen. Undoubtedly he owes it to the forgery. He should resign He won his seat because the electorate believed Borden stood for Exclusion. If he resigns now the electorate will have an opportunity of showing the strength of its faith in Borden's attitude. But no doubt that is just what the Conservative party is afraid of.—Saturday Sunset.

The Calumet and Hecla Co. has paid $8,000,000 for 125,000 shares of the stock of the Bigelow companies and the long-drawn-out litigation over the transfer of Osecola stock is over, Mr. Bigelow having retired from the copper mining field.

Free-milling gold ores are usually found in the upper or oxidized portion of the vein.

MAGISTRATE'S ECZEMA CURED

AFTER 20 YEARS OF SUFFERING.

Zam-Buk's Healing Power Proved by School Commissioner and Baptist Deacon.

ONE of the most recent converts to the Zam-Buk method of treating and curing diseases is Mr. C. E. Sanford, of Weston, King's Co., N.S.

Mr. Sanford is a Justice of the Peace for the County, and a member of the Board of School Commissioners. He is also Deacon of the Baptist Church in Berwick. Indeed, throughout the County it would be difficult to find a man more widely known and more highly respected. Some time back he had occasion to test Zam-Buk, and here is his opinion of this great balm. He says:—

"I never used anything that gave me such satisfaction as Zam-Buk I had a patch of eczema on my ankle, which had been there for over twenty years. Sometimes, also, the disease would break out on my shoulders. I had taken solution of arsenic, had applied various ointments, and tried all sorts of things to obtain a cure, but all in vain. I was advised to give Zam-Buk a trial, and as I am a firm believer in Nature's remedies, I did so. From first applying it I saw it was altogether different to the ordinary ointments and embrocations, and it soon began to show signs of clearing away the eczema on my ankle. This was so gratifying, that I persevered for some time with it, and I am glad to say it had the desired result. I am now cured of the disease which defied every other treatment for twenty years.

"This is not the only direction in which I have proved the merits of Zam-Buk. I suffered for a long time from piles, and I found a perfect cure for this painful ailment in Zam-Buk. Zam-Buk soothes the pain, relieves the congested veins, and so restores the elasticity to the tissues that the piles gradually but surely disappear."

Zam-Buk is a positive and certain cure for cuts, burns, bruises, sprains, piles, festering sores, ulcers, scalds, blood-poisoning, eczema, scabs, chapped hands, cold cracks, chilblains, ringworm, scalp sores, bad legs, diseased ankles, and all other skin diseases and injuries. Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health.

The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is hot dross.

Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and thus has in the privacy of their homes without their having to submit to indelicate questionings and offensively repugnant examinations.

HOMESTEAD REGULATIONS.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1.00 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

HOME-MADE MEDICINE

Said to Relieve Kidney Trouble and Rheumatism

One ounce Fluid Extract Dandelion;
One ounce Compound Balsome;
Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after meals and at bedtime, is stated by a prominent physician to give most excellent results in kidney or urinary afflictions, and also in rheumatism and sciatica. The mixture opens the clogged pores of the kidneys, thus assisting them in their work of filtering all waste and poisonous matter from the blood, and expels these in the urine. To allow this poisonous matter to remain means that it will settle in the muscular tissues or joints, and cause the untold misery known as rheumatism.

The mixture is composed of harmless vegetable ingredients which can be purchased at any good drug store, and mixed at home.

Anyone suffering from any of these afflictions will no doubt be pleased to learn of so simple and highly recommended remedy.

Everybody Agrees

that COD LIVER OIL and IRON are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of FERROL in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed FERROL and used it largely in their practice. FERROL is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and

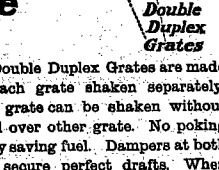
The oven does the baking, the fire-box controls the oven heat, and the grates hold the coal or wood that produces the heat, so THE GRATES are important.



Sask-alta Range

Double Duplex Grates

"Sask-alta" Double Duplex Grates are made in four pieces, each grate shaken separately. Ashes over one grate can be shaken without wasting good fuel over other grate. No poking necessary, thereby saving fuel. Dampers at both ends of fire-box secure perfect drafts. When grates are inverted for wood a patent clamp retains them in position. The easiest-working way is the surest-serving way—and that's "Sask-alta" way.

The members of the Greenwood fire department gave a farewell at progressive whist and other amusements on Tuesday evening to two of their active men, E. B Dill and R. C. G. White, who are leaving the city to enter into business in other parts.

A beautiful east window of stained glass, representing the Ascension, has been presented to S. Jude's church by Mr. J. E McAllister, general manager of the B.C. Copper company. This beautiful and most generous gift will be unveiled on Sunday morning next, at the eleven o'clock service. The window will be placed over the altar and will add immensely to the appearance of the church.

Patrick Keenoy who was discovered by Constable Bunbury last week, appeared before Judge Brown and Doctors Spankie and Oppenheimer last Saturday who found him to be of unsound mind. The unfortunate man was committed to the asylum for the insane at New Westminster, and left for that institution on Saturday's evening train in charge of officer Cunningham.

The following letter was read at Monday evening's Council meeting:

Greenwood, B.C., Feb. 23, 1909

To the Mayor and Aldermen of the City of Greenwood

Gentlemen—Some time ago when we had the misfortune to get the Victoria hotel burnt, almost before the fire was out the city officials were anxious to know when we were going to get it cleared up, as the other parties could not get there's cleand up till it was done. Greatly to our inconvenience at the time, we put a man to work just at the time he was badly needed for other things; so far nothing has been done towards moving the other buildings, which besides being dangerous, keeping us from furnishing the repairs to our store, and a detriment to business.

Are we to look upon this as another of the "City's" big bluffs at driving a willing horse, for it seems to me the old old story "those that will must, and those that won't leave alone."

Shall esteem it a favor if your honourable body will kindly let us know what action they intend taking towards having the other two buildings removed.—Yours truly, Fred. B. Holmes.
