FALLING LEDGE KILLS TWO MEN

Meet Instant Death Under Pile of Rock--Jury Finds Death Accidental

A sad story, involving the death of two men comes from Phoenix. Sometime before six o'clock on Sunday afternoon Christopher B. Martin and Kingsley G. Smith; fell 25 feet with a ledge in Stope No. 61 on the 300 foot level of the Granby mine and were crushed to death under the falling rock. Smith was 48 years of age but unmarried while Martin, aged 40 years, had been married only six months. The verdict of the Coroners jury which was engaged for two days investigating the circumstances of the accident was that death was caused by accidentally falling a distance of about 25 feet from a bench to the muck below.

This section of the mine is not timbered but according to the evidence given by James McGregor, of Nelson, provincial mine inspector, it was considered as safe as if it had been timbered. The inspector's last visit to the mine, previous to to accident was about March 1st. He had examined it again after the accident.

Steve Swanson, foreman of the mine, had examined this bench on Friday last and had found it in good shape. Charles Nelson, mucker boss, gave similiar evidence.

The bodies of the men were found and uncovered by William Tatham, shift boss. Smith's body was found from 10 to 15 feet away from that of his comrade. Tatham had considered the place perfectly safe. He had not examined it on Sunday but no one had complained of it, nor had he had any report of its being in any unsafe condition.

Gustave D. Larsen. bar-man, gave evidence that seemed to indicate peculiar conditions. With Murdock Campbell, he had received orders from the shift boss to bulldoze some rocks in the chute below the bench. He had not gone back there because he considered it unsafe. The rock had been sluffing down there for the last three weeks. It was his duty to examine all such places but he hadn't reported the thing to the shift boss. He had'nt made special examination of the place as he hadn't had time. He had intended to mention this place to the shift boss but didn't see him. The piece that sluffed off causing the fatality was from seven to eight feet in width.

Murdock Campbell also said that there was loose rock hanging under the ledge on Sunday afternoon but his evidence with that of Larsen's was disputed by Henry Heidman, shift boss. On Saturday he had examined the arch between the pillars under the ledge and had found it in good condition,

The coroner's jury was composed of W. B. Willcox (foreman), J. L. Martin, Andrew Johnson, Murdock McIntyre, J. A. Tremblay and C. H. Flood. Coroner A. S. Black was in charge, J. P. McLeod represented Mrs Martin, and D. Whiteside represented the Granby Company.

At one o'clock on Wednesday afternoon a joint funeral was held the services being in the care of Rev. John Leech-Porter. Mr. Martin was a member of the Eagles and both men were members in good standing of the Union, so the services were attended by both organizations. It is estimated that about 500 men were in line, Interment took place at the Eagles' and City cemetery.

Canadian Mining Institute—Western Branch

The C.P.R. is offering special inducements to encourage attendance at the general meeting of the Western Branch of the Canadian Mining Institute, which is being held in Rossland on Thursday and Friday, May 14th and 15th. Delegates must procure standard certificates from the Agent and according to the number of these issued, the company will provide as follows:

"If one hundred (100) or more delegates hold Standard Certificates correctly filled in and certified as directed they will be returned to their original starting point free.

"If twenty-five (25) or more delegates hold Standard Certificates, correctly filled in and certified as directed. they will be returned to their original starting point at one-third of the one way first class fare (not temporarily reduced).

"If twenty-four (24) or less delegates holding Standard Certificates correctly filled and certified as directed, they will be returned to their original starting point at two-thirds of the one-way first-class fare.

A Daring Editor

The following reference to the Editor of the Ledge will be appreciated by all his friends. We know he is quite too modest to publish it himself. It is part of a lengthy eulogy appearing in a recent issue of the Armstrong Advertiser which Mr. Lowery visited while attending the convention at Vernon: "He like the majority of printers has had his ups and downs, has made good money but sunk it all in mining ventures and mining has become second nature with him, the lure of the mining camp is too strong and he now talks of going to Findlay River. R. T. Lowery has a personality peculiarly his own; he explains it by saying that high altitudes at times appear to affect him and it is then that those who do not give a square deal learn that there is a fearless critic of their actions; he is above all a true Westerner and can give expression to Western ideas as very few of our newspaper writers can."

A Dangerous Road

Our attention has been called to the fact that the road between Eholt and the North Fork is in a dangerous conditon. This road which is little better than a trail and at places so dangerous that people will not use it, covers a distance of over eleven miles while with very little expense a road could be made from Eholt to the North Fork, which would be only four miles and a half in length. It is, of course, not reasonable to insist that every such piece of work as this should have long ago received the attention of the provincial government but it is hoped that it will be given fair consideration. The suggestion is made in the friendliest spirit. The change would be greatly appreciated by the people of both Eholt and the Fork.

KETTLE VALLEY IRRIGATED

Fruit Lands Co. Undertake Extensive Developments--Directors Leave for England

Mr. Temple Godman and Lt. Col. W. H. N. Glossop, of London, England, directors of the Kettle Valley Irrigated Fruit Lands Co. left yesterday for England after having spent a week examing the properties of the company near Rock Creek. Mr. G. W. Godman and Mr. M. C. Wright, brother of W. O. Wright, have also been in town for a couple of days, the latter visiting his brother.

The company have decided to undertake the construction of a flume and trestle 1,400 feet in length in connection with their main irrigation canal. This work will be proceeded with as soon as the lumber is on hand,

The company is also clearing a large area of land with a view to increasing their orchard acreage.

POLITICAL.

The Liberals of Kootenay hold their nominating convention at Nelson, on Thursday, June 4th.

Conservative delegates to the convention at Vernon are willing to talk about anything but the convention. They had a good time with Judge Williams. All the delegates returded on Monday with the exception of W. B. Fleming. who is taking a few day's holidays visiting his old friends there.

W. A. Galliher, M.P. for Kootenay, is reported to have accepted the billet of Western Solicitor and legislative agent of the G.T.P., with headquarters at Vancouver.

A CONSULTATION MEETING

Monday evening's session of the City Council was what might be called a consultation meeting. Present, Mayor Bunting, Aldermen Gulley, Sutherland, Wilson and Mortimer.

The Council first had a little talk with the tenant of the City Farm who explained the work the had been doing and why he had not done certain work. The Council asked him to have the necessary work done by July 1st.

A letter from J. D. Spence re claim of Fritz Haussener for compensation for damage done to a colt of Mr. Haussener's which had been injured in a fence at the City Farm was read. The letter was referred to the City Solicitor for reply.

The following accounts were ordered paid:

K. McKenzie	$88 80
"	16 25
B. C. Times	7 00
The Ledge	2 00

Repairs to the streets were then carefully gone into. The Mayor has arranged to have money provided for $1,000 worth of work. The work already done had cost $578. Sidewalks east from Government street to the Presbyterian church, south from Greenwood street on the east side of Government and the Gold street bridge were considered but finally the whole choice of work was left to the Committee with instructions to first complete all necessary repairs to crossings and sidewalks before taking on any new work.

The last consultation was over repairs to the Twin Creek reservoir and this also was left to the Committee.

Pound Bylaw No. 121 was finally passed.

The Clerk was instructed to write C. J. McArthur asking him to report as to quantity of cordwood and ties taken by him from the Cemetery Ranch.

TO BE SUPERINTENDENT OF LITTLE BERTHA MINE.

William Rowe, formerly superindent of the Skylark, left yesterday for the North Fork of the Kettle River to take over the management of the Little Bertha mine. The Little Bertha is in the control of Dr. W, H. Appleton, Donald McLean and John F. Wilkstrom, of Spokane, and these men have been making extensive arrangements for its development ever since they took it over about three months ago.

The Little Bertha claim covers 126 acres and on it there are eight leads all of which carry very high values. A gasoline hoist has recently been installed and is now in operation. Last week Dr. Appleton visited the property and arrangements have been made to lay out the site site for a new ten stamp mill which is to be erected immediately on the property. The company have acquired a 10-stamp Nisson mill for this purpose.

The Little Berthn is a mine for which a great deal has been claimed and under the efficient management of Mr. Rowe, it can be expected to do everything that is claimed for it.

Dominion Copper Co.

The Boston Commercial in its last issue has some reference to Dominion Copper. It is only necessary to point out that the whole report is rumor and that although some time ago, copper companies everywhere were in difficulties because of the general money stringency, Dominion Copper has been meeting all its liabilities regularly and the latest reports to those who should know, were that the Company had plenty of money on hand.

The company has, of course, wished to improve its position financially and for that purpose Mr. H. H. Melville went io Europe to make an attempt at interesting new capital. W. C. Thomas, the manager of the company has been in Spokane for a few days and will not return until Monday next. On the face of it even, the report does not look very good because under present conditions it would not be to the advantage of the bond holders to take this action. The Commercial says:

"Dominion Copper is said to be badly in need of money. It is claimed that the $400,000 which the company had in its treasury a year ago was used to buy new properties, to purchase mining equipment and reconstruct and enlarge its smelter. A fair scale of production had barely been reached when copper became unsalable and declined severely in price. The low prices recently recorded for Dominion Copper bonds raise the question as to whether the coming interest will be met. Its mines are said to have been examined a few months ago by Granby interests.

Nothwithstanding the company owns some mines which should be very valuable, I would not advice the purchase of Dominion Copper stock at present. There is a possibility that the bonds may have to be foreclosed."

If You Wish to Buy
COPPER STOCK
Wire us for Quotations

Our facilities for buying
Dominion, B.C., or Granby Stocks
on the curb in New York or Bostonare unequalled Even our competitors acknowledge that we can buy these stocks cheaper than they. Why? Because our Eastern connections are of the very best.

The stock business is a sideline with us consequently we can afford to handle your business on a very small margin.

Give us your limit and we will fill your order at a lower figure if possible

We will wire you the New York opening quotations daily, if desired.

McDERMID & McHARDY,
NELSON, B. C.

J. D. Spence returned last night from Spokane where he was engaged in an examination of a former manager of the celebrated Tretheway mine at Cobalt, Ont. A claim for $4,000 damages has been entered against the mine by a widow of one of the employees and this examination was preparatory to the hearing of the case which takes place this month either at Toronto or North Bay.

A provisional order has been issued directing the sale of the Elkhorn mine. If no exception is taken to the order before the 15th inst., an order for the sale of the mine will be issued and the property disposed of. The order was given J. D. Spence, acting on a judgment of the Canadian Bank of Commerce. The order does not touch either the Elkhorn fraction or the E.H. Mineral claim.

There will be a meeting of the Kettle Valley Fish and Game Protection Association at the City Hall on Monday night at 8 o'clock. All members are earntly requested to attend.

Charles Newman, formerly foreman at Camp McKinney leaves today for Hazleton, B.C. Mr. Newman is an old timer in this country but is hitting the trail for the north country.

Theo Rush, who for nearly twenty years edited the Statesman Index, at Colville, Wash., was a caller at the Times office today. Mr. Rush sold his paper at Colville just about a year ago and was making a short business trip to Greenwood. He returned to Colville this afternoon.

H. R. Stevenson, of Midway, went to Nelson yesterday to attend a meeting of the Order of Railway Telegraphers. He returns today. He is being relieved at Midway by Wm. Wilson.

UNION LABEL

FRIDAY, MAY 1, 1908

The announcement comes from Ottawa that the Civil Service will be put under a permanent commission that shall be independent of politics. Details of the arrangement are not yet to hand but the change is one that means a courageous and most commendadle departure from a very strongly intrenched principle in politics that has outlived its usefulness. Again the Laurier government proves itself able to swing the guns fearlessly against the citadels that have become an encumbrance rather than a defence to the state.

The rush of American settlers into the fertile fields of the Northwest is attracting attention in Chicago. The Tribune says of it:

"Many farmers are crossing the line of the United States into the western provinces of Canada. The movement has attracted widespread attention. It has been encouraged by systematic work of publicity and promotion. The boomer has used all sorts of advertising devices to emphasize the advantages of the new country. That his services have been effective is undoubted.

"The outflow of population is more spectacular than the inflow. It causes alarm in the minds of many because it is the same sort of movement that accomplished so much in the development of the United States. The West in changing localities was largely built up by settlers from the East, this latter term also being a movable one. Because of the knowledge of this splendid citizenship which is being lost Americans regret the restless search for new lands is carrying the pioneers across the boundary into Canada.

Apparently a reporter in Winnipeg was fortunate with Mr. Ross for he is credited with the following interview, concerning Major Hodgin's statements:

Mr. Ross was also asked regarding the charges made by Major Hodgins in connection with the construction of the national transcontinental railway.

"I have had an opportunity to look into the question," he said, "and if any investigation be held it will only go to prove Major Hodgins' incompetence as a district engineer. The great desideratum is to get the railway built. If Major Hodgins had continued as district engineer, issuing orders and making classifications, while absolutely ignorant of the conditions in his own division, no progress could have been made. There is nothing unusal in a man who has proved a failure to attempt to fasten responsibility for such failure on some one else. If Major Hodgins had accepted the advice of some of his best friends he would not have called attention to his own incompetency, but since he is evidently determined to make trouble he should be given every possible opportunity to demonstrate that, while he may be a good military man, as a district engineer in connection with the construction of the national transcontinental railway he proved himself an absolute failure."

The Saturday Sunset publishes a large story about the V.V. & E. and the connection of Duncan Ross, M.P., and Senator Templeman with it. The Editor of that paper evidently thinks he has "something big" on. Only by dint of weeks of perserverance did he secure the facts. He is sure they are facts but where they appear in his article is not evident. We are sorry that we cannot ascribe decent reasonable judgment to the editor of the Sunset. His fakes are coming too fast. His secession tack of a couple of weeks back seems to have been only the beginning of his foolishness.

In Ontario, the commitments for drunkenness last year number 4,774, the largest number since 1888. The Canadian Courier thinks this and similiar facts sufficent to warn the people of Canada to stop insisting that the authorities at Ottawa rush in new citizens. Now that British Columbia's immigration question is settling itself as a result of Sir Wilfrid Laurier's wise and tactful policy the immigration problem as applied to non-Asiatic nationalities is creating interest.

In Toronto, the Italians have been settling for years in one of the oldest sections of the city, St. John's Ward, familiarly known as the Ward. Last week, an Italian scrivener, who can turn out pretty good English claimed in a letter to the Toronto Globe that large numbers of Italians in that city had taken out their naturalization papers, had entered and were constantly entering the militia and that they had accumulated from three to four million dollar's worth of property in Toronto. They demand, according to Mr. Gilonna the same wages as the English laborer.

If this is true, it is a matter for congratulation. The making of a good industrious citizen from the too well favored son of sunny Italy is something worth doing. Perhaps after a while, we can get him to wash his face and clean his kitchen floor but these things the Italians of Toronto still abhor.

After making complimentary reference to the candidates of both parties in Yale-Cariboo, the Nelson Daily News has the following to say of the methods employed by the Province and others in regard to Mr. Ross' nomination. The sentiments it contains will find a responsive echo everywhere in the riding. It says:

In this connection we feel impelled to comment somewhat severely on the course pursued by a section of the tory press in regard to the Liberal nomination convention that tendered Mr. Duncan Ross an unanimous renomination on Tuesday, April 14. The Vancouver Province resorted to the most despicable tactics in sending up to the convention a representative instructed to send in a report of the proceedings that would place Mr. Duncan Ross, in the event of his being renominated, in the most unfavorable light possible. This representative did not attend the convention, neither was he present at the public meeting held in the evening. He arrived in Vernon late on Tuesday evening and the following morning set about preparing a report in accordance with his instruction. One of the delegates to the convention, Mr. Sidley, of Anarchist Mountain, was known to have a grievance and to be personally opposed to Mr. Ross' nomination because of that grievance. The Province man learned of this and immediately hunted up Mr. Sidley, got his story, and upon it based his report calculated to deceive the public and create the impression that the convention was inharmonious and that Mr. Duncan Ross had not the confidence of the Liberal party.

The Province story was wholly misleading and in a very large measure false. Yet this story has been reproduced in practically every tory newspaper in the province, with flaring headlines, intimating that the Liberals of Yale-Cariboo were divided and that Duncan Ross had not their confidence.

The fact that Mr. Sidley had a grievance is not denied, but his grievance was not of such a charter as to reflect upon Mr. Ross as the member for Yale-Cariboo, or upon the policy of the Laurier administration. Mr. Sidley's grievance arose from the fact that the V. V. & E. Ry. does not run through his ranch at the point that he desired. Mr. Sidley ignores the fact that Duncan Ross' fight in the railway committee, in which he encountered the bitter opposition of the solid conservative party, secured the construction of the railway, one result of which was to enable Mr. Sidley to sell out at a big figure, and persists in holding Mr. Ross responsible for the fact that the right-of-way of the railroad did not traverse his ranch just where he desired. The mere statement of Mr. Sidley's grievance will suffice to show its utter worthlessness as a cause for the political extinction of Mr. Ross. Yet this personal grievance of a single individual is magnified and twisted into an evidence of lack of confidence in Mr. Ross and of division in the ranks of the Liberals of Yale-Cariboo. As a matter of fact this cowardly attempt to injure Mr. Duncan Ross will have the effect of strengthening him with his constituents The Liberal convention was largely attended and every man present knows how entirely harmonious the proceedings were and what a splendid reception Mr. Ross received and they will fo a man resent the publication in the tory press of utterly false accounts thereof. However, there is a larger view of this case than its purely local effect. The tory press is just now busily engaged calling out for purity in politics and this case presents one of the grossest instances of impurity in politics that could be conceived of. It ever a public man met with an unqualified expression of public confidence that was Duncan Ross' experience at the Vernon nominating convention. He was entitled, even from his political opponents, to credit for this. Public life in Canada has very few rewards and public men are subjected to so much abuse and misrepresentation, that when in unmistakable manner and with a quite spontaneous enthusiasm a great constituency like Yale-Cariboo goes on record as being entirely satisfied with the parliamentary conduct of its representative, the press of the country, regardless of party affiliations, should be fair and honest enough to report the facts, if it make any pretense at all of covering the situation in its news columns.

MINING

A survey of the properties of the Consolidated Company is being made by Engineer McDougall.

The Nicola Valley Coal Company will take 100 business men from Vancouver to its mines on May 16th.

Diamond drills are being started on the Kelsey group of copper claims on the west side of Osoyoos lake near the International boundary. Some Detroit capitalists own the properties.

Boyle Brothers, of Spokane, resumed diamond drilling at the Granby mines last week. Page Boyle is in charge. Recently he has been at the Holden mine in Lake Chelah country, Wash.

T. O. Oliver, a prospector who has been for the past four years on the Mackenzie, Peace, and Liard rivers, claims to have discovered gold on Great Slave Lake in quantities that will make the Klondike look green.

Dredging is being started on the placer grounds in Granite Creek, near Princeton. The operators are using a new dredge which will save gold at a depth of 40 feet below water.

Twenty self-dumping ore cars are being used on the 400-foot level in the Victoria shaft of the Granby. They save both time and labor. The cars were due to the genius of F. Knott, draughtsman of the Granby at Phoenix.

Freight rates from Vancouver to Prince Rupert have been raised $1 per ton. Passenger traffic to the north is still heavy in spite of the company's refusal to allow anyone to land before the townsite is put on the market.

In order to get out the ore from the rich copper properties in the Windy Arm district, the White Pass & Yukon route has built its right-of-way on for eight miles beyond the juction at Macrae, which is eight miles from White Horse and is extending the roadbed to different shipping mines of the district. The right-of-way is already in touch with the Arctic Chief, Best Chance, Valerie and Grafter mines, and by October is expected to be extended seven miles further to other mines. Large bunkers are being completed at Skagway, and it is expected there will be large shipments of ore this summer from the copper properties in the Windy Arm district of Northern British Columbia by the White Pass Route and connecting steamers to the Vancouver Island smelters.

THE UNDERLYING PHILOSOPHY

The significance of Christianity in relation to the development of the world in its political or social conditions was well stated recently in a sermon by Rev. C. Silvester Horne, at Stafford, England. Mr. Horne said that he was perfectly certain that Jesus Christ had in view all great ultimate social changes of which he never spoke. There was no single recorded saying of Jesus "that this man's roof needed mending and that man's cottage needed draining." He never said that the sweated workman was to get more wages, and He never even said that the serf was to be a free man. Therefore, said some one He was indifferent. Not at all! There was one thing, and only one thing, that could give man all those things, and a thousand more besides, namely, the regeneration of the spirit of man to love his neighbor as himself. If they got that there would be no difficulty about the amelioration of the conditions of life in this or any other country. He sure that that if they really could get hold of that principle it would solve many a difficulty upon the part of so many people who today were standing aloof from Christ and Christianity altogether. The pith and marrow of His teaching was "Seek ye first the kingdom of God and His righteousness, and all things shall be added unto you" They would be added, for the greatest thing in the world was love, and if it was not, then Christianity was an imposture. If the greatest thing in the world was love, and if they desired to give of the greatest of all things to their fellows, did they wonder that the Lord Himself had said "Give for thine alms those things that are within." Christianity had suffered in so many things but he thought it had suffered from nothing more than false hopes and false expectations. There were some people who came to him and explained that they quarrelled with the Bible because it was not the latest text book on science. There were some people who said that the astronomy of the Bible was obselete, and, that therefore they had no further use for it. Some people expected to find the New Testament a handbook on political economy. If Jesus Christ could only tell them how to change half sovereigns into sovereigns there would be business in it. In conclusion the preacher said the supreme needs of England were not legislative He did not underrate the necessity for social changes, but he was certain that first and foremost there was a necessity for spiritual reform. They wanted better men, better citizens, larger hearted, broader-minded, high-toned men and women, who would give their love, thought and sympathy and, above all, their faith to the age in which they lived.

ZAM-BUK SAVED THIS MAN'S FINGER!

Mr. William C. Edwards, Peter Street, Toronto (late steward Elks' Club), sustained a severe cut on the middle finger of the left hand. Blood poisoning ensued and the finger caused him excrutiating agony. He says: "My hand was so swollen and painful that I had to carry it in a sling for some months. I was under the care of a well-known doctor in Toronto for several weeks. The wound got no better, and one day he said my finger would have to be taken off. The pain from the wound was terrible and was extending right up the arm. I consulted another medical man and was treated by him for some weeks longer. He then suggested that the finger be opened and the bone scraped. At this stage a friend advised me to try some Zam-Buk which I did. I bathed the wound and applied Zam-Buk as directed. Next morning the wound began to bleed. It was a healthy sign so I continued with the treatment, and in a weeks time I was able to discard the bandage. A little more perseverence and Zam-Buk cured the wound completely."

Zam-Buk Cures cuts, burns, chafings, itch, eczema, running sores, ringworm, piles, bad legs, poisoned wounds and all skin diseases. All druggists and stores, 50c., or postpaid from Zam-Buk Co., Toronto.

and the quality of stock used are the main factors that have built us up the largest job printing business enjoyed by any printing house in the Boundary country.

The Times

Government Street, **Phone 29** Greenwood, B. C.

Do You Think For Yourself?

Or, do you open your mouth like a young bird and gulp down whatever food or medicine may be offered you?

If you are an intelligent thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is *one* tried and true honest medicine OF KNOWN COMPOSITION, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible indorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, *in plain English*, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authorative profesional endorsements by the leading medical authorities of this country, will be mailed *free* to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE COPPER HANDBOOK

(New edition issued Nov. 15, 1906)

Is a dozen books in one, covering the history, Geography, Geology, Chemistry, Mineralogy Metallurgy, Terminology, Uses, Statistics and Finances of Copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the Copper Industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man.

It gives the plain facts in plain English without fear or favor.

Its lists and describes 4626 Copper Mines and Companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Mining Man needs the book for the facts it gives him about mines, mining and the metal.

The Investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundred of swindling companies are exposed in plain English.

Price is $5 in Buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

HORACE J. STEVENS

Editor and Publisher.

453 Postoffice Block, Houghton, Michigan

WORTH TAKING

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after each meal and at bedtime, is pronounced by a prominent physician to be the best mixture for the cure of the kidney, bladder, and all urinary troubles.

This says the doctor, is the most simple though remarkable prescription ever written to cleanse the system of impurities and waste matter. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, lame back, sciatica and other afflictions arising from sour, impure blood.

The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can easily be mixed at home.

If you have a suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

CORPORATION OF THE CITY OF GREENWOOD

NOTICE is hereby given that the Assessment Roll for the year 1908 has been returned, and can be inspected by any person having an interest therein until the sitting of the Court of Revision. The first sitting of the Court of Revision on the said Assessment Roll will be held in the City Hall, Greenwood, on Monday, the 11th day of May, 1908, at 10 o'clock, a.m. Any person desiring to make complaint against his or her assessment must give notice in writing to the Assessor, stating the ground of his or her complaint at least ten days before the said date.

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

2 If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cent per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior.

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings

Geo. Rutherford, of Grand Forks, was in the city on Tuesday.

R. Sidley and Mrs. Sidley, of Sidley, have been in the city yesterday and today.

F. Moshier went up to the West Fork yesterday on a fishing and prospecting trip.

F. W. Rounsfell, of Ceperely, Rounsfell & Co., of Vancouver, was in town on business a few days this week.

Geo. Mercer went to Spokane on Saturday, having severed his connection with the Windsor Hotel here.

James Clark, of Gulley & Co, left on Monday for a few days visit at his Mother's home in Trail.

O. B. Smith, Jr., supt. of the Granby mines and his brother, F. Smith, of Detroit, were callers in town yesterday.

D. Hollinger, and wife, of Cascade are Greenwood visitors. Mr. Hollinger is an official of the Boundary Lumber Co., at Cascade

D. S Irratt Love and Mrs. Love went to Vancouver on Monday. They were recently married here, Mr. Love having been in the city for some months.

F. Steinbart, of Milwaukee, whose business is connected with the Beer that made Milwaukee famous was conferring with the brewery people in the city this week.

Miss Marguerite McKinney left on Monday to join her father at Revelstoke. Mrs. McKinney followed yesterday. A great many friends will miss them in Greenwood.

A. B. Docksteader, of Nelson, brother of John Docksteader, of the Elkhorn Brewery, was in the city all week until yesterday going over matters related to their recent fire. Mr. Docksteader represents the Sun Lite in Nelson.

Four C.P.R. engineers spent Tuesday and Wednesday on the Mother Lode grade. They were A. M. Smith, E. Corry, J. R Walmsley and C. S. Moss, of Nelson.

W. R Inman, M.O, of Vancouver, the eye specialist, spent a couple of days this week in town, making some few acquaintances and doing business. Mr. Inman moved to the coast recently from Winnipeg.

Robert Scott, brother of T. Scott, bookkeeper at the Emma mine came to Oro Denoro last week from Caledonia, Ont. Already they have several men at work clearing their ranch along Eholt Creek near the junction of the Eholt and Denora roads.

Rev. C. W. Whittaker, of Phoenix, was in town on Monday, with David Tyson who purchased a license to wed Miss Mary J. Slee, of Broughton-in-Furness, Lancashire, England. The wedding took place in Nelson on Wednesday.

S. E. Belt returned to camp on Tuesday afternoon and was met at the station by a coterie of admirers. Mr. Belt has been putting in the lest few months at his home on the confines of Missouri and the last week in Spokane and Danville. Unless the smelter whistle pipes pretty soon, he will spend a few days on the hills doing assessment work.

A. H. Napper and Mrs. Napper are leaving today to reside again in Grand Forks from which place they came one and a half years ago. Mr. Napper has been with the Hunter-Kendrick Co., Ltd., for nine years in their stores at Grand Forks and at Greenwood and came here when the firm sold out its Grand Forks business. He is returning to go in with John Donaldson who has purchased the Columbia Branch of Jeff Davis & Co's. business. Both Mr. and Mrs. Napper have made a great many friends in Greenwood, all and each of whom will sincerely regret their removal.

TOWN TOPICS

The Assizes will be opened in Greenwood on May 26th.

Sacrament will be administered in the Methodist church on Sunday evening.

J. L. Coles has a stock of wall paper that is unexcelled for tasty designs. Look 'em over.

The subject in the Presbyterian church on Sunday evening will be Sabbath Observance, and the preacher, the pastor.

Try A. L. White's fishing tackle. It's the tackle to take the fish in high water.

The Sunday passenger service which was discontinued on March 29th is being resumed by the Great Northern on Sunday next. This will bring Spokane papers into the city on Sunday night.

We have bargains in Wall Paper remnants that we wish to clear. Get busy before that tall chimney starts spouting. McRae Bros.

The cut rates for summer excursions on the C.P.R. come into force on Tuesday next. Their advertisement in another column gives full particulars.

A Razor new every morning is what you can have with one of A. L. White's Everyman's Wet or Dry Hones, price $1 50

The service in the Anglican church next Sunday will be held in the morning at eleven o'clock and the Sunday following in the evening instead of the regular morning service.

Attention is called to the Court of Revision to be held at the City Hall on the 11th inst. Anyone having any objections to make to their assessment must have them settled on that date.

The High Tea given by the Ladies' Guild of St. Jude's church on Tuesday last was more largely attended than the ladies expected. The concert was especially fine and everything most thoroughly enjoyed. The ladies feel deeply indebted to the Orchestra who gave their services gratuitously. That orchestra is a credit to the town.

Boundary Valley Lodge No. 38 I.O.O.F., were escorted to church on Sunday evening last by the band of the Boy's Brigade. Rev. Mr. McKee made his remarks centre about the idea of Oddfellowship. Last Sunday was kept by Oddfellows all over the continent it being the 89th anniversary of the institution of Washington Lodge No. 1, at Baltimore, U.S.A. Oddfellowship in England is a quarter of a century older than on this continent.

A. L. White has a fine stock of sewing machines - for sale or to rent.

At the B.C. Copper Co's Emma mine, Superintendent Lover and O. T. Scott have been kept busy keeping the water out and making improvements in the fittings of the mine. The bunkhouse at the mine which was completed just at the time of the shutdown last November will accommodate about half the men usually employed at the mine. The condition of the mine is a credit to the superintendent and to the company.

If you wish to rent a piano, see A. L. White.

J. A. Macdonald, K.C., of Rossland, spent yesterday and today in the city on legal business. Mr. Macdonald said the people in Rossland were greatly encouraged over the revival of interest in the claims there. Good ore was been found in the old claims but there was no boom. Mr. Macdonald thought Rossland was coming to its own after the depression so common in the history of mining camps.

J. A. Chenier who has been conducting a tobacco and fruit business in this city for a year or more, this week handed over his stock to be disposed for the benefit of his creditors. A meeting of the creditors will be held in a few days to determine the manner of the disposition.

Born—At Anaconda, B.C., on Thursday, April 23, to Mr. and Mrs. Jos. Wilmshurst, a daughter

Judge Brown held court this week in Nelson, Rossland and Grand Forks. Mrs. Brown spent a day or two in Grand Forks.

Born—To Mr. and Mrs. Gus Bjorn, at the home of John H. East, Midway, on the 30th of April, a son.

AT THE CHURCHES

PRESBYTERIAN—Services will be conducted morning and evening, 11 a.m. and 7.30 p.m. Rev. M. D. McKee, Pastor.

METHODIST—Rev. F. J. Rutherford B.A., will conduct services as usual at Methodist Church morning and evening Sunday School at 3.

CATHOLIC.—Church of the Sacred Heart.—Divine service 1st, third and fourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p.m REV. J. A. BEDARD, O. M. I. pastor.

The services in the Anglican church will be in future as follows: On the first and third Sunday, at 8 a.m. and 7.30 p.m. On the second and fourth Sunday of each month at 8 a.m. and 11 a.m. Sunday school is held every Sunday at 12 o'clock noon.

Application for Liquor License.

In thirty days from date, I intend to apply to the Superintendent of Provincial Police for a renewal of Liquor License for the premises known as The Riverside Hotel, Rock Creek, B.C., to commence on July 1st, 1908.

PILES

8 Years Torture Ended by Zam-Buk

Mr. George Lee, 35 Steiner St., Toronto, says: "For 8 years I suffered torture from blind, itching piles. During that time I believe almost everything in the line of ointments and salves was used, but in vain. The very first application of Zam-Buk gave me relief from that terrible itching, and a little perseverance with the balm brought about a complete cure. I have not been troubled again and it is now over six months since Zam-Buk was used. If this statement can be used for the benefit of other sufferers from this trouble, you are at liberty to publish it."

Zam-Buk

Is especially recommended for all kinds of skin diseases; eczema, bad legs, piles, ulcers, boils, chapped hands, barbers' rash, festering sores, poisoned wounds, cuts, bruises, burns, sprains etc. Of all druggists and stores, 50c. box or from the Zam-Buk Co., Toronto, post-paid. 3 boxes $1.25.

FREE

A sample box will be mailed free if you cut out this coupon and send it with 1c. stamp to the Zam-Buk Co., Toronto. 2.K.4
