UNIVERSITY SCRIMMAGE

Who will eventually have the University in their midst is a matter of much conjecture. It is decidedly a hard nut to crack. Where to place it, how to dispose of the many claimants with their site in B. C. arguments, and all presenting in glowing colors the ideal advantages of their particular districts. The gentlemen comprising the University site commission must certainly have to scratch their craniums to avert hard feelings and maintain peace in the family. The position of those commissioners is not to be envied, and how to decently dispose of the numerous advocates of this special attraction would puzzle a Philadelphia lawyer. It is certainly not a picnic they are up against. Even before starting on their tour of inspection of the country Vancouver, which so naturally dislikes anything good to get past them, had the first innings, and most persistently blew its own trumpet, exploiting the vast advantages they could offer, and, in fact, the commissioners would be making a serious mistake to carry their quest any farther. Then, when a get away could be effected, what a gauntlet to run. Every town, village or camp must butt in and have their say, and the same program enacted.

Nelson, the big feeling, lake side settlement, must be faced. No getting by it under cover of darkness, and Nelson goes to the bat. No place like Nelson for the site, and has been Heaven-gifted with such peculiar advantages that no other district could possibly duplicate, and providentally fitted out expressly for a university city. If the commissioners get clear with an unburdened conscience they are to meet with more embarrassments at Grand Forks, which, you know, is the big tyee town of the Boundary, and the pow wow they can spiel out is enough to bewilder any sane person. Of course they have a really beautifully situation and lots of commanding sites for this seat of learning, but they have the big smelter, and are fast increasing the acreage of fruit growing, and an advanced seat of learning would not have for them the continued interest which it requires. In fact, Grand Forks has already graduated and has got her noddle full now.

But Heaven only knows where the commission is to get off, how to dispose of these with a most delicate sort of acquiescenses to all that is brought forward, how to get away from all these sweet charmers is a big contract of itself. The only feasible solution would be for the commissioners to delay decision and trek on to Greenwood, take in its fine points, situation, climate, surroundings, all incomparable, and the vexed matter is solved on sight.

FARM HANDS SCARCE

That the supply of farm hands is totally inadequate to meet the demand is the firm conviction of J. Bruce Walker, the chief immigration agent at Winnipeg. He states that he could place 5,000 farm hands immediately, and he fears when harvesting time arrives there will be a scarcity of men, which may cause grief to some farmers.

SHOTGUN CLUB

The following is the score of the meet of the Greenwood Shotgun club last Sunday:

	Shot at	Broke
K. C. B. Frith	25	18
A. J. Logan	25	18
K. Rees	25	19
R. J. Sanders	25	21

GREENWOOD CITY COUNCIL

The City Council met in regular session Monday evening, Mayor McIntosh and Aldermen Dixon, McKee, Craig and Sater being present.

Moved by Alderman Dixon, seconded by Alderman Sater, that the minutes of the previous meeting be adopted as read. Passed.

The finance committee reported the following accounts correct:

G. H. Thompson, $10; F. Bell, $12.

Moved by Alderman Dixon, seconded by Alderman Craig, that the report be received and the accounts paid. Carried.

The mayor reported that 250 feet of hose at $1.10 per foot had been ordered.

Moved by Alderman Sater, seconded by Alderman Craig, that the street committee get the cost of repairing the South End bridge and report at the next meeting. Carried.

The mayor reported having allowed the B. C. Copper Co. $20 toward the repairs to the foot bridge.

Alderman Dixon asked leave to introduce Bylaw No. 3, 1910, the estimates bylaw.

Moved by Alderman McKee, seconded by Alderman Craig, that leave be granted. Passed.

Moved by Alderman Dixon, seconded by Alderman Sater, that Bylaw No. 3, 1910, be read a first and second time. Carried.

Alderman Craig asked leave to introduce Bylaw No. 4, 1910, Rate bylaw.

Moved by Alderman McKee, seconded by Alderman Sater, that leave be granted. Passed.

Moved by Alderman Craig, seconded by Alderman Dixon, that Bylaw No. 4, 1910, be read a first and second time. Passed.

Alderman Sater gave notice that he would, at the next regular meeting, ask leave to introduce an amendment to the Revenue bylaw. Passed.

On motion the council adjourned.

TEN YEARS AGO

(From Boundary Creek Times of June 24, 1900)

Strawberries are selling at 10c. a box.

Fred Jenks, from England, is at the Armstrong.

Placer gold discovered in the Myers creek district.

His Honor Judge Spinks holds county court tomorrow.

Mrs. Larkin opens her handsome new block on Friday.

Prof. Odlum, representing the Vancouver World, is in the city.

The grand All Star combination will appear tonight at the Auditorium.

The Auditorium hotel will be opened on July 1st, under management of Mrs. E. Armstrong.

A. J. McMillian, manager of Rossland and Slocan syndicate, and owning the Snowshoe mine is registered at the Armstrong.

The Gordon Highlanders revenged the battle of Majersfontein at Thaba N'chu defeating the Boers, who greatly outnumbered them. A splendid victory for the Scotties.

The biggest train pulled out of Merritt to date was that of Tuesday in last week. There were twenty-five cars of coal, ten cars of cattle, a baggage coach and passenger car.

AIRSHIP FOR PASSENGERS

The maiden voyage of the first German passenger airship, the Deutschland, occured on June 22nd. The course was from Friedshaven to Stuttgart, Mannheim, Cologne and Dusseldorf.

The Deutschland was built after the Zeppelin model, jointly for the Hamburg-American Steamship Co., and the German Airship Stock Co.

The epoch-making aerial excursions will be carried out on a luxurious scale. The cabin of the Deutschland is of mahogany, built after the style of a sleeping car. It is carpeted, and inlaid with mother of pearl. Large windows provide an outlook on both sides. It is situated between the gondolas. A restaurant will supply cold meats, coffee, tea and wine.

The dimensions of the vessel are: Length, 485 feet, width, 46 feet. Its capacity is 24,785 cubic yards of gas, and it will carry three motors totaling 330 horsepower, with a speed of 35 miles an hour.

The limit of the voyage is fixed at 700 miles. The lifting capacity of the craft is 44,000 pounds, of which 11,000 pounds will cover crew, passengers and freight. The first trips are already booked, the fares varying from $25 to $50.

MARRIED

On the 15th inst., at Victoria, B. C., Joseph Earnest McEwen and Olive Regina Standish Summers, second daughter of James Summers, of the Dominion hotel, Phoenix, and Mrs. Summers, who has resided in Greenwood for some years past. The ceremony was performed at the residence of Rev. W. Leslie Clay, a cousin of the groom. Mr. Bruce Johnson was best man, and Mrs. W. H. Docksteader, nee Miss Valva Summers, was matron of honor. The bride wore a very becoming wedding gown, imported from New York. After the ceremony the bridal party and guests were entertained at an elegant luncheon at the residence of Mr. W. H. Docksteader, brother-in-law of the bride. Mr. and Mrs. McEwen will make their home in Kitselas, B. C.

RUNAWAY ACCIDENT

Wm. Thompson, in company with Mrs. Wm. Lawson, started out for a drive and to try a horse which Mr. Thompson thought of buying. When coming down the street past the 'phone office, the horse bolted and brought up in the foundations near Holmes' store. The occupants of the buggy were thrown out and badly bruised but no bones broken. The horse had his leg broken and had to be shot and the buggy was badly smashed. The horse and buggy belonged to Norman McLeod.

BOY SCOUT MOVEMENT

Captain Birdwhistle, of Ottawa, secretary of the Dominion Rifle association, has been appointed general secretary for the Dominion of Canada branch of General Baden-Powell's Boy Scouts. The work for some time has been looked after by Lord Lanesborough, military secretary to his excellency. The movement is, however, more general, and Dominion and provincial councils are being appointed to look after the work.

Terrible cloudbursts have occurred in Germany.

WE SHOULD ADOPT THE PLAN

The Bank Note company, of Ottawa, adopted the daylight-saving plan with such success that 89 manufacturing concerns in St. Paul have concluded to give it a trial for the summer. The plan consists in beginning work an hour earlier in the morning and closing an hour earlier in the afternoon. This gives the employees a long evening for recreation, and it is said to be extremely popular.

The above is well worth immediate concern. What is there to prevent us revising our hours of labor and in place of at all times, have each department of labors hours strictly defined. The artisan, mechanic and storekeeper start sharp at 7 a. m. in summer, and 8 a. m. in winter, knock off at 5 p. m. for the mechanic and 6 o'clock for the merchant. The banks and government offices start business at 9 a. m. sharp and close at 3 p. m. How much better health we all would enjoy did we but get into the blankets earlier and turn out earlier these beautiful mornings, the best part of the day. Take the matter up, gentlemen. Once tried, you will not wish to go back to the old system.

OBITUARY

Died, at the residence of her daughter, Mrs. F. D. Laurie, at New Glasgow, Nova Scotia, on Saturday, June 18th, Lady Archibald, widow of Sir Adams Archibald, formerly lieutenant-governor of Nova Scotia, and previously governor of Manitoba. Before her marriage she was a Miss Burnyeat, daughter of Rev. Burnyeat, once rector of Truro, N. S., and an aunt of Mrs. S. T. Hall, of Grand Forks, B. C. Her remains were conveyed to Truro, to rest beside her husband.

S. D. Scott, an editor of the St. John Standard, has resigned, to be come editor of the Vancouver News-Advertiser.

GREENWOOD CELEBRATION

Arrangements are nearing completion that will make our celebration on Dominion Day a record one of a good days' sports and pastimes.

The Mother Lode football team will face a picked team from Greenwood, which will be played in the morning.

In the afternoon there will be baseball games in which Phoenix, Grand Forks, Republic and Greenwood will compete in their order of drawing.

A tug of war, open to all comers, will take place on Copper street, after the finish of the baseball tournament.

Sports of all kinds will follow, program of which will be given later.

Bush's orchestra will furnish the music for the dance at Masonic hall in the evening.

ARE YOU CRAZY?

The performances of this combination of talent was without any exageration the best we have had the pleasure of attending for a long spell. The actresses and actors performing their parts in a most creditable manner, affording a packed house audience a continued round of amusement, it was really good fun; nothing vulgar or unseemly, but straight cause for laughter. Space prevents personal mention of the dramatic personae, and in fact it seems invidious where all done so excellently. The orchestra was a tip top auxiliary, and the music such as we don't hear every day. We take much pleasure in assuring those whose districts they are billed for, that they are in for a first-class evening's entertainment, and by all means to take it in.

FALL FAIRS

In acknowledging the receipt of favors from the outside world, we have to mention with thanks that of Vancouver's Exhibition prize list. As a piece of typo work it is excellent, and the contents fully detail what is about to be set before the visitor as regards its attractions. A trip to Vancouver is good enough for us benighted bushmen, but when there is thrown in a first-class exhibition from the 15th to the 25th of August, it makes it hard to resist. There was but one thing lacking from the bill of fare, and that was a "comp." for the press, which we failed to find in it, and will have to put it down as an oversight on their part in not sending it, but we have no hard feeling in the matter.

Another claimant for the pleasure of our people's company is that of the Vernon Exhibition, which takes place at Vernon on September 15th, 15th and 16th. Their excellent list of prizes is most comprehensive and is a most splendid piece of printers work and would be hard to improve upon. It is a pretty good criterion as to what the show will be when they allow their printer, the Vernon News' to go ahead and turn out a first-class piece of work. It looks good and there is nothing cheap about it. Our staff will go if we hear from Carniegie in time, and the "stuff" is sent.

WOMEN'S LABOR

If we ask why women's labor should be cheap, the answer seems to be partly because her strength is generally less than a man's, but also, and much more, because she does not train sufficiently to become a skilled worker and because she does not organize strongly enough to ask for better pay.

The industrial revolution 150 years ago found women working perhaps quite as hard or harder than they work now. But they were working—they spun, wove, etc.—usually as members of a family. The family was the industrial unit. The growth of capital and the introduction of machinery drew women out of their homes to work in association in the factory. Association gave men the opportunity of combining together and taught them that union might be strength. But for various reasons women have been much longer in learning that lesson.

It is frequently observed by those who have made a study of women's trades that the prospect of marriage makes girls slack about training and indifferent about organization. Here we come upon the central anomaly of the woman's position in industry. The normal woman looks forward to marriage and gives, or hopes to give, her best years to the family. Hence her lack of ability as an industrial worker and her weak position as a bargainer in the labor market.—London Times.

APPROVES OUR NAVY

"Naval and military men in England generally approve the action of the Canadian government in undertaking to form a navy of her own," said Commodore C. J. Eyres recently in Victoria. Commodore Eyres is on his way to China to take charge of the station at Hong Kong, and is fresh from the center of the Empire.

"If it were a matter of getting the best possible results within a set term of years," continued the commodore, "it might have been better to have handed over a lump sum of money and have it expended in the old country, where the problems of a navy have been thoroughly studied for so many years. That, however, is not now generally considered the best way to work out the salvation of the empire. Canada, Australia and the other dominions would hardly have risen to a full sense of their responsibilities in any other way than that now being taken.

"After all, the making of a navy or the building of an empire does not depend on the number of ships which are built, but upon the imperial spirit of the people."

EDITORIAL COMMENT

The following statements by Evangelist Charles Scoville may seem at the first rather startling, and yet on going into it there is some semblance of truth in what he says, when he suggests that great good would result from building bon fires of superfluous churches.

"In too many places," said the evangelist, "the number of churches erected is entirely beyond the need of the community, now and for a long time to come. They are living at a poor dying rate, and it would be better if many of the churches were burned and these people gathered together in one large church, and the surplus money used to carry the gospel into those fields where it has not yet been heard.

"Think of it, 625,000,000 who have not yet heard the gospel at all, and yet in some little cities of a thousand inhabitants you will find from five to seven churches. That town should have one union church. The other five pastors should be released for a needed field."

This may sound very well in theory but to put it into practice would be quite another matter.

OUTLINES OF CURRENT EVENTS

Louis Kirkpatrick, a pioneer of the interior died at Vernon lately.

Japan is fitting out an expedition for discovery of the South Pole.

Nanaimo two Masonic lodges have decided to erect a $30,000 temple.

American theatrical managers propose installing lady ticket seller, in place of gentlemen.

A skull of some prehistoric man was dug up by navvies working on the railway grades near Princeton.

It is estimated that fully $150,000,000 of capital will be brought into the Dominion by the American settlers this year.

Govenor Gillett, of San Francisco, has notified Attorney General Webb, to take steps to prevent the Jeffries-Johnson fight.

The Grand Trunk Pacific people plan to locate their terminal sites in Fort George next year, probably on thereservation.

With earthquakes in Italy, revolutions in Central America, and cloudbursts in Germany, Mother Earth is the busiest planet in the celestial aggregation.

Cap. Thompson, of Seattle, is fitting up a vessel to take a party of Colonist to Peru. About 15 of the 30 he can accomodate have already received passage.

The fruit crop in the Similkameen Valley gives promise this year of an enormous yield. Around Keremeos, where over 1800 trees have been planted within the past five years. The fruit growers will have a busy summer thinning out the crop to prevent injuries to the trees.

Sir Edward Shackleton has purchased a residential frontage in Port Arthur. The winter tempeture in that town appealed to him on account of its Antarctic suggestiveness.

The convicts in a New York prison made an attempt to blow up the building with dynamite. By this method they hoped to escape in sections if they could not file out in a body.

Fort George seems to be the Mecca of all sorts of celebrities. Prof. M. Schenk, a well known physician of Vienna, recently arrived in Kamloops, is the head of a party of Germans who will undertake the trip north on foot.

The American Boy Scout is following the work done so ably by the famous British general. The plan of organization adheres so far as American institutions permit to the Baden-Powell movement, and its aims are the building of character of the American youth. From one end of the United States to the other, says the San Francisco Examiner the best elements of American citizenship are swinging into line to make the American Boy Scout movement greater and better if possible than that of their Anglo-Saxon friends over the sea. Lieutenant General Baden-Powell has gathered within his organization 300,000 British boys. America should enlist five times that number within the next year.

MORE BUFFALO

Alex Ayotte, a special agent of the Canadian government is looking after a shipment of buffalo from the Flathead Reservation to the Canadian buffalo park in Alberta, the animals having been purchased last year by the Canadian government. Forty-six were loaded recently. This will leave about eighty to be shipped in the fall.

D. D. Mann, of the C. N. R, is in Vancouver trying to corrall more False creek property.

Serious brush fires still rage in the vicinity of Fort William.

Crop prospects in the Northwest are excellent.

NOBODY SPARED

Kidney Troubles Attack Greenwood Men and Women, Old and Young.

Kidney ills seize young and old.
Come quickly with little warning.
Children suffer in their early years.
Can't control the kidney secretions.
Girls are languid, nervous, suffer pain.
Women worry, can't do daily work.
Men have lame and aching backs.
The cure for man, woman or child,
Is to cure the cause—the kidneys.
Booth's Kidney Pills cure sick kidneys—
Cure all forms of kidney suffering.

Mrs. N. Good, of 70 Stadacona street, Moose Jaw, Sask., says:

"I am pleased to state for the benefit of any person suffering with a weak and painful back, that they will find Booth's Kidney Pills a most excellent remedy. I have suffered for months with a very weak back and severe pains and aches in the kidneys, and felt very much depressed. There was also a swelling under my eyes. When I learned of Booth's Kidney Pills, I procured a box, and found them the best remedy I have ever used, as they were very quick in giving me relief. The pains have left my back and it has strengthened. They have also helped to build up my health."

SENSIBLE

The Vancouver Province remarks that there is no undue eagerness among the youth of Canada to enter the new Canadian navy. The majority of Canadian lads prefer plowing the fertile lands of the great west to plowing the raging main at $13. a month. And yet applications from English youths and men are coming in daily for enrolement in the navy to be turned down on the ground that only those of real Canadian birth, will be accepted.

The Best Headache Remedy is "Mathieu's Fervine Powders." Prompt and safe. Do not create a habit. Sold by dealers, box of 18 powders 25c. If yours cannot supply you, take for immediate use some so called "just as good article," but send us 25c. and we will mail you a box to use next time your head aches. A trial will convince of their worth. J. L. Mathieu Co., Prop., Sherbrook, P. Q.

Nell—My aunt has not only become totally blind, but she is losing her hearing as well. Belle—Do you think she would consent to go away with us this summer as a chaperon?—Philadelphia Record.

Most cases of baldness are due solely to neglect. The hair often becomes dry and dandruff forms because the hair glands do not supply enough natural oil. Nothing overcomes this deficiency so effectively as that delicately perfumed, refreshing hair pomade, Bearine. Avoid baldness; apply Bearine to your hair occasionally. All druggists, 50 cts. a jar.

DAVIS' MENTHOL SALVE

A thick adhesive ointment, combined with Japanese Menthol and Vaseline, two of the most wonderful healing drugs known.

It soothes, heals and tends to restore those who suffer from **Piles, Earache, Rheumatism, Chafing,** irritated and other skin troubles.

The word "Salve" literally means be well or in good Health. Try Davis' **Menthol Salve** and you will be relieved.

All Dealers.

WATER NOTICE.

NOTICE is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Similkameen Water Division of Yale District.

a.—The name, address and occupation of the applicant. Wallace McKendry, of Anaconda, in Yale District, rancher and smelterman.

b.—The name of the lake, stream or source, is a small creek called Porter creek, running westerly through a part of the applicant's lands, and sinking thereon.

c. The point of diversion. About 75 yards easterly from the applicant's house on the north half of the southeast quarter of Section 29.

d.—The quantity of water applied for, in cubic feet per second. Three.

e.—The character of the proposed works. A dam with ditches and pipes leading therefrom.

f.—The premises on which the water is to be used (d scribe same). Those portions of Lot 1015 and the north half of the southeast quarter of Section 29, in Township 70, lying east of Boundary creek, and the southeast portion of the northeast quarter of section 29 aforesaid, held by the applicant under an agreement for purchase from Robert Wood.

g.—The purposes for which the water is to be used. Irrigation.

h.—If for irrigation describe the land intended to be irrigated, giving acreage. The lands mentioned in paragraph (f) hereof, containing 60 acres, more or less.

i.—Area of Crown land intended to be occupied by the proposed works. Not any.

j.—This notice was posted on the 18th day of May, 1910, and application will be made to the Commissioner on the 28th day of June, 1910.

k.—Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet. Not any.

WALLACE McKENDRY.
Greenwood, B. C.
I. H. Hallett, solicitor for applicant.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

"Elliott," "Tanglefoot" and "Sovereign Fractional" Mineral Claims, situate in Greenwood Mining Division of Yale District. Where located: In Skylark Camp.

TAKE NOTICE that I, C. Æ. Shaw, agent for Fred Moser, Free Miners' Certificate No. B26433, and John Zurfluh, Free Miners Certificate No. B26485, intend, sixty days from date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

And further take notice that action, under Section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 7th day of March, A. D. 1910.

Synopsis of Canadian North-West

HOMESTEAD REGULATIONS.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader.

The homesteader is required to preform the conditions connected there with under one of the following plans;

1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence pon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1. per acre. Not more than 2,560 acres shall be leased to one individual or company. A royality at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior

N. B.—Unauthorized publication of this advertisement will not be paid for.

Copper

New Edition of the

COPPER HANDBOOK

Vol. VIII., issued May, 1909, contains 1,500 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its great bulk. It is filled with FACTS of vital importance to.

MINES AND MINING

In Ymir camp strikes of good ore are reported.

The Slocan district is looking better than it has for years.

The Iditarod excitement has proved a fake and has died away as quickly as it started.

Platinum ore has been found in a vein near Coleman, Alta., and a syndicate has been formed to work it.

Operations are being pushed actively on the Ruth, Richmond-Eureka and Rambler-Cariboo mines at Sandon.

Ore running $74 to the ton in gold has been struck at the 90-foot level in the North Star, near Quilent, Wash.

Activity in the Sheep creek camp continues. Recently a gold brick valued at $9,000 was sent down from the Queen, following closely the one sent from the Nuggett.

The British Columbia Copper company has assumed active management of the New Dominion Copper properties, and development work will soon commence at the Rawhide mine.

The Geological Survey of Canada will have a dozen parties in the field this season. Among the places in which work will be done are the West Fork of Kettle river, Slocan and East Kootenay.

The Midway coal mine continues along very satisfactorily. Late finds of coal indicate an early drift into a seam of distinctly anthracite formation. Mr. Bunting has finished his contract and will probably go to Vancouver or the Northwest.

The directors of the Granby Consolidated Mining & Smelting company took no action of any kind at their meeting recently. Vice-president Graves is said to have completed his report regarding conditions at the property as he found them on his recent trip of inspection.

A Stewart, B. C., dispatch says that a gold reef unknown in extent, but traced for almost twenty miles, lies right at Stewart's door, and according to mining men who, following news of the discovery rushed to the location, it is the greatest free milling reef ever discovered in the north, and perhaps in the world. It is undoubtedly the source of the rough gold which can be found in many of the streams but on account of boulders and the depth to bedrock cannot be profitably worked. Although the Portland Canal district is now full of prospectors, this greatest mineral belt of all lay undiscovered possibly on account of its close proximity to the camp. It is very easy to reach, and in consequence hundreds of men are now treking toward it and it is stated that there will be room for them all to locate, for the great white reef can be seen for miles.

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by all druggists and dealers.

When one hears of the death of a friend in these days it is somewhat of a consolation to know that at least he will never hear any more of the Jeffries-Johnson fight.

One fact is better than ten hearsays,—Ask Doctor Burgess, Supt. Hospital for Insane, Montreal, for his opinion of "The D. & L." Menthol Plaster. The genuine made only by Davis & Lawrence Co.

"These are beautiful vases; what are they made from?" "Rubber, my boy."

Bearine, the standard hair pomade, is made from the grease of the Canadian Bear which has the heaviest coat of hair of any animal. 50c. a jar.

SIR WILFRID LAURIER

The Premier of Canada

By sheer force of ability and the compelling power of character, Sir Wilfrid Laurier has reached the highest position in Canadian politics, and won a name that "must live in the annals of the British Empire." He has overridden obstacles that would have daunted a man of less virile genius and patriotism. Though French was his ancestry and language, and Catholicism his religion, he has become the leader of the destinies of a great English-speaking nation, the larger part of whose people are Protestants.

He was born in St. Lin, Quebec, in 1841, of a family of rebels who fought bravely under Papineau in the revolt of 1837. From the little country school where his teacher, a Scotchman, spurred his ambition and powerfully influenced his life, he passed to L'Assomption College, and in 1864, after completing his course in law, entered the Bar. When he made his début in politics in 1871 as a member of the Quebec Assembly, his magic eloquence, the fearlessness, strength and finality of his words, and the mastery by which he brought order out of chaos, light out of darkness, thrilled his audience.

Three years later he resigned from the Legislature and was returned to the House of Commons on the overthrow of the Macdonald government. In 1876 he became minister of inland revenue, and two years later changes in politics deprived him of this position. He was the acknowledged leader of the Liberals who were the Opposition party until 1896, when after eighteen years of waiting, the reins of government again came into their hands and in the first flush of triumph they made him Premier.

His statesmanship has been broad, liberal, far-sighted; his patriotism and his love of liberty are manifest by every act and word. He loves and cherishes the British Empire, and glories in the part that Canada takes in it; but as a Power of great possibility, sharing with the United States the golden future of the American continent, he demands of England and the world the recognition of Canada, not as a babe in the swaddling clothes of a colony, but as a full grown nation of virility and assured triumph.

Tall, erect, with a handsome presence, clean-shaven face, clear, penetrating blue eyes, a firm mouth, broad shoulders, a brow masterful and dignified, a voice soft, sonorous and ever with the suggestion of unexpended reserve, a smile gentle and soothing as a benediction, with a courtesy and kindness that surround him as an aura—this is Sir Wilfrid Laurier, Canada's greatest orator and statesman.

Copyrighted according to Act of the Parliament of Canada, in the year 1904, by W. C. Mack, at the Department of Agriculture.

CHRIS WAS PREMATURE

Poor Chris Columbus, from his place, somewhere in the silent, windswept space, looks down upon this whirling sphere and wipes away a phantom tear. Perhaps he says, to old Cabot; "Those near-explorers down below are drawing many golden beans by writing for the magazines, and some are knighted by the king, and all are cutting grass, by jing. They're lionized to beat the band, have worshippers on every hand, and what they did is no account; they found a pole or climbed a mount. Oh, Jumping Ginger, when I think of how I sailed across the drink, and wrestled with a grouchy crew, and found a land that no one knew, those cheap explorers down below seem pretty punk to me, Cabot! And when I sailed back home again did I receive the praise of men? Did old Ben Hampton break his neck to load me with a big fat check? Did England's monarch take his sword and make of me a blooming lord? Did medals come from foreign lands, and ribbons blue from princely hands? Not on your whiskers, friend Cabot! My name was Mud, I'd have you know; they chucked me in a prison trap as though I were that Johnsing chap. This fact's as plain as yonder moon—I lived four hundred years too soon!"—Walt Mason.

Burns, bites, bruises and boils. Davis' Menthol Salve will sooth and heal them all. 25c. a tin at druggists.

J. E. McFerran, a B. C. Electric lineman was instantly killed at New Westminster by coming in contact with a live wire.

Chamberlain's Stomach and Liver Tablets will brace up the nerves, banish sick headache, prevent despondency and invigorate the whole system. Sold by all druggists and dealers.

Teacher—"If your father gave your mother ten dollars and then five dollars, what would she have?" Johnnie—"She would have a fit."

Chamberlain's Cough Remedy is sold on a guarantee that if you are not satisfied after using two-thirds of a bottle according to directions, your money will be refunded. It is up to you to try. Sold by all druggists and dealers.

Lord Kitchener has resigned from the British army.

DISLOYALTY

The resignation of W. J. Clement, editor of the Penticton Press, as justice of the peace, has been asked for by Hon. W. J. Bowser, attorney general.

In the Press of May 28 last, Mr. Clement made disloyal reference in an editorial entitled "Mock Loyalty and Mock Mourning," to the death of the late king, and contemptuously referred to the mourning of the British people. So indignaut were the residents of the district over this article, that a band of self-constituted disciplinarians visited the office of the Press and demanded an apology of Mr. Clement. This he refused, and an attempt was made to duck him. Residents of Penticton coming to his assistance, he escaped, and his assailants were fined in the police court.

After a perusal of the article, as well as the subsequent reference in the Press to the visit of the vigilantes, the attorney general wrote to Mr. Clement, expressing his disapproval of the ideas expressed, and asked that the commission of justice of the peace be sent in.

Southern members of the House at Washing are seeking to stop the tide of emigration to Canada.

If you are not satisfied after using according to directions two-thirds of a bottle of Chamberlain's Stomach and Liver Tablets, you can have your money back. The tablets cleanse and invigorate the stomach, improve the digestion, regulate the bowels. Give them a trial and get well. Sold by all druggists and dealers.

AT THE CHURCHES

METHODIST — Rev. I. B. Hibbert will conduct services in the Methodist Church every Sunday. Morning, 11 a. m.; Sunday School, 3 p. m. Evening. 7:30.

PRESBYTERIAN—St. Columba. Services will be conducted morning and evening, 11 a. m. and 7.30 p. m. Sunday School 2.30 p. m. Rev. J. A. Petrie, minister.

CATHOLIC.—Church of the Sacred Heart.—Divine service 1st, thirdand fourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p.m. REV. J. A. BEDARD, O. M. I. pastor.

WHO WANTS TO BE A BALDHEAD?

Thousands of men are daily growing bald and don't know it.

Those persistent germs of dandruff, often called the destructive agents of the devil, are in full possession of the future hair of thousands of Canadians.

They have wonderful endurance, these game little demons, they never stop work, they dig and dig and dig and gnaw and gnaw and gnaw night and day, day and night, with seemingly only one purpose in view, and that purpose to destroy the vitality of the hair and make us a race of baldheads.

What are you doing to protect yourself from the ravishing inroads of these almost unconquerable fiends?

There is only one way, kill the dandruff germ, or the dandruff germ will kill your hair. The quicker you start, the quicker you can win the battle.

The only weapon you need is a bottle of Parisian Sage, the only hair preparation that spells death to the devilish dandruff germ.

Get a bottle today. J. L. White sells it for 50 cents and guarantees it to cure dandruff in two weeks or money back. Direct, charges prepaid, for 20 cents, from Giroux Mfg. Co., Fort Erie, Ont.

THE CAT CAME BACK

Mr. Penn—They say the streets in Boston are frightfully crooked.

Mr. Hubb—They are. Why, do you know, when I first went there I could hardly find my way around.

"That must have been embarrassing."

"It was. The first week I was there I wanted to get rid of an old cat we had, and my wife got me to take it to the river, a mile away."

"And you lost the cat all right?"

"Lost nothing. I never would have found the way home if I hadn't followed the cat."

Lame shoulder is almost invariably caused by rheumatism of the muscles and yields quickly to the free application of Chamberlain's Liniment. This liniment is not only prompt and effectual, but in no way disagreeable to use. Sold by all druggists and dealers.

Mother's voice from the next room: "Willie, come here; you must never listen to your father shaving."

After the age of 50 people find that their strength is not what it used to be, and they frequently suffer from sudden exhaustion, and weak heart action. To all such we reccommend the invigorating tonic **Ferrovium**, composed of fresh beef, Citrate of Iron and pure old Spanish Sherry Wine. Nothing could be more beneficial in such cases. $1.00 a bottle.

WANTED TO KNOW

"Here is an article in this magazine entitled 'How to Meet Trouble,'" said Mrs. Wedderly. "Shall I read it to you?"

"No, thank you," replied her husband. "How to dodge trouble is the brand of information I'm looking for."—Chicago News.

PILES

You will find relief in Zam-Buk! It eases the burning, stinging pain, stops bleeding and brings ease. Perseverance, with Zam-Buk, means cure. Why not prove this? *All Druggists and Stores.—50c box.*

Zam-Buk FOR ALL SUMMER SORES

NOTICE is hereby given that thirty days after date I intend to apply to the Hon. the Chief Commissioner of Lands, for a license to prospect for coal and petroleum on the following described lands, situate in the Similkameen land division of Yale District: Commencing at a post at the southeast corner of Lot 687, being also the southwest corner of Lot 1456s, thence west 80 chains, thence south 80 chains, thence east 80 chains, thence north 80 chains to place of commencement, and containing 640 acres.

Dated this 18th day of May, 1910.
SPENCER BENERMAN.

WATER NOTICE

NOTICE is hereby given that an application will be made under Part V of the "Water Act, 1909," to obtain a license in the Similkameen Water Division of Yale District.

(a.) The name, address and occupation of the applicant: The Consolidated Mining & Smelting Company of Canada, Limited, a Mining Company incorporated under the laws of Canada, and whose Head Office is in the City of Toronto in the Province of Ontario, and whose registered office in the Province of British Columbia is at the City of Trail.

Free Miner's Certificate No. B24042.

(b.) The name of the lake, stream or source is a creek known as McCarren creek, which arises in Central Camp and runs westerly and empties into Boundary creek about 1500 feet below Boundary Falls in the District of Yale.

(c.) The point of diversion: On Lot 3284, at a point about 500 feet above Craigie's saw mill on said creek.

(d.) The quantity of water applied for, in cubic feet per second, is One.

(e.) The premises on which the water is to be used is a portion of said Lot 3284 purchased from the owner of the Lot for use as a site for a Compressor plant.

(f.) The purpose for which the water is to be used is mining.

(g.) The character of the proposed works is a small dam with a pipe line leading therefrom to the Compressor station.

(h.) If the water is to be used for power or mining purposes describe the place where the place where the water is to be returned to some natural channel, and the difference in altitude between the point of diversion and point of return. The water is to be returned into McCarren creek at a point approximately 100 feet above Craigie's saw mill, and above intake of flume to said mill, and the difference in altitude between the point of diversion and point of return is about 25 feet.

(i.) Area of Crown land to be occupied by the proposed works: Not any.

(j.) Give the names and addresses of any riparian proprietors or licensees who, or whose lands, are likely to be affected by the proposed works, either above or below the outlet. D. J. McDonald, the pre-emptor of Lot 3284.

(k.) The capital of the applicant Company is $7,500,000, divided into 75,000 shares of $100 each, and 53,552 shares of said capital stock are paid up and issued.

(l.) The following are copies of such parts of the Memorandum of Association of the Applicant as authorizes the proposed application and works:

"To acquire by purchase, lease, hire, exchange, or otherwise, such timber lands or leases, timber claims, licenses to cut timber, surface rights and rights of way, water rights and privileges, mills, factories, furnaces for smelting and treating ores, and refining metals, buildings, machinery, plant, or other real or personal property as may be necessary for or conducive to the proper carring out of any of the objects of the Company."

"To construct, maintain, alter, make, work and operate on the property of the Company, or on property controlled by the Company, any trails, roads, ways, tramways for the conveyance of ores and other goods of the Company, bridges, and reservoirs, dams, flumes race and other ways, water courses, aqueducts, wells, wharves, piers, furnaces, saw mills, crushing works, smelting works, concentrating works, hydraulic works, electrical works, and appliances, warehouses, buildings, machinery, plant, stores and other works and conveniences required by, or conducive to, any of the operations of the Company, and to buy, sell, manufacture, and deal in all kinds of goods, stores, implements, provisions, chattels, and effects required by the Company, or its workmen or servants."

(m.) This notice was posted on the 18th day of May, 1910, and application will be made to the Commissioner on the 28th day of June, 1910.

THE CONSOLIDATED MINING & SMELTING COMPANY OF CANADA, LTD.

WATER NOTICE

NOTICE Is hereby given that an application will be made under part V. of the "Water Act, 1909," to obtain a license in the Similkameen Division of Yale District.

(a.) The name, address and occupation of the applicant. The Consolidated Mining & Smelting Company of Canada, Limited, a Mining Company incorporated under the laws of the Dominion of Canada, and whose Head Office is in the City of Toronto in the Province of Ontario, and whose [illegible] office in the Province of British Columbia is at the city of Trail.

Free Miner's Certificate No. B24042.

(b.) The name of the lake, stream or source is Boundary creek, a stream running through the towns of Greenwood, Anaconda and Boundary Falls, and emptying into the Kettle river at Midway, in the District of Yale.

(c.) The point of diversion is at the overflow of the dam of the Greenwood City Water Works company, at Boundary Falls, and which dam is situate about 1200 feet above the Falls on said creek; and during such seasons of the year as all water in the creek may be used by said Water Works company leaving none passing over said dam, the point of diversion shall be at a point on said creek immediately below where the water used by the Greenwood City Water Works company is returned into said creek.

(d.) The quantity of water applied for, in cubic feet per second, is Four.

(e.) The premises on which the water is to be used is a Mill Site forming the southwest part of Lot 429, and lying between the Columbia and Western Railway right of way and Boundary creek.

(f.) Intakes with pipe lines leading therefrom to the Applicant's Concentrator on said Mill Site, and pumping stations and pumps.

(g.) The purposes for which the water is to be used are Mining and Milling purposes, and purposes incidental thereto.

(h.) If the water is to be used for power or mining purposes describe the place where the water is to be returned to some natural channel, and the difference in altitude between the point of diversion and point of return. The water taken at the overflow of the dam is to be returned into Boundary creek about 1200 feet below Boundary Falls, and the difference in altitude between the point of diversion and point of return is about 100 feet; the water taken from Boundary creek below the point of return of the Greenwood City Water Works Company's water is to be returned into said creek at practically the point of diversion, and there will be practically no difference in altitude between the point of diversion and point of return.

(i.) Area of Crown land to be occupied by the proposed works. Not any.

(j.) Give the names and addresses of any riparian proprietors or licencees who or whose lands are likely to be affected by the proposed works, either above or below the outlet. None.

(k.) The capital of the Consolidated Mining & Smelting Company of Canada, Limited, is $7,500,000, divided into 75,000 shares of $100 each, and $3,552 shares of said Company are paid up and issued.

(l.) The following are copies of such parts of the Memorandum of Association of the Applicant as authorizes the proposed application and works:

"To acquire by purchase, lease, hire, exchange, or otherwise, such timber lands or leases, timber claims, licenses to cut timber, surface rights and rights of way, water rights and privileges, mills, factories, furnaces for smelting and treating ores and refining metals, buildings, machinery, plant, or other real or personal property as may be necessary for or conducive to the proper carrying out of any of the objects of the Company."

"To construct, maintain, alter, make, work and operate on the property of the Company, or on property controlled by the Company, any trails, roads, ways, tramways, for the conveyance of ores and other goods of the Company, bridges, and reservoirs, dams, flumes, race and other ways, water courses, aqueducts, wells, wharves, piers, furnaces, saw mills, crushing works, smelting works, concentrating works, hydraulic works, electrical works, and appliances, warehouses, buildings, machinery, plant, stores and other works and conveniences required by or conducive to any of the operations of the Company, and to buy, sell, manufacture, and deal in all kinds of goods, stores, implements, provisions, chattels, and effects required by the Company or its workmen or servants."

(m.) This notice was posted on the 18th day of May, 1910, and application will be made to the Commissioner on the 28th day of June, 1909.

THE CONSOLIDATED MINING & SMELTING COMPANY OF CANADA, LTD.

I. H. Hallett, solicitor for applicant.

WATER NOTICE

NOTICE is hereby given that an application will be made under Part V, of the "Water Act, 1909," to obtain a license in the Similkameen Water Division of Yale District.

a.—The name, address, and occupation of the Applicant: The Consolidated Mining & Smelting Company of Canada, Limited, a Mining Company incorporated under the laws of the Dominion of Canada, and whose Home Office is in the City of Toronto, in the Province of Ontario, and whose registered office in the Province of British Columbia is in the City of Trail.

Free Miner's Certificate No. B24042

b.—The name of the lake stream or source is a creek known as McCarren creek, which arises in Central Camp and runs westerly and empties into Bouddary creek about 1500 feet below Boundary Falls, in the District of Yale.

c—The point of diversion is on Lot 2083, immediately above the Falls on said creek and near where the Road from Boundary Falls to Bravard's ranch crosses said creek.

d—The quantity of water applied for, in cubic feet per second, is Four.

e.—The premises on which the water is to be used is a Mill Site forming a part of Lot 429, and lying between the Columbia and Western Railway right of way and Boundary creek, on the southwest part of Lot 429.

f.—The purposes for which the water is to be used are Mining and Milling purposes, and purposes incidental thereto.

g.—The character of the proposed works: A dam with a pipe line leading therefrom to the Applicant's concentrator building on said Mill Site.

h.—If the water is to be used for power or mining purposes, describe the place where the water is to be returned to some natural channel, and the difference in altitude between the point of diversion and point of return. The water is to be returned into Boundary creek about 1200 feet below Boundary Falls, and the difference in altitude between the print of diversion and point of return is about 250 feet.

i.—Area of Crown Land to be occupied by the proposed warks. Not any.

j.—Give the names and addresses of any riparian proprietors or licensees who, or whose lands, are likely to be affected by the proposed works, either above or below the outlet. Mark Christenson, Lot 2083, Boundary Falls, B. C., Sidney T. Smith, Grand Forks, B. C., Isaac N. Hallett, Lot 2724, Greenwood, B. C., Robert Wood, Lot 821, Greenwood, B. C.

k.—The capital of the Consolidated Mining & Smelting Company of Canada, Limited, is $7,500,000, divided into 75,000 shares of $100 each, and 53,552 shares of said Company are paid up and issued.

l. The following are copies of such parts of the Memorandum of Association of the Applicant as authorizes the proposed application and works:

"To acquire by purchase, lease, hire, exchange, or otherwise, such timber lands or leases, timber claims, licenses to cut timber, surface rights and rights of way, water rights and privileges, mills, factories, furnaces for smelting and treating ores and refining metals, buildings, machinery, plant, or other real or personal property as may be necessary for or conducive to the proper carrying out of any of the objects of the Company."

"To construct, maintain, alter, make, work and operate on the property of the Company, or on property controlled by the Company, any trails, roads, ways, tramways, for the conveyance of ores and other goods of the Company, bridges, and reservoirs, dams, flumes, race and other ways, water courses, aqueducts, wells, wharves, piers, furnaces, saw mills, crushing works, smelting works, concentrating works, hydraulic works, electrical works and appliances, warehouses, buildings, machinery, plant stores and other works and conveniences required by or conducive to any of the operations of the Company, and to buy, sell, manufacture and deal in all kinds of goods, stores, implements, provisions, chattels and effects required by the Company or its workmen or servants.

m.—This notice was posted on the 18th day of May, 1910, and application will be made to the Commissioner on the 28th day of June, 1910.

THE CONSOLIDATED MINING & SMELTING COMPANY OF CANADA, LTD.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

"Albion" Mineral Claim, situate in the Greenwood Mining Division of Yale District. Where located: On James creek, Kettle river.

TAKE NOTICE that I, John Gooding, Free Miner's Certificate No. B14146, intend, sixty days from date hereof, to apply to the Mining Recorder for a Certificate of Improvement, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under Section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated the 17th day of May, A. D. 1910.

JOHN GOODING.

TENTS! TENTS!

New shipment just received. See the line. The O. I. C. store, A. L. White, proprietor.

Before you take your departure from Greenwood subscribe for your home paper, $1 for six months, or $2 a year. You will find it full of interest to you wherever you are.

FOR RENT—A 2-room house, neat and nicely furnished, suitable for batching, located side of J. H. McNeil's residence. Other furnished houses for rent. See the Furniture and Stove man, A. L. White.

Make use of the want ad. column. It will do the work for you at less cost and be more effectual.

TOWN TOPICS

James McGregor, of Nelson, is at the Windsor.

A. B. Bennett, of Bridesville, is registered at the Pacific.

Geo. Green, of Vancouver, was a visitor to Greenwood last week.

Jake Saunders done well at the last gun shoot, breaking 21 out of 25.

R. A. Simmonds, of Vancouver, was a visitor to the city last week.

Miss Brown, of Greenwood, is the guest of Mrs. C. F. Edwards, of Phoenix.

L. M. Rice, a civil engineer of Seattle, was in town on a reconnoitering trip.

A. W. Fraser, of Grand Forks, paid a business visit to Greenwood on Wednesday.

Mr. Martin, a Rock Creek rancher, was in town on Wednesday and stopped at the Pacific.

Born—At Vernon, to Mr. and Mrs. E. Collier, C. P. R. cruiser, a son. Mother and child doing well.

Born—To Mr. and Mrs. John Carlson, on June 17, a daughter, which tipped the scales at 10½ pounds.

Miss Banbury, of Boundary Falls, has accepted a first rate situation at Vancouver, and will leave shortly to take the place.

The Argo tunnel is steadly working and has now bored into the mountain 410 feet, and is continually striking new stringers of valuable ore.

C. W. Stevenson, representing the American Type Foundry Co., of Vancouver, made a business visit to the city this week. He is a sociable gentleman and a first-class hustler.

W. J. Mackirdy, who left Phoenix about a year ago to stake land in the Quesuel, will be married to a young lady of that district next month.

E. Hibbert, manager of the Le Roi Two properties at Rossland, has succeeded Paul S. Couldrey as superintendent at the Mother Lode mine, who is going to Peru.

A. A. McIntosh returned to Phoenix recently, after a trip to Fort George. He states there is a great deal of land grafting going on in the much boomed city. He will remain in the Boundary.

Smoking in the gallery in the opera house, during preformances should be stopped at once, being both very dangerous in causing a fire, and highly disrespectful towards the lady patrons.

Wm. Stapleton, of Winnipeg, in the interests of the McKenzie & Mann steamships on the Pacific route, the Royal George and Royal George Edward, was here arranging agencies at this point.

Some low lived villian is again at his dispicable work of dog poisoning in this city. The authorities are on his trail and the medicine he will have to swallow when caught, will effectually stop his barbarous work.

A very sad event at Grand Fork, on Saturday evening last, occurred in the death of Mrs. Ed Ruckle, leaving a husband and a number of small children, including a baby a fortnight old. Much sympathy is felt for these old residents of the Ruckle addition.

The C. P. R. train going east was delayed three hours near Eholt, on Saturday afternoon, from an accident occuring to an ore train which jumped the rails and placed one of the cars directly across the track. It was necessary to transfer passengers to resume the trip.

The too frequent visits of householders to American points across the border near Midway, and not coming back empty handed, has made the custom officials smell a rat, and after a cleverly arranged plan the business is busted and no more money is going out of the country in that direction anyhow.

FINANCIAL STATEMENT

The following is a statement of the subscriptions received and accounts paid by the committee organized to arrange for memorial services which were held in the Auditorium, Greenwood, B. C., on Friday, May 20, 1910, in memory of the late King Edward VII:

ADULTERATION

At the Pure Food Exhibition in London, recently, the public was afforded an opportunity of seeing the way in which so many food stuffs are "faked." Adulteration, it is said, cosists chiefly of five classes which are—the use of preservatives, attractiveness in appearance, substitutions, the introduction of impurities, and the barefaced passing of spurious imitations. At the London exhibition there was exhibited a seven-pound jar of jam which can be bought at an ordinary shop as raspberry and red-currant. As a matter of fact, this and other mixtures are made of turnip, beets, mangolds, carrots, potatoes, glucose, saccharin, and coloring matter, the "pips" or seeds being provided in the shape of sawdust.

Alien laborers are now shut out of Canada.

FOR SALE AT GRAND FORKS

A beautifully situated home, new building in perfect order, with water and electric light, with one and one-half acres surrounding, planted with all varieties of fruit trees and small shrubs, grapes, etc., all in bearing. Will sell en bloc or without furniture if desired. Will sell at a sacrifice price to enable owner to locate at coast immediately. Apply at B. C. Times office, Greenwood.

NOTICE

During my absence of some weeks in the East, I shall be constantly in touch with my office by telegraph, and have made arrangements by which the work of my clients will receive immediate and continuous attention.

J. D. SPENCE.

LOST

A gold cuff link engraved with initials S. T. H. Finder rewarded by leaving same at Times office.

FOR SALE—At Fort George, 1½-acre lots $325.00 to $450.00, adjoining 25-foot lots sold as high as $650.00. Foster & Fisher, 310 Hastings street, Vancouver, B. C.

For Sewing Machine Needles and Oil see A. L. White, the Stove and Furniture man. Phone 16.

RIFLE ASSOCIATION

A meeting of all the old members and also all who will take an active interest in our Rifle club, are requested to meet on Monday night at the court house at 8 p.m. sharp to start the association up again in good shape. Make a note of the date and reserve it for a big attendance.

The beneficial effect of iron upon the system weakened through illness, overwork or anemia, is well known. Ferrovim is a preparation which supplies the valuable element in the most efficient way, combining with it the nourishing qualities of beef and the mildly stimulative effect of sherry wine. Ferrovim costs $1.00 a bottle at druggists.

"The D&L" MENTHOL PLASTER

FOR BACKACHE, SCIATICA, PLEURISY, STITCHES, CRICKS, NEURALGIA, RHEUMATISM

Each 25c. in air-tight tin box; yard rolls $1.00, can be cut to any size.

Beware of worthless imitations.
