Official Agents for Regina Watches.

**The Dominion of Canada** and the **United States Departments of Agriculture are using**

## 'GOPHER DEATH'

On their experimental farms and recommend same, for the killing of all kinds of Gophers ; we have it.

Also we have stocked Messrs. Blundell & Spence Co., London,

## 'PARIS GREEN'

This is the purest Paris Green made, conforming to the British Government tests.

THOMAS DRUG & MUSIC CO,

THE STORE OF QUALITY.

## Do you realize the great and distinct advantage of Buying Your Shoes from us?

It is not the price which makes our Men's Shoes popular, but our Policy of always having the best Shoes possible for the price.

Every Shoe we carry is made specially for us, by the largest Manufactures in Canada and the States.

We are receiving daily shipments of all classes of Men's foot wear.

The time is near at hand when you will be looking for your Spring Shoes, Don't overlook the fact that we can show you a larger range than all the others put together.

## P. W. GEORGE & CO.

The only Exclusive Dealer in Men's Wear in Greenwood

## AN ENTERPRISING COMMUNITY

The farmers of Rock Creek, Rock Creek plateau, Bridesville, Myncaster, and Rock Mountain, have formed a co-operative company to purchase a threshing machine to handle the increasing crop acreage of that progressive farming district.

At a meeting held in Riverside Hall on May 28th, J. G. McMynn, H. A. Pearson and J. Lindsay, were elected Directors of the Rock Creek Threshing Co. for the ensuing year, with S. T. Larsen, Secretary-Treasurer; and a complete threshing outfit, separator and engine, was ordered from the J. I. Case Threshing Machine Co. The capital stock of the company is $1,800, divided into 36 shares of $50 each, which amount will be easily taken up among the farmers interested.

In the past it has been necessary to obtain permission from the Dominion Government to take a machine in from the U.S. side of the Boundary line to accomodate the needs of this growing community, which has now reached the position of being able to furnish their own utilities.

### Local Option in Greenwood,

(CONTRIBUTED)

A meeting on this subject was held in the Presbyterian church last Wednesday night when Dr. Spencer, superintendent for B.C., gave an address on the subject. He said every province in Canada had a Local Option law except B.C. To get this law was the reason of the present campaign. Fourteen hundred municipalities were under local option in Canada, east of the Rockies, and the tidal wave was making itself felt in B.C. In the United States 370,000,000 were living under local option, eleven whole states and parts of sixteen others had gone "dry." It is not a religious question but a business or economic one. The business men were alive to the interests of trade affected by the liquor and were closing saloons at the rate of thirty a day. B.C. has no local option law. Liquor men are donating many thousands to block this effort. They do not trust the people on this question and yet the people keep on making the liquor men rich and themselves poor and in the train of liquordom follows other evils, while men of low morals in councils pretend they are necessary.

The speaker said when the men of business and the workmen generally make up their minds this waste should cease it would soon go, The Local Option League exists (1) to obtain a law (2) to put it into operation (3) to nominate clean men for the legislature and close the 700 bars of the province. Thousands of hotels do run and can run without bars and if the money worse than thrown over the bars of B.C. were turned into other and better channels of trade the people would be well off.

Dr. Spencer is making a tour of the province backed by 35,000 signatures to the recent petitions and by fifty local leagues. A plebiscite will soon be taken; the vote of the province will be in favor of the people having the right to say whether the liquor traffic shall remain or not.

Dr. Spencer spoke Wednesday evening to an attentive audience on the subject of local option.

The Dr. speaks in Phoenix on Thursday evening and in Midway on Friday evening,

W. L. MacKenzie King was sworn in on Wednesday as Minister of the new Department of Labor.

### Geological Survey

The Annual Summary Report of the Geological Survey of Canada for 1908 which is now in the process of distribution, amongst a great amount of useful information has the following items of local interest.

**Phoenix and Slocan**

Mr. O. E. LeRoy reports (pp. 65 68) on the examination of Phoenix Camp, British Columbia, of which it is proposed to publish a map on a scale of 400 feet to 1 inch, prepared under the direction of Mr. W. H. Boyd. The mineralization zone in this camp has an exposed area of about 120 acres; within this area chalcopyrite has been concentrated in ore bodies of enormous size carrying fairly uniform values in gold, silver and copper. The low-grade character of the ore is offset by its fluxing qualities, the size and favourable situation of the deposits and by many economies that can be practised in the handling of a large tonnage.

**Sheep Creek Gold Camp. B. C.**

An account (pp. 18-21) is given by the Director, Mr. R. W. Brock, of the promising Sheep Creek Camp near Salmo, B.C.; in which are many apparently persistent quartz veins carrying good gold value. It is expected that about $250,000 will be recovered from the limited operations of the year, and the outlook is distinctly encouraging for profitable, small mines.

A sketch contour map of Sheep Creek mining camp, near Salmo, West Kootenay—scale 1 mile to 1 inch—has just been issued (May 7) by the Geological Survey. It shows the 41 gold claims staked out north and south of Kootenay Belle mine and Yellowstone stamp mill, up to the end of the autumn, 1908.

### LOCAL NEWS.

The Pacific hotel this week presented a gala appearance with a bevy of pretty entrance students from points surrounding Greenwood.

It is definitely announced that the V.V. & E. will have their steel laid to Princeton by October

W. Wilson was rounding up horses at Midway this week.

Services will be held in the Methodist church as usual on Sunday next. Rev. Rutherford will occupy the pulpit.

The improvement to the Government street tennis courts have been completed and the formal opening will take place tomorrow.

Messrs. Fair, George, Noyes and Raven returned on Wednesday from a tour of inspection to the placer fields of Rock Creek.

Tom Walsh, of the Kootenay hotel, has taken the Bridesville hostelry and will conduct that excellently situated establishment as a first-class tourists' resort and wayfarer's home. The rolling plateaus of Anarchist mountain, where the trout are as thick as frogs in a pond and the prairie chickens fly in flocks like crows, will be the mecca of the health-seeker and the sportsman from Spokane to the coast.

The contention that the people of British Columbia have the right to a local option law is unanswerable.

The "wheel" trouble was settled yesterday. Judge Brown dismissed the case.

It is said that at Peachland a would-be fruit-grower from over the pond planted his trees upside down and pruned the roots.

## MINES AND MINING

**The Argo tunnel at the south end of the city is now in solid rock and two shifts are making things look busy day and night.**

**The Diamond-Texas are still sinking and expect soon to encounter the Providence lead.**

**The lessees of the Crescent are meeting with encouraging results in the way of high-grade ore.**

**The Greenwood-Phoenix Tunnel is in about 100 feet and the work is proceeding in record-breaking style. Mr. Armstrong is expected back in a few days from a trip of inquiry into the practicability of the new tunnel-boring machine.**

**Jack Thompson of the Lucky Shot Syndicate on Providence Creek, reports the present workings on that property as very encouraging, and the ground will be further tested with a diamond drill.**

**A crew of eight men are making things lively at the Bay.**

**The postponed sale of the Dominion Copper Co's properties in Greenwood camp is being held at Vancouver today.**

**W. H. Rambo, of the Rambler mine on Wallace Mountain just below the Alaska, has obtained returns of 984 oz. of silver to the ton from an assay of ore taken from the Rambler.**

**The El Dorada mine at Allegheny, Nev, produced $100,000 in sixteen hours.**

**Canadian Consolidated Mining and Smelting stock is in strong demand and has advanced to $98 per share.**

**The Harvey Peak tin deposit the only minable quantity of that metal known in North America is to be developed the litigation of many years having been lifted.**

**The Standard Oil Co. has completed all the pumping stations and pipelines necessary to pump crude oil in large quantities from the Kansas and Oklahoma oil fields to the Atlantic seaboard, a distance of 1500 miles.**

**As an insulating material mica occupies a place that cannot be filled by any other substance.**

**On Sunday next at St. Jude's church Mr. J. A. Birmingham, who holds a licence from the Bishop for the purpose, will address the congregation, both morning and evening, on work among men by the Brotherhood of St. Andrews. Mr. Birmingham is a fluent and interesting speaker. He will address the children in the afternoon. Services at 8 a.m., 11 a.m. and 7.30 p.m.**

### Successful Westerners

**For the first time British Columbia carries off the highest honors in the graduating class of McGills Medical school. The winner of the Holmes Medal, the big prize, is E. H. Funk of Rossland, B. C. Other western graduates are: J. Clarke, Nelson, C. G. G. MacLean, Victoria, S. S. McEwan, Vancouver, B. C. D. Paton Vancouver, R. Underhill, Weyburn, Saskatchewan.**

## THE COAL STRIKE

### Situation doubtful in the Crow

Various reports have appeared in B. C. papers of recent dates as to the miners having gone back to work, but as in other cases they have proved premature and unreliable. The conference at Macleod, has at least placed before the public in no uncertain manner the fact that the operators are determieed to have there way or no way. The success of arbitration proceedings under such conditions is indeed problematical.

The mine workers, on the other hand, have given the board power to frame an agreement in its entirety, It the operators will, as the mine workers already have done, leave the entire matter in the hands of the board, there will be a settlement; otherwise it is difficult to say what the out come would be.—District Ledger.

### Opening of the A.Y.P. Exposition,

Promptly at twelve o'clock, noon, on Tuesday last, President Taft pressed an electric key in the Capitol at Washington, and the Alaska-Yukon-Pacific Exposition was formally opened to the guests from every part of the world.

The opening exercises were conducted in the presence of a quarter of a million of people. The ceremonies being held in the immense natural amphitheatre on the shores of Lake Washington. The enormous crowd stood silent and awed as the solemn words of Invocation were uttered by the Right Reverend Bishop Edward J. O'Dea, Bishop of Seattle. Not a flag or strip of bunting fluttered from the thousand flag staffs and domes; the entire exposition city awaited with suppressed eagerness the touch of the President's hand.

With the first stroke of the bell announcing the arrival of high noon, the deep sounding whistle from the University Power House taken from the Russian gunboat that announced the transfer of Alaska to the United States years ago, gave response to the flash from Washington, and every wheel of the exposition machinery was set in motion. It was the signal for general pandemonium; and every whistle, bell and siren of the great manufacturies and steamers the sound was taken up, and the great throng gave vent to its withheld enthusiasm. From the top of a giant flag staff two hundred and fifty feet in height, the largest American flag ever made, broke loose and the exposition city was blurred in a cloud of flags, banners, and gayly coloured bunting. Over the blue waters of Elliot Bay came the thundering salute of twenty one guns from ships of the American navy, and re-echoing this rang back the answering reply from the grim muzzles of the guns of the Mikado.

The program marking the most important happening of general interest ever held in the Northwest, was particularly elaborate and interesting. Its commencement was announced by the firing of the National salute from the guns of a mountain battery stationed on the grounds, and this was the signal for the movement of the military march to the general review This was made up of one thousand regular troops, two batteries of mountain and coast artille,y, two companies of cavalry, battalions of marines and sailors from the Japanese cruisers Aso and Soya. These were drawn up in parade rest just back of the ampitheatre.

The formal program opened with the playing of Americana, by Innes' Band at eleven thirty; this was followed by the Invocation by Bishop O'Dea which was brought to a close at the exact minute of twelve.

A magnificent display of daylight fire works followed the throwing open of the fair, and was continued throughout the afternoon.

The opening of the Alaska-Yukon-Pacific Exposition was worthy of the occasion. The presenting of a world's fair, complete and finished was something remarkable in exposition history, and when the fair presented had justified the claims of its builders, and made good the expectations of being the most beautiful exposition built, the natural enthusiasm of the boundless Northwest had sufficient cause for liberal expenditure.

## THE ALASKA MINING CO'Y.

### Promising West Fork Property to be Developed

Articles of Incorporation have been issued to the Alaska Mining Company with Joseph P. Kelly President, James Drum, Vice-President, J. P. Flood, Secretary-Treasurer, and I. H. Hallett, Solicitor, with offices of the company in the Bank of Commerce building, Greenwood.

The organization is for the purpose of developing the Alaska and Buster claims on Wallace Mountain, West Fork of Kettle river. The company is capitalized for 250.000 shares at a par value of $1.00 a share, 100,000 of which are to be held as Treasury Stock.

The first 50,000 shares are placed on the market at 10 cents a share the money to be used solely in the development of the Alaska and Buster claims, on which Joseph Kelly has regularly done the assessment duties since 1900.

This has been in the nature of shafts and open cuts which have proven a regular and continuous silver-lead strike of ore across both claims which varies in width from two and one-half feet to four feet, and which has given assay values running as high as 600 oz. in silver with a little gold.

The property is in shape now to start drifting on ore, and it is thought that $5,000 will demonstrate the property and put it on a paying basis as a shipping mine

The Alaska-Buster is highly recommended by reliable local mining men who consider it one of the proven properties on Wallace Mountain, which locality has a number of claims that show big quantities of $30 and $40 ore which of course can't be touched on account of the lack of transportation facilities other than waggon haulage.

The prospects look good for a railroad up the West Fork next year, and just as soon as it comes Wallace Mountain will become one of the very best mining camps in British Columbia with the Alaska-Buster group one of its banner properties.

### Big Timber Deal

A deal involving $250,000 was put through a few days ago by which C. D. McRae of Calgary, the well known timber king, has transferred his 63 timber limit on North Thompson river to a syndicate of Toronto men. The limits cover 40.310 acres and represent over two million feet of merchantable lumber.

UNION LABEL

FRIDAY, JUNE 4, 1909

The power of the yellow press has made itself manifest in England to such an extent that several prominent members of the nobility have set themselves to the task of steadying the overwrought nerves of the British people.

One belated war enthusiast, however, is still on the jingo platform, and the other day at Winnipeg delivered himself of an effusion that is second only to the nightmares of the National Review.

It really is about time that noble warrior earls should begin to make their representations through official channels before proceeding to alarm the peaceful inhabitants of the Canadian wheat belt, with their sensational reports on the incapacity of the British navy.

A correspondent of the Victoria Times protests against the new regulation placing a bounty on the big horned owl and the golden eagle. It is claimed that these splendid birds are a benefit rather than otherwise and in any case it would be a pity to have them exterminated.

The duties under the new U.S. tariff bill will be higher than those imposed by the Dingley law which the Republican administration was pledged to reduce.

There appears to be no limit to the greed of the protected trusts, and the Payne bill will undoubtedly cause the next political battle in the U.S. to be a straight fight between plutocracy and democracy.

W. T. R. Preston has been awarded $5,000 damages in his suit against a Japanese newspaper which copied a libellous article from the Victoria Colonist. Proceedings are being taken against the Colonist.

Australia's labor ministry has been defeated by the new united opposition under the leadership of ex-Premier Deakin, who will again take charge of the administration.

That the department of mines is taking an active interest in the Kootenay is shown in the arrival at Nelson of O. E. Le Roy who will make a geological survey of Sheep Creek district.

The continuation of negotiations looking to a commercial treaty between Germany and Canada is a virtual admission by the former that this Dominion is commercially important enough to be worth looking after.—Globe

### Farmers Take Money to Canada

An old American farmer from Des Moines, Iowa, lately walked into the immigration offices at Winnipeg, remarking that he wanted to buy a farm and would first look around; that he knew nothing of banks, but had confidence in the Dominion government. He therefore asked his officials to take care care of his old wallet until he had picked his farm. On opening the wallet the officials found $25,000 in greenbacks. It was banked for the old man in the name of the government. This is a good sample of the class of immigrants now rushing into Canada from the states. Nearly thirty homeseekers from the United States reported at the immigration office at Winnipeg Tuesday, and the smallest sum that any one of them had in cash was $5,000.

The Tower Building, the first steel skeleton frame office building built in America, is to be torn down. The site it occupies, together with the premises, 44 to 48 Broadway and 43 to 47 New street, New York city, will be improved with a thirty-eight story office building, to be erected at a cost of $3,475,000,

The Monetary Times says that the finances of the Dominion are in excellent shape.

Spring wheat is well above the ground on the prairies and a bumper crop is expected. There is a good increase of acreage.

## General

The wheat harvest has begun in Texas.

It is reported that Admiral Sir John Fisher will retire in October

7,000 Jap laborers are on strike on the Island of Hawaii.

Mrs. Julia Ward Howe recently celebrated her 90th birthday.

The Grand Trunk Pacific Branch Lines company's million dollar issue has been largely over subscribed.

The Financial Times referring to the success of the Grand Trunk Pacific issue says evidently there it yet plenty of money available in the country and also plenty of faith in the future of Canada.

Stockholm, Sweden, will be the theatre of Olympian games in 1912.

J. P. Roy, president of the defunct bank of St. Jean, convicted of issuing false returns to the Dominion government, was sentenced to five years in penitentiary.

Hon. F. R. Sutherland, ex-Speaker of the House of Commons, has been appointed to succeed Judge Anglin on the Ontario Court of Appeals.

Earthquakes have been felt in Iowa, Illinois, and Wisconsin.

The U.S. army is busy fighting Moros in the Phillipines.

The next Presbyterian General Assembly will meet at Nashville, Tenn.

The Montreal Board of Trade has rescinded a resolution favoring free trade wiih the empire.

At Cobalt $4,400 was taken in at one haul from people selling illegaly, which system is analogous to high license.

John Svanberg, the Swedish champion, won the Chicago Marathon Derby.

The State of Illinois has abolished capital punishment.

Calgary now has an incorporated grain exchange.

Owing to the shortage of flour the price is expected to go still higher.

After spending $125,000, gas of commercial value has been discovered east of Calgary. The well, which is down 3,000 feet, is giving out 1,000,000 cubic feet daily.

### Who's Who?

A benevolent old gentleman stopped at the sight of two similiar-looking infants in a baby-carriage.

"Ah, twins," he said to the nurse. "And how do you know them apart? which is which?"

"This one," answered the nurse, pointing, "is this and that one is that."

"Quite so," said the old gentleman. "But"—indicating the second one—"might not this one be this also?"

"It might," replied the girl; "but then that one would be that."

"And how do you manage to separate them?"

"We put one in one room, and the other in another"

"Indeed! and which one do you put in one room?"

"Sometimes this one, and sometimes that."

"And how do you know which one you're putting in which room."

"We look and see which one is in the other room, and then we know that the other is in which room."

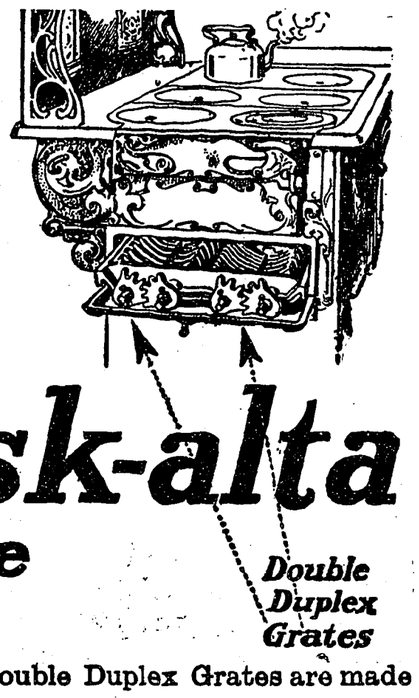
"Good!" said the gentleman. "But if one of them was in the house, and the other was away somewhere, would you be able to tell which was in the house?"

"Oh, yes, sir!" replied the girl earnestly. "All we would have to do would be to look at him, and then we'd know that the one we saw was the one in the house and then, of course, the one away somewhere would be the other. There are only two of them, you see, which makes it very easy."

### Noble Five to Start

The Kootenaion is responsible for the statement that a report comes from Sandon that the Noble Five mine will shortly start up again. This property, which was one of the big shippers in the early days, was purchased by mortgage to Lieut.-Govenor Dunsmuir about seven years ago and promptly closed down. It has been idle ever since and miners have tried in to vain to lease it time and time again. The Noble Five is a rich property and with systematic development will again come to the front. It possesses the first silver-lead concentrator built in the Slocan, and although some what out of date, with a little remodelling will do effective work.

The oven does the baking, the fire-box controls the oven heat, and the grates hold the coal or wood that produces the heat, so THE GRATES are important.



# Sask-alta Range

Double Duplex Grates

"Sask-alta" Double Duplex Grates are made in four pieces, each grate shaken separately. Ashes over one grate can be shaken without wasting good fuel over other grate. No poking necessary, thereby saving fuel. Dampers at both ends of fire-box secure perfect drafts. When grates are inverted for wood a patent clamp retains them in position. The easiest-working way is the surest-serving way—and that's "Sask-alta" way.

A prominent physician, famous for his success in the treatment of kidney and bladder diseases, attributes a great deal of his success to the following simple vegetable prescription:—

One ounce Fluid Extract Dandelion;

One ounce Compound Salatone;

Four ounces Compound Syrup Sarsaparilla;

Mix, shake well, and take in teaspoonful doses after each meal and again at bedtime.

Your druggist can supply the ingredients, and the mixture can be prepared at home at very little expense.

This, the doctor says, acts directly on the kidneys, assisting them to filter the poisons from the blood and expel same in the urine, at the same time restoring the kidneys to healthy, normal action.

We feel that a great many readers will be pleased to learn of this simple prescription, and knowing the ability of the physician whose formula it is, we do not hesitate to recommend it to any sufferer.

# Copper HANDBOOK.

(New Edition issued March, 1908.)
Size: Octavo. Pages: 1228.
Chapters: 25.
Scope: The Copper Industry of the World.

Covering; Copper History, Geology, Geography, Chemistry, Mineralolgy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Miner needs the book for the facts it gives him regarding Geology, Mining, Copper Deposits and Copper Mines.

The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.

The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

Price: $5.00 in Buckram with gilt top, or $7.50 in full library morocco.

Terms: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

# PILES FOR FOUR YEARS

**Only those who suffer from Piles can know the agony, the burning, throbbing, shooting, stabbing pains which the ailment causes, and the way it wrecks the sufferer's life.**

Zam-Buk is blessed by thousands who used to suffer from piles, but whom it has cured. One such grateful person is Mrs. Elizabeth Taylor, of Greenwood Avenue, Toronto. She says:—"For four long years I suffered acutely from bleeding piles. During that time I spent an immense amount of money on 'remedies' and doctor's prescriptions but got no ease. Zam-Buk was different to everything else I had tried, and it cured me. I am grateful for the cure, and as I have never had piles once since, I know the cure is permanent."

Another thankful woman is Mrs. E. A. Gardiner, of Catalina, Trinity Bay. She says:—"In my case Zam-Buk effected a wonderful cure. For twelve years I had been troubled with blind, bleeding, and protruding piles. I had been using various kinds of ointments, etc., but never came across anything to do me good until I tried Zam-Buk, which cured me. That this may be the means of helping some sufferers from piles to try Zam-Buk, is the wish of one who has found great relief."

Zam-Buk is a purely herbal balm and should be in every home. Cures cuts, burns, bruises, eczema, ulcers, blood-poisoning, prairie itch, sunburn, blisters, sore feet, summer sores, and all diseases and injuries of the skin, etc. All druggists and stores at 50c. box, or from Zam-Buk Co., Toronto, for price.

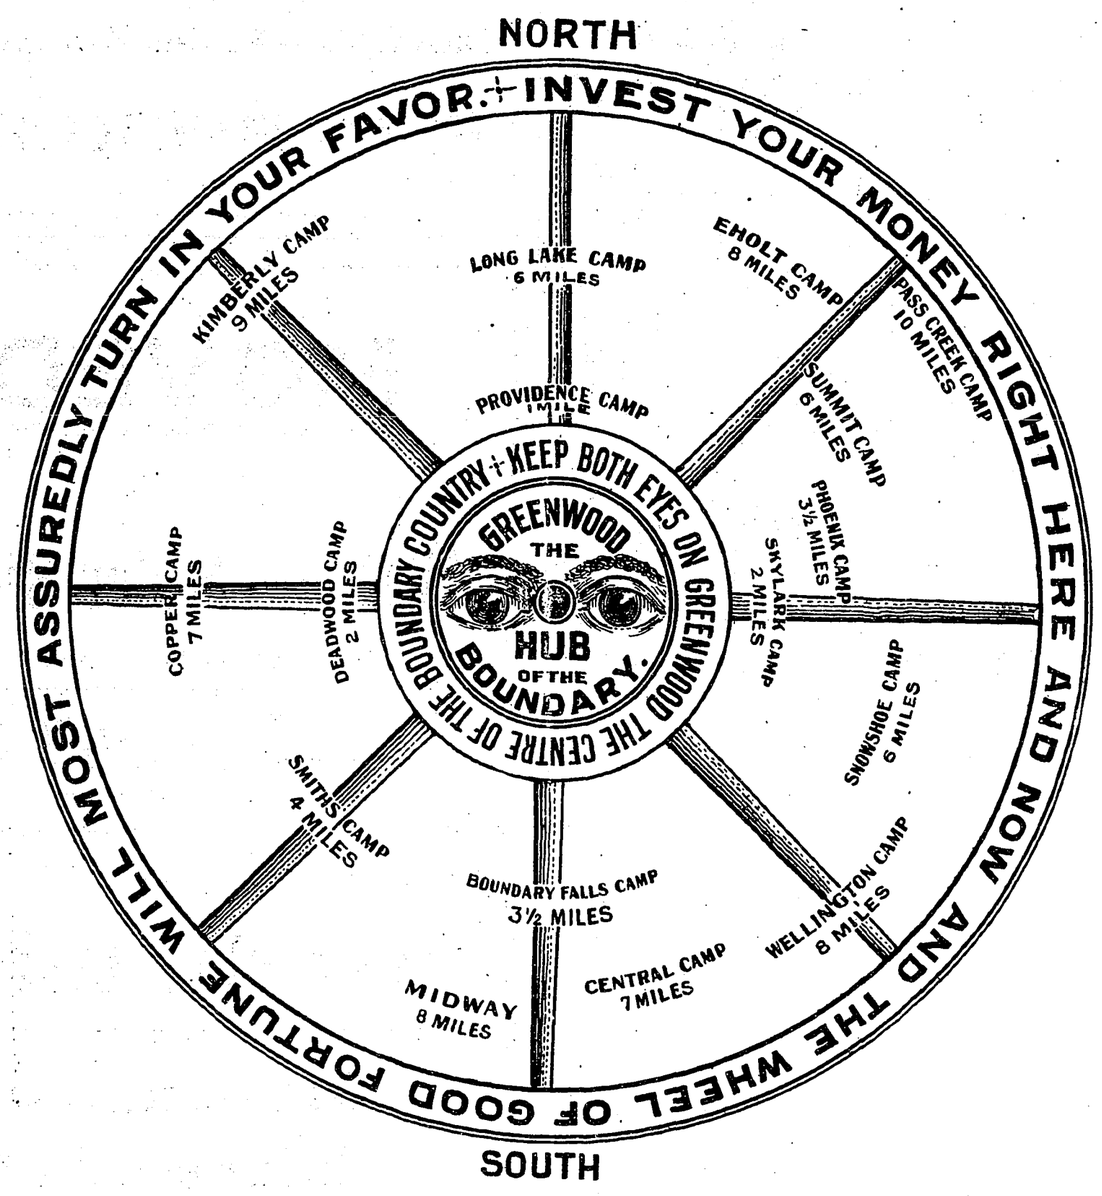
# GREENWOOD THE HUB OF THE BOUNDARY.

## Keep Both Eyes on Greenwood.



The City of Greenwood is surrounded by Mining Camps, which have great bodies of low-grade ore, and some of the richest high-grade veins that have ever been discovered.

Greenwood has big Smelters and proven mines, and a mineralized area of boundless possibilities.

There is now a revival of mining in the Boundary Country, of which Greenwoood is the Centre.

The day is near when as many thousands of men will be employed in the Boundary mines as there are hundreds now.

All that is required is more capital to work the wonderful deposits of mineral in the richly favored Boundary.

For information, Address.

FRED'K. W. McLAINE, Secretary Greenwood Board of Trade.

## Synopsis of Canadian North-West

### HOMESTEAD REGULATIONS.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader.

The homesteader is required to preform the conditions connected there with under one of the following plans;

1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence pon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1. per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior

N. B.—Unauthorized publication of this advertisement will not be paid for.

# Everybody Agrees

that **COD LIVER OIL** and **IRON** are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of **FERROL**, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

# FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed **FERROL** and used it largely in their practice. **FERROL** is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and
