BOARD OF TRADE RESOLUTIONS

The following resolutions, passed by the Greenwood Board of Trade, and forwarded to Ottawa last week, is an earnest of the excellent work being done by the citizens of Greenwood this first month of 1910. The value of the railroad connection from Denoro to Midway to the district is hard to estimate, but it will be a distinct boon to Greenwood and the neighbornood, and no effort should be spared to assist the Board of Trade in their good work to provide an additional through railway for this growing section, and after all, it is only a part of the original agreement between the charter owners and the province that the Greenwood Board of Trade is urging the Dominion government to have carried out. The following are the resolutions sent to Ottawa:

Whereas, the Vancouver, Victoria and Eastern Railway and Navigation company was incorporated by Chapter 75, of the Statutes of 1897, of the Province of British Columbia, and its works were, by Chapter 89 of the Statutes of 1898 of Canada, declared to be works for the general advantage of Canada, and as such became subject to the legislative authority of the Parliament of Canada and the provision of the Railway Act.

And, whereas, the said company has filed at Ottawa a route map of the said railway as amended to supercede the place approved by the Honorable the Minister of Railways and Canals on February 28th, 1906, which last mentioned plan superceded that approved on June 26th, 1905.

And, whereas, the said route map and plans show that the line of said railway shall extend from Grand Forks to Midway by way of Denoro and Greenwood

[illegible] westerly, making at [illegible] authorized connections with American lines, and has failed to construct the road between Grand Forks and Midway along the line indicated on the plans heretofore approved.

And, whereas, the said company has failed to file the plan of said road with the registrar of deeds at Kamloops, as required by Section 163 and Sub-section 2 of Section 164 of the Railway Act, and has nevertheless constructed portions of the railway in violation of section 168 of said Act.

And, whereas, the Act incorporating the said railway company provides that the road shall be built from Burrard Inlet, through the valley of the Fraser river and the southern part of of British Columbia by the most direct feasible route to the Columbia river and the city of Rossland.

And, whereas, no portion of the railway has been built from Rossland to Laurier, or from Grand Forks to Midway through Southern British Columbia.

And, whereas, it has come to the notice of the Greenwood Board of Trade that the said railway company is again making application to the Parliament of Canada for an extension of time for the completion of the railway.

Therefore, be it resolved, that the Greenwood Board of Trade protests against the granting of any concessions to the Vancouver, Victoria and Eastern Railway and Navigation company until it shall have constructed a road from Grand Forks to Midway by way of Denoro and Greenwood and otherwise fulfilled its obligations to the southern part of British Columbia, as contemplated in the legislative enactments respecting said railway.

And be it further resolved, that copies of this resolution be forwarded to the Right Honorable Sir Wilfrid Laurier, premier; Martin Burrill, Esq., M. P., for the district of Yale-Cariboo; the Hon. W[illegible] Templeman, the Hon. Senator [illegible] and the secretary of the railway committee of the house.

Certified a true copy of resolution passed at a special meeting of the Greenwood Board of Trade held at its chambers on the 14th day of January, 1910.

E. G. WA[illegible]
President.

F. W. McLAINE,
Secretary.

MUSICAL HIGHLANDERS

The Musical Highlanders, who appeared at the Auditorium on Wednesday night, played before a very large audience for Greenwood and received much applause and many encores. The program was not as Scotch as the bill had lead the public to expect. Mr. Arthur Strang is a host in himself as an every day common or garden hen-pecked husband or the ever sleepy Scotch recruit he was equally good and has a clear fine pleasing voice. His duetts with Miss Mary Strang, his sister, were especially well rendered. One of the sweetest sopranos heard in Greenwood for a long time was Miss Olletis Werner, and she received quite an ovation. The violiniste of the evening caught the popular taste with her selections and deserves great credit. It is hoped that the Curling club, under whose auspices the Musical Highlanders came here, will use their patronage again and give us all another musical evening.

JOSEPH MARTIN, M.P.

A cable to Premier [illegible] from London states that Martin, Liberal, former [illegible] Columbia premier, was [illegible] several years ago. He was defeated in a by-election last year.

NEXT MONDAY

The Hockey game of the season will take place at the skating rink on Monday next, January 24, between Greenwood and Phoenix. Be sure to take this in. It concerns you. Help the local team, be prepared to root loud and long.

VESTRY MEETING

The annual vestry meeting of St. Jude's parish will be held on Wednesday, January 26, at 8 p. m., in the church. This meeting is open to all parishioners and it is hoped that there will be a large attendance.

A NEW BANK

Notice is given in the Canada Gazette that application will be made to parliament at its present session for an act to incorporate the Bank of Saskatchewan, to transact a general banking business in Canada and elsewhere.

A GREAT FLIGHT

Paulhan flew from Los Angeles to San Pedro and back last week, at top speed, in his Farman biplane.

THE ST. EUGENE

In 1909 the St. Eugene mine at Moyie produced $705,000 worth of ore and employed 350 men.

Any fool can make a woman talk, but it requires a very clever man to make her listen.

HOME RULE FOR IRELAND

Now that the British elections are over the natural question is, will Ireland get home rule? Separated from the great centre of the Empire, by an angry sea, the fertile island to the west of Great Britain has for many years been the home of discontent, based principally on the fact that it is governed, or misgoverned, by the English, and that its cry for home rule has received no adequate response from the British government. And yet Ireland has many claims to advance for a similar independence to that obtained by other portions of the great Empire. Local government, subject to the maternal supervision of the great mother of nations, would not of necessity end in separation, any more than Canada or Australia is separated from the mother country through their system of self government.

Great men throughout the world have seen the first light of day in the green fields of the Emerald Isle.

There has not been an English general since Marlborough. Wellington was born at Dangan Castle, Meath, of an old Irish family called Wesley, and christened in Dublin. Wolfe was born at Ferneaux Abbey, Kildare, and christened at Westerham—nearly in the same case as the Brontes (Brunty). His grandfather defended Limerick against William III.

Sir John Moore and the Napiers were Scotchmen; so was Abercrombie (Egypt); so were Napier of Magdala, Crawford and [illegible] Neill, Nicholson, the two Lawrences (Irish), Edwards (Welsh), and Rose (Scotch). Whether Scotchmen like to be called English or not, certainly Irishmen do not.

STRUCK IT RICH

Hon. C. H. Mackintosh, formerly of Rossland, is likely to make another fortune in mining. When the British America Corporation was organized Govenor Mackintosh was made its managing director and on its behalf purchased $5,000,000 worth of mining properties in the Rossland camp, including the Le Roi, for which $3,500,000 was paid. The Govenor made a considerable fortune at that time estimated at about $300,000, which he lost in speculating in real estate and in mines He has however, kept in touch with mining affairs and he has now a silver property in Gowganda that will probably make him rich. The vein is well defined and runs thousands of dollars to the ton.

PEACE IN SIGHT

Negotiations for peace are said to be on again between the Nicaragua revolutionists and President Madriz. The tragic drowning of Fornos Diaz, Estrada's peace envoy, who fell into the sea when he was about to land for a meeting with the commissisner of Madriz, halted the negotiations a few days ago.

FIRST TO ARRIVE

J. R. Jackson, member-elect for Greenwood was the first among the members of British Columbia's twelfth parliament to arrive for the session, at Victoria. It is expected that virtually all will this session make their headquarters at the Empress Hotel.

There has not been a single failure of a national bank in Washington and Montana during the past three years, according to E. T. Wilson and F. H. Luce, government examiners, who cover the two states.

GREENWOOD-PHOENIX TUNNEL

Once more work on the great tunnel to Phoenix is in full swing. The newly installed drill compressor started at 9 o'clock Wednesday morning. Two hundred and twenty-six feet was driven by hand, and now the rate of progress with the drills will be very much accelerated. There are 22 men employed, superintendent, 8 miners, 9 muckers, 2 compressor men and 2 blacksmiths. The complete equipment is now ready for continuous work and the management expects to make from 12 to 15 feet per day.

Great Credit is due Duncan McIntosh, the superintendent, for the business-like way in which the machinery has been installed and for the economical handling of the entire work. The tunnel is a model one from the entrance to its face, and everything is very much ship shape.

There is no doubt that after the first 800 to 1,000 feet have been driven that the first of the many rich veins of ore to be encountered will be in place to encourage the promoters of this gigantic mining venture. The Greenwood-Phoenix tunnel has the good wishes of the community.

THE RAJAH

The Rajah, with his many pretty wives, was at the Auditorium last week. The operetta was highly amusing, in spite of the fact that only a small part of the orchestra was in evidence [illegible] and altogether lovely. With a better musical box, more wives, some plot and less patter, the Rajah would be much improved. It drew a large house however and left many impressions in its wake such as "toosies."

☐ All is not literature that litters.

THE BRITISH ELECTIONS

It will be some days before the final returns are available in re the British elections. The Liberal ministers are confident of a working majority. Returns to date are as follows: Unionists 120, gains 51; Liberals 98, gains 11; Nationalists 28, gains 0; Labor 19, gains 2.

THE TALKING PICTURES

A bumper house greeted the first appearance of the Dreamland Theatre Co.'s Cromophone Talking pictures last week. The excellent entertainment afforded general satisfaction. The pictures were capital, and it is hard to realize that one is not actually viewing the originals, for every action was accompanied by a similtaneous vocal reproduction. Thursday's evening's program comprised songs by Harry Lauder, Ada Jones and Len Spencer. In addition were four splendid reels of moving pictures. Miss Jean McKenzie sang sweetly and well, her voice being a well trained mezzo soprano. The singing of Annie Laurie called for a rousing encore. E. R. Mack sang a capital illustrated song entitled "It Looks Like a Big Night Tonight," which was much enjoyed. The Dreamland Theatre Co. are leaving for a trip to the coast next week and will play a return engagement in Greenwood in about six weeks.

WHERE IS COOK?

The Frankfurter Zeitung is informed that Dr. Frederick A. [illegible] the explorer is reported as having been seriously affected by recent events. The paper makes no explanation as to who made the arrangements referred to, where Cook is now, or when he will arrive at the sanitarium.

So far as is known, no widow ever eloped.

ENVIRONMENTS DANGER

Environment has much to do with the moulding of individuality, and many individualities, when grouped together, make a people, with their peculiar national traits and characteristics.

Doubtless George II., of Tonga, king of a group of 150 small islands in the far Southern Pacific, has an idea that he is the foremost ruler of this self important spheroid. A clear case of insular conceit, the direct effect of environment. Even his diminutive capital city, which calls itself Nukuolofa, and which rejoices in the fact that it is the largest aggregation of dwellings in the many island kingdom, fancies itself a formidable rival of London or Paris.

We are told that Southerners are indolent and slow, and that the effects of a warmer climate, and easier conditions of life, make the daily bread seeker in the tropics, like his surroundings, easy-going, shiftless but sunny tempered, and no doubt it is true. We are told that amongst the snows and chills of winter in our Northern climes, in close proximity to mighty mountains, rushing torrents, and gigantic forests, where the struggle for life is keen and earnest, we will find a sturdy, energetic race, eager and watchful, alert but cold.

We humans grow too much like our surroundings and allow ourselves to be subjugated by the conditions of life in which, by providence, we are placed. It is imperative that we should place local inaction under our feet and be indifferent to the influences which go to make us like the locality we live in. It is imperative that we be different to the drifting majority, be broad where ot[illegible] narrow, and be sanguine, hopeful—even optimistic—where so many are blue, pessimistic and inanimate.

We speak of the insular prejudice of the Englishman—the narrow-mindedness of old country people. We British Columbians have a species of both, even worse. We, who can only see good in our own individual walks of life, who have got into an interminable rut, have grown like our buildings, unpainted and uncared for, and let ourselves drift with the tide during the past few years of inactivity and lack of hustle and bustle, instead of rising above the waves of local conditions, compelling the betterment of poor conditions of life by our own endeavor and interest in affairs, are victims of environment and have no cause to speak of the dwellers of the small islands that lead the world as being encased in a shell of insular pride and prejudice. It is up to us to get out of the rut when we realize it is too deep, to try to achieve only the best under even the worst conditions, to remember our town is not the only place in the world, nor our national mode of life the only factor in civilization, that there are other fields where one can struggle through a part in life's comedy—perhaps with better success, and make room for someone whose character is stronger to combat the dangers of too long an acquaintance with the one scene of act one, and take a new part in a new play with new life and new hopes and new environment, and try hard to make a hit.

EDITORIAL COMMENT

Although Spring is not yet, several Greenwood bachelors' fancies are springing stunts that look like love.

Thanks to the Electric Light Co., we have had our pipes thawed out and the press power is free once more. We can now print everything except postage stamps and five dollar bills.

The Greenwood Board of Trade is doing a great work. Be sure and read their fine resolution on the front page. We need that G. N. railroad connection from Denoro to Midway badly.

OUTLINES OF CURRENT EVENTS

Fred Clark is Mayor of Grand Forks.

New York is planning a world's fair in 1913.

L. D. Taylor is the new mayor of Vancouver.

Harold Selous is reelected mayor of Nelson.

Mayor May, of North Vancouver, was re-elected.

Sixty rinks are entered in the Sixth annual bonspiel at Regina.

General Booth predicts the end of the world will take place soon.

Halley's comet will be at its nearest to the Earth on May 10, 1910.

Louis Paulhan reached an elevation of 5,000 feet, in his aeroplane at Los Angeles, last week.

Thirty-one lives were lost when the schooner Czarina went down down in Coos Bay, near San Francisco, last week.

Harry Wright, M. P. P. for Nelson, was tendered a complimentary banquet last [illegible] the people of Nelson.

[illegible] Aviation week at Los An[illegible] was especially interesting for the number of passengers taken on each flight, without mishap.

Calgary's new hospital is completed at a cost of $150,000. The building is five stories high and has accommodation for 200 patients.

A wide spread revolutionary plot has been unearthed in Lisbon aimed at the Government and King Manuel. Over 40 arrests have taken place.

Charlie Rankin, of Cleveland, Ohio, broke the world's indoor skating record January 13, when he skated the half mile in one minute, sixteen and four-fifth seconds.

Rev. Father Dundurand, the aged priest in the Archbishop's palace, St. Boniface, is one of the few survivors who recollect the last visit of Halleys comet in 1835. He was born in 1819.

Pat Welch of Spokane, has been awarded the contract for the completion of the V., V. & E. line from Abbotsford to Hope, about 50 miles in length, and work will commence on it some time next month.

The Nobel prize for physics has been divided this year, one-half being given to Guglielmo Marconi for his development of wireless telegraphy, and the other half to Prof. F. K. Braun of Strasburg University, Germany, for his work in radio-activity.

The engagement is announced of Miss Daisy Hodges to Mr. Blair Livingston Sackett. Miss Hodges and Mr Sackett served as maid of honor and best man at the marriage of Miss Marion Hodges to Arthur Austin, last July; making the announcement now of special interest to their friends. The wedding will probably take place during the coming summer.—Grand Forks Gazette.

The King is presenting to South Africa the table on which he signed the South African Union Act, and the inkstand and gold pen he used on that occasion, With these will be sent the Commission giving the Royal Assent, and the parchment to which the Great Seal in orange wax will be attached.

Former President Roosevelt's African hunting trip will result in enlarging the Smithsonian collection by 6,663 skins. The collection consists of hides of 243 large mammals, 1,500 small mammals, and 1,356 stuffed birds. Human skulls picked up along the line of the ancient slave trail are also included.

An exraordinary accident occured lately at Raibl, in Austria. The sudden collapse of the site of a disused mine completely engulphed a small hospital building. Not a vestage of the hospital remained and only a huge cavity appeared in the ground. Seven inmates of the hospital, including Surgeon Wesseley and his family perished.

NEW DEPOTS

Two of the most handsome railway stations in the Northwest are being completed by the Great Northern at Everett and Wenatchee. Each structure is an important addition to the improvements of the city in which it is located. Other cities along the Great Northern are in line for similar accommodations as the Hill line is sparing no money to cater to its patrons in the best [illegible] style. As W[illegible] [illegible] handled, it has a station far ahead of anything to be found in another town of its size. But it is growing so rapidly that it won't be long until the town is abreast of the improvement.

REACH NEW GOLD FIELDS

Several new surveys are being undertaken by the Temiskaming & Northern railway in an effort to discover the best route into the gold fields. This will be determined not only by the condition of the country, but also by the direction in which the gold quartz runs.

Have you a weak throat? If so, you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another, and the last is always harder to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by all druggists and dealers.

THE BRITANNIA MINE

It is rather interesting to note that the Britannia copper mine, near Vancouver, originally promoted by an old Spokanite and pioneer of both the Boundary and Libby, Mont, districts, Howard C. Walters, promises at last to make good and prove a big profit owner. The present owners are spending $30,000 a month in developing and equipping it.

The busiest and mightiest little thing that ever was made is Chamberlain's Stomach and Liver Tablets. They do the work whenever you require their aid. These tablets change weakness into strength, listlessness into energy, gloominess into joyousness. Their action is so gentle one don't realize they have taken a purgative. Sold by all druggists and dealers.

AN AMERICAN GIRAFFE

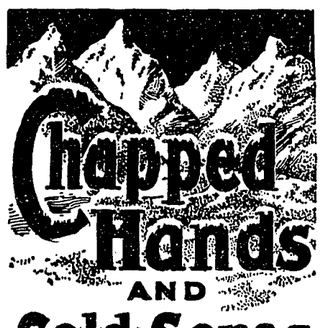
A male giraffe, said to be the first ever born in captivity, was born last week at Bridgeport, Conn., in the circus winter quarters.

KING GEORGE TUBOU II.

From Tonga, in the South Seas, comes the news of a royal marriage, King George Tubou II. of Tonga, having recently married Aan Seine-Takibo, a Tongan girl, 16 years of age, and of high rank. The king was a widower, his first wife having died in 1902. Immediately after the marriage ceremony, which was performed by a Church of England minister, chaplain to the king, the new Queen was crowned, and the British consul lead the cheers in the royal chapel. Over 200 persons participated in the wedding breakfast.

PRIMATE OF CANADA

The most Rev. S. P. Matheson, Archbishop of Ruperts land, and primate of Canada, accompanied by his daughter, is visiting Victoria.



Are your hands chapped, cracked or sore? Have you "cold cracks" which open and bleed when the skin is drawn tight? Have you a cold sore, frost bite, chilblains, or a "raw" place, which at times makes it agony for you to go about your household duties? If so, Zam-Buk will give you relief, and will heal the frost-damaged skin. Anoint the sore places at night, Zam-Buk's rich healing essences will sink into the wounds, end the smarting, and will heal quickly.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked that it was agony to put them near water. When I did so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything [illegible] I thought I would try Zam-Buk. The same soothed the inflammation, and in a very short time healed my hands."

Zam-Buk also cures chafing, rashes, winter eczema, piles, ulcers, festering sores, sore heads and backs, abscesses, pimples, ring-worm, etc., cuts, burns, bruises, scalds, sprains. Of all druggists and stores, or post free from the Zam-Buk Co., Toronto. Price 50c a box.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

"Paymaster Fractional" Mineral Claim, situate in the Greenwood Mining Division of Yale District. Where located: In Graham Camp, south of and adjoining Granada mineral claim.

TAKE NOTICE that I, George R. Naden, Free Miners' Certificate No. B27297, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under Section 37, must be commenced before the issuance of such Certificate of Improvements. Dated this 11th day of October, A. D. 1909.

28 GEORGE R. NADEN.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No *honest* dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

Snynopsis of Canadian North-West

HOMESTEAD REGULATIONS.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the loca land office for the disrict in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader.

The homesteader is required to preform the conditions connected there with under one of the following plans;

1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence pon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1. per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior

N. B.—Unauthorized publication of this advertisement will not be paid for.

Copper

New Edition of the

COPPER HANDBOOK

Vol. VIII., issued May, 1909, contains 1,500 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its great bulk. It is filled with FACTS of vital importance to.

THE INVESTOR
THE SPECULATOR
THE METALLURGIST

MINES AND MINING

Thirteen of the largest mining companies of the Black Hills, South Dakota, have agreed to employ nothing but non-union men.

Surveyors are now busy making a straight line from the United mine to the Highland concentrator at Ainsworth. The object is an overhead tramline, the length of which will be about three miles.

The Granby company will shortly offer for sale 13,500 shares of treasury stock at $85, to pay off the indebtedness incurred by its purchase of an interest in the Crow's Nest Pass Coal and Coke Co.

According to the annual statement of the Crow's Nest Pass Coal company, issued December 30th, a dividend of 8 per cent is to be resumed. Production has increased at the mines of output of 3,000 tons a day in July to an average of about 4,000 tons in December, and in addition new management has conserved interests of the company and shareholders by setting aside ten cents per ton for depreciation.

A strong and influential syndicate, headed by John W. Gates, the Chicago millionaire, and which numbers amongst its members several prominent German financiers, has been formed for the purpose of erecting in the vicinity of Toronto a modern smelting plant. The plant will be one of the finest on the continent, and it is estimated that the cost will be two million and a half dollars. It is understood that negotiations for a site are now in progress. It is the intention of the promoters to form a close corporation and to obtain its principal revenue from the refining of Cobalt ores, much of which now, necessarily, is taken to New Jersey. The plans for the proposed plant are now being prepared in Ottawa.

If Taken in Time "The D. & L." Emulsion will surely cure the most serious affections of the lungs. That "run down" condition, the after effects of a heavy cold, is quickly counteracted.

The south pole is no doubt beginning to feel as if it were already visited.

OLA LOFSTAD, President. A. S. BLACK, Secretary.

COAST NEWS

The Traders Bank of Canada has opened a branch in Vancouver on Hasting street.

The Canadian club of Victoria tendered a luncheon to William McKenzie, president of the Canadian Northern Railway last Friday. About 150 people attended.

Another Board of Trade was organized at the coast last week, to be known as the South Vancouver Board of Trade covering New Westminister and District and South Vancouver.

The Vancouver Board of Trade has invited Sir Wilfrid Laurier to a complimentary banquet, and the hope is earnestly expressed that the premier will visit the west when the Ottawa house rises.

Practically all the large shipments are new going west to Vancouver. Such is the report of Grain Inspector Hill, of Calgary. He states that from 20 to 25 cars per day are passing through Calgary for shipment by the western route.

ROCK CREEK NEWS

Lt. Col. W. H. A. Glossop left on a trip to Mexico on the 6th.

Mrs. J. Blackadder is spending a week or so with Mrs. Salmon at Midway.

The fruit trees in the valley are wintering well and the younger trees should make a good growth next summer.

H. Nicholson, J. P., mining recorder, is opening up an office here, and intends using Crawford's old store building.

J. Madge, H. D. Hamilton, J. Blackadder, H. K. King and H. W. Farmer were among the visitors to Greenwood from this district during the week.

Last Tuesday, Becket Hussey exhibited a series of stereoptican views and moving pictures at Riverside hall, and Charles King delighted a large audience with songs innumerable.

Chamberlain's Cough Remedy is not a common, every-day cough mixture. It is a meritorious remedy for all the troublesome and dangerous complications resulting from cold in the head, throat, chest or lungs. Sold by all druggists and dealers.

RUSH FOR IDITAROD

Hundreds of men are waiting in Seattle to start for the new Iditarod gold diggings as soon as it is possible for them to get into the country overland. Two old prospectors went north with a dog team Wednesday night by steamer, intending to go over the trail from Seward ahead of the stampede.

The most meagre reports came from the new camp, Most of them say there is plenty of grounds. but it is not as rich as the Klondike. The miners already on the scene have staked everything for miles, but the stakes will be ignored when the stampede begins. If the pioneers find the trail passable in winter the waiting miners will not loose any time in starting north.

Chamberlain's Cough Remedy is a very valuable medicine for throat and lung troubles, quickly relieves and cures painful breathing and a dangerously sounding cough which indicates congested lungs. Sold by all druggists and dealers.

MARK TWAIN

Mark Twain has just returned from Bermuda, quite ill, and it is thought his writing days are over, which will be regretted the more from the fact that the many unfinished books will not be completed, including his autobiography, which is about one-fifth written.

Russia and Japan are snarling again—at a safe distance.

THE GARDEN OF EDEN

According to the Journal de Stamboul, Sir William Willcocks, the British adviser to the minister of public works, claims to have determined the exact site of the Garden of Eden. He places it at Hairlah, a flourishing oasis some 250 kilometrss northwest of Bagdad. Through this site the Euphrates runs and is divided into four arms, representing the four rivers of Eden. Sir William suggests that the deluge was merely the flooding of the entire plain between the Euphrates and the Tigris, owing to those rivers breaking down the irrigation dykes which had been built by the pastoral dwellers on the plain.

For Deep Seated Colds and Coughs, Allen's Lung Balsam cures when all other remedies fail.

ISLAND DEVASTED

A violent gale has devasted the entire island of Gran Canaria, destroying many houses and ruining banana and other crops. The damage is estimated at many pesetas. Gran Canaria lies in the centre of the group of the Canary Islands. It has an area of 650 square miles. Las Palmas is the chief city of the island.

COAL NEAR REGINA

Immense coal deposits have been discovered in township 12, range 24, thirty-two miles southwest of Regina. The land is filed on and a big development scheme is in process of formation.

MUKDEN RAILWAY

The question of military guards along the Antung-Mukden railroad to protect it against the bandits, is under consideration between the governments of Japan and China, but it is likely to prove somewhat difficult of solution. China is determined apparently, not to permit Japan to do this police work, while, on the other hand, Japan maintains that the Chinese police are inefficient and the property and lives of workmen as well as the government of Japan must be safeguarded.

TAFT I. OF CANAL ZONE

The Mann Bill, provided for the administration of the Panama canal zone, has passed the Washington House of Congress by a vote of 119 to 102. The measure abolishes the Isthmian Canal Commission and invests the legislative, executive and judicialial power on the Isthmus in the President of the United States

SUFFRAGETTES TO BLAME

The first fatality in England to result from a suffragette disturbance occured when Alfred Hudson, a policeman, died last week from injuries received during a riot outside the Coliseum on August 10 last.

Chamberlain's Cough Remedy never disappoints those who use it for obstinate coughs, colds and irritations of the throat and lungs. It stands unrivalled as a remedy for all throat and lung diseases. Sold by all druggists and dealers.

AEROPLANE IN WAR

H. H. McGill, of Dayton, O., has closed a contract with Gen. Estrada, of the revolutionary party. to take an aeroplane to Nicaragua for use in the struggle against President Madriz, McGill has a contract to fly at the Mardi Gras celebratiou, and as soon as this contract is fulfilled he will start for Bluefields with his machine.

The formal contract has been drawn and signed, Estranda agreeing to pay for the use of the aeroplane, "for military purposes."

"So your husband has given up smoking? It requires a pretty strong will to accomplish that." "Well, I'd have you understand that I have a strong will."

A GREAT RETORT

Lord Lansdowne—"Twenty years ago who would have thought a Lloyd-George likely?"

Winston Churchill—"Twenty years hence, who would ever think a Lansdowne possible?"

Chancellor Lloyd George will visit America next summer as the guest of the Welsh society, whose invitation he has accepted.

"The D&L" Emulsion (Trade Mark.)

Makes Solid Flesh

Because it *creates* an appetite.
It builds up the jaded, run-down system in a *natural* way
50c. and $1.00 bottles at all druggists.
Be sure you get the genuine.

THE BOUNDARY MINING AND EXPLORATION COMPANY, LTD.

FIFTY THOUSAND SHARES

Of the capital stock of this Company are offered for sale at

25 Cents Per Share, $1.00 Par

To provide funds for the development of its coal properties near Midway.

The company owns the coal rights of 2,458 acres of land and has options on three square miles additional. Work has been done in development continuously since September 2, and a tunnel is now being driven to cross-cut three seams which show on the surface. Coal can be delivered from the mouth of this tunnel to the C. P. R. tracks below by gravity.

Development work done thus far is as follows:

One prospecting tunnel on the surface of the seam, 50 feet in length.

One shaft and drifts, about 45 feet, all in the coal seam.

One shaft and incline, following the proven seam to the depth of 80 feet.

An analysis of the surface coal returns 66 per cent carbon and only 3 per cent ash.

The Company owns other properties, including fruit lands, mineral claims, options on mineral claims, mines and timber limits. Its coal holdings alone are considered worth more than its issued capital stock. An investment in this stock at the present price should be immensely productive.

This is an opportunity of which you should take advantage without delay.

Send applications or write for information to

THE BOUNDARY MINING AND EXPLORATION CO., LTD.,

GREENWOOD, B. C.

DR. PRICE'S Cream Baking Powder

No alum, no lime phosphates

As every housekeeper can understand, burnt alum and sulphuric acid—the ingredients of all alum and alum-phosphate powders—must carry to the food acids injurious to health.

Read the label. Avoid the alum powders

TOWN TOPICS

Boost for Greenwood Hockey team.

Princeton is organizing a brass band.

Judge Hallett visited Nelson this week.

The Kilties scored a hit in Greenwood.

The tunnel on the Midway coal mine is in 95 feet.

John East, of Midway, was a visitor to town this week.

R. E. Raven, M. E., left on Monday's train for Victoria.

Scientists now claim that new canals are being dug on Mars.

The Oddfellows are giving a Masquerade Ball on February 14.

D. A. MacDonald left on Wednesday for Spokane, on business.

Mr. and Mrs. R. G. Dunlop are moving to Vancouver early next week.

W. W. Craig will move into his new premsies Feb. 1, on Copper street.

The Argo tunnel is in very hard rock. Work is progressing favorably.

Jas. G. McMynn, of Myncaster, was a visitor to Greenwood on Wednesday.

Dr. Simmons has returned from an extended business trip to the Similkameen.

Federal control of the copper market is being advocated by Daniel Guggenheim.

If you want to buy land on Kettle river write H. W. Farmer, Rock Creek, for information.

R. Roberts, superintendent of the Jewel mine visited his brother L. M. Roberts in Rossland, this week.

A small fire took place at the bunk house at the Midway coal mine. The damage was speedily rectified.

J. Kirkup, of Rossland, was a visitor to Greenwood [illegible] connection with the [illegible] Review.

R. G. Hyde, owner of the [illegible] brick block, now nearing completion, on Copper street, is visiting Los Angeles.

The whisle sounded at the Greenwood Phoenix Tunnel compressor, Wednesday morning and the drills are at work.

Mr. Brown, until recently editor of the Keremeos Chronicle, which has ceased publication, will engage in fruit culture.

The Cronophone talking pictures at the Dreamland Theater's show on Monday, were most interesting and entertaining.

F. H. Knight, of Grand Forks, was a visitor to Greenwood last week and took in the Midway coal mine before his return.

The Mother Lode versus Greenwood hockey match at the rink last night was very largely attended. A full report will appear next week.

Rev. and Mrs. Venables wish to thank those who so kindly contributed to their Xmas hamper, having been unsuccessful in finding the givers of the gifts that were unmarked.

The 13th. Annual winter Carnival at Rossland, will take place February 8 to 12. There will be every known winter sport during the week and a grand Masquerade and Dance to close the Carnival.

The Phoenix spur to Wellington camp, now under construction, is to be completed by February 15. when regular shipment from the Athelstan mine to the B. C. Copper Co. smelter will commence.

The Skating rink extension, 65 feet long, has been built expressly for the comfort and accomodation of those who do not skate but wish to look on. It is especially adapted to enable Greenwood people to come and boost for the local hockey team at their periodical matches. Patronize the rink and yell loud and long for the Greenwood Hockey team.

A. Legault, manager of the B. C. Telephone Co., in Greenwood, has been promoted to a similar position in Grand Forks and will leave in a few days for that city. Mr. Legault has done excellent work here and is most deservedly popular. His place will be taken by R. L. Pickering, who arrived here on Tuesday from Vancouver.

CITY COUNCIL

The Mayor, Duncan McIntosh, and new members of Greenwood city council took the oath on Monday evening last. The following are the new committees:

Finance—Craig, Sater and McKee.

Fire, Water and Light—Sutherland, McKee and Dixon.

Health, Cemetery and Pound—Buckless, Sutherland and Craig.

Streets — Dixon, Sater and Buckless.

Alderman Craig gave notice that at the next meeting he would introduce a temporary loan bylaw.

TREATMENT REDUCED

Old time residents of Rossland will be interested to learn that the freight and treatment rate on sulphide ore from the mines of that camp to the Trail smelter is now $3 a ton. The first big reduction in these charges, which once ran as high, including wagon haul, as $27 a ton, was made in 1906, when F. Aug. Heinze built the plant at Trail and the new narrow-gauge railroad connecting it with the mine, and cut the rate to $10 flat.

When I rose to speak, related a martyred statesman, some one hurled a base, cowardly egg at me and it struck me in the chest. And what kind of an egg might that be? A base, cowardly egg. [illegible] explorer, is seeking a divorce from the Doctor. In fact she will fire her Cook.

MINING CLAIM FOR SALE

In Wellington Camp. The property known as The Golden Crown, with plant and equipement now found thereon.

For terms and particulars apply to
G. R. COLDWELL,
Brandon, Manitoba.

NOTICE OF SHERIFF SALE

In the County Court of Yale, holden at Greenwood, between Keith and Ketchum, plaintiffs, and Hugh Cropley, defendant.

TAKE NOTICE That I have, by virtue of a warrant of execution, issued out of the County Court of Yale, holden at Greenwood, dated the 30th day of December, 1909, directing the sheriff of that portion of the county of Yale, not comprised within the Grand Forks and Greenwood Electoral Districts, to make and levy by distress and sale of the goods and chattels of the above named defendant, Hugh Cropley, the sum of six hundred and fifty-nine dollars, fifty-eight cents ($659.58) and costs, to satisfy a judgment obtained by the above named plaintiffs against the above named defendant for debt and costs, taken in execution and will sell, at the Court House at Greenwood, at eleven o'clock, forenoon, on Thursday, the 17th day of February, 1910, the interests of the above named defendant in the Homestake and Wellington Fraction mineral claims, situated at Wallace mountain, Beaverdell, Greenwood Mining division of Yale district, unless the amount of said warrant and costs has previously been paid to me.

Terms of sale, cash.

JAMES S. BIRNIE, Deputy Sheriff.

Dated this 10th day of January, 1910.

NOTICE

In the matter of the Land Registry Act, and in the matter of the Title to an undivided one-third interest in Lot 1353. Group 1, "Palmetto" mineral claim, Osoyoos Division of Yale District.

WHEREAS, the Certificate of Title to the above hereditaments, being Certificate No. 7658A. in the name of Moses Burns, has been destroyed, and application has been made to me for a duplicate thereof,

NOTICE is hereby given that a duplicate Certificate of Title to the above hereditaments will be issued at the expiration of one month from the date of the first publication hereof unless in the meantime valid objection to the contrary is made to me in writing.

W. H. EDMONDS,
District Registrar.
