FORSHAW SHOWS YELLOW STREAK

Crawls Out of Match With Fritz Holland.

Bob Forshaw, the Phoenix publicist and near-boxer, whose real name should have been Bob Four Flasher, has performed another one of his periodical flip-flops. After expressing a burning desire to meet Fritz Holland in the ring, and signifying his willingness to pit his 227 pounds of "white hope" bone and brawn against the Spokane middleweight, in a Rossland arena on February 17, Forshaw has once more failed to make good, declaring that he cannot get into shape by that date.

"This faint-hearted elephant is one of the rankest quitters I ever ran up against," disgustedly declared Holland upon receipt of the Phoenix news. "He is forever after fights, securing a lot of newspaper notoriety and then backing out. He had five week to train, and has been working all the time, yet he is afraid to take a chance with 150-pound man. He gets no more notice from me unless he puts up a good side bet."

Forshaw first sprang into the limelight as Walter Burgo's "white hope." He then challenged Jack Johnson, Jack Lester, Fritz Holland and sundry fighters retiring temporarily to the Rossland coal mines. He then came forth from the period of hibernating as manager of Scottie Lackie, who ardently desired to meet Holland. Then Bob cast longing eyes at the P. N. A. heavyweight title and gold watch meet. His four flushing propensities would not down and he with drew, pleading inability to get into condition.

It is reported that Holland is contemplating sending his 105-pound lad, Bobby Campbell, against the "white hope"—Inland Herald.

Hockey Match

Grand Forks against Greenwood, won by Greenwood 3 goals to 1. This was really the best contested game we have had this winter. The competitors well matched and full of ginger. It seems hardly fair to particularily any special good play on either side, but on Greenwoods side the goal defence of McCarthy could not be beaten and proved a terror to overcome by the opponents. McDonald's, Russell, McCaugharty, McCarthy, and Clerf were shooting stars and to check was a hard task. Infact the Greenwood boys made good in every way much to the delight of their ftiends. The Grand Forks boys put up a very spirited assult and defence, but it was noticeable that our boys were much the heavier in build, but the forks went at it in a plucky manner an showed some excellent work. Miller, Mann boys, Demuth, Mercher, Bolton did not funk their duties by any means.

The Referee work of Mr. McQueen was most impartial and very favorably commended on.

From first to last it was a fine game and a treat to the onlookers.

SCHOOL REPORT

Following is the school report for January.

DIVISION 1—J. L. WATSON.

Pupils actually attending	20
Average daily attendance	18.57
Percentage of regularity	92.85

Pupils present every session—Joy Cummins, Maud Eales, Geo. Eales, Donald McAllister, Grace Redpath, Sutherland Smith

DIVISION II—D. CLARE CALDWELL

Pupils actually attending	22
Average daily attendance	20,28
Percentage of regularity	92.18

Pupils present every session—Hazel Eddie, John McArthur, Daniel McKee, Josephine McKee, Ted Proctor, Arthur Rees, Ruby Smith, Tom Taylor, Elizabeth Wilcox, Richard Eustice, Elmer Lewis.

DIVISION III—F. M. CUNNINGHAM.

Pupils actually attending	37
Average daily attendance	30 33
Percentage of regularity	81.97

Pupils present every session—Helen MacKay Russell Eustro.

Want to Reject Agreement

A London cable to the New York Herald says:

"Some imperial organs, including the Times, are hopeful that Canada may yet reject the reciprocity agreement with the United States. They printed long despatches from their correspondents in Dominion centres, telling of the revolt of the manufactures against dealing with the United States. Liberal newspapers this morning point out that the voters of Great Britain will make a fatal mistake if they take the prattle of a small group of protectionists in Toronto, of which the Times correspondent is a member, for the voice of the Dominion. One correspondent, after exhaustive inquiry, cables: All the provinces except Ontario are strongly for reciprocity, and even there a majority want it. His canvas shows that the agreement will be adopted by the biggest majority the minister obtained. The last hope of the imperial preferential party is in the United States senate, which, a part of the Unionist press asserts, is controlled, by interests which will block the Taft programme. Other Unionist newspapers are appealing to the party leaders to formulate a policy that will prevent further encroachment by the United States and keep the advantage over the nations of the world which Great Britain obtains from her other colonies."

King Edward Memorial

On the historic Plains of Abraham a statute is to be erected to the memory of King Edward the Peacemaker. Hon. Mr. Taschereau, minister of public works, has given notice of a motion of the intentions of the government in that respect. It declares that on Wednesday next a bill will be presented relative to the erection of a moument to the late King, After the adjournment of the house, Mr. Taschereau said the government would erect at its own expense a monument which will be worthy of King Edward. It will be presented to the battlefield commission. As soon as the required legislation has been secured designs will be called for from prominent sculptors. It is generally admitted that no finer or more appropriate site in the world could be found than on the Plains of Abraham for a statute of one who stood eminently for peace to all the subjects of the empire.

Jack London Talks.

Friends of Jack London, the author, are expressing surprise over a communication the writer sent to a gathering of Socialists and Mexican revolt sympathizers in which he proclaimed himself a "chicken thief and a revolutionist." The letter follows:

"We socialists, anarchists, hoboes, chicken thieves, outlaws and undesirable citizens of the United States are with you heart and soul in your effort to overthrow slavery and autocratic government in Mexico.

"You will notice that we are not respectable, neither are you. No revolutionist can possibly be respectable in the days of the reign of poverty. All the names you are being called we have been called. And when graft and greed get up and begin to call names, honest men, brave men, patriotic men and martyrs can expect nothin else than to be called chicken thieves and outlaws. So be it.

"But I, for one, wish there were more chicken thieves and outlaws of the sort that formed the gallant band that took Mexicali; of the sort that is heroically enduring the prison holes of Diaz; of the sort that is fighting and dying and sacrificing in Mexico today.

"I subscribe myself a chicken thief and revolutionist.

(Signed) "JACK LONDON."

Cost of Trousseau

Fifty thousand dollars was spent for the trousseau of Miss Helen Vivien Gould, who tomorrow becomes Decies. Expert figures from the Child Welfare Society say this amount would save the lives of 500 poor east side children, or would prevent 1500 coolies in the Chinese famine districts from starvation, or would by 1,000,000 loaves of bread or 1,000,000 schooners of beer.

Quarrel in Royal Family.

England is stirred as rarely before by the announcement that the Dowager Queen, widow of King Edward, will not attend the coronation of her son, King George. This is the latest move in the battle for social supremacy being waged by Queen Mary and Queen Alexandra. Court leaders during the reign of Edward are supporting the Dowager Queen, and from indications distinct social sets may grow out of the bitter quarrel in the royal family.

Almost after the death of King Edward rumors of friction between the two queens became current. Although these reports did not get into print in British newspapers, they were commonly known and formed the chief topic of gossip in clubs and at aristocratic gatherings.

The Dowager Queen occupied Buckingham palace long after the time when, according to custom, she should have left there. This and other acts have sorely tried the patience of King George and his royal consort until an open rupture has resulted.

It is rumored there will be two social courts in England and that Queen Alexandra aspires to outshine the wife of the reigning monarch.

CONDENSED NEWS ITEMS

J. R. Jackson, M. P. P., presented a petition at the Legislative Assembly for the Greenwood Phoenix Tramway Co., Ltd., for leave to introduce a private bill to incorporate said company.

It is confidentially reported in U. S. official circles that the warship Maine was sunk from an explosion from within the ship, and not on the outside as generally believed.

At Liuwood, Kansas Monday three yeggmen held back a crowd of citizens whila a fourth blew open and robbed the safe of a local bank, securing $1800 making their escape.

Rubber trees found in Mexico by a party of geologists of Michigan, which produces sap of a remarkable good qualily, though not as good as the Peru rubber owing to its excess of resin the find is a most valuable one.

Judgement has been given against the Province of Alberta in the suit with the C. P. R. to tax their lands. The province will now have no right to tax C. P. R. lands until 20 years after the patents have been issued by the Dominion Government.

A gold brick valued at $10,000 has been brought into Nelson from the Athabasca mine. The result of less than one months run, the ore being from the new strike.

The Curling Bonspiel opened at Nelson on Tuesday with 16 rinks to compete.

The V. V. & E. Railway will start line construction over the Hope mountains in the spring.

All the villages in the vicinity of Mount Tael, near Manilla, have been obliterated and many of the dead found embedded in the ashes of the active volcano.

A frightful explosion of dynamite happed in New York, while being conveyed from a steamer to a barge at Jersey City, several persons were killed and great destruction of property.

Famous Boer General Dead

General Piet Cronje, tna noted Boer leader is dead. General Cronje commanded the western army of the South African Republic in the recent war. After several reverses the British government sent out Field Marshal Lord Roberts and General Lord Kitchener, with thousands of troops. All their arrangements were completed by the early part of February, 1900. General Cronje and his Boer forces were by skilful generalship brought to bay on the Modder river, near Paadeberg, where General Cronje defended himself for nine days in a position that was impregnable to assault, but greatly exposed to artillery fire from the surrounding heights.

After suffering loss to such a degree that his men would not endure any longer, Cronje surrendered on February 27th, the anniversary of Majuba. The British forces had drawn in closer each night, and a heavy bombardment had been kept up. At 3 o'clock in the morning, the Canadians, backed by the Gordons and Shropshires, rushed the enemy's trenches and three hours later the Boers laid down their arms unconditionally. The prisoners numbered 4000. Cronje was instrumental in frustrating the Jameson raid at Krugersdorp in 1896. He was a member of the executive council of the Transvaal Republic and Chief Native Commissioner. He was born in 1835.

Announcement

Mr. H. W. Conway will assume the editorial and news department of the Boundary Creek Times in the future and Mr. S. T. Hall will attend to the business and financial end of the establishment.

Argo Tunnel.

The company who has prosecuted the work of the Argo tunnel since its inception from their individual funds, now find that they are in need of financial assistance, and appeal to local capital for aid. The Argo Tunnel company owns and has under bond eight claims which they require surveyed and assays made in order that a correct report may be obtained as to the value of the ore. The latest strikes show ore of a high grade which can be seen at several places in town. For the present stock is selling at 25c a share, but the price quoted will be withdrawn when a sufficient number of shares are disposed of to form a working capital.

Anyone seeking an investment that has every indication of bringing handsome returns, will do well to investigate the Argo property.

C. P. R.'s Future.

Edward Wassarmann of New York has some more to say about the C. P. R.

"The course of the Canadian Pacific justified my prediction. I cannot affirm too positively my belief this stock must enhance until it reaches approximately its real value.

"With the reciprocity treaty enacted between the United States and Canada, lands held under grant by the Canadian Pacific will increase in worth fully $60,000,000.

"My prediction of 300 will not only be realized but the future very much under-estimated its intrinsic equity."

EAST AND WEST.

On the Pacific slope there is probably nothing that the good people of Vancouver and Victoria would like better than an old-fashioned Ontario or Manitoba snowstorm. It is the rainy season out there, and the editor of the Boundary Creek Times is to be pardoned for his plain speaking when he says: "The muttonhead who travelled through Canada as a correspondent of "John Bull," a London publication, and who said Canada had seven months' winter, with the thermometer standing at 50 degrees below zero, and that all a man could do was to think and go mad, ought to have spent a portion of his time this season in the Boundary district.—Toronto Globe.

Dear Globe, you're just wrong in two places. We don't want any snowstorms. We've been sampling some of your beastly eastern weather on the coast lately and we don't like it a little bit. We prefer our "gentle upright rain" with the balmy Pacific breezes, the blooming roses and the green lawns and occasional blue skies with no deep snows to wade through, and no sidewalks to clean, and lots of nasty things which we usually don't get in our coast winter, The other place where you're wrong, dear Globe, is about Greenwood where the Boundary Creek Times is published. You're off on your geography of the climate of this great and variegated province. Greenwood is not in the rain belt but in the snow belt, where, as Colonel Lowery would say, snow forms a heavy outcrop of the formation from December to March, after which it is cloudless summer. Greenwood is a matter of 200 miles as the crow flies from the coast and in that distance there are 57 varieties of climate any day of the year. Vancouver has one good one and Greenwood another, and the other 55 are good according to the taste of the climate hunter.—Sunset.

MILLIONS TO BE SPENT.

That the next four years will witness a greater development of British Columbia's population and a larger expenditure in railroad construction and major industrial works than any previous period in the history of the province, is the opinion of Premier McBride, based upon assured railway construction and large development enterprises now in sight.

Railway construction alone in the ensuing year should provide for the distribution of over fifty million dollars in the province, while in the matter of productive public works the government contemplates an investment of five millions at the very least in each year, or twenty millions in the whole of the period in question.

Then it is a safe and conservative estimate that in the systematic exploitation of the timber areas, the coal fields and the fisheries, at least thirty million dollars will be invested, so that, leaving out of account altogether the metalliferous mining which is supposed to be the backbone of British Columbia's business life, and leaving out also the general commercial development which may surely be expected, there will be fully a hundred million dollars to be expended within the province as a substantial guarantee of its growth and expansion.

THE REAL WEST.

Ontario people talk of "out west," meaning anywhere from Manitoba to the coast, and British Columbians speak of "down east," meaning anywhere between Manitoba and the Atlantic. These generalities are often misleading. The country is so big that it would be wise to particularize more. The real west is British Columbia, while the east means the maritime provinces, or perhaps Quebec, Manitoba, which is sometimes spoken of as being in the west, is not in the west al all. It is the central province. At one time it was the prairie province, but now that title has to be shared by Saskatchewan and Alberta.—Victoria Times.

Eveybody should patronize the Odd Fellows-Knights of Pythias hockey game at the rink tonight. The proceeds go toward paying for Greenwood's new place of amusement. Besides there will be many funny stunts and broken shins that will pay you to witness.

California is demanding a larger Pacific fleet and fortification of the Panama canal. In a resolution adopted by the state assembly, the request was sent to congress, and the California representatives asked to urge immediate action.

A home coming celebration in an eastern town was called off the other day because upon investigantion it was discovered that every former citizen of the place would be arrested the very minute he stepped off the train.

Ten or twenty years ago we really needed reciprocity with the United States, but Canada has shed her swaddling clothes and is an infant no longer, having passed the primary stage, is fully able to care for herself.

The Times' correspondent cast no reflection upon the women of Beaverdell when he stated "it's a wise father who knows his own child," because there are no female population in that thriving mining camp.

Many new mining prospects will be developed around Greenwood when the "beautiful" commences to melt and run down the mountain side.

This has not been the "winter of our discontent." Everybody has been pleased with the state of the weather but the wood dealers.

There are more old bachelors to the square inch in Greenwood than any other town on earth.

The business outlook for this section of B. C. was never better.

Sifton on Reciprocity.

That the present is not the time to let down the bars of trade and turn Canada's natural resources over to the United States. was the opinion expressed at a recent luncheon of the Canadian club of Montreal by Hon. Clifford Sifton, chairman of the Dominion Conservation commission, and a former member of the Laurier government. His audience was composed of the leading bankers and business men of Montreal, as well as senators and members of parliament, and according to dispatches, they cheered the sentiment to the echo.

For libelling the King, Edward F. Mylius, an American, was found guilty and sentenced to a years imprisonment.

Canada's Banking History.

In 1869 Canada possessed 27 chartered banks; in 1889, 41 banks; in 1909 30 banks; and today it has 27 banks. These striking figures illustrate the tendency during two decades to increase banking facilities by the creation of new banks and the complete reversal of that policy during the past 20 years in the concentration of banking strength in several large institutions. The past year has been one of important changes in bank spheres. The two most unfortunate events were the failure of the St. Stephen bank, of St. Stephen, N. B, which was later purchased by the Bank of British North America, and the suspension of the Farmers' bank. The Bank of Winnipeg's charter lapsed after a time extension, and the Bank of Vancouver commenced business. The Weyburn Security bank obtained its certificate from the treasury board and commenced business early this year. The Royal bank absorbed the Union Bank of Halifax, and the Union Bank of Canada will take over the United Empire bank. This is not the end of bank amalgamations. Other banks have discussed for several months past the possibility and advisability of union. When the present year has passed, it may be that the number of Canada's chartered banks will have been reduced by amalgamations to 23 or even 21.

Publications Received.

Man-to-Man magazine for the month of January has been received. The number is an excellent one, the whole of which is interesting from cover to cover. Some of the contents are as follows: The Yale-Cariboo Wagon Road by E. O. S. Scofield, Parliamentry Librarian, Victoria. A history of this historic road from the first days to the present, with short paragraphs of the old trail blazers, Simon Frazer, Bonnard and others, illustrated with very faithful half tone photographs of principal places.

The Printer and Publisher, issued by the MacLean Publishing Co. of Toronto and Winnipeg, especially for the trade, is an excellent issue and of great utility to the craft.

Miller & Richard, of Toronto and Winnipeg, type manufactures and all things in the printing or paper offices, have issued for circulation a very important catalogue of presses particularly a special of the Evans newspaper folder. This first class house enjoys a well deserved popularity for fair and square dealings towards the printing trade.

British Columbia Public accounts for the fiscal year ended March 31 1910.

After Grippe
or any Sickness
Vinol Creates Strength
HERE IS PROOF

"After a long attack of Grippe, Mrs. Vaught seemed unable to recover her strength. She was very weak and had no appetite. VINOL rapidly improved her condition and restored her to health. I sincerely recommend its use during convalescence or any run down condition."

JUDGE C. N. VAUGHT,
Huntsville, Ala.

Miss Adelaide Gamm, of Watertown, Wis., writes, "After a severe attack of the Grippe, my system was in a very weakened, nervous, run-down condition. I took VINOL with the best of results, and it made me feel better and stronger than I have been for years."

We have never sold in our store a more valuable health restorer for weak and run down persons than VINOL, and we ask such people in this vicinity to try VINOL with the understanding that their money will be returned if it does not do all we claim for it.

J. L White, Druggist, Greenwood

Greenwood Rebekah Lodge No. 18, I. O. O. F. meets first and third Mondays of each month at I. O. O. F. Hall. MRS. AGNES FLEMING, N. G. MISS B. BRYANT V. G. ROBERT HALCROW, Rec. Sec.

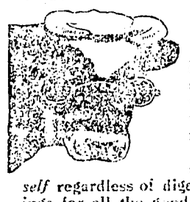
AT THE CHURCHES

METHODIST — Rev. I. B. Hibbert will conduct services in the Methodist Church every Sunday. Morning, 11 a. m.; Sunday School, 3 p. m. Evening. 7:30.

PRESBYTERIAN—St. Columba. Services will be conducted morning and evening, 11 a. m. and 7.30 p. m. Sunday School 2.30 p. m. Rev. J. A. Petrie, minister.

ANGLICAN—St. Jude's. Services: Holy Communion at 8:30 a. m., on 1st, 3rd, and 5th Sundays; Holy Communion at 8:30 a. m., 1st, 3rd and 5th Sundays; morning prayer at 11 a. m.; evening prayer at 7:30 p. m.; Sunday school at 2:30 p. m. Rev. F. M. Hilton, vicar.

CATHOLIC.—Church of the Sacred Heart.—Divine service 1st, thirdand fourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p.m. REV. FATHER LAMBART, pastor.



The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds *himself* regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

New Scale of Advertising.

The newspapers of Phoenix, Grand Forks and Greenwood have adopted the following scale of prices for legal advertising for the year 1911:

Application for liquor license, 30 days, $4,00.

Certificate of improvement notices, 60 days. $7.50.

Application to purchase land notices, 60 days, $7.50.

Delinquent Co-owner notices, 90 days, $10.00.

Water notices, 30 days, $15.00.

All other legal advertising not included in the above, 12 cents per single column line for the first insertion and 8 cents a line for each subsequent insertion.

Before you take your departure from Greenwood subscribe for your home paper, $1 for six months, or $2 a year. You will find it full of interest to you wherever you are.

Copper

New Edition of the

COPPER HANDBOOK

Vol. VIII., issued May, 1909, contains 1,500 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is conceded the

World's Standard Reference Book on Copper.

The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its great bulk. It is filled with FACTS of vital importance to.

THE INVESTOR
THE SPECULATOR
THE METALLURGIST

MINES AND MINING

After "hibernating," as were, for several years, the Republic camp has awakned from its sleep, and is now startling all who know it by its activity and splendid showing. Not in the palmiest days of old has the district had any such ore showing as is deposited today.

The Kamloops Standard sounds the following encouraging note on this much discussed question: News reaches us from English sorces that from the present market price of $2,100,000 per ounce, radium has taken a drop of $900,000. This will be welcome news to the worthy poor who heretofore have not been able to keep much radium running around loose on account of the current market rates.

The Greenwood-Phoenix tunnel is in nearly 1500 feet and is going ahead at the rate of ten feet a day.

J. T. Laidlaw has been engaged for the past two months in developing the Rover group, says the Cranbrook Prospector. This is a gold quartz proposition carrying high values in the yellow metal.

The following are the Boundary shipments for the year ending 1910:

Granby, Phoenix	1,112,925
Mother Lode, Gwd	364,650
Snowshoe, Phoenix	146,650
Rawhide, Phoenix	47,350
Jack Pot, Phoenix	16,783
Oro Denoro, Phoenix	9,339
No. 7, Boundary Falls	1,042
Golden Eagle, Phoenix	120
Sally, Greenwood	32
Production and ship'ts.	1,699,086

British Columbia Copper is now completing its five and a half mile tramway, which will bring the ores from its Lone Star and Washington properties to the railroad, within a few miles of the smelter. Its new cyanide mill will be in commission soon on one of its properties, where the management expects to recover between $70,000 and $100,000 in profits from a deposit of gold ore, which has been partly stripped and will be mined by the opening pit system.

With its plant idle one month, during which the company's expenses exceeded $20,000 and it received no income, net earnings of the British Columbia Copper company last year, over and above expenses of every character, construction included, are understood to have approximated $250,000. It is stated that the company has money on hand already with which to continue quarterly dividends at the rate of 10% for a year, and there is every prospect that 1911 earnings will considerably exceed those of 1910. The accomplishments of this company in the way of production, costs and profits have been phenomenal, especially when the fact is considered that its ore is obtained from four or five different properties, and all of it is low grade, much of it being so poor that it would hardly be considered ore at all in mining camps. A recovery of 17 or 18 pounds of copper and $1.50 to $2 a ton in gold and silver would be considered an impossible direct smelting proposition by most mine managers; but, notwithstanding this, British Columbia has demonstrated its ability to handle such ore, but additional properties, increase and improve its equipement and pay dividends. Its smelting plant now has a capacity of 2,500 tons daily, and its ore reserves are being increased steadily.

Granby is now operating eight furnaces, which should result in production of 25,000,000 pounds of copper annually at a cost of not over 10 cents a pound, and earning of $4.25 a share with copper selling at 12½ cents a pound.

At the Napoleon the B. C. Copper company have 60 teams and scrappers stripping the big ledge.

Two new veins has been strnck at the Iron Mask, says the Rossland miner. One is the extension of the Josie and the other the Mugwump.

Placer gold has been found at White creek, a tributary of the Naas river.

Statement of production of the Le Roi mine at Rossland, B. C., issued by the company from its London office, shows that from From February, 1894, to September, 1908 a total value of $20,406,627 has been realized.

The Sheriffs sale of the Elkhorn property has again been postponed this time to the Feb. 24th.

Cripple Creek's production for for the month of November, 1910 was 75,180 tons, valued at $1,381,050.

SAVED HER FINGER.

Mrs. B. E. Bedwell, of 337 Provencher Ave., St. Boniface, Winnipeg, says:—"Some time ago my children took diphtheria, and while attending them the poison entered a small scratch on the second finger of my left hand. This became very sore and blood-poisoning soon set in. For months after the children were quite well I was suffering from a shockingly bad finger. The scratch was caused originally by a pin, and in itself, was not at all serious. The consequences, however, of neglecting this scratch, were very serious to me.

"When the blood-poisoning set in I tried poultices and a salve I had in the house. These, however, did not have the desired effect. Quite on the contrary the finger became more and more swollen and discolored. It then began to fester, and I had to call in a doctor. He lanced the finger to let out the pus, and you can imagine how painful the finger was! Despite his care, however, it again festered and the oin ments, liniments, and other preparations which the doctor gave me seemed absolutely unable to bring about any relief.

"The doctor thereupon advised me to go into the St. Boniface Hospital. I feared that if I went to the Hospital the finger would be amputated. We were told of a case similar to my own in which Zam-Buk had effected a cure when everything else had failed and the doctor had said that only amputation could save the person's hand.

"We, therefore, decided to give Zam-Buk a trial. A supply was procured, and we commenced the Zam-Buk treatment. It only needed a few days to show the wisdom of this step. The blood-poisoning and inflammation were reduced, the pain became less acute, and it was evident very shortly that the trouble was being reduced to a less and still less area. We persevered with the Zam-Buk and in the end the festering sore was thoroughly cleaned, then healed. In under three weeks from first commencing with Zam-Buk, the finger was entirely well; and had we applied Zam-Buk in the first place, instead of trying ordinary preparations, no doubt I should have saved myself hours and hours of acute agony."

All mothers should note this case. Zam-Buk is a sure cure for blood-poisoning, festering, cuts, scratches from barbed wire, bruises, eczema, rashes, tetter, salt rheum, face sores, ulcers, piles, bad leg, varicose veins, and all skin injuries and diseases. 50c a box, all druggists and stores or post free from Zam-Buk Co., Toronto, for price. Send 1c stamp for postage of sample Box. Refuse all imitations.

Commander Sims.

The rebuke administered to Commander Sims by President Taft for his speech at the Guildhall in London, does not seem to have been taken seriously by the British press. That speech concluded with these words: "If the time ever comes when the British Empire is seriously menaced by an external enemy, it is my opinion that you may count upon every man, every dollar and every drop of blood of your kindred across the sea." This speech was resented by Germany and also by certain elements in the United States, and another American officer, who for obvious reasons is not subscribing his name, writes that it "must be evident that the president has inflicted upon Commander Sims just so much censure as he was strictly obliged and no more, and now that he has been rebuked for a technical irregularity and all official proprieties reasserted, the service he did remains a real service, for Commender Sims was the voice of the American navy."

An incident may be recalled which occurred at a dinner in New York some years ago, given under the auspices of St. George's Society, where the company was half American and half British, and where another American officer told of having been in Manilla when the Germans undertook to show Admiral Dewey how the port he had conquered ought to be governed. Things were near the breaking point when Admiral Chichester took his English fleet over and dropped anchor along side the Americans. "Nothing was said, no message was sent to the Germans, but everybody understood why the English had come and what they were ready to do."

Then he told a story of the landing of a party of American officers in a South American port where lay an English cruiser. The Americans were attacked by the South Americans on the wharf and were fighting for their lives. Two armed boats, one American, one English, each with orders not to land, lay off the pier head. The midshipman commanding the English boat stood it as long as he could then he remarked to the American, "I say, Jack, you let your men go, and I'll let mine;" and they went.

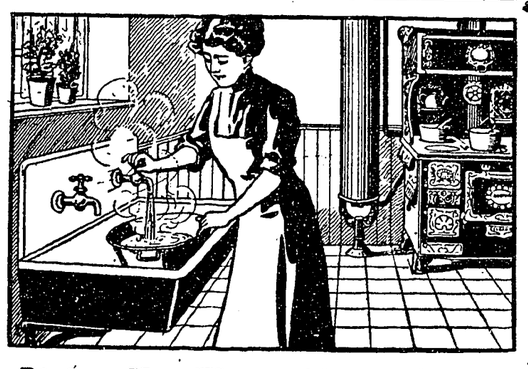
That naval officer concluded his remarks by visioning a day when the American and English fleets are lying close to each other with some hostile fleet or fleets going to quarters close by and thought he heard a "call from conning tower to conning tower. 'I say, Jack, if you let your men go, I will let mine.'"

Sale of Lots in Vancouver.

Lots 1 and 2, corner of Venables and Gordon drive; double corner 66x122 feet; car line will be through inside of six months; good opening for a business corner; 5 blocks from Hastings street, church and school in close proximity; concrete sidewalks within three blocks: streets graded past property. Price $4,500 cash or on terms for $5,000; $1,250 down, balance 6, 12 and 18 months at 7 per cent. Apply to R. J. Muir, box 3, Greenwood, or C. E. McAllister, Sherman hotel, Vancouver.

The body of an unidentified man has been found upon the shore of Arrow lake, and which is thought to be that of Mr. Wm. Bull, the missing commercial traveller who disappeared last fall.

The first hearing granted by the Ways and Means Committee of the House at Washington, on the proposed reciprocity agreement with Canada was occupied with the protests of Gloucester fishermen. Men interested in the fishing trade testified that the industry would not be able to survive the efforts of the free admission of the fish from Canada.



Piping Hot Water Always Ready

for every occasion, with the Kootenay Steel Range, without "driving" the fire or wasting fuel. The generous firebox is built so that the water heats very rapidly as it passes through the water front, and gives a plentiful supply. One bath usually empties the boiler heated by an ordinary range with the result that the rest of the family must wait for more water to heat. Not so with the boiler attached to the water front of a

KOOTENAY Steel Range

because the Kootenay never fails to heat as much water as is required and as fast as it is used. The nearest McClary Agent will make clear to you the reasons why you ought to *own* a Kootenay. 56

The Damper Lever of a

MAGNET Wood Furnace

is where it ought to be—at the front, readily reached without groping in the dark or taking unnecessary steps. A turn of the lever instantly changes the draft so the fire is quickened or checked, at will. Turned on, McClary's Magnet Wood Furnace produces the strongest heat in a few minutes; and the nickelled steel tubes radiate this heat for hours after the draft is shut off. Because of this *stored* heat McClary's Magnet Wood Furnace is economical and a continuous roaring fire is unnecessary. The heat that goes up the smoke pipe of ordinary wood furnaces, goes into the register pipes of the Magnet. Like the position of the damper, the Magnet Wood Furnace is *right* all through. Right in principle, right in construction; right in materials. See the Magnet at the McClary agent's in the nearest town. Write to nearest McClary branch for booklet, giving a detailed description. Free, postpaid.

LILLIAN NORDICA

The Struggles and Triumphs of a Famous Singer

The success of Lillian Nordica, one of the greatest contemporary opera singers, is a tribute to the ambition and struggles of two women—the singer and her mother.

The youngest of six daughters of Edwin Norton, Lillian was born in Farmingham, Maine, in 1859, in a family where music was the atmosphere of the home. Her father was a violinist and her mother a singer with an unusually sweet, rich voice. Mrs. Norton's ambitions chafed at the limitations of village life; she wanted broader opportunities for the development of her children, so when Lillian was six the family made its gladsome exodus from Maine to Boston, the Mecca of her dreams.

The future prima donna early revealed the promise of her wonderful voice, and the mother of the transplanted family laid aside money from her boarding-house for the musical instruction of her daughter. From twelve to fifteen Lillian studied at the Boston Conservatory, with Prof. John O'Neill, who condensed the five years' course into three. When her interest flagged in the slightest she was stimulated to new energy by her mother, who learned the daughter's parts in order to teach her, worked untiringly and saved lavishly for the new goal of instruction.

[illegible] growing in power and courage. She was making [illegible] singing in church did not satisfy her high [illegible] Pigeons in her dressing-room, and by her [illegible] forced the great singer to [illegible] Leonora's aria in "Il Trovatore." GREENWOOD GRIST

Items of Interest Picked Up Here and There For The Times Readers.

For Sale—An A. 1. cutter practically new, with pole, $35.00 Apply A. L. White.

Fiminine Tenacity at the Star Theatre, Saturday evening will amuse you.

Mrs. T. Rowe, of Wellington camp has been a patient at the Phoenix hospital, but is now fast recovering her health and will pay a vist to her daughter Mrs. McArthur Wilson of Greenwood.

The finishing of the roof felting of our Royal rink about completes the job and makes us the possessors of a fine curling and skating rink that can be found in British Columbia.

The hockey match between Mother Lode and Smelter clubs, was finely contested with a conclusion of 3 to 4 in favor of Mother Lode. D. McDonald refereed the match.

Some good films will be shown at the Star Theatre, Saturday evening including Red Firn and the Kid a very interesting Indian film also the Missing Bridegroom and others.

The Royal rink since its opening has derived something over six hundred dollars revenue, which is certainly very encouraging for a starter.

Tonight, Friday, we can either take in the big event of K. of P. and I. O. O. F. hockey contest with lots of fun in sight or trip the light fantastic at the Ball given under auspices of the Tennis club.

We regret very much to announce the death at Grand Forks of Bert Almas after a few days illness. He was the owner of a fine ranch and a estimable cttizen, and heartful regret is felt generally for his death.

The hockey match between the Intermediates of Greenwood and Grand Forks took place at Grand Forks rink, concluding with a tye of 4—4. The boys on both sides battled hard for victory and went at it for all they were worth.

Mr. Chas. Lackie was married on Saturday at 3 o'clock to Miss Jean Thompson, by the Rev. Samuel Lundie. The bride was attended by her sister, Miss Nellie Thompson, of Nanaimo. The newly married couple drove to Greenwood to spend the balance of the day, and returned to their home in Phoenix the same evening. The bridegroom was assisted by Gilbert Kay.

Boundary Valley Lodge of Odd Fellows are making great preparations to have their masquerade ball on the 14th of February, St. Valentines Day an event to be remembered.

Exhibits of ore from the Argo tunnel, the late strike are on view at A. L. Whites and Russell-Law-Caulfield Co., and certainly look good, take a look at it.

The Freemont mine is getting down to business their initial work was the finding of a stringer of as fine silver ore as ever taken out of any mine and the work is only preliminary as yet.

Our hotels continue to have full houses continuously looks like boom days to see our town with buuches of people on the streets and all seem busy.

Mr. D. J. McDougall was in town on Tuesday to meet Mr. McAdam from New Zealand, brother of the late Mr. McAdam. His business was to consult with Mr. McDougall. The deal of the Galloway ranch is completed we understand. The brother and widow will own and work it conjointly at Grand Forks.

The body of a drowned man found on the shore of the Arrow lake, has been fully identified as that of Mr. Bull the commercial traveller who disappeared last October.

Born—At Eholt. Feb. 7, to Mr. McPherson, C. P. R. engineer and wife, a daughter. Mother and child progressing very favorably.

O. R. Nation, representing the Pacific Printers Supply company, of Seattle, Wash., made us a business call this week.

J. E. McAllister, manager of the B. C. Copper Co., contemplates a business trip to to New York at an early date.

Quite a numbe of Phoenix skaters enjoyed the sport of skating on Greenwood's ice on Wednesday night, among them was T. A. Love, the editor of the Pioneer, who was accompanied by one of Phoenix's very charming damsels.

The Rev. T. McNab, of Trail, will preach morning and evening at the Presbyterian church, Sunday.

Will the party who took a fur collar from the rink last Wednesday evening, please return same to the B. C. Times office.

Upwards of $30 was realized by the Ladies Aid of the Presbyterian church from the entertainment given at the Star Theatre on Wednesday evening in their behalf. There was a large attendance and the program was highly appreciated, though it is regretted that the Ladies Aid were obliged to omit the Cornish singers of the Mother Lode from the evenings program owing to particular circumstances occuring a few hours previous to the opening of the entertainment, thereby preventing them from securing other selections.

Killed by a Lion.

Dispatches from Nairobi, East Africa, today tell of the death there of George Grey, brother of Sir Edward Grey, the British minister of foreign affairs, as the result of being mauled by a lion.

Grey, who was hunting in the same country as that traversed by Colonel Roosevelt, became separated from his companions, near the Athi river. Rousing a lion from a thicket, he fired and wounded the animal but was knocked down by its charge, and before he could fire a second time was frightfully clawed.

Windsor: Jas. McGregor, Nelson; B. Oppenheimer, Chewela; S T. Mureattle.

Reciprocity With Australia

An interesting return tabled in the house of commons at Ottawa on Friday tells of the unsuccessful negotiations which have been conducted between Canada and Australia with a hope of bringing about a reciprocity trade agreement between the two premier colonies of Great Britain. The somewhat voluminous correspondence which was tabled at the request of H. B. Amos, shows that the negotiations have been going on at intervals for a period of eleven years, and that while a number of proposals have been advanced, final consideration on the subject is to be found in the letter in which the Canadian trade commissioner in Australia says that representatives of the Australian government will be prepared to discuss the matter at the time of the approaching imperial conference in London.

Copper Prices to Improve.

Adolph Lewisohn has the following to say on the copper outlook:

"I think copper is at a very reasonable price now, and look forward to a gradual improvement. Business in most parts of Europe in the times in which copper is consumed is very good, and at the present low level the consumption of copper is likely to continue to be good. I think we can look forward to good purchasing from that side.

"Here business in electrical and other work in which copper is used has also been very good, and the fact that consumers have only been buying from hand to mouth makes it likely that they will soon have to buy more, and I expect fair consumption.

The stock of copper, both here and in Europe, is moderate in proportion to the size of the demand for this article; that is, the stock in sight does not amount to more than one and a half to two months' supply. Production is not unreasonable.

The average price of electrolytic copper during the last ten years has been about 14½c. The extremes during that time have been 26c and 12c.

NOTICE is hereby given that application will be made to the Legislative Assembly of the Province of British Columbia at its next session for an Act to incorporate The Greenwood-Phoenix Tramway Company, Limited, with power to run, construct excavate and maintain a tunnel through and under the mountain lying east of the City of Greenwood, in the county of Yale, from a point on the Nelson mineral claim, which claim adjoin the east boundary of said City of Greenwood to a point at or near the Victoria mineral claim under the City of Phoenix; and for the purposes of the undertaking to run exploring and branch working tunnels from the main tunnel; also to sink or raise mining, working or ore shafts along the line or course of the said tunnel or its branches; to explore for minerals by the use of drills, shafts or excavations; to construct, maintain and operate by electricity or otherwise tramways and roadways for the purpose of carrying ores, or as may be otherwise required to erect and maintain crushing, electrical, hydraulic, concentrating or smelting works or for plants and deal in the products of the same; to supply, sell and dispose of light or power, and to erect and place any electric line, cable or other electrical apparatus, above or below ground, along, over and across streets, bridges and lands; to erect, construct and maintain any dam, raceway, flume or other contrivance, or plan for diverting and utilizing water, or for drainage, and to construct all works necessary to obtain and make water power available; to carry on the business of mining in all its branches; to purchase and deal in ores; to enter into any agreements and make contracts with persons or companies owning any interest in mining lands or otherwise, contiguous to the said tunnel and to receive compensation for the use of the tunnels or works of the Company, and for drainage or other benefits derived from the tunnels or branches; to acquire and take over the business of the Phoenix Tramway Company, a company incorporated under the Tramway Company Incorporation Act, and to acquire and obtain all concessions, bonuses, or other rights and privileges belonging to said Company; to purchase, lease or otherwise acquire and hold patents, machinery, lands, premises, buildings and all real and personal property necessary to carry out the objects of the Company with all necessary or incidental rights, powers and privileges as may be necessary: incidental or conducive to the attainment of the above objects or any of them.

Dated at Greenwood, B. C., this 24th day of December, A. D., 1910.

Exclusive Brokers for the sale of the Western issue of the Greenwood-Pnoenix Tramway Company. We shall be glad to answer any inquiries regarding this stock. We also handle the stock of the Boundary Mining and Exploration Co., Ltd., and of the Freemont Mining Co.

This Is

No recollection of the past; no exaggeration of the present, but should be a forecast of the future

A. L. WHITE

this week received his large semi-annual consignment of

Trunks, Valises & Suitcases

On account of the absence of street troleys he had to requisition his sled for transportation from the depot. Truly the prominence of Greenwood on the map does not warrant this. Certainly the size of the shipment does not.

Prices moderate

WHEN YOU OPEN our liquors their fragrance immediately tells you that they are the kind to drink.

They have been the choice of the connoisseur for a long time and are first in his popularity today.

WINES AND LIQUORS Are pure and perfectly aged. They are distilled from the choicest material and please with their general wholesomeness.
