Electricity

The recent cold weather has shown the extent of our dependence upon electricity from a business point of view, and we wish to recall to you the well known fact that electricy is a valuable aid in the remedy of a number of physical ills.

We are carrying in stock a reliable line of

Electric Inductors and Electric Belts

At prices within your reach, and of a quality which insures their being goods of merit

THOMAS DRUG & MUSIC CO.

The Store of Quality.

GENERAL MINING

Ottawa, Jan. 10—The most complete and authoritative report on the mining and metallurgical industries of Canada ever compiled has just been issued by the department of mines under the direction of the minister, Hon. Wm. Templeman and Dr. Eugene Paanel, director of mines. It is a volume of 572 pages and is the reault of labors during the past year of a special knowledge of particular districts on which they have reported. The report which will be of great practical value to everyone interested in the mining and metallurgical industries of the Dominion, covers an immense amount of information respecting the mineral resources of the varsous provinces; details as to character and output of individual properties; manufacturing processes, prospects for nature development, etc. There are also many illustrations of mining and metal working plants and maps showing location of minerals in each province.

The statistical part of the report was synopsized in a bulletin issued by the department last year, The figures given show in the aggregate a mineral production for all Canada valued at $86,183,477 in 1907, as compared with only a little over $20,000,000 12 years ago. In the portion of the report devoted to the Yukon it is stated that the total production of gold from 1896 to 1907 was $121,951,090.

The report deals at considerable length with the coal-bearing areas of Alberta and Saskatchewan and points out the immense possibilities for coal mining industry in these provinces. "The construction already under way," says the report in reference to Alberta "and projected for the near future, by the three great railway companies, must result in a great increase in the production of steam coal, so that a country originally deemed purely agricultural will, ere long, become one of the leading coal mining provinces of the Dominion."

The copper production of Canada, U.S. and Mexico is now running in excess of 1,300,000,000lbs a year.

Under the new Chinese law foreign capital is not permitted to be employed directly in mining in that country.

Robert Guggenheim, son of the president of the American Mining and Smelting Co. has taken up his residence at Tacoma.

A new process of smelting ore is being exhibited at Seattle which has a capacity of 25 tons per day and is especially designed for localities which would otherwise be inaccessible for smelting purposes.

The mining industry in the Shasta County copper belt, California, is in a prosperous condition.

Near Vallenar, Chile, a gold mine is reported to have been discovered recently from which ore has been taken that contained 200 oz of pure gold per ton of 2,000 lb.

The mineral production in the United States now exceeds $2,000,000,000 per annum, and it contributes more than 65 per cent to the total freight traffic of the country.

When a mineral containing zinc is heated on charcoal before the blowpipe a coat is formed on the charcoal that is yellow white hot and white when cold.

Of the new smelting combine authorized $50,000,000 capital stock, it is understood that $20,000,000 will be issued in the near future, and has been underwritten.

MINING INSTITUTE.

Meeting of the Western Branch Postponed.

The unprecedented weather of the past ten days has so seriously interfered with mining operations that the meeting of the Western Branch of the Canadian Mining Institute at Greenwood has been postponed to Jan. 25th, and the following notice has been sent out by the secretary, Mr. Jacobs.

Owing to serious difficulties with plant and machinery, the result of freezing of water at mines and smelters, following enforced temporary supsension of operations, caused by stoppage of electric power during extreme cold weather so few Boundary members would be free to attend meeting if held Thursday, 14th inst., as previously intended, that local members have strongly urged postponement until Monday, 25th inst., which course, appearing necessary under exceptional circumstances, has been decided upon. You are accordingly hereby notified of this unavoidable change of date.

To Guarantee Bonds for Prairie Railways.

An unofficial report says that under an arrangement between Premier Rutherford, of Alberta, and the officials of the C.N.R., that company will build certain lines desired by the Province of Alberta under a guarantee of bonds to the extent of $15,000 per mile, the Government to retain the first mortgage on the lines so constructed. Premier Scott also made Saskatchewan a partner to this agreement. The company solicited a cash subsidy, but neither Mr. Rutherford nor Mr. Scott would entertain such a proposal. About five hundred miles are to be in southern Alberta, and the company will be asked to invade the coal fields of the south, giving competition in rate..

CITY COUNCIL

The council met on Monday evening and adopted minutes of previous meeting.

The report of the medical officer of health was received and filed. During the past year the health of our city has been extremely good, and the mortality very low. the total number of deaths in Greenwood during 1908 being 15, and 9 of these deaths were cases that came from points outside of the city.

The auditor's report for 1908 was received and filed, and ordered to be printed.

The amount collected for taxes during the year was $10,005.95.

The fire protection bylaw was reconsidered and adopted.

The following accounts were ordered to be paid:

Electric Lights	$188 95
A. A. Frechette	1 50
D O. McKay	37 20
The Ledge	40 00
Russell-Law-Caulfield Co.	60
Kinney & McDonald	7 90
Vancouver Rubber Co.	163 47

Council adjourned.

THE MUNICIPAL ELECTIONS

The election of mayor and aldermen for the City of Greenwood passed off very quietly and amicably although a rather keen interest was developed towards the close of the contest.

As usual with elections there were some surprises, not the least being the defeat of Ald. Fleming who last year headed the poll in the south ward.

Half of the old council together with Mayor Bunting have been returned and as the new members are all reliable business men and the choice of the people, it may be said that on the whole the result is satisfactory.

Mr. Desrosiers made a good run only losing by the narrow plurality of 19 votes.

Ald. Wilson leads the poll in the north ward, and Ald. Dixon in the south, who with the two new members, Ald. Buckless and Ald. Johnson, ran exceptionally strong.

In connection with the municipal elections this year the evident desire evinced by all concerned to work together for the good of the community is a matter for congratulation; and the spirit of public interest shown in matters pertaining to the best interests of the city augurs well for the future prosperity of the municipality.

The new council has some problems of very great importance to solve, the principal one being the matter of the greatly reduced revenues consequent to the increased amount of unpaid taxes, and it is evident that special endeavors will be made this year to bring the camp back to the former stage of prosperity enjoyed before the tightening of the money market in the financial depression which is happily passing away.

Though the situation in regard to civic finances is serious, we are in a much more hopeful condition than some neighboring municipalities, and a feeling of confidence prevails that Greenwood is entering upon an era of renewed activity.

The returns of yesterday's voting are as follows:

MAYOR.

Bunting, Herbert	108
Desrosiers, John B.	89

ALERMEN—NORTH WARD

Wilson, C. J.	70
Buckless, F. C.	68
Meyer, A. F. H.	56
McArthur, H. H.	26

SOUTH WARD.

Dixon, S. F.	83
Johnson, S. M.	71
Gulley, T. M.	57
Fleming, W. B.	50

The following is the result of the poll at Phoenix:

MAYOR.

Rumberger, G. W.	115
Matheson, D. J.	79

ALDERMEN—WEST WARD.

Marshall, J.	57
McKenzie, A. D.	41
Rogers, G. W.	38

EAST WARD.

Cook, P. J.	67
Deane, Danny	59
Hillier, A. J.	57

The Phoenix Minstrels will give a high-class entertainment at the Auditorium on Wednesday, 20th of January The proceeds are for the benefit of J. B. Carrigan, who recently suffered the loss of a leg through an accident in the Phoenix mines, and the Minstrels are deserving of a bum per house.

Temporary Shut-down

The plant of the Kootenay Power Co. has been incapacitated by the excessive cold, with the result that the Boundary mining companies depending on Bonnington Falls for power have been forced to temporarily suspend operations. The big plants at Rossland, Grand Forks, Phoenix and Greenwood are all out of commission.

The B.C. Copper company of Greenwood, are taking advantage of the situation to make some repairs to their works which will obviate the necessity of a shut-down at a later date; and it is expected that everything will be running as usual before the end of the coming week.

Kettle Valley Railway.

At the forthcoming session of the Provincial legislature the Kettle River Valley Railway Co. will seek incorporation to operate a line of railway of standard guage commencing at a point at or near Midway, B.C., thence to Penticton by the most feasible route a distance of 120 miles more or less; and commencing at a point at or near Penticton on Okanagan Lake thence to a point at or near Nicola by the most feasible route a distance of about 150 miles.

With the construction of the Kettle Valley line the Boundary will be brought into direct communication with the coast and the rich and extensive mineral fields of the West Fork will be given the transportation required to place them in the front rank of the country's producing mines.

METALS.

New York, Jan. 13—Silver, 50½; copper, 4⅛ to 4¼, weak.

London, Jan. 13—Silver 24¼; lead, £13 2s. 6d.

Jan. 13—Closing quotations on the New York curb and Spokane exchange:

	Bid	Asked
B. C. Copper	7.75	8.12½
Granby	100.00	115.00
Dominion Copper	43¾	.50
Snowshoe	07	.07¾

COPPER QUOTATIONS.

B.C. Copper	$8.00	8.25
Granby	105.00	108.00
Dominion Copper	43¾	.56¼

BOARD OF TRADE

At the annual meeting of the Greenwood Board of Trade the reports of the President and Secretary were read and other matters of local import dealt with.

The address of the president is optimistic and encouraging and in dealing with the increasing revenue of the community shows that the money paid in wages during the past six months by the B.C. Copper company is over $14,000 greater than that of any other six-month's period in the company's history.

Reference is made to the railroad situation and the Board advised that it is their particular province to see that the rights of the community in that respect are obtained.

Attention is called to the stability of local labor conditions which is referred to as a matter of material importance with the mining industry, and the Board is urged "to continue to encourage the advent of development money by giving any accurate information at its command, and to promote by every means in its power the interests of the district in mining and agriculture."

The Secretary's report deals with the work done by the Board during the year.

The alteration of the wagon road at Boundary Falls was brought before the Board of Railway Commissioners and the matter satisfactorily settled.

Correspondence with intending investors and settlers has been more or less weighty, as they refer not only to the large country to the north and west of Greenwood, but also to the neighboring towns of Phoenix and Grand Forks, who have no representative body to circulate reliable information.

The financial statement is a subject for congratulation, showing a balance for the year of $98.20, besides the assets, which include a library of useful information to which access may be had at any time at the secretary's office.

The residence of J. M. Kier at the Mother Lode mine was destroyed by fire on Monday afternoon.

January 15,'09

BOUNDARY ORE TONNAGE

The following table gives the ore shipments of Boundary mines for 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 19 08 as reported to the Greenwood Times—

UNION LABEL

FRIDAY, JANUARY 15, 1909

The Empire, of Prince Rupert, calls attention to the fact that the north country is sadly neglected in the provincial appropriations for surveys, roads, trails, bridges, etc., and demands that a fair part of the revenue from that part of the province be spent by the government in opening up the country.

The Boundary country is another locality which pays large revenues to the provincial treasury with but small returns; and money spent on roads and trails in a richly mineralized territory would serve to increase the great revenues now paid.

Perhaps with the appointment of an additional minister, and the return of others to their duties, some one may be found who has the time to look into the matter.

At the trial of T. H. Hicks, accused of the murder of Eccles Lennox at Winnipeg, the verdict of not guilty was received with deafening applause.

The police detectives of that city have rightly been made the subject of general ridicule, and the scathing denunciation of their "third-degree" methods by the trial judge would lead one to the opinion that the Russian practices of brass-buttoned ignoramuses should be punished by penitentiary imprisonment.

Turmoil and bloodshed reign supreme in the Island of Hayti.

This beautiful healthy and productive island has an area about equal to that of Ireland with a population of 1,500,000 negroes who are the descendants of former slaves of Spanish rule.

In three centuries these people have produced but one man of genius, and their present deplorable mental and moral condition is practically a complete demonstration that the black race is incapable of rising to the standard required of self-governing peoples.

The Kootenay Fruit-grower's Association has made arrangements with the Dominion Express company for the agents of that company to arrange sales and to do other business in connection with the disposal of the next season's crop.

This action will do away with the services of a good many middle men, and will probably prove to be a very satisfactory way of handling the fruit shipped to the prairies.

PROVINCIAL ITEMS

Rossland will hold a winter carnival Feb. 2-6.

100 Men in the G.T.P. survey gangs have had their wages reduced and quit work.

Prince Rupert has a new and up-to-date postoffice.

A fire at Port Essington did damage to the extent of $100,000.

The big building occupied by the Mountain Supply Co. at Revelstoke was totally destroyed by fire.

The headquarters of A. E. Miller, recently appointed Inspector of Schools, will be at Vernon.

Fire did $10,000 damages to the Rossland Engineering Works

The Empire is still after the "cider saloons" at Prince Rupert.

Captain Hugh Stalker, a Cariboo miner in the '60's, died at Vancouver last week.

The Fraser river is frozen over and the Chilliwack ferry has been destroyed by fire while frozen in mud-stream.

Conductor Alex. McDonald who brought the first train into Vancouver is dead.

It is estimated that from twelve to fifteen thousand tons of herring have been taken in Nanaimo harbor this season.

Ric. A. Fraser has sold the Nicola Herald to L. G. Lobsinger.

The city of Vernon will install the Gamewell fire alarm system.

MINES AND MINING

The Kingston group at Hedley is said to be showing up remarkably well.

American and English capitalists willl develope 27,000 acres of coal lands on Graham Island which has been held since 1885 by Victoria men.

A rare discovery has been mad at Oroville in the form of a deposit of epsomite of apparently unlimited quantity and great purity

Nevada produced $17 591,486 in metals during 1907.

The total value of the metalliferous output of B C. for the past year was $15,219,535.

J. G. Carrigan has suffered the loss of a leg from an accident in the Phoenix mines.

A strike of copper-gold ore assaying $30 a ton has been made at a depth of 236 feet in the Apex mine at Chesaw.

James Boyle, a mucker at the St. Eugene, lost an eye by striking a piece of powder in the muck

Nelson Penn was killed at Nanaimo by walking into an air shaft at No. 1 mine. He fell 600 feet.

GENERAL NOTES

The hatchet-men of the rival Chinese tongs are still busy in California.

Hebrews living in Finland are being made the object of severe persecution.

It is said that Lord Milner will become the Conservative leader in the British parliament.

The plant of the Puget Sound Mills and Timber Co. at Bellingham was destroyed by fire; loss $415,000.

The mileage of Canadian railways was increased 1,300 miles in 1908 and has reached a total of 23,750.

Longboat and Shrubb will run a Marathon race on the 26th in New York. The Indian has the advantage of a 6ft 6in stride and is 16 years younger than the English champion, being only 20 years of age.

Mazuma, Nev., has offered $100,000 for a fight between Jeffries and Johnson.

It is said that the C.P.R. will spend $30,000,000 on construction on its western lines.

A Canadian syndicate is negotiating for the purchase of the Chihuahua and Pacific railway.

The Spokane and Inland railway will spend $3,000,000 for track material and equipment.

A. E. Horton, the founder of San Diego, has died at 95 years of age.

A seat on the Montreal exchange was sold to McDougall-Cowans for $23,000.

ST. BONIFACE HISTORIC

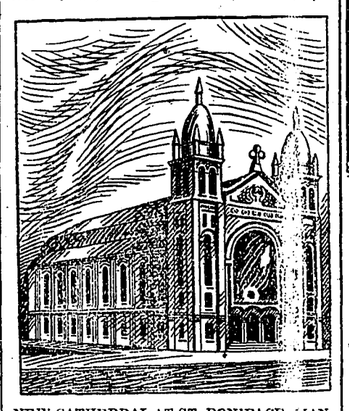
FRENCH MANITOBA TOWN HAS HAD FOUR CATHEDRALS.

From the First Little Wooden Building on the Shores of the Red River Until the New $250,000 Structure Has Been a Period of Unceasing Fight by the Fathers Against the Hardships of the Wilds.

With solemn pageantry the fourth cathedral in the historic little town of St. Boniface, Man., was opened a short time ago. The massive stone building which has just been completed at a cost of over a quarter of a million dollars marks the outpost of the battlefield of Christianity of nearly a century ago.

Wider, greater, and more comprehensive in every way than the stories of old Fort Garry, and all the Hudson Bay posts scattered from the 49th parallel to the Arctic, is the history of the four cathedrals of St. Boniface from the time Archbishop Provencher blessed the little wooden building on the banks of the Red River down to the present day.

Prior to the arrival of the first resident missionaries many attempts had been made to tell the story of Christ west of Lake Superior, but they met with many hardships and obstacles from the warlike tribes which infested the country a hundred years ago. In September 1818 work was started on what was called the first cathedral which was in reality nothing more than a small log building. It was named St. Boniface after the German apostle and Archbishop Provencher had charge of the parish which extended for hundreds of miles in each direction. For fifteen years this building was the only place of worship in Western Canada and then the strides of Christianity necessitated the erection of a larger building. To raise funds for this missionary cathedral Bishop Provencher left for Montreal in April, 1832, and returned with the necessary funds. However the building was not started until the next year, owing to there being no



NEW CATHEDRAL AT ST. BONIFACE, MAN

stonemasons available, but in 1833 work was started on the stone building with its "turrets twain" immortalized by Whittier. For over two years the cathedral lacked its turrets but when they were built and a belfry erected over the main door of the cathedral. The bells were ordered in England and were shipped in via the Hudson Bay and Lake Winnipeg, no other means of transportation being available in those days.

In February, 1861, this second cathedral was destroyed by fire. In January of that year Father Geffion started on horseback for Pembina, but when within a few miles of that settlement a fierce blizzard sprung up and after struggling for several miles his horse fell exhausted and was frozen to death. For three days Father Geffion laid by the side of his dead horse, living off it frozen flesh until found by two Indians and taken to Pembina.

So severely were his limbs frozen that his right leg and part of his left foot had to be amputated. En route to St. Boniface the bandages became displaced and all efforts to stop the hemorrhage were in vain. A fatal termination to this second mishap was so fully expected that preparations were made for his funeral. The provision of candles having became exhausted it was necessary to make a fresh supply. During the proceedings the grease became ignited and Father Geffion was with difficulty rescued from the flames which soon spread to the cathedral and totally destroyed the building. It was a bitter cold day, and Father Geffion, mindful of his sufferings near Pembina, pleaded to be allowed to burn to death rather than again face the bitter temperature. Being suddenly removed into the temperature of thirty degrees below zero had the effect of stopping the hemorrhage and to-day Father Geffion tells the eventful story of the building and destruction of the cathedral which had been the life work of the first Bishop of St. Boniface.

For funds to build the third cathedral Bishop Tache journeyed to Lower Canada, and in the following year the third cathedral was erected, but unlike its predecessor, had but one turret. That building stood until the present time, it having just been demolished to make way for the present structure and its "turrets twain" and to-day as of old:

The voyageur smiles as he listens
To the sound that grows apace;
Well he knows the vesper ringing,
Of the bells of St. Boniface.

The bells of the Roman Mission,
That call from their turrets twain,
To the boatman on the river,
To the hunter on the plain.

Dog That Goes to School.

For the past two years a terrier has accompanied a little girl to the Desborough Road Elementary School at High Wycombe, England. The dog never misses, morning or afternoon (even if his little mistress happens to be absent, which is a very rare occurrence), and he lies down beside the desk until school is over.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrapper and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple refined glycerine. This agent possesses intrinsic medicinal properties of its own being a most valuable antiseptic and enforcement, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery the cure of indigestion, dyspepsia and weak stomach, attended by sour rising, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its incipient stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

Copper

HANDBOOK.

(New Edition issued March, 1908.)
Size: Octavo. Pages: 1228.
Chapters: 25.
Scope: The Copper Industry of the World.

Covering: Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Miner needs the book for the facts it gives him regarding Geology, Mining, Copper Deposits and Copper Mines.

The Metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting, and refining.

The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.

The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

Price: $5.00 in Buckram with gilt top, or $7.50 in full library morocco.

Terms: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

A SCIENTIFIC WONDER

The Secret of a Famous Healing-Balm

The re-discovery of a secret that has lain hidden in the dust of 20 centuries is an event full of fascinating interest, and the story of Zam-Buk, the world-famed first-aid and skin cure will always enlist attention. Zam-Buk is the virtual descendant of those woderful and mysterious herbal balms by the use of which the manly athletes of Ancient Greece and the stalwart gladiators of Rome ensured the healthiness and ready healing of their skin.

Many are the attempts that were made to produce a perfect balm for the skin, but only in Zam-Buk has the ideal been realized. Since its discovery Zam-Buk has been welcomed in mansion and cottage, and the people of two hemispheres realised that they have been placed in possession of an absolutely unique cure for skin complaints.

The reasons for this triumph of science are simple and few. Taking a lesson from the Ancients, the proprietors of Zam-Buk first of all wisely decided that the ideal balm must be purely herbal and contain not the slightest trace of rancid animal fats or poisonous minerals. Thus Zam Buk is made solely from rich and pure essences obtained from certain herbs. These juices and extracts are prepared and refined by ingenious scientific processes and then so skilfully blended that a unique, effective, and yet perfectly natural preparation for dispelling skin disease is secued.

Zam Buk has an affinity for the human skin such as no ordinary ointment or linament can possibly possess Besides soothing pain and allaying irritation, it possesses unique antiseptic and germicidal qualities which virtually chase disease germs out of their hiding-places in the skin tissues; at the same time it purifies the pores and invigorates the natural functions of the skin in a way that no other preparation can.

Zam-Buk solves in a perfect manner the problem of always having handy at home or at one's work an ever ready and reliable first aid for cuts, burns, scalds, bruises, lacerations, scratches, etc. Zam Buk is without equal for eczema, ulcers, piles, bad leg, ringworm scalp sores, festering sores, sprains, stiffness, poisoned wounds of all kinds, face soses, chafing. chapped hands, cold sores, frost bites, sore feet, diseased ankles, and all such itching, irritation and inflammation.

Zam Buk is in daily need in every household and is sold by all druggists and stores at 50 cents a box Refuse harmful and dangerous substitutes sometimes "pushed" as being "just as good."

NOTICE TO CREDITORS.

ESTATE OF JOSEPH A. DEVLIN, DECEASED

ALL Creditors and others having claims against the Estate of Joseph A. Devlin, late of the Town of Westbridge and City of Greenwood, British Columbia, Deceased, are required on or before the Thirty-first day of January, 1909, to send by mail or deliver to James Poggi, Esquire, Executor, in care of the undersigned, full particulars in waiting of such claims, verified by affidavit or statutory declaration setting out the nature and amount thereof and the nature and amount of the security, if any held by them.

AND TAKE NOTICE that after the said date, the said Executor will proceed to distribute the assets of the said Deceased amongst those entitled thereto, having regard only to the claims of which he shall then have notice.

Dated this 22nd day of December, A. D. 1908.

JOHN D. SPENCE,
Rendell Block, Greenwood, B. C
Solicitor for the said Executor.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell 34

SHILOH

This remedy should be in every household

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

It is an easy matter to talk, but hard to collect wages for it.

If any one wants to remove superfluous adipose tissue let him join the ranks of the unemployed.

When history tries out a fat man, what is the result?

When a man admits that he is honest, it is well to look up his record.

Mosquito bites are much worn with bathing suits this season of the year.

Monkeys live in blissful ignorance of the fact that we are their descendants

When nerves are strained the double distilled essence of patience makes the best application

If you are sufficiently determined you can prove anything that you want to

Bad humor is a signal of distress, but all other craft steer clear of it.

When you try to get funny with some folks, the jokes get all over yourself.

Being big is no evidence of ability. If it were an elephant could catch a rabbit.

Some people are so lachrymose that even when they laugh the tears come to their eyes.

And then—some men are too good to be true.

Resultless Noise.

The orators in silver tones
Their strident voices raise
To tear to shreds some candidate
And sing another's praise,
But when election day appears
The fellows will be heard
Deciding the momentous case
Who do not say a word.

Upon a corner of the street
The talking ones hold sway.
The people listen for awhile,
Then make their getaway.
They might as well attempt to prove
The moon is made of cheese
The voters listen to the chaff
And vote just as they please.

The orators are full of noise
And loaded to the guards
With facts that prove the rich prevail
Because they stack the cards
The weary voter stands around
And listens more or less,
But when he comes to cast his vote
He takes another guess.

In a republic spouting is
A portion of the scheme.
It gives the persons bottled up
A chance to let off steam.
But noise is not the barge on which
The greater numbers float.
The candidate who wins is he
Who has the silent vote.

Not For the Immature.

"Tell me a fairy story, papa."
"I don't know any, my child."
"Oh, yes, you do. I overheard you tell Mr. Brown that you would have to tell one to mamma."

Offering a Suggestion.

"I dreamed last night that I kissed you."
"Dreams, you know, go by contraries."
"That is just what I thought when I woke up—that you would be contrary about it."
"Say, John."
"What?"
"Can't you dream tonight that you didn't kiss me?"

How He Knew.

"How do you like the platform?"
"Oh, I don't know. How do you?"
"It is the rankest platform any party ever adopted"
"To tell the truth, I haven't read it."
"Well, neither have I. But, you know, I never did vote that ticket."

More or Less.

We hope, and life is fair indeed;
We strive with hearts that tremble;
We lie like fury when we've need—
That is, we all dissemble.

Give Them the Right Start.

"Any log houses out through your part of the country?"
"Only a few. They have about all disappeared."
"That's too bad. They ought to keep at least enough of them in use to raise our presidents in."

Only Ones.

Contentment is a happy state—
At least so it is said—
But, thinking of it, on the whole,
We'd rather not be dead.

Fitted Out.

"How are you off for clothes?"
"I haven't a stitch to my name."
"Say, that'll make you a fine bathing suit."

All Over.

"He's very good hearted."
"When did he make an assignment."

MRS. MURRAY, graduate in voca and instrumental music, is prepared to receive pupils in piano, organ and voice. Latest Conservatory methods taught. Class in Greenwood, Monday, Tuesday and Wednesday; Midway, Thursday; Phoenix, Friday and Saturday. For terms and further particulars apply at room 34, Pacific Hotel.

Synopsis of Canadian North-West

HOMESTEAD REGULATIONS.

ANY even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Land Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father mother, son, daughter, brother or sister of an intending homesteader.

DUTIES—1. At least six months' residence upon and cultivation of the land in each year for three years.

2. A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain condition joint ownership in land will not meet this requirement.

3. A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior

N. B.—Unauthorized publication of this advertisement will not be paid for.

MORTGAGE SALE.

TAKE NOTICE that under and by virtue of a certain Mortgage from Fred Forest Travis, which will be produced at the time of sale, there will be offered for sale by public auction by James S. Birnie, Deputy Sheriff, in front of the Court House, at Greenwood, British Columbia, on Wednesday, the Twentieth day of January, 1909, at Eleven o'clock in the forenoon, the following valuable Residence Property in the City of Greenwood, B.C., namely: Lot One in Block J, as shown on Map Forty-Six.

The property is well located at the corner of Mill and Gold Streets and upon the lot is said to be a large and well built dwelling house.

For further particulars apply to

JOHN D. SPENCE,
Mortgagees' Solicitor.
Rendell Block, Greenwood, B. C.

Date this 21st day of December, 1908.

NOTICE.

IN THE MATTER OF THE LAND REGISTRY ACT, RE LOT 20, BLOCK 8, PLAN 21 CITY OF GREENWOOD.

WHEREAS proof of the loss of Certificate of Title Number 125 a to the above mentioned lands, issued to the name of Christopher Wood, of the City of Greenwood in the County of Yale, has been filed in this office; notice is hereby given that I shall at the expiration of one month from the date of the first publication hereof, issue a duplicate of said certificate of title unless in the meantime valid objection be made to me in writing.

Dated at Land Registry Office, Kamloops, this 17th day of December, 1908.

W. E. EDMONDS,
District Registrar

BOVRIL

the kitchen economist

Much of the left-over food you throw out can be turned into delicious dishes by the addition of a little Bovril.

It gives warmed-over meats the juiciness of the original cooking.

It gives body and strength to soups and gravies.

It gives a delicious glycerine flavor to cold meats and fish.

Every day you will find Bovril a delicacy and an economy in your kitchen.

Bovril contains the essence, flavor and nutrient substance of the best beef. It gives nourishment to the household and fulness and economy to the cook.

All good grocers sell BOVRIL

Ladies Free Monday Night

The Lee-McLellan Stock company has been playing to good houses in the Auditorium this week and will complete their engagement with this evening's performance.

Jesse A. Thomas, the well-known piano tuner, will be in town this coming week. Leave orders at Thomas Drug and Music Co.

Found—In Greenwood a small sum of money. Owner may have same by proving ownership and paying for this advertisement. Apply in person or by letter to D. McPherson, C.P.R. Agent, Eholt.

One-third off Barclay and Co's entire stock of Underwear for three days only.

The hockey match on Tuesday evening between the local team and the Phoenix boys resulted in favor of the hill team by 5-2.

The first half was a good exhibition, and altogether the game was closer than the score would indicate.

There are several stray horses wandering through the streets and by-ways of the city, and we would call the attention of the owners or the authorities to the matter as they should be taken in charge and properly housed and fed without delay.

Owing to either the inclemency of the weather or to a lack of public spirit of the citizens of Grand Forks only two aldermen were nominated in that city and the rest of the council will be appointed.

Lost— Sorrel Cayuse, white star on forehead and one white stocking; brand double square, on 17th Dec. Reward, $5.00. Jos. Beran, Mother Lode.

For Sale or Rent, immediately, Two-storey 10-room House on Kimberley Avenue, property of R. J. Moffatt. Apply E. H. Mortimer.

Owing to the remarkable difference in the thermometer readings at Nelson, Grand Forks and Spokane compared with Greenwood, we dislike to tell just how cold it did get; but private advices would lead us to believe that the temperature in this locality was just a little milder than at some other points we know.

Greenwood leads even in the matter of reliable thermometers.

The Vancouver Milling & Grain Co., Ltd, manufacturers of the "Royal Standard" flour, desire to announce to their many patrons and friends throughout this section of the country, the loss of their elevator in the recent fire, while a temporary inconvenience, will not in any way cause delay in their fulfilling all orders received.

Royal Standard has become a household word in so many homes throughout British Columbia, that even a temporary delay in fulfilment of orders would be a great inconvenience, and we are glad that such will be avoided.

Dominion Copper

We are informed that the affairs of the Dominion Copper Co. are being satisfactorily arranged in New York, and that in a very short time all accounts and obligations of the company will be settled and the company placed on a clear and substantial footing.

Phoenix Brewery Co., Successors to the Elkhorn Brewery Co

Raw, Cold Wintry Days.

Guess these last fewdays have set you thinking about your winter Overcoat. Well! we're ready for you with a select stock, in the accepted styles and beautiful cloth patterns.
Our regular

Campbell's Clothing

is good enough for any man, but if you're in the habit of getting your clothes made to order, our special order system should appeal to you. You'll get better made clothes, with more style and at two-thirds the price of your regular tailor.
Come in and see our stock, and let's show you what we can do.
