VOL. 14 GREENWOOD, B. C., FRIDAY, AUGUST 26, 1910. No. 51

The Strongest Guarantee

Ever put on a Wood Stove is behind

Cole's Air Tight!!

These are the reasons we took on this stove and the reasons we recommend it to you:

1. It is guaranteed to remain air tight as long as used. This is positive assurance of permanent satisfaction, for a *non*-air tight wood stove is as useless as a watch without a main spring.
2. It is a perfect radiator of heat, giving off all the heat produced by the fire. The heat from burning a single newspaper can be felt across a room.
3. It holds fire over night with light wood, cobs or trash. The fire is never out—and by simply putting in a little fresh fuel in the morning, you can heat up a room from zero to 80 degrees in five minutes' time.
4. It sells at a reasonable price—$3 up and every size stove is covered by the guaranty.
5. It burns wood and any kind of lighter fuel, cobs, rubbish, etc.
6. Its features are all patented and have been widely imitated but never duplicated. This *sincerest theft* of the desirable points is so strong a testimonial in favor of Cole's Original Air Tight Wood Stove as to have been a deciding point in our big purchase.
7. Made by one of the greatest stove concerns on earth, one whose guaranty is as good as this government's.

Remember Price—$3 up
Each Stove Guaranteed

We have the exclusive agency for Cole's Air Tight Wood Stoves.
You cannot buy them anywhere else.

OPEN LETTER TO PREMIER McBRIDE

The following communication has been received at this office for publication and is self explanatory:

MIDWAY, B. C., Aug. 16, 1910.

Hon. Richard McBride, Victoria, B. C.:

SIR—It seems to me that the "strong financial company," K. V. Railway, with its few miles already built from Grand Forks to Republic, Wash., and up the North Fork of the Kettle river, on which they operate a train once a week, which you found, but which has failed to carry out the contract you made with it, and in whom, if you remember the conversation we had the night, when on your invitation, I drove with you from Phoenix to Greenwood, I had very little confidence, unless you consider the putting of two men and a wheelbarrow to work for a few days, just the day before the four months expired, is complying with the agreement.

Perhaps the public, who put so much faith in your utterances last fall, would like to know regarding this matter and I take the liberty of addressing you and sending a copy to the press.

When the original company, the Midway & Vernon Railway people, who got a charter from the Dunsmuir government, commenced to build, and after work had started and money was being raised through a responsible New York banking firm, you and Mr. R. F. Green, then a member of your Cabinet, drove from here to Rock Creek and saw the work going on for yourselves, then you and your finance minister shortly afterwards made a trip east, when one of you in an interview with a prominent banker of Montreal, said that you were not sure whether your government would pay the bonus or not, as you were not sure that it could be legally collected.

This information was immediately, as you knew it was intended to be, wired to New York, and put a damper on the sale of bonds, with the result that work stopped with no money to pay for work done. Then, after some juggling, of which you knew, you transferred this bonus to the Kettle Valley Railway company, telling the public that the debts contracted by the Midway & Vernon Railway company would be paid. A board of arbitration was appointed to value the work done by the Midway & Vernon Railway company, and your government appointed Mr. R. F. Green to act for it. This, I consider, is adding insult to injury, for this man, with yourself, are responsible for these debts, and but for your interference this much needed railway would have been an accomplished fact, and there would have been no debts to pay. It is rather peculiar to me that Mr. L. M. Rice, C. E., of Seattle, Wash., arbitrator for the Kettle Valley Railway company, should now run down and belittle the work, done by the Midway & Vernon Railway company, which he laid out when acting as chief engineer for that company.

You called the original people of the Midway & Vernon Railway company "Charter mongers" and other names, when you spoke at Greenwood last. Could you inform me how Mr. D. M. Eberts, M. P. P., and Mr. Barnard, M. P., came to be directors of the Midway & Vernon company, and how th[illegible]

PREMIER LAURIER AT VANCOUVER

After a trip across the continent, which resembled more the triumphal march of a conqueror than the peaceful perigrination of a political chief, Sir Wilfrid Laurier arrived in Vancouver on the 16th inst. In the west, as we of the coast know it, Sir Wilfrid made no pause. At North Bend, in the early morning, a few British Columbians, loyal Canadians, cheered as the special train came in and as it left. At Westminster Junction, Mr. George H. Cowan, M. P., was sighted by one of Sir Wilfrid Laurier's party, and, in response to an invitation, joined the train. It was not till Vancouver was reached that the enthusiastic admiration which British Columbians cherish for the great Liberal chief found vent and expression.

Figure it as you will, no public man ever got such a magnificent reception in Vancouver as did Sir Wilfrid Laurier at the Horse Show building. At a conservative estimate there were present between 7,000 and 8,000 people, and they represented the best people in Vancouver in every class that goes to the making up of a great city. And never, perhaps, was western democracy better represented, because banker sat by logger, and baker by financier, and as a matter of fact the pastor of a leading church sat beside one of Vancouver's best known hotel keepers. The fair sex were also present in bright array, and truth to tell, a comely face here and there, goes a long way to take away the monotony of a sea of masculinity.

The Horse Show building was looking its best, being brightened here and there with new streamers, bearing such legends as: "Vancouver Greets You," "Canada's Grand Old Man," "Laurier and Greatest Canada," "Welcome to the Premier."

It was, in fact, stated by the newspaper men attached to the premier's party throughout the trip, that the reception in Vancouver in every way exceeded that of Winnipeg.

Sir Wilfrid, tired though he must have been, not only from his long trip, and from the somewhat strenuous day arranged for him in Vancouver, was in splendid form, and his address was a masterpiece of logic and a model of well arrayed facts and fairly drawn deductions.

OLD VETERANS

Few who learned of the death of Rev. Walter Ross at Grand Forks would experience more real regret than Rev. A. H. Cameron, of Keremeos and Hedley, who has been associated with him in the work of the church in the west for the past thirty years. Of the men who have been associated with the work of the Presbyterian church in the middle west and far west since the days of the first Riel rebellion or even since the advent of the C. P. R. the number is decreasing rapidly and a marked feature is that scarcely any of them retired from the active work of the church, but remained in harness until the last, like their old chieftain, Dr. Robertson, the superintendent of missions in the west, who passed away a few years ago.—Hedley Gazette.

FRIGHTFUL CONFLAGRATIONS

We give briefly in detail a summary of the terribly disastrous fires which have caused such a loss of human life and property, the full extent of which will never be known.

The fire at Campbellton, N. B., starts the record with a loss of property valued at $4,000,000 and the city completely destroyed. From this period follows a continuous list of most disastrous fires and which have culminated in those of the past few days, notably among which is that of Wallace, Idaho. A large portion of this town is in ashes, and causing, as far as known, a loss of 24 lives and property to the value of $2,000,000.

Helena, Montana, is in grave danger. Sylvanite, Taft and St. Regis, in Idaho, are in ruins and Libby, Mont., is in the fire zone. The dry spell continues and a more terrible menace is added by the prevailing high winds, making of no effect whatever of any opposition to the fire element, and reports are hourly received of many places doomed or have been effaced from the earth.

TEN YEARS AGO

(From Boundary Creek Times of Aug. 26, 1900)

The Grand Forks & Kettle River Railway act, is fully explained in this issue of the Times.

Alderman Cropley was acting Mayor of this city in the absence of our duly elected chief magistrate.

Jas. Wilson, superintendent Pacific division C. P. Telegraph, paid another visit to Greenwood last week.

Paul Johnson, M. E., general manager of the B. C. Copper Co., returned on last Monday's train from Europe.

Prof. Emmons, of Washington, D. C., and of the U. S. Geological survey, is spending a vacation at Greenwood.

Jas. Burch, returned Friday last from Victoria, where he had been furthering the interests of mining at Phoenix.

The Gateway Lodge of I. O. O. F. instituted at Grand Forks by members of the Greenwood Lodge, which starts off with 22 members, nearly all old Odd Fellows from other sections.

THAT'S BUSINESS

Protect your town and thereby show that you are in favor of protection. As townspeople we should favor our town above every other, as the growth and development of it is what will enhaunce the value of all property both in and about it. Then buy your dry goods, groceries, hardware, furniture, etc., at home; have your printing and other work done at home; patronize home in every instance that you can. The success of our merchants and mechanics means new business houses and residences additional demands for labor and more prosperity. Unquestionably "in union there is strength." Let us pull together and advance our city and district.—Grand Forks Gazette.

Reliable information has been received that the funds required to continue the work on the Greenwood-Phoenix tunnel, is in hand amounting to $40,000 and work will be proceeded with at once. This is good news indeed and will help our town some.

THE LAURIER NELSON EXCURSION

The Liberal Association was unable to arrange with the C. P. R. for a special train on account of shortage of passenger cars. Those who intend availing themselves of the great treat of hearing Sir Wilfrid and his colleagues at Nelson on the 29th, will take the regular daily train, which leaves at 12:10. Tickets can be obtained from Friday, August 26th, and up to the 29th, good for return on the 31st, at a fare of one and one-third rate, or $6.20 for the round trip. A large contingent from Phoenix, Midway and intermediate points and Greenwood indicates a large number of excursionists.

MINERS' PERILS

The very sad and terribly sudden death of the two men, Mike Bauer and Bernard Hannanin, at Phoenix on Wednesday last, called out very general expression of regret. The men were working close to the shute, and a mass of rock becoming disladged, overtook the men and forced them down the shute and they were buried under hundreds of tons of ore. Their bodies, when recovered, were almost unrecognizable and apparently every bone in their bodies ground to pieces. The funeral took place on Friday last under the auspices of the Miners' Union, of Phoenix.

IMPORTANT INDUSTRY

A company has been formed with L. W. Shatford, M. P. P., at its head, capitalized at $250,000 to erect a cement factory at Princeton, B. C. The plant will be capable of turning out 1000 barrels per day. The trade will be handled by the Great Northern Railway.

It is hard to tell the truth and still be polite.

FIFTY THOUSAND CHOLERA DEATHS

Reports from Russia indicate that conditions there are far worse than the Russian officials permit to be published. English health officers say that estimates of 12,000 cases and 50,000 deaths are not half the total actually existing in the Czar's dominions. A report that cholera had gained a foothold in Rome has been officially denied.

CITIZENSHIP

Our idea of a good citizen, and we are glad there are many in this community, is one always ready to give, according to his means, to community enterprizes. He takes stock in them all, and doesn't lose his faith if an occasional venture proves bad. He is not afraid to buy real estate and to pay what its worth. He talks up his town at home and abroad, thinks it is the healthiest place on earth, believing it destined to be the biggest city in the Interior and wants to be buried here when he dies. And he's worth a whole regiment of the lukewarm kind.

BRUSSELS FIRE

Brussels dispatches do not report any damage to the Canadian pavilian through the fire at the exposition grounds by which some $20,000,000 damage was done. The building containing the Canadian Pacific exhibit also escaped destruction.

UP AGAINST IT

Fifteen hundred Hindoos have sailed from Calcutta to the United States. The consul general at Calcutta states that they will probably be refused permission to land. They may be barred also from entering via Canada.

Services at St. Jude's church Sunday next at regular hours.

NOTHING BUT WEEDS

A few weeks ago our city fathers caused to be put to work men cleaning up the streets of Greenwood, and a very pleasing job they made of it. Now we would like to call their attention to the dreadful, prolific growth of that curse to any district, the Mustard plant, which, if not weeded out at once, will eventually prove to have got the upper hand and persistent efforts will be required to obtain control and stamp it out. It is really disgraceful to find everywhere about our city such a rank growth of weeds that are encroaching upon our sidewalks in many of our principal streets. It is really a black eye to any city, and strikes the stranger, as well as the resident, that matters are not very booming in the town when such conditions are allowed to run riot. It would not cripple the city's finances to start a crusade against this evil and have it remedied at once before it arrives at a stage when we can certainly expect the succeeding seasons to add to the nuisance a thousand or million fold.

This is respectfully brought to the notice of our city council and we trust will not meet with a "turn down" decision.

CROP SITUATION

The Census Bulletin shows that the conditions of field crops in Canada this year have been greatly modified by temperature and rainfall, and that between the East and the West it is hardly possible to make a statement of averages that will not be misleading. In the eastern provinces growth has been uniformly good throughout July, and the percentages of condition have been high for every crop; but in extensive tracts of the Northwest provinces drouth has prevailed and crops are reported in every stage of condition. The northerly parts of these provinces have been largely exempt from the drouth, and there the per cent conditions are high. It is difficult to indicate fairly an average of conditions for the East and West which does not take account of the areas sown, and these have been considerably reduced since the June report. The August report will give revised figures from which yields may be estimated.

BLUFF

An observant newspaper correspondent touring the West notes the promptness with which the people "size up" the difference between the counterfeit and the 18-carat article. "One notices that the West is not gullible. While it is quick to appreciate candor and fair dealing, it is always suspicious of a bluff. The Easterner coming to talk to the West must needs put aside the little platform devices that please an Eastern audience. The Eastern audience sees through the 'jolly' just as well as does the Western audience. But the West objects to it. It takes 'jollying' as an insult to its intelligence. It is afraid that the Easterner may think he is 'getting away with it,' and that therefore he will go back and boast of how gullible the West is, and how childish. And beyond this, [illegible] has earned what it has earned by straightforward work, and it abhors beating about the bush."

EDITORIAL COMMENT

There was another close shave for the powder house near Deadwood on Friday last from a forest fire in its near vicinity. When discovered, burning embers were lodging on the roof, which was preparatory to a blowup, which would not require the press to inform our inhabitants of the occurence. After hours of fighting by C. P. R. section men, with Mr. Good and other neighbors, it was got under control. Another warning to get that dangerous powder house removed from its close proximity to the town.

As an incident in connection with the Phoenix fire we gladly make public As stated in our report of the fire, the almost superhuman efforts made by the fire laddies and citizens to save the Black block, the key note or only obstacle preventing a clean sweep of that section of the town. In acknowledging and fully appreciating the efforts made to save his property Mr. Black has donated a number of lockets, nicely engraved with their respective monograms, to those who particularly exerted themselves, among the firemen. Such acts speak louder than words, and are not forgotten, either.

OUTLINES OF CURRENT EVENTS

The Phoenix fire loss is estimated at $150,000, but fairly well insured.

Vancouver defeated New Westminster at lacrosse last week by a score of 2 goals to 1.

Mr. L. H. Keogh of the Ottawa Collegiate staff announces that he has succeeded in transmutting copper into iron. He states that the discovery is of no commercial value.

The Roman Catholic missionary priests Father Welch and Father Nicholas attached to the Lesser Slave Lake mission, were drowned in the smoky river a few days ago.

For telephoning from a moving train an Iowa man has patented a device consisting of a metal bar to be suspended from a locomotive or car low enough to come in contact with standards set in the ties.

An Ontario M. P. is charged with selling liquor to Indians. If the aborigines were on the voters' list instead of the Indian list there might be some excuse for a liberal interpretation of the law of liquidation.

At a meeting of the shareholders of the Le Roi Mining Co. in London, it was unanimously agreed to go into liquidation. A. J. McMillan, late managing director, of Rossland, was appointed liquidator.

A large party of East Indians left Calcutta for the United States the other day with the expectation of securing positions on the police force. On arrival they will find this occupation is practically monopolized by natives of the Emerald Isle.

It is no more difficult to make a living in the United States when that country had forty millions of population than it now is with eighty millions, and the difficulties of that desirable achievement will not be lessened by an increase to one hundred and sixty millions. Yet there is feverish anxiety lest a few millions may cross to Canada.

The contract for the extension of the Kettle Valley railway line from Rock creek to Bull creek on the west fork of the Kettle river a distance of 35 miles, has been awarded to L. M. Ryo & Co., contractors of Vancouver and Seattle. Construction work will be started within three weeks.

Only four applications for divorse have been entered for hearing at the next session of the Dominion Parliament. In the Reno mill this grist would be cleaned in twenty minutes and the applicants would have ample time to form other alliance before the accommodation train left.

Only successful remedies are ever imitated. It is evident that "D. & L." Menthol Plaster successfully relieve rheumatic pains, backache, pleurisy, &c. The "D. & L." have been so widely imitated. Avoid dissappointment. Get the genuine. Made only by the Davis & Lawrence Co.

FLORENCE NIGHTINGALE

The suggestion of Prof. Macnaughton, respecting a memorial to Florence Nightingale will appeal to some who recall her beneficent work. Her labors and direction at Scutari, nearly three score years ago, not only saved hundreds of lives in that war, but were a beginning of the organized war hospital treatment, which has gone far to mitigate the horrors of war and of pestilence in the last half century. The frail woman who nursed the Crimean soldiers, and who seemed hardly likely to survive the ordeal, has miraculously outlived nearly all the veterans of the war. In her lifetime she refused to benefit by the tributes lavishly bestowed on her by an admiring and grateful nation, and now that she has found her resting place in the Abbey, where Britain buries her great benefactors, some public tribute to her memory will be paid.

If your liver is sluggish and out of tone, an you feel dull, bilious, constipated, take a dose of Chamberlain's Stomach and Liver Tablets tonight before retiring and you will feel alright in the morning. Sold by all druggists and dealers.

JAPANESE SUGAR TRUST

From Formosa comes the news that all the Japanese sugar companies there have formed a trust and will have a common agency. The trust intends to push sales in America.

Even if the world does owe you a living it won't collect it for you.

MI-O-NA

Relieves Stomach Misery Almost Immediately

If the food that you ate at your last meal did not digest, but laid for a long time like lead on your stomach, then you have indigestion and quich action should be taken.

Ofcourse there are many other symptoms of ingigestion, such as belching up of sour food, heartburn, dizziness shortness of breath, and if you have any of them, your stomoch is out of order and should be corrected.

Mi-o-na tablets have cured thousands of cases of indigestion and stomach trouble. If you have any stomach distress, Mi-o-na will relieve instantly.

But Mi-o-na unlike most so-called dyspepsia remedies, does more than relieve; it permanently cures dyspepsia or any stomach trouble by putting energy and strength into the walls of the stomach, where the gastric juices are produced.

A large box of Mi-o-na tablets costs but 50 cents at J. L. White and are guaranteed to cure or money back. When other fail, Mi-o-na cures. It is a producer of flesh when the body thin; it cleanses the stomach and bowels; purifies the b[illegible]

LOOK CAREFULLY

Hon. W. S. Fielding, M. P., Canadian Finance Minister, said, at a recent banquet in London: "A time of prosperity is apt to create enterprises, and we must ask English investors to look carefully into schemes, so that if they go wrong they will not blame the country but themselves for their lack of care. It is a common failing with the multitude when any country, any department of industry, any individual even, is being boomed in the press, to rush to the crude conclusion that anything and everything in connection with that particular country, market or individual must necessrrily be good, and when disillusionment comes, to blame with just as crude a judgement the agents responsible for the boom.

In buying a cough medicine don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it and relief is sure to follow. Especially recommended for coughs, colds and whooping cough. Sold by all druggists and dealers.

When you get out of your own way you often get into somebody else's.

Don't let an unscrupulous dealer force on you an imitation of the "D. & L." Menthol Plaster. Look for the "D. & L." trade-mark on the tin. It guarantees the genuine and the most effective remedy for Rheumatic aches and pains, Lumbago, Sciatica, Backache, etc. 25c. each. Yard rolls equaling seven of the regular size $1.00.

FERROVIM TRADE MARK

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent *free* on receipt of 31 one-cent stamps to cover cost of mailing *only;* or, in cloth binding for 50 stamps.

Address Dr. R. V. Pierce, Buffalo, N. Y.

MINING CLAIM FOR SALE

In Wellington Camp. The property known as The Golden Crown, with [illegible] gement now found there-

Synopsis of Canadian North-West

HOMESTEAD REGULATIONS.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader.

The homesteader is required to perform the conditions connected there with under one of the following plans;

1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence pon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1. per acre. Not more than 2,560 acres shall be leased to one individual or company. A royality at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior

N. B.—Unauthorized publication of this advertisement will not be paid for.

Copper

New Edition of the

COPPER HANDBOOK

Vol. VIII., issued May, 1909, contains 1,500 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its great bulk. It is filled with FACTS of vital importance to,

THE INVESTOR
THE SPECULATOR
THE METALLURGIST
THE CONSUMER
THE MINER

Price is $5 in Buckram with gilt top, or $7.50 in genuine full library morocco. TERMS are most liberal. Send no money, but order the book sent to you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

HORACE J. STEVENS

75 SHELDON BUILDING, HOUGH-

MINES AND MINING

The gypsum deposits in Nova Scotia are among the largest in the world, though it is still an infant industry.

Mining affairs at Phoenix are going along steadily notwithstanding the mishap to the Granby plant by fire.

At the Van Roi, at Silverton, a large body of good milling ore has been developed on the 250 and 400-foot levels.

S. S. Fowler, general manager for the Canadian Metal Co., is expected to reach Riondel, B. C., soon on his return from Paris.

Neil McL. Curran, for some years manager of the North Star mine, near Kimberly, B. C., has resigned because of ill health from lead poisoning.

At the Hedley mines about 150 men are employed. Additional machinery to the mine plant is being installed and will soon be in working shape.

The Granby is one of the greatest speculative possibilities among the highest priced coppers. It is certainly cheap at its present price, and some day insiders may awake to the fact that it is worth the highest price for which it ever sold.—Boston Commercial.

The Nugget mine, one of the best known properties in the Sheep Creek district, near Nelson, has been bought by the Guggenheims. It is understood that the sale was made on the basis of $3.50 per share for 285,000 shares. The first payment of $25,000 has already been made.

American and British magnates are reported to be preparing to organize a $200,000,000 copper trust, according to the London Evening Standard. It is said that conferences recently were held at the Hotel Ritz, attended by Thomas F. Ryan and Samuel Untermeyer. No details of the alleged combination are given by the Standard.

The new slimes treating mill at the Jewel mine has started work. The average ore of the Jewel mine assays $15 per ton. There are quantities of galena, zinc blende, iron pyrites, and occasionally ruby silver, teluride and some free gold found in the ore, which has so far been found difficult of treatment.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by all druggists and dealers.

BRITONS STILL

When a German emigrates he goes to a foreign land and is lost to Germany. When a Briton leaves home the chances are that he goes to Canada or Australia or South Africa, where he not only retains his British citizenship, but, acting as a piece of leaven, helps to make good citizens of the nondescript peoples who are flowing in from other nations.

Anemic women and children who frequently feel chilly, are pale and exhausted, will derive great benefit from the use of **Ferrovim**, the invigorating tonic, which consists of Iron in a form they can assimilate, fresh lean beef and pure Sherry Wine. Nothing could be better than this combination of strength giving agents in such cases. $1.00 per bottle.

Sincerity wins respect not only for the individual, but also for his cause.

When the digestion is all right, the action of the bowels regular, there is a actual craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by all druggists and dealers.

Nature plans well for mankind's needs. What could be more convenient than ears to hook spectacles over.

MISS JESSIE MACLACHLAN

The Popular Scotch Prima-Donna

In the picturesque little seaport town of Oban, Scotland, with its beautiful scenery and its inspiring historic associations, Miss Jessie MacLachlan the famous Scotch prima-donna, was born. She was very young when she first revealed her unusual musical endowment, for Nature gave her a voice of rare sweetness and power. When she was but twelve she joined the choir in her native town, and with a thrill of surprise the choir-master heard her sing. So pleased was he with the possibilities of her voice that he urged her to guard her golden treasure with care, to avoid indiscriminate singing until she should be trained and perfected under the best teachers. He recommended her to devote her life to song, and told her, with a prophetic glimpse, that she would be numbered among the world's greatest singers.

Under the enthusiastic teaching of Edwin Holland of the Guildhall School of Music, and other masters, her training was continued until she was ready for her first public appearance. Her intense love of Scotland, a patriotism that seems the keynote of her whole nature, led her to realize the possibilities of the old Gaelic ballads, the heart songs of her people, and when Glasgow recognized her genius, her fame quickly spread through Great Britain, and the doors of conservative London opened in welcome.

At Balmoral she was commanded to sing before Queen Victoria, who expressed her royal appreciation by presenting to her a superb bracelet. For nearly two and a half centuries no Highlander had been summoned to the throne—the latest one being a MacCrimmon piper who, in 1651, had the honor of performing before the King and kissing his hand.

Miss MacLachlan's voice is a rich full soprano, vibrant with feeling and dramatic power. It is not the mere singing, the mere succession of pure liquid notes, that rouses her audiences, it is the magnetic force of her personality, her absorption of the spirit of the song that carries the words from the heart of some Scotch poet of centuries ago to find their echoing note in the hearts of his twentieth-century fellow-countrymen.

On her fourth tour of the world she is awakening enthusiasm wherever her voice is heard, and is now singing in Australia. In Boston, before an audience of 5,000, when she gave the stirring martial air, "Wi' a Hundred Pipers," men jumped on chairs and waved their hands and shouted. In Toronto, encore after encore inspired new songs, until the singer grew wearied—a welcome typical of her entire tour.

Entered according to Act of the Parliament of Canada, in the year 1905, by W. C. Mack, at the Department of Agriculture.

A MASONIC EVENT

The resolution unanimously adopted at Chicago, Ills., establishing a concordat between the Knights Templar governing bodies, is said by Masons to be the most important step taken by the conclave in years. The concordat establishes amiable relations between the Knights of England, Ireland, Scotland, Canada and the United States, and is an event that has been crystallizing for many years.

Its consummation is said to be the chief object for which the Earl of Euston, pro-grand master of England and Wales, visited the 31st triennial conclave.

All the Templars of the world are affiliated with the governing boards of one or the other nations, and this legislation practically consolidates them.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the train or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepaired. Sold by all druggists and dealers.

"Where the vanguard rests today the rear guard camps tomorrow."

The hot-tempered person is the one who requires the cool treatment.

TEETHING

The pain is quickly allayed and the fever reduced by rubbing the gums, according to directions on the box, with

MATHIEU'S NERVINE POWDERS

the wonderful headache cure

18 in a box, 25c. Sold everywhere. If your dealer does not keep them we mail box on receipt of 25c.

7-5-0

J. L. Mathieu Co.

THE WORLD OF WORDS

There's many a man and many a dame defeated in this worldly game, who might regain the upward track—for has-beens now and then come back—if we would seek them where they stand, and offer them a helping hand. But when we go to help the lost, the beaten and the tempest-toss'd the milk of kindness turned to curds; we merely hand out bales of words. If words were worth but one cent each. If we would do instead of preach. A lot of hearts bowed down with woe would feel a new and cheering glow. How well we like to wag our jaws to help along some worthy cause, and how we hate to bend our backs and get right down to old brass tacks. "Oh, for a thousand tongues," we sigh, "to lecture poor folks passing by; to show them where they've made mistakes, and forty kinds of dizzy breaks; to hand them precepts by the peck, and fill them up, clear to the neck, with admonition and advice, and solemn warnings, off the ice." A thousand tongues we each might use, to air our philanthropic views, but when it came to helpful deeds, one finger would be all we'd need.—Walt Mason.

GOOD COUNSEL

"Do a good turn every day, always try to help some human being or beast when ever you can, and remember first of all, honor your God and your King, obey orders, and do all the good you can. God bless you all."

These closing words of the advice to the boy scouts by that splendid soldier General Sir Robt. Baden-Powell indicate the spirit of the organization and its founder. The profession of arms is sometimes represented as debasing, but it has produced some of the tenderest and truest of men.

The admonition quoted above is ge[illegible] uts, and [illegible] uts. It [illegible] remem- [illegible] cease to [illegible]

[illegible] oney to [illegible] to scat-

CLOSING MINES SUNDAY

The Lake Superior mines have always followed the practice of Sunday closing. In that district mining, milling and transportation employ about 95 per cent of all the workmen in the district, and 5 per cent or less are employed in the smelters. It is not practicable to close down a smelter one day out of seven, and therefore the smelters in all mining districts are run continuously making Sunday work unavoidable.

Mining interests recognize the fact that better results can be obtained at a lower cost per unit of service performed if the men are given one day's rest out of seven. In districts like Butte, Bisbee and Cananea, where smelting operations are a very considerable factor, it has been necessary to operate both mines and reduction plants continuously. In Butte it has been found possible, through the maintenance of very large stocks of ore at the smelters and concentrators to close down the mines on Sundays. It is quite probable that this example may be followed by other districts with a view of eliminating Sunday work wherever possible. This practice will work, we believe, to the decided advantage of both employer and employee.—Boston Commercial.

When you go to the country take a tin of Davis' Menthol Salve along. It is unequalled to relieve earache, sprains burns, cuts and bruises. 25 cents.

HIGH COST OF LIVING

The cost of living continues to rise. The United States bureau of satistics notes that whereas last year the United States people bought from foreigners diamonds to the amount of $24,000,000, this year the total was $39,000,000. For works of art they paid $21,000,000, instead of the $3,800,000 last year. And so it goes. When you feel inclined to grumble at the increased costs of meats and other plain necessaries, spare a little sorrow for the trouble of the wealthy.

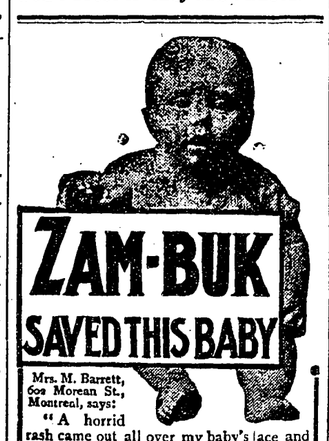
Bearine, a delicate pomade, grows hair because it contains genuine Canadian Bear grease. 50c. a jar.

QUITE A LITTLE ONE

A baby girl, weighing one and one half pounds and less than twelve inches in length, was born recently at Duquoin, Ill., The infant is so tiny that a match will hide one of her fingers, while her head is about the size of a hens egg. The doctors say she will live.

T. L. Lewis, president of the United Mine Workers, declares that the men have $5,000,000 for a strike fund.

There are still some people who won't boost if they can't knock.



ZAM-BUK SAVED THIS BABY

Mrs. M. Barrett, 608 Morean St., Montreal, says:

"A horrid rash came out all over my baby's face and spread until it had totally covered his scalp. It was irritating and painful, and caused the little one hours of suffering. We tried soaps and powders and salves, but he got no better. He refused his food, got quite thin and worn, and was reduced to a very serious condition. I was advised to try Zam-Buk, and did so. It was wonderful how it seemed to cool and ease the child's burning, painful skin. Zam-Buk from the very commencement seemed to go right to the spot, and the pimples and sores and the irritation grew less and less. Within a few weeks my baby's skin was healed completely. He has now not a trace of rash, or eruption, or eczema, or burning sore. Not only so, but cured of the tormenting skin trouble, he has improved in general health."

Zam-Buk is sold at all stores and medicine vendors, 50c. a box, or post free from Zam-Buk Co., Toronto, for price, 6 boxes for $2.50. A certain cure for all skin diseases, cuts, burns, etc., and for piles.

Zam-Buk

MAGNET Wood Furnace

The McClary Magnet Wood Furnace has a fire-box opening that admits the largest chunks of wood with ease—wide, deep, generous in size as the Magnet is in quality of material and workmanship. The wide opening saves you work, because you can use wood that you would have to saw and split to get through the narrow, shallow fire-box openings of ordinary wood furnaces.

Instead of making the fuel fit the door, the Magnet door is made to fit the fuel.

It is just as easy to get the ashes out of a Magnet as it is to put fuel in; because the opening of the ash pit is just as generous as the fire-box opening. You can get at the farthest corner and remove the ashes with ease and speed—no turning and twisting; no trouble nor inconvenience. These two advantages are good reasons why you ought to use a Magnet. The McClary agent in the nearest town will welcome the chance to give you many more. Write to the nearest McClary branch for booklet.

TOWN TOPICS

Judge J. R. Brown, made a professional trip to Greenwood this week,

A. J. Hancock, of Winnipeg, representing the Great West Loan Co., was in town this week.

The new Leggatt clay pigeon trap was used for the first time by the gun club on Wednesday.

Mrs. F. W. McLaine, who has been visiting friends at Seattle is expected home at the end of the month.

John Barclay, now of Vancouver, and formerly a merchant of this city, was in town meeting his old friends.

W. Marchmont, inspector of customs, Victoria, inspected the custom office at this port on Monday and proceeded to Phoenix.

Miss May Lawson, who has been enjoying her vacation at Vancouver, has returned to her post, in fine health and spirits.

Over fifty Doukobors arrived on Monday,s train and some hundreds are following to increase the colony at Grand Forks.

Geo. Clark, of Grand Forks, representing Marcus, Wash., fruit men, was in our city during the week, taking orders for fruit

C. J. Campbell and wife of Nelson, was registered at the Imperial this week. Mr. Campbell is sales manager for P. Burns & Co.

Jas. Rooke, secretary-treasurer of the Grand Forks Fruit Growers association, was in town soliciting trade, and was very successful.

Miss Lavinia Moffatt, who has been visiting her friends Mr. and Mrs. Hugh McCutcheon, returned to her home in Spokane, on Thursday.

Gerard Galt is installing a cyanide plant at the Napoleon mine of the B. C. Copper Co. near Marcus, which will be in running order this fall.

C. Scott Galloway, formerly of Greenwood, and now a rancher at Grand Forks, was in town this week taking stock of his interests at this place.

The Freemont mine will start work in a short time and in such shape that it will be continuous, and good men backing it and indications first class.

The Midway coal properity appears to be working along very satisfactorily. A number of men are steadily employed, and the output very encouraging.

Dr. Barrett, inspector of inland revenue, Winnipeg, E. B. Parkinson, collector of inland revenue, Vancouver, inspected the local office at Greenwood on Monday last.

Married—At Calgary, Alta., on Wednesday evening. Mr. T. Stuart Palmer to Miss Adams. His many friends warmly congratulate him and express best wishes.

A. E. Braithwaite has returned from his outing celebration at Vancouver, contrary to expectations he returned with a lone hand, but that will be improved upon at a later date.

W. J. Keyes, representing Miller & Richard, type founders, with branches in nearly all of the leading cities of the Dominion, was a caller at the Times office on Thursday of last week.

Roderick McCutcheon, who has been spending his vacation with his parents at Greenwood, has been promoted to the position of teller of the Bank of Commerce, Vancouver, and has left for his new post.

The Rev. J. Knox Wright, B. D., of Vancouver, B. C., district secretary Canadian bible society, gave a very interesting discourse on bible society matters at the Presbyterian church on Wednesday evening.

Miss Minnie Hart, of Greenwood, who was stopping with Mrs. O. B. Smith, at Phoenix, at the time of the fire, had such a close call, that she lost all her personal effects and seventy-five dollars in money.

Take notice that owing to lack of coaches on the C. P. R.. The excursionists to Nelson to hear Premier Laurier on the 29th will go by regular trains at one and one third and return. See particulars in this issue.

A most enjoyable dance was given at Phoenix on Monday evening last by the business men. Complimentary to the firemen and citizens in appreciation of their services at the late conflagration. It was voted a high class event.

The following guests were registered at the Pacific Wednesday: W. W. Ross and Gilbert Kay, of Phoenix; A. W. Smith, of the No. 7 mine; A. D. Broomfield, of Westbridge; J. Sullivan, of Eholt; C. L. Coburn and wife, of Philadelphia, Pa.

There has been quite a little pow wow among the rate payers of our city, questioning the legality of our council using the sinking funds monies for loaning purposes to private parties. Legal advice is given that the city has not the authority to do so.

The Rev. M. F. Hilton, the new incumbent of St. Jude's parish, arrived in Greenwood on Wednesday last, and was met at the C. P. R. station by the vestry officiers of the church and also a guard of honor formed by the Boy Scouts. The reception was most pleasing to the reverened gentleman.

John East, also George Cook left on Friday last for the Clearwater district, to thoroughly examine and prospect the mining claims located in far Cariboo by Mr. Noyes, of the B. C. Times, and John East, of Midway, they will probably remain there two or three months.

INFORMATION WANTED

I will reward anyone who will inform me of the wherabouts of my son, Hayden Brooks. Was last heard from in Greenwood, B. C., in December, 1908. I think he is going under the name of Harvey Ferguson. He is about 5 feet 10 or 6 feet in height, dark red hair, light blue or gray eyes, clear skin and somewhat freckled. Any information given of him will be gratefully received and remuneration made by addressing A. J. Brooks, Monroe, Louisiana, U. S. A.

NOTICE

To the Public of Greenwood:

I strongly advise all who use our city water for drinking to boil the same before using, and continue to do so for the next few weeks.

OPEN LETTER TO PREMIER McBRIDE

(Continued from Page 1)

the original owners of the Midway & Vernon Railway company was carried out, and how, as directors, these gentlemen, with other directors, transferred, as I am told by the Canadian Bank of Commerce, who held my interest as security, to the Kettle Valley Railway company? Do you consider them charter mongers, too?

Please tell me why you came and the work going on, and why you went east and gave out the statement re. the bonus if it was not to damn the project and serve some company or gratify the mercenary cravings of satellites which were, and still are, your master?

I, with others, would also like to hear what Mr. J. R. Jackson, M. P. P., thinks of the promise he and Mr. Lennie made at Midway when he, Mr. Lennie, in replying to what I said at a public meeting there, stated that as president of the Conservative association, of the Kootenays, he pledged that association to see that whatever agreement you entered into with the Kettle Valley Railway company would be fully carried out.

Has this been done? Come, Mr. McBride, Mr. Lennie and Mr. Jackson, speak out, or have you no power? Yours truly,

JAMES KERR.

We are all apt to be prejudiced against what we don't understand.

Great fortunes are founded upon misfortunes.

Invest 25 cents in a box of Davis' Menthol Salve ("The D. & L.") and be prepared for a hundred ailments, which may not be dangerous but are very annoying and painful, like neuralgia, earache, sprains, burns, bruises, insect stings, cuts, piles, etc. It is a household remedy always useful for some trouble, and should be kept in the family medicine closet.
