VOL. 12 GREENWOOD, B. C., FRIDAY, MAY 22, 1908. No. 37

Greenwood's Big Furniture Store

They Have Arrived

New Goods for Spring Furnishing

English & Scotch Linoleums direct from the Old Land

Carpet Squares in Velvet, Brussels, Tapestry and Ingrains

Fine Wilton and Smyrna Rugs, Room size.

Ostermoor Mattresses

T. M. Gulley & Co.

HOUSE FURNISHERS—Phone 27—Greenwood, B.C.

MILLINERY

The Latest in Ladies' Sailors Just Arrived, All Styles, including the Famous

"Merry Widow"

In large or small size. If you see our styles and compare our prices, your own judgment will prompt you to buy

RENDELL & CO

Dry Goods. Millinery

"By their works shall ye know them"

On the merit of their performances alone are we willing to have them judged. Simplicity of construction, combined with a skill in manufacture, which is the inheritance of generations, make

REGINA WATCHES

good time keepers and consequently comfortable watches to carry.

Their efficiency is assured by a guarantee which enables the owner to have any constructional defect remedied free of charge by the nearest agent in any part of the world. They are not made in grades which cannot be fully guaranteed.

A. Logan & Co.

## COMING TO BOUNDARY

**Canadian Mining Institute Arranges for Three Excursions — Include European Engineers.**

The Council of the Canadian Mining Institute has a arranged a summer excursion for its members, one division of it coming to the Boundary. The excursion will start from Quebec on or about the 24th of August and will be participated in also by the Institution of Mining and Metallurgy; the Iron and Steel Institute; the Institute of Mining Engineers and other important British and European mining and engineering societies. Members of the Institute have been requested to notify the secretary by June 1st if they intend to avail themselves of this opportunity.

Members may invite a limited number of guests interested in the mineral industry, and it may possibly be that arrangements will be made for ladies to accompany the excursion.

The excursion is arranged so as to cover all the principal mining points in the Dominion exclusive of the Yukon and the division proposed is as follows:

Stage 1—Nova Scotia and Quebec Excursion.

Quebec to Sydney (including in Nova Scotia, visits to the Pictou and Glace Bay Coal mines, to the Sydney iron and steel works; and in Quebec, the asbestos and and copper regions of the Eastern Townships). Time required, approximately, nine days.

Stage II—Ontario Excursion.

Montreal to Toronto, the Cobalt and Sudbury districts (including visits to Niagara Falls, the silver mines of the Cobalt area and the nickel-copper mines and metallurgical works at Sudbury). Time required, six days.

Stage III—Western Excursion.

North Bay to Victoria, B. C., and return (including visits to the Fernie & Bankhead coal mines, the St. Eugene silver-lead mines at Moyie, and metallurgical works and the copper-gold mines of Rossland and Boundary, the Bonnington Falls power plant, etc., etc.) Time required, twenty-five days.

### Mission Cancelled

Very Rev. Father Lawrence, the popular and effective missioner of the Catholic church, who was scheduled to conduct missions in Grand Forks, Phoenix and Greenwood, has been taken very dangerously ill at Vancouver, and consequently will be unable to fulfill his program. All missions in B. C. have been cancelled. Rev. Father Lawrence is a most eloquent and lucid preacher, and the people of Greenwood are missing a very great deal in not having the privilege of hearing him. In Nelson and Vancouver his missions were attended largely and much appreciated.

## METALS

New York, May 20—Silver 53 1-8; electrolytic copper, 12 5-8 and 12 7-8.

London, May 20.—Silver, 24 1-2; lead, £13 5s.

Opening Copper Quotations
(Reported by McDermid & McHardy)

| | Asked | Bid |

| Dominion Copper | 1¼ | 1 |
| B. C. Copper | 5 | 4¾ |

## INTERESTING DOCKET—EMINENT COUNSEL

The assizes of the Supreme Court, to be held here next week before Mr. Justice Clement, provide a docket of considerable interest and will attract several counsel of eminence. The only criminal case is the prosecution of Francesco Cedio for the murder of Louise King at Niagara, which will be conducted by Hon. W. J. Bowser. It is understood that A. C. Sutton will appear for the defence.

Four civil cases, all important, are on the docket. Efforts to settle the case of Portman v. City of Greenwood have been unavailing, and J. D. Spence and W. A. Macdonald, of Nelson, will appear for the prosecution, and J. P. McLeod and J. A. Macdonald of Rossland, for the city.

The case of Beaulne v. the Yale Columbia Lumber Co., Ltd., a suit for damages for accident under the Employers' Liability Act, will attract the services of Jos. Martin and Davis, Marshall & McNeill, of Vancouver.

The City of Grand Forks is also suing the Yale Columbia Lumber Co. for $1,200 damages done to a bridge over the Kettle river by removing the wrong pier. A. C. Sutton will appear for the city and David Whiteside for the company.

The case of Shaw v. Voigt, for collection of account amounting to over $2,000 for services as surveyor, will be handled by J. D. Spence and D. Whiteside. C. Æ Shaw, of Greenwood, is the plaintiff in the suit.

### A Model for the World.

The Mining and Scientific Press in its issue of May 16th contains a description of a method of thawing out frozen tap-holes of copper blast fore-hearths or settlers, by means of an electric arc which "has proved a great economy at the B.C. Copper Co's works at Greenwood, B.C." This method has been copied all over the continent in various smelters. The Press says:

Keeping matte tap-holes open in large settlers particularly where the matte produced carries enough copper to chill readily, is a difficult matter,, the matte freezing ahead of the bar as it is driven in where what Mr. Hixon calls 'muscular metallurgy' is employed. Thawing by electricity is not new, but details as to methods of operation, current strength etc., are not readily accessible. The scheme is as follows: Electrical engery to operate the works is received at 2,000 volts alternating current, but for electric haulage this is transformed by motor-generators to 250 volts direct current. The current in use for thawing should be of low pressure and large quantity, and therefore connection is made from the direct current switchboard into a water rheostat, adjusting the voltage to what may be required by the distance between the plates which receive the incoming and outgoing current. The adjustment is quickly secured by turning a longitudinal rod, upon which there is a right and a lefthand screw, thereby drawing the plates closer together or moving them farther apart with corresponding variation of resistance. For convenience the tank is placed out of the way in the power-house basement and a mortise-gear operated by a hand wheel from the level of the power-house floor, is employed. At the blast furnace the wire is attached to a carbon 1 inch diameter by 30 inches long, and this being inserted into the frozen tap-hole creates an arc which quickly melts everything ahead of it, the only trouble being to know when to stop and avoid a "runaway." An important point is that the operating workman should wear a mask and very dark goggles, otherwise there will be serious injury to the eyes and the skin of the face. In making connection the positive side only is connected to the carbon stick, the negative being grounded through the settler.

## TORIES TOUR THE INTERIOR

**Premier McBride and Hon. H. E. Young Rest in Greenwood and Meet the Faithful**

Hon. Richard McBride, Premier of British Columbia, and Hon. H. Esson Young, Provincial Secretary, accompanied by Private Secretary Macrae, arrived in Greenwood yesterday morning, coming via the V. V. & E. from Oroville. The party left the main line of the C. P. R. at Vernon and came south along Okanagan Lake, visiting Peachland, Kelowna, Naramata, Summerland and Penticton, from which place they drove to Oroville. At Midway they were met by John R. Jackson, who accompanied them on their pilgrimage yesterday. After their tough and late drive on Wednesday, the ministers were very tired and rested until 4 o'clock yesterday. After that they visited the smelter of the B. C. Copper Co.

Last night a number of local Conservatives met the Premier in private conference at the Imperial Hotel. Martin Burrell had come over on the afternoon train from Grand Forks, and he also was there to meet the faithful.

This morning the entire party went to Phoenix, and from there they will go to Grand Forks, and spending the night there, go on to Nelson tomorrow evening.

### Rock Drilling Contest.

At the Mother Lode mine yesterday afternoon an exhibition test was made of the Waugh drill—a one-man, pneumatic hammer drill recently put on the market by the Denver Rock Drill Machinery Co. At an earlier test made this week at the Granby mines at Phoenix, it averaged better than twelve feet per hour in a six hour test, the ordinary Ingersoll or Rand drills making not more than 50 feet in a shift of eight hours. The Waugh drill is lightly built, weighing only about 60 pounds, and requires only 38 cubic feet of air, while the drills now in use in most of the mines in this country use two men and 150 feet of air and weigh over 250 pounds. The Le Roi and Centre Star mines at Rossland recently installed several of these drills, and although the machines have been made only 18 months, there are now 4,150 of them in use on this continent.

A. H. Boyd, who is representing the company here, is accompanied by his wife, who will go with him from here to the Treadwell, Alaska, mine.

### Death of Mrs. R. H. Hewer.

Yesterday morning, at the Sisters' Hospital, the death occurred of Mrs R. H. Hewer. Mrs. Hewer was a young woman, of very decided gifts, and was extremely well liked throughout the community. Previous to her marriage last July to R. H. Hewer, superintendent of the Sunset mine, Mrs. Hewer was in charge of the school at Deadwood, and her pupils there will remember her very kindly. To Mr. Hewer an unusually general and sincere sympathy is extended by the entire community.

The funeral of the deceased will be delayed until the arrival of her mother, Mrs. McKenzie, from Nanaimo.

## DENORO NEWS.

(Correspondence.)

A large crew is now employed at Denoro mine. Everything will soon be in shape for a large and steady shipment to the Greenwood smelter.

A sacred concert given by the Presbyterian Mission Bible Class last Sunday evening, was largely attended. Quartettes and solos were rendered by O. T. Scott, H. Scott, Miss Scott, Mrs. Hines, Mrs. Phillips, Miss E. Phillips, Miss V. Pierce and by the Mission choir. G. Stevens, late of Rossland, was at the organ. His rendering of "Hallelujah Chorus" and "Worthy Is the Lamb," was a rare treat. The Mission is in charge of Rev. S. Lundis, of Phoenix. In January a Sunday School was organized here with O. T. Scott as superintendent, Miss F. Scott secretary, and Mrs. Wm. Phillips treasurer, Mrs. Hines, organist.

On Thursday evening, the 14th inst., a fire broke out at the bunk house adjoining the Windsor Hotel, owned by the mayor, M. W. Ludlow. Great excitement prevailed for awhile, but plenty of willing helpers being on hand, it was soon extinguished, very little damage being done.

### DECIDING THE ROUTE.

The management of the G. T. P. on Monday made a very important decision, abandoning the Copper River cut-off because of engineering difficulties. The district affected by the change is well known to local people. The dispatch says:

The Grand Trunk Pacific Railway has abandoned the proposed Copper River cut-off in British Columbi, whereby a saving of about eighty miles would be effected as compared with the original route via Hazelton. After a series of surveys by engineering parties, which spent all last winter in the field, Chief Engineer Van Arsdall has reported that standard maximum grades via Copper River could not be secured.

The proposed cut-off was intended to start at Francis Lake and traversing the Babine region south of the Bulkley Valley would cross the divide and descend the Copper River to its confluence with the Skeena River at Kitselas canyon. The greatest engineering difficulties would have to be encountered at the summit of the divide in a very mountainous region.

The main line, the location surveys of which have already been completed, will run west from Francis Lake and traverse the valley of the Bulkley River to Hazelton, thence follow the Skeena River to Kitselas canyon, where the Kitamaat branch will effect a junction. The grades by this route are very easy, being under four-tenths of one per cent. per mile, or a rise of twenty-one feet in the mile for east-bound traffic.

Owing to the determination of the management to rush construction it is likely that the contract for the section from Kitselas canyon to Francis Lake via Hazelton will be awarded this summer in order that the work way be well in hand before winter sets in.

Construction work is now in progress at two points on the Skeena, opposite Port Essington and at Kitselas canyon and at Prince Rupert.

## DOMINION MAY OPEN

**Position of Dominion Copper Improved--Likely to Resume at Early Date.**

Rumor of the resumption of operations by the Dominion Copper Co., has been revived this week with an unusual persistency. This is due partly to the general opening up of the industry and partly to the good news that the position of the Dominion Copper Co. has improved materially in the past fortnight.

Manager Thomas, when asked of the situation, said:

"Everything is looking much brighter now. The money necessary to meet the interest on the bonds, which comes due on June 1st, has already been paid over. We are still keeping all the mines in shape and have several thousand tons of ore, enough for about five days at the smelter, as well as a large supply of coke"

Mr. Thomas continued to say that as yet no word had been received giving him instructions to resume, but this might come at any time, and that when it does come, the smelter can go into commission almost as soon as a force can be gathered to operate it.

### St. Jude's Annual Meeting

The annual meeting of St. Jude's held on Monday evening in the vestry of the church elected the following as administrators for the coming year:

Vicar's Warden, G. Birkett Taylor
Peoples' Warden, E. R. Redpath,
Treasurer, C. J. Eales.
Church Committee, Messrs. McMynn, Proctor, Smith, Johnson and Jenkin.

A reception given by the Ladies of St. Jude's in Eagles' Hall on Tuesday night gave the members of the congregation an opportunity of meeting the new rector. Rev. F. V. Venables and Mrs. Venables.

### Mrs. Copeland's Funeral.

On Wednesday of this week, the funeral of Mrs. James Copeland was held at Camp McKinney. Mrs. Copeland had been a resident of the section for nearly thirty years, and her husband, better known as "Jimmy" Copeland, is one of the oldest and most widely known prospectors of the Boundary and Similkameen districts. Mrs. Copeland was a native of the Peace River district. The whole countryside attended the funeral, it being one of the largest ever held on the mountain.

### Young Men's Club.

A very profitable and enjoyable time was spent last evening at the Young Men's Club at St. Columba's Church. According to arrangement it was to be an eveuing with the poets, but time was far too short to give justice to the program.

Messrs. Holt and Graham gave excellent papers on Tennyson and Milton.

Part of the evening was spent in practicing Glee songs from the new Glee books, under the direction of Mrs. McCutcheon, the organist.

All young men will be made welcome to the meetings of the club.

EDITOR A. D. MACFARLANE

UNION LABEL

FRIDAY, MAY 22, 1908

The consistency of the Vancouver Province is illustrated by a comparison of the following passages taken from its editorial columns on successive days last week. On Thursday, the Province, discussing the Aylesworth election bill, said; "It is not only absurd, but it is the blackest kind of libel, to say that the lists in British Columbia and Manitoba have been prepared dishonestly."

Only the day before the Province had wildly ranted against the member for Yale-Cariboo, and the following is an extract from its editorial:

Mr. Ross and his machine supporters were undoubtedly very busy adding names to the voters' list previous to the last election, and we do not doubt that they succeeded in putting such a number of bogus names on the roll that Mr. Ross found himself in possession of a majority when the ballots were counted.

This being true, will the Province answer, who is the libeller?

Hon. Frank Oliver, Minister of the Interior, speaking in Ottawa this winter, referred to the time in history of the Boundary Creek district, when every man was a millionaire. In the presence of a vast undeveloped world—a world of illimitable forest and inexhaustible mineral wealth, money lost its value. A fortune was made in a day and vanished in a night. To use a common phrase, people forgot "the value of money."

The Provincial Mining News denotes a general resumption of operations. The news of the continent indicates the reopening of industries everywhere. The past six months has made people all over this continent think, and it is quite without surprise that we can now read the statement of an eastern paper that "both the United States and Canada are awaking to the fact that extravagance is not a virtue." Prodigality with the natural resources of the United States has been bringing about a crisis in that country, and President Roosevelt has called a conference this month at Washington to discuss the matter of necessary legislation.

For Canada the situation has an obvious lesson. Unless Canada is to decline we must avoid impairing the principal of the national fortune. This is as true of the political, social and industrial inheritance we have received as of the forests which were here before we came. The Penticton Press recently complained of the character of the political controversy carried on in British Columbia. It is not necessary to discuss whether it is better or worse than in other provinces. It is of importance to know that it is bad and unworthy of the Province. Liberals may hold, and we think with some show of reason, that this is largely due to the policy of the Vancouver Province. But the point is that this question is up to the people to decide. Will the people demand decency in political controversy? If they decide to do this they can only do it by encouraging the people who are attempting to make public discussion fair, and who, when they find it necessary to make personal charges, back these up with facts.

But to return where we came. The Boundary Creek district is at the beginning of the development that must make it permanent industrial success. This development will be accomplished partly through large, and partly through small things. Everywhere on these hills and in the valleys there are patches of excellent ground 60 or 70 acres in extent that will provide livings for a large population. These lands can now be acquired for next to nothing. And their development means the difference between success, and, we will not say failure, but very mediocre development of this country. Again, there are the large stretches of land, irrigated and intensively cultivated, the very early development of which is now assured. But in each and every one of the opportunities this country offers it is work and reasonable administration that means success.

The Prince Rupert Empire says the Nelson News will be run on the same lines as the Calgary Herald, the Colonist and the Daily Province. Nuff sed!

The Hamilton Times dubs the style of journalism represented by the Vancouver Province as Jackal Journalism—that kind of newspaper principle which Chameleon-like, takes its color from the particular situation which it regards as likely to yield it at the moment the most graft. It is not pleasant to read or consider such charges, but the least that can be said of the Province's practice is that it constantly overreaches itself by its own ridiculousness. If it exerts any appreciable influence with the people of British Columbia the situation is not at all complimentary to our intelligence.

### OF LITTLE UNDERSTANDING.

When we read of the building of a hundred miles of new railway or of the building of new terminals such as the new Transcontinental will have at Prince Rupert, at Winnipeg, at Fort William and at Quebec, we can not possibly realize the vast amount of work involved. There are very few of us who would care to undertake to build one hundred miles of railway, with all the necessary cuttings and fill-ups and culverts and bridges, and yards and freight sheds and station houses. Yet during the last few years the railway corporations of Canada have been averaging nearly one hundred miles a month. The terminals at Winnipeg, Quebec, Montreal and elsewhere have been rebuilt and extended. Road beds have been reballasted, curves have been lessened, and a hundred minor improvements made. The activity has been almost feverish and has swallowed up many millions of dollars. And the work must go on indefinitely if Canada is to grow big and strong and populous.

The public, with a full sense of what has been accomplished and of the vast task yet ahead of the railway corporations, must sympathize very keenly with the railways. They have much to do, and can get so little capital for the work. The last Grand Trunk and Canadian Northern loans were not very favorably received in London, and the bankers behind these corporations are having quite a hunt for investors. True, the money stringency is only temporary, yet our railway corporations will always be put to it to find the money for their huge undertakings.

Canada may be critical of her railway corporations and may reasonably insist that they shall neither ask too much privileges nor give too little of service, but she should also be sympathetic with the men who have these huge undertakings in hand.—Canadian Courier.

## Provincial Items

Lieutenant-Governor Dunsmuir was last week made a director of the C. P. R.

The Camosun made the run from Prince Rupert to Vancouver last week in 46 hours.

A close season of indefinite extension has been declared on deer in the Queen Charlotte Islands.

Eighty-five Doukhabors are installed across the Columbia river across from Waterloo, having arrived there Tuesday week.

The placing of black bass, or their ova, in any of the waters of British Columbia is prohibited by regulation published in last week's Gazette.

Mackenzie King, deputy minister of labor, is expected to arrive in Vancouver tomorrow to settle claims for damages in the Chinese riots of last September.

Two hundred and seventy samples of B. C. canned salmon, collected from end to end of the Dominion and analyzed by the Inland Revenue Department were found every one good.

The first blast in the construction of the western end of the G. T. P. was shot at Prince Rupert on the 7th inst. It was to clear away a tangle of roots and stumps just south of the wharf, preparatory to making the big cut there which is the heaviest on the section.

The Provincial Government has appointed the following men to supervise the enforcement of the Fisheries Act: Samuel North, ex-chief of police of Vancouver, whose headquarters will be at the Terminal City, and duties the collection of fees and general supervision of the Fraser River district; T. G. Wynn, of Vancouver, who will act in the same capacity among the fishermen and canneries of Skeena; A. S. Barnes, Nanaimo, who will cover the River's Inlet section, and Charles Hickman, of Atlin, who will act as overseer on the Naas. Each will have the powers of a provincial constable. The chief constables at Nanaimo, Alberni and Alert Bay will act in similar capacity. Those just appointed will be assisted by provincial constables.

## FRUIT GROWING.

### Interesting Statistics of Money Spent by B. C. on Fruit and Eggs.

Growing hardy fruits, and the encouragement of the "hen fruit" and other similar industries, must hold a large place in the future of British Columbia. Speaking at Vancouver, the other day, Mr. A. C. Flumerfelt, president of the International Coal & Coke Co., and a man who is essentially a mining man, gave some interesting information of the development of these industries in B. C. A part of his speech is given here.

In 1901 there were half a million fruit trees in this Province; in 1906, two and a half millions, and estimating from the government reports it is a warrantable assumption that there are from three to three and a half million trees now growing within the confines of British Columbia, covering something more than 100,000 acres. I believe that within ten years, at the present rate of growth, British Columbia will be the greatest apple growing Province in the Dominion of Canada, and also become a very great factor in the production of peaches, plums, prunes and the smaller berried fruits, all of which can be easily and successfully grown in profusion. One other very significant phase presents itself to me in this connection; there can be little reason to doubt that this production will be practically perpetual and the minimum estimate of the net yield from $100 to $300 per acre. For home consumption almost any vegetable or fruit can be grown; potatoes, turnips, beets, mangols and all other roots grow in profusion, wherever their cultivation has been attempted. Sixty-eight tons of roots at the measured acre is recorded to Chilliwack, and near Kelowna twenty acres produced 403 tons of potatoes, which sold at $14.00 per ton! Tobacco, also hops, are easily grown in some districts.

Assuming the arable land in the valleys of this Province were cut into ten and twenty acre blocks and all occupied, what number of people could be supported and make a comfortable living? Who is there among us can calculate the result of this? What better inducement could be held out to the men of small means to come into our midst and become factors in the industrial, commercial and political life of our country? With the time at my disposal I am able only to touch upon the possibilities of poultry raising in this Province.

"Then why," continued Mr. Flumerfelt, "should this small population pay to foreign countries $571,512 for eggs? Why should something like $120,000 be paid out for poultry and with our fruit growing facilities why should we pay to other people $583,900 odd for green vegetables, to say nothing of $925,000 for butter—$463,00 for condensed milk—$118,000 odd for cheese and $143,000 for hay: $749,000 for live stock, and for meats over $1,000,000?"

# MINING

Four hundred prospectors are said to have left the coast this summer for the Queen Charlotte Islands.

A company of Danville people was organized last week as the Lafleur Mountaining Mining and Smelting Co., to operate claims near Danville.

Montana people paid $75,000 for claims on Houston Inlet, near Jedway, on Moresby island, last week. No development work has been done.

No. 9 mine at Coal creek, Crow's Nest Pass Coal Co., resumed work at Fernie, giving employment to 300 men.

Only two students, Victor Howard, of Victoria, and W. Lindsay, of Trail, presented themselves at the assayer's examination this year. Both were successful.

Rev. Father Cocola, of Stuart lake, says that the two salmon hatcheries at Babine and Stuart lakes are doing well. The fish from the latter have already been liberated.

The winter diggings of pay dirt on McConnell creek, a tributary of the Ingenica, are averaging better than $20 per shovel. Descending 30 feet has not yet brought bedrock.

The Guggenheims are putting in an army of men at Bullion creek, fifty miles above William creek, in the North country. The construction of a large ditch that will cost millions of dollars, has been commenced.

It is understood that A.C. Flumerfelt, of Victoria, has resigned the presidency of the Royal Collieries and the Alberta Coal & Coke Company, owing to the pressure of business duties. He has been succeeded by Mr. H. N. Galer, of Spokane, who, until recently, filled the vice-presidency of both corporations. Until a few months ago Mr. Galer, who is a capable business man, was general manager of the International Coal & Coke Company of Coleman, Alta., and a corporation and dividend-payer organized by Mr. Fumerfelt. Mr. Galer was formerly assistant general manager of the Granby Consolidated Mining, Smelting & Power Company.

About fifteen men were set to work on the Silver King mine last week to clean out the ore broken down last fall. The mine has been shut down since December 22 but active mining will soon be started. The ore may go to the Trail smelter.

Rev. Father Cocola, of Stuart lake, discounts the idea that the Findlay River district is a second Klondyke. There are good paying propositions there, but no big clean ups. Provisions are scarce, and when he left another month would pass before the snow would be off the ground.

James Cronin has gone into his silver-lead properties in the Bulkley Valley, taking Charles Chapman, of Cranbrook, with him as superintendent. Mr. Cronin claims that the Dibble group will yield a ton of 60 per cent. lead for every ton of clean ore. The formation is simily to the Coeur d'Alene district in Idaho.

The Hidden Creek Copper Co., with Thos. Hodgins, of Butte, as president, and a capital of $2,000,000 has been organized to work the Hidden Creek property at Goose Bay, Observatory Inlet. At present 20 men are at work on the property, which has an ore body 300 feet high and carrying high values in copper besides subsidiary values in gold.

A German Development Co., Ltd., has acquired coal areas in the Brazlan, Big Horn and Saskatchewan coal basins in the foothills of the Rockies. The Brazlan and adjacent coal fields are regarded as embracing the largest area of bituminous coal in the West, even exceeding that of the Crow's Nest district. The coal is excellent for coking and is similar in character to the product of the C. P. R. mine at Bankhead. A railway 100 miles in length will be built from Innisfail on the Edmonton branch of the C. P. R. to the coal fields. It will cost $3,500,000. The company is capitalized at a million.

### The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 31 one-cent stamps, or cloth-bound for 50 stamps. Address Dr. Pierce as above.

MRS. MURRAY, graduate in vocal and instrumental music, is prepared to receive pupils in piano, organ and voice. Latest Conservatory methods taught. Class in Greenwood, Monday, Tuesday and Wednesday; Midway, Thursday; Phoenix, Friday and Saturday. For terms and further particulars apply at room 34, Pacific Hotel.

A Razor new every morning is what you can have with one of A. L. White's Everyman's Wet or Dry Hones, price $1.50.

### WHAT IS LIFE TO YOU?

To the preacher life's a sermon,
To the joker it's a jest;
To the miser life is money,
To the loafer life is rest.

To the lawyer life's a trial,
To the poet life's a song;
To the doctor life's a patient
That needs treatment right along.

To the soldier life's a battle,
To the teacher life's a school;
Life's a good thing to the grafter,
It's a failure to the fool.

To the man upon the engine
Life s a long and heavy grade;
It's a gamble to the gambler,
To the merchant life's a trade.

Life's a picture to the artist,
To the rascal life's a fraud;
Life, perhaps, is but a burden
To the man beneath the hod.

Life is lovely to the lover,
To the player life's a play;
Life may be a load of trouble
To the man upon the dray.

Life is but a long vacation
To the man who loves his work;
Life's an everlasting effort
To shun duty to the shirk.

To the heaven's best romancer
Life's a story ever new;
Life is what we try to make it—
Brother, what is life to you?

—Anonymous.

### OPERATION PREVENTED.

**Bad Case of Piles Cured by Zam-Buk.**

Sufferers from piles will be interested in the following testimony of Mr. Garfield Logan, 149 Welland avenue, St. Catherines, Ont. He says: "For years I was a great sufferer from protruding bleeding piles. They got so bad that it was impossible for me to walk or sit down without a great deal of suffering. The pain t endured was dreadful. I tried everything, and the doctors told me I would have to be operated upon before I could be cured. I do not think that there was one remedy that I did not try, but they failed to cure me. One day I received a sample of Zam-Buk and tried that. I got some relief and decided to give it a good trial. I bought three boxes and before I had finished the third box I was completely cured. Zam-Buk salve has saved me hundreds of dollars, because I had decided to have the operation if Zam-Buk did not cure me. I have recommended Zam-Buk to a number of my friends, and am always praising Zam-Buk."

"Zam-Buk succeeds because it goes right to the root of the trouble. Healing, soothing and antiseptic, it is nature's remedy for all skin diseases. All stores and druggists sell at 50c., or from Zam-Buk Co., Toronto.

# FOR SALE

THE
# COPPER
HANDBOOK

(New edition issued Nov. 15, 1906)

Is a dozen books in one, covering the history, Geography, Geology, Chemistry, Mineralogy Metallurgy, Terminology, Uses, Statistics and Finances of Copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the Copper Industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man.

It gives the plain facts in plain English without fear or favor.

Its lists and describes 4626 Copper Mines and Companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Mining Man needs the book for the facts it gives him about mines, mining and the metal.

The Investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundred of swindling companies are exposed in plain English.

Price is $5 in Buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

HORACE J. STEVENS
Editor and Publisher.
453 Postoffice Block, Houghton, Michigan

### WORTH TAKING

One ounce Fluid Extract Dandelion;
One ounce Compound Salatone;
Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after each meal and at bedtime, is pronounced by a prominent physician to be the best mixture for the cure of the kidney, bladder, and all urinary troubles.

This says the doctor, is the most simple though remarkable prescription ever written to cleanse the system of impurities and waste matter. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcoming rheumatism, lame back, sciatica and other afflictions arising from sour, impure blood.

The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can easily be mixed at home.

If you have a suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

### Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

2 If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior.

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings

John F. S. Gillum went to Nelson this afternoon for the holiday

E. W. Bishop went to Nelson on Wednesday for a short business trip.

E. B. Webster was over from Rossland this week, returning on Wednesday.

Mrs. A. F. Thomas, of Nelson, returned on Wednesday from visiting Mrs. H. R. Stevenson, Midway.

Mrs. Charles H. Fair will receive the first and second Monday in June, and not again until October.

B. A. Isaac, of Nelson, came into town on Tuesday. The Iron Works is again working some men.

H. T. Wickwire, of the Bank of Nova Scotia, Vancouver, is spending a week in town visiting his father, E. T. Wickwire.

Rev. F. J. Rutherford is expected home from the coast in time to take his regular services on Sunday in the Methodist church.

James C. Dale came in on Tuesday from Carmi. The French colony recently settled at Carmi are getting everything into good shape and have already planted oats and potatoes.

Martin Burrell, of Grand Forks, came to Greenwood yesterday to confer with the participants in the Triumphal Tory Tour. He registered at the Imperial.

V. S. Braden, representing the Canadian Westinghouse Co., was calling on the B. C. Copper Co. yesterday, and Mrs. Braden accompanied him on his trip.

Horace F. Clarke, representing the Salada Tea Company, was in town on Wednesday. Horace has been running across men from the University of Toronto in every town between Calgary and the coast.

H. D. Rochfort, of Ladysmith, B. C., arrived in town on Monday to take the place of R. S. Ross, of the Bank of Commerce stafi, who left for his holidays on Wednesday morning. Mr. Ross is spending a couple ot weeks at the coast.

Rev. Father Hartmann returned on Wednesday to his work up the line. On Sunday last he held service at Eholt. Last week Father Hartmann's church at the Forks cleared $1,100 with a bazaar. The money will be used to purchase property.

On Tuesday last Miss Beldon received word of the death of her brother, who had recently returned to their home in England from Australia. A great many friends will extend to Mr. and Miss Beldon their spmpathy.

### McKenzie-Fisher.

The marriage of David Lester McKenzie, of Greenwood, B. C., and Cora Adni Fisher, of Vancouver, took place on Monday at the residence of Mr. W. J. Fisher, 641 Powell street, Rev. P. H. McEwen officiating. The young pair have left for the future home in Greenwood. —World.

Mr. and Mrs. McKenzie returned to Greenwood yesterday and have taken as their home Rev. Rutherford's house on Church street.

Forty-five men are now employed by the Kettle Valley Irrigated Fruit Lands Co., Ltd., in extending their irrigation ditch, building laterals to carry water across the property, fencing the properties being planted, and in clearing further property. The main ditch is now holding water splendidly and there is an abundance of water, though the gate is up only three inches. The company now has about 700 acres under cultivation that could be put into crop or fruit at once. Last week several intending purchasers visited the property and were delighted with what they saw.

## TOWN TOPICS

The Junior Baseball team will go to Grand Forks tomorrow to play the Juniors there.

D. D. McLaren is clearing about 30 acres of land on his ranch at Deadwood. Mr. McLaren will soon have quite an extensive clearing on the flat there.

Half a dozen Indian boys from Inkanip, above Osoyoos, drove in about four times as many cattle on Monday and had a big holiday. The metropolis looked good to them.

Martin Burrell last night walked down from Phoenix which caused a local wit to remark that if he intended to cover Yale-Cariboo with that sort of locomotion he'd have to go some.

A Masonic degree team went to Phoenix last night to assist in putting on one of the degrees. A 'bus load from town went up the hill also on Tuesday night to a recital given by Mrs. Murray's pupils.

The Ledge says that there is one liquor license in Greenwood that should be cancelled. Judging the editor of that paper by his own standard, that hotel will be the one that has refused him its printing.

Victoria Day is to be celebrated in Grand Forks on Monday with a full day's sports beginning with a "Firemen's Wet Test," at 11 o'clock in the moaning The Firemen will give a ball in the opera house in the evening.

The Greenwood baseball team lost their first match on Sunday last to the Phoexix aggregation. The boys put up a pretty good fight, having gone on the field without practice. The score was 11 to 8. The spectators were many, and more than the usual number of them were ladies.

At the Mother Lode yesterday, number 156 was the last number on the time card, there being that many men at work directly in the mines. In the dining room the men said that an additional table was being used every day, more men being put on at every shift. Superintendent McIntosh stated that his great difficulty had been to get machine men.

For Sale—Roll Top Desk, apply J. W. Mellor, Commercial Hotel

The Tennis Club met on Thursday afternoon and elected the following officers; President, W. F. Proctor; vice-president, H. F. Stow; secretary-treasurer, S. Milne Tees; committee, Messrs. Gillum, McMynn, Wilson and Macfarlane. The unusual wet weather has delayed the opening of the tennis season, though a few games were played on Wednesday:

We have bargains in Wall Paper remnants that we wish to clear. Get busy before that tall chimney tarts spouting. McRae Bros.

The members of the tunnel party who have been expected to come in from Chicago for a week past, left Chicago this morning, according to a telegram from Richard Armstrong, received by their representatives here this week. Messrs. McIntosh and Shafer have been going over the hill, along the route of the tunnel, preparatory to the inspection by the yarty which will arrive here about Monday next.

If you wish to rent a piano, see A. L. White

The giant ore crusher received from the Jenckes Machine Co. just after the shut-down at the Mother Lode last November, drew its huge jaws together on Saturday last, and on Monday the first ore trains reached the smelter. The ore crusher ir working splendidly and two trains of about 12 cars each are being brought down from the mine daily. Shipments from the Denoro are now coming also with clock-like regularity, and June 1 should see plenty of ore in the bins.

First class Slot Machine—at a bar gain. Coles' Bookstore

Walker's Weekly has some appreciative remarks of Rev. Mr. Venables, who has come to St. Jude's church, Greenwood. It says.

Rev. F. V. Venables preached his farewell sermon to a crowded congregation at St. George's church on Sunday evening last. Referring to the great progress which had been made during the six and a half years of his incumbency, he remined his hearers that the parish had twice been divided, and that three clergymen were now working on the ground formerly covered by himself alone. After some further interesting remarks of a reminiscent, parochial and personal character, Mr. Verables proceeded to deliver the closing words of his ministry as Vicar of St. George's, consisting of a brief but weighty summary of the fundamental facts of the Christian faith. The Vicar's impressive words were listened to with earnest attention by the congregation, who afterwards joined with great heartiness and feeling in the singing of the majestic hymn,

"Glorious things of Thee are spoken, Zion, City of our God."

The Vicar then pronounced the blessing, the choir sang Foster's Fourfold Amen, and after a few moments of solemn silence there burst forth the tones of the concluding voluntary, which was magnificently played by the organist, Mrs. G. R. Lawes. The people filed out, the music ceased, the altar lights were extinguished, and the fact was realized that a leaf had been turned for all eternity, a chapter in the book of life had become as a tale that is told—a memory of the swift and ever receding past.

After the congregation had dispersed, the church officers and a few friends gathered informally at the vestry door, and presented Mr. Venables with a sum of money which had been subscribed by members of the church and congregation, as a parting expression of regard, and of their good wishes for his future success and happiness.

John L. Coles has a splendid supply of fishing tackle. Everyone can fish everywhere after today—take a look.

### Will Make a Fight.

All makers of the forty-dollar notes, held by the Bank of Montreal, in connection with the Armstrong Exchange, who have not settled the same, have combined to fight payment, and have employed Attorney McIntyre, of Kamloops, to conduct the case.

The fight will be made on the grounds that, 1st, before the action the defendants satisfied and discharged the claim on the note by payment: 2nd, that the defendants did not make the notes as alleged; 3rd, that the notes were given without consideration, valuable or otherwise, to the knowledge of the plaintiff; 4th, that the plaintiff is not now the holder in due course of the said ote within the meaning of Sec. 56, Chap 119 of the Revised Statutes of Canada; 5th, that the notes were long overdue before they came into the possession of the plaintiff; 6th, that the note was never presented for payment.

## AT THE CHURCHES

PRESBYTERIAN—Services will be conducted morning and evening, 11 a.m. and 7.30 p.m. Rev. M. D. McKee, Pastor.

METHODIST—Rev. F. J. Rutherford B.A., will conduct services as usual at Methodist Church morning and evening Sunday School at 3.

CATHOLIC.—Church of the Sacred Heart.—Divine service 1st, third and fourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p.m. REV. J. A. BEDARD, O. M. I. pastor.

The services at St. Jude's Anglican Church on Sunday next will be Matins and Holy Communion at 11 a. m. Evensong, 7:30 p. m. Rev. F V. Venables, Vicar.

Shape-Holding Coat Fronts

Coats whose shape is cut and built into them with a foundation of hair cloth and canvas, firmly sewn and bound together, so that the fronts hold their shape until worn out

There is none of that dragged down appearance from under the lapel to the bottom of the coat, no deep vertical wrinkles, no general limp appearance.

A man need never worry about leaving his coat or overcoat open.
