GREENWOOD CITY COUNCIL

A regular meeting of the City Council took place at the city hall last Wednesday evening. Mayor McIntosh and all the aldermen were present.

Moved by Alderman Dixon, seconded by Alderman Buckless, that the minutes of the previous meeting be adopted as read. Carried.

Moved by Alderman Dixon, seconded by Alderman Sater, that a committee of the whole discuss with the C. P. R. officials the adjustment of water rates. Carried.

The committee rose and reported progress.

Fred Jenks made the proposition that he would clean up and seed 2½ acres per year and make improvements to the buildings on the city ranch.

A letter was received from J. P. McLeod resigning his position as city solicitor.

Finance committee reported progress.

Fire, water and light report that two stove pipes were put through the wooden wall of the back part of P. Burns & Co.'s premises, which appeared to be dangerous. That the fire chief be instructed to look into the matter.

Moved by Alderman Sater, seconded by Alderman McKee, that the city clerk and driver be instructed to see that no lumber be received unless it is up to the standard. Carried.

Moved by Alderman Craig, seconded by Alderman Sutherland, that Mr. Garland be notified to pay the account for the fire at his property forthwith, and that the fire department will not respond to any alarm until the account is paid. Carried.

J. McDonald made an offer to the city of $350 for lot 12, block 12, map 21. Offer refused.

Moved by Alderman Craig, seconded by Alderman Sutherland, that A. S. Black be appointed as city solicitor at a salary of $40 per month. Carried.

Moved by Alderman Sutherland, seconded by Alderman McKee, that the assessor shall make and complete the assessment roll for 1910, and return the same not later than Monday, April 11. Carried.

The meeting then adjourned.

TEN YEARS AGO

(From Boundary Creek Times of April 1, 1900)

Bert McIntyre is forming a bicycle club.

The Grand Forks smelter will be blown in within 7 weeks.

The Miner's hotel is flooded by the over flow from Boundary Creek.

Andrew Laidlaw has formed a company to build a smelter at Boundary Falls.

H. T. Wilgress, resident land agent for the C. & W., has moved into his new office in the Rendell block.

Hans Haertel, manager of the of the Russell Hardware company, committed suicide at Anaconda on Saturday last.

According to the Midway Advance, the population of that town has doubled since the Vancouver News-Advertiser correspondent went to reside there.

The inital number of the Similkameen Star, has made its appearance, James Anderson well known in this city, is the manager.

FIRE IN CHINATOWN

At 11 o'clock, on Wednesday night, the fire alarm rang out. The spacious store of Fook Lee & Co., on Gold street, was a mass of raging flame. The Fire department were at once on the scene and had the fire in control almost immediately. While the frame building is badly wrecked, little damage was done to the store contents. The adjoining buildings were not even scorched, thanks to the fire department.

FALL FAIR FOR THE BOUNDARY

The Farmers association, of Rock Creek, held a general meeting last Friday, at Riverside hall, Rock Creek, to discuss the possibilities of a Fall Fruit and Stock Fair this year. Over one hundred farmers and business men of this West Boundary district attended. Ranchers from Myncaster, Rock Creek, Midway and Bridesville met the delegates from Greenwood, Messrs. H. McCutcheon, J. L. Coles, J. Russell, F. W. McLaine, Duncan McIntosh, Frank Buckless, W. W. Craig and Andy Sater, who represented this town. The gathering was a most enthusiastic one, and it was unanimously resolved to hold a big fair somewhere in the district this fall. Delegates were appointed to represent Myncaster, Rock Creek, Bridesville, Midway and Greenwood, F. W. McLaine being chosen as this city's representative. They will report their decision as to the location of the Agricultural exhibit to a general meeting to be held at Midway, on April 15.

There are several reasons why Greenwood should be the place chosen. Geographically Greenwood is not exactly the center, but it has the largest population, has plenty of hotel accommodation for visitors and exhibitors at the Fair, it has, or will have, when the new rink is completed, the only really large building available in the district. But Greenwood's principal attraction is the number of its merchants and business men, who will be willing to contribute largely to the considerable fund required for prizes and the initial expenses for such an undertaking. Wherever the fair is held it will be a convincing advertisement for the farming section of the West Boundary, and offers exceptional opportunities in drawing the outlying portions of our vast agricultural area together. The Farmers association has done great work already in this regard and every assistance should be tendered to them in advancing the good of the community.

GREAT OIL FIELDS

It is surprising that the discovery of what is considered to be a vast oil field in New Brunswick has not attracted more notice. Exploratory work has been carried on for some years, and a number of oil wells have been producing moderately; but during the past few months fresh wells have been drilled, resulting in discoveries which are most important.

New Brunswick will be one of the greatest oil and gas producing fields in the world. One well produced oil and about 300,000 cubic feet of gas each 24 hours. This gas was utilized in drilling fresh wells, and the latest, No. 5, has registered over 1,000,000 cubic feet per day. The gas is remarkably pure and absolutely free from sulphur.

The sands are unusually thick, and the gas being in such volumes points to a supply of oil below that will probably alter the whole face of that part of the country and prove a most valuable addition to the resources of the empire.

SKYSCRAPER FIGHT

Seattle is having a skyscraper fight. That is, a bunch of capitalists want to come to Seattle and erect a few sixteen-story to twenty-story buildings. Some local business men are opposed to it. They declare that the subsoil of Seattle is such as will not provide a foundation for skyscrapers. The answer goes back that the soil is all right; that the real kick is, if the skyscrapers go up, they will house so many tenants that those who expect to erect small office buildings will be unable to find people to occupy them.

"Has your son arrived at years of discretion?" "Oh, yes. He's about to get married." "How you contradict yourself!"

INSEPARABLE FROM EMPIRE

Whatever may be the views of a small minority of Canadians as to annexation with the United States, there is no doubt whatever that the Hon. Mr. Borden expressed the voice of the people in his recent address in Boston. "That the task which confronted Washington and Hamilton in the construction days following 1784 was not unlike that which now confronts the statesmen of the British Empire," was the declaration made by Robert Laird Borden, leader of the Conservative party of Canada and member of parliament for Halifax. Mr. Borden was speaking before the Boston Canadian club.

Mr. Borden reminded his hearers that the British Empire, as at present constituted, is of very recent development. It was not until after 1840, he said, that real development began in its constitutional relations.

In concluding his address Mr. Borden advocated an adequate celebration in a few years of a century of peace between Great Britain and the United States. He declared that "Canada is inseparably united to the great Empire which owes a proud allegiance to King Edward, the Peacemaker, but is also in many ways closely associated with this glorious Republic."

AUDITORIUM DATES

Manager F. W. McLaine, of the Greenwood Auditorium, has some excellent shows booked for the coming months of April and May. Arrangements are being made for a weekly moving picture show. The Grace Cameron company, which drew big crowds here on a former visit, is to be here about the middle of April. On April 26, H. B. Walker, of Winnipeg, is sending out a first-class musical comedy company to show here. The Juvenile Bostonians, that A.1 small peoples' company of actors and singers, will be at the Auditorium May 3. The famous play, "St. Elmo," will be seen on May 26, presented by H. B. Walker company. May 31 the renowned Eckhart bell ringers will exhibit their remarkable prowess, together with a vaudeville entertainment under the direction of Mr. Cosgrove, the superiority of whose companies is known in Greenwood. The Greenwood Amateur Dramatic Co. will present that amusing farce comedy, "Between the Acts," under the able management of F. W. McLaine in the second week in April. Book early and don't come late.

THE HOCKEY BALL

On Monday night a grand ball was given in the old Masonic building, by the Greenwood Hockey team, the champions of the Boundary, the winners of the Open Challenge cup at Rossland carnival, which was very largely attended. The music by Bush's orchestra, from Midway, was excellent and everyone had a splendid time. An appetising supper was served at the Pacific Cafe, and the whole evening was much enjoyed by all present. It was after 3 o'clock before the final strains of the Home Sweet Home waltz were heard.

FAITH NEEDED

Hang Halley's comet! The papers are full of instructions of how, and when and where to look for it. But we in Greenwood need unlimited faith to see the celestial visitor, for Jubilee and other mountains are directly in the way, and while we are told that Faith will remove mountains, so far no one has been found here with sufficient faith to remove the mountains to our west.

The people on Mars have their eyes on Canada and are making canals.

Visitor—What have you in arctic literature? Librarian—Cook books and Peary-odicals.

CONSTRUCTION PROMISED SOON

The tenders for the construction work on the Kettle Valley lines must be in by April 15th. Messrs. Jones and Morrissey, two railway contractors from Spokane, and formerly associated with Peter Larsen, are tendering for a part of the new line, from Midway to Spence's bridge, by way of Penticton and Merritt, in the Nicola valley.

Construction work as above will be commenced in May, and from both ends of the road. Grading outfits may be expected to be at work within sixty days at least.

ROCK CREEK NOTES

Temple Godman's new building is nearly completed.

Early in April there will be a concert in aid of school funds, at Larsen's hall.

Major and Mrs. Anderson and family will shortly move into their own residence on the shady side of the valley.

We hope to see some of that big road appropriation sunk in the main roads in this district, which surely need fixing up.

Subscribers to the local telephone complain that too many receivers are lifted when they ring up their friends on the phone.

READ THIS

The well known store of Fred B. Holmes, on Copper street, has received a thorough over hauling. Newely painted, and tastily arranged by Walter Murray, the store offers every attraction to smokers, readers of books and periodicals, whilst lovers of good candies, fruit and sott drinks, to say nothing of ice cream sodas, will find everything they want, including immediate attention from the proprietor and his assistant.

The biggest jail in the world is at Rangoon, Further India. It holds 4,000 convicts, but is seldom full.

BIG INCREASE IN REVENUE RETURNS

Yesterday was the last day in the month of March, and the end of the fiscal year in the Dominion Department of Customs and Inland Revenue. That the revenue collections for the port of Greenwood show a marked increase, a gain of $12,177.83 over the fiscal year ending 31st of March, 1909, is a matter of congratulation. It is a sign of better times. The total receipts for the past year up to March 31st, were: Customs, $47,006.17; Inland revenue, $15,480.19. Total, $62,486.36.

THE YELLOW PERIL

The Chinese aggression on the northeast frontier of British India is causing Great Britain much uneasiness. For centuries Thibet has been a buffer state, secret and inviolate. Since the occupation of that silent table land, the Roof of the World, by Chinese troops, well trained and disciplined, India is confronted with a serious menace. Only the two small, semi-independent native states of Nepal and Bhutan lie between Thibet, Chinese territory, and our great eastern possession, India. Now that China is established in Thibet, word has been received from Nepal that the Chinese are demanding that that state is a Chinese dependency. The same thing has occurred with regard to Bhutan.

It is not the presence of a handful of troops, the small Chinese army that has grabbed Thibet, that Great Britain has to face, but a larger movement behind this advance guard, that needs a strong hand in Downing street, and a stronger hand in India to cope with the great army of the celestial land, which is being drilled in China to face the Saxon in the next great war of the near future.

Compulsory military service in China is being put in force, and it is easily recognizable that if all available Chinese join the army, the yellow peril will be at the doors of one of the cherished possessions of our great Empire.

HEREDITARY RIGHT

For many centuries, hereditary Right has been Might, in old England. The lords have sat in the upper house by right of birth, whether fit or unfit, and with the exception of those men of exceptional talent and merit, who have won their peerage by individual endeavor, by distinguished service to their country, as in the case of great military or naval leaders, or to mankind, as in the case of the scientist or philanthropist, the major part of the 616 members of the House of Lords have been unqualified and unfit for their position, excepting their hereditary right.

By a vote, last week, of 175 to 17, the House of Lords has renounced this hereditary right. The occasion was Lord Rosebery's third resolution dealing with the reform of the house. It is a propitious sign of the times that England should at last see that the merit of the individual is more important than the merit of the individual's ancestor, and that while a man's grandfather may have deserved the exalted rank and prestige conferred on him by a grateful monarch and his government, his grandchildren may not of necessity be worthy of the right to rule—or a seat in the House of Lords.

A CLEAN TOWN

Now that Spring is here, it is up to every owner of a back yard to clean up. The city is cleaning up the streets, but it devolves on the householder to make his yard presentable, and get rid of the winter's rubbish. While yard cleaning should now be the order of the day, it is incumbent on the private individual to remember that the starting of small fires is not part of the yard cleaning program, especially during this windy weather, without permission from the city authorities.

EDITORIAL COMMENT

PARISIAN SAGE CURES DANDRUFF

If It Don't J. L. White Will Give You Your Money Back.

Yes, Parisian Sage, the most invigorating hair restorer, cures dandruff and grows hair. The women of Canada, who have luxuriant hair, know it does, and that is why thousands of attractive women throughout the land are regularly using it.

For years this almost marvelous grower of lustrous and beautiful hair was confined to the elite of Europe and New York City, but about two years ago it was given to a select list of druggists, and today can be obtained in any city or town in America where society women of refinement dwell.

Parisian Sage is the most delightful hair tonic in the world. It makes the hair soft, lustrous and luxuriant in a few days. It is perfumed most daintily, and is not sticky or greasy. It stops falling hair, cures dandruff and itching scalp in two weeks or money back.

J. L. White sells it for 50 cents a large bottle, and guarantees it, or direct, all charges prepaid, by Canadian makers, Giroux Mfg. Co., Fort Erie, Ont.

J. L. WHITE, Druggist.

GERMANS ACTIVE

In order to show the natives of India how far German manufactures are ahead of those of Great Britain, and how much more cheaply they may be sold in the Empire of India, the German Government has just decided that not only are German manufactures to be subsidized to enable them to exhibit, but at the expense of the government, a whole section devoted solely to German exhibits of interest to India is to be organized at the Indian Agricultural and Industrial Exhibition, which is to be held at Allahabad from January 10 to February 15, next year.

Prompt relief in all cases of throat and lung trouble if you use Chamberlain's Cough Remedy. Pleasant to take, soothing and healing in effect. Sold by all druggists and dealers.

A BIG DEAL

A huge land deal, in which the purchaser paid out a million dollars in cash, was consumated last week at Edmonton, when 80,000 acres in the Beaver Hill district, east of Edmonton, changed hands at over $10 per acre.

Parisians are no longer in Seine.

Most cases of baldness are due solely to neglect. The hair often becomes dry and dandruff forms because the hair glands do not supply enough natural oil. Nothing overcomes this deficiency so effectively as that delicately perfumed, refreshing hair pomade, Bearine. Avoid baldness; apply Bearine to your hair occasionally. All druggists, 50 cts. a jar.

DAVIS' MENTHOL SALVE

A thick adhesive ointment, combined with Japanese Menthol and Vaseline, two of the most wonderful healing drugs known.

It soothes, heals and tends to restore those who suffer from Piles, Earache, Rheumatism, Chafing, irritated and other skin troubles.

The word "Salve" literally means be well or in good Health. Try Davis' Menthol Salve and you will be relieved.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine OF KNOWN COMPOSITION and with a record of *40 years of cures*. Accept no substitute—there is nothing "just as good." Ask your neighbors.

New Edition of the

COPPER HANDBOOK

Vol. VIII., issued May, 1909, contains 1,500 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with mine descriptions and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

World's Standard Reference Book on Copper.

The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its great bulk. It is filled with FACTS of vital importance to.

MINES AND MINING

Seven feet of high grade ore has been struck in the New Republic mine at Republic, Wash.

The Midway Coal company's tunnel is now in 250 feet. Manager H. Bunting reports favorable progress.

James McGregor, of Nelson, provincial inspector of mines, visited the Mother Lode mine here this week.

The Squillchuck mine, at Wenatchee, has received its machinery at last. The stamps will be falling within 30 days.

Tom Chernut, the first man to reach Dawson this winter from the Iditarod, describes the creek as a failure. Only one claim there has pay.

The Dominion government has decided to make a general codification of the laws of Canada in regard to mining. The commons mines and mineral committee have appointed a sub-committee to begin the work. The laws are said to be very confusing, owing to the large number of amendments in recent years.

The Stewart Mining and Development company have made an important strike on No. 3 ledge. This ore body runs through the Portland Wonder.

The slump in Granby stock is due to New York stock manipulation. "Nothing wrong at mine or smelter," says Yolen Williams, the company's consulting engineer.

Dr. Moseley, of Little Wonder mine, at Stewart, says that town will have a population of 8,000 this summer, and will be the distributing center for all the mining camps in the vicinity.

Estimates furnished by the engineers of the amount of coal in sight in the mines discovered by a party of French ex-army officers, some time ago, at a point in the Yellowhead, about twenty miles from the G. T. P. line, place it at eight hundred million tons. The quality is equal to the output of Sydney, N. S., or of the Pennsylvania mines. The marvelous deposit will be of great benefit to the prairie country.

There is every possibility of a smelter being built at Princeton to handle Similkameen ores before many moons. Princeton and its immediate vicinity have every natural resource for the establishment of a smelter. The fact of coking coal being mined within a few miles of Princeton and the unlimited quantity of ore within a ten-mile radius should be satisfactory to the most exacting smelting promoter. The situation for a smelter is ideal in regard to handiness, being at the confluence of two rivers, and approachable from various quarters by railway lines.

Mathieu's Syrup

of Tar and Cod Liver Oil.

Tar and Cod Liver Oil—that's the secret of its great success.

Beech Tar—*famous* for its purifying and *healing effect* on the lungs and throat, scientifically combined with Cod Liver Oil—*the great food tonic flesh builder* and *strengthener*.

Mathieu's Syrup does its work thoroughly. It does not merely relieve the cough, it cures it permanently, it removes the cause, strengthens the lung tissue and tones up the whole system.

Mathieu's Syrup is the best thing for children. They like it and it is good for them. Keep a bottle in the house in case of emergency. It is apt to save you money and trouble. When feverish take Mathieu's Nervine Powders, the great headache remedy, in conjunction with the syrup. They dispel the fever and backache, boneache, etc.

NEW BASEBALL RULES

Here are two important changes in the 1910 baseball rules:

A runner is allowed three bases if a player on the defence throws a glove or a mask at a batted ball and succeeds in hitting it or impedes its progress.

The coacher's box has been limited so that the coacher cannot approach nearer to the first base than 15 feet. The dead line is drawn at an imaginary line, directly through the first and second bases.

WIRELESS TELEPHONE

A recent test of wireless telephony was made to show its value for transmitting music. Several selections were sung in a transmitter at Park Avenue and Fortieth Street, New York, and were listened to by a group of newspaper men at the Metropolitan Tower. At times the singing was very clear, but frequently it was impossible to hear anything but a confused blur of sound.

Every family, and especially those who reside in the country, should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all druggists and dealers.

"See here, you swindler," exclaimed the suburban property owner, "when you sold me this house you said that in three months I wouldn't part with it for $10,000." "Well, you haven't have you?" demanded the real estate man.

After the age of 50 people find that their strength is not what it used to be, and they frequently suffer from sudden exhaustion, and weak heart action. To all such we reccommend the invigorating tonic **Ferrovim**, composed of fresh beef, Citrate of Iron and pure old Spanish Sherry Wine. Nothing could be more beneficial in such cases. $1.00 a bottle.

THE KING'S DOUBLE

The recent death of Richard Hunter, Laird of Thurston, and widely known as King Edward's "double," recalls many interesting and humorous incidents that occured to him, owing to his strong resembalance to the King.

The situation was often very embarrassing indeed to an unassuming country gentleman.

You won't be disappointed if you get the genuine "D. & L." Menthol Plasters for stiffness, backache, etc. Successful remedies are imitated, look out for the original "D. & L." made by Davis & Lawrence Co.

There are not even clouds to prevent real estate prices going sky-high in Midway, when the face of the long tunnel makes eyes at the coal.

Chamberlain's Stomach and Liver Tablets assist nature in driving all impurities out of the system, insuring a free and regular condition and restoring the organs of the body to health and strength. Sold by all druggists and dealers.

AT THE CHURCHES

REMOVING STUMPS

A discovery of great importance to owners of cut over lands has been made by one of the workers in a Rhineland paper mill, who noticed the destructive action of nitric acid on woody structures.

This man has recently removed the stumps from sixteen acres of new land at a cost of four cents each and five minutes labor for each stump. His method is as follows:

With a two-inch augur he bores a hole down into the stump about two feet deep, and pours into this hole one pint of a mixture of equal parts of nitric acid and sulphuric acid. He plugs the hole tightly with a plug previously dipped in melted paraffine. Thirty days later the stump, roots and all, will be a charred mass of rotten pulp, and may be spread over the soil with a shovel, as a fertilizer.

Canadian Bear grease will surely grow hair. That's why **Bearine**, the pomade made from it, makes hair grow. 50c. a jar.

A DREADNOUGHT GIANT

The Minas Geraes, the new Brazilian battleship, is the greatest warship in commission. Her length is 500 feet, beam 83 feet, and displacement 19000 tons. She carries twelve 12-inch guns, twenty-two 4.7-inch guns, and eight 3-pounders.

HINDU INVASION

During the first week of February no less than 327 Hindus passed through the Golden Gate at San Francisco. There are now ten thousand Hindus in California.

UNDERGROUND

Montreal's first underground railway will be built from St. Lambert Hill to Victoria Square, under St. James street.

A bigamist married a woman, and one of the witnesses afterward admitted to the officiating clergyman that he had known of the bridegroom's legal inability to wed. "But if you knew," said the clergyman indignantly, "why didn't you tell me?" "Well, parson, it was like this," the witness said. "One of the parties was 83 and the other 87. Says I to myself: 'Oh, gosh! it can't last long. Let 'em marry, and durn the law!'"

Do you mean to say that you flirted with your wife all the evening at the masked ball and didn't know her?" "That's right. But she was so deuced agreeable—how was I to know her?"

We occidentals pay the doctor when we are sick, and sometimes not even then. The chinese only pay the doctor when they are well, no wonder they are a healthy nation.

ROUGH ON RATS

A new rat and rabbit exterminator is being tested out in India and Australia. It consists of an outer and inner metal shell, like one small egg in a larger one. In the outer shell is sulphuric acid, in the inner metal egg is dry cyanide of potash. The outer shell is filled with the acid and placed in the rat hole or burrow and all rat holes are tightly sealed. After an hour or so the acid eats into the cyanide and turns loose a lot of most deadly prussic acid gas.

Your tongue is coated.
Your breath is foul.
Headaches come and go.
These symptoms show that your stomach is the trouble. To remove the cause is the first thing, and Chamberlain's Stomach and Liver Tablets will do that. Easy to take and most effective. Sold by all druggists and dealers.

HIS AMBITION

Premier Botha, of United South Africa, says his dearest ambition is to create the best colonial defence force in the Empire, and one that will represent both races in South Africa.

Diarrhoea should be cured without loss of time and by a medicine which, like Chamberlain's Colic, Cholera and Diarrhoea Remedy, not only cures promptly, but produces no unpleasant after effects. It never fails, and is pleasant and safe to take. Sold by all druggists and dealers.

TROUBLE IN GREECE

Peasants are burning corn depots in Greece and troops have been dispatched to quell the disturbances. Many homes of Turkish and Mohamedan land owners have been destroyed.

To the disappointment of some 80,000 miners throughout Scotland, none of the candidates who were put up for parliament in in Lanarkshire, Ayrshire and Fifeshire, were successful.

Last they had Dr. Cook in a warm place, and now they locate him in a place that is Chili.

The beneficial effect of iron upon the system weakened through illness, overwork or anemia, is well known. Ferrovim is a preparation which supplies the valuable element in the most efficient way, combining with it the nourishing qualities of beef and the mildly stimulative effect of sherry wine. Ferrovim costs $1.00 a bottle at druggists.

The hotel was the property of the Bank of Montreal, and unoccupied for several years. There was no insurance.

A NEW WEEKLY

Commencing with the issue of March 26, The Inland Observer, of Spokane will enter on an extended career of usefulness. The name has been changed to The Weekly Observer, to more clearly indicate its scope and to meet the fact that it will now cover the entire Northwest. It will deal with finance from the point of view of the general investor and will specialize in giving information to the public concerning Northwestern propositions and concerns into which the public are invited to put their money Society will be a big feature, and special correspondents for this purpose, with the entre to the best society, have been engaged in all the large Northwestern towns and in Western Canada. Art, literature, music and drama will be dealt with, and interesting illustrated stories and articles will be one of the strong points of the paper.

Dundas Henderson, well known in England, where among other papers he had charge of two important dailies—one for Lord Northcliffe—and who has lately been editor of the American Musician in New York, has resigned his position on the last mentioned journal to take charge of the reorganized Weekly Observer.

EVERYTHING EXPLAINED

R. Monagan, steward at the Silver Grill, is telling a story on one of his colored waiters, who was equal to every emergency. When his back was turned a hair was placed on the honey.

"George, how do you account for this?"

"Dunno, boss; 'spect that must have come from the honeycomb."

Later in the evening a hair was laid on the apple sauce.

"George this is outrageous, How do you explain this?"

"Clare to goodness If I can 'splain that; the apples was bald'uns,"

Once more attempt was made by placing a hair on the ice cream.

"Once more, George, here is a hair on the ice cream. I suppose there is a reason for it?"

"Boy must of done that when he was shavin' the ice."
