W. ELSON

NADEN IN THE HOUSE

Stands Up for the Peoples' Rights

AGAINST A MAJORITY

Ready to Do the Premier's Bidding Regardless of the Wrongs Perpetrated.

That Mr. Naden, our representative in the local legislature, would not see his district's rights invaded or neglected without protest, even if he stood alone, was to be expected of the man, and we were prepared to read in the coast papers that during the Budget debate he stood up valorously for the interests of those who had elected him as their representative.

When the question of road grants came up and he saw the small appropriation for his riding compared with that given to districts returning government supporters, he took occasion to voice his sentiments very frankly. We quote from the Victoria Times:

G. R. Naden said while he could congratulate the province upon its vast resources he could not congratulate it upon its government. A good government should be fair in its appropriations. He was astonished to hear the minister stand without a blush and say that the needs of the province had been carefully gone over in making the appropriations. Had the minister been honest he would have said, "we won out and we are going to take the rewards." Only one Liberal constituency in the large list of increases had got an increase.

While he congratulated Mr. Shatford in getting what he did, he thought he should have tried to get something for his neighbouring constituency—Greenwood.

Mr. Shatford said the small farmers of his district were satisfied. Mr. Naden said that the small farmers in Similkameen had been able to get far more on roads in front of their homes than they ever paid to the treasury. It was a well known fact that there were farmers who could get all they wanted for roads in Similkameen, but nothing for the roads on the Greenwood side.

He outlined some of the work required on the roads. In two miles on the road between Greenwood and Midway there were seven railway crossings. The road should be altered. He believed the railway company, when constructing the line, should have been compelled to build the wagon road. That was not done, but it was dangerous to leave the road as it was.

After specifying more needs for his riding, he referred to the Skeena constituency. He said he had spent several months in that district last summer, having carried a pack over the mountains. This new region was an empire in itself. He had seen minerals in that country never equalled in the southern part of the province.

Fifteen years ago the government of the country was better alive to the interests of the country than the present government. A road had been built from Penticton to Grand Forks at a cost of perhaps $150,000 or $175,000. Yet in Skeena, which was far more important, there was not a single road.

He agreed with Mr. Oliver that the lands of the country should be reserved for the actual settlers. There had been a lot of speculation there. When he was there it was almost impossible, within a distance which required about six weeks, to communicate by mail with Port Simpson, to find any desirable agricultural land which had not been taken up by South African scrip or otherwise.

Before the premier left for the foot of the throne to plead for better terms, he should deal justly with the districts which had been unfairly dealt with. He did not see how the premier could go and ask for what he claimed was justice for British Columbia, and yet deal unjustly with parts of the province. He would rather be a member of the opposition, however, and plead or demand justice than be a member of the government side and defend the injustice proposed.

He moved the adjournment of the debate.

Hesitate about giving explanations unless you are asked for them. Apologies often are mistaken for confessions of wrong.

BEAUTIFYING THE GROUNDS.

Father Bedard is setting an example in the community that might well be emulated by others, in the matter of beautifying the grounds around his chapel and parsonage. The site occupied by these institutions and the Sisters' hospital is by far the most beautiful in the valley, commanding as it does, a view of the entire town. But to natural, the reverend gentleman seeks to add artificial beauty. Quietly he is engaged on the work he has in view, the making of an arid bench into a place of green shrubbery and flowering plants. He is not trying to make wild land burst into beauty in one season, but is content with a somewhat slower or surer scheme. Slowly, but surely, the spade is reclaiming the plateau east of Church street. The stumps are coming out, the soil is being enriched, trees are being planted, and some day the entire block surrounding hospital, chapel and residence will be attractive and refreshing in a district where trees are not apparently appreciated.

Added to the instincts of his race for flowers and shrubbery, Father Bedard has the patience to work toward an end that it may take years to realize.

WHO OUGHT TO PAY?

The citizens of the small towns of Washington west of us, Chesaw, Molsoa, Oroville, Nighthawk, Loomis and Conconully, are chafing over their mail being delayed several days by the action of the Great Northern railway. This road runs from Midway to Molson through Canadian territory, but the Canadian postoffice department properly refuses to pay for hauling mail originating in the United States and destined for United States points, merely because for convenience the road runs for a distance through Canada, while the United States department refuses to pay for mail carried through a foreign country. Meantime the mails are carried to Republic and despatched from there by stage line.

ACCIDENT ON C. P. R.

Accidents of a serious nature are so rare on the Canadian Pacific that when one does occur it not only excites surprise, but a thrill of horror runs from ocean to ocean. Wnat would appear a serious accident on many of the American lines, becomes a calamity on the Canadian road. One of the worst wrecks ever known in Canada took place near Chapleau station on the 10th inst., in which 15 lives were lost and many injured.

According to an official statement, the train was running at the usual speed, about 22 miles west of Chapleau. It was the regular transcontinental train which left Montreal Tuesday morning. The train was partly derailed by a broken rail. The cars ran down an embankment and caught fire, presumably from the cooking range. It is believed that most of the dead were occupants of the tourist car and were pinned down in the wreckage, and were either killed outright or cremated, as the fire consumed the wreckage.

BECOMING A FRUIT COUNTRY

That the fruit growing industry is becoming a recognized fact in British Columbia is evident by the trend of the debate in the local legislature over the question of irrigation. In his speech thereon, Representative Ellison is reported as producing "great yellow and red apples quite approaching the size of an infant's head.

"These apples are bringing $3 a box in Victoria today. But I care not whether they are apples or figs, or turnips, if they can bring $3 a box, is it not a good and a safe investment?"

"If my honorable friend is privileged to make this exhibit, may I not produce an exhibit of coal," put in the member for Nanaimo. (Laughter.)

And a little later the apples went back in the desk, perhaps for the premier's 'lunch basket' to London."

Similkameen's representative said: "If the premier will call a summer session I will promise an exhibit here of the finest peaches in the world, and enough to go all round; and we can grow more than peaches. Similkameen has thousands of acres of the finest fruit lands in the world."

Mr. McGowan of Vancouver, in a compliment to Price Ellison upon his able speech upon the subject of irrigation, strongly supported the government's policy, saying:

"Not long ago I stood under a cherry tree in Okanagan which in one year yielded $100."

Mr. Ellison—"We have one that yielded $150."

Mr. McGowan—"Then I hope this summer to stand under that and eat its fruit." (Laughter.)

AMENDMENT TO LAND LAW

The chief commissioner has brought down a bill to amend the land act by abolishing the classification of third-class land, which has been heretofore sold at one dollar per acre. Hereafter there will be first-class land at five dollars per acre, and second-class at two and a half dollars.

Another amendment to the land law provides an increase of royalty from 50 cents to 75 cents per thousand on lumber.

A BIG CELEBRATION

The Citizens of Greenwood Decide

TO CELEBRATE MAY 24

A Long List of Sports to Be Arranged and Big Purses to Be Hung Up May 24th and 25th.

Greenwood has decided to have a celebration this year. For several years now it has kept in the back-ground and has given its patronage to Midway, Phoenix and Grand Forks, but it has decided to play host itself this year and asks its neighbors to drop in and see us.

A mass meeting of the citizens was held in the City hall Tuesday evening to consider the matter, and the decision was reached to hold a two-days' event May 24th and 25th.

Mayor Bunting presided at the meeting and submitted the matter, which was heartily taken up by those present. About $2,000 is in sight for prizes and purses, and the amusements will be many and varied.

There will be a baseball tournament, horse races, rock drilling contests, hose races and small sports.

The committee named to take charge of the entire affair was Messrs. Bunting, Hallett, McKenzie, Fair, Thomas, Roy, Cartier, Cameron, Wellwood, Wilson, McAllister and Redpath.

Mayor Bunting was chosen permanent chairman, A. H. Hallett secretary, and Kenneth McKenzie treasurer.

The ball grounds will be put in first-class shape for the tournament, in which it is expected several fast teams will participate, and about $300 will be appropriated to this branch of sports.

The citizens of Greenwood do not believe that their long inactivity in public events of this kind will prevent the town from doing itself proud on this occasion, and take this early opportunity to promise two days of good sport to all who come, and to ask the villages, towns and country districts all around to make May 24th and 25th dates for a visit to Greenwood.

RALWAYS BEING MOVED

An important agreement has been reached between the Washington State Railway commissioners and the railways operating in the state. The railways agree to provide improved accommodations at the stations, to bulletin all delayed trains, to interchange mileage tickets at 2½ cents a mile, and to attend in many ways to the better comfort of their patrons.

WHICH WILL IT BE?

For the first time in the criminal career of Standard Oil and the "system," the American people, through their courts, now have the opportunity to punish John D. Rockefeller through the colossal combination of which he is king.

The jury in the federal court over which Judge Landis presides, has put the issue squarely up to that official. If the judge has the backbone displayed by his jury John D. Rockefeller will have to disgorge millions of the untold wealth he has filched from the people.

WHAT THE VERDICT MEANS

Found guilty on	1,462 counts
Not guilty on	441 counts
Maximum fine, one count	$20,000
Minimum fine, one count	$1,000
Maximum gross fines	$29,240,000
Minimum fine, if judge proves weak	$1,000

—Seattle Times.

NEW PAMPHLET

"British Columbia, Canada's Pacific Province, Its Advantages, Resources and Climate," is the title of a very neat publication just issued by the Canadian Pacific railway, and a copy of which is at hand.

The booklet treats of farming, lumbering, mining and fruit growing, has a fine map of the province and is handsomely illustrated.

An epitome of the many things an intelligent inquirer about the province would want to know, it will doubtless realize its mission, the making known of the matchless climate and magnificent resources of the Pacific province.

FURNITURE FOR SALE

All the household furniture of T. R. Drummond will be disposed of by private sale at his residence from now until the 22nd inst. Parties wishing to see or purchase same will find it to their advantage to call at the house at once. 31-32

MEN WANTED

The B. C. Copper Co. is asking for more men. They can use 75 more at Deadwood and 25 at Summit Camp. The management claims that in order to hold its men it has been compelled to agree to permit them to work two Sundays out of each month. No one will be compelled to work, but they who so desire may work every other Sunday. The men claim that other camps allow them to, and if they can not do so here they will go elsewhere. Of course there are many others who feel the necessity of the Sunday's rest and will not work here or anywhere on that day.

NOW MANAGER THOMAS

Mr. W. C. Thomas, who has been smelter superintendent at the Dominion Copper company's plant for some time has been promoted to entire charge of the company's affairs, both mining and smelting. Mr. Thomas is not only a competent man of affairs, but is very popular with the employees.

LORD'S DAY ACT

In accordance with the request of the Lord's Day Alliance, Rev. M. D. McKee preached a sermon in the Presbyterian church Sunday evening last on the observance of the Sabbath day. The discourse was unequivocally in favor of one day's rest in seven in response to man's physical needs and in obedience to the law of God. The sermon was temperate in tone, but definite in statement.

PAY ORE COLUMN

The Bay is looking well and the owners are feeling jubilant.

Work is temporarily suspended on the Tip Top pending installation of an electric hoist which the management expects to have ready early in May.

Work is being rushed on the installation of the 20 h. p. electric hoist on the Moreen. An electric compressor for the property comes next.

At a point about 100 feet west of the shaft, and on the 200 foot level, the ledge has been struck on the Greyhound.

The Freemont is giving evidence of becoming a great mine. The ledge is now about 16 inches wide and assays this week returned over $330.

The E. P. U. people are much encouraged by late development and expect to strike the lead any day.

Reports from the Riverside are very encouraging. The vein is now about 18 inches wide, and runs high in silver.

The electric motor and hoist for the Crescent have arrived and have been taken to the mine.

The Strathmore shipped out 30 tons of high grade last week. Values will press the $200 mark.

For some time past the B. C. Copper Co. has been taking a small part of the Snowshoe output. It is now reported that arrangements have been completed by which 400 tons daily of Snowshoe ore shall go to the Greenwood company.

PRICES OF METALS

The prices of the metals continue very satisfactory, and with slight fluctuations, hover around the following:

Copper	24 cents
Silver	65 cents
Lead	5 cents

OUTPUT OF BOUNDARY ORES

The LOW GRADE mines of the Boundary, which first began shipment in 1900, sending out 100,000 tons that year, have been steadily increasing. The 1906 shipments were 1,161,537 tons, and that of 1907 will be a large gain thereon.

The HIGH GRADES, up to the end of 1906, had in the past four years shipped out over 10,000 tons with a value of over $1,000,000.

Mines.	Total to end 1906.	Tons in 1907.

AN EARLY BLAZE

In a Small Laundry on Silver Street

CLAIMED THREE VICTIMS

Who Died in a Fruitless Effort to Escape the Merciless Fury of the Flames.

What was a most disastrous fire to those most closely interested, occurred on Monday morning last, shortly after 1 o'clock.

A small building, opposite the Alberta hotel, on Silver street owned by the Stooke Bros., and occupied as a Chinese laundry, was the scene of the fire.

The alarm was turned in from the bridge box, at Greenwood and Gold streets, about twenty minutes past one, and in three minutes the department was at the fire.

The first eyewitnesses of the fire claim that when the alarm was given the entire front was on fire and burning fiercely. The origin of the fire is shrouded in doubt.

The inmates were sleeping upstairs, and the stove was in the back part of the building down stairs.

We are unwilling to believe the fire was of incendiary origin, but it certainly looks like it. The inmates of the building, numbering three, all slept upstairs, and evidently made a rush to save their lives. Their bodies were all found at the foot of the stair, where they had evidently perished, rather from suffocation than fire, as the bodies were not burned beyond recognition. A narrow stairway led from the upstairs to the rear of the ground floor. At the foot of the stairs a door communicated with the back part of the building, little damaged by fire. This door opened inward, and the rush for it and from the flames appears to have been the plan. But whether the quarters were so cramped that the trapped Chinamen were unable to get the door open, or whether they were overcome by flame and smoke, will doubtless never be known, but huddled in a heap the three bodies were found. One of them was that of Quong Wong Hop, who ran the laundry, one Fool Keo, a domestic servant, for several years in the family of W. T. Hunter, and one "Jim" a janitor about town.

During the early forenoon the mayor ordered men to clean up the place and rescue the bodies, which were removed to the morgue, where Coroner Black held an inquest at 2 o'clock the same afternoon.

We are not fully advised what the city's powers are in the premises, but we believe them absolute, and think that it ought to exercise some discretionary power in the matter of allowing buildings, constructed as this was, to be tenanted. A similar disaster is likely to occur again. Rudely constructed, densely tenanted, and with no adequate means of hurried escape, many of the Chinese tenants are a menace to the city and life.

The coroner's jury returned a verdict in accordance with the limited evidence obtainable, and which in no particular hinted at any explanation of the cause of the fire.

HILL'S CANADIAN INVASION

The Winnipeg Telegram, quoting from a recent interview with President James Hill of the Great Northern, announces the following as among the plans of that great system for railway extension in Canada:

Ten million dollars acquired through the new stock issue will be applied on Western Canada extensions.

The system to be projected will be the equal of the present Hill lines in the states.

Winnipeg will be the headquarters and vast terminals are being secured, or have been purchased, in Winnipeg, Minneapolis, Chicago, Vancouver and Seattle.

Winnipeg, Brandon, Regina, Edmonton, Prince Albert and the Peace River valley will be ultimately covered by the Hill system.

Thirty surveyors are now getting plans ready for the Canadian field.

Five hundred men in the Minnesota woods have been getting out ties for the lines on this side of the border all the winter.

Huge contracts for steel rails, equipment and general supplies have been made in readiness for the projected Canadian system of the Great Northern.

Don't be a coward. The sun hates to shine on those who are afraid of their own shadows.

TIME TO AWAKE

At the risk of being scoffed at by the man too absorbed in his own business to do any gratuitous work for his district, and of being laughed at by the man whose own business takes so little of his time that he has leisure to ridicule the efforts of others, we desire to place before our readers our conviction that the time is ripe for a movement in the Boundary looking to the proper placing of the resources of the district before the investor and the man seeking a home. We do not mean the advertisement of Greenwood alone, but of the entire district, Greenwood, Boundary Creek, the Kettle River valley and the West Fork.

Here are resources—mineral, agricultural, horticultural possibilities—so far very modestly heralded to the world. Here is a climate certainly unexcelled in the west, of which we seem so enamored ourselves that we hesitate to divide it with the heat-pestered east or the rain-burdened west.

Here capital may find in a dozen localities an opportunity for profitable investment in mining; here labor may find in as many places choice chances to make a home, where seasons are reliable, soil indulgent and the climate friendly. Within a day's ride of Greenwood, in all the numerous valleys of the district, are thousands of acres of land suitable for irrigation, and only awaiting the hand of industry to make them productive. Dependent as we have been, on the mining industry, we seem to have grown blind to all else.

Conscious that less generous soil and less generous climate elsewhere afford men the conditions of home-making, we seem to shrink from commending what our country is to those looking for betterment.

Low grade mining appears to be incompatible with high grade public spirit. If men choose of their own volition to wander into the district, we make them welcome, but we do very little to parade our privileges to the public. The stranger lauds our climate and we merely listen. He speaks highly of our mining and we shrug our shoulders. He descants on the beauty of Kettle river and the fertile lands along it, and we express our fears of frosts or something worse. We decline to enthuse, we don't like to lift ever so little, and as for boosting, that is out of our line.

All along the line communities in the west are marching on to better things. Here we seem content to rest on the efforts of a few millionaire corporations, and they would never have remained had the words of the critic and the pessamist been considered a few years ago.

When the big ore bodies were being opened the criticism was that the value was too low. When the high-grades were first being opened, the veins were too narrow or didn't go down, and when Norris and Meyerhoff and Bubar and others began the cultivation of fruit, why, it was folly.

First the critics said the ores were too low for profitable mining, and then when that was disproved, and men begaa to talk range and ranch, and orchard, the same critic cxclaimed "folly," this is nothing but a mining country.

Grand Forks alone of the entire district appears to be alive to its possibilities. It talks Grand Forks and the surrounding valley because it believes in itself.

We seem to be ready to apologize for being on earth, and affect a conscientiousness which forbids an effort to induce people to cast their lot with us. We are too modest or too indifferent.

We need a tonic of some kind, or, better still, a blood purifier, for certainly this thing has become chronic with us.

We would like to see Greenwood and the district west unite in some kind of an effort to get our resources before our own people, and then to get the same before the outside public.

EDITORIAL NOTES

THE live wire gets in its work silently and effectively.

THE prompt response of the fire department to the fire alarm last Monday morning, shows how well the town's interest are guarded by the laddies.

Now is the time to plant your sweet peas, while as yet the soil is not only damp but cold, for sweet peas are cold-blooded, and cold-blooded things don't relish too much warmth of surroundings.

MOST of the newspapers of British Columbia show a great improvement lately, the result, doubtless, of improved times, for after all, a newspaper is largely what its advertisers make it.

HARRY K. THAW, who will, doubtless, be tried the second time for the murder of Stanford White, may not be electrocuted in the end, but he certainly got a good grilling.

WE quote elsewhere one of our favorite poems of the late Dr. Drummond, who was buried the other day to the noise of a multitude's lamentations, "Little Bateese" has the genuine home-love flavor of the French-Canadian about it.

LORD CHARLES BERESFORD was guilty of a very witty remark when he told a New York interviewer that being on full pay in the admiralty, he could not talk, but that if he were on half-pay, he would be glad to tell all he knew, and more too.

WHEN once a strike occurs in the coal mines both sides to the controversy will set about finding means of settlement. Why not do it before the strike occurs? We think capital is frequently to blame in that it defers action until a case becomes chronic and more difficult of treatment.

THERE is a constant conservation and circulation going on in nature. Nothing is ever destroyed. One form may be changed into another, but it is never lost. Can it be possible that this law fails when it comes to deal with the human mind?

ACCORDING to Coroner Black's interpretation of the law, an inquest can be held on only one death at a time. Three inquests and three verdicts appear necessary when the three victims of a disaster die at the same time practically, in the same way and from the same cause.

SOMEBODY was sulky or sullen, or stupid, or the impending coal strike would have settled long ago. It seems absurd that leaders among the employers or the employees may, by obstinacy, prejudice public welfare. Whose was the fault that something was not done during that long conference?

NEW BRUNSWICK, always to the front in the cause of education, and zealous for the welfare of its teachers, has decided to increase the salaries of teachers of all classes. The increase is to become effective upon the first payment of the increased subsidies and is to be graduated according to the length of service of the teachers.

OF course Harriman won't disgorge the millions he made out of the wreck of the Chicago & Alton. Some men make money by taking hold of second-hand goods and by application of intelligence thereon, make them look like new, Harriman makes money by getting hold of first-class things, and by application of his art, making them look like 30 cents with the discount off.

WHEN Wm. T. Stead was addressing the New York Conference of the Methodist church recently, on the subject of peace among the nations, he must have startled some of his pious hearers, who applauded his lofty sentiments, by fervent "Amens," when he exclaimed "nobody cares a damn for your 'amens' unless you do something." The conference thanked the English visitor for his address, and more "Amens" were doubtless registered, but Stead plainly told them he would prefer action to either.

Winnipeg has declared against the bucket shops, and raids thereon are the order of the day.

A MOTHER'S MESSAGE TO MOTHERS

What Zam-Buk Did for Her Child.

"If this statement is the means of leading some mother to introduce Zam-Buk to her home, I shall be very glad." So says Mrs. K. Watkins, of 26 Forgue avenue, Montreal, and continues: "My boy, Walter, aged 9, while attending school, contracted some sores. These spread, and became so bad that some of them on the heel and ankle made it almost impossible for him to walk. I used various ointments, but the sores persisted. One day Zam-Buk was recommended, and we got a supply. It seemed to take the soreness out of the place to which il was applied right away, and the wounds began to heal. In about a week's time the sores, which had defied other treatment, were completely healed, and there is now not a trace of sore on his body! I believe Zam-Buk to be the best balm ever produced."

When a mother runs on to the delicate skin of children a balm or salve, she needs to be as careful as if she were givining a child an internal remedy. Zam-Buk is pure—free from all animal fat and all mineral mattsr, and may be applied with wonderful benefit even to the skin of young babes. Zam-Buk heals sores, cures eczema, spring skin eruptions, ulcers, ringworm, itch, barber's rash, blood poison, bad leg, salt rheum, abrasions, abscesses, cuts, burns, scals and all skin injuries and diseases. Of all stores and druggists at 50 cents, or from Zam-Buk Co., Toronto, for price. Six boxes for $2.50. Baseball players and athletes find it best embrocation.

WILL STAND PAT

Representatives of the Fredericton Gleaner, Halifax Herald and Toronto World, the papers to be proceeded against for libel by Hon. H. R. Emmerson, have had a conference and have decided to retract nothing.

Everybody Agrees

that COD LIVER OIL and IRON are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of FERROL, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed FERROL and used it largely in their practice. FERROL is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother,

(3 If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to esidence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,00 pounds shall be collected on the gross output.

W. W. CORY,

Deputy of the Minister of the Interior

N.B.—Unauthorized publication of this advertisement will not be paid for. 32-59

The World Over

Told in Brief

Settlers in great numbers are coming into Canada this year. In one day recently 1,400 immigrants reached Winnipeg. In one hour the other day three special trains landed 1,100 in the city.

British Band in Paris—For the first time in perhaps a century, a British military band is visiting France. The fine band of the Prince of Wales' Own or West Yorkshire regiment is visiting Lille at the invitation of an influential local committee which provides the poor children of the town with toys, lothing and entertainment.

England and Spain—The Madrid correspondent of the Eclaire says that it has knowledge that some of the main points of the Anglo-Spanish agreement were discussed by King Edward and King Alfonso at Cartagene. England, it is reported, will help Spain in the reconstruction of her fleet, and Spain will see to it that certain important naval positions do not fall into the hands of any other power.

May Starve Paris—"Paris starved out," is the amiable prospect announced for May 1, or thereabouts, by the alarmists. According to them all the unions of foodstuff trades are combining to strike a great blow in favor of a weekly day of rest, the law for which is not yet even fully carried out. The unions are supposed to number 180 and to represent 10,000 workers, and just what will prove to be the ending of this queer strike it is difficult to predict.

A most liberal pension system for railroad men has just been put into force by the Atchison, Topeka & Santa Fe Railway company. Thirty thousand employees have been made happy by it, for they all look forward to being retired on a fair competence if they live to the age of 65.

Unlike most of the systems adopted by other railroads, this is so graded that the poorest paid employees get, proportionately, the largest pensions, and the high salaried men cannot get more than $75 a month.

There are considerable more than 500,000 persons eligible to benefit by the various schemes upon attaining the prescribed age, and the appropriations made annually by the various railroads for pension purposes reach an aggregate of approximately $1,500,000.

The famine in China assumes alarming proportions. Ten million persons are suffering from inadequate supplies of food, and 3,000,000 are nearing starvation. The members of the committee at the front report that they find the bodies of sufferers bloated and that their faces turn green or black as the result of starvation. The people are pulling up the growing crops for food. Whole families have been found dead in their houses and corpses are seen lying by the roadside. Probably 5,000 persons are dying daily from starvation. A few cases of rioting for food have occurred and cannibalism is beginning to be resorted to. Newly made graves have been rifled of the bodies, and parents are exhuming their children to be eaten. A dollar, the committee reports, will save one life until harvest, June 27, and $1,000,000 is needed. The whole amount cannot be raised in China. The situation is desperate, and Americans are urged to give $3,000,000 in the next three weeks, not for Christianity, but for humanity. It is suggested that it would be best to cable money to the American consul, James Rogers, as supplies can be purchased in Shanghai.

THAT GREEN FIELD NORTH

Mr. George McNichol, of Montreal, formerly private secretary to Mr. Frank W. Morse, general manager of the Grand Trunk Pacific railway, who was recently appointed purchasing agent for the G. T. P. on the coast, arrived in the city on Sunday. He will open an office and take up his residence here shortly. Other G. T. P. officials, at present in Vancouver, are Messrs. C. A. Schrieber, Geo. M. Osborne and W. H. Toby, members of the engineering staff of the company. Their presence is due to the fact that surveying and clearing of the Prince Rupert townsite has been discontinued for the time being.

A report is current in the city to the effect that the Grand Trunk Pacific never actually intended to lay out a townsite on the land bought from the government, but that the pretence of doing so was made while endeavoring to secure from the Dominion government the lands within the Indian reserve. The refusal of the British Columbia government to give up their revisionary rights in the land and the order issued by the provincial constables for the company to desist from the driving of piles in the vicinity of the reserve, is stated to be the real reason for the withdrawing of practically all of the G. T. P. surveying force from the townsite.

Mr. D. H. Hays, secretary of the B.C. Tie & Timber company, who returned from Prince Rupert, reports that his company's mill, recently put into operation there, is running at about half capacity. He does not know whether or not the much-talked-of new hotel will be built at Prince Rupert this summer or not. The Canadian Bank of Commerce still maintains a branch at Prince Rupert and the Bank of Montreal will shortly open an office there. —News Advertiser.

LITTLE BATEESE

You bad leetle boy, not moche you care
How busy you're kipin' you poor gran'pere,
Tryin' to stop you ev'ry day
Chasin' de hen aroun' de hay—
W'y don't you geev' dem a chance to lay? Leetle Bateese!

Off on ne fiel' you foller de plough,
Den w'en you're tire you scare de cow
Sickin' de dog till dey jump de wall,
So de milk ain't good for not'ing at all—
An' you're only five an' a half dis fall, Leetle Bateese!

Too sleepy for sayin' de prayer to-night?
Never min'; I s'pose it 'll be all right
Say dem tomorrow—ah! dere he go!
Fas' asleep in a minute or so—
An' he'll stay lak dat till de rooster crow, Leetle Bateese!

Den wake us up right away toute suite
Lookin' for somet'ing more to eat,
Makin' me t'ink of dem long leg crane,
Soon as dey swaller, de start again,
I wonder your stomach don't get no pain, Leetle Bateese!

But see heem now lyin' dere in bed,
Look at the arm undernest' hees head;
If he grow lak dat till he's twenty year
I bet he'll be stronger dan Louis Cyr
An' beat all de voyageurs leevin' here, Leetle Bateese!

Jus' feel de muscle along hees back
Won't geev' heem moche bodder for carry pack
On de long portage, any size canoe,
Dere's not many t'ing dat boy won't do,
For he's got double-joint on hees body too, Leetle Bateese!

But, leetle Bateese please don't forget
We rader you're stayin' de small boy yet,
So chase de chicken an' mak' dem scare,
An' do w'at you lak wit' your ole gran'pere,
For w'en you're beeg feller he won't be dere, Leetle Bateese!

A NEW BRAND

During one of his many campaigns, "Private" John Allen stopped at a cross-roads store. While he was exchanging news with the proprietor, an old darkey from one of the plantations came in. When his purchase of "middlin' an' meal" had been wrapped up, he started out. At the door he paused. "Got enny cheese, boss?" he asked.

"Why, yes," said the clerk, pointing to a freshly opened can of axle grease on the counter. "Box just opened."

The darkey looked at it hungrily. "How much?" he asked.

"Give it to him for 10 cents and throw in the crackers," said Mr. Allen.

"All right," said the clerk, filling a bag with crackers. "Here you are."

The darkey laid a greasy dime on the counter, picked up the box and the bag, and going out, seated himself in the shade of a cotton bale. When he had finished the crackers he ran his finger around the box and gave it a good long lick. In a few moments he put on his hat and started for his mule. As he passed the store Mr. Allen hailed him.

"Well, Jerry, what did you think of that lunch?"

The old darkey scratched his head, then he said: "I tell you de truf, Mars John, dem crackers wuz all right, but dat wuz de ransomest cheese I uver et!"

COULD NOT BE MISTAKEN

The attention of the smoke room company on a Liverpool Atlantic liner was held by an assertive Chicagoan recouteur, whose tale full of insiduous hits at denizens of New York, created much laughter. When it had subsided a New York gentleman who had been quietly listening, took up the running.

"Say," he commenced, "guess I opinionated you a Lakesider vurry first day aboard."

"Haow?" questioned the former speaker.

"Sat close to you at lunch and noticed you ax'nt."

"Huh! my ax't?" exclaimed the man from the porcine city. "Why, first day aboard I grubbed entirely by myself, and spoke nary a word to a soul."

"Jes so," rejoined the other, "but I could hear you eatin pie."

Today and today make the morrows.

People of Note

In Short Meter

Mr. Ralph Smith is reported to have declined the Yukon commissionership.

Pat Burns says the price of beef and other meats must advance as the result of last winter's losses.

The jury in the Thaw case disagreed and Jerome is going to try again to convict the slayer of White.

Ex-Minister of Railways Emmerson, it is stated, is likely to accept a lucrative position with the Grand Trunk Pacific.

Botha is receiving the plaudits of the British public, which seems to have forgotten all bitterness toward him who shed much British blood.

At a meeting in Manchester, it was stated that Lord Strathcona was to guarantee an amount of £10,000 for the Franco-British exhibition to be held in 1908 in London.

A well known philanthropist in England has cabled that he will devote $100,000 toward the British Columbia University establishment, if the institution be located between Vancouver and New Westminster.

The application of Robert E. Peary, U. S. N., for leave of absence for three years, which was approved by the secretary of the navy, has uncovered the fact that Commander Peary definitely purposes to make another attempt this summer to reach the north pole.

Premier Pugsley of New Brunswick, is thinking of contesting St. John county for the commons, a vacancy having occurred by the death of Dr. Stockton. The report is that Mr. Pugsley wired Mr. Emmerson his commendation of his course in resigning the Railway portfolio, and immediately set about trying to secure it for himself.

THE ORE TRAIN

Cariboo—The Guggenheims say they will withdraw from the placer fields of northern British Columbia. They claim that a lease is too insecure a title on which to expend any more millions, and will not operate in the Province unless a system of crown grants for placers is adopted as in lode mining.

Rossland—The usual quarterly dividend of 2½ per cent on the capital stock of the Consolidated Mining & Smelting Company of Canada, Ltd., was declared on Friday, to be payable to shareholders registered on April 22, on which date the books of the company will close. This is the sixth quarterly dividend paid since the consolidation was effected. The dividend amounts to the comfortable sum of $120,000, and the aggregate of all of the six dividends is over $700,000.

Similkameen—Messrs. Armstrong and Law of the Similkameen Mining & Smelting Co., are expected to arrive at Bear creek shortly. It is understood that they will immediately begin work on a tunnel with a big force of men. Shaft sinking has been carried on all winter and is down now about 150 feet. Development work on this property will now be pushed with vigor under the direction of an expert engineer. This company has made remarkable progress on this mine, considering the difficulties of access. A good road has been built to the property and a large amount of surface work done.

Texada—The Cornell mine on Texada island, has closed down because of trouble with the miners similar to that which caused the Marble Bay mines to suspend operations on March 25. News of the closing down of the Cornell, which employed but a few men, was brought on the steamer Cassiar. It is reported that the management of the Marble Bay mines is now no nearer a settlement with the men than was the case at the start of the trouble. The cause of the strikes was the refusal of the mineowners to meet the demands of the men for increased wages.

THINGS DOING

Dalhousie, N. B., reports a quarter million fire.

Vancouver votes $1,000 to the Chinese relief fund.

Kelowna sells a $60,000 tobacco farm.

A Honolulu man claims to have discovered a leprosy cure.

Vancouver plans to tax real estate dealers $50 a year.

The Bank of England reduces its rate of interest from 5 to 4½ per cent.

A woman in Marlboro, Mass., is electrocuted while using the telephone.

It is reported that Kings Edward and Victor Emanuel are to have a meeting.

In his competitive essay on British Columbia's potentalities, for the Flumerfelt prize, and the successful one, ex-Governor Mackintosh has presented an array of facts to which we shall refer later.

Let Me Sell You a Chatham Incubator —On Time—

Do you know there is big money in raising poultry? Do you know there is more money in running a good incubator than in almost anything else you can do for the amount of time and trouble it takes? Do you know my incubator will pay you a bigger profit than any other thing you can have on your place?

Well, all these things are true, and I can prove it. Thousands of people all over Canada have proved it every year for the last five years.

I want to quote you a price on my Chatham Incubator, —sold ON TIME. I want to send you my Chatham book. This incubator book is *free*— I'll send it to you for just a postal card. It tells you a lot you ought to know about the Poultry business—it tells you how to make *money* out of chickens—it tells you how my Chatham Incubator will make you *more* money than you can make with hens—far more, and with less trouble.

This book tells you how my Incubators are made—why they are the best ever invented—and why I sell them ON TIME and on a 5-Year Guarantee.

My Company has been in business in Canada for over 50 years. We are one of the largest wood-working factories in the country. We also operate a large factory at Detroit, Mich. We have the Incubator and Brooder business down to a science.

Chatham Incubators and Brooders will make you money, for a Chatham Incubator will hatch a live, healthy chicken out of every fertile egg put into it, in 21 days.

Will you write for my book today? Do it now while you think of it. Just say on a postal "Please send me your Incubator Book"—that's all. Address me personally.

THE

COPPER

HANDBOOK

(New edition issued Nov. 15, 1906)

Is a dozen books in one, covering the history, Geography, Geology, Chemistry, Mineralogy Metallurgy, Terminology, Uses, Statistics and Finances of Copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the Copper Industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man.

It gives the plain facts in plain English without fear or favor.

Its lists and describes 4626 Copper Mines and Companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Mining Man needs the book: the facts it gives him about mining and the metal.

The Investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundred of swindling companies are exposed in plain English.

Price is $5 in Buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

Dated this 31ts day of December, A. D. 1906.

21-30 I. H. HALLETT.

Certificate of the Registration of an Extra-Provincial Company.

"COMPANIES ACT, 1897."

I HEREBY CERTIFY that the "Fremont Mining Company, Limited," has this day been registered as an Extra-Provincial Company under the "Companies Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the City of Spokane, County of Spokane, State of Washington, U. S. A.

The amount of the capital of the Company is three hundred and seventy-five thousand dollars, divided into one million five hundred thousand shares of twenty-five cents each.

The head office of the Company in this Province is situate at Grand Forks, and Charles M. Kingston, Physician, whose address is Grand Forks, B. C., is the attorney for the Company.

The time of the existence of the Company is fifty years from the 7th day of November, 1906.

The Company is specially limited under section 50 of the above Act.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 11th day of March, one thousand nine hundred and seven.

[L. S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The objects for which said Company has been established and registered are:—

To work, operate, buy, sell, lease, locate, acquire, procure, hold and deal in mines, metals and mineral claims of every kind and description within the Province of British Columbia and elsewhere; to carry on and conduct general mining, smelting and reduction business; to purchase, acquire, hold, erect and operate electric and power plants for the purpose of mining and treating ores, and for the purpose of creating power and furnishing light needed in and incident to the Company's business and mining; to bond, buy, sell, lease, locate and hold ditches, flumes and water rights to conduct, lease, buy, sell, build or operate railroads, ferries, tramways or other ways of transportation for transporting ores, minerals and other materials; to own, bond, buy, sell, lease and locate timber and timber claims, generally to do everything consistent, proper, convenient and requisite for the carrying out of the objects and purposes aforesaid in the fullest and broadest sense, within the territory aforesaid. 29-32

SHERWIN-WILLIAMS

Decotint

A SANITARY COLD WATER PAINT

READY FOR USE WITH THE ADDITION OF COLD WATER

DECOTINT is made in 15 delicate tones and popular shades, also white, and is prepared for use instantly by the addition of cold water and thorough stirring.

DECOTINT is especially clear in tone and thoroughly sanitary. It is readily prepared and easily applied and gives an artistic finish without a prominent gloss to reflect a glaring light.

DECOTINT, unlike kalsomines, does not rub off on the clothing and on account of its moderate cost permits of frequent changes in interior color schemes at very little expense.

SHERWIN-WILLIAMS

Paints

PREPARED

Made to Paint Buildings With Outside and Inside.

It costs less per job and wears longer than any other paint, either ready prepared or mixed by hand.

PAGE OF PERSONALS

Dr. Mathison, dentist, Naden-Flood block.

May 24th and 25th are the dates of the Big Celebration.

The third story of the new Pacific is going up with a rush.

About 30 men are now employed by the C P. R. at Greenwood.

The lawns are growing green and the frog ponds getting musical.

The lumber camps on the main Kettle and West Fork have been broken up.

The big colored posters for celebration day are about ready. Watch for them.

Julius Py has laid in a big stock of ice and is now ready to handle your orders.

John J Caulfield has rented his residence to Judge Brown and has removed to Victoria.

Mrs. Dr. Simmons and Miss Pickard returned Tuesday evening from a ten days' visit to Spokane.

W. B. Ferrie of the Canada Life Insurance Co., was looking up business in Greenwood this week.

There is an increasing shortage of men at the mines. The demand for more help is heard continually.

R. A. Nicholson is engaged lowering the city water pipe at the corner of Deadwood and Kimberly streets.

Mayor Bunting is proving a most energetic and enterprising officer. His public spirit is always in evidence.

The Ladies' Aid of the Methodist church wish to thank those who assisted with the dinner on April 15th.

Mr. E. W. Bishop, Sr., is again on the street, fairly recovered from his late accident, but with his arm still in a sling.

Robert Wood came down on Tuesday's stage from the Sally where he has been doing faithful service for his Company.

A birthday party will be given by the Ladies' association at the Presbyterian church on Thursday, April 25th. Everybody invited.

Duncan McIntosh is entertaining a flattering offer to manage some large land interests in Manitoba for some former Dakota friends.

The meeting of the City Council on Monday evening last was void of anything of unusual interest, regular routine merely engaging its attention.

W. J. Twiss of the Mutual Life of Canada was in town during the week, proud of his company and of the record it made before the Insurance Commission.

C. B. Bash has proven himself a rustler in the work of the Fish Protective association. His list of names, like his list of dollars, is growing steadily.

The rubbish lead in the alley remains unbroken. Not even a horse has shown up, and no break occurs in the finest kind of a pay-streak in the fever-producing vein.

Benj. L. Wood, an old-time Copper street merchant, lately in business in Coeur d'Alene City, is in Greenwood He has sold out in the Idaho town and is having a look round.

J. L. Richey, saw mill proprietor at Maud, Wash., was in town this week. He reports a siding being put in by the V.,V. & E. railway for the convenience of his firm, Richey & Sons

An Athletic assaciation has been formed under the management of Everett Baker. Quarters have been secured in the Wood building at the corner of Deadwood and Government streets.

Andrew Sutherland, a brother of Alderman Sutherland, has arrived in Greenwood with his wife. Mr. Sutherland comes from Oxford county, Ontario, and contemplates settlement in Greenwood.

Some posters printed, very neatly on linen, are being put in conspicuous places along the creek, appealing to the public not to fish in Boundary creek before June, and warning it against violation of law in taking fish less than six inches long.

J. Binge got caught in the skip at the Mother Lode mine Tuesday evening last, suffering a compound fracture of the leg. Dr. Oppenheimer was summoned and is trying to save the man's limb, but the issue is very doubtful.

The Civic clean-up day last Wednesday met with a very hearty response from the people. The usual enthusiasm prevailed. At least half a dozen fires were seen in various parts of the town. The tin cans and rubbish remain about as before.

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings.

Call at the Greenwood Bakery for New England bread.

WANTED—A good girl for general housework. Apply at residence Judge Brown, Kimberley ave. 30-tf

Mrs. T. R. Drummond leaves on Monday to join her husband in Cobalt.

Mr. E. Chrisman and Miss Edith Shromer, both of Chesaw, Wash., were married in Greenwood on Thursday last by Rev. H. S. Hastings.

R. H. Burnham, district passenger agent of the Great Northern, with headquarters at Grand Forks, was a Greenwood visitor this week.

Wm. Porter, one of the district's pioneers, was a visitor in Greenwood this week. Accompanied by Mrs. Perter, he has just returned from a three months' trip to California and the coast. He reports Vancouver booming, with prices in real estate still soaring.

Rev. Farraux, from France, is making a tour of the west looking for an opportunity to settle a number of French families. He has been through the Okanagan, where he found prices very high. Last week, in company with James Dale, he went up the West Fork as far as Carmi.

A copy of the first issue of the Bulkley Pioneer is at hand and is a most interesting one. The paper is published at present at Vancouver. and Mrs. E. Morrison Grout is its editor. The paper an eight page one and illustrated, will be devoted to the interests of the northern interior of British Columbia.

Thursday's Rossland Miner has the following: "W. D. McIntosh, superintendent of the Mother Lode mine in Deadwood camp, and Mrs. McIntosh, are in the city, the guests of Mr. and Mrs. R. Gosse. They report that they are much pleased with their new home and that they are prospering there. They are having a pleasant visit, meeting a number of old friends who are much pleased to again see them. They will leave for home tomorrow."

CHINESE FUNERAL

When it came to burying their unfortunate countrymen who perished in Monday morning's fire, the best that Gulley & Co. had in the way of funeral trappings was none too good for the members of the local Chinese colony. The remains, prepared in the best manner possible, reposed in nice caskets. Into each coffin was placed proper credentials for presentation to the right parties at the entrance to the Chinaman's paradise. On Wednesday afternoon, at 4 o'clock, the three caskets were conveyed to Chinatown. On arrival there they were placed side by side on a platform erected in the street, under a white awning, and were draped in red and white. Beside the platform was a large table laden with roast chicken, fruit and confections. When everything was prepared, the tapers lit and incense burning, the friends took leave of the departed by kneeling and salaaming. No tears were shed, no excitement shown, and instead of crape badges the mourners wore red and white ribbons. The ceremony over, the fowl and fruit were distributed among three shining new tin pans, and these were sent to the cemetery to be placed on the graves. The friends appeared to have forgotten nothing for the comfort of the dead, chop sticks and tea pot, and tea cups going into the pans. Kindly ones even put a package of cigarettes and some matches in each pan. The service over, and before the procession had moved away, the platform was taken down and every sign of the occasion removed.

COMPLETE TIE-UP

While the Boundary is luxuriating in beautiful spring weather, with buds bursting and birds singing and frogs making melody, the Canadian Northern is completely crippled in Manitoba and the territories, by snow storms and severe weather. On April 10 Mr. D. D. Mann reported traffic at a standstill with one of the worst snow storms of the season then in progress.

CROW'S NEST STRIKE

The coal miners at Fernie, Frank, Coleman and Michael, are quietly leaving work. A general strike has not been called, the men prefering to quit individually rather than risk a regular strike in the face of the new trade and labor act.

Vice President Lewis of the U. M.W. of A., expects to meet the operators next Monday. It is expected that matters will be speedily adjusted.

"STRUCK ONE"

An Irishman accosted a gentleman on the street late at night with a request for the time. The gentleman. suspecting that Pat wished to snatch his watch, gave him a stinging rap on the nose with the remark, "It just struck one!" "Be Jabbers," retorted Pat, "I'm glad I didn't ax ye an hour ago."

Do Not Crowd the Season.

The first warm days of spring bring with them a desire to get out and enjoy the exhilerating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in midwinter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it. For sale by all druggists.

The brick for the 16,600 ton circular smokestack to be erected at the Great Fallo, Mont., smelter of the Boston & Montana Co. will be of perforated radial or segmental brick, for the purpose of economy. If common brick were used, 5,700,000 would be needed. Completed, the smokestack will have a total height, including foundation, of 742 feet above the blast furnace charging floor. Above the foundation, the smokestack will be 506 feet high, and will have a 50 foot inside diameter at the top, 97 outside diameter at the bottom.

METHODIST—Rev. H. S. Hastings, pastor Services at 11 a. m. and 7:30 p. m.; Sunday school. 2:30 p. m.

Chamberlain's Cough Remedy is Both Agreeable and Effective.

Chamberlain's Cough Remedy has no superior for coughs, colds, and croup, and the fact that it is pleasant to take and contains nothing in any way injurious has made it a favorite with mothers. Mr. W. S. Pelham, a merchant of Kirksville, Iowa, says: "For more than twenty years Chamberlain's Cough Remedy has been my leading Remedy for all throat troubles. It is especially successful in cases of croup. Children like it and my customers who have used it will not take any other." For sale by all druggists.

A railway company with $100,000,000 capital is being promoted by a New York and London syndicate to build a line from Port Simpson to Hudson Bay.

There may be plenty of clouds in your workday life. Remember that the most beautiful sunsets come often after cloudy days.

Your Doctor

Can cure your Cough or Cold, no question about that, but—why go to all the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years: let SHILOH be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

The next time you have a Cough or Cold cure it with

SHILOH
