Regular Price $1 50

New Wash Dress Goods For Spring.
New Shirt Waists For Spring.
New Muslin Underwear For Spring.
See Our Big Stock Before Buying the above goods.

RENDELL & CO.

ON THE CRESCENT

Large Force of Men Now Employed.

WILL SOON BE A SHIPPER

Will Ship to Smelter Over the Great Northern Railway.

A staff member spent Easter Monday afternoon in the hills visiting among other claims the Crescent, on which Harry Shallenberg has a large gang of men employed both mining and developing. The Crescent is in Skylark camp, not far from the Great Northern Phoenix branch. It adjoins the Dom Pedro and Mountain View. On the former a new whim has been installed and on Tuesday morning last the water was taken out of the shaft preparatory to the starting of an active development campaign. The ore is a high-grade galena. The shaft is down 65 feet and will be continued.

The Mountain View, adjoining the Crescent to the southeast, is a crown-granted claim. The claim has a good situation and Toronto parties who wish to bond it have issued instructions for it to be thoroughly prospected. This will be done and, if satisfactory, the deal closed.

Mr. Shallenberg stated that he had decided to ship over the Great Northern, which is about 2,200 yards away and that it was possible to build a road thereto on a 10 per cent grade. He considers that it would be much more economical to haul the ore to the railway there than down to Greenwood. A steam plant and compressor will shortly be installed.

The lead on the Crescent lies between clearly defined walls, the workings being on the hanging wall, and the ore can be pried off the foot without the aid of powder. A lot of good ore is on the dump ready for shipment as soon as the roads have been made.

P. Joiner, manager for the Russell-Law Caulfield company, returned from a business trip to Spokane Monday. Mr. Joiner is the only person lately arriving from Spokane who had not an opinion to offer on railway matters, and probably his findings on that subject are as nearly correct as any that have recently been placed on the market.

JEWEL CO'Y BONDS

Denero Grande In Long Lake Camp.

ONE OF THE RICH ONES

The Jewel Company Have One Year to Prospect Claim.

A mining deal of more than ordinary importance has been completed during the week just past, by which a half interest in the Denero Grand—Anglice, big money—has been bonded to the Jewel company, a Scotch company, with head office in London, Eng. The half interest bonded was owned equally by C. J. McArthur and his mother, Mrs. Mary McArthur. The latter quarter interest was held by Mrs. McArthur by virtue of the distribution of the official administrator of estate the late John McArthur, her son, who died intestate.

The Jewel company, who are the owners of the other half interest, have agreed to pay the McArthurs the sum of £250 for a year's option on their half interest; at the end of the year, if then satisfied, they will pay the furthur sum of £3,000 and complete the purchase.

The money is in the hands of Mayor C. R. Hamilton of Rossland and as soon as the title is proved correct the money will be paid.

There is very little doubt that the company will fail to complete the purchase in a year from now. They own a half interest already and knowing the value of the property as they well do, it is merely a matter of deduction to arrive at the conclusion that they will buy when the time comes.

The Denero Grande was staked in 1895 by the McArtur Bros and another who sold his half interest years ago to the Jewel company. The Jewel was staked four months previously, but the discovery on the Jewel is not on the vein which has been worked but on an outcrop some distance to the east. The Denero Grande is on the vein which has been so extensively developed by the Jewel company, and therefore Mr. McArthur very justly claims to be the real discoverer of the Jewel mine. The outcrop of this vein can be traced on the surface for over a mile with an average width of 30 inches. The Jewel shaft is down 320 feet and Mr. McArthur told a Times reporter that if there was a true fissure vein in the Boundary country the Jewel and Denero Grande has it sure. Thousands of tons of splendid ore have been shipped from the Jewel and this option evidently means that active work will be commenced on the the Denero Grande also.

The Denero Grande and Jewel are in Long Lake camp, about nine miles north of Greenwood.

The deal just outlined is but another evidence of the hope freely held and expressed that Greenwood is entering on a very prosperous era. Everything points that way, claim owners are willing to sell and are selling at reasonable prices and on most reasonable terms, and many properties are getting into the hands of people with sufficient capital to actively develop them.

A sign of the times, and a very significant one, is the fact that Toronto people, who were so unmercifully fleeced by the '96 and '97 wildcat company schemes, have at last awakened to the fact that such doings are not being tolerated any longer. On Saturday evening last a Toronto gentleman took the trouble of going into the matter of the probable permanence of the mines here and the shipments to date for 1905. etc., and was simply amazed. He was so much impressed, however, that he assured a friend before leaving that he would immediately on his arrival home write out and if anything was offering, would invest here. The same gentleman further promised to induce the Eastern dailies to accept correspondence from Greenwood, and thus keep their readers posted as to the great mining industry, of which Greenwood is no inconsiderable part.

Dr. S. S. Tolmie, Dominion government veterinary inspector, paid Greenwood a visit on Tuesday morning on his regular visit of inspection. The doctor recently took the place of the Nelson resident veterinary, Dr. Hadwen, while the latter went to his home on Vancouver Island on a month's visit.

VAST MINERAL BELT

Lying Between West Fork and Main River.

VERY HIGH GRADE ORE

A Large Territory as Yet Unexplored By Prospectors.

Very little has been written about the camps of the West Fork district with the exception of Carmi and Wallace, or Sally, mountain. There is a vast mineral belt lying between the West Fork and the main river, in which hundreds of claims have been located and a large amount of work done on them. This may also be said of the territory east of the main river and west of the West Fork, along both of which there is a large territory as yet untouched by the prospector's pick.

Twenty miles from the terminus of the railway is the junction of the West Fork and Main Kettle rivers, the former flowing in a southerly and the latter in a westerly direction. Twenty-five miles north of the junction of the two streams is Beaverdell where the Beaver enters the West Fork. Following the creek in an easterly direction on the south is Wallace mountain, perhaps the highest-grade silver camp in British Columbia. Following the trail along the creek about a mile above Beaverdell a mineral belt of high grade ore is encountered which continues for a distance of four or five miles, where the trail branches, one to the right, going to the Roarin' Gimlet camp, so named by Andy Hamilton and Tom Corkill, who own a group of claims one of which bears the euphonious title of "Roarin' Gimlet." The trail to the left leads past the Knob hill, on which are a number of high and low grade properties, and on to what is locally known as the "big showing." This is an immense iron capping of low-grade ore, between 70 and 100 feet in width, and running from $5 to $8 in gold. two miles farther up the creek is Mosher's camp, where a number of locations have been made on large bodies of ore. Mosher's camp is about twelve miles from Beaverdell. Three miles from Mosher's camp and across the creek a number of locations have been made on quartz carrying galena. From there on to the source of the Beaver very little careful prospecting has been done.

One fork of the Beaver rises in Tripple Lake camp near the source of Deer creek, a tributary of the Main river. In Tripple Lake camp a number of locations were made some years ago, the best known of which is the Silver Dollar. About twenty of these claims have been surveyed

On Canyon, Cedar, Ouelette, Mulligan and Williams creek, all entering the Main river from the north, locations have been made, showing that there is a continuous mineral belt between Beaver creek and the Main river.

Above Carmi, and entering the West Fork from the east, is China creek, on which a large amount of work has been done on a number of high-grade properties Coming down to Carmi there are a group of claims located by James C. Dale in 1897, two of which—the Carmi and Butcher Boy—have shipped ore at a profit, although handicapped by a haulage of 50 miles to the railway.

On the west side of the river, between Carmi and Cranberry creeks nearly the whole surface of Goat mountain has been staked, and the greater number very high grade. On Kelly creek lower down the river locations of ore carrying very high gold values have been made. On Boomerang creek, also, a number of locations have been made and considerable work done.

It was not the purpose of this article to go into detail in reference to the high-grade camps of the West Fork and Main river country, but to endeavor to convey some idea of the vast mineral belt lying between these two rivers, a large portion of which is yet unexplored. Full details of the West Fork camps will be given in the special edition of The Baundary Creek Times, to be issued at an early date.

UNION LABEL — TYPOGRAPHICAL — GREENWOOD

FRIDAY APRIL 28, 1905

THE boom has started at Hedley City, a chartered bank having been opened in that city last week. From now on the 15-cent dollar and the "trouble" man will have undisputed possession of the Similkameen district.

THE Fernie Ledge, edited and financed by Colonel R. T. Lowery, for some months past has been scoring the big companies of the Coal City. In last week's issue of that estimable journal appears the advertisement of the largest of these concerns—the Trites-Wood Co. Thus is monopoly brought low.

THE attention of the city health officers is called to the state of the flat in the rear of the steam laundry. While everyone wishes to see the laundry a success, it is necessary that the health of the people should be cared for. The place is too near the public school building for a cesspool of filth to be allowed to accumulate.

As a rule when men take to shooting each other, the affair either takes place in a booze foundry or can be traced to the products of such an institution, but the other day at Homestead, Texas, three men were killed at a prohibitionist meeting. The world awaits with impatience the name of the prohibitory fluid used at that meeting.

THE new governor of the Yukon is W. W. B. McInnes, the most brilliant member of the provincial legislature. His many admirers in the province hope that the new governor will put a stop to the outrageous practices that have been the rule in the government of the Yukon. He is the first Western man to receive the appointment, and Westerners believe that he will be more than a mere improvement upon his "carpet-bagger" predecessor.

IN this season of the year when Easter Bonnets and Bock Beer are the all important topics, it is not surprising that the usual routine of business should be more or less neglected. This is the only excuse that can be offered by the Times' staff for the numerous typographical errors grave and gay which crept into the last issue of this paper. The general city rate was lowered 8 mills on the dollar instead of 4; the site for the waterworks dam was made a "damn site," and Queen's University was accused of being the alma "master" of Dr. Russell.

THE people of British Columbia have been accused by the Eastern and English press of not thinking imperially, because their legislature has seen fit to pass anti-Japanese laws. If the other people of the empire, who are not affected, wish to sacrifice British Columbia and make it a Mongolian country, is it not about time for B. C. to do something to protect herself, not only against the Mongolians, but also against the balance of the Empire. No doubt B. C. is prepared to make as many sacrifices as Ontario, Quebec, England or any other part of the empire, but refuses to cut her own throat, just as they would if asked to do so.—Blairmore Times.

IT is pleasing to note that the difficulty between the converter men and the management of the Greenwood smelter last week, was settled in a few hours, by concessions on both sides. This has been the policy of the mine owners and union men in the Boundary since development commenced, and while strikes were common in other parts of the province, this district escaped. There have been difficulties and serious ones, but a few hours talk between sensible mine owners and sensible union officers never failed to settle them, if not wholly satisfactory to both parties, at least more satisfactory than a close-down for months.

A PART of the Eastern press has been severe in its criticism of Frank Oliver, the recently appointed minister of the interior. It is doubtful if a single editor in the East could understand a man like Frank Oliver. He is a Westerner first, last and all the time. He would be elected as a Tory just the same as a Grit; it would not make 100 votes difference if all the parsons in his constituency were either for or against him. The people have been voting for the man, Frank Oliver, irrespective of party or creed, and the man will be found at all times working for the West and in the interests of its people, if he has to "throw" both church and party. Frank Oliver is not a party heeler, but a man, and that is the reason the people support him.

THERE is going to be lively times in the Boundary and west of it during the coming summer. There is no doubt of a railroad from Midway west, possibly two, for it is believed that construction will shortly be commenced on the Midway and Vernon, as well as the Great Northern. The construction of these two roads will bring a large amount of money into the Boundary, the West Fork, and the country from Midway west to the Similkameen. Already considerable freight is being hauled by teams from the Great Northern depot at Phoenix to Greenwood and to the west. Hotels are doing a better business than they have for years. Everything points to, if not a boom, increased prosperity tin the Boundary.

IN mentioning the prospective railroad building through the north part of this county, says the Palmer Mountain Prospector, this paper has not set down the route to be followed by the railroad graders, simply because that is something known only to the engineer in charge, and has not as yet fully established the line to be followed. It is true surveys have been made and are being made, but until the line is cross-sectioned the true route will not be decided upon. Cross-sectioning has commenced between Midway and Oroville, but from Oroville westward preliminary surveying is still under way. There is no doubt now but that the road will be constructed this summer, and that is good enough news for the people of this upper country, no matter what route is followed.

THE G. N. EXTENSION.

That the Great Northern Railway company intend connecting their Oroville-Similkameen branch with the existing British Columbia system is now practically assured. A prominent capitalist who is in close touch with the railway officials informed a Times representative that the connection was to be made from Midway, and the present grading from Midway to Curlew would be the connecting link. The same gentleman said that the line would not stop at Hedley, but would be continued to Princeton. If further proof of the correctness of the foregoing is needed, it can be deduced from the fact that at both Princeton and Midway Great Northern contractors have rented disused hotels for boarding places for their employees.

Asked as to the probability of a Great Northern branch from Midway to Greenwood, the same authority was scarcely so explicit, but the reply, though vague, certainly led to the conclusion that such a line had been decided upon, but that the railway company, for good reasons of their own, preferred to give nothing out for publication.

B. B. Mighton, of Nelson, secretary of the Northwest Coal company, was in the city this week visiting L. B. Hodge. Mr. Mighton lately put through a deal for the disposal of the company's coal measures to an English syndicate for a large amount. Mr. Mighton was about the only one of his company who had faith in the property, and when the deal was made was a little more than "all up," besides daily being in danger of being mobbed by those associated with him in the promotion.

Frank Mosher, who has been in charge of the Mother Lode boarding house for the past two years, has resigned his position, to take effect the end of this month. He and partner will spend the summer prospecting, first going up Beaver creek, a tributary of the West Fork to its source. From Beaver creek they will prospect east and North along the country between that creek and the North Fork of the Kettle. They may also go over to the Similkameen during the summer and perhaps north.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by all druggists.

TAKE NOTICE that I, John Gray, Free Miner's Certificate No. B80551, intend, sixty days from the date hereof, to apply to to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 17th day of April, A. D. 1905.

NOTICE.

In the matter of the Estate of Gus Schilling, late of Greenwood in the County of Yale, Free Miner, deceased.

NOTICE is hereby given that all creditors and others having claims against the estate of the said Gus Schilling are required, on or before the 1st day of June, 1905, to send by post or deliver the same to me at the Court House, Greenwood, B. C., with full particulars, and the full securities, if any, held by them, and further take notice that after such mentioned date I will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which I shall then have notice.

All parties indebted to the said estate are required to pay the amount of said indebtedness to me forthwith.

Dated this 28th day of April 1905.

GEO. CUNNINGHAM,
Acting Cold Commissionor.

More Railroad News.

Spokesman Review: L. E Shields has returned from the Okanagan country with his party of railroad contractors who went with him over the proposed route of the Great Northern into the Similkameen country. Peter Siems, Mr. Shields' partner is sheduled to leave St. Paul for Spokane this week and it is said the contracts for grading the road will be let soon after he arrives.

The contractors who went north are: Patrick Welch, W. A. Winters, John Porter, Thomas F. Wren, E. N. Jones, Graham Smith and James Coughren. They left a week ago on the S. F. & N., and started across country from Republic, Wash. The trip was made along the surveys of the Great Northern in vehicles.

From Republic the party followed the survey made five years ago by way of Loomis, Wash., and up the Similkameen river to Princeton, B. C. The return trip was made along a new survey from Princeton through Oroville, Wash., to Midway, B. C. The company graded a road from Curlew, Wash., to Midway, B. C., last year, and, it is said, will lay the rails on it this year.

One of the returned contractors said: "That is a fine country we drove through, and I think it is certain a road will be built at once. The road to Princeton is about 140 or 145 miles long either way, but I think a little bit better grade can be had from Republic."

Bobby Robinson came down from Bull creek on the West Fork Tuesday. He says mining is beginning to pick up all along the river, a large number of prospectors being engaged in developing their claims. Gorman West is engaged in exterminating gophers by the gun route preparatory to putting in a crop on his ranch at Bull creek. Mr. Robinson believes that unless Gorman acquires the habit of opening at least one eye when shooting the chances for a crop on the Bull creek ranch this summer are exceedingly slim.

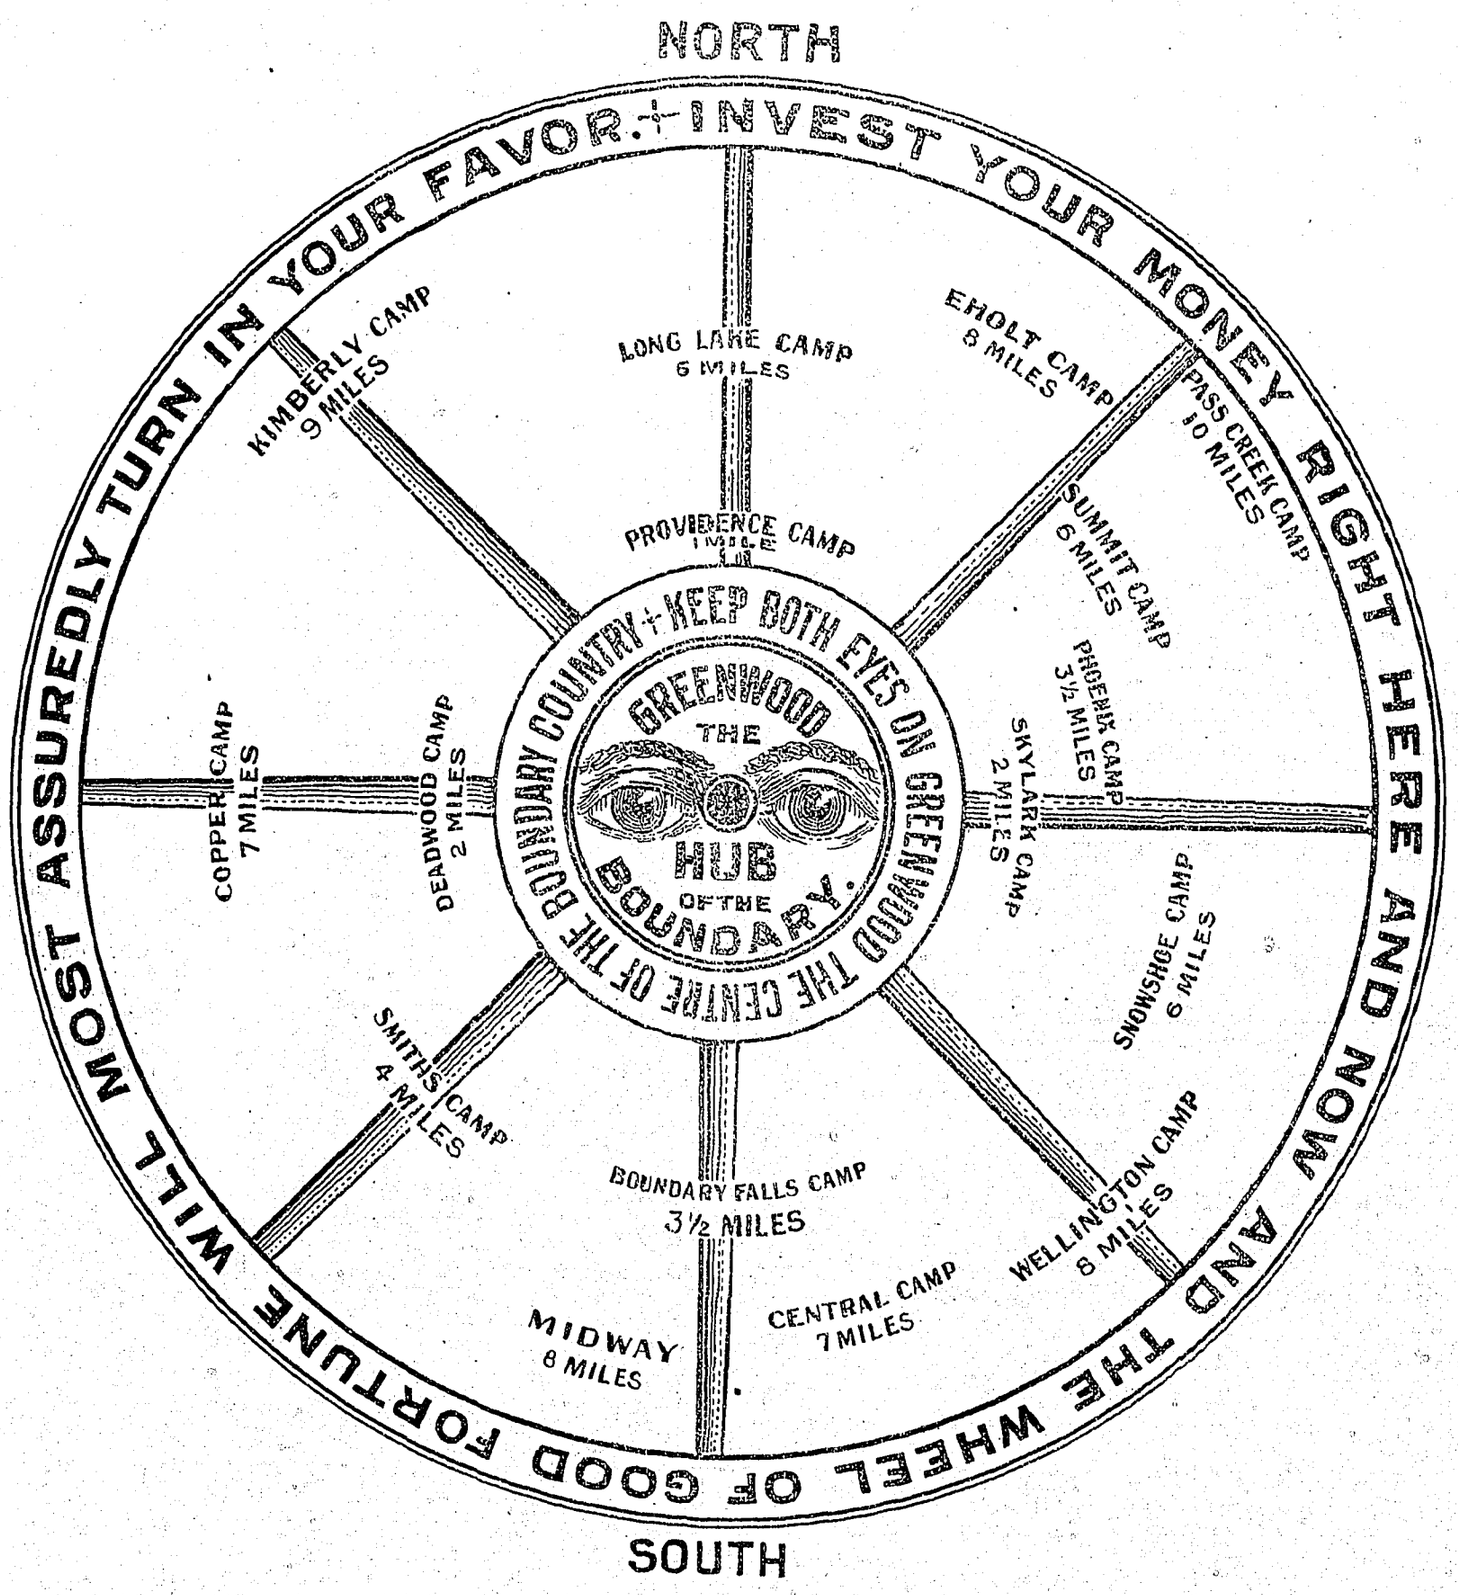
No Time Equal to the Present



Never in the history of the Boundary has the district had a brighter outlook than today. With the successful development of the immense large bodies of low grade ore and the enlarged and much improved facilities for treating at a very small cost, the continued opening up of new high grade properties and their successful and profitabl operation has made the Boundary famous as a mining centre, and every day adds more to the list of new finds and bigger values. It is readily admitted that Greenwood is the Eldorado of the Boundary with all roads leading thereto, and surrounded as it is, with such magnificent resources is destined in a few years to be a second Butte. If you therefore want to participate in its future prosperity, now is the time to invest both in mines and real estate. For **NINETY DAYS** we intend giving you a chance to make a safe and profitable investment. Every lot we own will be put on sale at rock bottom prices during the above period. Prices ranging from $50.00 up, at terms to suit the purchaser. Make your selection and make it early.

RALPH SMAILES,

AGENT FOR THE GREENWOOD TOWNSITE COMPANY.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent on sales.

A license is issued so soon as a berth is granted but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B. M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty one years at a rental of two cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the District, within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligable to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

Ottawa, February 4th, 1905

A Safe Cough Remedy for Children.

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by all druggists.

NOTICE OF FORFEITURE.

To John Nelson, J. A. Munson and H. Magnuson or to any person or persons to whom they may have transferred their interest in the Morning Glory and Rainstorm Mineral Claims situate on Cedar Creek, main Kettle River, in the Greenwood Mining Division of Yale District.

You are hereby notified that we have expended the sum of $400 for work on the above mentioned claims and $10 for recording the same for assessment work for two years, such being required and necessary to hold said claims for the years ending the 6th of June, 1903 and 1904, under the provisions of the Mineral Act and Amending Acts and if at the expiration of ninety days from the date of first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure together with all costs of advertising, your interest in said mineral claims shall become invested in us, your co owners, upon filing in the proper office in that behalf the affidavit required by section 4 of the "Mineral Act Amending Act, 1900."

Dated 3rd March, 1905.

CHARLES E. JOHNSON.

WORK ON THE GOLD BUG

Tunnel to Be Run 300 Feet Steam Drill in Use.

The work on the tunnel being run on the Gold Bug to crosscut the ledges is proceeding rapidly. The contractors are now in about ninety feet and making five feet a day. A steam drill is being used and the contract calls for 300 feet of tunneling, the company reserving the option to cease work at the end of every hundred feet. Mr. Fuller was seen on Wednesday and cheerfully volunteered the information contained herein. He said there were two ledges which were expected to be crosscut, the first at any distance between 100 and 150 feet, and the other at 300 feet. Should the first ledge prove of sufficient width to ensure the success of working it the tunnel will will be diverted and run along the ledge and the mine opened and developed for shipping. The depth obtained is foot for foot, roughly, so that if the tunnel is continued until the second ledge is struck the depth will be about 300 feet. Both of these ledges have been worked on top and proved immensely rich. On the first ledge there is a shaft down 112 feet, which ran into a dyke and was discontinued, and on the second a shaft was sunk 50 feet and was still in ore. While nothing definite can be said about the property, there is every evidence that the mine will prove a good one and the directors of the operating company are evidently determined to fully prove its worth.

Fire at Midway.

The Presbyterian church at Midway was totally destroyed by fire on Monday night last. The alarm was given at the hotel which was filled with Easter holiday guests, many of whom thought that it was the hotel which was on fire, the result being that there was a great rush to get out of the building. After the facts had been made known, one gentleman on returning to his room found same in possession of a very excited lady who was doing her utmost to get into his undershirt, and who was very indignant at his supposed visit to her room. The matter was subsequently explained and no great harm done.

Mining News of the Boundary.

Active work has been started on the Twin, which lies next to the Barbara on the north.

Spiendler & Gunderson will commence work on their Pass creek properties about the 1st May.

The Last Chance shipped two cars of ore to Boundary Falls this week and the E. P. U. one car to Trail.

At the Helen there are five men employed getting out ore. The property is looking very well and a shipment will be made next month.

Alex. Robinson returned to town on Tuesday evening last. He has been engaged doing contract assessment work on the Diamond Joe fraction in Phoenix camp.

The Twin claim, lying above the city hall, was bonded last week by Ralph Smailes and others from Robt. Wood & Co. Two men are at present working on the property.

The assessment work has just been completed on the Bounty, near the Barbara on Anaconda mountain. The lead is six inches wide of rich ore. One assessment had previously been done on the claim.

Word was received yesterday from the West Fork, stating that the tunnel from the 70 foot level of the Rambler is in 80 feet with good indications of being near the ledge, and word may be received any day that the ledge has been struck.

Parties from Butte, Montana, have written friends in Greenwood about the advisability of buying Elkhorn stock. The reply was sent that Elkhorn stock was all right. The Greenwood camp is making an enviable name for square mining deals in the United States and it is not a matter of difficulty to get capital for any legitimate mining enterprise.

On Monday several visitors from Rock creek, Beaverdell and West Fork points came to Greenwood to spend the day When told of the intention of The Times to publish a special edition devoted to the country in which they are so vitally interested, one and all expressed their delight and promised every support to the undertaking. They say the water is getting very high at Rock Creek and consequently the placer mining which has been going on has ceased for the time being.

R. Donegin has just completed the year's assessment on the Velvet, near C. P. R. station and adjoining the O B and Freddie D mineral claims. A considerable amount of work was done on this claim years ago by White Bros. and Ericson, and it was the intention to apply for a crown grant, but through neglect of one of the owners it was allowed to run out and was relocated by D. A. Holbrook. The ground afterwards became vacant and was staked by R. Donagin, the present owner. An incline shaft has been sunk to a depth of about fifty feet on a 6-inch lead, running from $100 to $200 in values.

After cutting through about twenty feet of wash and cement, the lead on the Spokane was struck last Wednesday. Its extent and values are not yet known. The property is owned by Spokane parties, and lies near the Elkhorn. About two weeks ago work was started on the property under the superintendence of John Mack.

In the drift from the 85 foot level on the Silver Cloud this week, a rich paystreak of antimonial silver was run into from 2 to 8 inches in width. The ore carries values of between $500 and $1,000 to the ton, from $20 to $30 of which is in gold. The property lies between the Bay and the Skylark, about a mile from town, and is under bond to Jas. McCreath of the Greenwood Liquor company.

W. E. Capron reports a strike of considerable importance on his Bonita Vista group of claims on Hardy mountain, two miles west of Grand Forks. The group consists of four claims, the Bonita Vista, Columbia, Salena and Arsene, the strike being made on the first-named. The find is said to consist of over four feet of mineralized quartz which assays high in gold, copper and silver. Representatives of Rossland and Spokane capital have already been inspecting the property with a view of acquiring the group.—Grand Forks Sun.

Disinfectant Tanks.

The Dominion government officers are building a huge disinfectant tank at Midway for the purpose of preventing the spread of cattle diseases from imported stock from the United States. All imported cattle are given a bath in a strong solution before being allowed to be placed with the home herds Other similar stations are being erected at Grand Forks, Gateway, Nelson, Vancouver and Victoria.

Methodist Concert.

The supper and concert in the Methodist church Monday evening was in every way a success. The ladies were tastily arrayed and the large number of guests were served by the young ladies of the Epworth League. After an excellent supper had been served, the pastor called the audience to order, and announced that as the programme was arranged by the Epworth League the meeting would be presided over by G H. Clark, the president of that society. Mr. Clark then took the chair and, after a few appropriate remarks, called for the various numbers on the programme. The choir of the church rendered two excellent numbers during the evening, which were well received. The soloists, Mrs. Oliver, Miss Dixon, Miss Green and Mr. Wheeler, were at their best, and the audience showed their appreciation by encoring every number. A great attraction of the evening was the music rendered by Mr. and Mrs. Ingbaum on the violin and organ. They were heard with great pleasure in an instrumental duet and were heartily encored. They also played accompaniments for some of the solos. The other accompanists were Mrs. McCutcheon and Miss Dynes. The receipts of the evening were $70 above all expenses.

Word has been received from Montthat a plant is on the way from that city with the object of commencing the publication of a paper at Midway. C. M. Crouse, formerly publisher of the Despatch at that place, it is said. will furnish the brains and the cash for the venture. With railway construction and a smelter, and the increased business resulting therefrom, there should be a fair patronage for a newspaper in that town. The Midway Advance was the first newspaper published in the Boundary, having been moved from Fairview in 1894 by Stuart & Norris, and had the whole field until the spring of 1896, when the McCarters moved into Grand Forks with an army press and a half bushel of type and commenced the publication of the Miner. In that year Greenwood commenced to make its mark on the map of the Boundary and requiring a paper, Harber & Lamb commenced the publication of The Boundary Creek Times, September 12, 1896. In the fall of 1899 the Phoenix Pioneer appeared with its present publisher, W. B. Wilcox, in charge Two others appeared, The Greenwood Miner, Jan. 1899 to July 1901, and the Phoenix News Nov. 1899, quit in three months. Eber C Smith started a daily at Grand Forks in the fall of 1899. He quit at the request of organized labor.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

The great success of this preparation in the relief and cure of bowel complaints has brought it into almost universal use. It never fails, and when reduced with water and sweetened is pleasant to take. It is equally valuable for children and adults. For sale by all druggists.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by All Druggists.

The Very Best Remedy for Bowel Troubles—No Family Can Afford To Be Without It.

"I regard Chamberlain's Cholic, Cholera and Diahrrhœa Remedy as one of the very best remedies for bowel troubles," says Mr. J. W. Hanlon, editor of the Despatch, Ocilla, Georgia. "I make this statement after having used the medicine in my family for several years. I am never without it." No family can afford to be without a bottle of this remedy in the house. It is certain to be needed sooner or ater. For sale by All Druggists.

TOWN TOPICS

Map of the Similkameen at Smith & McRae's.

C. L. Thomet of Midway was in the city this week.

Remember the band concert Monday evening.

Wanted—Furniture and cook stoves. H. J. Clint, Copper street.

First-class Side Saddle for sale at a bargain. D. C. McRae.

You can save money by buying your WALL PAPER at Smith & McRae's.

Ed. A. Hain, general merchant of Midway, was in the city last week.

Neil McPhaden of Hedley City was a visitor to Greenwood the past week.

L Portman of the Elkhorn brewery was in Nelson the past week on business.

Wanted—To borrow $400 on good security, for one or two years. Apply at this office.

Ralph Smailes left last week on a business trip to Vancouver and other coast points.

A beautiful roll of stairway carpet, 35 cents a yard, at the O I C, A. L. White & Co.

For Sale—First-class piano, less than half price. For particulars apply to Wm. Fleming.

Only one piece left—all wool carpet, very pretty pattern, at $1.00 per yard. O I C, A. L. White & Co.

Special Easter services were held in all the city churches Sunday, to exceptionally large congregations.

Robt Wood left this week for Nelson and the coast on business connected with the Midway and Vernon railway.

Monday being a bank holiday, the bowling alley was closed. This was a disappointment to many enthusiasts.

Contractor Bunting this week received a carload of No. 1 cedar shingles, sash, doors and mouldings, from the coast.

There will be a band concert in the Auditorium Monday evening. The best ever. Admission 75 cents, cash; per pair, $1.50..

Katna, Acme and Victor Art Squares. Sizes from 7½ by 9 to 12 by 12 feet, and the prices range from $4 up. O I C, A. L. White & Co.

I. H. Hallet, barrister, has moved his law offices from the Rendell block to his own building on Copper street, next the Mellor block.

Mrs. J. P. McLeod left last week for a short visit to the coast. Mr. McLeod occompanied her as far as Revelstoke, returning Monday.

Fred Hilbert, one of the first barbers in Greenwood, returned from Edmonton last week and has opened a shop at Boundary Falls.

H. B. Madden of the Pacific hotel made a flying trip to Oroville, Wash., the past week, where he purchased a couple of lots on speculation.

W. M. Law, left last week for the coast, intending to visit Vancouver, Victoria, Seattle and Portland He will be gone three weeks or a month.

G. E. Richardson of the Citizens' band leaves next week for a visit to his old home in Strathroy, Ontario. He will remain in the east until September next.

H. Bunting of this city has received the contract for building the Dominion government disinfectant tank at Midway and will put a force of men to work in a few days.

George Findlay returned last week from a trip to Carmi on the West Fork, where he is interested in some promising mineral claims, for which there is a deal now on.

W. G. Gaunce received a telegram Tuesday evening informing him of the serious illness of his daughter in the Seattle hospital. He left Wednesday morning by G. N. train.

Duncan Murray leaves next week for Westminster to attend the meeting of the Grand Lodge, K. of P., as representative from Greenwood lodge. The grand lodge meets on the 9th.

On Monday last, at the government office here, Horace H. Kennedy and Florence Selena Ashley procured a license to go before a parson and enter into a non-devorceable partnership.

E. G. Richardson, representingt the Kelly-Douglas Co. of Vancouver, and a P. G. of Kennedy lodge, Toronto, visited the local lodge of Odd Fellows Tuesday evening and assisted in conferring the Second degree on two candidates.

A. W. English, formerly of the Canadian Bank of Commerce and lately accountant at the Mother Lode mine, has accepted the position of bookkeeper for the Hunter-Kendrick Co. here, and will move his family to Greenwood.

Sydney M. Johnson, city engineer, returned from St. Louis Tuesday. He was not successful in getting the pipe required by the city in the extension of its waterworks system, the pipe for sale not being at all suitable for the requirements of the city

Jas. McCreath of the Greenwood Liquor Co. returned this week from a trip to the Similkameen. He reports considerable activity all along the line and especially at Hedley City, owing to the possibility of railway construction being started at an early date.

Boundary Valley lodge, No. 38, I. O. O. F., will attend divine service in the English church next Sunday at 7 p. m., leaving the hall at 6:45, in full regalia. All members of the order are cordially invited to meet in lodge and attend the anniversary services.

T. L. Simmons, C. E., engineer of railway commission, is visiting his brother, Dr. Simmons of this city. Mr. Simmons will spend four or five weeks in the West, most of which time will be devoted to the inspection of the Canada Northern, when he will return to his home in Ottawa.

P. Crowley, an old acquaintance of Captain Curry of the police force, left town Monday afternoon. He was accompanied as far as the Twin creek reservoir by the captain. Mr. Crowley will not return to Greenwood, believing that the opportunities are much greater south of the line for a person of his energy and ability.

The Citizens' band will give a musical entertainment in the Auditorium Monday evening. An excellent vocal and instrumental program will be rendered. Every person in the city who can afford to spend six bits should be there and help to repay the the boys for their numerous free open air concerts.

The difficulty between the converter men at the Greenwood smelter and the management was settled by mutual concessions, after a short conference between the officers of the Miners' union and representatives of the company. The difficulty affected only about a dozen employes before a settlement was arrived at.

The Steel and Freeland Concert company will give an entertainment in the Auditorium May 5. The press where the company has shown speak very eighly of the entertainment, especially the moving picture part. The scenes from a big fire, the railroad robbery and the French count are alone worth the price of admission.

Work will probably be resumed on the waterworks dam after the council has decided what course to pursue at the meeting Monday night. It is believed that, owing to the difficulty in getting to bedrock, the contemplated dam will be found too expensive, and it will be necessary to construct a tank higher up the creek. The reservoir will probably be of masonry.

Jack Farrell returned last week from a visit during the winter to Milwaukee, Wis., the home of Mr. Papst, the widely-known thirst reliever. Jack was one of the first to locate in Wellington camp, and made a piece of money out of some of his claims three years ago. He says the climate in Milwaukee last winter was the worst he ever experienced. In future Wellington camp and a comfortable cabin near a spring of clear water will be good enough for him.

I. Robert Jacobs returned this week from a tour of the Okanagan country, going down the Columbia river to near Wenatchee. Mr. Jacobs was on a sight-seeing a pleasure trip, and incidentally sizing up the railroad situation with a view to business location. He found the country fairly well covered with sagebrush and inhabited principally by gophers, with an occasional settler whom fate had stranded and necessity compelled to till the almost barren soil for an existence. Mr. Jacobs believes that the greater part of the country over which he traveled would, with water, become good ranching and fruit land, but, he added, with a sigh, there is another place of which we frequently heard in our youth, that would be equally benefitted by a supply of pure spring water.
