—ANNOUNCE THEIR—

Fall Millinery Opening

—FOR—

Tuesday & Wednesday, September 22nd & 23rd

We particularly request that you visit our showrooms during our opening days, and see one of the largest and best selections of Ready-to-wear and Pattern Hats. The very latest shapes and styles in all the newest shades on display.

RENDELL & CO

Dry Goods. Millinery

Will it Wear?
Will it Shrink?

The above are the questions asked every day regarding Stanfield's Underwear.

Stanfield's underwear will not shrink! If you can shrink it! We will present you with new garments.

Our suit of Stanfield's underwear will out wear any two suits of underwear manufactured. If you do not believe this. Ask the man who has tried, and proved this statement. Stanfield's underwear can be purchased from us only. Don't accept the "Just as good"

Stanfield's Lines are as reasonable as ordinary underwear.

Heavy grey, all-wool elastic knit, $1.25 per garment
Heavy grey, all-wool elastic kuit 1.50 "
Heavy black, all-wool elastic knit 1.50 "
Extra heavy brown, all-wool elastic knit 2.00 "
Fine ribbed grey, all-wool 1.75 "
Fine ribbed grey, heavy all-wool 2.00 "
Fine ribbed grey, extra heavy all-wool 2.75 "
Fine ribbed flesh, ½ silk & ½ wool 2.00 "

CITY FATHERS

Will Extend Water Main on Gold Street.

At the regular meeting of the City Council on Monday evening, Mayor Bunting in the chair, all the members were present except Ald. Mortimer.

A communication from Crane Co. re curb boxes was received and filed.

A letter from F. W. McLaine in regard to the purchase of lots in blocks 47, 48, 49, 54 and 55 for recreation grounds; and contract for telephone for Chief Dinsmore's house was referred to a special committee of Ald. Gulley, Mortimer and Wilson to get cost of recreation grounds and report to a later meeting.

The committees on streets, fire and light, cemetery, and pound reported progress.

On motion of Ald. Gulley and Fleming tenders are called for digging and filling trench, and the clerk instructed to write for prices on pipe and fittings for the proposed extension of the waterworks on Gold Street south of Greenwood street.

Ald. Fleming will inspect all pipes on hand and report to next meeting.

The finance committee reported the following accounts correct:

E. W. Bishop	$112.47
Greenwood City Waterworks Co	$128 80 & $8.25
Steam Laundry	2.55
Bubar & McKay	65.28
F. C. Buckless	3.00
Russell-Raw-Laulfield Co	60.54
A. A. Frechette	1.00
N. Dewar	2.25
B.C. Telephone Co	18.00

Fleming-Wilson, that By-law 132 be reconsidered, adopted and finally passed.

Gulley-Wilson, that council go into committee of the whole to consider By-law 133. Committee rose and reported By-law 133 correct as amended.

Gulley-Fleming, that By-law 133 be read a third time.

Meyer-Wilson, that the rules be suspended and Ald. Gulley be given leave to introduce temporary loan, By-law 134. All of which was carried.

By-law 134 was read a first and second time reported complete by the committee and read a third time.

The Mayor was authorized to sign and seal, and get the necessary signatures to the contract for the Providence Creek reservoir

BOWSER BACKS OUT

The Oriental Agent Will Not Come to Yale-Cariboo

The Victoria Times says of Attorney-General Bowser, the man who said he would follow Duncan Ross, M.P., and oppose him in every camp and settlement in Yale-Cariboo.

"None will be surprised to hear that Mr. Bowser is already funking and fearing to face the Gotoh Japanese charges, that, he is about to take unto himself the wings of the morning and fly to the uttermost parts of the Dominion to avoid meeting Mr. Duncan Ross on the platform and dispute the validity of his own signature. If ever a public man's reputation trembled in the balance it is Mr. Bowser's. If ever a public man owed a duty to his constituency or the province at large by at least trying to refute the damaging accusation of having allowed a bill to be so altered as to make lawful what the province demanded should be made unlawful, and of having drawn a contract with a Japanese labor man for the importation of coolies, while on the platform he denounced their importation, that man is William Bowser. And yet he runs away on the pretence that Mr. Borden wants his help."

MINING INSTITUTE

Inspect the Great Mines and Smelters of the Boundary

Speak Words of Assurance for Greenwood.

The party of members of the Canadian Mining Institute and guests which left Quebec on the 24th of August to visit the leading mining camps of Canada arrived in Greenwood yesterday by special train and left this morning for Phoenix.

The personnel of this distinguished party is composed of about forty of the most prominent and expert mining engineers from the East, Great Britain, and Europe, and has been augmented all the way from Cobalt and the Crow and Kootenay, by mine managers and engineers who are members of the Institute.

Besides the Canadian members and W. R. Brock, Director of the Dominion Geological Survey, there are 21 British and four German engineers and the list includes such names as W. G. Miller, Pres. of the Institute; Dr Potonie, of the Prussian Geological Survey, W. Frecheville, of London, Eng., Walter Johnson, Northallerton, Eng., Hugh F. Marriott, London, James Barrowman, Hamilton, Scotland, Sec. of the Mining Institute of Scotland, A. Goebel, Counsellor of Mines, Germany, Roger Beck, Swansea, Wales, John Ashworth, Pres. Geological Society, Manchester, Eng., John Gerrard, Chief Inspector of Mines, Manchester, Eng., and Dr. Heinrich Ries, Prof. Economic Geology, Cornell University.

Space forbids the enunciation of the degrees and qualifications of these world-known geologists and metallurgists, but we feel that it is pertinent to say a word in regard to the impression they give as a whole.

We were never more greatly impressed with the personnel of any body of men than with the members of the Canadian Mining Institute and their distinguished guests. For stalwart forms and intellectual brows, for frank and amiable ways and manners we commend you to those mining engineers.

Greenwood is proud to have entertained her guests in so fitting a manner, and to hear with so certain a sound the assurances from these men who know that the Boundary can produce the goods and that Greenwood will yet become the greatest mining centre of the whole Dominion.

Their confirmation of the gigantic proportions of the Mother Lode mine, and the encomiums to the management were pleasant to hear, but of greatest moment were the assurances of such able men as John Ashworth, of England, that capital would surely come to develop the incomparable resources of the Boundary, as yet but scarcely prospected even with the great mines already in operation.

It was admitted by the visiting engineers that of the $2,515,000 outstanding of the B.C. Copper Co's shares, that they saw, in surface plant alone, more than enough to represent the cost.

It is especially fortunate that such men as W. R. Brock and Dr. Miller were with the party. They are familiar with the locality and its vast deposits of metals, and with what has been done to dedevelop and put these mines in producing shape, and are capable of showing how the Boundary mines are in a position of preparation, of two years in advance, to demonstrate that they will easily equal the very greatest producing properties that are known. Conjecture and prophecy no longer have a place in Boundary mining affairs, and the eulogies of the distinguished men to the sagacity of the venerable founder of our city, Robert Wood, and of the long and able work of Frederic Keffer, the men who first recognized the boundless possibilities of the Boundary, leave no room for the slightest doubt that Greenwood camp is about to enter upon an era of prosperity such as it has never seen before,

FROM VICTORIA AND THE OKANAGAN

Boundary Fruit and Farm Lands are in Favor With Men Who Know.

The Kettle Valley Irrigated Fruit Lands Co., of Midway, have during the past week disposed of two plots of ten acres each to John Blackadder, of Victoria, and Thos. Scuddamore of Ontario, but more recently of Vernon.

With a fifty-acre deal pending with another Okanagan man this company has already disposed of about 300 acres this year at prices varying from $100 to $175 per acre, the choicest selling for $200.

The have about 2,700 acres that will be irrigated extending six miles to twelve miles above Midway on the Kettle river and have a five-mile ditch from Rock Creek in operation.

This puts about 1,000 acres under irrigation and by next year they will have all their ditches and flumes constructed. A force of men will be employed all winter in clearing land, and 100 acres have already been planted out in fruit on the company's property.

The elevation of the Kettle Valley is about 1,900 feet above sea-level, and to show the capabilities of this locality as a fruit-growing section an exhibit made up from the local ranches will be made at the Nelson Fair, comprising apples, pears, plums, prunes, apricots and vegetables.

The soil for the most part is a sandy loam, and on the benches will grow fine fruit without irrigation, though on the driest parts it is woderful what a little water will do. In the fruit-growing season the average rainfall is about 15 inches.

One notable feature of the Boundary district is the almost entire absence of winds. In winter the heavyiest snow-fall is 18 or 20 inches and the snow lies like a blanket. The winter is steady from Dec. 1st to the end of February and the weather is beautiful and clear. In summer it is never too hot and the evenings are always cool.

Among the products of this locality this year will be about 500 tons of potatoes of a very superior quality and equal in every respect to any spuds that are grown

From the number of enquiries received by Mr. D. R. Tait, Manager of the Kettle Valley Irrigated Lands Co., it is expected that the Boundary country will soon receive a large influx of settlers from the prairies, and with the building of the Midway and Vernon line, which it is said is soon to go ahead, the Kettle Valley country will, at an early day become one of the most prominent fruit and vegetable producing sections of B.C.

MOTHER LODE MINE.

Tuesday evening at the Mother Lode boarding hall occurred the benefit dancing party for R. Fothergill given by the ladies of Mother Lode mine. McHenry's Orchestra furnished the music, the entertainment was a success in every respect. About 200 people were in attendance and $230 was cleared. Coffee, cake, and ice cream were served by the ladies. The party was a very enjoyable social event, and the ladies feel very grateful to all the friends who so kindly contributed to its success. Mr. Fothergill expects to leave soon for his home in England.

Born—Tuesday, September 15, to Mr. and Mrs. W. T. Ennis, a girl.

Miss Mabel Hidderman, of Phoenix, is spending a few days with Mr. and Mrs. Thomas Lyons

Born—Friday, Sept. 11, to Mr. and Mrs. Charles McLaine, a son, Robert Bruce.

BIG DEAL CLOSED

For Boundary Mines Yesterday

Option Taken on Group in Wellington Camp

In Greenwood yesterday the biggest deal that has taken place in the Boundary for some time was signed between the B.C. Copper Co. and the owners of a group of claims in Wellington camp, six miles from Greenwood.

The properties under option are the Molly Pritchard and Athelstan fraction owned by Forbes M. Kerby, of Grand Forks, and John Buckley, of Phoenix; the Jack Pot, owned by Jas. M. Doyle, of the G.N.R., Al. Sanderson and L. Moriarity, of Grand Forks, and the Buttercup and Bay Horse owned by J. J. Farrell Phoenix. These claims all adjoin each other.

The ore is an arsenical iron carrying copper, with values chiefly in gold.

It is not a flux, though not a detriment. It will be a straight metalliferous mining proposition and will be worked primarily for the values it contains in gold.

This deal was almost completed last fall but owing to the money stringency the negotiations were temporarily suspended.

Investigations of the properties were recently resumed by Manager McAllister and Mr. Frederick Keffer, consulting engineer for the B.C. Copper Co., and it is especially gratifying to see such a powerful and successful company, which stands in the front rank of the Boundary producers, taking hold of other properties in the district.

In all the holdings this great Company has acquired their works of development have been successful, and it is next to a certainty that their new properties will prove to be mines.

The ore will be carried by tram line and the Great Northern to Denoro and from that point over the C.P.R. to the Company's smelter at Greenwood. Active work will begin on Monday, and great satisfaction is expressed in Greenwood at the brightening outlook of mining affairs.

The present action of the management of the B.C. Copper Co. is a demonstration of the faith which their profound knowledge of the mineral deposits of the Boundary has given them, and will give an impetus to the mining industry that could be produced in no better way.

Others will act on the initiative of such competent authority, and in fact there are other negotiations already under way.

The addresses of mining men from Spokane, New York and Chicago are a matter of daily occurrence on the registers of city hotels, and just another deal or two, and the commencement of the big tunnel from Greenwood to the bottom of the Phoenix mines, and the whole Boundary country will flourish as the banner mining camp of British North America.

ON THE WEST FORK

A new strike of 4 inches of high grade grey copper and ruby silver was made last week in the Sally mine.

Messrs. Keith and Ketchum report business improving in their general store business.

In the location of the new railway line the surveyors have succeeded in reducing the elevation 100 feet.

J. D. Sword and partners are busy with improvements and development work on the Bell claim

Billy Morton has found a nice body of ore on his claim at Carmi and went out to Midway on Monday.

Henderson and Cummings are working their claim on Wallace Mountain.

W. E. McBoyle, well-known on the West Fork, is at Goldfields, Nevada.

Favette Harris, one of the owners of the Highland Chief, is at the Nickle Plate mine at Hedley.

Tom Currie, veteran prospector and miner is now chef at the Sally mine and no complaints have as yet been registered.

Geo. Barrett will commence development work on his group of claims known as the Revenge.

Father Ferroux had the misfortune to lose his beautiful grey horse last week.

Alex. Bloomfield, proprietor of the Westbridge hotel has gone on a trip to the prairies.

John Burns for two years on the staff of the Sally mine leaves next week on a visit to the old country.

BOUNDARY ORE TONNAGE

September 8, '08

The following table gives the ore shipments of Boundary mines for 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908 as reported to the Greenwood Times—

ONCE MORE IN THE BREACH

Sir Wilfrid Laurier, the grand old man of whose life so many years have been spent in the service of the Dominion has once again appealed to the people for a continuation of control that he may be permitted to finish the great works of development which his government have under way.

Under his administration our country has advanced from the dark days of doubt, dissension and political intrigue, to a position that commands the attention and respect of all the nations of the earth, and our distinguished Premier has been honoured and acclaimed amongst the foremost statesmen of the empire.

His voice carries no sound of the man who seeks for power for power's sake alone.

He is conscious of the changes which have been wrought in the sentiments of the people, and he recognizes the fact that under his beneficent rule the country has enjoyed a period of wonderful progress and prosperity.

The squalls of political treachery and distrust have been stilled, the storms of racial strife have died away, and the ship of state rides cheerily on the growing commercial wave with the master at the helm.

May the people grant the prayer of our venerable Premier that he be allowed to finish the work laid out for him to perform.

STRONGER THAN TARIFF LEGISLATION

The new British Patent Law which now goes into full effect in Great Britain will work an industrial revolution in the manufacturing world of the British Isles.

The purport of the law is that hereafter patents granted there must be utilized there.

This means that those who hold patent rights in the mother-land must establish plants and manufacture their goods there "to an adequate extent,"

The British Government awakened to the fact that the owners of foreign patents held in Great Britain, while manufacturing their goods in other countries and selling to the British consumer to the displacement of the products of the British workman, were allowed by the former law to choose their own locations for their industrial establishments.

Already large preparations have been made to meet the new requirement.

It is estimated that $100,000,000 will immediately be spent in the building of new manufacturing plants in the United Kingdom.

Many American concerns will lessen their output and produce in England the merchandise sold in that country.

It has been said that the Manchester canal will be lined with American factories.

The Germans too will be greatly affected and have taken a most serious attitude on the question.

An alliance has been suggested which would segregate the British in the field of commerce, and bitter comments are made against what is considered the most important trade move that the British government has made for a long time.

The import of finished goods will be checked, while the use of raw materials will be increased, and this will undoubtedly furnish employment for the many workmen who are idle at the present time.

What international complications may result from the enforcement of the new patent law remain of course to be seen.

BOWSER.

Attorney-General Bowser of the Conservative Provincial Government announced at Vancouver that, at the request of Premier McBride, he would leave for the east this week to stump for the Tory party in the Federal campaign.

What else could the former Gotoh counsel do?

The people of B. C. are quite familiar with the granting by the McBride-Bowser government to Japanese companies of concessions of mineral and timber lands of enormous value.

On the Queen Charlotte Islands the Japs are in on the ground floor and have franchises to own and operate their mines and mills, to construct, own, and operate steamboats and railroads and almost any thing else that the Japanese people might desire to furnish employment to their fellow-countrymen and enrich themselves at the expense of the natural resources of British Columbia.

The people of British Columbia know the story of the Gotoh contract to supply 50,000 Japanese laborers to the C.P.R. and the Wellington Collieries; and the part played by Attorney-General Bowser as solicitor for Sauri Gotoh, of Japan.

Perhaps while fulminating before the people of the eastern provinces the exiled Bowser may be able to convince the Conservative premiers of Ontario and Manitoba that Richard McBride was not quite the most unsuitable man who might have gone to disparage the interests of our province before the conference of Premiers who dealt with the question of better terms.

"We have time enough to work up the election in good shape, and we have the best of them in the matter of the voter's lists for we have to go to the country on the revision of May last."

So said the Tory candidate at Victoria. What a barefaced claim that the Provincial Government have deliberately made the voter's lists to suit themselves.

We shall contend at all times for provincial rights, but when unfair and dishonest advantage is taken of the magnanimous policy of the Federal Government, we believe such power should be taken away from those who disabuse their authority.

There was a conference the other day in the office of Premier McBride.

Mr. Shepherd, the conservative nominee for Nanaimo, and comrade Hawthornthwaite were there to do the conferring.

This Tory-Socialist aggregation knows that the only hope to defeat Ralph Smith, M.P., lies in the joining of their forces as they did in other days.

The aspiring comrade has a solid bunch of retainers that he might be able to deliver to aid the truly faithful followers of whatever claims to be Conservative.

And if he should, reciprocation might be given when the Comrade runs again.

But it matters little to the stalwart member for Nanaimo what deal these comrades make. The people will return him with his last plurality of 400 votes, and break the back of the disgraceful alliance which still struggles to defeat the will of the people of Namaimo riding.

Hon. Geo. E. Foster, who is campaigning on P.E.I., has declared himself heartily in favor of a tunnel from "The Island" to the mainland.

Of course this can have no connection with what is known as pre-election promises.

It is expected that McKenzie King, Deputy Minister of Labor, will run as a candidate for the Federal house in East Hamilton supported by the Independent labor party and the Liberals; and that in recognition of the splendid work he has done for the workingmen he will be taken into the Cabinet as the Minister of Labor.

At Victoria Martin Burrill indulged himself in the joke that the Minister of Inland Revenue, Mr. Templeman, would be defeated by the Conservative sacrifice-nominee in that city, and in return was rewarded by his sometime employer, Premier McBride, with the felicitous information that he thought there was hope for Mr. Burrill in Yale-Cariboo.

These little inter-changes may carry some little consolation even though they are not intended to be regarded as prophetic.

G. H. Cowan, the representative of the Tupper faction of the Conservative party has secured the nomination in Vancouver.

Black Watch Remarkable for richness and pleasing flavor. The big black plug chewing tobacco.
2267

IDEAL FRUIT COUNTRY

There are few people in British Columbia who do not look forward to a time when they may grow fruit. It may be only for their own use or may be a commercial venture, but conditions are such in this province to give nearly everyone an itching to try his hand. It is safe to say that everyone with a piece of property, small or large, is anxious to fall in line. Nature has endowed this province so lavishly that the attraction is irresistible, while from a pecuniary standpoint the opportunity is not to be overlooked. Thousands are already engaged in fruit growing; many devote all their time to it, while there are few landowners who cannot take you around their property and show you how fruit raising is not only attractive but a paying venture. Then there are thousands, too, who are only waiting for their chance to swell these numbers.

British Columbia is indeed fortunate in being so richly endowed. A country capable of producing fruit such as this province, can boast of no more attractive feature. No better fruit is grown in the world than is grown in British Columbia. Highest honors have been taken whenever the fruit of this province has been shown, and until such time as a place can be found which will produce superior fruit, British Columbia will continue to head the list.

No wonder everyone has a hankering to go into fruit growing. It may be that only one small tree is the extent of the experiment, but it is usually watched as if it were a whole orchard. Many settlers have been brought to British Columbia just because of its wonderful opportunities in fruit growing, and those who make it only a secondary consideration lose no time in taking advantage of the possibilities so abundant here.—Saturday Sunset.

Everybody Agrees
that COD LIVER OIL and IRON are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of FERROL, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While
FERROL
is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed FERROL and used it largely in their practice. FERROL is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and
"You Know What You Take"

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remodial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

Copper
HANDBOOK.
(New Edition issued March, 1908.)
Size: Octavo. Pages: 1228.
Chapters: 25.
Scope: The Copper Industry of the World.
Covering; Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, imports, Exports, Finances, Dividends, etc.
The Copper Handbook is concededly the
WORLD'S STANDARD REFERENCE BOOK ON COPPER
The Miner needs the book for the facts it gives him regarding Geology, Mining, Copper Deposit Copper Mines.
The Metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting, and refining.
The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.
The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.
Price: $5.00 in Buckram with gilt top, or $7.50 in full library morocco.
Terms: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

MAGISTRATE SPEAKS FOR ZAM-BUK

Magistrate Ferry, of Goldfields, B.C., believes in making a good thing known. Writing of Zam-Buk, the great household balm, he says:—"After a very fair trial I have proved Zam-Buk eminently satisfactory. In my case it cured a skin rash of five years' standing which no doctor had been able to do any good for. I would certainly encourage any person to keep Zam-Buk in his home." The magistrate is quite right. Every home needs Zam-Buk! Unequalled for cuts, burns, bruises, eczema, blood poisoning and all skin diseases. All stores and druggists sell it at 50 cents a box. Sure cure for piles.

DON'T NEGLECT THAT SORE!

A Chicago man has just died from blood poisoning arising from neglect of a small sore. Don't neglect a cut, a patch of eczema, or an open sore of any kind. The air is full of poison germs, waiting to start up their evil results in neglected sores, wounds, etc. In Zam-Buk is safety. Zam-Buk is so highly antiseptic that applied to any skin disease or injury it makes blood poisoning impossible. In using Zam-Buk you have three processes going on at once for Zam-Buk is healing soothing and antiseptic. Try it without delay.

A GENUINE OFFER.

TEST ZAM-BUK AT OUR EXPENSE!

We appreciate the position taken by the man or woman who says:—"If your preparation is what you claim, you should have no objection to letting us try it before spending our money on it." To every person taking this view we say, send one cent stamp (to pay return postage) and name and date of this paper to Zam-Buk Co., Toronto, and we will mail you a free trial box of Zam-Buk. Zam-Buk is purely herbal, suitable for the delicate skin of little children, yet powerful enough to heal chronic sores of long years' standing. All druggists and stores, 50c. per box, 3 for $1.25.

Every Home Needs Zam-Buk

"RUB IT IN"

PROVINCIAL ITEMS

The first Revelstoke Fall Fair was unqualified success.

The Nelson Assizes will open the first week in October.

The new Montebello hotel at Salmon Arm has been opened for business.

The Windsor hotel at Grand Forks has been remodeled and rechristened the Yale.

Bishop Dontenwill, of New Westminster, will succeed Dr. Orth as Archbishop of Victoria.

Smith Curtis has written a letter to the Nelson News asking for a fair report of his speeches.

F. C. Wade, K.C., has called for the resignation of Police-Magistrate Williams, of Vancouver, for sentencing a milk-boy to six months in the county gaol because he misapropriated $1.85 of his employer's money.

The annual convention of the Alberta and B.C. Press Association will be held in Nelson on Sept. 24 and 25.

Mr. C. B. Foster, district passenger agent of the C.P.R. at Toronto, will succeed Mr. E. J. Coyle as assistant general passenger agent in Vancouver.

The Victoria Horse Show will be held in conjunction with the Provincial Exhibition on Sept. 22nd to 26th inclusive.

Fire destroyed the Trout Lake and Big Bend Telegraph Co's, office in Revelstoke. Miss Brenton, operator, was almost suffocated, and is a patient in the hospital.

Lieutenant-Governor Bulyea is visiting in the Okanagan.

F. A. Schubert, a pioneer of the Okanagan is dead at the age of 82 years.

The G.T.P. railway has purchased 400 feet of water front at Victoria for $150.000.

A million and a quarter dollars was the value of a cargo of silk, which the C.P.R. liner Empress of China landed in Vancouver the other day.

Charles Dynes, grocer, of Sapperton, B.C., was killed by falling under a street car. He leaves a wife and five children, the youngest a baby of two weeks.

R. M. Palmer, Commissioner of Horticulture has been appointed Deputy Minister of Agriculture to succeed J. R. Anderson, who has resigned on account of ill-health.

At Prince Rupert an epidemic has made its appearance. Many people have been attacked with what seems to be a mild form of typhoid fever, and several cots in the hospital have been filled as a result.

If you mant your friends in the east or in the States to know the kind of a country you live in, send them The Times. It is better than a letter and it will go every week.

Grand Forks intends sending six carloads of apples to Australia this autumn. From the acreage that is fast being put under fruit cultivation over there Grand Forks will soon be shipping train loads instead of car-loads to the Antipodes and elsewhere.

Rear-Admiral Kingsmill of the Canadian marine and fisheries fleet is inspecttng the harbor and works at Esquimalt with the view of the Canadinn government taking them over from the Imperial authorities to be used as headquarters of the Dominion fisheries fleet on the Pacific Coast.

The labor vote of the Kootenays naturally feel like supporting a party that has by its policies brought about the development of the country and furnished employment to thousands of laborers at good wages. That is why the laborers of the west and especially of the Kootenays, will support the Liberal government at the coming election. The pocket is a strong arguiment.—Cranbrook Herald.

Determining the Age of Cattle

Disputes frequently arise at fairs as to the elegibility of a certain animal to compete in a certain class. It may be alleged that the animal is over the age limit for that class, and while the exhibitor may produce a pedigree for it, in case the class is a pure bred one, it doesn't always happen that the pedigree is taken as conclusive proof of age. To overcome these difficulties and to provide something for judges to use in the ring as a basis for determining the ages of cattle, the management of the International Exposition have adopted the following mouth specifications, which apply to cattle between the ages of twelve and thirty-nine months.

Twelve months—An animal of this age shall have all its milk (calf) incisor teeth in place.

Fifteen months—At this age the centre pair of incisor teeth may be replaced by centre pair of permanent incisors (pinchers), the latter teeth being through the gums but not yet in wear.

Eighteen months—The middle pair of permanent incisors at this age should be fully up in wear, but next pair [first intermediate] not yet cut through gums.

Twenty four mouth — The mouth at this age will show two middle permanent [broad] incisors fully up and in wear, and next pair [first intermediate] well up but not in wear.

Thirty months—The mouth at this age may show six broad permanent incisors, the middle and first intermediate pairs fully up and in wear, and the next pair [second intermediate] well up but not in wear.

Poultry Notes.

In planning house to be occupied by fowls it is well to allow at least four square feet of floor space or twenty-four cubic feet of air space per fowl.

Fowls should be permitted as free a range as possible. Any plan that gives the birds the freedom of the fields is excellent, provided they do not get in place where they are not wanted.

For a light lunch, afternoon teas, picnics and camp, there is nothing that will equal a

Synopsis of Canadian North-West HOMESTEAD REGULATIONS.

ANY even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Land Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father mother, son, daughter, brother or sister of an intending homesteader.

DUTIES—1. At least six months' residence upon and cultivation of the land in each year for three years.

2. A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. joint ownership in land will not meet this requirement.

3. A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce;
Compound Salatone, one ounce;
Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salatone and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

JAPANESE ARE MUCH DISTURBED

Will Get But Little Courtesy From the Canadian Government

Considerable dissatisfaction exists among local Japanese as a result of the speech delivered a couple days age by Japan's former minister of the interior, the Hon. Kei Hara, at a banquet held in his honor.

Hara delivered a straightforward statement of much significance which is looked upon by local Japanese as being a message from the Japanese government. "You cannot expect very much from your home government," said the former minister of Japan's Home Affairs, "for Japan is, in one sense, a new country, Japan is just on the crest of a wave of development and, furthermore, there are other things just as weighty that are keeping the government busy Consequently very little time can be devoted to the interests of those Japanese who have temporarily or permanently forsaken their home land to take up their residence in Canada."

Commenting on the speech in an editorial yesterday the Canadian News, a local Japanese paper, vigorously attacks the sentiments expressed in Hara's speech and states that, if the Japanese here can get no consideration from their own government, they can expect little courtesy from the Canadian government and they are therefore betwixt two fires.—Vancouver World.

TOWN TOPICS

The Dominion elections will be held on Monday, October 26th.

On Sunday evening the service in the Methodist church will be conducted by Mr. Spooner. In the Presbyterian church the usual morning and evening services will be conducted by the Rev. Mr. McKee.

Dolls, Doll Carts, Express Waggons, Toys, etc., in stock the year round at McRae Bros.

Bat Boone of the Dominion hotel, Phoenix, chased a delinquent boarder down the Greenwood road on Wednesday—followed, collared, collected and kicked.

Perfection in Confectionery—The Copper Seal Brand—McRae Bros.

The local Rebekah's lodge will celebrate the 57th anniversary of the founding of their order on Wednesday evening next, by a social gathering in Eagle's Hall, and extend a cordinl invitation to all Oddfellows and their wives and sisters to attend.

One of the big special attractions with the Grace Cameron Opera Company to be seen at the Auditorium is the celebrated whistler, Miss Eva Spear. She is known from one end of the continent to the other as the "Human Flute." The company is composed of 40 people.

The big strike of high-grade chalcopyrite ore on the B.C. Copper Co's Mother Lode mine has already been productive of beneficial results to Greenwood camp. Several owners of mineral claims have begun prospecting and development work and tenders are being called for work on others.

A number of outside mining men have recently visited the camp, among them being Messrs. Hinckly and Moffatt, whom it is said will undertake extensive development work on the Greyhound group at Deadwood and adjoining the properties of the B.C. Copper Co. and the Dominion Copper Co.

Harry Bewley the famous mimic and comedian, is at present making the hit of his life as Hi Skinner in C. H. Kerr's new musical drama, "Little Dollie Dimples," will be remembered as "the man with a hundred faces" and many of our theatre-goers will be glad to know he is to visit the Boundary. Bewley is a brother Mason, brother Elk, life member of the Eagles, also of the New York Vaudeville club and many other social orders.

For Sale—Household Furniture, Beds, Sideboard, Chairs, Tables, Sewing Machine, Stoves, etc., by Mrs. J. Greenwood, Anaconda.

DENORO DOINGS.

CORRESPONDENCE.

A very successful magic lantern entertainment was held in the big sitting room of the Emma Mine bunkhouse on Thursday evening last. Mr. O. T. Scott worked the lantern and Mr. W. T. Rose was speaker. The views were mainly the life of Jesus Christ, supplemented by local views kindly lent by Mr. Scott. Mrs. C. M. Hines presided at the organ, collection was taken at the close.

Friday evening an ice-cream social was given at Eholt in honor of Mr. Rose, by the Presbyterian church, which was quite a success, ending with a very interteresting program, a large crowd attended.

Mr. W. G. Rose, missionary, Cascade, held his last service here on Sunday last, prior to his departure east to take up his college studies at Toronto. Mr. Rose spoke very feelingly of the way the Denoro folks had treated him and the co-operation they had extended to him to carry on the mission. The average attendance had been 18 and the collection $3.00, for every Sunday he had officiated.

Mr. M. W Ludlow left last Thursday for Seattle and Vancouver where he intends spending two week's holidays.

The Loftus Bros., Anaconda, are in camp busy erecting a residence for Mr. and Mrs. A. Gustafson,

Next Saturday, Sept. 19, a swell dance will be given at the Pacific hotel, a large attendance is requested. Tickets $1.50.

PAY YOUR TAXES

As a reminder to all owners of crown-granted mineral claims under the present provincial act the cost of advertising, etc., will be apded to the taxes unless paid before the end of September.

Wanted—To Buy a three or four roomed house and lot, Greenwood or Anaconda, apply by letter to C. Times Office.

Copper Seal Confections excell all others. McRae Bros.

The Quality Campbell's Clothing

This "Quality" about which we talk so much in

Campbell's Clothing

is our strongest argument why you should buy our clothing.

These days any man can be fitted perfectly in ready-made clothing of the better kind.

But besides Style and Fit—the honest wearing value—the point which makes a man buy the same brand again and again is specially featured in Campbell's Clothing.

The materials are as good as we can buy, the finishings and workmanship of the highest quality. The result—the clothing—is sold to you over our guarantee of money back if all details of style, fit and wearing value are not as we represent them.

The Hunter-Kendrick Co., Ltd

The Pacific Cafe

is now under the Management of Rondeau and Dupont. Meals are served at all hours of the day and night. If you want a good meal, well cooked, carefully served and promptly provided try the Pacific. By attention and promptness, eating is made pleasant.
