BOARD OF TRADE

The meeting of the Board of Trade on Monday night last was largely attended and had before it considerable business, the principal part of which was the adoption of new by-laws. It is probable that the next meeting of the Board to be held on the 23rd inst. will be the annual general meeting and that the third Monday in March will be the date of the annual meeting in each year. A meeting of the Council will be held early next week to make definite arrangements and further announcement will be made later

Mr. McAllister rising to address the Board at its invitation wished to express the appreciation of the directors of the B. C. Copper Company in connection with the resolution of which the Board of Trade had made him the bearer. It had been entered on the minutes of the directors' meetings. The directors fully concurred with the wish of the Board of Trade in building up here a good community.

With regard to the resumption of operations, Mr McAllister said that the condition of the market was now the only thing that stood between us and the resumption of work. As soon as the price of the metal promised to allow the company to pay interest on their investment, work would would be resumed. The B. C. Copper Co. now as formerly was being operated solely for the benefit of the stockholders. Because of a recent change in the arrangements of the company, placing the handling of all the financial affairs of the company in the Greenwood office, Mr. McAllister was even more confident of this policy for the future.

Speaking of the market, he said that in some places in the East there was considerable feeling that copper would go lower than the price it now is and that the lowest price would be reached in June. On the other hand, on the day of his leaving New York, Mr. McAllister had had an extended interview with Mr. Adolf Lewiston, president of the United Metals Selling Co., selling agents for the copper companies of this district and Mr. Lewiston, who had gone very carefully into his calculations, held very strongly the opinion that for the latter half of this oear, the metal would sell at a price averaging better than 15 cents.

Miners Elect Officers.

Last Saturday afternoon and evening the semi-annual election of officers of Greenwood Miners' Union was held and resulted as follows:

President, George Heatherton.
Vice-President, Chas. Bierce.
Second Vice-President, Jos. J. Chambers.
Financial Secretary, R. A. Matheison.
Recording Secretary, Ed. Peiper.
Treasurer, Wm. T. Thompson.
Warden, Jas Hampson.
Conductor, John Ingles.
Trustees—Chas. Bierce, Jos. J. Chambers, Jas. T. Erwin, Luke Skelly, and J. B. Manross.

The Pickard Moving Picture entertainment had a fairly good house in the Miner's Union Hall on Wednesday night in spite of the short notice given the public. About 100 people were present and the whole entertainment was greatly enjoyed. Mrs. Murray accompanied the presentation of several of the pictures by solos appropriate to them and the audience had more than their money's worth of fun. John Appelby was in charge of the pictures here. The same people are presenting their entertaiment in Phoenix every Tuesday night and arranging for future engagements in several towns of the Boundary.

B.C. GOVERNMENT REFUSES REQUEST

Of Council to Bonus Tunnel--G. R. Naden Defends Position of City--Petty Actions of Attorney-General

On Friday afternoon last considerable consternation was caused by a wire from G. R. Naden, member of the Legislature for Greenwood, stating that the Government had refused to accept the amendment to the Municipal Clauses Act giving the municipality power to bonus a tunnel. Inquiries from E. G. Warren, the defeated candidate here in the last election who is supposed to hold the strings of the local government patronage elicited the explanation that the government was not making any amendments to the Act this year and that the tunnel could be arranged for some other way.

Reports of the proceedings of the Legislature at its Thursday evening session, however, show that the Attorney general was responsible for the opposition to the amendment though it was proposed by the chairman of the Municipal Committee The Attorney-general, also saw fit to allow the act to be amended in that same sitting in at least eight different sections, some of the amendments preceding and some following the one in which Greenwood is interested.

The member for Greenwood objected strenuously to the petty tactics of the Government as may be seen in the following account of the proceedings which appeared in Friday's Times (Victoria).

W. H. Hayward proposed to amend the act so that aid might be granted by a municipality to "tunnels" as well as to "smelters," as at present.

The attorney-general objected to this amendment, as it would not act fairly to those who invested in the bonds of the city under old conditions. He also thought it unwise to bring in amendments to the Municipal Act to cover purely local conditions, such as this was.

G R. Naden urged that Greenwood was in a valley while Phoenix camp was on an elevation. It was proposed to drive a tunnel into the mountain to tap the mines underneath Phoenix at a depth of about 2,000 feet below the surface. The length of the tunnel would be from 15,000 to 20,000 feet. It was not proposed that the city should drive the tunnel, which would cost over a million dollars. Greenwood only asked to be allowed to assist by granting $50,000 to those who drive the tunnel. This would be paid as the work progressed. Greenwood had not bonussed any other industries and he could not see why this should not be allowed.

The amendment of Mr. Hayward was lost by the government voting solidly. Mr. Hayward retired from the chamber returning after the vote was taken amidst the laughter af the opposition.

John Oliver suggested that there was no need of the legislature. The laws might as well be turned over the attorney-general to revise as he saw fit.

The Province referring to the matter under The heading of

No Disposition to Add to Municipal Rights—Hon. W. J. Bowser Takes Strong Stand on Greenwood Tun Scheme—Affects City's Credit. says—

"Mr Bowser also objected to the giving of power to municipalities to build tunnels. This arose from the proposal of the City of Greenwood to run a tunnel from that city to and under the city of Phoenix. It was a serious power to give and might affect the credit of municipalities and the interest of bond holders. The amendment giving this power was struck out on a party vote."

We are informed that the session of the Legislature has been a very severe one on the attorney-general. It has been what is known as a lawyer's session and the brunt of the work has fallen on the Attorney-general's department. Mr. Bowser has been feeling the strain and has shown a great deal wilfulness and restiveness, particularly annoying to his own party. The Greenwood tunnel amendment is only one instance where for no reason at all the Attorney-general allowed his personal feelings to carry him away, resulting, of course, in some inconvenience to the objects of his ill feeling. However the tunnel scheme is still living and the company are making good progress in getting the necessary details of organization in shape.

THREE YEARS IN PENITENTIARY.

Donald Langley and Fred King, two young men about 24 years of age, were this morning sentenced by His Honor Judge Brown to three years in the penitentiary at at New Westminster. They both answered "guilty" to the charge that on the night of the ninth of March they had forced an entrance into the store of the William Hunter Co. at Phoenix and stolen two suits of clothes, two overcoats, four ladies' fur collars, two suit cases, two pairs of shoes and a gay assortment of sweaters, along with various other articles exhibited in court this morning and worth over $200.

The young fellows got away from Phoenix but were taken by Chief of Police Gunn and Constable Docksteader at Eholt the next day just about half past three in the afternoon. Their intention was to take the train from there to Grand Forks and thence across the Boundary line into the land of refuge.

They were arraigned before Judge Hood of Phoenix yesterday and elected a speedy trial before Judge Brown, which was given them this morning. They took their sentence stolidly and are being taken to Nelson this afternoon by the provincial constable.

They claim to have come from Montreal three weeks ago looking for work and not getting it, to have become desperate and stolen things, hoping to realize something from them. They are not known at all here and were not even known to the officers at Phoenix before the thing occurred.

A. B. Hood, police magistrate, Chris Reeves, manager of the William Hunter Co., Chief Gunn, Officer Stephens, and Provincial Constable Docksteader from Phoenix attended the trial here this morning.

Biggest Week—Largest Day.

The Granby mines still continue to break records. Shipment last week was 23,663 tons, which was a record, but it is topped this week by a higher figure of 24,440 tons, the largest tonnage ever sent out by the Granby or any other company in British Columbia in seven days. Thursday, the 5th, there were 3,892 tons shipped in 24 hours, the highest daily shipment the Granby has ever made. The Granby is certainly making records these days.

Death of Mrs. Morrison.

Early this morning Mrs. John H. Morrison, who has been a resident of Greenwood for the last eleven years, passed away at the home of her sister, Mrs. J. H. Macfarlane, on Gold street. Mrs. Morrison has been ill for some time and the end has been expected for a week past.

The deceased lady was born in Germany, at Coplands on the Rhine, and was 43 years of age. She came to Greenwood in 1897, and is widely and well known in this vicinity. She was a very kindly woman and was well liked.

The funeral will be held Sunday afternoon from the residence of Mrs. Macfarlane to the Church of the Sacred Heart, where mass will be celebrated by Rev. Father Bedard. Interment will take place in the Greenwood cemetery.

Besides Mrs. Macfarlane, Mrs. J. W. Nelson is also a sister, and also Mrs. C. J. Tynan of Spokane. Mrs. Roth, their mother, is also living in Greenwood. Deceased has two brothers living, one in London, Eng., and one in Germany.

C. Scott Galloway came over from Grand Forks yesterday to arrange the details of the sale of the Victoria House to Jim Cameron, who is taking the house including the license and in ten days will open the hotel. This is only the beginning of the tunnel boom.

CORRESPONDENCE

The Times yesterday received the following letter referring to the Benefit Fund for the widow and children of the late Mr. Peterson. As we desired to give fair play to all concerned in the matter and to avoid useless and rancorous agitation, we asked the trustees of the fund to give a statement of the way in which this money had been received and what had been done with it. We trust the following letters will give satisfaction and all necessary explanation to everyone concerned:

Greenwood, March 12. 1908

The Editor of Boundary Creek Times.

Sir,—I was very much surprised to learn that the money raised by a benefit ball given in the fall of 1906 by the Miners' Union and Oddfellows of this place in aid of widow of the late Charles Peterson has not yet been paid over to her.

If you will kindly print this letter in your widely read paper it will call the attention of the many others who bought tickets to this ball, that the money has not been used for the purpose for which we paid it.

Yours truly,
SEYFORD LUNDSTROM

March 12, 1908.

To the Editor Boundary Creek Times.

In anticipation of a letter which we are given to understand will be published in this issue of your paper regarding certain money held in trust by the Greenwood Miners' Union and the Independent Order of Oddfellows, we would kindly ask you to publish the following information.

At the time the funds were raised the following circular letter was sent out:

BOUNDARY VALLEY LODGE No. 38
I.O.O.F.

Greenwood, B.C., Oct. 1, 1908

To .....

Dear Sir and Brother:

We the undersigned representing Boundary Valley Lodge, No. 38, I O.O.F. are enclosing you tickets trusting you will do your best to dispose of them. The object being to raise $300 with a view to helping the widow and children of our late Brother, C. G. Peterson, who was killed in the mines. Our idea is to purchase a ranch already stocked and where they can have a good home.

The $400 along with a small amount obtained from the Insurance company will be the means of placing them in comfortable circumstances. The members of the Miners' Union are co-operating with us in the matter, and we sincerely trust you will support the worthy cause by the purchase of a ticket or donation.

Yours fraternally,
E. Anderson } Committee
E. H. Mortimer }

P.S.—Please return tickets and remittances to Fred B. Holmes, secretary of committee.

After the funds were raised Mrs. Peterson was unwilling that we should proceed as we had contemplated at her own suggestion in regard to the buying of a ranch, so the trustees of the Greenwood Miners' Union and of the Independent Order of Oddfellows decided to invest the money for the benefit of the children of the late Chas. G. Peterson. The investment is in the form of a first mortgage on a ranch and bears interest at 10 per cent.

Signed,
B. de Weile }
R. A. Matheson } Representing Trustees of Greenwood Miners' Union, No. 22, W.F.M
Geo. White }

R. C. G. White }
T. M. Gulley } Trustees of I O.O.F., No. 38.
A. Logan }

W. H. Norris, who owns a fine irrigated ranch on the lands between Midway and Rock Creek left on Wednesday for the coast.

If You Wish to Buy
COPPER STOCK
Wire us for Quotations

Our facilities for buying Dominion, B.C., or Granby Stocks on the curb in New York or Boston are unequalled Even our competitors acknowledge that we can buy these stocks cheaper than they. Why? Because our Eastern connections are of the very best.

The stock business is a sideline with us consequently we can afford to handle your business on a very small margin.

Give us your limit and we will fill your order at a lower figure if possible

We will wire you the New York opening quotations daily, if desired.

McDERMID & McHARDY,
NELSON, B. C.

JULIHN—MOFFATT.

A pretty wedding in which Greenwood people are interested occurred in the First Presbyterian Church, Spokane, on the evening of Saturday, the 7th of March at eight-thirty. It was the marriage of Miss Helen G. Moffatt and Mr. Carl. E. Julihn. The wedding march from Lohengrin was played by Miss Grace Richardson and the bride was given away by Dr. Northrup, of Spokane. Her dress—for women set great store by their frocks on such occasions—was of navy blue chiffon panama and she wore a hat to match. A pale blue ostrich boa and a large and very beautiful bunch of violets completed the costume. Among the guests present were Mrs. Moffatt,, the mother of the bride and the bride's three sisters, Misses Maude, Bessie, and V. Moffatt.

After the ceremony, a wedding breakfast was served at the Davenport in the Dutch room which was prettily decorated with carnations and ferns—then this story ends with the departure of the happy couple on the Oriental Limited for Washington, D.C.

In their presence the people of Greenwood have not withheld expression of their regard for both bride and groom and in their absence, on this happy and significant occasion, we wave them at host of congratulations and fair wishes.

PROTECTING THE FISH

As the open season for fishing in our waters does not begin until March 25th, parties who are fishing in Boundary Creek are taking long chances. The Times has been informed that some people are fishing in the creek above the smelter at Boundary Falls. The least penalty imposed for such infraction of the game laws is a fine of twenty-five dollars. It is the duty of everyone interested in fishing, to assist in keeping these laws and at least in making offenders aware of the seriousness of their offence.

OBSERVATIONS.

Just keep smiling.

Remember that Greenwood in the last five months has been the best town in the Boundary, despite untoward happenings. Play fair with her and give her a chance for a week or two more.

Apparently, the Government at Victoria is beginning to recognize what Greenwood constituency thinks of it and is doing utmost to retain the support of the jealously minded inhabitants (they're not all such) of neighboring towns. The Attorney-general regarding the fact that Greenwood has always been staunchly Liberal and gives fair promise of always being so, is showing his venom at the people "who refuse to bow the knee to Baal" Bowser. The end of the present regime at Victoria is coming quickly. The picayune practices of the heads of it are meeting not simply with local but with general condemnation.

What a reason for an action! The energy and enterprise of the men of one city must not be allowed to intertere in any way, even in healthy rivalry, with the prospects of another—and not simply with its prospects but indeed, its mere pretensions.

Paternalism ad absurdum, surely is such miserable handling of the province's affairs.

The almost inconceivable calamity that recently befell the children of the Collingwood school at Cleveland is almost too horrible to think upon. Every effort possible should be made in every community on the continent to see that all possible measures insuring the safety of the litlle ones have been taken. Fire drills should be held in every school for even while we know that sometimes, the children like the rest of us, do not benefit from their experience and training, yet it may be a very great help in time of danger and it's a poor business if we can't take apparently somewhat unnecessary trouble to protect those who are unable, by reason of nature to protect themselves.

It should also be seen that the doors in all public buildings open outwards; that proper fire-escapes are in place and in short, that every precaution preventive of disaster has been taken. Let the proper authorities see to it that this is so in Greenwood.

The Toronto Globe has the following report of the Canadian Mining Institute which is of interest:

"The retiring President, Mr. F. Keffer, in his annual address referred to the coming visit to Canada of the London Institute of Mining and Metallurgy next autumn on the invitation of the Canadian Institute. The London Institute delegates, if possible, will visit all the mining centres, including British Columbia. Mr. Keffer expressed gratification at the increase in membership, from 500 to 700, during the year, but sharply deprecated the dissention which seemed developing between the members in Ontario and Quebec. Such dissension, he said, endangered the life of the institute, and some of the members in British Columbia favored forming an independent institute of western mining men."

Mr. Duncan Ross has requested a return in the House of Commons that should be invaluable in making clear the financial relations existing between this province and the Dominion. It will also show the financial benefit or lack of it resulting to this province from Confederation. The motion requires a return (a) showing the revenue contributed by the province of British Columbia for each and every year from 1872-3 to 1905, inclusive, under the following heads:

1, Customs; 2, Chinese Immigration; 3, Inland revenue, excise, weights and measures, gas inspection, methylated spirits, sundries; 4, Post offices; 5, Public works, telegraphs, Esquimalt graving dock, casual; 6, Experimental farm; 7, Penitentiary; 8, Marine and fisheries, sick mariners' fund, steamboat inspection, examination of masters and mates, casual and harbors, fisheries; 9, Superannuation; 10, Dominion lands and timber; 11, Vancouver assay office; 12. Miscellaneous; 13, Public debt; 14, any other source.

And (b) showing expenditure by the Dominion of Canada for each and every years from 1872-3 to 1905, inclusive, under the following heads:

1, Public debt; 2, charges of management; 3, Lieutenant governor; 4, Administration of justice, judges, etc; 5. Penitentiary; 6, Experimental farm; 7, Quarantine; 8, immigration; 9, Pensions, etc.; 10, Militia; 11, Public works, buildings, harbors and rivers, dredging; 12, Telegraphs, agency; 13, Marine subsidy; 14, Marine and fisheries, dominion steamers, lighthouses, meterological, marine hospital, steamboat inspection, miscellaneous, fisheries, inspection, hatcheries; 15, Indians; 16, Subsidies; 17, Dominion lands; 18. Customs; 19, Inland revenue, excise weights and measures, gas and electric light; 20. Esquimalt dry dock; 21, Post office; 22. Chinese immigration; 23, Defences, Esquimalt; 24. Chinese immigration enquiry; 25, Bounty on minerals; 26, miscellaneous; 27, Vancouver assay office; 28. Railway subsidies; 29, any other sources.

ROSSLAND REVIVING.

Boom day claims are again being worked at Rossland. The Sunset, the property of the Canadian Goldfields Syndicate has been leased for fourteen months to Messrs. Ruffner and McLaren. The property includes the Sunset No. 2, Alabama, and Gold Hunter Mineral claims, where a good deal of development work has been done, totalling nearly a mile of cross-cuts, tunnels and drifts. The main shaft is down about 475 feet. There are showings of ore on every level. The Canadian Goldfields Syndicate ceased operations on the group in the spring of 1899 after over $260,000 had been spent in actual development work. This does not include the purchase price of the properties in the group, nor the cost of the plant. There is a seven drill compressor, a hoist, pumps, and five machine drills on the property There are a number of good surface showings of ore on the properties, and it is on these that the lessees for the present, at least, will confine their attention The ore shipped from the group to the Trail smelter in 1908 gave smelter returns of $19.20 to the ton.

The O.K., a free gold property in the South belt at Rossland has been leased by A.B. Perry and G. B. Wilson, miners from near North Bay, Ont. The main development so far consists of three tunnels and a winze. There is a regular fissure vein, carrying free gold, disseminated through the gangue in fine form or in the shape of massive nuggets. The latter are encountered usually close to some small dikes that intersect the ledge. There is a ten stamp mill on the property.

MINING INSTITUTE OFFICIALS

The movement to oust the Secretary and Treasurer of the Canadian Mining Institute has been unsuccessful and the results of the elections held last Friday afternoon were as follows:—

President, Dr. W. G. Miller, Toronto, by acclamation; vice-president, G. E. Drummond, Montreal, and W. Fleet Robinson, Victoria, B.C.; secretary, H. Mortimer Lamb, Montreal; treasurer, J. Stevenson Brown, Montreal; For council, A. Bower, Victoria, A. A. Cole, Cobalt, R. H. Drury, Montreal, C. Fergie, Glace Bay, N S., J. E. Hardman, Montreal, R. T. Hopper, Montreal, Joseph McNab; Trail, W. F. C. Parsons, Londonderry, N S., R. W. Robb, Amherst, N.S., K. B. Smith, Phoenix, B.C., R. H. Stewart, Rossland, B.C., and J. R. Tirrell, Toronto.

Dr. Miller was one of the two vice presidents elected last year for a two year term and so his election to the chief office left a vacancy. By a unanimous vote Dr. A. F. Barlow, of Ottawa, was elected vice-president to succeed him.

The question of removal of headquarters of the institute from Montreal to Ottawa will be decided by letter ballott.

PROOF!

That Zam-Buk Grows New Healthy Skin

The unique power belonging to Zam-Buk for growing new healthy skin when it has been destroyed by injury, disease or operation is illustrated by the recent experience of Mr. J. Schofield of 467 Hamilton Road, London, Ont. He says: "A friend of mine (Mr. William Ball, of London) was severely and terribly burned through an explosion of kerosene oil. He was taken to the hospital where he suffered intense pain. The wounds refused to heal, and the doctors decided to resort to skin grafting, and I consented to have some transplanted from my legs to his body. Although this was done on several occasions the skin refused "to take" until Mr. Ball heard of Zam-Buk. From the time he applied Zam-Buk, new healthy skin began to grow. I then used Zam-Buk for the places on my leg from which the skin was removed, and I am glad to report that new skin has grown, and therefore consider Zam-Buk the best skin food I have known."

Zam-Buk builds up new tissue in a way that is not possible with ordinary preparations. For healing eczema, running sores, cuts, bruises, burns, boils, eruptions, scalp sores, itch, chapped hands, and diseases of the skin it is without equal. All druggists and stores sell it, 50c a box or post paid from the Zam-Buk Co., Toronto.

THE FUTURE OF COPPER

The Future of Copper or a probability of glut in the world's market for copper making the industry of mining this metal an unproductive one is the subject of an article by John T. Morrow, of New York, in a recent issue of the Engineering and Mining Journal. Mr. Morrow investigates his data at long range going back to 1879 when the annual production was 160,310 tons and looking ahead to 1928, when on the same basis of increase as has prevailed in the period from 1879 to 1906 (5.84 per cent per annum), the annual production will be 2,748,622 short tons The percentage increase in the production of copper has not been as rapid as pig iron for the last 20 or 30 years, yet iron is found to be much more sensitive to the periodic convulsions of trade than copper.

Mr. Morrow's conclusions are most hopeful for the copper industry. He says: "For those who have interests in the copper production, either as owners, producers, or investors, I call attention to the two following points:

(1) The world wants copper at a rapidly increasing rate as is unquestionably shown by the preceding data. We may confidently expect that the world will continue to absorb the production of copper at an increase of at least 5.84 per cent. This is enough for the producer and consumer as far as output is concerned.

(2) Though the price will vary from time to time, owing to periodic market conditions, yet knowing that the world is going to take copper in the future even faster than it has in the past, we also know that the world is going to pay for this copper and of necessily at a price, which will enable the producers to make a profit.

"THE KING."

Bowser is here; let the world acclaim,
And let the people bow.
Bowser is here, make the welkin ring,
For Bowser is Emperor now.

Bowser is here; let the nations list,
Let the prostrate people fall.
The heavens may fail and the world decay,
But Bowser is All in All.

Bowser is here. Let a wondering world
Listen, and hear, and obey,
For when Bowser speaks, let no dog bark
While Bowser is King—for a day.

MINING

The Tewkesbury Gold Dredging Co. at Bright, Queensland, is planting walnut and fruit trees on the tailings of the dredge proceeds. In time they expect to have 1,000 trees on this land formerly considered useless.

The following are the new officers of the Grand Forks Union No. 180 W.F.M.: President, A. E. Hardy; vice-president, T. Burton; secretary-treasurer, T. J. Benninger; recording secretary, J. N. Currie; conductor, W. Bunting; warden, M. H. Burns; trustees, T. L. Crossen and T. Burton.

A Toronto despatch reports Mr. E. L. Englehart, chairman of the T. & N. O. railway commission as saying that shipments of low grade Cobalt ore are likely to be sent to British Columbia smelters. The object is said to be to mix it with the ore of this province, a necessary process, and one which would probably result advantageously to the smelters treating the ore.

The Canadian Mining Institute at its annual meeting at Ottawa have endorsed the request of the British Columbia silver-lead mine operators for the extension of the lead bounty.

Patrick O'Brien, a miner picked into a missed hole in shart No. 4 of the St. Eugene mine shortly after going on shift on Saturday morning. O'Brien was killed and Jack Daly who was with him will lose the sight of one eye. OBrien's funeral was held from Cranbrook on Saturday.

Frank A. Ross, manager of the Daly Reduction Co. and G. P. Jones, superintendent made an examination of the Granby properties at Grand Forks and at the mines last week. The Nickel Plate has a 40-stamp mill situated at Hedley. The mine is about two miles from the mill. The properties have been kept in pretty steady operation but Mr. Ross was apparently annoyed at reports circulated stating that their ore had a value of $80 a ton. He did not care to state what its values were but said it kept him busy to make operations profitable.

The Sullivan smelter at Marysville and the mines at Kimberley have closed down for an indefinite time. The shut-down is attributed wholly to metallurgical difficulties.

A number of changes have been made recently in the customs arrangements of the District by the Dominion Government. Keremeos, becomes a customs outport under the survey of the port of Greenwood, in place of the out port of Chopaka. Carson, now a preventive station, becomes an outport and warehousing port under the survey of Grand Forks.

WOULD RIVAL THE BOUNDARY.

The mining prospects of Kamloops, long waning, are about to be revived. E. C. Wood, of Spoane, with a number of capitalists visited that city last week and the effort to interest capital especially in the Iron Mask group will be made. The method of mining will be changed to follow that so successful in the Boundary. This will require the building of a smelter at that place. The Sentinel has this to say of it:

"There is no doubt about the value of the local copper ores and with the advent of the necessary capital Kamloops is destined to take a place as one of the greater mining centres of the province It is rumoured that the Iron Mask is about to pass under new management and that the capital essential to carry out a vigorous policy of development and ore treatment will soon be available. It is well known that an extremely rich ore body has been found, quite distinct from any of the present underground workings. The ore from the newer strike has given assay results as high as $100 to the ton, and there is plenty of it. With such an ore body on hand and the other large and proved bodies of lower grade material it would appear that this property will rank with anything that the Boundary has yet produced.

The work recently done on the wheal Tamar, the discovery of a large ore body on Jacko Creek adjacent to the Cyclone group, and the results obtained on several other properties further encourage the idea that the future prospects of the Kamloops camp are of the brightest, and that ere long the period of quiescence will give place to a season of marked activity."

AT A BARGAIN—Incubator and Brooder; to close at once, may be had at a bargain. Apply at Times' Office.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh, of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such *professional* endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent, medical authorities, endorsing its ingredients mailed *free* on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

AT THE CHURCHES

ANGLICAN—St. Jude's. Rev. John Leech-Porter, B. D., pastor. Services at 8.30 a.m., 11 a.m. Sunday school, 12 p.m. All seats free.

PRESBYTERIAN—Services will be conducted morning and evening, 11 a.m. and 7.30 p.m. Rev. M. D. McKee, Pastor.

METHODIST—Rev. F. J. Rutherford B.A., will conduct services as usual at Methodist Church morning and evening Sunday School at 3.

CATHOLIC.—Church of the Sacred Heart.—Divine service 1st, third and ourth Sunday in each month. Holy mass at 10 a. m.; vespers and benediction at 7:30 p. m.; Sunday school at 2:30 p.m. REV. J. A. BEDARD, O. M. I. pastor.

Shiloh's Cure Cures Coughs and Colds QUICKLY

Use Shiloh's Cure for the worst cold, the sharpest cough—try it on a guarantee of your money back if it doesn't actually CURE quicker than anything you ever tried. Safe to take,—nothing in it to hurt even a baby. 34 years of success commend Shiloh's Cure—25c., 50c., $1. 315

DOES THIS INTEREST YOU?

A prominent physician, famous for his success in the treatment of kidney and bladder diseases, attributes a great deal of his success to the following simple vegetable prescription:—

One ounce Fluid Extract Dandelion;

One ounce Compound Salatons;

Four ounces Compound Syrup Sarsaparilla;

Mix, shake well, and take in teaspoonful doses after each meal and again at bedtime.

Your druggist can supply the ingredients, and the mixture can be prepared at home at very little expense.

This, the doctor says, acts directly on the kidneys, assisting them to filter the poisons from the blood and expel same in the urine, at the same time restoring the kidneys to healthy, normal action.

We feel that a great many readers will be pleased to learn of this simple prescription, and knowing the ability of the physician whose formula it is, we do not hesitate to recommend it to any sufferer.

MEN

We Cure Every Case We Treat

OUR GUARANTEE: NO PAY UNLESS CURED

When You Need a Specialist, Consult One of Wide Experience.

We are just now completing our twentieth year as specialists in men's diseases. During these years of close application to a single class of ailments we have originated and perfected the only scientific and certain methods by which these diseases are cured. If we accept your case for treatment, a cure is but a matter of a reasonable time.

We guarantee every man a lifelong cure for Varicocele, Hydrocele, Urethral Obstructions, Blood and Skin Diseases, Prostatic Troubles, Piles, Fistula, Loss of Vital Power, Kidney, Bladder and Special Diseases. We especially offer our services to those who are afflicted with weakness as a result of their own follies or excesses.

Our methods are up-to-date, and are endorsed by the highest medical authorities of Europe and America. Hence our success in the treatment of Men's Diseases. Remember, our specialty is limited to the diseases of MEN and MEN only.

We cover the entire field of nervous, chronic, deep-seated and complicated diseases.

CONSULTATION FREE.

If you cannot call, write for Symptom Blank. Many cases can be cured at home. All correspondence confidential.

THE COPPER HANDBOOK

(New edition issued Nov. 15, 1906)

Is a dozen books in one, covering the history, Geography, Geology, Chemistry, Mineralogy Metallurgy, Terminology, Uses, Statistics and Finances of Copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the Copper Industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man.

It gives the plain facts in plain English without fear or favor.

Its lists and describes 4626 Copper Mines and Companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Mining Man needs the book for the facts it gives him about mines, mining and the metal.

The Investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundred of swindling companies are exposed in plain English.

Price is $5 in Buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY, Deputy of the Minister of the Interior.

TOWN TOPICS

The Boundary Valley Lodge is holding a smoker tonight. Don't forget it.

Midway has arranged a celebration for May 24th. Horse racing, baseball, etc., everything that goes to make a good time will be provided.

Remember when you want tea that Smith and McEwen's are now the only agents for Deckajulie—the tea that you know so well.

Remember the Miners' Union Ball on the 17th—St. Patrick's night. St. Patrick's sons are the embodiment of fun and pleasantry Come to the dance and have a good time. Good music, good floor, good house, good time.

A correspondent sends us the following: Here's the latest on Peck. Billy Dunn of Peerless Hotel, Oroville: "Have you had your breakfast, Peck?"

Peck: "Not a drop."

We have bargains in Wall Paper remnants that we wish to clear. Get busy before that tall chimney starts spouting. McRae Bros.

The case of the Haynes Estate vs. The British Columbia Land and Investment Agency which was to have been heard, finally at Victoria on the 5th inst. is reported to have been settled out of court, the company offering $7,500 in settlement of the claims of the heirs against it.

Coles' Bookstore has an unequalled display of chocolates. If you have'nt seen them, do so at once. They are worth the while

The stillness of Greenwood's Sunday evening was broken last Sunday night by the beat of a half a dozen drums and the tramp of a couple of score of vigorous feet down the main street. It was the Boy's Brigade going to attend divine service.

Ring up Smith and McEwen's when you need tea. They have Deckajulie, the tea with one brand always good, always the same.

On Wednesday afternoon Judge Hallett returned from Victoria where he spent a couple of weeks in connection with the water rights in dispute between John Mulligan, of Phoenix and the Greenwood City Waterworks Co. This matter has been in litigation for some time and the arrangemen s made recently were simply confirming an order-in-council passed some time ago in the matter dealing with certain details

The choicest confection in the land 60c per pound. Half pound and pound boxes, 35 and 75 cents er box at McCrae Bros.

Remember that all applications for the privilege of voting, provided an election comes on next summer, fall, winter. or the spring of 1909, must be in the hands of the registrar before the last Monday in March. To have a vote you must have resided in this province at least six months before March 30th.

The work train of the C.P.R. is filling in time hauling out some of the 400,000 ties piled along the railway between Anaconda and Eholt. Most of these ties go to main line. As soon as the frost goes out of the ground, perhaps in ten days, this crew will resume work with a steam shovel on the grading at Cascade.

The Greenwood Concert Orchestra are in great demand. Even so is the 17th of Ireland for a dance night. The orchestra was asked to take engagements on that night in Eholt and Keremeos beside the one they had accepted at home at the Miners' Union Ball. Don't forget it.

The semi-annual election of the Phoenix Miners' Union No. 8, W. F. M., was held on Saturday night last, and resulted in large majorities for the "Union" ticket. The new executive is as follows: President. W. J. Loutit; vice-president, J. Osterman; financial secretary, W. A. Pickard; recording secretary, Marcus Martin; assistant recording secretary, J. C. Tait; treasurer, Frank Knott; conductors, John R. Campbell and Jas. McClutch; warden, Jas. Comiole; trustees, John R. Campbell, E. J. Langdon, Alex. Peterson, John McIver and P. Corrigan. There 414 votes cast, the highest being for Secretary Pickard of 314. Nearly all the "union" ticket men had votes of nearly 300, while only one of the others, the candidate for president, Dan Patterson, had over 100 votes.

The Kettle River Fish and Game Protective association will hold a meeting in the city hall on Wednesday evening next at 8 o'clock. Every one interested in protecting the fishing in Boundary creek is requested to be present.

Tom Henderson, superintendent of the Duncan mine, came into camp on Wednesday. While the mine is closed, he intends going to to Butte to visit the great Montana camp.

The Mother Lode horses have been returned from the ranch where they have been during the winter. We understand that this has been necessary to keep the horses in good condition. Foraging on the ranch wasn't good enough.

MINING

The second car of machinery for the new compressor at the Mother Lode arrived this week and is being put in place at the mine. The third car has been shipped and is on the road. This car contained the cylinders for the compressor.

Most of the force at the Sally mine at Beaverdell has been laid off for a few weeks until the wet season is over and the roads get better. A few men are being kept on to open up a promising lead. The Sally has been improving steadily and the ore showings have been better looking continually. The mine will reopen about June 1st.

Jas. S. Birnie, Deputy Sherriff, has called a sale for March 12th to auction certain tools and small machinery at the Elkhorn mine. This is to satisfy a judgement for $213.94 obtained by E. J. Cartier against the company.

LORD'S DAY KEEPING

A man of large stature, of fairly unconventional dress for a clergyman, and of such personality that under the reflected rays of an overhanging pulpit lamp, he gave you an impression of ruggedness, of verve and of power, Rev. W. M. Rochester, western secretary of the Lord's Day Alliance gave on Sunday evening last an altogether inoffensive and faultless character to the Lord's Day Alliance.

As a sermon Mr. Rochester's address was a gem. It was bright and well arranged and his illustrations were appropriate and illuminating. As a plea for the reasonableness of sabbath keeping, it was also effective. And as an interpretation of the position of the Alliance in regard to Sabbath observance, it gave an altogether reasonable statement. The Sabbath is an institution which for the moral and physical benefits it confers it is a good thing to perpetuate.

At the close of his address Mr. Rochester referred to the exaggeration in the stories from Winnipeg. No arrests has been made in Winnipeg and the Attorney-general had given his assent to only 232 prosecutions and these were instituted not by the Alliance but by the City of Winnipeg.

In regard to the Act in British Columbia, the Attorney-general, through Mr. Tatlow, had announced that no prosecutions would be assented to. The Alliance had taken the position that it was beyond the power of the Attorney-general to take this step which means a nullification of the Act and that the law gave him power to assent or withhold his assent to prosecution, only on application.

In the afternoon, Mr. Rochester spoke to the men in the Miners' Union Hall and there was a good deal of discussion. In the morning, he was in the Methodist church.

It is only fair to Mr. Rochester to say that neither his address, dress, or demeanor smacked at all of the long-haired, sour-faced adamantine opinionatod people who sometimes make this and other causes a matter for ridicule.

Purely Personal

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings

Walter E. Haddon, of Grand Forks, is the guest of Mr. Fred. B. Holmes this week.

E. E. Richardson, of the Kelly Douglas Co., was shaking hands with the grocers this week.

F. Rising and wife have been spending the week in Grand Forks, visiting many of their friends there before leaving for the coast.

J. D. Spence, with R. W. Dalgleish and J. W. Main went over the Forks yesterday. They will remain a couple of days.

Miss Kate McKenzie, of Phoenix, is taking the place in the school there recently vacated by her sister who is in charge of the Intermediate Department of the Greenwood school.

E. G. Warren and Mrs. Warren spent some days last week in Victoria and Vancouver returning on Tuesday.

D. E. McCutcheon, representing R. G. Dunn & Co's Vancouver office, and nephew of the Collector of Customs has been in the city since Saturday.

Chas. A. Fair left on Sunday morning for Collingwood, Ont., having received word that his mother, who resides there, was seriously ill.

W. T. Hunter left on Wednesday for Wheatlands, N.D., where his other business is conducted under the name of the Hunter Mercantile Co.

Andrew Sater is in Oroville this week looking after the business interests there of Sater and Johns.

J. W. Main, of Vancouver, father of Mrs. J. D. Spence, came to Greenwood on Monday last. Mrs. R. W. Dalgleish, sister of Mrs. Spence is also with her.

Mr. Justice Clement will spend the summer at his old home in Grand Forks. He will move there from the coast, probably within a month.

Henry Bretson, John Finlay and the long Canadian who have been twisting rocks at the Sally on the West Fork are in Greenwood where they expect to enjoy the next month or two till the roads are in such shape that they can ship again from the mine.

G. S. Holt and H. E. Tylor, inspectors of the Bank of Commerce arrived in the city on Monday and are performing their duties at the local branch. Mr. Holt was once employed in the branch here.

THE RESULT OF ILL-HEALTH

The rumor circulated last week that the retirement of Colgate Hoyt from the presidency of the B.C. Copper Co. was due to ill-health, was this week confirmed by The Times. Mr. Hoyt will go to Europe for a year.

No election will take place for President of the Dominion Copper Co. until the return of H. H. Melville from Europe, Mr. Melville who was in Greenwood a couple of months ago in company with M. M. Johnson is now in Europe and it is expected that when he arrives he will present for election to the directorate the name of some one to represent the holdings of the company in Great Britain C. J. Cull, whose election to the directorate was made at the annual meeting has been appointed one of the vice-presidents and in the interim is performing the duties of president. Hon. Warner Miller, president of the company, has resigned from the directorate as well as from his position as president.

Arrangements have been made to show the Pickard moving pictures in the Miners' Union hall every Wednesday night. Everyone who attended the entertainment on Wednesday night was pleased with it. Only one entertainment will be given weekly in Phoenix and the arrangements made provide for more film, good music, good singing and a good time. Remember it.

Our system

Campbell's Clothing

Special Tailoring Service

offers to men who live in small towns the advantage of having their clothes made to their measure—AS THEY WANT THEM MADE—by the leading tailors of Canada
