The New Lid

Mallory Cravenette Hats are favorites with men who take a self-respecting pride in their personal appearance, They always look well for they are fashioned in the newest and most stylish shapes, are made of the best hat material by skilled workmen, and are rendered weather proof by the famous cravenetting process.

That is why Mallory Cravenette hats not only look well when you buy them, but they stay that way. They do not spot from rain drops nor run in the wetting of a downpour; and they do not fade and look shabby from sunlight. They please the most fastidious and most economical by their double qualities of look well and wear-well.

Mallory Hats are Union made.

The price of a Mallory Hat is $4.50.

You can secure one from

HOLDEN AT GREENWOOD

The September Sitting of the County Court

The September session of the County Court of Yale, his honour Judge Brown presiding, was held in the Court house, Greenwood, on Tuesday, the 8th inst.

Although the docket was fairly large, but one case was heard, that in re Houston vs. Warren, appeal from a conviction by I. H. Hallett, P.M., the appeal being allowed with costs against the respondent Houston.

In the appeal of Donald Gunn vs. Olson, appeal from conviction by A. S. Hood, P.M., Gunn asked for an adjournment to enable him to procure witnesses.

Adjournment granted to a day to be fixed, respondent to pay the costs of the day including that of four witnesses from Phoenix. Counsel fee also reserved.

Larsen, Salstrom and Strand, charged with assaulting Chief of Police Gunn of Phoenix, were bound over to the next court of competent Jurisdiction.

following is the list of cases to be heard:

Smith and McEwan vs. S. T. Smith, judg. summons; P. Burns & Co. vs. S. T. Smith, judg. summons, adjourned for two weeks. Hallett & Shaw vs. G Henderson, judg. summons, next court. Boucher vs. McDonald, judg. summons, struck off. Hanson vs. Smith, next court. Munro vs. Gaunce, next court. Smith vs. Rolls, adjourned, authorities to be put in. Calgary Brewing Co. vs. Maslouka, adjourned, day to be fixed. Robinson vs. Cartier, interpleader, next court. Shallenber vs. Alliance, next court.

Naturalizations. —Robert Lee Bailey, Dominico Nusetti, John Theodore Lund, Alfred Malun, Joe Johnson, Peter Olson, Karl Gustaf Johanson, John Berg, Angelo Luciani, Jacob Rego, Martin Hendrickson, Jons Anderson, Lars E. Olson, Nels Steffanson, August Lamb, Charles Bergstrom, Edward Hang, Ah. Fong, Anders George Swanlund, Bill Johnson, John Salo, John K. Niemi, Charles Hamarstadt.

FARMERS' ASSOCIATION

CORRESPONDENCE.

At a meeting held at the Riverside School hall on Sept. 5th, the ranchers of Rock Creek formed a branch of the Boundary Country Farmers' Association. The officers elected are, President, Mr. Tate; Secretary, S. Larsen; Committee, J. Lindsay, A. Johnson, W. Madge, J. Madge, Mr. McLellan and Mr. Carey.

Mr. A. B. Sowter explained the main objects of the association, incidentally saying that as Americans could buy their agricultural implements. etc., in cheaper markets than the Canadian, they, by joining together could counterbalance these advantages.

The president thought the the question of railway rates an important matter, as in a very few years they would be extensive shippers.

Mr. Leach told of the Farmer's Assoc. of Assinaboia who owned their own implements and whose threshing did not cost them 2 cts. a bushel.

It was decided to try and effect an affiliation with the B.C. Produce Association.

A number of the boys, with some to come yet, returned on Tuesday from a fishing and hunting trip up the West Fork. The returns not being all in we can make no definite statements in regard to the catches taken.

ON THE WEST FORK

Prospectors Busy on Their Claims

Wallace Mountain Miners Meet Encouraging Results

E. G. Cummings, who has mining property on the West Fork, notably the Bonnie Fraction, was in the mining center on Thursday and reports a considerable amount of activity in that coming section.

The C.P.R surveyors are working from both ends of the line between Carmi and Penticton and will probably be through with their work in 10 or 12 days.

James Sword, who owns the Bell mine on Wallace Mountain is busy putting up buildings preparatory to a winter's work on the old Wallace tunnel which was first begun by the famous discoverer of the Wallace mountain camp.

Kelly and Rambeau are sinking a shaft on the line of the Stanard fraction and the Buster.

They have reached a depth of 32 feet and have a fine showing of silver-lead ore on both walls with 3 feet of gangre matter between. The values found are chiefly silver with only about 5 per cent. of lead and show all the marks of a high-grade property.

This shaft is situated about 1500 feet east of the Rambler tunnel on which development work was stopped pending the arrival of transportation facilities.

The prospectors generally are returning to their claims and mining affairs are taking on a decidedly more hopeful appearance in the Boundary; and when the West Fork line is completed it will give the required impetus that will make the mining business boom again while the wonderfully West Fork camps roll out a vast and steady tonnage to the great smelters on Boundary Creek.

CONSTRUCTION WORK AT GRANBY SMELTER

Rushing Improvements.

At the Granby Consolidated Co's smelter at Grand Forks, construction work is being rushed on the enlargement of the converter room, which is being doubled in size. The frame work for the addition to the steel building is nearing completion, and the majority of the machinery is on the ground. Three converter stands will be added, making a total of six. The new blower room, which is being constructed of brick and steel to take the place of the old wooden structure, is about complete. The building will contain eight blowers, also the converter blowing engines.

Old Timers Meet.

The Pioneers of the Kettle River and South Okanagan will assemble at their annual Re-union at the Central hotel, Keremeos, on the 17th of Sept.

There will be addresses and other exchanges of felicitations in the afternoon winding up with a banquet in the evening.

Originally this association was limited to those who came to the district prior to 1894 but has extended its list to those who were on the ground in 1896.

It is expected that the old-timers will gather in force and arrangements have been made to ensure a very enjoyable time for them all.

THE BOARD OF TRADE

Will Entertain Mining Institute

Ask For All Night Telephone and Road Improvement

At the quarterly meeting of the Board of Trade on Wednesday evening, Mayor Bunting in the chair, several matters of immediate importance were dealt with.

Messrs. McIntosh and McLaine were appointed a committee to confer with the management of the B. C. Copper Co. in regard to the reception of the large party of guests of the Canadian Mining Institute who are scheduled to be in Greenwood on Sept. 16th and 17th.

As the visit of this distinguished body of mining engineers will be one of the finest opportunities from an advertising point of view that our marvellous mining district could have, and it is essential that the best possible impression be given, it was decided that due arrangements be made to utilize the time at their disposal while here to the very best advantage.

The visiting members of the Institute and guests, will be entertained at an evening smoker in the Auditorium, for which, it was decided that a nominal admission fee be charged to those who wish to meet them.

The rapidly accumulating library of geological and meteorological works; geological reports, surveys and maps, and reports of different commissions in connection with the resources of the Dominion in mining and agriculture, presented to the Board by the Dominion Government, will be book-cased in the Secretary's office where anyone interested may have access to them at any time.

A motion was again passed regarding the wagon road at Boundary Falls, again calling the attention of the Board of Railway Commissioners to the fact that the railway company had done nothing in the way of agreed improvements to that dangerous section of the road, and urging that immediate action be taken in the matter.

A request from the management of the Spokane Interstate Fair for a mineral exhibit from the Greenwood mines was filed owing to the short notice, as considerable time would be required to collect a commensurate display. It was suggested by one of the member that Spokane might try and resuscitate some of the previous magnificent Greenwood collections for their present exhibition.

Contestants for the rock-drilling purse of $1,200 are also called for.

There was an earnest discussion on the subject of an all-night telephone service for Greenwood and the surrounding mining and smelting interests.

This is felt to be a very urgent necessity, especially in the matter of the inevitable accidents attendant on mining operations and where speedy medical attendance is sometimes required, and also in the insurance of better police and fire protection, particularly in the outlying places.

It is also considered a quite unnecesssary and very grievous injury to business that those in charge of smelters and mines in the vicinity, or visiting officials who may be in the city, should be deprived of telephonic communication with their respective industries after ten p.m.

The Secretary was instructed to take up the matter at once with the General Manager of the B.C. Telephone Co. to the end that the same arrangements as obtain at Grand Forks and other places may be made for Greenwood.

WILL CONNECT AT MIDWAY.

A. B. Walkem, of Vancouver, with C. S. Moss, the resident engineer of the C.P.R., at Nelson, were in the district this week inspecting the contemplated connection with the Great Northern at Midway, and looking into the progress of various other improvements for which appropriations were made this year. They were accompanied by W. P. Tierney, contractor, of Nelson.

This much needed extension at Midway will soon be commenced and will do away with the unloading and transfer of freight from one line to the other.

LABOR DAY

Games and Speeches at Phoenix

By Act of the Dominion Government the first Monday in September is set apart on which no labor, other than that which must be performed, is required to be done by those who toil.

On that day the railroads carry only mails and passengers; the factory and the mine are closed that the laborer and artisan, and workmen of every description and degree, may gather to their games, their meetings, and their trades processions.

The celebration at Phoenix this year, coupled with the opening of the new city park, was perhaps the most successful that has ever been held in that city.

The crowds were large and visitors from outside points were numerous, and good feeling and decorum were the order of the day.

Mr. J. M. O'Neil, the editor of the Miner's Magazine was present and addressed a mass meeting of the union men in a speech that was remarked for its moderate phrase and an evident desire to improve the lot of the working man.

The baseball match between Phoenix and Greenwood was won by the team from the hill the home boys not being in their usual form.

The hammer-throwing contest was won by Jack Keve, while Jost, of Grand Forks, won most of the track events.

The program of the day was concluded with a very successful and largely attended ball.

ON INSPECTION BENT.

Will Spend Two Months in Greenwood Camp

Ernest E. Ling, financial representative of New York is in Greenwood on business connected with the Dominion Copper Co. It is Mr. Luig's intention to spend some 6 or 8 weeks in a thorough examination of the company's properties, which include the Brooklyn, Rawhide, Idaho and Sunset.

As a preliminary matter Mr. Luig has visited the Sunset, and in company with H. F. Stow, local manager of Bank of B.N.A. he inspected the Rawhide mine at Phoenix.

Mr. Ling expressed himself as being exceptionally well-pleased with the showing at this well-known Phoenix property and says that it greatly exceeded his expectations.

As the representative of capital, the examinations of Mr. Luig are taken with a view to investment and we are not at all afraid to predict that further agreeable surprises are awaiting him on his inspections of the other properties of the Dominion Copper Co.

DENORO DOINGS.

Mrs. A. D. Wheeler returned home on Saturday after visiting her parents and friends at Greenwood and Mother Lode.

Quite a large number of Denoro citizens journeyed to Phoenix to celebrate Labor Day, and all said they had a good time.

Ed. Berryman and a party of four spent Monday fishing at Bannock City returning to Phoenix in the evening to take in the dance. The remainder of Denoro people held a pic-nic, and after partaking of the good things provided, ended the evening with games and dancing, everyone going home happy having fully enjoyed themselves.

Dr. W. E. Spankie was in camp Thursday on his weekly visit.

Divine Services next Sunday at 3 o'clock in Union Hall; W. G. Rose officiating.

The C.P.R. machinist's strike is not yet settled though negotiations to that end are in progress.

September 11.'08

UNION LABEL

FRIDAY, SEPTEMBER 11, 1908

Japan is preparing to welcome the American fleet, and now the jingoists are endeavoring to promote a war-scare with Germany and Great Britain as principals in the struggle.

The industry of the German people under the rule of such astute and able statesmen as Bismarck and Van Buelow has tremendously enlarged the sphere of German influence, both in military matters and in the arts of peace.

It is evident that the German program contemplates a further consolidation of the Teutonic provinces; and until that has been accomplished, the German leaders will probably be content to concentrate their energies on the expansion of German trade and the enlargement of their already powerful navy.

A war between those two great commercial nations would be the greatest calamity that could happen at the present time, though it is possible that such a contingency will yet have to be dealt with.

Reports from the prairie provinces continue to announce the phenominal yield of the great wheat farms of the West, and the original estimate of an 100,000,000 bushel crop will very likely be realized.

It has happened in previous years when the great crop has been safely harvested, that the price obtained for the grain has been disappointing to the grower. This year promises to present a different case, and those who know state that the new wheat will sell for a dollar or more.

The consumption is practically up to the production and values will be based on that condition.

The visible supply of wheat in North America in August was but one-third of that for the corresponding period last year, and that means that there are empty bins to be filled as soon as the new grain is available.

Ontario, and in fact all the east, has been blessed with a bountiful harvest, and it is gratifying to know that our staple cereal will sell at the dollar standard.

As three-quarters of our wheat product goes out for export, the comparatively high value makes but little difference to the home consumer, and only adds to the great total of many millions that has made Canada a world power in the production of wheat.

It is a curious thing that even the leading daily press should reiterate the story that the Prince of Wales granted a reprieve to a convict in Quebec.

That is a matter in which the Prince has no authority. Such executive acts are performed by the Governor-General only on the advice of his Ministers.

John McKane, of British Columbia and Nevada fame, after a year's newspaper work in the interests of the Conservative party in New Brunswick has disposed of his two St. John papers, the Telegraph and the Times to a syndicate of Liberals.

He claims that he is a loser to the extent of $130,000, and his farewell message to the editors reads like the prayer of the man who asked to be saved from his friends.

The sale of these two journals leaves the Conservative party without an organ in St. John, and with an election in the air, puts the party in a serious position in New Brunswick.

PROVINCIAL ITEMS

The Kootenay Lake Fruit Fair will be held at Kaslo on Sept. 17 and 18.

Vancouver baseball team still keeps to the fore in the Coast league.

Joe Jordans, of Duncans, V. I., claimed the $15 bounty on four panthers in the month of Aug.

The rate war between the C.P.N. Co. and the International S.S. Co. on the Coast goes merrily on.

Ironsides, Rannie & Campbell have begun construction on the Cloverdale, Abbotsford section of the Chilliwack tram line.

Capt. Hart. McHarg, of Vancouver, has won the Transvaal cup for rifle shooting for the second time in succession.

Thomas A. Edison, inventor of the phonograph the incandescent electric lamp, etc., is visiting the Canadian Park at Banff.

Two parties of surveyors sent out by the Dominion Government to seek suitable routes for the Hudson's Bay railway have left Prince Albert for the north.

The Arrow Lakes Lumber Co. will install an up-to-date box-making plant in time for next season's trade. It is also their intention to add a sash and door factory to their establishment, and to manufacture these commodities on a large scale.

Mr. E. J. Coyle, district passenger agent at Vancouver has severed his connection with the C.P.R.

The eight Italians charged with what is known as the Black Hand conspiracy will come before Judge Wilson at Fernie on the 7th inst. W. A. McDonald, of Nelson, will conduct the prosecution while the defence is in charge of Sherwood Herchmer, of Fernie.

MINING

Prospectors in the Pelly river valley state that they have found gold on the bars all the way from the river mouth to the lakes

The Center-Star and its allied mines are putting out about 3,500 tons of ore per week. A depth of 60ft has been reached below the 16th level of the Center-Star main shaft.

Through a loan of $20,000,000 made last October, John D. Rockfeller is said to have secured control of the Guggenheim smelting interests, known as the American Smelting and Refining Co.

Despite the so-called money stringency there is today an earnest and persistent search for big, partially developed mining properties, requiring large capital. The men who have made their money in mining realize its marvellous possibilities and hence are willing to risk unlimited sums in backing their judgement or that of their engineers. — Mining World.

The following unique claim notice is posted on a mine in the Grand Encampment, Wyoming, U.S.A.—"We found it and we claim it by the right of founding it. It's our'n. Its 750 feet in every direction except south-west and north-east, and there is 300 feet on each side of this writin'. It's called 'Bay Horse' and we claim even the spurs, and we don't want nobody jumping on this bay horse. That's what these trees is around here for, and we've got the same piece of rope that we had in Old Missouri—Signed,——

Original Anyhow

Duncan Woods arrived in Hedley last week from Summerland. This is his first visit to Hedley this year, and since he was last here he has been doing the eastern provinces including the capital of the Dominion, where he spent some time sizing up the federal legislators. He has a land policy of his own that looks like a winner, This is to give 160 acres to every girl over 18 and every widow on terms of actual settlement. Then the young men could be counted on to be right on hand to marry the women and incidentally, the land at the same time. The more this scheme is examined the sounder it appears, sociologically, financially and every other way.—Gazette.

The legal gentlemen now visiting the city might beguile away an hour or so on the steamer today by settling the following question which recently arose in Toronto: A woman offered for sale to a dealer a live hen at a certain price per pound. The hen was put on the scales to be weighed but when she was lifted off a new-laid egg was found in the pan. The dealer claimed that the egg went with the hen but the woman claimed that it was hers. The reporter who relates the incident omits to tell how the question was settled although their is a suspicion that the egg was broken in the struggle that ensued but as every one knows this does not affect the legal question involved.—Ex.

The Old Bridge on the Cariboo Trail

Wasted away are its timbers,
And rusted its band of steel;
No more will its proud old pathway
Thrill 'neath the packer's heel.

Back at the white man's coming
Its strong new cable swung;
And many the sturdy miner
It bore with hope still young.

Borne to a land of promise,
Bright with the lure of gold,
Gold that might cure heart-longing
And cheer when the heart grows old.

Long was the march and weary,
But vigor and hope pressed on,
Marching and toiling, and hoping,
Always away with the dawn.

Some in that pulsing army
Returned with hope still high,
And some with laggard footstep,
And some laid down to die.

And all are slowly dropping,
Like old planks, in the stream
That restless, ever surges,
With swell, and swirl, and gleam.

But the good old bridge still lingers,
With its weathered rusty stays,
Recalling to us the heroes
That passed in the earlier days.

—A. Raymond.

ECZEMA AGAIN OVERCOME

Zam-Buk cures a Case which for Two Years had Defied Every Remedy Tried.

A Farmer's Grateful Testimony.

No case of eczema, skin disease, or ulcerations, should be despaired of until Zam-Buk has been applied. The case of Mr. Francis Renoit, of St. Anne's, Man., is a powerful illustration of Zam-Buk's efficacy. He says: "I suffered from eczema for two years and tried a great number of remedies. None of them, however, seemed to do me any good.

The ailment was mostly in my legs, and both these were actually raw from the knees down. A small sample box of Zam-Buk was given to me, and even so small a quantity as that did me a little good. I then obtained a proper supply and by the time I had used a few boxes I was completely cured."

Zam-Buk differs from ordinary salves and embrocations in containing no animal oil or fat. It is compounded from rich healing, herbal essences, and is an ideal natural combination of power and purity. It is highly antiseptic, and instantly kills bacilli and disease germs, which settling into wounds and skin diseases set up festering, blood poison, etc.

For cuts, bruises, old wounds, running sores, ulcers, boils, eruptions, scalp sores, eczema, itch, barber's rash, burns, scalds, and all skin injuries and diseases. Zam-Buk is unequalled. Best cure for piles yet known. All druggists and stores at 50c. a box or from Zam-Buk Co., Toronto.

Everybody Agrees

that COD LIVER OIL and IRON are beyond question the greatest medicines known. Then why does not everybody take Cod Liver Oil and Iron? Simply, because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of FERROL, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in oil than any other emulsion, and while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is immensely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed FERROL and used it largely in their practice. FERROL is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and

"You Know What You Take"

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, dizziness, sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

Dear Mother

Your little ones are a constant care in Fall and Winter weather. They will catch cold. Do you know about Shiloh's Consumption Cure, the Lung Tonic, and what it has done for so many? It is said to be the only reliable remedy for all diseases of the air passages in children. It is absolutely harmless and pleasant to take. It is guaranteed to cure or your money is returned. The price is 25c. per bottle, and all dealers in medicine sell 3 4

SHILOH

This remedy should be in every household.

Copper

HANDBOOK.

(New Edition issued March, 1908.)
Size: Octavo. Pages: 1228.
Chapters: 25.
Scope: The Copper Industry of the World.

Covering; Copper History, Geology, Geography, Chemistry, Mineralolgy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, imports, Exports, Finances, Dividends, etc.

The Copper Handbook is concededly the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

The Miner needs the book for the facts it gives him regarding Geology, Mining, Copper Deposit . . . Copper Mines,

The Metallurgist needs the book for the facts it gives him regarding copper milling, leaching, smelting, and refining.

The Copper Consumer needs the book for every chapter it contains. It tells what and explains how and why.

The Investor in Copper Shares cannot afford to be without it. The Copper Handbook gives statistics and general information on one hand, with thousands of detailed mine descriptions on the other, covering the copper mines of the entire world, and the 40 pages of condensed statistical tables alone are worth more than the price of the book to each and every owner of copper mining shares.

Price: $5.00 in Buckram with gilt top, or $7.50 in full library morocco.

Terms: The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

GENERAL NOTES

Rawhide, Nev., has been destroyed by fire.

Premier Deakin has declared for the construction of a navy for Australia.

October 19th will probably be the date of Thanksgiving day this year.

It is now estimated that the wheat crop of the three Canadian prairie provinces will total 110-000,000 bushels.

The government of Sir Wilfrid Laurier have given away more of the public domain than any other of their predecessors but it has been to homesteaders.

J. S. Larke, Canadian Trade Commissioner for Australia, advises Canadian workmen to stay away from the Antipodes at the present time.

Five masked men held up the St. Eustace bank near Montreal, in broad daylight and got away with $12,000.

Sir Wilfrid Laurier, Premier of Canada has commenced his tour of Ontario and will probably come to British Columbia later in the fall.

There were 129,496 native laborers employed at the Rand at the end of May, while the number of Chinese was 21,667.

A two-cent letter postage rate will go into effect between Great Britain and the United States on Oct. 1st.

Hon. Clifford Sifton will run again for Brandon. He will probably be opposed by the Hon. T. Mayne Daly.

FROM KLONDYE TO EDMONTON

Long Northern Tour From Vancouver

Jos. Keele of the Dominion Government geological depart., Ottawa, arrived in Edmonton Thursday from the north. He left Dawson June 20, 1907, and made a survey of the Rocky mountains. Then he went up the Pelly river. He wintered in the mountains and came down the Gravel river to the Mackenzie in the spring. He traversed an entirely new section of country, and made a map of it. He was accompanied by two men from the Yukon who have not been out since 1898

A Scotch laboring man, who had married a rich widow, exceptional for her plainness, was accosted by his employer: "Well, Thomas," he said, "I hear you are married. What sort of a wife have you got?" "Well, sir," was the response, "She's the Creator's handiwork, but I canna' say she's His masterpiece."

RAILWAY ACTIVIVY IN FRASER VALLEY

Steam and Electric Roads Pushing Construction with Large Force of Men

Never before in the history of the Fraser Valley has there been so much railway building actually in progress and so great a mileage so certain of being opened to public traffic in the near future.

The V. V. & E. RR. is already rapidly finishing the ballasting of both the new lines between New Westminster and Blaine as well as the branch from Cloverdale to Huntingdon, and a number of trains are engaged laying the gravel.

The builders of the electric railway from New Westminster to Chilliwack are also rushing the work and will be ready for track-laying in a month's time, and will possibly be open for traffic before the end of the year.

Methodists Object

Secretary Taft, the Republican candidate for the Presidency, is a Unitarian, and it is alleged that some of the Trinitarians are for this reason opposed to him. The Boston Transcript says that a Methodist hymn book, printed in London and used in Canada until 40 years ago, had as Hymn 443, a production which concluded with the words:

"The Unitarian fiend expel,
A chase his doctrine back to hell."

MR. PERRY J.P.

A MAGISTRATE'S EVIDENCE IN FAVOR OF ZAM-BUK

Read carefully the evidence of Magistrate Perry given below and you will find that judged by men of experience who are fully qualified to decide, Zam-Buk more than fulfils all that is claimed for it.

Facts About Zam-Buk

Zam-Buk is different to the older ointments and salves in being purely herbal, without trace of animal oil or fat.

Zam-Buk applied to an open sore will immediately kill all disease germs and prevent festering, suppuration or blood poison.

Zam-Buk has penetrating power as well as healing power and used as an embrocation quickly cures rheumatism, sciatica, and neuralgia.

Zam-Buk by its miracles of healing has won the praise and confidence of magistrates, doctors, nurses, and men and women who KNOW. Test it at our expense.

"The Pavilion," Goldfield

After a very fair trial I have proved Zam-Buk eminently satisfactory. In my case it cured a skin rash of five years' standing which no doctor had been able to do any good for. I would certainly encourage any person to keep Zam-Buk in their home. It truly does even more than you claim for it. For my own part I would not now be without it in the house. Yours very truly,

ROGER F. PERRY,
Justice of the Peace for B.C.

FREE BOX

This coupon and 1c. stamp sent to Zam-Buk Co., Toronto with name of this paper will ensure you a free trial box. 3Z2

Zam-Buk Cures eczema, face rashes, ulcers, abscesses, cuts, bruises, Spring eruptions, running sores, poisoned wounds, chronic sores, etc. It is also good for piles and inflamed veins. As an embrocation it cures rheumatism and sciatica. All druggists and stores sell Zam-Buk, or Zam-Buk Co., Toronto, for price. 6 boxes sent for $2.50.

ZAM-BUK
THE GREAT SKIN-CURE.

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce;
Compound Salatone, one ounce;
Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Salatone and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

Synopsis of Canadian North-West

HOMESTEAD REGULATIONS.

ANY even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 150 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Land Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father mother, son, daughter, brother or sister of an intending homesteader.

DUTIES—1. At least six months' residence upon and cultivation of the land in each year for three years.

2. A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. joint ownership in land will not meet this requirement.

3. A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

W. W. CORY,
Deputy of the Minister of the Interior

The Times is in receipt of a very excellent map of the Dominion issued by the Department of the Interior. Among the notiable features is the proposed line of railway to the Hudson's Bay, which great project will be undertaken by the Dominion Government at an early day.

CRICKET.

Greenwood vs. Grand Forks

On Monday, Sept. 7, Grand Fork's cricket team journeyed over to Greenwood and encountered the local team. Greenwood won the toss and elected to field, to the surprise of all. Grand Forks were evidently in trouble from the start and were disposed of for the small total of twenty-nine runs. owing mainly to the excellent bowling of Alston and Somers. Greenwood then went to bat and compiled 56, of which Morey contributed 26, thus leading on the first innings by 30. Grand Forks again went in and this time knocked up 59, Alston again bowling finely, leaving the home team the small total of thirty runs to make, but over their efforts to get these runs a veil had better be drawn. Everyone, with the exception of Coles, were seized with the one idea of how quickly they could get back to the grand stand, the ultimate result being that Grand Forks won by the narrow margin of three runs. It was not an exhibition of what the team can do, however they meet Grand Forks again next Sunday, and no doubt they will recover their lost laurels. At the dinner in the evening the teams were addressed by W. A. Macdonald, K.C., of Nelson, who made an interesting speech on sport, generally voicing the feeling of the whole sporting community.

REVIVAL IN LUMBERING

Orders Received for Eastern Trade.

Encouraging reports are being received from the great lumber interests at the coast.

Orders are coming in both for overseas and northwest trade. The Chemainus mills have received large orders from the prairie provinces and the Red Fir Lumber Co. of Nanaimo has orders for 900,000 feet for early shipment.

The Vancouver mills have received large orders for the eastern trade. E. H. Heaps & Co. have received an order for 30,000,000 shingles for the east.

The coast mills are now running full time and there is little doubt that the mills in the interior will soon feel the effects of the wave of revival in the lumber trade.

North Vancouver Lodge, No. 55 I.O.O.F. is the latest to be added to the roll of that rapidly growing order.

Notice.

PUBLIC NOTICE is given by the undersigned that they propose under the Tramway Company Incorporation Act and amending acts of the Province of British Columbia to form a Company to be known as Greenwood-Phoenix Tramway Company Limited, for the purpose of constructing, equipping and operating a single or double track tramway under ground commencing at a point in the City of Greenwood in the District of Yale and Province of British Columbia, and running thence Easterly under ground toward and to the City of Phoenix in said District and Province.

Dated August 29th, 1908.

RICHARD ARMSTRONG,
DUNCAN McINTOSH.
THOMAS A. WOODRUFF.
