THE BOUNDARY MINING AND EXPLORATION CO.

Outline of the Plans of the Organization and Description of the Midway Coal Property.

The Boundary Mining and Exploration Company, Limited, is incorporated under the "Companies' Act, 1897," as a limited company, having a capital of one million dollars in shares of one dollar each. Of the capital stock 740,000 shares are in the treasury, and 40,000 shares of this treasury stock are now offered to the public to provide funds for the development of the coal properties of the company, situated about two and one-quarter miles west of Midway, B. C. The company owns 538 acres, more or less, of land on the Kettle river, at the point of the coal discovery, some of this acreage being fruit land of the first quality. The company further owns certain mineral claims and interests in claims which are considered valuable, and which will, in time, be developed sufficiently to be bonded or sold. It also holds options on a large number of mines, mineral claims and timber limits which are being handled by representatives of the company at various points in the east.

It is not proposed to become an operating company, but rather to act along the lines of exploration and development, with the view of proving the values of properties in order to sell or bond them profitably. In this province there are great opportunities for an organization doing business along these lines, there being many instances where the expenditure of a few hundred dollars will increase the value of a property ten fold. In this work we are aided by an intimate knowledge of local and general conditions. We are very conservative in our operations and have thus far been able, while adding materially to our holdings, to keep the balance well on the right side of the ledger.

The purpose of the present offering of stock is to provide funds for the development of the coal properties of the company, situated west of Midway. Only the amount of stock mentioned in this prospectus will be sold for the purpose, and we believe that stock will be at least doubled in value as soon as we begin our coal shipments.

LOCATION.

The coal mines are situated on Lots 422 and 637, in the Similkameen (formerly Osoyoos) division of Yale district. The lots are owned by the company, with the exception of ten acres, recently sold for a mill site. An extension of the Canadian Pacific railway from Midway runs the length of Lot 637, its present terminus being immediately below the working tunnel on the property.

The following distances to points where there is a good market for the output of the mines will give an idea of the exceedingly favorable situation:

Midway, 2¼ miles.
Greenwood, 11 miles.
Grand Forks, 28 miles.
B. C. smelter, 10 miles.
New Dominion smelter, 7 miles.
Granby smelter, 28 miles.
Republic, Wash., 38 miles.
Spokane, Wash., 171 miles.

In addition to the above there are a large number of cities and towns which are comparatively close at hand and where the demand for coal for domestic and steam purposes is very large.

WORK DONE.

The following development work has been done on the property:

Fifty-foot tunnel on the outcrop, cutting the seam matter throughout:

Thirty-six-foot shaft, drift and incline, all in seam matter.

Eighty-foot shaft and incline, following the seam between well defined walls which shows no signs of a break of any character

Working tunnel from the flat below the coal showings which will crosscut the proven seam at a vertical depth of about 150 feet. This tunnel is now in about ninety feet and is being rapidly pushed to completion.

The initial work, as may be seen, was done for the purpose of proving, at the smallest possible expense, the existence of a considerable body of the coal. The working tunnel now being driven will give approximately a mile of drifting ground in the main seam, besides proving the nature of other seams which show on the surface. The entrance of this tunnel is sufficiently high above the flat to allow a gravity tram to be constructed to the railroad, distant about 500 feet, or a short spur may be built to the tunnel entrance.

THE NUMBER ONE SEAM.

The seam varies in the surface workings between five and ten feet in width. It is fair to assume that at least a five-foot seam will be found at depth, a width most satisfactory for economical working. Assays made from coal samples from this seam return 66% carbon, 31% volatile matter and 3% ash. This one seam, if found of fair width in the tunnel, should return several times the amount received from the outstanding stock of the company up to the present time.

OTHER SHOWINGS.

There are surface indications of five other coal seams on the company's property. Their extent and value is as yet entirely problematical, as no development work has been done on any of them. It is proposed to prove the property by drilling at various points in the flat below the present workings.

OTHER HOLDINGS.

The company has staked three square miles of land to the west of their ground and proposes, as soon as the necessary authority is received from the government, to drill the land thoroughly. Surface coal is already located at one point on this acreage, and the general indications are all that could be desired. The company also holds under options approximately three square miles additional, extending west. At two points on this optioned ground coal has already been proven.

IN GENERAL.

The directors of the company believe that the stock now offered by them is an investment that is speculative only to a small degree, while the possible profits are very large. They can promise an honest and conservative administration of the affairs of the company. That they have the confidence of the people of their locality is indicated by the list of stockholders, all of this vicinity.

I. O. O. F. INSTALLATION

On Tuesday evening last, Boundary Valley lodge No. 38, I. O. O. F., held an installation of officers in their spacious lodge room on Government street. The following Grand officers were present: D. D. G. M. F. McDougal, P. G.; G. M. W. Cook, P. G.; G. W., W. E. B. Fleming, P. G.; G. R. S., J. L. White, P. G.; G. F. S., A. Logan, P. G.; Grand Treasurer, W. McKague, P. G.

The following officers of the lodge were installed: N. G., Fred B. Holmes, P. G.; V. G. F. Edward Brown, P. G; Rec. Sec., A. Logan, P. G.; Treasurer, A. E. Braithwaite-waite, P. G.; Warden, J. L. White,, P. G.; Conductor, D. A. McDonald, P. G.; Chaplain, R. T. Campbell; R. S. S., W. L. Watson; L. S. S., R. E. Pemberton; R. S. N G., J. Jaynes; L. S. N. G., J. A. McMillan; R. S. V. G., L. L. Mathews; L. S. V. G., A. Kier; Inside Guardian, W. B. Fleming, P. G.; Outside Guardian, W. Elson, P. G. At the close of a very pleasant evening refreshments were served by the Rebekahs. There were many visitors present from other I. O. O. F. lodges in the neighborhood. The Odd Fellows of Greenwood are a splendid representative organization, doing good on every side, and the local lodge has a membership of 109, with several applications for membership in hand. The total assets of the order in Greenwood is in the neighbothood of $10,000, a great record, and one that the Greenwood Odd Fellows are justly proud of. On next Tuesday evening the initatory degree will be conferred on three candidates.

SEE THE RAJAH

The musical comedy the Rajah that is to be produced here has enjoyed enormous popularity wherever played, it is full of mirth provoking situations, tuneful music and scenic effects and with the full strength of the Colonial Tourists should afford a good clean evening's entertainment for tonight, Jan. 14.

The Colonial Tourists have with them the famous Queen City Quartette, and the three comedians E. C. Hunt, Montie Collins and Charlie Rice, whose names above are enough to ensure many a laugh. It is to be hoped that this company will meet the patronage it desires so that they will continue to include Greenwood in their circuit.

Books, and more Books. See the display in the window this week. Price not considered. Do you want some cheap reading? The O. I. C. 2nd-Hand Dump, phone 18, A. L. WHITE.

THE FRECHETTE ATTACHMENT CO.

The Frechette attachment company, now being organized to acquire the patents issued or applied for by A. A. Frechette, of this city, will have a capital of $10,000, in ten thousand shares of $1 each. The company is composed of local business men, who intend to manufacture the inventions of Mr. Frechette, a steel horse collar guard, and a novel metal snap for use in harness, and put them on the market throughout Canada. American patents are being applied for. It is understood that the Canadian company will acquire an interest in the American patents. Much local interest is being manifested in the ingenious inventions of Mr. Frechette, who is an old time Greenwood citizen.

JANUARY 19

Hoot Mon! The Musical Highlanders are scheduled to give one performance at the Auditorium Wednesday evening, January 19 This promises to be one of the most delightful events of the season, and if the Highlanders prove to be one-half as good as the reputation they have established in other localities would seem to indicate, it is a foregone conclusion that a rare treat is in store for local amusement lovers. The company embraces both vocal and instrumental artists as well as comedians, sketch artists and a lady humorist and character impersonator. Prominent among the company are the two Strangs, the well known vocalists and delineators of Scotch character. Miss Strang is said to possess one of the best contralto voices ever heard on the concert stage, while her brother, Archie, has attained distinction as a singing comedian. The various members are handsomely and appropriately costumed, and to say that the company is deserving of liberal support at the hands of amusement lovers is merely to emphasize the belief that there is a large and legitimate field for organizations of the Highland type, which align themselves squarely on the side of respectability and decency, without losing any of their merit. The Highlanders will play under the auspices of the Curling club.

THE RIVERSIDE SOLD EOR CASH

A Phoenix syndicate, known as the Phoenix Riverside company, consisting of J. E. Thompson of Morrin & Thompson and many other business men of our thriving neighbor town, have bought the well known Riverside claim, the property of the Perkins estate for $2100.00 cash. William Perkins, a brother of the late Ben Perkins, the original owner, sold the claim to the new owners. Some of the members of the purchasing syndicate are owners of Badger, an adjacent property, and it is understood that the two claims will be worked together.

NEW CITY OFFICERS

Greenwood is indeed fortunate in being spared the disturbing excitement of a municipal election to say nothing of the expense. The following nominations for mayor, aldermen and school trustees were filed at the city hall on Monday last, and resulted in election by acclamation: Duncan McIntosh, mayor, nominated by S. P. Dixon and H. McCutcheon; aldermen for South ward, Hugh McKee, nominated by D. McIntosh and D. A. McDonald; James Sutherland, nominated by C. A. Demsey and D. McIntosh; Sanford P. Dixon, nominated by C. J. Eales and W. W. Craig; aldermen for North Ward, F. C. Buckless, nominated by H. Bunting, W. B. Fleming and J. L. Coles; W. W. Craig, nominated by D. McIntosh and S. P. Dixon; Andrew Sater, nominated by S. P. Dixon and Thomas Jenkin.

The following are the new school trustees for the year: F. W. McLaine, nominated by J. S. Birnie and I. N. Hallett; H. McCutcheon, nominated by J. S. Birnie and I. H. Hallett.

THE BALL

The Bachelors ball does not need any write up. It was right up-to-date and everyone had a good time. The Bachelors wish to thank all who helped to make it a success.

ASSOCIATIONS

How large a part association plays in our lives, what an influence it bears on our going and coming. The old home, where we spent our childhood, the little stream where the first small fish attached itself to the first small line we sported, all the instances of boyish happiness, all the small cares and worries and early heartaches are recalled, often in some far off land, in maturer years, by some little token kept sacred and preserved, taken care of for its association sake, and when viewed, reviving memories of home and all that word meant, and still means, to us all. A faded photo, treasured throughout the years, packed away carefully on each departure for new fields, can bring the tears and smiles with its peculiar association of childhood chums or school day pals, and a little piece of ribbon, the colors of the dear old school reminds one of the then long-seeming ages of school life, so full of episode, so crammed with play, adventure, discipline and work. Then, too, there is the program of the first grown up ball we attended, cracked with age, and illegible, but it breathes of the first flutter into the arena, the first peep at the larger world, the farewell to the old home, or the advent at college. Amongst all the old treasures of college days, perhaps only an ink-smeared flyleaf of a work we have long lost, a book, a pamphlet perhaps, that at the time was discussed in our rooms, where we held sweet communion with other keen spirits of our college days—dear associations—hundreds of them, all rush back, life in the dim receding past is lived again, days of eager endeavor, of such promise, flood the memory at the sight of some little token hoarded with the rest. Not last, or least, is the lock of hair of mother, sweetheart, wife or child—all gone long since—tied with a poor, frayed ribbon, bound with her own dear hand. What does it mean? Life and love and the old days, everything that was or is worth while—the sweetest associations of all the many such—speaking again the kind sweet words, loving thoughts of years ago. No letters can renew our youth, or bring tears, or smiles, as some such token saved from the wreckage of the toil and moil of life, with all their inner hidden meanings and reminders of what we were. So much is callous, so much is hard that these little treasures must be kept and looked at from time to time to sweep away the growing bitterness in life and the sordid grind for our daily bread. And when we ourselves must go in due course, far from the old scenes, far from the old friendships, perhaps if we have kept the little things, with the associations attached, that mean so much to us, others may treasure some little thing that will remind them of the short moments when our life circle intersected their life circles, and made, it is to be hoped, a little more sunshine or a few less tears, for love of association is love of others—and that is all that is worth while.

AN APPRECIATION

With the election of a new Mayor, and the retirement of ex-Mayor Bunting into private life, we take this opportunity of expressing our sincere appreciation of Mr. Bunting's work, as a citizen, and as our City Father for the past two years. Mr. Bunting has attended strictly to business, and has invested his hard earned money in local enterprises, and in many other ways exhibited a lively public interest in Greenwood city and district affairs.

So, here's to you, Mr. Bunting, and may you succeed in all your mining and business ventures—and that soon.

EDITORIAL COMMENT

The new mayor smiles and Greenwood citizens smile with him. Keep up the good work.

Goodbye Mayor Bunting. You did well. May you have good luck in everything you undertake.

If those who owe back taxes on their property in Greenwood would, this year of grace, make an effort to pay up in full, or even in part, Greenwood would be on its feet, would be able to hold its own, be able to do things and accomplish much in 1910 that it has been impossible to effect in past years, There is so much to be done, too, so come along, make this effort as one of your New Year resolutions, and pay, pay, pay your taxes.

OUTLINES OF CURRENT EVENTS

See the Rajah tonight.

Osoyoos lake is frozen over.

Cobalt shipped 30,000 tons of ore during 1909.

Hosmer beat Blairmore New Year's night at hockey by 4 goals to 1.

It was fifty below at Brandon and 36 below at Winnipeg last week.

Vancouver will adopt an up-to-date automatic telephone system.

Revelstoke will send a strong hockey team to take part in the annual Rossland Carnival matches.

Governor Henderson of the Yukon, says that quartz mining is going to be a success in that country.

Russia is offering the northern half of the Island of Saghalien for sale. Japan and the U. S. A. are expected to bid.

The French aviator Leon de Grande was killed at Bordeau last week when his aeroplane collapsed while he was making a flight.

Construction and equipment of the ferry across the Columbia to connect the Tete Jaune Cache trail with the Big Bend trail from Revelstoke have been completed.

A new company has been formed in London called the British Dominion Goldfield Ltd., which will take over several leases near Beaver Pass and Lightning creek, Cariboo.

It is announced at Paris that over $200,000 has already been subscribed to a fund of $1,000,000 to be used for prizes and expenses in a great aviation meet to be in France next year.

John Burns, who represents the labor union element in the British parliament was assaulted in Staffordshire after a political meeting last week by an unknown man.

The first sitting of the new Court of Appeal was opened in the Supreme Court room at Victoria Jan. 4. All the most prominent leaders of the legal profession in B. C., were present.

A terrible gale visited the Nova Scotia coast last week and forty-one fishermen are missing. The marine and fisheries department have sent assistance to help search for the missing boats and crews.

Billy Murray, an old Boundary pioneer, went east last summer and staked several claims in the Cobalt district, While there he had an attack of typhoid fever and will spend the winter in his old home in Petrolia.

Antoine Lamphrone, who died at Kamloops on Christmas Eve, is believed to have been British Columbia's oldest inhabitant—certainly the oldest white man in the province. He was 111 at the time of his decease. He had himself lost all count of the passage of years, but cherished an old, old family Bible, in which the fact was recorded of his birth on March 15, 1798.

Have you a weak throat? If so, you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another, and the last is always harder to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by all druggists and dealers.

A NEW NICKEL ALLOY

Monel metal, a new alloy of nickel recently put on the market, contains 68 per cent of Nickel, 1.5 per cent of iron, and 30.5 per cent of copper. It is silver white and takes a brilliant finish which it retains indefinitely. It is said to possess a tensile strength about 25 per cent greater and an elastic limit about 50 per cent higher than the best rolled steel, and it has, besides, the additional quality of incorrodibility. The mechanical possibilities open to such an alloy are endless. For example, the small cast propellers used in hydroplanes or high speed motor boats are subjected to enormous strain. Some propellers used in such boats make 1500 to 2000 revolutions a minute. The strain on a blade thinned down to an eighth of an inch, is so great that an extraordinary metal is required for this use. Manganese bronze bends at the blade tip and becomes useless, but monel metal has been fully tested in such service and proves to be absolutely rigid.

The busiest and mightiest little thing that ever was made is Chamberlain's Stomach and Liver Tablets. They do the work whenever you require their aid. These tablets change weakness into strength, listlessness into energy, gloominess into joyousness. Their action is so gentle one don't realize they have taken a purgative. Sold by all druggists and dealers.

KIDNAPPED

Lord Rondaldshay, member of parliament, was kidnapped last week following an address he delivered at a political meeting.

This meeting was broken up by rowdies, who carried Lord Rondaldshay to a nearby Socialist gathering.

The kidnappers had to fight off Rondaldshay's friends, but they succeeded in carrying their victim to another hall and there bombarded him with questions.

He was compelled to spend several hours answering the critics, and was in a state of collapse when liberated.

CARDINAL SATOLLI

Cardinal Satolli died last Saturday. He was born in 1839, in Marsciano, Italy. Of noble family, he was in great favor at the Vatican, and a close friend of Pope Leo. As Archbishop of Lepanto he was universally popular, He later came to the United States as apostolic delegate and he received the red hat in November 1905.

George Washington died the last hour of the day, of the last week, of the last month, of the last year, of the last century.

THE COMET

There are now two comets visible in the sky. One of these is Halley's and the other has not yet been identified with any previous visitor. The latter is about as bright as the former was a month ago; that is, it is visible in a small telescope. It is thought that perhaps it is the comet of 1867 returning on a second observed visit to the Sun. Whether or not it will ever be more than a telescopic object cannot now be determined.

Halley's comet is now receding from the Earth, but as it is approaching the Sun it will increase in brightness. It is now near the planet Mars, that is, it is apparently near that planet, and as it is said to be visible to the naked eye, it ought to be possible for a sharp-eyed person to find it on a clear night. Mars is the bright red star which is seen to the eastward, The comet is expected to grow brighter during January and February, after which it will be so close to the Sun that it will be invisible in the rays of that luminary, until the latter part of April, when it ought to become again visible in the morning, just before sunrise. It will disappear about the latter part of May; but just before disappearing it will be visible as an evening star. This will be during the last ten days in May. It will then be only 14,000,000 miles from Earth, but its position will be so low in the western sky that to see it one must look for it just as soon as twilight fades. Just how brilliant it may be is a matter of conjecture. Astronomers have noted that its brilliancy has been exceedingly variable.

Chamberlain's Cough Remedy never disappoints those who use it for obstinate coughs, colds and irritations of the throat and lungs. It stands unrivalled as a remedy for all throat and lung diseases. Sold by all druggists and dealers.

A BIG DAM

The second largest dam in the world is to be erected to span the Mississippi river at Keokuk, Ia. Contracts have been taken by three St. Louis concerns to furnish power from this dam to nearby cities. The cost is estimated at $15,000,000. One thousand men will be employed on the structure of reinforced concrete, 5,800 feet long.

A Minister, having walked through a village churchyard and observed the indiscriminate praises bestowed upon the dead, wrote upon the gate post the following:

"Here lie the dead, and here the living lie."

A petrified man was recently dug up in Arizona. He was probably a relative of the merchant who thinks he can do business without advertising.

For Bronchial and Throat Affections, Allen's Lung Balsam is unequalled.

TAKE NOTICE that I, George R. Naden, Free Miners' Certificate No. B71297, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under Section 37, must be commenced before the issuance of such Certificate of Improvements. Dated this 11th day of October, A. D. 1909.

28 GEORGE R. NADEN.

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

Synopsis of Canadian North-West

HOMESTEAD REGULATIONS.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister, of an intending homesteader.

The homesteader is required to preform the conditions connected there with under one of the following plans;

1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1. per acre. Not more than 2,560 acres shall be leased to one individual or company. A royality at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

Copper

New Edition of the

COPPER HANDBOOK

Vol. VIII., issued May, 1909, contains 1,500 pages, with nearly 50 per cent more matter than the preceding edition. The chapters with mine description and on statistics have been carefully revised and the bulk of the matter therein is

ENTIRELY NEW

There are 25 chapters.

Covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

The Copper Handbook is conceded to be the

World's Standard Reference Book on Copper.

The Copper Handbook contains, in this new and greatly enlarged edition about 50 per cent. more matter than the Bible—though not necessarily a better book because of its great bulk. It is filled with FACTS of vital importance to.

THE INVESTOR
THE SPECULATOR
THE METALLURGIST
THE CONSUMER
THE MINER

Price is $5 in Buckram with gilt top or $7.50 in genuine full library morocco. TERMS are most liberal. Send no money, but order the book sent to you all carriage charges prepaid, on one week's approval, to be returned if not satisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?

36, SHELDON BUILDING, HOUGHTON, MICH., U.S.A.

MINES AND MINING

In New York recently 200 shares of Hedley Gold Mining Co. stock were sold on the curb at $20 a share. It was the first transaction in this stock in New York.

An interesting amendment to the criminal code of Canada is at present receiving consideration in the house of commons at Ottawa, its author being Mr. Gordon of Nipissing, the bill having its origin in the failure of the law officers of Ontario to secure the conviction of certain parties much more than suspected of ore stealing in the Cobalt district. The new bill proposes to place the onus of proof on the defendant instead of upon the crown in such very special cases as are the perpetual curse of mining camps. The measure will excite special attention in the mining districts of this province. It reads as follows: "Everyone is guilty of an indictable offense and is liable to two years imprisonment who, having in his possession or upon his premises with his knowledge any rock, ore, mineral, stone or other substances containing gold or silver or any unsmelted or untreated or unmanufactured or partly smelted, partly treated, or partly manufactured gold or silver, is unable to prove that he came lawfully by the same."

The following comments on the future of the copper market from the Boston Commercial are most assuring: Copper is stronger. Lake is 14 cents and electrolytic is 13¼ cents per pound. Considerable sales have been made at these prices within the past few days. The consumptive demand has increased to such a point that consumers have been forced to come into the market, and producers are unwilling to sell any more metal at the low prices which have prevailed through the greater portion of the year. The prediction that copper would sell at 14 cents before January 1 has been verified, and the anticipation that it will go to 15 cents should be realized soon. Consumption is now increasing more rapidly than production. There is likely to be a decided scarcity of copper within three or four months and the price may go well above 15 cents. The use of water power for the generation of electricity and the electrification of manufacturing plants and transportation lines, the extension of electric lighting in various fields, including for advertising purposes, and the steadily growing use of the telephone in rural districts are combining to greatly increase the consumption of copper the world over. When the work of electrifying the great trunk lines of railroad between the principal cities of the northeastern, central and southern portions of the United States and the electrification of the mountain divisions of the several transcontinental lines gets fairly under way the price of copper will again advance to around 20 cents and remain at approximately that level for two or three years. We believe that plans for this railroad electrification are being laid out now and that they will be adopted within a year or two and the work well under way within three years. There is every prospect that the average price of copper in 1910 will be 15 cents, and there is reason to hope that it will be maintained at approximately this price until consumption so far exceeds production as to cause a further advance.

Chamberlain's Cough Remedy is not a common, every-day cough mixture. It is a meritorious remedy for all the troublesome and dangerous complications resulting from cold in the head, throat, chest or lungs. Sold by all druggists and dealers.

TRAINS TO TIBET

As part of the campaign of the Chinese government to control the Tibetans, the council has determined to promote the building of a railway from Changtu to Lhassa. The survey for the line will be commenced forthwith.

SCOUT'S PATROL SONG

(Rudyard Kipling)

These are our regulations—
There is just one law for the Scout,
And the first and the last, and the present and past,
And the future and perfect is "Look out!"

I, thou, and he, look out!
We, ye, and they, look out!
Though you didn't or you wouldn't,
Or you hadn't or you couldn't;
You jolly well must look out!

Look out when you start for the day
That your kit is packed to your mind;
There's is no use going away
With half of it left behind.
Look out that your laces are tight.
And your boots are easy and stout.
Or you'll end with a blister by night.

(Chorus) All patrols look out!

Look out for the birds of the air,
Look out for the beasts of the field;
They'll tell to you how and where
The other side's concealed.
When the blackbird bolts from the copse,
And the cattle are staring about,
The wise commander stop.

(Chorus) All patrols look out!

Look out when your front is clear,
And you feel you are bound to win.
Look out for your flank and your rear—
For that's where surprises begin.
For the rustle that isn't a rat,
For the splash that isn't a trout,
For the boulder that may be a hat:

(Chorus) All patrols look out!

For the innocent knee high grass,
For the ditch that never tells,
Look out! Look out ere you pass—
And look out for everything else!
A sign mis-read as you run
May turn retreat to a rout—
For all things under the sun:

(Chorus) All patrols look out!

Look out when your temper goes
At the end of a losing game;
And your boots are too tight for your toes,
And you answer and argue and blame,
It's the hardest part of the law,
But it has to be learned by the Scout—
For whining and shirking and "jaw;"

(Chorus) All patrols look out!

MOTHERS BLESS ZAM-BUK

Read How It Gives the Little Ones Ease.

A most important thing for mothers to watch is the treatment of rashes, chafed or chapped places, etc. When you put an ointment on to a child's skin it gets into the blood through the pores just as surely as if you put it into a child's stomach. Did you ever think of that? How important, therefore, that the salve or balm should be pure! Zam Buk is absolutely pure; contains no animal fat; no mineral coloring matter; no acid astringents; no burning antiseptics—yet it is antiseptic! It is purely herbal, and thus meets all the needs of the skin in that superior way in which nature always provides.

Mrs. R. Gentleman, of 1090 St. James street, Montreal, says: "My two-year-old daughter had eczema for over six months, on face and body. Doctor didn't cure. We tried various remedies in vain, but could give the little one no ease. When Zam-Buk was tried it was very different. It soothed the pain and the irritation, and the child ceased to scratch. Perseverance with Zam-Buk brought a complete cure."

Mrs. C. W. Bowerbank, of 126 Denison avenue, Toronto, says her baby's face was covered with a burning eruption. Little one was terribly pained—scratched, and made the places very bad. Zam-Buk cured.

Scores of similar cases could be cited. Zam-Buk should be in every home, because it heals sores, stops pain, and ends skin diseases. Eczema, itch, ulcers, bad legs, poisoned wounds, abscesses, cold sores, cracked hands, scalp sores, whether in children or adults, are cured by Zam-Buk. It is also a cure for piles. All druggists and stores at 50c. a box, or post free from Zam-Buk Co., Toronto, for price. Send a 1-cent stamp (to pay return postage) and we will mail you a free trial box.

CHAMPAGNE TRUST

An effort is being made by financiers in New York city, according to reports received from the grape regions of western New York, to consolidate all of the champagne and wine making establishments of the United States. J. P. Morgan, it is said is at the head of the proposed combination.

Chamberlain's Cough Remedy is a very valuable medicine for throat and lung troubles, quickly relieves and cures painful breathing and a dangerously sounding cough which indicates congested lungs. Sold by all druggists and dealers.

Two girls, that they might catch an early train, ran through the streets of Danbury, Conn., in their pajamas. Evidently Danbury is no place for the man who oversleeps.

EVACUATE MACAO

The Chinese government have notified the Portugese government to evacuate Macao. Macao is on an island of the same name at the mouth of the Canton river. China holds that for some years all dependencies and the city of Macao have been occupied illegally by Portugal, and that the only concession of territory ever made to Portugal was the town of Macao. China insists that the territory and adjacent islands be evacuated by Portugal.

At the Hongkong conference the Chinese delegates refused to recognize Portugal's claim in Macao or to submit the question to arbitration. Later the Portuguese government sent General Machedo to China in the hope of reaching an amicable settlement of the dispute, but he failed in this mission.

"The D. & L." Emulsion will build you up, will make you fat and healthy. Especially beneficial to those who are "all run down."

A GREAT HEIGHT

Hubert Latham, the French aviator, has eclipsed all flight records in a heavier-than-air machine. He reached a height of 3,600 feet. His machine rose gracefully at Mourmelon, in France, last week, and mounted higher and higher on each turn of the course till it was a mere speck in the sky.

Owing to the disturbed political condition of Greece, the Olympic games will not be held this year.

BUFFALO MEAT

Buffalo meat is on sale in the the market of New York for the first time in many years, 2,800 pounds, representing four buffalo, are offered and the meat brings 75 cents a pound.

The hides are on sale for $1,000 each. Thirty years ago they could have been bought for $5 a piece.

THE SOUTH POLE

England, France and U. S. A. are all sending expeditions to the South pole. If they all get there, it will have enough red, white and blue bunting to look like a barber's pole. It will be a close shave to whoever gets there first, anyway.

A BIG SALE

The Dominion Trust block at New Westminster was sold last week for $140,000, This block was built in 1907 and has a frontage of 66 feet, It is six stories high.

"Is your married life one grand sweet song?" "Well, since our our baby's been born it's been more like an opera, full of grand marches, with loud calls for the author every night."

It sometimes happeneth that a thing of no intrinsic value may lend value to its environment, like the unobtrusive rock in a load of hay.

Severe earthquake shocks have been felt in Yucatan and the West Indies this week.

SEND FOR WIVES

The Hindus of Vancouver are sending a Hindu priest to India to bring out their wives and sweethearts. The priest left on the steamer Monteagle for the east to gather up the wives of men now at the coast and a choice of women for those who desire them.

"The D&L" Emulsion (Trade Mark.)

Makes Solid Flesh

Because it *creates* an appetite.
It builds up the jaded, run-down system in a *natural* way
50c. and $1.00 bottles at all druggists.
Be sure you get the genuine.

BUY STOCK
IN THE
ARGO MINING AND TUNNEL COMPANY, LIMITED.

25 Cents a Share

Capital Stock $125,000, Divided into 500,000 Shares at 25c Each.

A NON-PERSONAL LIABILITY

Now running a tunnel (in 200 feet) under valuable claims adjoining Greenwood Townsite on Skylark Mountain.

OLA LOFSTAD, President. A. S. BLACK, Secretary.

THE BOUNDARY MINING AND EXPLORATION COMPANY, LTD.

FIFTY THOUSAND SHARES

Of the capital stock of this Company are offered for sale at

25 Cents Per Share, $1.00 Par

To provide funds for the development of its coal properties near Midway.

The company owns the coal rights of 2,458 acres of land and has options on three square miles additional. Work has been done in development continuously since September 2, and a tunnel is now being driven to cross-cut three seams which show on the surface. Coal can be delivered from the mouth of this tunnel to the C. P. R. tracks below by gravity.

Development work done thus far is as follows:

One prospecting tunnel on the surface of the seam, 50 feet in length.

One shaft and drifts, about 45 feet, all in the coal seam.

One shaft and incline, following the proven seam to the depth of 80 feet.

An analysis of the surface coal returns 66 per cent carbon and only 3 per cent ash.

The Company owns other properties, including fruit lands, mineral claims, options on mineral claims, mines and timber limits. Its coal holdings alone are considered worth more than its issued capital stock. An investment in this stock at the present price should be immensely productive.

This is an opportunity of which you should take advantage without delay.

Send applications or write for information to

THE BOUNDARY MINING AND EXPLORATION CO., LTD.,
GREENWOOD, B. C.

Made from cream of tartar, derived solely from grapes. All the ingredients of Dr. Price's Baking Powder are printed on the label. They are pure, healthful and proper.

When baking powders are peddled or demonstrated, examine their labels. You will find they are not made from cream of tartar. You don't want them

TOWN TOPICS

Duncan McIntosh is Mayor.

Kilties Koming January 19th.

Tonight is the night? Ask the Rajah!

There were only three run-aways this week.

D. C. Fraser, of Nelson, visited Greenwood on Tuesday.

The B. C. Copper company disbursed $45,000, on pay day this week.

The bald headed row is already engaged for tonight at the Auditorium. The Rajah did it.

There is a Knights of Phythias Ball, at Terry's Hall, Midway, tonight. Govern yourselves accordingly.

Thomas Jenkins makes an excellent acting Chief of Police. It is to be hoped this appointment will be permanent.

The Ladies Reading club will meet on Monday afternoon next, at 3 o'clock, at the home of Mrs. Cummins, Church street.

Sid W. Brown, of Oroville, was a visitor to Greenwood on Monday. Mr. Brown has just returned from the Southern states and Mexico.

Hoot mon! The Highlanders are coming. They will play under the auspices of Greenwood Curling club, on Wednesday evening Jan. 19, at the Aditorium.

The Acme Stock Co., gave a performance of "Confusion" at the Sunset mine hall on Saturday evening last. The attendance from the Mother Lode was good and the play much appreciated.

F. C. Buckless, of the Palace Livery stable has moved to the Livery barn next Holmes & Kennedy's store, and the Midway Stage Co., which is owned and managed by J. J. McDonnell has moved its office to the former site of the Palace Livery stables.

A sale by Public Auction will be held at the Messrs Loach and Somers ranch, one mile from Myncaster station, on Tuesday, February 8, at 10 a. m. of the entire stock of cattle, horses, farming implements etc. Henry Nicholson of Rock Creek Auctioneer.

Work is progressing in the long tunnel being driven on the property of the Boundary mining and Exploration Co.'s coal property at Midway. There are several men working in the tunnel and the indications point to an early arrival at the coal seams already exploited on the surface.

The St. Jude's Guild met last Tuesday, at the home of Mrs. J. E. McAllister, to elect officers for the coming year. The new officers are: Mrs. G. B. Taylor, president; Mrs. E. R. Redpath, vice-president. The committee is as follows: Mrs. McMynn, Mrs. Shchrapnel, Mrs McAllister, Mrs. Cummins. The next meeting of the Guild will be held at the house of Mrs Proctor, Tuesday, 18. Orders for work will be appreciated.

THIRTY-SIX FEET OF ORE

Development on the Tip Top mine, which is within half a mile of town, has now shown up 36 feet of copper ore. Samples have been taken of this ore body which give $20 in gold values to the ton. We may see another Mother Lode, and one which will be of most distinct benefit to Greenwood, at our eastern gateway before long. The owners are to be congratulated. This mine is being operated under a bond for the half interest by the Consolidated Gold Mines company, of Seattle.

WANTED

Good, live business of any description. Must be a paying proposition.
VANCOUVER LOCATORS,
Loo Block, Vancouver, B. C.

FOR SALE

A horse, 1,000 pounds, buggy, cutter, single harness, riding saddle and bridle. All for $175 cash. Apply to Boundary Creek Times office.

"THE BONNIE BRIER BUSH"

From start to finish an enthusiastic audience enjoyed the performance of "Bonnie Brier Bush", on Tuesday at the Auditorium.

The play itself is of unusual interest and the company presented it most artistically. Especial praise is due Alex Milne for his splendid interpretation of Lachlan Campbell. Miss Eva Walley as Flora Campbell, a most difficult part, was decidedly clever.

"Posty", perhaps the most delightful character in the play, was in good hands, William Colvin has every qualification to please. Dr. McLure, the Scotch country practitioner who had spent his life in Drumtochty, was a most lovable physician and Wm. Meikle was every inch the doctor. The popular hit of the evening was the capital singing and acting of Gertrude and Clara Lindsay, two small girls with a big future and Mrs. Lindsay has every reason to be proud of her bairns. Her own acting as Margaret, a demure scotch widow, was delightful. Tammas the shepherd boy had a most difficult part and did it well, to have to be slow to kiss Annie, the most attractive milkmaid Greenwood has seen.

HOCKEY

Kamloops beat Nicola by 2 to 1.

The Shamrocks beat All Montreal by 6 to 3.

Revelstoke won a great victory over the C. P. R. team by a score of 3 to 1, last Friday.

Cornell won the final hockey game of the series between Cornell and Yale last week by a score of 3 to 1.

Residence property for sale on easy payments. A. L. WHITE.

NOTICE OF SHERIFF SALE

In the County Court of Yale, holden at Greenwood, between Keith and Ketchum, plaintiffs, and Hugh Cropley, defendant.

TAKE NOTICE That I have, by virtue of a warrant of execution, issued out of the County Court of Yale, holden at Greenwood, dated the 30th day of December, 1909, directing the sheriff of that portion of the county of Yale, not comprised within the Grand Forks and Greenwood Electoral Districts, to make and levy by distress and sale of the goods and chattels of the above named defendant, Hugh Cropley, the sum of six hundred and fifty-nine dollars, fifty-eight cents ($659.58) and costs, to satisfy a judgment obtained by the above named plaintiffs against the above named defendant for debt and costs, taken in execution and will sell, at the Court House at Greenwood, at eleven o'clock, forenoon, on Thursday, the 10th day of February, 1910, the interests of the above named defendant in the Homestake and Wellington Fraction mineral claims, situated at Wallace mountain, Beaverdell, Greenwood Mining division of Yale district, unless the amount of said warrant and costs has previously been paid to me.

Terms of sale, cash.

JAMES S. BIRNIE, Deputy Sheriff.

CITY COUNCIL

The last meeting of the 1909 City Council took place at the city hall, on Monday night, January 10, Mayor Bunting, Aldermen Dixon, Meyer and Buckless being present.

The minutes of the previous meeting were adopted as read, and the following accounts ordered paid: B. C. Times, $16.40; Ledge, $8.40; Dr. McLean, $58. This concluded the business of the 1909 council.
