Men's all-wool unshrinkable shirts and drawers, very heavy ribbed knit to fiit Special each ..... $1.25 each

Ladies vests and drawers, full fashioned fleece lined. Each ..... 33 cs

Boys' sanitary fleece shirts and drawers perfect fitting. Each ..... 25 cts

AGENTS FOR Mason & Risch Pianos and Standard Patterns.

Store closes daily at seven o'clock, except Saturdays at 10 p. m.

The Nicola Branch.

Trains will be running from Spence's Bridge on the main line of the C. P. R. into the Nicola Lake country in two months if the present expectations are realized. Grading on the right of way from Spence's Bridge to Nicola Lake, a distance of 45 miles, has proceeded so far that the laying of the steel is within measurable distance. Once the tracks are started, they will be pushed right through and the ballasting rushed so that the line may be opened for general traffic as early in the spring as possible. It is thought probable by Loss & Macdonald, the contractors for construction, that tracklaying will be commenced in about a month.

WANTED.

Position as bookkeeper or clerk by a young man, capable and can furnish good recommendations. A. L., P. O. Box 93.

Pacific Cafe . .

NOW OPEN UNDER NEW MANAGEMENT

Having rented the dining room and lunch counter of the Pacific Hotel, I will open to the public the large Dining Room. Everything throughout has been renovated, and guests will find this the cleanest and most comfortable dining room in the city . . . . . .

ANNUAL MEETING

Of the Providence Mining Company Tuesday.

SHOWING FOR THE YEAR

Good Balance on Hand—The Board of Directors.

The annual meeting of the Providence Mining company was held Tuesday last. There was a good attendance of local shareholders at the meeting, as well as those representing the Chicago interests in the company. The reports of the managing director, the superintendent, and the balance sheet for the past year, were read and adopted. Directors were appointed to fill the statutory vacancies on the board, the following being the complete board of directors:

M. F. Madden, president and managing director.

Dr. Frank Brynes, vice-president.

J. B. Heeney, secretary-treasurer.

Directors—D. B. Scuttly, H. J. Fitzgerald, Franklin Rudolph, W. S. Macey, J. H. Hiidrith, M. S Madden.

Below will be found the balance sheet and the superintendent's report:

SUPERINTENDENT'S REPORT

GENTLEMEN: I beg herewith to offer a condensed report of the work performed under my supervision in the Providence Mine from November 1st, 1904, when I undertook the management of the mine, to the 30th day of September, 1905.

I found the mine in very poor shape, all available ore was on the 300-foot level, and was 43 feet long, 12 feet high and 6 inches in thickness. This ore I stoped and shipped.

I started crosscutting at several places on the surface of the claim, and did much work thereon, working until snow fell, and I succeeded in finding ore on the surface south of the entrance of what is now called the No 2 tunnel (the 300 foot level), and I stripped the wash off and opened the vein up for 100 feet, stoping down for 12 feet, the vein being about 8 inches in thickness. This ore I shipped.

After demonstrating that this ore was continuous on the surface, I started a drift on the No. 4 (200-foot level, from the point where the previous work had ceased, and running south passed through the dyke, which was about twenty feet in thickness, and immediately encountered ore.

I examined the north drift of the No. 4 level and drove this for about 25 feet, but found no ore. There was a break. I ran three upraises, about 60 feet, but without results.

To date I have drifted on the 200-foot level 347 feet, crosscut 20 feet, sunk 12 feet and raised 30 feet.

On the 300-foot level I have drifted south 300 feet (this drift is about 14 feet high), raised 20 feet, drifted north 42 feet, and made three raises of 30 feet each.

I have sunk the main shaft 75 feet and crosscut to the ore 120 feet. I have drifted on the 400-foot level. 286 feet, 14 feet high, sunk a winze 26 feet, raised 100 feet, and widened drift 150 feet. I also timbered and put in chutes on the 200-foot level 130 feet, timbered and put in sill floor and chutes on the 300 foot level 185 feet, and timbered and put in chutes on the 400 foot level 190 feet.

In addition to this I did a considerable amount of surface work, including cuts. The following is a memo of the cost of the above work:

500 feet drifting at $24	$13,920
955 feet drifts and tunnels at $12	11,460
160 feet open cut at $6	960
313 feet open cut at $1	213
1200 feet ditch at $1	1,200
75 feet shaft at $20	1,500
12 feet shaft at $20	240
	$29,593

During this period I mined 657 tons of ore at an average cost per ton of $19.83,

In addition, during the year, the mine buildings have been improved and an up-to-date plant, including a new boiler and air compressor and 1,200 feet of piping for water supply, has been installed.

The mine at the present time is in much better condition than when I first took charge and will bear inspection by the Board.

I would respectfully recommend that the Board take up the question of installing a eomplete electric plant, including a shaft house, drying room and office building, as the present supply of wood is beginning to become very limited. I estimate that these improvements would cost in the neighbornood of $30,000.

In conclusion, I would ask to point out that, owing to the friction in the directorate of the company, the mine was practically running only seven months out of the eleven months covered by this report.

All of which is respectfully submitted. Yours obediently,

P. J. DERMODY, Superintendent.

AUDITOR'S REPORT.

GENTLEMEN: I beg to report having completed my audit of your books for the year ending September 30, 1905, and hand you herewith copy of balance sheet and profit and loss account.

On referring to the balance sheet you will find included in the assets "Diamond Claim, $8,000." The stock issued in payment of this claim is also included in the liabilities. I understand the litigation in connection with the purchase of this claim is not yet settled, consequently these entries cannot be removed from your books.

You will also notice included in the assets is an item of "$516.16, Suspense Account." This is for disbursements in connection with litigation and before passing the expenditure it will be necessary for me to look thoroughly into the legal aspect of the same, consequently I think it will be better for the shareholders to deal with this item.

A considerable amount has been written off for depreciation, and you are to be congratulated on having directors who take such a conservative view of your affairs.

All statutory requirements have been complied with, except the registration of a list of your directors. This should be attended to after your next annual meeting. Respectfully submitted,

E. R. McDERMID, Auditor.

THE GREENWOOD SPIRIT.

During the past few weeks a number of prominent men have visited Greenwood and surrounding district. Some of them represented large capital that is seeking new fields of investment. They came here and went away, and any favorable impression they may have carried away with them, or any merit they discovered in its resources were largely the result of their own efforts. A few of these men who are naturally observant discovered that outside of its mineral resources the Boundary has a climate unsurpassed, and large areas of fruit lands which properly subdivided and irrigated would provide homes for hundreds of families. The residents of the district discuss the fruit-growing virtues of the Similkameen and the Okanagan and overlook the merits of their own district. It is high time that the people should organize for the purpose of exploiting the wonderfully rich and varied resources of the Boundary. A seemingly unshakable lethargy has fastened itself on business men and others at a time when the greatest activity should be shown. The Board of Trade is in a state of hopeless inocuous disuetude. Its president is no longer a resident of the city and its secretary is temporarily absent, and no one apparently has the courage to attempt to revive it. Kindred organizations are evidently filled pith the idea that Greenwood can just grow as Topsy did.

The outlook was never brighter than it is today. Events which will make the Boundary one of the greatest districts in the world and Greenwood its center, are crowding fast upon each other. All that is needed is to arouse a proper public spirit, to secure a citizenship that is working first, last and all the time for Greenwood.

The time to do the right thing is NOW.

CRITICISM.

The Conservative press having tired of eulogizing Sir William Mulock, are now traducing his successor, A. B. Aylesworth. He is charged with having acted in a legal capacity in connection with the events which led up to the Gamey investigation, and the Hedley Gazette accuses him of having opposed the V., V. & E. before the railway commission a few days before he accepted office. At the same time the Gazette did not publish the fact that during the railway fight last summer A. B. Aylesworth saved the situation by as masterly an argument as was ever heard by the railway committee, and this with only a few hours preparation. So far as his opposition in reference to the plans was concerned it may be stated that Mr. Aylesworth's firm were solicitors for the Similkameen and Keremeos railway. That his firm filed the plans for this railway company and was naturally engaged to defend those plans.

Unless the Conservative press have something stronger to urge against the new minister than his record as an active and brilliant legal practitioner, would it not be much better to withold criticism until he has a record as an administrator of an important department.

Regarding the criticism of public men President Roosevelt recently gave some sound advice which applies with equal force to the public men of Canada, and the unfair way in which they are sometimes assailed. The president said:

"Ss far from asking that you be lenient in your judgment of any public man, I hold that you are recreant to duty if you are lenient. Do not be lenient, but be just If you dislike a man's policy, say so. If you think he is acting in a way so misguided that he will bring ruin to the state or nation, say so; but do not accuse him of corruption unless you know he is corrupt. If you have good reason to believe that he is corrupt, then refuse under any plea of party expediency, under any consideration, from refraining from smiting him with the sword of the Lord and of Gideon."

ALLEGED hotels are being erected for Lloyd A. Manley and C. Thomas on the right of way of way of the V. V. & E. Should licences be granted to those places the instructions of the attorney-general will be violated, the wishes of the railway companies disregarded, and the lives of the workmen endangered. It remains to be seen whether the Manley grip still securely clutches the board of license commissioners.

WE have just received from the office of the Vernon News a booklet entitled "The Land of Fruit and Sunshine." It describes the Okanagan valley and its resources. This garden spot furnishes an abundance of first-class material for the writer and the illustrator and none of it was overlooked in the preparation of this interesting work.

IT was a drastic way of attempting to secure an advance from the Eastern Townships Bank at Midway.

ANOTHER SMART TRICK

The C. P. R. Tries to Obstruct Midway and Vernon.

FURTHER invasions of the Canadian Pacific Railway company's preserve in Southern British Columbia by the Midway and Vernon railway company has turned the attention of the officials of Canada's national highway to its less pretentious rival. Some time ago the work of grading the Midway and Vernon was commenced on Myerhoff's ranch and continued westerly along the Kettle river. Plans were filed showing where the Midway and Vernon would run east of the Myerhoff ranch. From these plans C. P. R. officials ascertained that a crossing would be made with their contemplated line west of Midway. Immediately a gang of men were sent to Midway and active construction and tracklaying was begun from the Midway terminus of the C. & W. westward to where the Midway and Vernon would cross. The object of this sudden activity in railway building without the customary governmental assistance was apparent. The C. P. R. wanted to get to the crossing first so that the Midway and Vernon would have to pay for the crossing and its maintenance. But the C. P. R. ran up against its own game. The Myerhoff property was recently secured by the Midway and Vernon, and when the C. P. R. officials tried to get the necessary right of way they discovered that they had to deal with the company upon which they were trying to play one of those smart tricks for which the C. P. R. is noted.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. VOL. 11, NO. 8. OCT. 27, 1905

LOCAL NEWS ITEMS.

Next week the Times will enlarge to eight pages.

Mr. Brown of Sarnia, Ont., is visiting his son, J. R. Brown, M. P. P.

Hugh McLean, of McLean Bros., Vancouver, was a visitor to the city this week.

R. T. Longly, formerly superintendent at the Carmi, returned from the east last week.

Jack Luce left this morning for Chicago to complete a deal for his Deadwood properties.

Al. Sanderson leaves for Toronto tomorrow to settle up the estate of a brother, lately deceased.

The waterworks extension is completed, and Greenwood now has as good a system as there is in te interior both for fire protection and domestic purposes.

The sale of coke. advertised for last week did not come off. The Coal company made a slight reduction on the original price, the C. P. R. carved their freight charges, and the smelters tosk the coke.

R. H. Anderson, formerly superintendent of the B. C. mine, has returned to the district. After the close down of the B C Mr. Anderson went to Rossland as superintendent of the Le Roi under Mr. Parish. He still represents the B C Chartered company, which owns the B C mine, and it is quite possible that work may be resumed on the property.

A committee of the Granby smelter emdloyes waited on Superintendent Hodges yesterday and made a request for eight hour shifts instead of the present twelve hour periods. Mr. Hodges stated that personally he favored eight hours for the men now working twelve, and promised to send the request to New York so that it would reach there in time for the next directors' meeting. The men now working ten hours, however, he thought should be satisfied with their present condition.—Grand Forks Sun.

How to Cure Corns and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains bruises, lameness and rheumatism, Pain Balm is unequaled. For sale by all druggists.

Copper tubes free from laminations can be made by electrolytic precipitation of copper on a revolving mandrel constituting the cathode. It has been found that the tensile strength of the copper increases with the speed of cathode rotation. Any stoppage or variation of the speed of rotation causes lamination.

GRANBY MAKING MONEY

Profits for Past Year Were $712,000 and Company Out of Debt.

Profits aggregating $712,649 are announced to shareholders of the Granby Consolidated Mining, Smelting and Power company in the directors' report submitted at the annual meeting in New York on the 17th inst.

The company's position set forth at the close of the fiscal year is as follaws:

"The mines, at which development work is being constantly pushed, look well; the quantity of ore blocked out is largely in excess of that of last year. The smelting works, thanks to improvements recently introduced, are in a high state of efficiency. The company is entirely free from debt and in addition to a large cash balance on hand, has other available assets in the shape of blister copper in transit from the smelter to the refining works."

The bullion produced during the year ended June 30 was as follows: Fourteen million two hundred and thirty-seven thousand six hundred and twenty two pounds fine copper, 212,189 ounces fine silver and 4,284 ounces of gold. The average price net received for copper was 14.36 cents; fine silver, 58.3 cents. The total amount realized from the sale of these metals was $2,749,145.

The cost of operating mines and smelter and general expenses was $1,797.964. Customs ores were bought to the extent of $238,531.

The net surplus from the previous year as corrected is placed at $842,226, and with last year's net profits added, a net surplus of June 30, 1905, of $1,554,875 is shown in the report. It is not stated what form the surplus takes.

The company's assets are divided as follows: Land, real estate, machinery, buildings and equipment, $14,451,565; stocks, bonds and bills receivable, $45,545; cash, copper in transit, less advance, $581,113; fuel and store supplies, $158,346; total $15,239,570.

The auditors state that their examination of the company's books on August 5 last showed a cash balance of $304.2 1.97.

Additions to the company's holdings in Phoenix camp and improvements at the smelter necessitated last year an outlay of $486.567.81. Of this $142,603 53 went for the purchase of mining properties. This year further large outlays will be required.

Special Rates to Steady Boarders and Roomers.

The famous Jameson raid in the Transvaal of South Africo was made in 1895 and its leader was L. S. Jameson, a physician by profession. Durdisturbances between the Boers and Uitlanders in the South African republic, Jameson, through orders given by Cecil Rhodes, then premier at the Cape, assembled a force on the Transvaal border to act in case of emergency. On December 29, with 600 troopers, Jameson of his own will entered the South African republic to aid in the support of the Uitlander party, and he and his entire force were captured by the Boers. Jameson and his officers were handed over by Kruger to the British government for trial and Jameson was sentenced to ten months imprisonment, but served only a small part of the confinement, being released because of sickness. Some of the best known mining men of the world were with Jameson when captured.

Formerly there were mints for the coinage of money in almost every county in Great Britain, Besides the sovereign, barons, bishops and the main monasteries exercised the right of coining. From William the Conqueror's time the greatest part of the coining in Great Britain was done in London, but it was not until the reign of William III that all the provincial mints were abolished. The present mint on Tower Hill in London was erected in 1812. The London mint supplies the whole of the coinage of the British Empire, except Australia and the East Indies, which are supplied from branch mints in Sydney, Perth, Calcutta and Bombay.

W, H. Armstrong of Vancouver passed through, Monday on his way to the Coulthard ranch, of which he is one of the principal owners. Mr. Armstrong states that 2,500 fruit trees were set out last spring and that 25,000 will be planted next year. An irrigation project is in process of construction, which will provide the whole estate with all the water required. Mr. Armstrong has not yet begun his campaign of advertisement, but has no doubt but what the ten acre lots, into which the estate will be divided, will find ready sale as soon as transportation facilities are provided.—Vernon News.

Could Not Be Better.

The uniform success of Chamberlain' Colic, Cholera and Diarrhoea Remeda has won for it a wide reputation and many people throughout the country will agree with Mr. Chas. W. Mattison, of Milford, Va., who says: "It works like magic, and is the best preparation I know of. I couldn't be any better." He had a serious attack of dysentery and was advised to try a bottle of this remedy; which he did, with the result that immediate relief was obtained. For sale by all druggists

The record for economical mining is probably to be found in the Elsemere & Stewarts companies in Victoria, Australia. These are composed of working miners and their capital is small. For the past five years they have mined ore yielding $2 a ton and have paid dividends. The cost of treatment at these mines is about $1.30 and $1.05 respectively.

The steam turbine, although a comparatively recent competitor in power plant equipment, shows steam consumption as good as if not better than the best reciprocating engine.

The practical solution of the hoisting problem in the Lake Superior region has produced an immense variety of hoisting machinery.

Crushing by stamps in cyanide solution is about to receive its first application in South Africa at the property of the New Goch company.

The Spanish Peaks are two isolated mountains in Southern Colorado. The summit of the highest peak is 13,623 feet high.

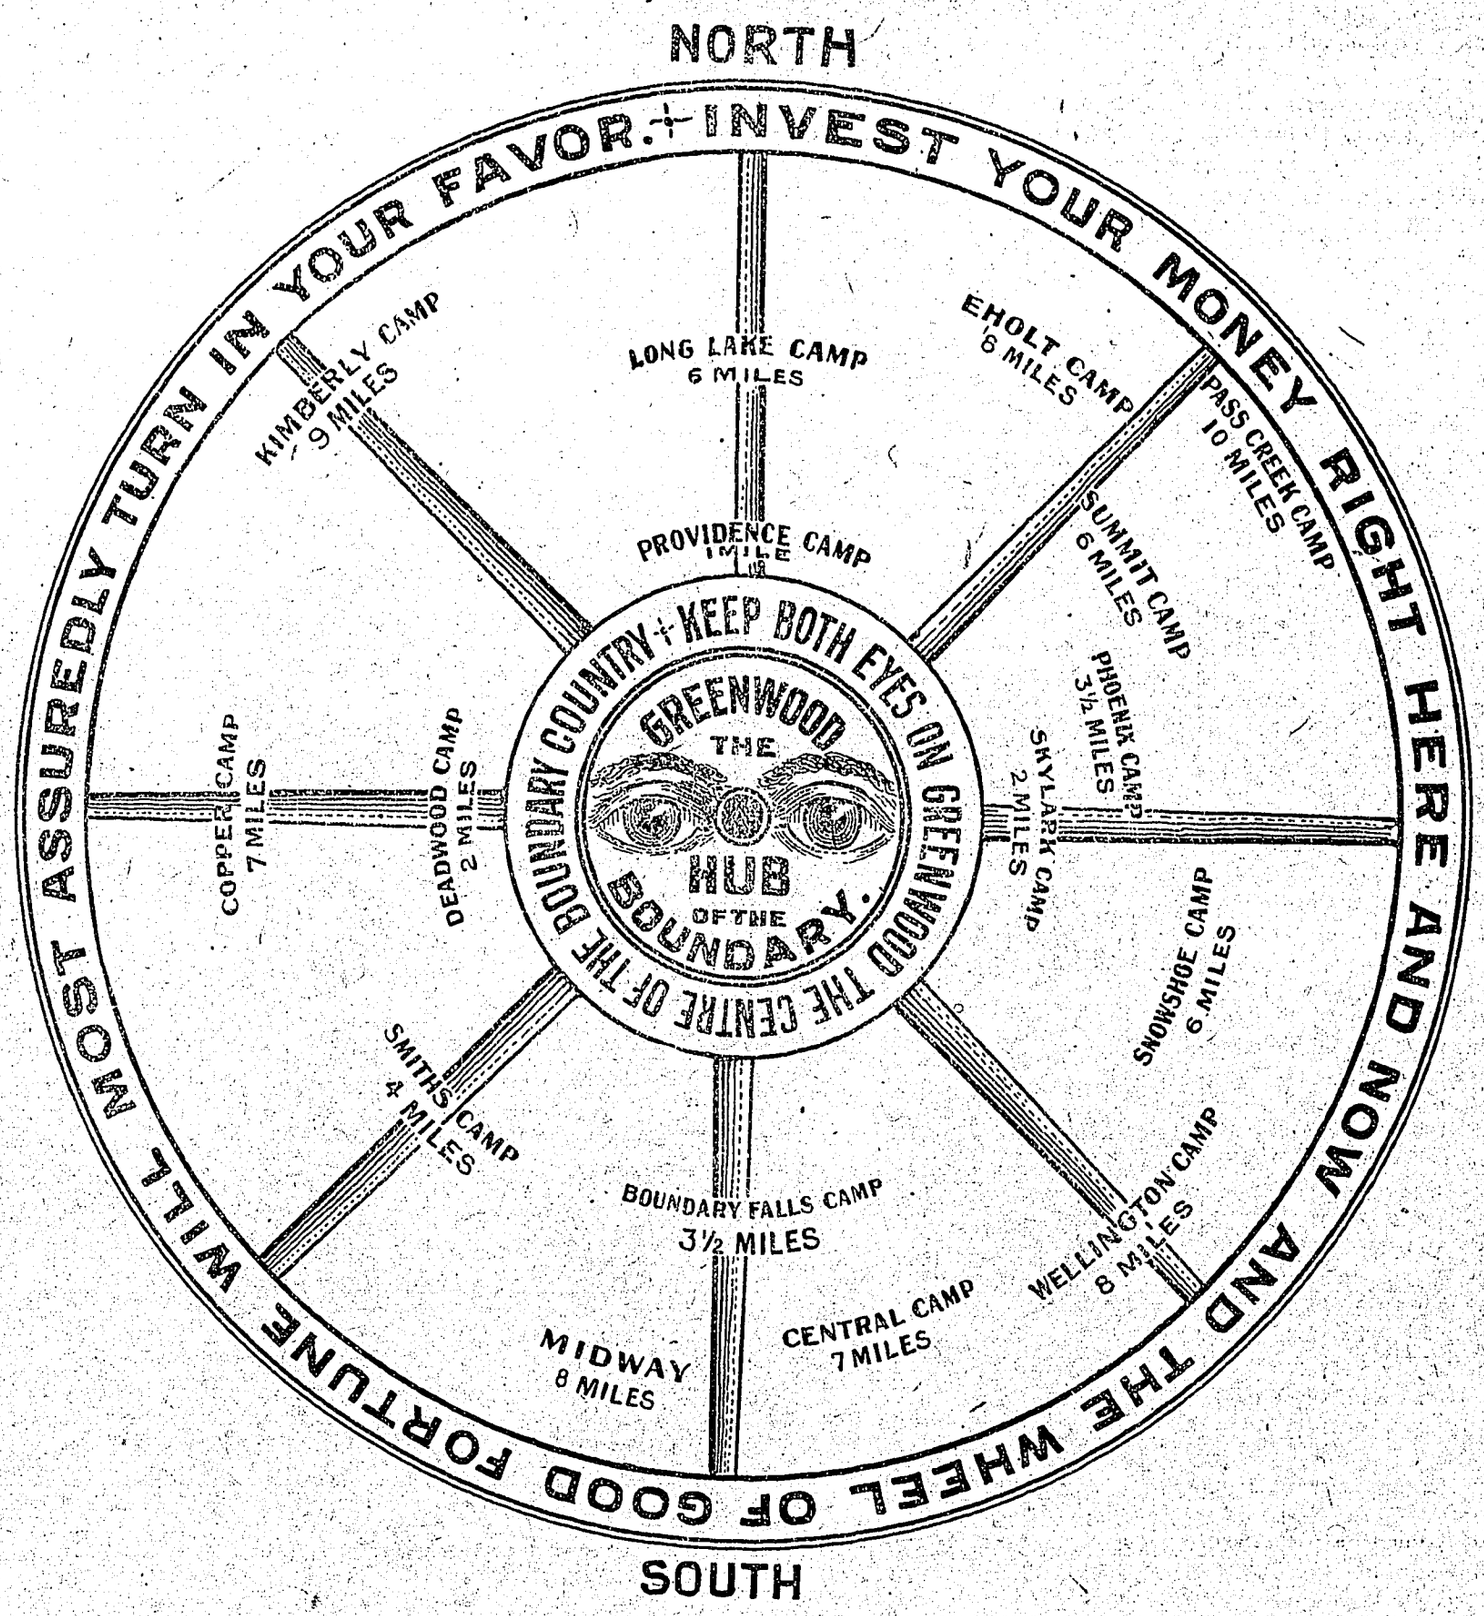
On the premises, or Anaconda, B. C

No Time Equal to the Present



Never in the history of the Boundary has the district had a brighter outlook than today. With the successful development of the immense large bodies of low grade ore and the enlarged and much improved facilities for treating at a very small cost, the continued opening up of new high grade properties and their successful and profit abl operation has made the Boundary famous as a mining centre, and every day adds more to the list of new finds and bigger values. It is readily admitted that Greenwood is the Eldorado of the Boundary with all roads leading thereto, and surrounded as it is, with such magnificent resources is destined in a few years to be a second Butte. If you therefore want to participate in its future prosperity, now is the time to invest both in mines and real estate. For NINETY DAYS we intend giving you a chance to make a safe and profitable investment. Every lot we own will be put on sale at rock bottom prices during the above period. Prices ranging from $50.00 up, at terms to suit the purchaser. Make your selection and make it early.

Synopsis of Regulations Governing t s Disposal of Dominion Lands within t e Railway Belt in the Province British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B. M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent on sales

A license is issued as soon as a berth is granted but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B. M, for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents per acre per annum,

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes map be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the ocal agent for the District, within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead is reduired to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence on and cultivation of the land in each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) or any person who is eligible to make a homesteod entry under the provisions 0f the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY.

Deputy of the Minister of the Interior.

Faith

You cannot be expected to have faith in Shiloh's Consumption Cure, the Lung Tonic, as a cure for Colds, Coughs and all diseases of the air passages, if you have not tried it. We have faith in it, and to convince you that it will cure you we guarantee it. If it doesn't cure you it costs you nothing. If it does it costs you 25c. That's fair. Try it to-day.

Shiloh

has cured many thousands of the most obstinate cases, and we do not hesitate to say that it will cure any Cold, Cough, Throat or Lung trouble. If we did not believe this we would not guarantee it absolutely as we do. Shiloh has had an unbroken record of success for thirty years. It has stood every possible test without failure. Isn't that proof of its curative properties. Further

Proof

is found in the many testimonials of those who have tried Shiloh and been cured. Mrs. Archie Taylor, Asaph, Pa., writes:—

"I bought a bottle of Shiloh's Consumption Cure and found it very beneficial. I have two children and they had a terrible cough. I gave them everything I could think of, but they got no better until one evening my husband bought a bottle of Shiloh. We gave it to the children when they went to bed, and they slept all night. It cured them completely. I shall always keep it in the house." 602

PLEASED WITH DISTRICT

Midway and Vernon People Visit the West Fork.

C. B. Schmidt of Pueblo, Colo., and F. Harvey, London, Eng., returned on Monday from a trip to the West Fork, accompanied by A. R. T. Lackie, chief engineer of the Midway and Vernon, and Ralph Smailes. They went up as far as Carmi, and visited as many properties as possible in the limited time at their disposal. Mr. Schmidt was enthusiastic regarding the fruit growing possibilities of the Kettle valley and the natural beauty of the country tributaky to the Kettle river. Mr. Harvey was also favorably impressed with the mineral resources of the district. They left for Vernon on Tuesday to examine the Okanagan valley.

Mr. Arthur was kept busy discussing the details of construction with the local officials of the Midway and Vernon, and was therefore unable to join his party in the Okanagnn. They return to New York by the Canadian Pacific.

Nicely furnished rooms, single or en suite, furnace heated, with baths at all times. Reasonable Rates. Hotel National.

DEATH OF ANDY RIDOUT

He Was Well Known in Greenwood in the Early Days.

Andrew C Ridout died on Saturday last at the Kearney Sanitarium for tuberculosis in Spokane. "Andy," as he was familiarly called, was well known here in 1899 as the chief sales man for the A. H. Sperry company. From here he went to Rossland and was storekeeper at the LeRoi mine under S. F. Parish. He was always threatened with tuberculosis and had to go south several times to ward off the dread disease.

Mr. Ridout was 27 years of age. He was born at Ottawa, Ont., his father being a prominent citizen of the federal capital. He was a member of Greenwood lodge, K. of P., which sent instructions to Spokane lodge to look after the funeral arrangements.

A VISIT TO OUR FACTORY

would prove a revelation to many boot dealers as well as boot wearers. It is equipped with the most modern machinery. Every department is under expert supervision, and none but No. 1 leather and findings ever enter the doors.

In this age when all is substitution and adulteration, we confine ourselves strictly to the best materials that money will buy.

Is it any wonder that prospectors, loggers and miners, far and wide, insist on getting "LECKIE BOOTS"? They are a WESTERN product for Western people. Accept no substitutes.

ATTEMPTED ROBBERY

Eastern Townthips Bank at Midway Narrowly Escapes Looting.

Midway is fast becoming a town of importance. Last Saturday night a daring attempt at bank robbery was a further indication of the growing times in the railway town. Shortly after nine o'clock Mr. Moe, the manager of the Eastern Townships Bank, returned to the bank premises and discovered two men busily engaged in removing one of the bank windows. He lost no time in opening fire on them, which they returned The result was a regular fusilade which lasted several minutes. No one was injured. Mr. Moe immeeiately gave thhe alarm, but the burglars escaped in the dark.

It is supposed that they were watching Mr. Moe's movements and had intended to get into the bank before he would return. Upon his return he would have been forced to open the safe. Fortunately for him and the bank he arrived on the scene in time to upset the calculations of the bank robbers. This is one of the few attempts ever made to hold up a bank in this province, and is accounted for by the proximity of Midway to the international boundary line.

FRANCESCA DA RIMINI

The tragedy of Italian history to be presented here soon by Harold Nelson.

It eas been in such heavy roles as "Richelieu" and "Hamlet" that Harold Nelson the favorite Canadian actor has scored his greatest success. He comes to Greenwood Monday October 30th., in the greatest tragedy of Italian history "Francesca da Rimini" as dramatized by Boker from Dante's immortal story.

Briefly, the play deals with the marriage of Lanciotte, a hunchpack cripple of a noble family, to a beautiful young girl. The cripple's brother, who is young and handsome, is constantly thrown in the compay of the wife during Lanciotto's absence, resulting in a mutual love, which the husband discovers and in one of the most intense acts in the drama ends the lives of the three.

As Lanciotto, the deformed husband, wronged by nature, by his brother and his wife, Mr. Nelson has a tragic role, seldom equaled in dramatic writings. The beautiful lines, the intense situations and the tremendous climaxes are handled with masterly art.

As Pepe, the court jester, Clifford Lane Bruce will have an opportunity to further the most excellent impression he has gained by his uniformly clever acting.

Miss Helen Scott will look and act the part of the beautiful Francesco to perfection.

Manager C. P. Walker, who provides Mr. Nelson with his complete productions, has been more lavish than usual and supplied his company with a scenic and costume equipment that surpasses anything heretofore seen in Western Canada,

Mr. Nelson's engagement here is looked forward to with much pleasant anticipation.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when aken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This rsmedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other, For sale by all druggists.

The Railway Fight.

The V., V. & E. railway company has commenced action in the supreme court at Vancouver to secure right of way over the lands of the Columbia and Western near Midway. Formal requests were refused and the matter is being fought in the courts.

The affidavits accompanying the petition state that a warrant of immediate possession is necessary, as the V, V. & E. line is constructed on both sides of the land over which permission to pass has been refused and the company's operations are seriously delayed. The application will be heard November 4th.

For Sale—Queen's hotel, Greenwood, B. C. I will sell furnished and give lease on property. Easy terms. Reason for selling, going out of hotel business. Apply on premises to D. Manchester. 7-10

Eight men are now sinking on the old shaft of the Elkhorn. It is expected the ore will be reached in a couple of weeks. Stoping is also being done from the old drifts.

TOWN TOPICS

Julius Ehrlich of P. Burns & Co. has returned from a business trip through the Similkameen.

R. Hodgins and E. B. Dill were on a huntiug trip to West Copper this week. They got two deer.

D. J. Darraugh has been appointed chief constable at Midway, Constable Young returning to Kootenay.

Jas, Fisher came in from Rossland Sunday last. He and W. Hannah have a deal on for some mineral claims.

D. McKinnon, formerly with the Hunter Kendrick company here, died in Spokane last week of tubercolosis.

The Rev. M. D. McKee has moved into the house north of and adjoining the school house on Kimberley avenue.

Hazlewood & Halcrow are making good progress on their sinking contract at the Helen, about six feet a day being made.

November 1st the Bank of Montreal opens a savings bank department. Interest will be allowed on deposits at current rates.

Trafalgar day was not celebrated in Greenwood.

Contractor Bunting has completed work on the new residence of C Scott Galloway at the corner of Desdwood and Church streets.

Duncan McIntosh returned last week from a trip to the West Fork country, where he had been inspecting the properties with a view to investing.

A. E. Ashcroft, P. L. S., left Saturday for Vernon. Be will do considerable engineering work on the Coldstream ranch in connection with a comprehensive irrigation scheme.

The boxing contest, advertised to come off at Ferry, Wash., Saturday evening, didn't materialize, owing to lack of patronage and consequent slim gate reciepts. Boxing contests except in the No. 1 class do not draw draw large houses.

Dr. Robert Bell, head of the geological department at Ottawa, was in Greenwood on Wednesday on his annual tour of inspection. The doctor, who is one of the oldest men in the service, has been as far north as Dawson. He is inspecting the field work for this year and arranging the details of next season's campaign.

A number of callow youths, some of whom are not more than sixteen years of age, will appear before Police Magistrate Hallett this afternoon to answer to the serious charge of being frequenters of houses of ill fame. It is stated that the charge was laid at the request of one of the parents, who exhausted every other means of saving his wayward son.

J. J. Jeffery, secretary of the V., V. & E., and A. L. Russell, of Evans, Coleman & Evans, Vancouver, were visitors to the city this week. Mr. Jeffery was here simply for pleasure. He had earned a holiday and considered the interior of the province a good place to spend it. They visited Midway and other points of interest in the Boundary. Before returning to the coast they intended seeing Rossland and Nelson.

The Times now has a rustler on the road. When he strikes you just give up. It will save time and hot air, for he has instructions to fasten and stay. You'll hear him long before you see him. If you want job printing done tell him. It's his business to corral it. If you don't want to subscribe, use a shot gun before he fastens. He can't be pried off. Don't speak, just go down in your pocket. He'll do the talking and handle the cash while he talks.

The death occurred at Calgary Saturday last of Mrs. John Mouat, mother of Mrs. R. K. Steven of this city. Mrs. Steven last week received a telegram that her mother had been stricken with appoplexy, and left immediately for her bedside. She was joined by the other members of the family who were all present when the venerable mother passed away. Mrs. Mouat was the relict of the late John Mouat, who died in Nelson about two years ago, since when she has been living with a married daughter in Calgary. A large family of sons and daughters is left to mourn the loss.

The playgrounds at the schoolhouse are a credit to whoever is responsible for them. They are not fenced, the mud is a foot or two deep, and the whole place has very much the appearance of a stockyard corral without the fence. The grounds could be made dry by running a ditch along Church street and down to Kimberley avenue, to carry off the surface water that comes from the hill. Either the school board or the city council should take some action. At present the place is too filthy for children to move about in it.

Winter Suits and Overcoats

Perfect Harmony of Style and Good Taste; an Even Balance of the Nicities That Render Our Clothing Superior.

There is harmony of taste and fashion in our garments that instantly commends them to particular men. Following the newest styles of the day, they unite the fashion, the fabric and the color in a perfect blend of good taste.

WHITE BROS.

DISPENSING CHEMISTS AND OPTICIANS.

F. M. Elkins returned from the coast last week. While there he severed his connection with the New York Life and accepted the position of inspector for B. C. of the Sun Life of Montreal.

Thursday Thanksgiving day was quietly spent in the city. Services were held in the Episcopal church and a joint service of Presbyterians and Methodists was held in the Methodist church.

H. J. Fitzgerald, accompanied by Mrs. Fitzgerald, Judge Hildrith and Dr. Frank Byrnes of Chicago, were visitors to the city this week. They are interested in the Providence Mining company and came here to attend the annual meeting. Mr. Fitzgerald, who is a wealthy trunk manufacturer, was here several times before, but it was Mrs. Fitzgerald's first visit to the Boundary and she greatly enjoyed the outing. Judge Hildrith, although a veteran traveler, never visited the Boundary. He was enthusiastic about its resources, its climate, its scenery, and its splendid future prospects. The judge is one of Chicago's prominent citizens who has been in public life there for a great many years. Dr. Frank Byrnes, the newly appointed vice president of the Providence company, is one of the young medical men of Chicago who are rapidly coming to the front by sheer force of ability. In addition to attending to the affairs of the company the visitors found time to visit points of interest in the district. They returned home on Wednesday. Mr. Madden, the president of the company, and Mr. Heeney, secretary, remain here for some time.

F. F. Ketchum, of W. A. Keith & C., general merchants, Beaverdell, came down from the West Fork on Tuesday last. Mr. Ketchum says business is fairly good at Beaverdell. All the claims now being worked on Wallace mountain are showing up well. Between two and three cars of first class ore ore will be shipped from the Rambler as soon as there is sufficient snow to rawhide it to the wagon road. This ore will average in the neighborhood of $200 to the ton. Work will be carried on continuously at the Rambler. The Sally also has a large quantity of high-grade ore in the bins ready for shipment. Cabins are being built on the Duncan, and development will be carried on during the winter. Hugh Cropley and Paddy Murray are working on the Homestake, and Thos. Murray and Geo. Henderson are driving a tunnel on their properties near Carmi. For the past month the Beaverdell sawmill has been running steadily. Bill Reid and Trapper Smith are outfitting for the winter's fur harvest. Occasional outfits of of Midway and Vernon engineers are seen by prospectors between Carmi and the summit. All the residents of district are satisfied that with transportation facilities the West Fork will be one of the best mining camps in British Columbia.

BANK OF BRITISH NORTH AMERICA

NOTICE.

A Savings Department will be opened in connection with the Greenwood branch.

Deposits received from $1 and upwards. Interest allowed. 8-9.
