Remember that money saved is money made.

RENDELL & CO.

CAMPING PARTIES

Spend Holiday by the Kettle River.

WITH THE REEL AND FLY

Trout Fishing the Favorite Passtime But the Mosquitoes Did More Biting Than the Fish.

Quite a number of Greenwood people sought rest and coolness on Dominion Day by going on a fishing trip to the shady banks of the Kettle river beyond Rock creek. Several different parties went up. Some went on Saturday, some on Sunday and some on Monday, but they all got there just the same, and so far as is known they all got safely home laden with fish and fish stories. Among those who went up on Saturday were James Birnie and C. H. Vernon, William Allison, T. H. Patterson and T. S. Palmer. Mr. and Mrs. Ed. Anderson and Mr. Dill and Miss Hallett went up early Sunday morning, and early Monday a party of eight, including Mr. and Mrs. Alex Robinson, Mr. and Mrs. Blanshard Snyder, William Young of Cranbrook, Miss McCutcheon and Mr. and Mrs. H. O. Lamb left for the "four way lodge" at James Creek. All those who made the trip found it most enjoyable and only wished that Dominion Day would last all summer.

Mr. Birnie and Mr. Vernon pitched their tent and slung their kettles about midway between Rock Creek and James creek. Messrs. Allison, Patterson and Palmer located about two miles beyond James creek, and met with good success, catching some eighty trout. Messrs. Birnie and Vernon were happy in the selection of an excellent camping place and they were fortunate enough to hook some forty-five good specimens of the finny tribe. The water was very deep and they were obliged to keep close to the shore, otherwise they would have had much better success.

THE BIGGEST CATCH.

Mr. Allison was the bravest fisherman of all the camps. He waded far amid stream, at times breasting the waters in search of big fish and was rewarded by securing the best catch of all. Mr. Dill was also a fortunate fisherman, for while he did not excel in numbers, he landed one of the largest trout caught by any. Its size is variously stated from eighteen inches to three feet. Mr. and Mrs. Anderson were patient fishers and kept bravely at it morning, afternoon and night, and enjoyed the sport fully as much as did the fish that got away and those that basked peacefully at the bottom of the deep pools and paid no attention to glittering flies that skimmed the waters from the end of a treacherous line.

ROBINSON'S CAMP.

The other party, under the direction of Alex Robinson, had indifferent success, catching twenty in all. After a pleasant drive, camp was reached about 11:30 a. m. Mr. Snyder took charge of the culinary arrangements and after the necessary preliminaries the hungry party sat down to a tasty lunch. The afternoon was spent in the cool shade of the trees where the mosquitoes held a pow wow and reception. The little pests were so lively that one of the party remarked "if they would bequeath some of their surplus energy to the Midway & Vernon, the line would soon be built." As the day passed on and the cool evening approached, the ambitious party got their "rods and reels and traces" ready to catch all the fish in the Kettle river. The cook had ordered fish for supper and soon the banks were lined with fisher folk and the honor of the first catch fell to Mrs. Robinson. The illusive trout were onto the game, however, and the cook was obliged to wait till next morning to serve a mess of trout.

"UP IN THE MORNING EARLY."

Next morning everybody was up bright and early, and by 3:30 were again making life interesting for the finny tribe, and when breakfast time came trout was plentiful and the cook was happy. The best catch was made by Mr. Young, who waded out into the surging waters and hooked several fine ones. These were brought to the city and the genial steward of the Greenwood club can testify to their size and flavor.

BEAUTIFUL SCENERY.

Perhaps the most enjoyable part of the outing was the drive back on Tuesday evening. The air was cool and the moon shone full and bright all the way. The light fell across the roadway making the drive safe and easy. At times the moon was beautifully mirrored on the surface of the rippling waters, while far above towered the dark mountain sides casting dense shadows in the valley below. The roads were in excellent condition, especially between Rock creek and Midway, but that part of the journey was rather dry, and when Midway was reached there was a general call for refreshments. The entire trip was marked by pleasant incidents and a general good time, and all wished the outing had been prolonged.

FRUIT LANDS.

Several members of the party, who had never seen the country beyond Midway before, were much interested in the fruit lands of the Kettle Valley Irrigated Fruit Lands Co., and avowed their determination to get a few acres before prices go up. The luxuriant vegetation on the ranches scattered along the route was an indication that fruit and vegetables could be grown with good success and already several are considering the question of deserting the hot and dusty city for the cool fragrance of orchards and gardens.

NOTES.

Midway looked with longing eyes at the fishing parties as they drove away and wished they would stay.

The fish that got away were far bigger than any that were caught.

T. Hanson, the prosperous merchant of Rock Creek, is enlarging his store in anticipation of a large increase in business.

Sam Larson, the proprietor of the proprietor of the best hotel in his district, wishes Dominion Day came oftener and brought more fishing parties.

The roads beyond Rock creek are more "holy than righteous," and the farther you go the worse they get.

If the fish had been as good at biting as the mosquitoes were, trout would be more plentiful in Greenwood this week than stones in Boundary creek.

MARRIED

Fleming-Braem, at Curlew, Wash. Miss Barbara Braem, of Curlew to Daniel Fleming of Grand Forks. The ceremony way performed by Rev. Dr. Callahan of Republic. Miss Edith Hunner was bridesmaid with Miss Mary Helphrey as flower girl. The groom is well and popularly known in Grand Forks and the bride was one of the belles of Curlew.

A quit wedding was celebrated last Friday June 29th when Miss Mary Blythe and David McBride were marrid at the manse in Greenwood by Rev. M. D. McKee Both young people are residents of the Rock Creek district.

MARRIED Grant-Burgen. At the residence of the Baptist minister, Biden block, Grand Forks, on Monday, June 25th, by Rev. F. W. Auvache, Ernest Grant of Vancouver, to Maud Burgen of Phoenix.

NORTH FORK ITEMS

Pushing Work on Kettle Valley Line.

MINES ARE ALL BUSY

Second Diamond Drill Installed at McKinley.—Foundations and Lumber for New Buildings.

"No. 2 camp, on the Hot Air road, at the edge of Smelter lake, four miles from the city, is being fixed up and work is in progress along the grade to that point," says a Grand Forks exchange. "A temporary track has been laid in the big cut near F. Miller's and eight cars are haulding the material for the fill through the slough.

"The cut will be 17 feet in its greatest depth and will necessitate the removal of 18,000 yards of dirt. From the head of Ward's lake to Smelter lake W. H. Fisher has a coutract of a mile which embraces one big cut of 22 feet in depth with some 30,000 yards to be taken out. Mr. Fisher has made a vigorous start and has four months for the completion of his contract. Five miles out the grade skirts the rocky base of the mountain below the C. P. R. main line, and at this point Mr. Tierney is taking loose rock to make the fills along the lake. This work will mean the handling of some 13,000 yards of rock.

"A few miles further F. Lane and McAllister and Logue have contracts. Right of way camps are strung along the road for 16 miles, and half the right of way is already cleared. At present 300 men are working, the force will be increased by 100 more next week, and will reach 500 by the middle of July. Nothing will be decided as to the date of commencing the bridge over the river in the city until Mr. Warren comes out about July 15th. By the energetic way in which the contractor is pushing the construction it should be possible to lay steel a long way up the river before snow flies.

MINING NOTES.

"Supt. A. D. McPhee, of the McKinley, came down from Franklin last Tuesday, and left again for the camp with A. B. Mackenzie of Rossland, secretary of the McKinley company. Mr. McPhee is increasing the force of men at the mine, being anxious to push on development work and show up the ore as fully as possible in the near future. The second boiler for the diamond drill was taken up by Dave Evans the other day. Both drills will be worked on the McKinley and subsequently removed to the Banner. Nine hundred and forty-five feet of drilling had been accomplished when Mr. McPhee left the camp on Tuesday

"Rube Hull left recently for Franklin camp to do development under the terms of the bond to the McKinley company on the Pay Ore, the Gold King, the Oversight and the Valleyview.

"Frank Fritz and Joseph Pringle were in town last week bringing some specimens of ore from the Crystal Copper, on which they have been recently working. Both men will leave for Thunder Hill camp shortly.

"L. A. Snider of Nelson, returned from a trip to Franklin last week and was greatly impressed with the showing at the McKinley, Maple Leaf and other properties. He is a man whose wide experience around mining camps gives an added interest to his prophecy that next year she will be a 'hummer.'

"The foundations for Lequime's hotel are ready and 25,000 feet of lumber are piled a mile from the townsite awaiting the completion of the wagon road to that point. The stage line had two rigs on the route on Thursday, several miners going up to the McKinley, Pathfinder and other points.

"George McLeod left last Saturday morning with two mining men to look at the Maple Leaf.

Do Not Neglect Your Bowels.

Many serious diseases arise from neglect of the bowels. Chamberlain's Stomach and Liver Tablets are a pleasant and agreable laxative. They invigorate the liver and regulate the bowels. For sale by all druggists.

FRIDAY JULY 6 1906

A COMMUNITY OF INTERESTS.

Every new settler in the prairie provinces means another customer for British Columbia, and the people here should rejoice when they hear that the immigrants are rapidly pouring into that portion of Canada. This province has what the prairie provinces must have, and they raise what we will always need. In return for our lumber, fruit, fish, and minerals the provinces east of the mountains will sell us what oats, barley, rye, etc. By reason of the fact that the boundaries of some of the prairie provinces abut our eastern boundary in some instances, and in others are not far away, we have the call on as much of their trade as we can suppy because of the short haul, which is a facter in our favor, as trade and traffic, like water, moves along the line of least resistence. The American roads with the increase of traffic, from east to west and from west to east, have cut down the gradients where the roads pass through high mountain ranges by means of long tunnels The same practice is in vogue in Europe, where they have the longest tunnels in the world. When the traffic between the prairie province and British Columbia reaches larger propartions than at present the gradients on the transcontinental lines now built and now building, with be cut down in like manner by long tunnels through the high mountains.

In an interview John Dean, ex-mayor of Rossand, speaks of the greats possibilities of the Asiatic flour trade. The Chinese and Japanese are learning to use flour more and more each year, and the market for it in the Orient is increasing. The wheat of the prairies can be transported by a short haul to the coast cities, where flouring mills will turn it into fiour. Then it will be placed on the big liners and taken to the Orient. The making of flour should become an immence industry at the coast and is certain just as soon as the mills can be provided. The cars which bring the wheat from the prairies can be untilized to carry back to the farmers of Manitoba, Saskatchewan, and Alberta, lumber, fish, and fruit. This will tend to keep down to the minimum the transportation charges.

BOUNDARY ORE TONNAGE.

The following table gives the ore shipments of the Boundary mines for 1900, 1901, 1902, 1903, 1904, 1905 and 1906, as reported to the Boundary Creek Times:

WON THE CONTEST

Foulds Brothers Drill Most Rock at Nelson.

At the Dominion Day celebration in Nelson Greenwood was represented by the Foulds brothers who won the rock drilling contest. The contest was held on a vacant lot adjoining the Queen hotel where a newly hewn block of granite had been placed in position under the direction of Frank Phillips. Frank Brewer was the official time keeper assisted by Jakey Doner and Frank Phillips who shouted changes and looked after arrangements. Of the event the Nelson News say:

"Just two teams finally entered, one from Rossland hesitating and finally withdrawing. Jim and George Foulds of Greenwood were first on the ground and they were quickly followed by Robert Walters and A. J. McGillivray of Silverton. The former drew the start and about 7 o'clock Brewer shouted "start" and off went the human machine amid appause and the drills commenced sinking down little by little. The Foulds brothers are well known in the Kootenays and have drilled here at many previous celebration. They won last year with 35 inches to their credit and they were looked upon as winners last night before the contest started. The crowd applauded the teams good work particularly in the good changes made, and as the 15 minutes was drawing to a close, friends and supporters urged the men on shouting and cheering them enthusiastically. Both men are splendid specimens of muscular development and were in fine form. When time was called Phillips measured and announced 35 inches flat, whereat there was more cheering.

Then the Silverton men got ready. They were a lighter built team but had plenty of supporters in the crowd and were very warmly applauded when they got to work and all during the 15 minutes. When time was called it was announced that they had driven 31½ inches, so the Fould Bros. won with a good margin.

SITUATION WANTED.

Engineer with third-class license wants position. Expert on air compressors. Long experience and best references, sober, industrious. Write F. J. Wright, Windsor Hotel, Greenwood, B. C. 43-45

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3 If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,00 pounds shall be collected on the gross output.

W. W. CORY.

Deputy of the Minister of the Interior.

Franklin Townsite Co. Ltd.

Lots Now on the Market

THIS town is beautifully situated, 42 miles from Grand Forks, on the banks of the North Fork of the Kettle River and is surrounded on all sides by the largest and richest Copper showings in British Columbia; namely,---The McKinley, Gloucester, Banner, Jumbo Maple Leaf, M. S. Victoria and many others.

The Townsite streets are cleared. The Government wagon road has just reached the town. The Kettle Valley road is now rushing construction to this camp. The Great Northern surveyors are in the field and it is definitely announced that sixteen miles of the road will be built this Summer.

A large hotel and store buildings are now in course of erection. A water works system is being installed. From one to two through stages leave Grand Forks daily.

Prices from $65.00 TO $135.00

For full information, address:

TERMS: One-third down; balance six and twelve months.

TOWN TOPICS

Dr. Mathison, Dentist.

Okanagan peaches, plums and apricots at Galloway Bro's. 44-45

Try White Bro's Witch Hazel Cream for tans and sunburns; 25c bottle.

Messrs. Rendell & Co. are putting on a midsummer sale of summer goods.

Mrs Stevenson, who has been visiting her daughter, Mrs. Herne, left this week for Calgary.

Petunia, heliotrope, nicotine and other beautiful house plants in bloom, for sale at Galloway Bro's. 44-45

Robert Wood left today for the coast to meet Ralph Smailes, presumably to discuss the Midway & Vernon question.

Something pretty—5,000 varieties of picture post cards, also some splendid local landscape views. Smith & McRae 44 45

Lack of space prevents publication of the "Prospector's Guide" department this week. An article on "Lead" will appear next week.

Lime juice, grape juice, lemon squash, raspberry vinegar and all summer drinks at Galloway Bro's. 44-45

Mrs. W. F. Proctor and children left Wednesday for the coast, where they will enjoy the sea breezes for a few weeks.

Nothing cooler than a good hammock. All kinds that are the best at Smith & McRae's. 44-45

Mrs. G. R. Naden and Mrs. Sidney Johnson and children left this week for Victoria, where they will spend the summer.

For hot weather try a sponge bath with Sea Salt in the water. White Bro's have it. 44-45

Mrs. Whiteside left this week for a prolonged visit to Winnipeg, Morden and other points in Manitoba. She will be absent some six weeks.

For your picnic you will need lunch baskets, paper plates, paper napkins and table cloths. See our fine stock. Smith & McRae. 44-35

V. H. Ardagh of Vancouver, is taking the place of N. F. Kendall as cashier of the Bank of Montreal during the latter's visit to the coast.

The Greenwood baseball club played a match with the boys from Trail on Thursday night and gave the visitors the big end of a 3-4 score. A large number of people witnessed the game.

During this hot spell ladies should wear Dewey's Dress and Corset protectors, different from the ordinary dress shield, and the only place you can get them in town is at White Bro's.

A number of people left this week for cool places at the sea side and the lakes in the interior, and those who did not go are wishing they had.

Charles Johnson has been doing development work on the Anaconda claim and is finding a fine ledge of galena ore running well in gold and silver, with some lead.

The Misses Shaw, McMynn, McCreath and Wickwire, who have been attending Yale college, returned Saturday for their summer vacation.

John Barclay, department manager Rendell & Co., visited Spokane last Monday and Tuesday on business and pleasure. He found the journey rather warm but managed to enjoy it in spite of the heat.

The Citizens' band visited Republic on the 4th and gave the citizens of that town a musical treat. The boys are loud in their praises of the manner in which the Republic people treated them.

Just as the Times was going to press Friday afternoon the city water power which drives the big press gave out, the pressure going down to ten pound. This delayed publication until late in the evening when the pressure rose again to normal.

At the recent examinations for entrance to high school three pupils in the public school, Greenwood, wrote, and all were successful. They were Dolly Yates, Lila Rowe and Ray Parker. Dolly Yates took highest marks and won honors for general proficiency. Lila Rowe and Ray Parker also secured excellent standing and reflected credit upon their teacher and the school.

Dr. Simmons, Dentist; Open evenings.

Mr. and Mrs. N. F. Kendall left Wednesday for the coast cities where they will spend their vacation.

High grade boots and shoes for summer wear at right prices at Galloway Bro's. 44-45

During the months of July and August Mrs. Simmons will receive on the 2nd and 4th Friday in the evening from 8 to 10.

NINE HOUR DAY

The Granby company, the Dominion Copper Co. add the B. C Copper Co. have inagurated a nine hour day for surface men around their mines. The change went into effect with the Granby last week and with the Dominion Copper company and the B. C. Copper Co. this week. The nine hour day will include blacksmiths, machinists, carpenters, temsters and all others working on the surface.

THE COPPER MARKET

NEW YORK, July 5.—The metal market continues quiet, but holds strong at ruling prices. Lake copper cannot be had from producers who market their own copper at figures under 18¾ cents per pound, although lower prices have been quoted during the week on the New York Metal Exchange and in several publications. Electrolytic is quoted at 18½ to 18⅝ cents. Casting is 18⅛ to 18⅜ cents per pound.

PATRIOTIC PHOENIX

Splendid Weather Favors Dominion Day.

THE HOSE REEL RACE

Only Local Teams Entered. All the Big Prizes Won by Phoenix Contestants.

Phoenix celebrated Dominion Day in vigorous style and a large crowd of visitors were on hand to enjoy the long program of sports. A large number of Greenwood people went up on Monday and some stayed over and took in Tuesday's attractions. So far as is known they all got home safely. One of the best features of the celebration was the splendid weather which favored the occasion. The town wore its best clothes and received visitors with open arms and showed them every nook and corner of the city. The events were held in several different parts of the town and the visitors were given a splendid opportunity to demonstrate their abilities as mountain climbers and to acquire an abnormal capacity for liquid refreshment. The music was furnished by the recently organized Phoenix band, assisted by several members of Greenwood's well known musical organization. In the evening a dance was held in the Miners' hall and was very largely attended.

In the baseball game Greenwood went down to defeat before the champion ball twirlers of Phoenix with a score of 5 to 3.

One of the most interesting features of the celebration was the machine rock drilling contest, held in the Great Northern cut, and in which no less than ten teams entered from the several mines. The same machine was used for all teams, being a Rand drill of standard pattern, elevated on a platform. The first prize was $150 and the second $75. A large number of spectators watched the drilling, which continued nearly all day. Each team used a 2½ inch bit to start, with a decrease of an eighth of an inch to the foot, and had 15 minutes to set up and drill.

Following are the results:

Matheson and McQuoid, Gold Drop, 9 feet 1½ inches.

McDonald and Rankin, Brooklyn, 8 feet 6 inches.

Rutherford and McLean, Gold Drop, 8 feet 4¾ inches.

Bliss and Neill, Brooklyn, 7 feet 4 inches.

Olson and Peterson, Granby, 7 feet 11½ inches.

Mitchell and Rae, Granby, 7 feet 9½ inches.

Granger and Newton, Brooklyn, 8 feet 1⅛ inches.

Black and Anderson, Granby, 7 feet 10 inches.

Vichari and Hughes, Granby, 7 feet 6¾ inches.

Cook and Mason, Granby, 8 feet 2¼ inches.

In the baseball game between Greenwood and Phoenix, the latter won by a score of 5 to 3.

The hose reel racing had $200 in prizes hung up, but no outside teams mustered up the courage to enter, consequently the races in this event were run off between the regular Phoenix team and a team of the Eagles. In the hub and hub race the Phoenix team won first money, while in the wet test the Eagles took first prize in 26½ seconds, the Phoenix team failing to secure water in the first trial.

Horse racing took place on Dominion avenue, and in the free for all, owners up, Joe Ritchter took first money, with Charles Buber's Lady May second; pony race, Charles Buber took first, with Ole Berg second; slow race, Harold Bell first, and Eddie Swanson second. There were four entries in the quarter mile running, free for all, in which Joe Ritcher took first money, and Charles Buber of Midway, second, followed by E. Lanneau and Ole Berg.

Following are the results in the Caledonian sports: 100 yard dash, H. A. Monro, first; W. M. McBeath second; 220 yard dash, H. A. Monro, first; W. M. McBeath, second. Miners' race, Harry Jackson, first; W. Murray, second; P. Cook, third. Fat man's race, over 200 pounds, James Murdock, first; A. O. Boterious second.

Miss Dolly Yates left Wednesday for Kelowna where she will spend the summer holidays.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was, therefore, a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists.
