DOMINION COPPER CO.

President Miller Is Full of Confidence.

IS MOST SATISFACTORY

Financial Conditions Are Splendid.—Plant Will Be Further Increased to Become Largest in Country.

President Warner Miller of the Dominion Copper Co., speaking to the Boston News Bureau, stated "that the future of that company is now assured. It has a large balance of cash on hand, and is now producing about 375,000 pounds of copper per month at a cost during the mouth of July (the last available figures) of about 9¾ cents per pound of copper produced.

"The economics and improvements now being inaugurated, and which will be in operation by December 1, should increase the production to between 750,000 to 800,000 pounds of copper per month at a cost of not more than 8 cents per pound of copper produced. This means earnings of more than 12 per cent on the $10 par value of the stock after paying all fixed charges and sinking fund requirements.

"The report to the shareholders at their annual meeting, to be held this month, will be a most satisfactory one. The enlargement to the smelter is being rapidly pushed, and the new furnace, when in operation, will be the largest furnace in British Columbia, and will give the company a smelting capacity of about 1,500 tons of ore per day, or a continuous average of at least 1,200 tons per day, allowing for shut-downs.

"Mr. Miller says that during the last six months the company has opened up several of its properties which had not been heretofore worked. There is now in sight considerably more than 3,000,000 tons of ore, and in one mine alone, the Rawhide, a sufficient amount of ore has been developed to show, at present copper prices, a profit equal to the par value of the entire capital stock of the company, and its bonds. The company has of late taken options upon several other large properties, upon which it is pushing exploration and development work.

"It is not the intention to be contented with an output of 1,500 tons per day, but to increase this production until the Dominion will be one of the largest producers of copper in British Columbia. The company has available a sufficient amount of cash to do all this, without any increase in capitalization or without diverting any of its net earnings to construction and development work.

"Consulting Engineer M. M. Johnson and W. R. Thomas, superintendent of the smelter, are in New York to consult regarding these extensions.

"It is a well known fact that copper ores in British Columbia are of low grade, and there has been a great deal of surprise expressed at the profitableness of such properties, purticularly of the Granby, and especially surprise at the low price at which the copper can be produced. The reason for this is that the ores are substantially self-fluxing; that they are found in very large bodies, so that mining is reduced to a very low figure, in many cases to 50 cents per ton; that little or no timbering is required in the mines; and that the ores carry sufficient gold and silver to pay the entire cost of smelting. These conditions render the region a very profitable mining district, and undoubtedly it will be very largely developed, and the tonnage produced will be doubled in all the camps within the next two years.

"Mr. Miller expresses great confidence in the fnture of the Dominion Co., and believes that it will develop into one of the largest producers in British Columbia.

VISITING ENGINEERS

Large Party Will Be Here Tomorrow.

WILL INSPECT THE MINES

City Will Entertain Visitors and Show Them the Mineral Rocks of Greenwood and Vicinity.

The members of the Canadian Society of Civil Engineers are now on a trip through Western Canada, and during the greater part of this week have been visiting the mining centers of Southern British Columbia, and they have arranged to reach Greenwood at 3:50 Saturday afternoon by special train. They will spend four hours inspecting the mines and smelter and will leave at 8 p. m. for Grand Forks.

At the last meeting of the city council it was decided to entertain the distinguished visitors in a manner suitable to the occasion. A committee composed of the city council and citizens was appointed, including J. R. Brown, M. P. P., Messrs. J. E. McAllister, J. R. Drummond, F. Keffer, George Williams, Dr. Spankie, P. J. Dermody, Duncan McIntosh, C. Scott Galloway, Robert Wood, W. F. Proctor, E. R. Redpath, W. T. Hunter and George Collins. This committee have made all the necessary arrangements for the entertainment of the visitors.

PROGRAM.

The program will consist of visits to the Mother Lode mine, the smelter and the high grade mines. Carriages will be provided by the city for the use of the guests. After all available places of interest have been visited in the limited time, an informal dinner will be served in the Imperial hotel.

LIST OF VISITORS.

A. Amos, C. W. Archibald, Mr. and Mrs. W. D. Baillairge, N. T. Bertrand, Miss Bray, Mrs. Boyd, W. A. Bucke, R. de B. Corrivean, E. L. Cousins, Mr. and Miss Chanute, F. A. Drought, J. Euchastel, G. H. Frost, J. G. Greey, S. Groves, Colonel Jones, Mr. and Mrs. T. H. Jones, F. S. Keith, J. Kennedy, W. Kennedy, Capt. B. Lindsay, Mr. and Mrs. La Violette, C. de B. Lephrohon, Mr., Mrs. and Master Miller, C. H. Mitchell, G. D. Mackinnon, W. A. Murray, T. C. McConkey, Prof. C. H. McLeod, Miss McLeod, Mr. and Mrs. N. M. McLeod, Mr. and Mrs. R. F. Ogilvy, Prof. R. B. Gwens, Mr. and Mrs. Papineau, the Misses Paverly, Prof. J. B. Porter, Mr., Mrs. and Miss Ross, S. F. Rutherford, Dr. E. A. Seaborn, F. P. Shearwood, Mr. and Mrs. Frank Simpson, Miss Smith, Mr. and Mrs. W. J. Sproule, L. A. Surveyor, Mr. and Mrs. Sweet, E. Van Winkle, Mr. and Mrs. Walker, Mr. and Mrs. James White, the Misses Wicksteed.

OLD TIMERS MEET

Big Banquet Held at Pioneer Hotel.

WILL RECORD HISTORY

Committee Appointed to Gather Historical Data.—The Association and Its Aims.

The Kettle River and South Okanagan Pioneers' association held their annual mseting and banquet at the Pioneer hotel, Greenwood, last Saturday night. About thirty members were present, including many of the most prominent citizens of Greenwood, Midway and the West Fork country. At the business meeting new officers were elected, including Hon. President Charles Deitz; president, J. W. Wilson; vice president, Scot McRae, representing Greenwood; secretary, J. R. Jackson, and treasurer, James Kerr.

EARLY DAYS RECALLED.

A splendid time was enjoyed at the banquet and many interesting circumstances connected with the early settlement of the country were discussed. An important step was taken when a committee was appointed to gather historical data to be compiled and read at the next meeiing, a year hence, and placed among the records of the association. Such a step should tend to preserve valuable historical facts hitherto unrecorded.

OBJECTS OF ASSOCIATION.

To become a member of the Pioneers' association it is necessary to have been a resident of the district for at least ten years. Any one who came in in 1896 may join. It is the aim of the association to promote social intercourse among old timers and to hold annual meetings where the struggles and triumphs of early days may be recalled. The members also take a kindly interest in each others welfare, and when any old timer needed assistance of any kind they have been prompt to render aid.

It was organized in September, 1900, and has now a membership of about forty. Ten meetings have been held. One at Grand Forks, Carson, Phoenix, Boundary Falls, Rock Creek and Camp McKinney and two at Greenwood and Midway. The next meeting will be held at Grand Forks.

MINING NOTES

Work started this week on the Golconda claim, Alex Robinson having been given a contract to extend the present tunnel a distance of 175 feet. It will then be in some 700 feet and will then have a verticle depth of 300 feet. J. C. Hass, the well known mining engineer, is directing the work.

The Strathmore mine continue to improve with increasing depth. Work is now going on at the 140 foot level, and some fine samples of ore displaying free gold and native silver are being taken out. The vein is averaging six inches.

Indications at the Elkhorn point to better results as the work proceeds. It is expected that something exceptionally good will be opened up before long.

A SOCIAL EVENING

The young people of the Presbyterian church held an informal social on Wednesday night after the regular prayer meeting. A short program was rendered. Among those who assisted were Miss Whiteside, solo; Miss Beldon, Mrs. McCutcheon and Mrs. Oliver, instrumental and vocal trio, and Miss Beldon, selection on the violin cello. Rev. Mr. McKee gave a short address. The president of the Christian Endeavor society occupied the chair. After the program refreshments were served. Arrangements have been made to hold similar entertainments every month. In October a debate will be held at which some popular subject will be discussed.

This is the best season for preserving fruit. The best of peaches and prunes at Galloway Bros. 2-3

New Fall Millinery

Just arrived the latest designs in styles and shapes. Ladies Ready-to-wear, Trimmed and Pattern Hats. We ask the Ladies to call and inspect our stock and prices.

Dress Goods

Our fall stock is now coming to hand. We are showing all the latest and most up-to-date dress materials, all the latest and most popular patterns and colors, and at all prices.

Ready-to-wear Goods

Our stock of Skirts, Jackets, and Coats is the largest and best we have ever shown. Come and look through, we know we can please you.

GREENWOOD HONORED

Greenwood will be honored tomorrow by a visit from the Canadian Society of Civil Engineers, now touring British Columbia. The party will include some forty. The visit of so many men, eminent in the engineering profession, is of much importance to a community like Greenwood. The development of the mining industry depends primarily upon the investment of working capital in order that the vast wealth lying dormant in the earth may be utilized for the benefit of the commercial world and the employment of numerous laborers. Back of the investment of capital is the intelligent advice, investigation and decision of just such men as are to be our guests tomorrow. No great mining enterprise is successfully entered upon without the aid and advice of some competent engineer, and who is in nearly all cases, pri-primarily responsible for the investment of large capital. What the engineer knows and says often determines the whole policy of large companies.

The impression, therefore, that the visiting engineers receive of the mineral properties of Greenwood will have an highly important effect upon the iniroduction of large capital into this district in the future. Every effort, therefore, should be made to show them the best the mines can show; the racilities for handling the output of the mines dwelt upon, and the railway accommodations, present and prospective, emphasized.

CARNIVAL AND BALL

One of the Big Events of the Spokane Fair.

Complete detailed plans for the big carnival to be held next Monday night, September 24, at the Interstate Fair grounds in Spokane, are announced by the committee in charge. The arrangements include a varied form of entertainment, most elaborate in its conception, and given at the cheapest price of admission ever offered for such a program in the northwest. The order of events for carnival night is as follows:

7:30 p. m.—Vaudeville features on the platform in front of the grand stand.

8:00—Illumination of racetrack and grand parade.

8:45—Oriental ceremonies on platform in front of grand stand.

9:00—Carnival ball in the ball room under the grand stand.

The parade will be the great feature of carnival night, and will be headed by four trumpeters heralding the procession. Next will come Grand Marshal Van Dissel and his aides, on horseback. Next in line will be Kirchner's Spokane band, in new uniforms. The Queen of the Carnival, in her royal barge, a most beautiful and elaborate float, will follow, surrounded by her bodyguard of 30 men, comprising the E-Nak-Ops Carnival chorus. Next comes the prime ministers' float, and floats donated by the Spokane business houses.

Interspersed among the floats of the business houses will be various divisions of the Mystic Order of E-Nak-Ops, all dressed in their bright costumes and carrying huge torches which will throw an added light upon the whole parade Nat Reiss' Midway band will lead the freak division. The feature of this division is a dragon 60 feet in length, the body and head being carried by 30 men concealed in the folds of the dragon, and the head belching flames and smoke from nostrils and mouth. Other features of the freak division are kept secret, as it is the intention to surprise the audience in a variety of ways.

A little German band will occupy a prominent position, and the procession will have as its rear guard what is said to be the most unique and wonderful musical instrument ever mounted on wheels.

When the parade passes the grand stand the second time, the whole line will be illuminated with an elaborate display of prismatic mines, which change color as they burn. The electric lights will be turned off, and the whole scene will be one of brilliant color.

Every preparation has been made to accommodate the largest crowd ever gathered in Spokane. Street cars will be operated all night, and there are numerous places on the grounds where lunch will be served.

Pain from a Burn Promptly Relieved by Chamberlain's Pain Balm.

A little child of Michael Strauss, of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists.

When you want color poster work done, bring your order to the Times office. We have positively the only job printing office in the Boundary properly equipped to successfully do the work.

ZAM-BUK CURES BAD LEG

Heals Ulcers and Eczema, Too.

For bad legs, ulcers, running wounds and eczema, there is nothing to equal Zam-Buk. These diseases are very prevalent and sufferers will be surprised to find how soon Zam-Buk gives relief, even in chronic cases.

Mr. A. White of Medicine Hat, Alta., says: "I was in hospital with a bad leg and had an operation, but came out still a sufferer. I then tried Zam-Buk and it healed the wound completely, I wish I had known of it before. It would have saved me many dollars and a great deal of pain."

Mr. J. A. Morden of Hyde Park Corner, Ont., says: "I tried Zam-Buk for eczema and found it delightfully soothing. My skin soon healed and became smooth from its use."

Scores of similar cases could be quoted. Zam-Buk is made from vegetable essence and extracts, and contains no trace of any mineral poison or coloring matter or any animal fats. It cures cuts, bruises, scalds, abscesses, chafed places, sore feet, ringworm, festering sores and all skin eruptions and diseases. From all druggists at 50c a box or from the Zam-Buk Co., Toronto, upon receipt of price. (Six boxes for $2.50.)

TEN YEARS AGO

Interesting Items from the Boundary Creek Times of 1896.

It is now ten years since the Boundary Creek Times was first published. It was then a three column, eight page journal, measuring 7x11½ inches. Then, as now, it was devoted to the interests of the Boundary country and its colums recall many interesting events that were gradually shaping the character of the young city of Greenwood.

The early issues of the paper rejoiced in a good share of advertising patronage. Among the firms using its early issues to build up their business, who are still finding it a profitable medium for advertising, are Rendell & Co. (then, as now, the largest advertisers), Russell & Co., T. M. Gulley & Co., The Bealey Investment Co., Smith & McRae, Windsor hotel and Weiler Bros., Victoria. Other business announcements were Armstrong & Lawder, hardware, Anaconda; Olson & Phelan, grocers; Miller Bros., jewelers; Kerr Bros., butchers; R. Buckley, harness; H. H. Huff, blacksmithing; Taylor's pharmacy, Dr. Jakes and G. B. Taylor & Co., general merchants, Rock Creek.

Among other interesting items there appeared:

Miss Grace Thorner arrived on Wednesday's stage from Penticton to take charge of the Greenwood city school, which will be opened immediately. There are in Greenwood and Anaconda at least twenty-five or thirty children old enough to go to school.

Word has been received from W. T. Smith that work will be resumed on the Stemwinder.

Buildings are being put up at the Mother Lode preparatory to starting work at once. The cook has arrived in camp.

C. J. McArthur, a partner of Fred Shonquist, came in this week from Butte, Mont. He is part owner in some valuable claims, notably the Denaro Grande.

The water has been pumped out of the Skylark shaft and work has been resumed. The Lexington Mining Co of Butte, who own the property, are a strong company, and will spare no expense to make the Skylark a shipping mine.

A promising find has been made by "Jim" Dale on the West Fork. The claim, which is called the Carmi, has a quartz ledge four feet wide and traceable for over 2,000 feet. The Carmi is likely to prove a valuable mine.

B. C. PROVINCIAL EXHIBITION

For the above event the Canadian Pacific Railway are quoting very low round trip excursion rates, same being on sale September 28th to October 2nd, good for return passage till October 11th. Rate from Greenwood is $19.35. Daily through sleepers are being operated from Arrowhead. For berth reservations on Columbia river steamers, or sleeper, apply to local agents or write J. S. Carter, D. P. A., Nelson B. C.—Adv.

THE LORD'S DAY ACT

The New Sunday Law Discussed.

A REASONABLE MEASURE

Rev. W. M. Rochester Addresses People On What Is Prohibited and What Is Allowed.

After having driven all Sunday night and nearly all day Monday from Penticton to Greenwood, Rev. William M. Rochester, B. A., of Winnipeg, as sociate secretary of the Lord's Day Alliance, delivered an interesting, comprehensive and forceable address in the Presbyterian church Monday night on the Lord's Day Act, recently passed in the House of Commons. Mr. Rochester has charge of the Alliance work in the provinces of British Columbia, Alberta, Saskatchewan and Manitoba, and is now on a tour visiting all the principal towns and explaining to the people the significance of the new law. He is a pleasant, easy, free speaker, and the fairly large audience that greeted him on Monday night followed every word with keen interest, at times applauding his references to the importance of the act.

TAKING A DEEP INTEREST.

In his introductory remarks Mr. Rochester stated that the people of the west, and of Canada, as a whole, were taking a deep interest in the question of observing the Lord's Day. It was a question worthy of attention and should be given the consideration its importance demanded, Not the harping Puritanical attention to unreasonable details, that were sometimes attributed to its defenders, but the just demands that required its preservation as a day of rest for those who toil. There were perverted demands in small details that spoiled the true effect of Sabbath observance, and restrained the natural instincts of both adult and child to an unreasonable extent, but this was not the aim or intent of the new law or of its advocates.

NOT DANGEROUS.

In their effort to defeat the bill corporations had argued that it would seriously interfere with the proper carrying on of business and the general prosperity of the country would be affected to a dangerous extent. Such dangers, however, had been safeguarded against, and no unreasonable restrictions had been placed upon manufacturing or transportation companies that would endanger the safety of their property or that of their customers. Provision had been made for the handling of perishable goods and for the conducting of passengers to their destination.

A PRACTICAL LAW.

The act that had been passed, and which comes into effect in March, 1907, was the result of five years of consistent effort on the part of the Lord's Day Alliance. It was the first practical law of its kind. "Some people," said Mr. Rochester, "declare it to be too drastic a measure and, therefore, 'too good,' others that it is too loose and fragmentary to be of practical use, and therefore 'no good,' but the secretary of state for the Dominion had pronounced it 'the most effective, comprehensive and practical measure yet entered upon the statute books of any nation,' and I hope," continued the speaker, "to be able to show that it is some good."

A REASONABLE LAW.

The second section of the act prohibits the transaction of business on the Lord's Day, for gain, but exceptions are made in all work of necessity. The physician, dentist, druggist, clergyman and all others engaged in pursuits for the relief of suffering are not liable to any penalty. Exception is made for the maintaining of furnace fires where material in the course of manufacture require constant heat: the ventilation of mines and the retailing of milk from house to house. Though it was pointed out that in Ottawa the dairymen of their own choosiag deliver no milk on Sunday. It was not the object of the act to interfere with the reasonable demands of modern life, but it aimed to minimize Sunday labor.

NO SUNDAY AMUSEMENTS.

It prohibited Sunday excursions by water or rail, the publishing of a Sunday newspaper, or the distributing, importation or selling of the same, games of amusement, baseball or otherwise, all concerts and entertainments where admission is charged. Freight trains must not be made up or dispatched, and no way freight delivered, and track crews are to be given rest from 6 a. m. to 8 p. m. In connection with railway work, Mr. Rochester explained that when the bill was before the house a letter was read from the president of the Chicago Great Western railway, stating that on the lines of his company, Sunday excursions had been discontinued and all freight traffic reduced to a minimum and the change had resulted in better service and increased returns.

In closing, the speaker pointed out that the measure aimed not to make people more religious, but to secure to all a day of rest. He pleaded, however, for a better observance of the day than this or any human law called for, but was anxious that it should receive the respect that is accorded all British safeguards to liberty.

BOUNDARY ORE TONNAGE.

The following table gives the ore shipments of the Boundary mines for 1900, 1901, 1902, 1903, 1904, 1905 and 1906, as reported to the Boundary Creek Times:

WORK ON THE V., V. & E.

Track Laying in the Vicinity of Molson.

"The latest rumor as to the whereabouts of the V., V. & E. track is that it is approaching Molson very slowly, about six miles east of it," says the Similkameen Star. "When the rails are laid to Molson there is a further rumor that passenger trains will be run that far and that Royer's stage line will connect with it, running through direct to Princeton. It is said that a large number of mining men and investors are waiting for the rails to reach Molson and that Mr. Royer has been advised to be in readiness for the expected rush.

"It is somewhat difficult to get trustworthy information regarding the progress made by the track laying gang on the V., V. & E. The best source of information would, of course, be the chief engineer, but as his duties call him many miles away from communication, he is not available for interview when the reporter desires. Travelers along the route are often misled as to the exact location of the rail head, hence it is that the Star and other papers fall into error. The anxiety with which the progress of track laying is learned here is on a par with the result of some great national event The mental strain will get great relief when the steel reaches Keremeos. So, let 'er come, and come right smart.

"Engineers Amburn and Tracy on the west slope of the Hope mountains, and Milliken on the east, are making good headway with their preliminary surveys of the V., V. & E. It is expected the line will be completed by the middle of October, if the weather remains fair. Supplies for the westbound parties are being packed from Hope."

Top buggy for sales, good condition. Apply Rev. J. Leech Porter, Greenwood. tf

Chamberlain's Cough Remedy Acts on Nature's Plan.

The most successful medicines are those that aid nature Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence It counteracts any tendency of a cold to result in pneumonia. Price, 25 cents. Large size, 50 cents. For sale by all druggists.

CHILDREN'S OUTING

The children of the Presbyterian Sunday School were treated to an afternoon's fun last Saturday. They gathered at the church, where they enjoyed a round of lively sports, and were then given a drive around the city in rigs kindly donated by George Cropley and D. Bannerman. "Scotty" drove one of the rigs and the children entertained the whole town with their merry laughter. Tea was served in the church by teachers and friends and the attendance at Sunday School last Saturday broke all previous records.

WAS A VERY SICK BOY.

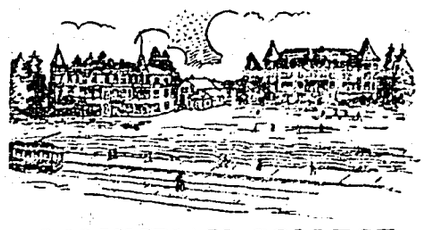
But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hickox, of Midland, Mich. This remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale by all druggists.

NOTICE

NOTICE Is hereby given that I intend to apply to the license commissioners at their next regular meeting for the transfer of the saloon license now held by J. E. Bishop for the Victoria hotel, situated on lot 24, block 12, map 21, city of Greenwood, to C. Scott Galloway.

Dated at the city of Greenwood, August 29, 1906. 52-53 J. E. BISHOP.



COLUMBIAN COLLEGE

New Westminster, B. C.

Receives both ladies and gentlemen as resident or day students. Has a complete business or commercial course. Prepares students to gain teachers' certificates of all grades. Gives the four years' course for the B. A. degree, and the first year of the of the School of Science course, in affiliation with Toronto University. Has a special "Prospectors' Course" for miners who work in B. C.

Instruction is also given in Art, Music, Physical Culture and Elocution.

Term opens September 17, 1906. For calendar, etc., address COLUMBIAN COLLEGE.

BANDFAIR

20 Years Experience

We have had 20 years experience in

Cleaning

PROSPECTOR'S GUIDE

(By A. Harry Hook, Assayer.)

The column is devoted this week to "Antimony and Stibnite." Next week "Bismuth" will be discussed.

ANTIMONY.

Antimony is one of the metals not used to so great an extent as lead, tin, etc., owing to its extreme brittleness, which renders it useful only in alloys. It is a highly crystalline metal with a silvery appearance and can be easily powdered in a mortar. It is harder than copper, has a specific gravity of 6.8, and a melting point of 450 degrees c. and is soluable in aqua regia.

It is used for hardening alloys, such as type metal, Britannia metal and anti-friction metal alloys, but as it combines freely with the negative elements, many uses have been found for it in the arts and in medicine. Antimony is mined principally in Japan, Borneo and Australia.

To obtain the metal, the ore (stibnite) is first roasted at or near 350 degrees centigrade, in reverberatory furnaces, which are provided with arrangements for condensation. It is then reduced to metal by charcoal and other reducing agents in reverberatory furnaces. Antimony is at present worth 23 cents per pound. Stibnite is the only ore of antimony found in payable quantities.

STIBNITE.

Sometimes called antimony glace, is a trisulyphide of antimony, there being 71.4 per cent antimony and 28.6 per cent sulphur. Its cleaveage is highly perfect, and its luster is metallic. The color and streak are lead gray inclining to steel-gray and subject to blackish tarnish.

Stibnite is very easily fusible, coloring the flame greenish blue. It is distinguished from galena by its cleavage, softness and its extreme fusibility. It occurs with quartz in veins and beds in granite and gneiss, often accompanied with various other antimonial minerals produced by its alteration. It is also associated in metalliferous deposits with sphalerite, galena, barite, cinnabar and quartz, and sometimes stibnite contains gold and silver. So far stibnite has not been found in workable quantities in British Columbia.

GREENWOOD, : B. C.

Synopsis of Canadian Homestead Regulations.

ANY available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3 If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to es idence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,00 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior

MORTGAGE SALE

UNDER And by virtue of the powers contained in a certain mortgage which will be produced at the time of sale, there will be offered for sale by public auction, by James S. Birnie, at the Victoria hotel, Copper street, city of Greenwood, British Columbia, on Monday, the first day of October, 1906, at the hour of two o'clock in the afternoon, the following property:

All that parcel or tract of land situate, lying and being in the city of Greenwood, in the Province of British Columbia, more particularly known and described as lot 24, in block 12, according to the map or plan of the subdivision of the "Dark Horse" mineral claim, deposited in the Land Registry office at Kamloops, and numbered twenty-one.

On the property are the Victoria hotel, containing 12 bedrooms, furnished complete, barroom and fixtures, dining room, kitchen and utensils.

For terms and conditions apply to

A. S. BLACK,
Greenwood street, Greenwood, B. C.,
Solicitor for Mortgagee.

Dated 23rd August.

MIDWAY NEWS

Chatty Items of Interest from the Border Town.

(From the Star.)

E. Foyle Smith has returned from his trip to Beaverdell, where he has been doing assessment work on his mineral claim.

A man working on one of the V., V. & E. bridges, last week fell to the ground, a distance of 60 feet, and was rather badly hurt. He was brought to the hospital for treatment.

Pete Swanson and L. A. Manly have returned from their trip to the Similkameen. They expressed the belief that Princeton, with its abundant natural resources and favorable location, will be the future city in the Similkameen.

Another accident occurred on the V., V. & E. Tuesday. A workman in some way got his leg badly crushed, necessitating his removal to the hospital here, where the injured limb was amputated.

Work on the bridge is temporarily suspended, pending the arrival of additional timbers from up the river.

A group of claims in Franklin camp, consisting of the Union and Paper Dollar Claims and the Maple Leaf Fraction is owned by Mike McDonnel, Pat McGinnis, Louis Johnson and J. C. Henderson, all of Eholt. A 30-foot cut shows solid galena from end to end.

S Dahl's bartender, accompanied by a lady friend, went out for a drive the beginning of the week, and on the return journey he dropped in at the Lancashire House, leaving the lady in the rig. Evidently the horses wanted to get home, for they started off unbidden and crashed into J. Attwood's fence, throwing the lady out of the rig. When they arrived up town they made a few trips around the Spokane hotel and then quietly awaited admission to Broomfield & Garrison's livery barn, where they belonged. Fortunately, the lady suffered no injury, and the only damage to the rig was one spoke broken.

Deputy Sheriff McGregor was over from Ferry yesterday to notify the Midway officers of the presence in the neighborhood of two suspicious characters working the cripple and deaf and dumb trick. It would be well for the people to beware of them, and notify the police if they are caught begging.

Broomfield & Garrison have decided to open a livery stable in Princeton, and with that object in view have purchased two 150-foot lots in a central position on Bridge street. They will commence on the new buildings in time to permit of their opening up for business next spring. Mr. Broomfield accompanied Messrs. Manly & Swanson on their recent trip to the Similkameen and secured the location.

A grade has been made on the river bank, just above the bridge, to enable teams to cross during the rebuilding.

Dave McBride was down from Anarchist mountain recently, and stated that steel would reach his place this week. This will still leave some five miles more to be laid before Molson is reached. Preparations are being made to build a water tank at that point, and the station buildings will shortly be commenced.

Mr. Black of New Denver, is taking the place of Constable Darraugh, who is ill with typhoid fever.

MINERAL ACT

Certificate of Improvements

NOTICE

"London" Mineral Claim, situate in the Greenwood Mining Division of Yale District.
Where located: In Deadwood Camp.

TAKE NOTICE that I, Arthur Murdoch Whiteside, acting as agent for F. F. Ketchum, Free Miner's Certificate No. B93037, and George M. Foster, Free Miner's Certificate No. B6554, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of Improvements, for the purpose of obtaining a Crown Grant of their interests in the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 15th day of June, A.D. 1906.

42-53 A. M. WHITESIDE.

Progress and Development

Progress and development are terms closely identified with life in the West. In a new country people are working daily for the upbuilding of town, city and district, and for the improvementof the conditions under which men and women are called upon to live. Every act of daily life that tends to bettering one's surroundings makes directly or indirectly for the improvement of society generally. In all this the local newspaper plays an important part. Among its local readers it stimulates an increasing interest in their home city, keeping them posted on all local happenings, and becomes a welcome weekly messenger, bearing bright and welcome tidings. Among its outside readers it forms a valuable advertising medium making known the merits, advantages and prospects of the city and attracting thither citizens who want employment, business firms looking for locations, and capitalists seeking investments. In the upbuilding of a town, city or district the local paper is an important factor.

BOUNDARY CREEK TIMES

The Boundary Creek Times aims to do its full and complete share in the upbuilding and improvement of Greenwood and the Boundary district. It is not handicapped in its work by any restraining obligations to any party, clique or corporation, but it is free at all times to rise up and promote the best interests of the City of Greenwood and its people. To do this most thoroughly and satisfactorily the Times must have the support and cooperation of the citizens of Greenwood.

Every effort is being put forth to make the Times the class of newspaper the people want. Increasing attention is being continually paid to mining news, especially of that nature that will interest those employed in the work as well as those whose capital is invested in the properties. With this end in view we aim to have

A Subscriber in Every Home

As a result of the efforts that have already been put forth, we believe that an increas interest is already being taken in its news columns. We have evidences of this from the fact that the subscripiion list is already growing; the street sales are increasing weekly and the news dealers find more demand for each succeeding issue. This is a satisfactory condition of affairs that acts in two ways. It increases the revenue of the circulation department and it makes the paper a first-class advertising medium for local business men.

In handling local advertising every effort if put forth to protect the Greenwood merchant. The local page is reserved for them and foreign advertising has been repeatedly refused because the advertising manager refused to disturb the positions held by local advertisers.

Business men of Greenwood, we are here to protect and advertise you. We are protecting you! Do you advertise? Read The Times, subscription $2.00 per year.

Henry Johnson, formerly superintendent of the Emma mine, is now in charge of the work at the Lone Star and Washington.

Mayor Naden is expected home next Thursday. He is now visiting in the coast cities and has sent word that he will be home next week.

Decision has just been rendeaed in the case of Eastern Townships Bank vs. Vaughan, involving a water right. The case was dismissed with costs.

House cleaning is now absorbing the the attention of houskeepers and selections of wall paper are being made every day at Smith & McRae's.

Mrs. H. McKinney has returned to Concord, N. H, for the purpose of educating her daughters. Mr. McKinney remains at the offices of the B. C. Copper Co., Deadwood.

W. C. Wilson, who has been indisposed, suffering from nerve and stomach complaints, is steadily regaining strength and will probably be around again in a few days.

Ed. W. Bishop, who has been seriously ill with blood poisoning, is gradually recovering. He was feeling much better this morning and it is expected he will now steadily recover.

The laxative effect of Chamberlain's Stomach and Liver Tablets is so agreeable and so natural that you can hardly realize that it is produced by medicine. These tablets also cure indigestion. For sale by all druggists.

Having decided to leave the city, Mrs. Cairns is disposing of her household goods at remarkably low prices. Piano sideboard, secretary, ladies' wheel and other things cheap. Mrs. Cairns, opposite English church. 3

Chief of Police Darrough of Midway, who has been so seriously ill with fever, has partially recovered from the serious collapse of a few days ago, and reasonable hope is entertained for his recovery, though his condition is still critical.

Mr. Bealey of Portland, Oregon, founder of the Bealey Investment Co., is in the city looking for real estate investments. He was one of the early financiers of Greenwood and conducted a private bank before the chartered bank opened for business. He thinks Greenwood is beginning an era of renewed prosperity.

Chief of Police Kenneth McKenzie is in Nelson visiting the fair and is attending the first convention of policemen of the interior of B. C. The object of this convention is to form an association among the policemen and chiefs of the interior towns with a view to establishing a regular system by which criminals may be traced and kept continually under the watchful eye of the officers of the law.

PRAIRIE PROSPERITY

Mr. Nelson Tells of the Progress of the Wheat Belt.

W. J. Nelson, who returned recently with Mrs. Nelson from North Dakota and Minnesota, speaks in glowing terms of the enjoyment the trip afforded him. It is some seven years since he was on the prairie last, and he was much impressed with the great changes and improvements that have taken place in the meantime. Great stretches of country that were formally unoccupied or used only for pasturage, have been turned into large and prosperous farms growing wheat, oats and flax. The crops this year are turning out good. The wheat is running twenty-five bushels per acre, and oats to fifty and sixty There are, of course, exceptional yields that will exceed this, but the average yield will run close to these figures The flax crop was just being threshed when Mr. Nelson left, and the yield had not been ascertained, but it would run to a good average.

PROSPEROUS FARMERS.

Mr. Nelson says the farmers of the prairie states are all much more prosperous now than they were seven years ago. Their farms are being worked with the most modern machinery and a higher order of intelligence is being gradually introduced into their methods of labor. The price of land is rapidly and steadily rising. Mr. Nelson's brother has a farm of some 1,600 acres, part of which was purchased at ten dollars per acre. Forty dollars per acre has been offered for the whole farm, but Mr. Nelson is holding out for fifty per acre. With his land of increasing value, his growing crops, cattle, horses, implements and general equipment the prairie farmer holds a prosperous and enviable position among the progressive workers of the world.

WON GRANBY CUP

Strathmore Ore Captures Coveted Prize.

FINEST AT NELSON FAIR

High Grade Mines of Greenwood Make Splendid Showing Amid Strong Competition.

At the Nelson fair L. B. Hodge won first prize for Wyndotte chicks, and second for Rose Comb Leghorns

The exhibit of ore from the Greenwood mines in charge of G. W. Cornish attracted considerable attention. In close competition with the Greenwood display was that of Ainsworth, and as the latter represented a larger number of mines and prospects it carried off the prize. For the Granby cup, however, Greenwood was honored by the Strathmore ore capturing the prize. This should have a big effect in advertising the high grade properties of Greenwood, when a mine having reached only a depth of 140 feet should carry off a trophy in competition with districts where greater development has been reached.

Among the mines represented in the exhibit were Providence, Elkhorn, Prince Henry, Helen, Duncan, Carmi, Sally, Skylark, Crescent and others.

COUNCIL MEETING

City Will Entertain Visiting Civil Engineers.—Charity Case.

At the council meeting Monday night it was decided to take steps to entertain the members of the Canadian Association of Civil Engineers when they visit Greenwood on Saturday afternoon, the 22nd. The council and citizens were appointed a committee to make all the necessary arrangements, including a visit to the surrounding mines and dinner at the Imperial hotel in the evening, the cost of which will be borne by the city.

Mr. Sater of the Norden hotel, was present to solicit aid for one, Richards, an old man who had been staying at his hotel during the past three months. Richards is in destitute circumstances and is in need of medical attendance. Mr. Sater thought the council should make some provison for the man's keep. The matter was referred to Acting Mayor Bunting and Alderman Nelson, with power to act.

The Providence Mining Co. wrote that they were prepared to modify their last proposal reffarding a reservoir site on the Providence mining claim. As the council had previously decided to delay final selection of a site until next spring, the communication was filed.

By-law 120 passed its third reading and was reported complete. This measure deals with business, road, professional and dog taxes, and taxes on places of amusement and required some minor changes to conform with the new Municipal Act. There being but little business to transact council adjourned to meet again in two weeks.

OBITUARY

The death occurred in Victoria, last Wednesday, 19th inst., of Belle, wife of J. L. White, of Victoria, at the age of 28. Deceased had been ill for some three years, suffering from lung trouble, and though everything was done to prolong her life, medical skill and care was unable to combat the dread disease. She leaves a sorrowing husband to mourn her early decease.

The funeral will take place in Victoria tomorrow.

A TWO NIGHT SHOW

Sutton's Big Vaudeville show will give a performance in the Auditorium next Friday and Saturday nights. On the first evening they will give "A Family Affair," and on Saturday evening "The Church Across the Way." The company includes a number of star artists, among them being the four Mullaby Sisters, the four musical Claysons and Emil Cherriel, a famous violinist, who does some wonderful tricks. The company has altogether some 30 people and they travel in their private car. After the Friday evening performance a dance will be held at which Sutton's concert orchestra will provide the music.

WEDDING BELLS

DILL-HALLETT

A quiet wedding was solemnized Tuesday, at 1 p, m., when Lottie Elizabeth, daughter of Mr. and Mrs. Edwin Hallett, was united in marriage to Edwin Blake Dill, of the Russell-Law-Caulfield Co. The ceremony was performed by Rev, M. D. McKee, and only the immediate friends of the bride were present. The bride was given away by her father and looked very nice in her dainty costume of white silk, while her traveling suit was of white gray with hat to match.

After the ceremony the family circle sat down to lunch, after which the happy couple left on the 3:30 train for Nelson, where the honeymoon is being spent.

The gift of the bride's parents was a beautiful cabinet grand piano and the groom presented his bride with a handsome gold watch and chain. The groom's parents present was a chest of silverware.

Mr. and Mrs. Dill will return to Greenwood on Monday, and for a time will reside at the Imperial hotel, but later will occupy the residence at present occupied by Mr. Williams, Kimberly avenue.

HIGMAN-WOOD

It is a long time since Greenwood has witnessed as pretty, interesting and yet unpretentious a wedding as that celebrated last Wednesday, when Miss Katherine Irene Wood and Ormond Higman were married. Miss Wood is the youngest daughter of Mr. and Mrs. Christopher Wood, pioneers of Greenwood, and she has long held a warm place in the hearts of the young people of the city. Mr. Higman is the oldest son of Ormond Higman of Ottawa, and is by profession a civil engineer, being a member of the Canadian Society of Civil Engineers. He formerly worked on the Midway & Vernon staff, and afterwards with the B. C. Copper Co. He is now established in business in Fort Saskatchewan, near Edmonton.

The wedding service was fully choral and was celebrated in St. Jude's church. It was the first wedding in the new chancel, and according to a time honored custom the pastor presented the bride, whose presence first honored the new building, with a service book bound in white, bearing on the cover the marriage service in gold.

The church was most tastefully decorated with cut flowers and foliage, the work of the bride's many lady friends. Precisely at high noon the bridal couple took their places and were united in marriage, the Rev. J. Leech-Porter, pastor of the church, officiating. The church was filled with guests and friends.

The bride was dressed in a simple but most becoming costume of cream satin, trimmed with Flanders lace Her long tule vale was secured by a corner of white blossoms and she carried a bouquet of white flowers, and all who were present rejoiced in the beauty of the happy bride.

Miss Maud Minkler, a niece of the bride's aunt, Mrs Robert Wood, was the charming and attractive bridesmaid. She was daintily attired in white net over pink silk. Her hat was of white lace trimmed with a wreath of pink roses and a white feather under left side.

A. E. Duchesnay supported the groom, performing his duties in a most pleasing manner. The bride's mother was dressed in a brown velvet suit with little Belero coat of Tambour lace. She wore a velvet bonnet to match, trimmed with shade velvet roses. Mrs. Frank Poole, the bride's sister, wore a white silk gown and picture hat.

After the ceremony the bridal party were conveyed to the residence of the bride's parents, where a luncheon was served to a large number of guests, there being over eighty invited. A pleasing feature of the reception was the inscribing of many of the guests names in the bride's service book, the pastor's gift. The bridal party were also photographed, both as they were leaving the church and in the reception rooms.

At 3:30 Mr. and Mrs. Higman took the east bound train en route for their future home in Fort Saskatchewan. They will travel via the Arrow lakes and the main line, visiting at Banff and other places of special interest in the heart of the Rockies. The bride's traveling costume was brown cloth coat and skirt, with hat to match.

THE GIFTS.

The gifts, though costly and beautiful, were free from suggestion of lavish display. The groom presented his bride with a magnificent pearl ring, while the bride's gift to the groom was decidedly unique and interesting. It consisted of a gold watch chain and fob, to which was attached a ten shilling piece, set with their birth stones, topaz and bloodstone, and chased with their initials, O. and K.

Mr. Higman's gifts to the bridesmaid and groomsman were pearl brooch and stick pin. The gifts of the bride's parents were an amethyst necklace, silver cake basket and silver teaspoons. Mr. and Mrs. O. Higman, parents of the groom, chest of silvercutlery; Mr and Mrs. Robert Wood and Miss Minkler, silver tea strainer and stand and picture; Mr. and Mrs. Poole, silver fish carver, with knives and forks to match; H. Wood, china (Derby) cup and saucer; Miss E. Wood, picture; Mr. Duchesnay, china bowl and plates; St. Jude's choir, cut glass cream pitcher and sugar basin; St. Jude's Ladies' Guild of eighteen members, china cup and saucer each; Mr. and Mrs. J. E. McAllister, china boat and stand; Mr. and Miss Whiteside, cut glass dish; Dr. Foster. heart shaped cut glass dish; B. deVeber, silver fruit spoon and servers; Mr. and Mrs. Keffer, china plates; R. Smailes, table cloth; Mr. and Mrs. Bunting, framed oil painting; Mr. and Mrs. Wickwire, silver cheese scoop; Messrs. Rendell & Co., lace curtains; Miss Beldon, water color picture; Miss Schon, prayer book and hymn book; Mrs. English, cut glass plate; Randolph Stuart, china bowl; Mr. Plumer, china plates, and many handsome tokens of esteem from relatives and friends in distant places, many of them being sent direct to the future home of the happy couple.

NOTES IMPROVEMENT

Newspaper Man Thinks Greenwood Is Improving.

Percy F. Godenrath, of "Mother Earth's Treasure Vaults" fame, and more recently known for his excellent booklet "Canada's National Playground," visited Greenwood and vicinity this week and met many of his old friends here and made new ones. Mr. Godenrath was formerly connected with the Times, in days when a daily paper was thought indispensible to the welfare of the town, and he did much at that time to widely advertise the mineral riches of the Boundary. When the boom broke he wisely sought pastures new and is now on the staff of The Week.

Mr. Godenrath has noted some important changes in the aspect of things in and around Greenwood and remarked on the evident improvement in general business.

Speaking of the political situation, he was of the opinion that the report of December elections was what might be expected, and that the report was probably correct.

GRANBY CO.

The Granby Consolidated company's fiscal year ended June 30, and during that period net earnings were between $1,800,000 and $1,900,000. The copper production was just under 25,000,000 pounds.

At present the company is treating about 2,300 tons daily, but around Nov. 1, with the completion of new furnace equipment, this amount will be increased to over 3,000 tons daily. Next year's production is expected to show a still further material increase, and a director is of the opinion that the production will be eventually increased to considerably over the 50,000,000 pounds mark.

The shares of the company are now in the hands of between 2,500 and 3,000 persons, as compared with about 900 in December, 1903, the time of the first dividend payment.—Boston Commercial.

Reserved seats in the grand stand at the Spokane Interstate fair can be secured in advance at the rate of 50 cents apiece per day by any one who wishes to send the remittance to Manager Robt. H. Cosgrove. Those who wish to obtain the detailed day program of the fair can have it mailed to them by addressing Mr. Cosgrove. It will be ready for distribution about September 15.

BILEANS AND CHANGE OF SEASON

How This Vegetable Remedy Aids the Body.

If the thermometer jumped from 80 in the shade one day to 20 below zero the next, how few people would escape a terrible chill! Why? Because the body could not adapt itself to the change quickly enough. But from September 1st to the coming winter the body HAS to prepare for such a change! Generally it needs a little help, and Bileans provide that help. The liver, stomach and bowels are the organs which suffer most from change in temperature.

The liver is composed of thousands of tiny cells, and in these cells the bile is secreted, and the blood is purified. Summer's heat has weakened them—made them feel limp like you did! Winter has some heavy work for them to do if your health is to be preserved. Bileans are the required tonic. Bileans are a vegetable help—not a mineral poison like so many liver "medicines." Bileans tone up the liver, strengthen the digestive organs, stimulate and enrich the secretory glands and strengthen the walls of the intestines They thus cure indigestion, liver disorder and constipation, at the same time toning up the most vital organs of the body. Headache, bilious spells, palpitation, and, in females, various irregularities—all these mean that the body is run down and out of order—needs Bileans. All druggists supply them at 50c a box. Ask any friend who has used them what Bileans can do!
