Special Price $2.50

Millinery *Ladies Ready-to-Wear Hats all at Special Prices.*

RENDELL & CO

THE SUNSET.

Good progrers is being made under Foreman Morrison in the work of developing the Sunset on Copper mountain. This property, now controlled by the B. C. Copper company, will undergo thorough exploration and proving before the bond matures. Some very fine ore has been taken from the bottom of the shaft, now at a depth of about two hundred feet. Mineralization seems to increase with depth as noted by the large flakes of bornite. In the bottom of the shaft native copper in a fissure vein of talc is exposed. Every thing is working smoothly for machinery that has been so long idle, and quarters for employes are comfortable. The Sunset is the best developed property on Copper mountain and its progress is sure to be of interest to mining men. It has already, in a large measure, solved the future of Copper mountain as a mining camp and other companies may now take heart and follow their leader and pioneer mine.—Similkameen Star.

STRIKE ON HIGHLAND QUEEN.

During the past week the ore body was struck on the Highland Queen in the tunnel at a distance os 34 feet from the portal.

The property is under bond to Foulds Bros. and Penny, who have been dedeveloping it for the past three months. As yet the lead has not been crosscut, and its extent is not known, but the samples brought into town would indicate that the ore is high grade. When the lead has been crosscut it is the intention to drift north and south, and regular shipments made to the smelter. These shipments should, after deducting expense of mining, freight and shipment charges, net a handsome profit to the owners.

Tomorrow, Saturday, at White Bros. store, every fifteenth cash customer will receive a basket of chocolates.

ANOTHER ORE BODY.

At the Mother Lode mine a new ore body has been discovered recently in the mule tunnel by diamond drill. A hole was drilled near the mouth of the tunnel to the southeast. The first 8 feet was waste, then for 48 feet the drill continued in very nice ore, when the waste was again struck. The drilling will be continued some distance farther. It is not known whether this body has a connection with the new ledge near the shaft or if it is an independent chute.—Anaconda News.

1895-GREENWOOD-1905

By Percy F. Godenrath.

Tenacity! Enterprise! Embodied in these words is the history of the founding and subsequent up-growth of the City of Greenwood--the financial, commercial and mining centre of the "Boundless Boundary." Ten years ago this coming fall, the site that now marks Greenwood was thickly covered by a forest growth of tamarack, bull pine and popular with dank marshes caused by the overflow of Boundary Creek as it made its tortuous way through the heart of the mountain enclosed valley southward to the Kettle river. It was here in 1895 that destiny lead Robert Wood, a pioneer merchant of the Okanagan, to found a city. He purchased several hundred acres and laid out a townsite two miles in length by half a mile wide. A log store was erected and the timbered acres christened "Greenwood."

The year following George Arthur Rendell and Ralph Smailss, who conducted a trading post at Boundary Falls, amalgamated their business with Mr. Wood; and, with the uplifting of the bond on the Mother Lode mine in Deadwood camp, by New York capitalists—a momentous event for the new camp—a real impetuous was given the outside world, already stirred by the boom at Rossland, to participate in the possibilities of the embyro city and the truly remarkable mineralized country that backed it. That same year C. Scott Galloway also became interested in the townsite. From that time on the town grew apace; roads to the numerous nearby camps were built mainly by local enterprise, and the trade thereof swelled the business of the merchants. In August, 1897, the place had assumed such proportions that it was incorporated and its people took over the responsibility of self government. Gradually the forest was cleared off; Boundary Creek straightened out and confined at a cost of $25,000; streets graded and miles of walks laid and systems of waterworks, telephone and electric lights installed. It became moderinzed. Then followed the completion of the Columbia & Western branch of the C. P. R., and with the advent of the "steam horse" Duncan Ross, now M. P., changed the Boundary Creek Times from a weekly to a daily paper. Well does the writer remember those next six montns, as he held down a strenuous job combining the functions of telegraph editor, reporter and proof-reader. During that brief fleeting period it were easier to pick up $20 gold pieces for an article than $1 now, the price of a subscription to The Week.

If Greenwood ever experienced the sensation of a "boom" it was during 1899-1900. Certainly good times reached a high-water level. People flocked in; real estate and mineral claims changed hands daily, a smelter was nearing completion and scores of business blocks and hotels were going up. Then followed the envitable depression caused through overdoing things. Many predicied that the bottom had dropped out altogether, and, so departed for new fields of effort to again flirt with Dame Fortune. The rest, who perchance had sunk their little all, either could not, or, realizing that time only was needed to bring out the temporary chaos, stuck and some won out.

The past two years has wrought wonderful changs in the fortunes of several of the tenacious ones. The opening up by local money of the "high grade" prospects overlooked for years in the scramble to obtain big "low grade" ore bodies, resulted in capital again coming to the front and owners were enabled to sell for cash or bond at good figures. Today, Greenwood is not the city of the "years of plenty", with streets alive with happy-go-lucky prospectors, speculators and the crowd that follows in the wake of every mining boom. Instead, it strikes the casual visitor as infernally dull, relieved perhaps by the continual toot-toot of a passing ore train and the rumble of powder blasts that come up from the earth and echo and re-echo throughout the valley. Look deeper, and one learns another story. Wild speculation has ceased-so too has the merry tinkle of the roulette wheel, more sober methods are in vogue. All down the line—banker, merchant, miner, clerk and even padre are investing their dollars in "high grade" prospects and mines.

Immediately surrounding the city, go where you will, every point of the compass has its scene of mining activity within an hour's walk of the post office. Again, on a larger scale, if a circle were discribed with Greenwood for its centre and a radius of about eight miles, the circumference would pass through or include at least a dozen seperate mining camps. Within the first mile are working a score of properties and it is this new, ever expanding pay-roll of the "high grade" mines that local "capitalists" have made that is vitalizing, and bodes so much for the future prosperity of the city. To this must be added the substantial pay-rolls at the smelters of the British Columbia Copper Co., and the Montreal & Boston Consolidated M. & S. Co,, directly tributary, together, with the big mines of Deadwood camp.

Of its business men let me tell what a well known drummer of a Victoria house said to me in sizing up the present commercial situation: "Wholesalers have long recognized the superior class of business men that the city possesses, far above the average of new camps. For this reason Greenwood has had practically no failures in its commercial life. In other interior mining camps the number that have gone under—well let's forget it. Business here is good." Yes, it is not flattery to add that Greenwood's businessmen are wide-awake and enterprising, and it is to this fact that the city owes much of its progress and stability. At a glance the many business blocks, hotels, churches, civic and provincial buildings, and numerous private residences—the ensemble of the town, as it were, would hardly be credited by a stranger to the growth of less than a decade of years. Few places there are in the province, with double the age, equal to the "Commercial Metropolis of the Boundary."

A visit to the nearby mines, principally located in Providence and Skylark camps, is one of never failing interest, and just at the present moment they are attracting deserved attention at the hands of mining men representing capital. While the veins are invariably small, they are exceptionally rich. Perseverence is an essential requisite to successful mining here, but there are many examples already set—as the writer has given—that should be encouraging. When it is remembered that nearly two-thirds of the claims are owned, or are being developed by local men, the outlook for the high-grade mines is to say the least, optimistic. Within the year the city will have at its doors a mining camp that should double its present population—and that is what is needed in its upbuilding. The following brief notes of the various properties tell a story of mining activity, for which the writer is indebted to the various mine owners:

Starting at the northern boundary, the claims lie on each side of Boundary creek and extend a mile beyond the city. What is locally known as The Alphabetical group, at one time consisting of twelve claims, owned by the Boundary Creek Mining aud Milling company, now defunct, has been split up. An American syndicate has bonded some of the claims, including the Spokane, and started development.

On the Gold Bug, formerly one of the group, a 300-foot crosscut tunnel is being driven by contract, which is now in over 200 feet. In early days several carloads of rich silver and gold quartz ore were shipped to the smelter, and the present owners believe with the striking of the vein, at depth, the mine will yield as prolifically as ever.

The Boundary-Elkhorn Mining Co., limited, recently incorporated, and controlled by Philip McDonald and James Sutherland, the origidal owners of the Elkhorn group, is expected to resume development at once. Nearly

Concluded on page 5.

THE MINING RECORDS.

Following are the records made at the government office, Greenwood, for the month of May:

May 1—Dark Horse, Lind creek, S. McRae and A. Cameron.

Florence Fraction, Greenwood camp, John Rogers.

Oyama Fraction, Camp McKinney, Hugh McGraw and H. Nicholson.

May 2—Keystone, Ingram creek, Sydney M. Johnson.

4—Nellie, Horseshoe mountain, N. E. Peterson.

6—Industry, Summit camp, Steve McNeill.

8—Brooklyn, Longlake, C. Gamsby.

Anchor, Longlake, E. Shonquist.

9—Gilt Edge, Long lake, T. Corkill.

12—Sunnyside and Lakeview, Eholt, M. Tebo.

New York, Long lake, M. McDonald.

17—Missing Link, Smith's camp, Jno. G. Boyd.

16—Oversight, Long lake, A. G. Davis.

18—Fairplay Fraction, Beaver creek, Geo. M. Miller.

Planate, Beaver creek, Geo. M. Barrett.

Imperial Long lake, E. Shonquist.

20—O K Fraction, Skylark camp, J. Mutzenberg.

Preston No. 2 Fraction, Skylark camp, Alex. Miller.

Nugget, Cranberry creek, E. Collier.

Black Bell, Cranberry creek, J. P. Anderson.

25—Trust, Summit camp, T. H. Corkill.

Imperial, Perkins camp, E. L. Steves

Independence, Smith's camp, M. Miller.

27—Horseshoe Fraction, Smith's camp, D. Buchanan.

29—Calmar, Providence camp, Chas. E. Johnson.

Ontario, Greenwood camp, M. McDonnell.

30—Galena, Deadwood camp, T. M. Graves.

Dixie, Providence camp, D. A. McDonald.

Imperial, Providence camp, Antoine Portman.

Nellie and C B G, Deadwood camp, Clem Gamsby.

CERTIFICATES OF WORK.

May 2—Alexandria, J. H. McDonald.

Mavis and Nightingale, two years, E. T. Wickwire.

Gold Bug, E. Rorke.

Windsor Fraction, and Crystal Butte, E. Collier.

4—Galena and Broadwater, two years, C. M. Ball.

Iron Horse, Comstock, Yellow Rose, two years, and Comstock No. 2, J. A Tuzo.

Mountain Bell and Mount Pleasant Fraction. Thos Curry.

6—Wellington, two years, J. T. Henderson.

Triumverate Fraction, J. S. Birnie.

Old Dublin, two years, Putnam, and Eureka, Jno Matthews.

8—Little Home Fraction, J. J. McDonnell.

Alexandria, D. J. McDougall.

Jem, Fred Mosher.

11—Ruby, Ed. Pape.

12—Bounty Fraction, R. Donagin.

St. Claire, F. Harris.

Springdale, E. T. Wickwire.

13—Open Door Fraction, H. Morgan.

E P. U Fraction, W. T. Hunter.

15—Blue Bucket and Horseshoe, H. Huff et al.

Hill Fraction, M. A. Holbrook.

Rayanook Fraction, Dave Good.

16—Buildmore, Fritz Haussner.

Butterfly, A. C. Dale.

Bounce, Monte Cristo and L Fraction, R. O'Hara.

Hardscrabble, N. W. Smith et al.

Rob Roy, Alice M, Hard Times and Tunnel Fraction, V. & B. C. D. & M. Co.

Caledonia, Dan Paterson.

19—Sylvester R Fraction, A. Sercu.

Badger, two years, Ben Perkins.

20—North Star, Steve McNeill.

Salamonica Fraction, two years, Dr. Oppenheimer et al.

Bell Flower, S. Bennerman.

22—Perseverence, F. Bagshaw.

23—Granite, P. Goodreau.

New Denver, P. Goodreau.

Albion, Ed James.

Morning Fraction, Geo. M. Bennett.

25—Monte Carlo, Dellmar, Eugene, and No 3, No 5 and No 7—2 years, J A Chenier

26—Columbus, Jas Cunningham.

Mable Fraction, J Mulligan

27—Springtide, two years, E T Wickwire

Caber Fraction, Gray Eagle and No 3, D Buchanan

29—Consolation and Orphan Boy, E O Lewis

Blue Jay and California, M H Kane

Emma, Clem Gamsby

30—Woodstock, A Sercu

Collingwood, C H Fair

Standard 2 Fraction, W H Rambo

31—Kay and Queen, Bailey & Murray

Keno, F M Kerby.

Beaver, Ed Maloney.

CERTIFICATE OF IMPROVEMENTS.

3—Harland Fraction, Tuzo and Cookston

Barnato and B Fraction, Larson & Swanson

31—Gold Standard, Law, Piper and Mathison.

TRANSFERS.

5—Broadwater, N Morrison to C M Boyle

12—Lakeview, ½ interest, E Tebo to J H Graham

Sunnyside, ¼ interest, E James to E Williams.

E H Fraction (conditional) Jas H McDonald to T Hemmerle.

26—Preston Fraction, ½ interest, J. Mutzenberg to Alex Miller

Preston Fraction, ½ interest, G H Thompson to Alex Miller

Preston Fraction, all interest, Alex Miller to L T Dickason

29—Vernon, all interest, Thos Kane to M H Kane

30—Happy Hoolihan and Independence, M Miller to Thos Wake

31—Red Bell and Star, ½ interest, Jno McArthur to F C Woods

Ottawa Fraction, ⅓ interest, F C Woods to Thos Hemmerlee

Sprained Ankle, Stiff Neck, Lame Shoulder,

These are three common ailments for which Chamberlain's Pain Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any one of these ailments. For sale by all druggists.

"The Hottest Coon in Dixie."

What Frank Daniels and Francis Wilson are to recognized comic opera so is Arnold & Blondy to the rag-time revelation, "The Hottest Coon in Dixie." These colored comedians are uniquely original in method, possessing the instinc tive spirit of fun, and and their every move and saying is provocative of unrestrained merriment. The prima donna of the organization, Miss Mamie Blanton, has been truly termed the Lillian Russell of the colored stage, the possessor of a voice whose every note is linked sweetness. The other members of the cast are exceptionally talented, while the chorus rejoices in a rich dusky beauty of its own. "The Hottest Coon in Dixie" plays here Thursday, June 15, in the Auditorium.

EXCURSION RATES.

The Canadian Pacific railway announce low return rates to eastern points to following canventions: Imperial Council Mystic Shrine, Niagara Falls, N. Y., $76.25; International Sunday School Convention, Toronto, $76.65; International Turnerfest, Indianapolis, Ind., $67.65; National Educational association, Ashbury Park, N. J., $85.35; Christian Endeavor convention, Baltimore, Md., $81.25; American Institute of instruction, Portland, Me., $92.70 annual meeting, B P O E, Buffalo, N Y., $76.25. All tickets good for 60 days. For dates of sale, particulars of routes, and berth reservations, apply to local agents, or write J. S. Carter, D P A, Nelson, B. C.

LICENCE TO AN EXTRA-PROVINCIAL COMPANY.

"COMPANIES' ACT, 1897."

CANADA:
PROVINCE OF BRITISH COLUMBIA
No. 259.

THIS IS TO CERTIFY that "The Montreal and Boston Consolidated Mining and Smelting Company, Limited," is authorized and licensed to carry on business within the Province of British Columbia, and to carry out or effect all or any of the objects of the company, to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situate at Toronto, in the Province of Ontario.

The amount of the capital of the company is seven million five hundred thousand dollars, divided into one million five hundred thousand shares of five dollars each.

The head office of the company in this Province is situate at Greenwood, and Arthur Murdoch Whiteside, Barrister-at-law, whose address is Greenwood, is the attorney for the company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 2nd day of May, one thousand nine hundred and five.

[L. S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

The following are the objects for which the company has been established:—

To carry on the business of mining and smelting, and also to manufacture and deal in iron, stone, manganese, coal, coke, copper, oil and other minerals, timber and lumber, and to manufacture and deal in the products thereof and the manufactured articles in which such products are utilized, and also to construct, maintain and operate buildings, machinery, engines, cars, docks, bridges, elevators, canals and other waterways and other works; to apply for, purchase, lease or otherwise acquire patents and patent rights, trade marks, improvements, inventions and processes, and to exercise, develop and grant licenses with respect thereto; and (b) for the said purposes:

1. To acquire by purchase, lease or otherwise, and upon such terms and conditions as may be agreed upon, real and personal property and estates, and interests therein, including quarries, mines, wells, water powers, lakes, ponds, streams and watercourses:

2. To acquire by lease, purchase or otherwise, and upon such terms and conditions as may be agreed on, rights, powers, concessions, privileges and franchises, to enable the company properly to exercise and carry on all or any of the rights, powers, concessions, privileges, franchises and objects of the company:

3. To acquire by purchase, subscription or otherwise, and to hold and dispose of stocks, bonds or any other obligations of any corporation formed for, or then or theretofore engaged in or pursuing any one or more of the kinds of business purposes, objects or operations above mentioned, or owning or holding any property of any kind hereinbefore described, or of any corporation owning or holding the stocks or obligations of any such corporation:

4. To enter into any arrangement for sharing profits, union of interests or co-partnership with any person or company carrying on, or about to carry on, any business or transaction which may be of benefit to the company hereby incorporated:

5. To hold for investment or otherwise to use, sell or dispose of, and to guarantee any stock bonds or other obligations of any other corporation:

6. To aid in any manner any corporation whose stocks, bonds or other obligations are held or are in any way guaranteed by the company, and while owner of any such stocks, bonds or other obligations to exercise all the rights, powers and privileges of ownership thereof, and to exercise any and all voting power thereon:

7. To acquire and carry on all or any part of the works, property, franchises, and to undertake any liabilities of any person, firm, association or company engaged in or pursuing any one or more of the kinds of business, purposes, objects or operations above indicated, or possessed of property suitable for the business purposes of the company hereby incorporated, and as the consideration for the same to pay cash or to issue any shares, stock, debentures, bonds or obligations of the company hereby incorporated:

8. To sell, assign, transfer and convey to any persons or corporations having power to acquire the same, and on such terms and conditions and for such considerations as may be agreed on all, or from time to time, any of the works undertaking, real and personal properties, rights, powers, concessions, and privileges of the company:

9. To do all acts and exercise all powers, and carry on all business incidental to the due carrying out of the objects for which the company is incorporated and necessary to enable the company to profitably carry on all or any of its undertakings. 36-39.

MINERAL ACT.

Certificate of Improvement.

NOTICE.

"Gold Standard" Mineral Claim, situate in the Greenwood Mining Division of Yale District. Where located: On Cranberry creek.

TAKE NOTICE that I, Albert E. Ashcroft, acting as agent for W. M. Law, Free Miner's Certificate No. B80578, A. L. Piper, Free Miner's Certificate No. B62040, and Robert Mathison, Free Miner's Certificate No. B85660, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant to the above claim.

And further take notice that actions, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 4th day of March, 1905

L1510 ALBERT E. ASHCROFT, P.L.S.

NOTICE.

"La Tour" mineral claim, situate in the Greenwood Mining Division of Yale District. Where located: In Copper Creek camp.

TAKE NOTICE that I, Isaac H. Hallett as agent for Kenneth C. B. Frith, Free Miner's Certificate No. B55359, and Charles Elting Merritt, Free Miner's Certificate No. B80141, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 18th day of April, A. D. 1904.

L15 10 I. H. HALLETT.

Dissolution of Partnership.

Notice is hereby given that the partnership heretofore subsisting between Bruce Craddock and R. A. Nicholson, as hotel keepers at Greenwood, B. C., is dissolved by mutual consent.

All debts due the said firm are payable to R. A. Nicholson, who assumes all liabilities against the firm.

Greenwood, B C., May 1st, 1905.

BRUCE CRADDOCK.
R. A. NICHOLSON.

You will save money by buying you furniture and stoves from H. J. Clint, Copper street.

THIS AND THAT.

A splendid way to build up your town is to send out for your supplies. Some of the "booze foundaries" in Greenwood, send to other towns for their stationery.

The board of license commissioners for the city meets on the 14th inst. As none of the hotelkeepers have complied with the act, this is likely to be a prohibition city for thirty days.

Nothing has yet been done towards celebrating Dominion Day in Greenwood. How would it be to start now on a celebration for say 1910. There might then be some live hotel men in the city.

There are two kinds of Chinks in the West—one uses chopsticks, the other buys his clothing in the East. They are bitter enemies, although brothers in principle. Is their any difference between the bleached and unbleached variety?

If the boys don't put up better ball than they have been playing the police should stop the Sunday games. The ball being played is a greater crime in the eyes of baseball enthusiasts than Sunday playing can possibly be to the Sabbath observance people.

The interest taken in municipal affairs by ratepayers was shown Monday, when no nominations were offered to fill the vacancy at the council board. The majority of ratepayers consider they have done their whole duty when they walk once a year to the polling booth and vote straight party or plump for a personal friend. Others do nothing but criticize. The ratepayers have left the appointment of an alderman to the council—perhaps as satisfactory a method of filling the vacancy as any.

To show the necessity for a railway run on business lines and paying dividends on its merits, and not as a ward of the nation, a consignment of paper for this office was shipped over the C. P. R. from Montreal on the 9th May. It is still in the care of the American-managed Canadian nursling. It is likely to be with them for months to come. The American managers of the Canadian Pacific have to devote so much time to the enactments of parliamen that the business of the system is neglected. Western freight from the East appears to go on the catch-as-catch-can principle. It may get here in a month or a year, it is all the same to our parliamentary advisers.

The railway situation at Ottawa remains unchanged, but the C. P. R. appears to be gaining ground. In British Columbia there must be very potent influences at work, when the editor of the Nelson Tribune—the self-appointed and continuously heralded champion of the people as against monopoly—opposes railway competition for the Similkameen. There must be very potent influences at work in Ottawa, when members of the house of commons will hesitate for a moment to grant privileges te the people of the Similkameen already possessed by every other portion of the Dominion. There can be no reasonable argument used in opposition to the V., V. & E. legislation now before the house. We know the influences that are at work in B. C. with the object of creating a sentiment against an American road, still there is only one question that should be considered, and that is: Is the development of the Similkameen to be retarded simply to make a preserve for the Canadian Pacific Railway company? The Canadian sentiment is all rot. We doubt if there is a single Canadian, not in the pay of the C. P. R., in the district affected who is opposed to the Great Northern extension. Most of the persons shouting "Canada for the Canadians" are those who have changed their allegiance every time they have crossed or recrossed the 49th parallel. If, after receiving hundreds of millions of dollars in cash and land subsidies from the Canadian people, the Canadian Pacific Railway Co. cannot compete in an open field with a man who, a few years ago was running a dog train out of St. Paul, it is time call a halt on sentiment. If the Canadian road, managed by Americans, can not or will not give the people the service necessary to develop the resources of the coun-country, there is no reason why an American road, managed by a Canadian, should not be allowed to relieve us from the extortionate charges of the American managed Canadian concern.

Whooping Cough in Jamaica.

Mr. J. Riley Bennett, a chemist of Brown's Town, Jamaica, West India Islands, writes: "I cannot speak too highly of Chamberlain's Cough Remedy. It has proved itself to be the best remedy for whooping cough, which is prevalent on this end of the globe. It has never failed to relieve in any case where I have recommended it, and grateful mothers, after using it, are daily thanking me for advising them." This remedy is for sale by al druggists.

A Snap.

A five-roomed house and furniture for sale at less than half its cost. Good well on property. Inquire at this office

H.B.K. BRAND

BIG SHIRT

Made big enough for a big man to work in with comfort. Has more material in it than any other brand of shirt in Canada. Made on the H.B.K. scale it requires 39½ to 42 yards per dozen, whereas common shirts have only 32 to 33 yards.

That's the reason why the H.B.K. "Big" Shirt never chafes the armpits, is never tight at the neck or wristbands, is always loose, full and comfortable and wears well.

Each shirt bears a tiny book that tells the whole history of the "Big" Shirt, and also contains a notarial declaration that the H.B.K. "Big" Shirt contains 39½ to 42 yards of material per dozen.

Sold at all dealers but only with this brand:—

H.B.K. BRAND

HUDSON BAY KNITTING CO.

Montreal Winnipeg Dawson

Just What Everyone Should Do.

Mr. J. T. Barber of Irwinville, Ga., always keeps a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy at hand ready for instant use. Attacks of cholic, cholera morbus and diarrhœa come on so suddenly that there is no time to hunt a doctor or go to to the store for medicine. Mr. Barber says: "I have tried Chamberlain's Colic, Cholera and Diarrhœa Remedy which is one of the best medicines I ever saw. I keep a bottle of it in my room as I have had several attacks of colic and it has proved to be the best medicine I ever used." Sold by al druggists.

"THE LECKIE BOOT"

FOR BOYS

is a great Boot for that "harum-scarum" son of yours.

It is made of all leather and the best of findings, to stand hard knocks.

Yet it is a graceful Boot, too, as Boys' Boots go.

Just as well made and of as honest leather as our Men's Boots.

Tell your shoe dealer that you want "THE LECKIE BOOT" and look for the trade mark on the sole,

Manufactured by

J. LECKIE & CO. LTD.

VANCOUVER, B. C.

MATTINGS

are now in order and we have a full line of both Japanese and Chinese—they make a useful and inexpensive floor covering and the range of Patterns is quite extensive.

—36 INCHES WIDE—

ROBERT WOOD.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered coal in place, may locate a claim 1500x1500 feet by marking out the same with two legal posta. bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.00.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When 500 has been expended or paid, th has been expended or paid, the locator may, upon having a survey made, and upon complying with the other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims generally are 100 ft. square; entry fee, $5 renewable yearly. On the North Saskatchewan river claims for either bar or bench the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged beds or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles, within six years from such date Rental $100 per mile for first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being 1,000 to 2,000. All other placer claims shall be 200 feet square.

Claimes are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One additional day allowed for each ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two 1,500 altogether, on the output of which no royalty will be charged. the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one half per cent. on the value of the gold shipped from the Yukon territory to be paid to the Comdtroller.

No free miner shall receive a grant of more than one mining claim on eeperate river, creek or gulch, but thech same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done a claim each year to the value of at least of $200.

A certificate that work has been done must be obtained each year. It not the claim shall be deemed to be abandoned and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640acres Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

FOOLISH DEFENDERS

The C. P. R. as one of the great institutions of Canada is worthy of the admiration, if not of the deepest reverence, of all Canadians. We are not sure that the power it wields in the counsels of the Dominion and of the provinces. is not actually awesome in its effects. Its influence over the railway committee of the house of commons is both mysterious and impressive. The company has also the faculty of inspiring the deepest affection in rather unexpected quarters. It is seldom indeed that newspapers cannot find a speck upon which to found a criticism in the conduct of the affairs of a great corporation. There are journals in British Columbia whose devotion to the C. P. R. is almost canine in its manifestations. If the interests of the country and the interests of the public appear to come in conflict, as they must occasionally, such newspapers as the Vancouver Province can always be depended upon to regard with astonishment any attempt to protect the people from the consequences of the perpetuation of a transportation monopoly. The devotion of our Vancouver contemporary to the cause of its friend the C. P. R. cannot be explained upon any hypothesis other than the hypnotic. The representatives of the province in the Dominion parliament are at the present time fighting against the proposal to perpetuate a monopoly in transportation in Southern British Columbia. The said representatives by their acts, says the Province, have declared themselves traitors to the true interests of the people. The C. P. R. is the friend of the people. The members of parliament are the enemies of the people. How can it be otherwise when tho representatives of the C. P. R. and the representatives of the people are opposed to each other?

It is the easiest matter in the world to demonstrate the soundness of this proposition. The purpose of the Great Northern in asking permission to build a railway that will establish communication through Southern British Columbia and make possible the development of the potential resources of that region is apparent to all who view the matter through the eyes of true patriotism. Mr. Hill is an enthusiastic American. He desired to feed United States citizens with the wealth that should be reserved for the feeding of Canadian cities. Mr. Hill claims differently of course. He says he wants to make money for the shareholders of his line and insists that he cannot do that without creating business that must be beneficial to all who participate in such business. The claim of the railway man seems reasonable. But they are but superficial observers who take such a view as that. If the Great Northern be permitted to have its way it will construct lines from the south to the north, and naturally lines which run from the south to the north must drain all the wealth they encounter from the north to the south. The aim of the C. P. R., if we believe what the Province says, is different. It is true the C. P. R. has carried its lines across the border in Eastern and Central and Western Canada. But at all these places the road was built from the north to the south. Under the circumstances as created by the patriotic C. P. R. the tendency of the wealth is to flow northward and to enrich the people of canada. We admit that the natural tendency as explained by the Province and all the friends of the C. P. R. is difficult to explain. It is what may be termed "unnatural phenomena." It cannot be understood unless we bring into play the most childlike faith. That we are all expected to do when the special pleader of the C. P. R. has the floor, as he has at Ottawa and in British Columbia at the present time.

Lest the value to the province of the C. P. R. may not be properly appresiated it may be necessary to point out that at the last session of the legislature it is said to have asked a bonus in excess of a million and a half dollars as an inducement to construct less than fifty miles of railway from Spence's Bridge to Nicola. It is surmised that if the V., V. & E. line were built the C. P. R. would proceed with the construction of that short line with all celerity and without reference to any bonus. It would do this because such a branch would be necessary to enable the company to compete with the Hill road. This seems to demonstrate the value of the V. V. & E. in embryo to British Columbia. Perhaps it accounts for the frenzied and rather spiteful opposition of the Vancouver Province to the extension of the charter of the V. V. and E. road.

The C. P. R. is a great corporation. The extent of its power we are gaining some conception of by the trend of events at Ottawa. But a million and a half of dollars is a good deal of money and worthy of a strenuous fight, apart altogether from the value of the preserve that is at stake. The Province fought valiantly and courageously, although as usual illogically and unreasonably, against the Grand Trunk Pacific scheme. But in that case the will of the people and the cause of justice eventually prevailed. So it will in the case of the V., V. & E. The defenders of monopoly may be able to shield themselves for a time behind the absurd plea that a railway from one side of the border drains wealth one way and that a railway from the other side drains it the other way. But presently the people will make the fact clear that they cannot be deceived by such fool tales.—Victoria Times.

One of the most common and important uses of limestone is as a flux in the smelting of iron, lead and other metals. The action of the lime reduces the metals, and the impurities in the ores, such as silica, are carried off in the slag.

Native sulphur is sometimes found in metalliferous veins. It does not occur as often as we would suppose, considering that with depth sulphide ores are the rule, and from the fact in iron pyrites one atom of sulphur is loosely held. Rarely does native sulphur contain gold, but cases have been noted in some Mexican mines.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhœa is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon, as will be seen from the following certificate from Mrs. Minnie Jacobs of Houstan, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhœa remedy cured my husband of a severe attack of Cuban diarrhœa, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by all druggists.

Continued from Page 1.

500 feet of work—shaft tunnel and drift—have been done on the property in the last two years, and ore to the value of $75,000 has been taken therefrom. The principal development is a 142-foot incline shaft, following the vein. It is said that the richest silver ore ever discovered in British Columbia came from this mine. The ore consists of massive native silver, ruby silver, galena, gray copper, and iron and copper pyrites in a quartz gangue.

Returns from shipments gave $102.58, $116.62 and $123.48 per ton. The vein is from 6 to 12 inches in width.

The Providence is owned by a company composed of Chicago and local people. A week ago 35 men were put to work drifting north and south on the lead at the 400-foot level and drifting and stoping in the south tunnel on the 300-foot level. The mine is well developed and has at different periods returned handsome dividends to the shareholders. It is intended by the management to install an air compressor of 7 to 10 drills immediately. The shaft is to be continued to the 500-foot level. Shipments, too, will shortly be resumed.

Swinging eastward, adjoining the Providence, is the Fremont, owned by the Greenwood-Fremont Mines, Ltd., and financed by Grand Forks, Eholt and local people. There are three veins opened, carrying galena, and assaying $78 in gold and silver.

Two prospect shafts are down 60 and 40 feet respectively, and a crosscut tunnel is being driven to strike the ore at depth. Further prospecting at the lower end of the claim, it is hoped, will disclose the continuation of the Providence ledge.

Adjoining the Fremont is the Strathmore, owned by the Greenwood-Strathmore Mines, Limited. A crosscut tunnel now in over 340 feet is being driven to tap the vein at a depth of 500 feet. Previous work consists of a 60-foot shaft, surface trenching, crosscuts and drifts of 200 feet. Sample shipments of the ore averaged $100 per ton in gold and silver, from a vein 6 to 9 inches in width. A carload of sacked ore is now ready to go to the smelter. Some phenomenally rich samples yielded $288 in gold and silver.

At the Prince Henry, which is under bond, a 100-foot shaft is being sunk.

Further east and higher up on the hill is the Lake group of 177 acres, owned by the Chicago, B. C. Mining comwany. Work at present is being confined to the Don Pedro. Harry Shallenberger is in charge. The shaft is being continued down from a depth of 73 to 150 feet. The vein averages 12 inches. In following down the vein to the 73-foot over a carload of ore was extracted, more than sufficient to pay for development. A horse whim has been installed.

The Crescent, also under the managemnt of Mr, Shallenberger, is again working and the crew is being added to daily. A half interest in the mine was sold last week to Colonel L. T. Dickason and associates of Chicago. Ample capital is now forthcoming to place the property in a position for continuous development, and machinery is is to be installed.

The Preston, adjoining the Crescent, recently changed hands, and is now controlled by a Chicago syndicate, under the local management of William Baillie. Associated in the company to be formed are Colenel L. T. Dickason, a millionaire owner of coal and stone quarries in Indiana and Illinois; Ferdinand W. Peck, formerly director-general of the American exhibit at the Paris exposstion; Samuel K. Morton, Jr., vice-president of the Manufacturers' Bank of Chicago; Edward Ford Johnson, insurance broker, and Dick Armstrong, formerly of Grand Forks and now residing in the Windy City. The new owners have a crew of 14 men developing three veins. The general average value of the ore is $126, though samples from the No. 1 vein assayed $678 per ton. Small shipments of selected ore gave values of $200. Ore from all the veins is of a shipping character. The company will later on install a compressor plant and develop the mine on a large scale.

The Skylark is an instance of what can be accomplished with a little capital and intelligent effort. For years it was the banner claim of the camp. It was located July, 1893, and bonded to the Spokane and Great Northern company, which went to work shortly afterwards and during the winter of 1893-4 shipped about 100 tons to the smelters across the line. The returns gave 150 to 300 ounces in silver and $15 to $20 in gold. For a time the mine was idle. Again in 1897 another shipment was sent to a Montana smelter. Then development was suspended. Last fall a syndicate of Phoenix people secured a bond for $30,000. The owners would probably have accepted far less on a cash basis, and perhaps at the time, firmly believing that the mine was gutted of its rich ore, softly laughed up their sleeves. Work commenced October last. The owners subscribed less than $2,000 for a starter. In one month alone over $7,000 was received for ore shipped to the smelter. The terms of the bond $1,000 a month, have been carried out, and the mine has already more than paid for itself and the cost of development. First-class ore averages $140 and the second-class $40 per ton in gold and silver.

At the Last Chance, under charge of Superintendent McVicar, a considerable amount of development has been done. The ore is similar to the Skylark. Work is also being prosecuted on the Hope No. 2 and Meadow Lark.

Local and North Dakota capital is interested in the bond on the E P U, under the management of Duncan McIntosh. Quite a force is at present employed. A shaft is down over 150 feet and nearly 1,000 feet of drifting has been done on the lead which aver- a good eight inches.

Adjoining the E P U on the east is the Bay, owned by Fuller and Hall. Eight men are at work sinking a 100-foot shaft and drifting on the vein. It is said of this property that it has the reputation of shipping the best average grade two cars of ore, taken from wall to wall $119.55 per ton. The vein measures from 8 to 32 inches of quartz. The ore house is now full.

Phoenix people have a bond on the Mavis, owned by E. T. Wickwire. Sinking and drifting is in progress and from seven to ten tons of ore is ready for shipment. The Tip Top is under bond to the Skylark Development Co. The Twin, Trilby and Gold Finch, under bond locally, have small crews.

Six men are developing the Barbara, adjoining the Gold Finch. A Chicago syndicate, represented by Alex. Miller, owns the claim. A shaft is down on the vein 190 feet, with nearly 200 feet of crosscuts and drifts. Open cuts and trenching prove the continuity of the vein for several hundred feet, with values from $50 to $60, though occasional bunches of ore are met carrying the values up to $150 per ton, chiefly gold. There are ten to fifteen tons of ore on the dump and shipments will be made this month.

The Silver Cloud, owned by L. A. Smith, Charles Johnson and J. McCreath, is developed to the depth of 100 feet, with drifts at the 30 and 100-foot levels. The property has shipped 26 tons, the first-class ore averaging $113 and the second $28 per ton. Active development is being prosecuted.

The Helen is owned by Chicago and local men, represented by Alex. Miller. The vein has an average width of 12 inches and is very massive and heavy. The shaft is down 100 feet and there is over 200 feet of drifting and crosscuts at various levels. Three leads exist which have been opened by cuts on the surface. In the early history of the mine some exceptionally high values were obtained from ore shipments. Recent small tests gave returns of $98 per ton. Nine men are employed.

The Capital Prize, also south of the town, is owned by Sydney M. Johnson.

West of the city are the Bonnie Bell, Highland Queen and Mountain Queen and Mountain View. The Highland Queen is under bond to the Foulds brothers and Mr. Penny, who are driving a prospect tunnel to tap the vein at a depth of 75 feet. The vein was struck early this week. Julius Ehrlich, W. T. Smith and J. C. Haas have just bonded the Mountain Queen.

Two and a half miles south of the city is Smith's camp.—The Greenwood-Republic Gold Mines, Ltd., own the Republic, Last Chance, Nonsuch and and Hidden Treasure on which extensive work has been carried on for the past several years. The Nonsuch was the first quartz location in this section of the Boundry and was located by W. T. Smith in 1886. Mr. Smith is the manager of the company. The ore here is a sulphide carrying values in gold, copper and silver, and running from $11 to $21 in carload shipments. The principal work is being prosecuted on the Nonsuch, where the tunnel is in over 400 feet on the vein. The tunnel is to be continued until the Last Chance shaft—now down 100 feet—is reached, about 1,000 feet in all. At the point of connection, where an upraise will be made to meet the shaft, it is figured that 400 feet of stoping ground will be had. The completion of the long tunnel and connection will allow of much cheaper means of mining than at present. E. J. Roberts and E. L. Tate of Spokane and W. T. Smith are the principal shareholders.

A short distance from the Republic group is the Golconda group, owned by Eastern Townships people, headed by Hon. Geo. E. Foster and Rufus Pope. The ore is an arsenical iron carrying principally gold values, from $14 to $43 a ton. A 600-foot tunnel is being driven to strike the vein at a depth of 375 feet, and three feet per day is being made. Mr. Haas, the manager, is confident that the ore will be reached before the end of the present month. The tunnel is in over 500 feet.

It is cheaper in the long run to get your printing done at home.

THE WASTE DUMP.

In this country rolls are almost exclusively used in crushing ores dry for the cyanide process.

The strength of a wire rope may be taken as 66 per cent. of the combined strengths of its component wires.

Brass was used for hundreds of years before zinc was discovered. Brass was first made by smelting mixtures of zinc and copper ores, and by treating molten copper with oxydized zinc ores.

The manufacture of artificial diamonds is a most dangerous and costly experiment. Artificial diamonds have been produced, but they were so small that it would take over a thousand to weigh a carat.

Marbles are variously colored. Some of the most highly prized are mottled. Marbles which contain intermixed serpentine, such, for example, as that found near Charleston lake in Leeds county, Ontario, have a handsome appearance when polished.

Artificial rubies are made by raising carefully to red heat a mixture of alumnia, barium fluoride and a small quantity of bicromate of potash. In the resulting matrix is found the rubies. These manufactured rubies are most excellent imitations of the real stone, being like the real in both composition and shape.

The base of most artificial gem stones is a peculiar kind of glass called paste. It differs from ordinary glass in its having 50 per cent. of oxide of lead as a constituent, this addition imparting to past a brilliancy and refractive power not possessed by ordinary glass.

All oxides which had hitherto been regarded as irreducible have been reduced through the use of the electric furnace. Upon experiments which he has made, Borchers bases the claim that carbon is capable of taking the oxygen from any known compound at temperatures within within the range of the electric furnace. Similarly, other reducing agents may be made effective, and the decomposition can be produced without any reducing agent whatever by utilizing the electrolytic action of the current. This has resulted in unlocking various of nature's stores, making available for man's use such materials as aluminum, magnesium, calcium, sodium, potassium, chromium, silicon, and many others which previously could be obtained only with great difficulty.

Fire setting, as practised by ancient miners, was not only an expensive and slow, but a very dangerous method of mining. A pile of wood against the face to be worked was ignited after the miners had left for the surface. The heat disintegrated the rock, which was later removed with bars and gads. Fumes from the operation so frequently penetrated to neighboring mines and killed workmen there, that in many cases fire-setting was prohibited by law.

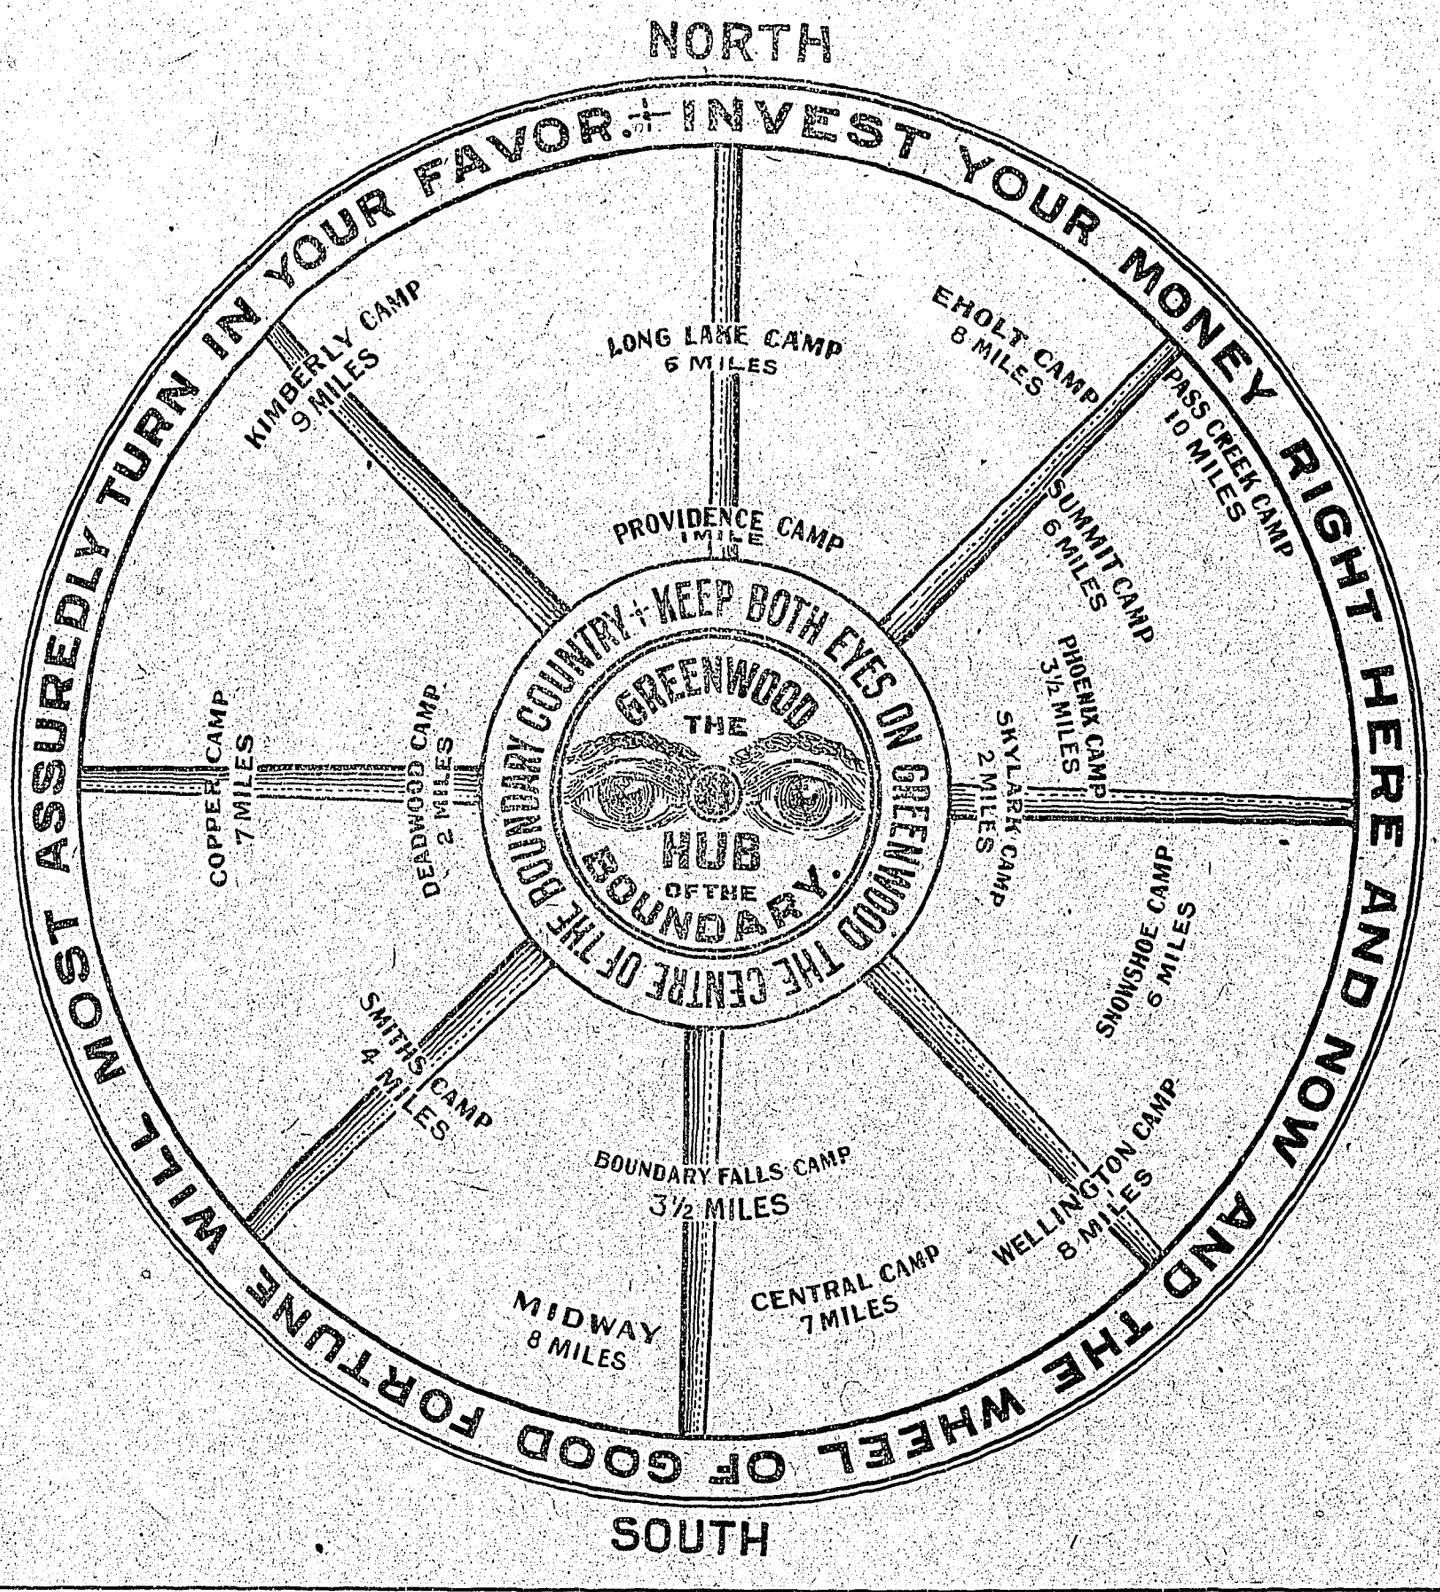
The cyanide assay of lead ores is a very convenient one and usually gives very clean buttons. It is not used, however, on account of the expense. It will give a higher result than the black flux assay, but of course, unless the button is very impure, a lower result than the ordinary wet analysis.

The choice of the detonating cap for exploding dynamite should be given more consideration than is commonly paid to it. The mere fact that the cap sets off the explosive is not a real measure of its value. A good, strong cap will completely detonate dynamite but a weak cap, while setting off the dynamite, will not get out the full amount of work it is capable of doing. The use of weak caps will also give an undue amount of what the miner calls "stinkers."

Carbon dioxide, commonly called carbonic acid gas, has several uses in the arts. It is most commonly obtained from the limestones for commercial purposes by heating them to such a temperature that decomposition results, quicklime and carbon dioxide being formed. The gas may also be extracted from the rocks by treating them with acids, when effervescence takes place and the gas is liberated. At several places carbon dioxide issues from the crust of the earth, and at one place in New York state the gas originating in this way is collected and used.

The full reports of the farewell speech of Joseph Choate, the retiring American minister in London, show it to have been a very fine address. Among the impressions he would carry away with him he mentioned the characteristics most creditable to the people of Great Britain—the reign of law, the perfection of individual liberty, self-sacrificing patriotism, the instinct for public life, and the purity of public service.—Toronto Globe.

No Time Equal to the Present



Never in the history of the Boundary has the district had a brighter outlook than today. With the successful development of the immense large bodies of low grade ore and the enlarged and much improved facilities for treating at a very small cost, the continued opening up of new high grade properties and their successful and profitabl operation has made the Boundary famous as a mining centre, and every day adds more to the list of new finds and bigger values. It is readily admitted that Greenwood is the Eldorado of the Boundary with all roads leading thereto, and surrounded as it is, with such magnificent resources is destined in a few years to be a second Butte. If you therefore want to participate in its future prosperity, now is the time to invest both in mines and real estate. For NINETY DAYS we intend giving you a chance to make a safe and profitable investment. Every lot we own will be put on sale at rock bottom prices during the above period. Prices ranging from $50.00 up, at terms to suit the purchaser. Make your selection and make it early.

RALPH SMAILES,

AGENT FOR THE GREENWOOD TOWNSITE COMPANY.

No admission will be charged, but a collection will be taken up to pay for bats and balls.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged :—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent on sales.

A license is issued so soon as a berth is granted but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $1.50 per thousand feet B. M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents per acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the District, within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of attle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If the father (or mother, if the father is deceased) of any person who is eligable to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

Ottawa, February 4th, 1905.

A Safe Cough Remedy for Children.

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by all druggists.

NOTICE

PUBLIC NOTICE is hereby given to the electors of the municipality of the City of Greenwood, that I require the presence of the said electors at the City Hall on the 5th day of June, 1905, at 12 o'clock noon, for the purpose of electing a person to represent them in the Municipal Council as Alderman for the South Ward in the place of James H. McNeil resigned.

The mode of nomination of candidates shall be as follows:

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the municipality as proposer and seconder, and shall be delivered to the Returning officer at any time between the date of this Notice and 2 p. m. of the day of the nomination, and in the event of a poll being necessary, such poll will be opened on the 8th day of June, 1905, between the hours of 9 a. m. and 7 p. m. at the City Hall, of which every person is hereby required to take notice and govern himself accordingly.

The following are qualified for the office of Alderman: Any male British subject of the full age of twenty-one years, not disqualified under any law, and being for the six months next preceding the day of nomination, the registered owner, in the Land Registry Office, of land or real property in the city of the assessed value, on the last municipal assessment roll, of five hundred dollars or more.

Given under my hand at Greenwood, B. C., this 1st day of June, 1905.

G. B. TAYLOR,
Returning Officer.

NOTICE OF FORFEITURE.

To F. F. Ketchum or to any person or persons to whom he may have transfered his interest in the London mineral claim situate on Deadwood camp, in the Greenwood Mining Division of Yale District.

You are hereby notified that I have expended the sum of $100 for work on the above mentioned claims and $2.50 for recording the same for assessment work for one year, such being required and necessary to hold said claims for the year ending the 8th March, 1904 and 1905, under the provisions of the Mineral Act and Amending Acts and if at the expiration of ninety days from the date of first publication of this notice in the Boundary Creek Times, you fail or refuse to contribute your portion of such expenditure together with all costs of advertising, your interest in said mineral claim shall become invested in me, your co-owner, upon filing in the proper office in that behalf the affidavit required by section 4 of the "Mineral Act Amending Act, 1900."

Dated 1st June, 1905.

GEO. ANDREWS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Post Office at Vancouver, B.C.," will be received at this office until Friday, June 23, 1905, inclusively, for the erection of a Post Office building at Vancouver, B. C., according to plans and specification to be seen at the Department of Public Works, Ottawa, Ont., and at the Vancouver Armoury, Vancouver, B. C.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of the tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p. c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract, or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED GELINAS,
Secretary.

Department of Public Works,
Ottawa, May 16, 1905.

"Pinto" Shell Cordovan

Used in H.B.K. Mitts, Gloves and Moccasins—tough as whalebone, flexible, soft, pliable, scorch-proof, wind-proof, boil-proof, crack-proof, tear-proof, rip-proof, cold-proof, almost wear-proof—certainly the greatest leather ever used in mitts and gloves.

Like buckskin it is tanned without oil, unlike buckskin it is not porous, it is wind-proof—will outwear three buckskins.

"Pinto" Mitts and Gloves never crack or harden, never get sodden, are always warm, pliable, soft and comfortable.

Sold at all dealers but never without this brand:—

Do you want to add $320 to your income?

It will only require a few minutes of your time every day to earn $320 a year. You can earn it with a Chatham Incubator. A No. 2 Chatham Incubator will hold from 100 to 120 eggs—according to size of eggs. Eighty chickens is a low average hatch—users of Chatham Incubators will tell you so. Chickens are always in demand and the supply is always short, so fifty cents is the average price secured. If you only take off eight hatches in a year, that gives you an income of $320.00. Wouldn't that extra amount be useful to you? ¶ Best of all, you can buy a

Chatham Incubator without one cent of cash until October, 1905

The machine pays for itself many times over before that time. There couldn't be a fairer offer than this. We ship a Chatham Incubator to you at once, freight prepaid by us, and your first payment is not due until October, 1905. Write us to-day for full particulars. The Chatham Incubators and Brooders have every new improvement worth while in an incubator or brooder. The incubators are made with two walls, case within case, of dry material that has been seasoned in our lumber yards. They are built solid as a rock and will stand any amount of usage for years. The sooner you accept our offer the sooner will the Chatham Incubator be earning profits for you.

TOWN TOPICS

D. C. McRae was in Nelson this week on business.

Mrs. D. A. Bannerman left this week on a visit to friends at the coast.

Fred Starkey, commission merchant of Nelson, was in the city Tuesday.

Born—In Spokane, on the 1st inst., to Mr. and Mrs. Jake Saunders, a son.

Arthur Wheeler, press correspondent, made a flying trip to Nelson this week.

Tomorrow White Bros. will give a box of chocolates free to every fifteenth cash customer.

At the bowling alley this week the beefeaters defeated the hitherto victorious musheaters.

No nominations were made Monday to fill the vacancy caused by the resigeation of Alderman McNeill.

J. A. Tuzo was in the city this week. He owns a number of claims near Beaverdell on the West Fork.

Rev. Lawrence Amor and Walter Frith are in Nelson this week attending the synod of the diocese of Kootenay.

For sale or trade for chattels of any kind, lots 20 and 21, block 6 Copper street. What have you? Address A. B. Campbell, Chesaw, Wash.

Mrs. F. H. McKenzie of Regina came in on Sunday's Great Northern train, and will remain here during the illness of her sister, Mrs. B. F. Petch.

A. E. Ashbroft, C. E., has started the survey of the Columbia and Western railway land grant west of here. The land will be surveyed into townships.

Jas. Lynch and Mrs. Lynch of Torodo creek, near Midway, arrived in the city Tuesday. Mrs. Lynch will remain here some time under the doctor's care.

The C. P. R. telegraph advise that on and after July 1st the rate to Japan will be $1.29 per word from all points in British Columbia, or a reduction of 20 cents a word.

Geo. M. Miller came down from the West Fork Wednesday. For the past two months he has been doing assessment work on the Hard Cash group. Mr. Miller is very enthusiastic over showings on Wallace mountain.

"The Land of Heart's Desire," the midsummer special number of the Inland Sentinel, Kamloops, has been received. The number is an excellent one containing about fifty pages of descriptive matter on the Kamloops and Cariboo districts.

Wednesday evening last a farewell dance was given to Dr and Miss Foster, on the eve of their departure. On Thursday morning they left for the East. The doctor expects to be away three months, during which time he will visit China and Japan, and possibly Australia.

The programme is out for the Scotch concert to be given in the Auditorium next Wednesday evening, June 14th. There are sixteen numbers, principally Scotch, and will include a Gaelic solo by Neil Morrison. Rev. J. T. Ferguson of Nelson is down for two numbers. The remaining numbers are by Phoenix and Greenwood vocalists. The concert promises to be an excellent one.

Sunday last the Greenwood baseball nine journeyed to Phoenix and were defeated by a score of 12 to 10. The game was not by any means a harmonious one. One umpire was not sufficient, and a second was put on. The double-barreled umpire did not prove altogether satisfactory, but none of the audience could be induced to render decisions for poor batting, poor fielding, and poor base-running. Sunday next a game will be played here for $50 a side.

The canadian Pacific railway have placed on sale at Nelson, Rossland and all stations on Boundary section, return tickets to Portland at $23.75, good for thirty days, corresponding rates being made from all Kootenay points. Tickets are good via either the Columbia river or Slocan lake routes; also good via Vancouver and the superb new steamship, Princess Victoria, to Seattle. For berth reservations and further particulars, apply to local agents, or write J. S. Carter, D. P. A., Nelson.

A. L. White returned this week from a four mouths' trip through the Western and Southern states, much improved in health. Mr. White left here on the 24th January and spent a short time in Walla Walla and Pendleton, then a week in Denver, his old home, then to Canyon City to visit his mother. He wrestled with the grip at Cotopaxia, was interviewed by the Citizens' Alliance at Cripple Creek, dodged bullets at El Paso, Texas, goo-gooed at Chihuahua, Santa Rosalia and City of Mexico, viewed the scenic beauties around Pamona, the paradise of Southern California, and arived in San on the 17th April, where typhoid fever held him until the 27th May and stopped at Portland on his way home. He has a number of Mexican curios, collected in the land of bull-fights.

A team belonging to a Chink created quite a stir in Chinatown Monday last. There were half a dozen teams standing on the street while their owners were worshipping—some burning incense to their joss, others burning dope; some chopsticking rice, others hitting fan-tan, and yet others squirting slime over the nice tall collars of the city dudes, and all talking at once. A team lately purchased rom a Swede, not being accustomed to Chink customs, Chink noises, or the aromas that arise when Chinks congregate together, started to do things, and in a few minutes the other four or five teams were trying to put the Chinese out of business. The air was filled with vegetables, chopsticks, pieces of wagons, Chinks, high colars, slime, pieces of harness, incense, cuffs, pigtails and language—modern, up-to-date English, with Chinese frills.

RUSSELL-LAW-CAULFIELD COMPANY, LTD.

TWO LEADERS IN SUMMER FOOTWEAR

Slater's Invictus $4.50 TO $7.50
