CARNIVAL NIGHT

Merry Makers Create a Brilliant Scene—The Prize Winners.

The masquerade carnival held Tuesday night in the rink was a brilliant affair. For several hours the ice was moving with many fancy and amusing costumes. The decorations worn by the gay throng exhibited much originality of design and though some appreached the hideous and grotesque, the greater number were artistic and pleasing.

The prize winners were as follows: Best dressed married lady, Mrs. G. R. Yates, Britannia, 2 sacks of flour, donated by the Russell-Law-Caulfield Co.; best dressed single lady, Miss Wood, Frence Belle, manicure set, by A. Logan & Co.; best dressed gentleman, W. R. Medill, Spanish Torreador, silk hat, by Russell-Law-Caulfield Co.; best dressed girl, Miss Alice McMynn, Gipsy Girl, album, by Rendell & Co.; best dressed boy, Robert Keffer, Chinaman, skates, by Hunter-Kendrick Co.; best comic character, Miss Emil Clerf, lady coon, prize by Coles & Frith. The prizes were were all well merited.

SOME OF THE COSTUMES.

There were other highly artistic costumes, among them being Miss Columbia, whose costume matched pleasingly with that of the Indian Rajah, with white turban and uniform. The Spaniard and the Highland Lassie made a pretty couple, while the two lady minstrels with silk hats, long black coats and canes, looked dignified and important. The Plumed Knight, with white breeches sword and sash, looked gay and gallant, while the Tennis Girl looked summery in calico and straw slouch hat. Portia was wise and persuading as befitted her profession, and the Nurse and Horsewoman were practical and plain.

The little Country School Girl was playful and pretty. The Cowboys, Soldier Boys and Clowns all helped to make up an interesting assemblage, and there were many other costumes that lent color and beauty to the scene. A large number of spectators lined the narrow spaces at the entrance and sides and many exclamations of delight were heard.

The judges were Mrs. Parker, Mrs. E. W. Bishop, George Collins and C. Scott Galloway. The Citizens' Band played suitable tunes at regular intervals and the music was much enjoyed by all present.

Jas. C. Dale of Carmi is in the city.

THE FREE LIBRARY

A Movement on Foot to Secure Larger Premises Shortly.

FOR A GYMNASIUM, TOO.

Prominent Citizens Think That Attractive Features Should be Added

The people of Greenwood are all more or less familiar with the extent to which the present Free Library is filling a public need. Since it was opened it has been frequented by numbers of men who have enjoyed the facilities it affords for profitably passing spare hours. Important as has been the good work accomplished in the past, there is however a strong feeling among the most influential men of the city that it is falling far short of its full mission and it has been pointed out that the number of men who habitually frequent the place are decreasing and that its popularity is waning. It has never for a moment been hinted that for this reason the work should be discontinued, but on the other hand it has been advocated that the facilities for entertainment should be extended and its powers of attraction materially strengthened. To accomplish this it has been suggested that new premises be seeured and equipment for a gymnasium be installed. This suggestion has come, not in any way from any organized body, religious or otherwise, but it arises from the interest that numerous business men and their employees are taking in the institution.

WHAT IS PLANNED.

It is generally conceded that the present reading room is too unattractive and largely unsuited to the growing needs of Greenwood. The proposition that is now engaging the attention of prominent parties includes the securing of larger and more comfortable premises; the installation of gymnastic apparatus to be used under the direction of an experienced athlete; the equipment of a well lighted and a well kept reading room, with the daily papers, and a wide range of interesting magazines, as well as providing such innocent games as will interest the men and youth who will find it profitable to enjoy its advantages. It is further proposed that attention be paid to the entertainment of juveniles during the day and evening until the hour of curfew when they would be expected to return to their homes. For the defraying of current expenses, such as may be incurred by rent, light, heat, reading matter and caretaker it is proposed to charge a nominal membership fee, payable monthly or otherwise as may be found best.

It has already been ascertained that another building can be secured and the extended interest that has already been displayed is sufficient to ensure the co-operation of the general public.

PUBLIC SPIRITED.

With this, as with all other kindred movements, those who are to receive most direct benefit will be the hardest to secure assistance from and the unselfish promoters of this movement and their friends are likely to be called upon to bear some sacrifice for the sake of others. When the new institution has been brought into working order and has won the merited patronage and co-operation of all classes it will have become the beginning of an institution without which no city is now considered complete.

The control of such an institution may be vested in the city council, making that body responsible for the expenditure of all money subscribed or the use of all donations of literature, games or other equipment that might be made, or it might be conducted under the supervision of a citizens' committee composed of a president and board of directors. In either case a highly responsible body would be in charge and a safe and intelligent management secured.

The promoters of this movement are deeply interested and they especially desire that men of influence and the heads of families shall lend all the assistance within their power.

A SERIOUS ACCIDENT

Three Men Injured by Premature Explosion in the Quarry.

ARE IN THE HOSPITAL

One Loses His Leg and Others Are Painfully Cut and Bruised.

A serious accident occurred at the Mother Lode about 8 o'clock Wednesday morning, when Matt Russick was dangerously injured and James Engean and James Pascoe were painfully cut and bruised. The accident was caused by a premature explosion of dynamite. It is not positively known what was the actual cause of the explosion. The men were engaged in buldosing rock in the quarry and it is believed that the fuse which had been lighted suddenly came in contact with the bare powder, igniting the charge, which exploded at Russick's foot, shattering his lower leg in a frightful manner. A series of charges had just been prepared and were on the eve of exploding and the injured man, unable to move, would have been blown to pieces had his mates not bravely rescued him from his perilous position. A rope was hastily thrown within his reach and grasping one end he was drawn quickly out of harm's way.

The other two men sustained painful cuts and bruises on the arms and legs, but their injuries are not considered dangerous unless blood poisoning sets in. All three were brought to the Greenwood hospital Wednesday morning, where they are now under the care of Dr. Oppenheimer and Dr. Spankie. Upon examining Russick it was found that amputation was immediately necessary. Dr. Oppenheimer successfully performed the operation Wednesday afternoon, amputating below the knee. The patient is now doing as well as can be expected. The other two will be under medical care for a week or two.

GREENWOOD COUNCIL

The List of Men Who Will Control the City.s Affairs During 1906.

The nominations for the city council and school board on Monday resulted in the following candidates being selected:

Mayor—G. R. Naden, nominated by H. Bunting and J. B. Desrosiers.

Aldermen, North Ward—David Manchester, nominated by Matt Maloney and George Wellwood. Herbert Bunting, nominated by W. L. C. Gordon and A. M. Whiteside. Dr. Mathison, nominated by H. McCutcheon and E. T. Wickwire. Christopher Wood, nominated by H. Bunting and A. M. Whiteside.

South Ward—J. W. Nelson, nominated by Matt Maloney and J. B. Desrosiers. Cyril J. Eales, nominated by Duncan Ross and H. McCutcheon. Duncan C. McRae, nominated by Duncan Ross and Samuel Tees. D. J. Sullivan, nominated by G. R. Naden and Samuel Tees.

School Trustees—C. J. McArthur, nominated by E. T. Wickwire and J. B. Desrosiers. C. J. Eales, nominated by E. T. Wickwire and J. B. Desrosiers.

The fact that the spposition for seats on the council was so slight led the candidates to arrive at a mutual understanding, with the result that C. J. Eales and David Manchester withdrew their candidature and avoided the expense of an election.

NEW COUNCIL.

The members of the new council are: Mayor—G. R. Naden.

Aldermen, South Ward—D. J. Sullivan. D. C. McRae and J. W. Nelson.

North Ward—H. Bunting, R. Mathison and C. Wood.

SCHOOL BOARD.

The members of the 1906 school board are: E. T. Wickwire, C. J. McArthur and C. J. Eales.

A car of Rambler ore was shipped from Midway Wednesday, and two cars are being hauled from the mine.

CABINET CHANGES.

In is understood that after the funeral of the late Hon. Raymond Prefontaine. Sir. Wilfrid Laurier will fill the vacancy in his cabinet. Hon. Senator Templeman, we believe, will secure the position as a tribute to the growing importance of the West and to his personal worth as a wise and loyal colleague. On account of the importance of the work of deepening the St. Lawrence channels Hon. L. P. Brodier will secure the position of marine and fisheries, and Hon. Senator Templeman will temporarily take the department of inland revenue. Next session, however, legislation will be introduced combining the departments of customs and inland revenue and creating a new department of mines, which will relieve the minister of the interior of the geological department and possibly the administration of the Yukon. The new department will then go to Senator Templeman.

It is quite possible that the senator, realizing the responsibility of holding a portfolio to represent the West, will seek election in the City of Victoria as a member of the house of commons. Mr. Riley, the sitting member, taking the senatorship or lieutenant-governorship.

This arrangement will meet with the approval of Western people and will be a full, though somewhat belated fulfilment of the promise to give British Columbia adequate cabinet representation.

PATENT FAKES.

A Mrs. Peck, living at Mount Ayr. Ioway, has brought suit against the Duffy Malt Whiskey people for publishing her portrait in connection with a testimonial for that beverage written by a Chicago woman, Mrs. O. Shuman. The latter, it is said, has made a business of giving medical testimonials, and in this case furnished the photograph of the Iowa woman, which was in her possession. Mrs. Peck is a temperance advocate, and sues because she has been grievously mortified and damaged. This practice of faking testimonials for whiskey advertisements is but an example of how they are obtained for thousands of quack medicines. Some of the most plausible letters and photographs appearing in patent medicine announcements in some of the leading newspapers all over America were invented by some professional ad writer and contain not the smallest particle of truth. The most reputable publications in both Canada and the United States are now using careful discrimination in their selection of patent medicine advertisements. The recent fearless and astonishing revelations of Collier's Weekly have been a warning to both publisher and reader alike. It costs money to keep a paper free from "quack ads" but the Boundary Creek Times as well as others are doing it.

A recent issue of the Vancouver World contains an editorial which tells of the case of an infant child having died from the effects of a dose of a quack nostrum that was administered to cure a common ailment. The stuff was purchased to save a doctor's bill but cost a life instead. A few such cases are heard of but who can tell how many are never told?

THE Ontario government, like the Dominion, is in a prosperous condition. For some years that province has succeeded in showing substantial surpluses and the past year has not failed in that respect. The total revenue for the year was something over $6,000,000. In New Brunswick, on the other hand, there is a deficit. It may be pointed out that the Maritime provinces have no hinterland to exploit, though both New Brunswick and Nova Scotia have large undeveloped resources. It is announced from New Brunswick that the government will introduce a compulsory education act at the approaching session of the legislature. Education is a burning question in Quebec just now. The new premier, Mr. Gouin, is determined that his province will no longer be behind the rest of the Dominion and he has drafted a new education bill which is now under consideration and which promises to be a most important move in the interest of provincial education. As a result of a recount in the constituency of High River, the opposition in the Alberta legislature now has two seats. In our own province, the balance sheet now before the legislature shows an improvement over past years. The government has at its disposal in the Canadian Bank of Commerce a current account of $525,804, while the cash in the treasury is shown as $3,262.88.

THE Canadian Forrestry convention, which held its meeting recently in Ottawa, declared by resolution that the time was ripe for a general forest policy for the Dominion and provincial governments, looking to the greater protection of the present forest areas and the replanting of such tracts of country as are unfit for cultivation. Here is a chance for the B. C. gouernment to get in some good work.

THE Liberal party in Great Britain are winning all along the line. In the city of London they are capturing seats that have been Conservative for a generation or more and throngs of people are parading the streets shouting for Campbell-Bannerman and free trade.

THE Dominion revenue for the past six months was $37,877,167 and the expenditures were $25,747,695, leaving a surplus of over $12,000,000. Looks as if Canada was prosperous.

Gold was first discovered in Siskiyou county, California, in 1851, at Yreka, and the business of placer mining has been carried on uninterruptedly to the present day.

GREENWOOD, B. C., January 6th, 1906.

To the Mayor and Aldermen, City of Greenwood, B. C.

GENTLEMEN: I have examined the books and vouchers of the City for the year 1905, and herewith present duly certified as part of my report, Receipts and Expenditures account for the year 1905, General Revenue account for the year 1905, and Balance Sheet as at December 31st, 1905.

RECEIPTS AND EXPENDITURES ACCOUNT—This shows the actual cash receipts and disbursements of the city for the year and needs no comment.

GENERAL REVENUE ACCOUNT—This shows on the credit side the gross amount of revenue receivable by the City, irrespective of whether it was collected or not, and the debit side is charged with the years expenses including loss on Waterworks, Debenture Interest, Depreciation and the amount which according to the bylaws has to be set aside for the Sinking Fund. There is a deficit on the year's working of $6,582.14 on this account.

WATERWORKS—This department shows a loss for the year of $939.57 against a profit of $2,350.37 for the year 1904, after writing 5 per cent. depreciation off the old plant and crediting hydrant rental in both cases; the cost of relaying the mains on Copper street amounting to $3,244.92 has been written off against this year's operations which account for the difference in the net results.

BALANCE SHEET, SINKING FUND RESERVATION ACCOUNT—This shows on December 31st, the annual payments into the Sinking Fund together with compound interest at 3 per cent. per annum should have amounted to $21,829.15 The Sinking Fund account shows that this has been exceeded by $152.27, but $17,947.00 has been withdrawn from time to time for the redemption of $19,600.00 worth of debentures, which leaves $4,034.42 now on deposit in this fund.

Subject to the above remarks, the Balance Sheet is correct and exhibits the true financial position of the City as shown by the books on December 31st, 1905.

Signed, W. E. HODGES,
Chartered Accountant,
Auditor.

MINING LEASES.

Great interest is now being taken in the Cobalt mining region in Ontario. The Toronto Globe has the following to say on the subject of mining leases:

"A difficult problem has been created by the government's decision to open in the courts the question of the validity of patents and leases issued for mining land in Cobalt district. The claims of prospectors were granted on the making and filing of affidavits as to the discovery of valuable minerals. It is claimed that many of these affidavits were questionable. Last year the government changed the regulations and demanded that the official inspector be satisfied as to the discovery of minerals before a patent or lease would be issued. The object of this was to prevent the wholesale patenting or "blanketing" of mining land by men desirous only of holding for speculation. It is obvious that such blanketing would discourage real prospecting, and might tie up large districts for years, thus preventing development. The policy of requiring the satisfying of officials did not work well in the Yukon, for it was claimed that they used their authority to advance the interests of their friends and further their own ends. This experience made both the prospectors and the general public suspicious, and confidence was further shaken by the covert representations of certain individuals that their influence, if stimulated by a financial consideration, would insure favorable treatment at headquarters. But so far it is the universal verdict that the officials have done their duty fearlessly and honestly. While it is not desirable that powers of such moment be intrusted to any official, every promising means of preventing blanketing will be endorsed by the public.

"The most difficult interest to deal with satisfactorily will be that of the innocent purchaser of fraudulently-obtained patents or leases, whether he purchased directly or through shares in a company. The man who traces a claim back to the grant from the crown and buys is entitled to consideration. The government may have been defrauded, but it was culpable in permitting the fraud. The evil was done in granting the patents and leases, and innocent purchasers have a right to protection. The best way to rectify the error committed in granting claims covering large tracts is to impose regulations requiring either development or abandonment. The man or company unwilling to proceed with actual mining operations is in the position of an obstructive speculator. It is in this regard that real improvement may be effected in the mining laws and regulations.

"The prospector who makes a discovery should have a good chance to secure a reward for his hard work, energy and enterprise. This is necessary as a stimulant for the pioneer. But the alleged prospector who merely acts to secure claims for speculative holding should be crowded out by such regulations as that requiring the actual demonstration of minerals found in place. The purchasers of claims should be prepared to proceed with development work and actual mining operations. They should look for their reward from the output of the mines. The speculative purchaser is only an obstruction, and is entitled to no consideration. Regulations requiring development as a condition of holding, will eliminate the speculator, and will be no hardship to those who purchase with an honest intention to engage in actual mining operations."

Wood's Phosphodine,
The Great English Remedy.
A positive cure for all forms of Sexual Weakness, Mental and Brain Worry, *Emissions, Spermatorrhoea, Impotency*, Effects of Abuse or Excess, all of which lead to Consumption, Infirmity, Insanity and an early grave. Price $1 per pkg., six for $5. One will please, six will cure. Sold by all druggists or mailed in plain package on receipt of price. Write for Pamphlet. The Wood Medicine Co., Windsor, Ontario.

NOTICE.

NOTICE is hereby given that 60 days after date I intend to apply to the Honourable The Chief Commissioner of Lands and Works for permission to purchase 640 acres of land, situated in the Osoyoos Division of Yale District (Similkameen Land Division) British Columbia, described as follows:

Commencing at a post planted at the North-East corner of Lot 3246 in said Division, thence running about 80 chains East, thence 40 chains North, 20 chains East and 40 chains North, thence 80 chains West, to the North-East corner of the land applied for by Wm. G. McMynn, thence Southerly following the boundary of said land applird for by Wm. G. McMynn, to the point of commencement.

Dated 18th December, 1905.

EDWARD B. McMYNN.

RECORD IS GOOD ONE

Pastor of the Presbyterian Church Commends Work of City Council.

BETTER READING ROOM

Plea for More Accommodations for Working Men.

Rev. M. D. McKee of the Presbyterian church preached a civic sermon last Sunday night in which he dealt with some of the local phases of municipal affairs. He set down the principle of the unity between religion and politics as his authority for the preaching of such a sermon and then proceeded to matters in detail.

Individual fitness was the first qualification for membership in the city council. Men of strong characters, lovers of truth and right were required and such he was glad to say, Greenwood possessed. The record of the retiring council was creditable. The members had transacted the city's affairs with prudence and wisdom. Their interest in the needs of the workingmen was commendable and the assistance which had been given to the free reading room had been the means of keeping the place open for the use of the public.

LACK OF COURAGE.

There had, however, been a lack of courage in dealing with known and glaring vices. Laws had been broken and the offenders had gone unpunished. In scathing words he described the gambler as an accursed leach, sucking from working man and business man alike their hard-earned money, leaving them penniless, to the social and business detriment of the city. For the suppression of this and other vices more progressive and strenuous efforts should be taken in the future.

BETTER READING ROOM.

Speaking of the needs of the working men, Mr. McKee said he voiced the sentiments of the majority of the retiring council when he said that there was great need for larger, more comfortable and better furnished reading rooms, where men might go and enjoy their social life and read good literature free from the debasing influences of the barroom and the gambling den. The Miners' union were doing excellent work along these lines and they should be encouraged in every way.

The whole discourse was marked by evidences of clear judgment, careful statements and by a straightforward view of existing conditions.

CROW'S NEST COAL.

British Columbia Fuel Proves the Best for Railroad Purpoes.

A recent test of coal from the mines of the Crow's Nest Pass Coal company, made by the engineers of the Northern Pacific railway, has proven highly satisfactory and has established beyond doubt the excellent qualities of Crow's Nest coal. The trial was made on a run between Livingstone and Billings, Montana, at which R. W. Coulthard, general sales agent of the Coal company, was present. Statements made by Mr. Colthard to the Fernie Free Press are to the effect that former tests had been made of western coals but that this one made of the Crow's Nest Pass coal was much superior to any others, especially in efficiency for steaming purposes.

The following results were obtained from Crow's Nest coal:

Pounds water evaporated per pound coal at feed temperature 33 degrees F., 8.1.

Pounds water evaporated per pound coal from and at 212 F., 9.95.

Pounds coal burned per 1000-ton-mile on up grade of 0.25 per cent for 115 miles, 120.19.

These effieiencies are more than double those obtained from some of the other coals tested and superior to the best of them by a large percentage, and they also show up as well as any coal on the continent

Quite recently the O. R. & N. Co., running out of Spokane, made tests of this coal for their own information, a representative of the Coal company not being present, with results even exceeding the figures above.

This speaks well for the quality of coal produced from the collieries of the Crow's Nest Pass Coal company. Every place Mr. Coulthard visited he found that the coal is giving the highest satisfaction and the maximum of economy to its consumers.

Mr. Colthard found the various agencies he visited in good condition, the agents being highly pleased with the manner in which the coal is being accepted by the customers. Mr. Coulthard reports the sales to be particularly good.

PHOENIX ELECTIONS.

There was an election for aldermen in Phoenix Thursday. The mayor, G. W. Rumberger, and the West ward aldermen, Alex. D. McKenzie, James Marshall and Julius Carson, were elected by acclamation. In the East ward the seat on the council board was contested by Edward Brown, Michael H. Kane, David Oxley and Robert H. Karatofsky. The poll resulted in Brown polling 34 votes, Kane 33, Oxley 25 and Karatofsky 10. The first three are therefore elected to represent the East ward in the council of 1906.

Ore Shipments.

The Granby mines reported on Friday morning that 16,708 tons of ore had been shipped this week. The Providence shipped 40 tons and mined 60 tons. The B. C. Copper Co. treated 3,653 tons.

Granby Dividends.

The Granby Mining Co. dividends were paid on the 15th and amounted to $405,000. This is equal to 3 per cent on the par value of issued shares, amounting to $1,350,000.

The last issue of the British Columbia Gazette contains notice of the following appointments:

Robert Alexander Anderson, of Cranbrook, Esquire, to be a police magistrate for the City of Cranbrook, and to have jurisdiction under the Small Debts Act within the Cranbrook electoral district.

Alfred Seymour Black, of Greenwood, Esquire, solicitor, to be a coroner in and for the Province of British Columbia, in the place of Ceorge M. Foster, of Greenwood, M. D., resigned.

The same issue contains the following notice regarding the Boundary Creek Licence district:

Notice is hereby given that tha Boundary Creek Licence district, as defined in the British Columbia Gazette of the 9th October, 1900, has been disestablished, and that the undermentioned districts havo been established as licence districts in lieu thereof, namely:—

Grand Forks Lidense District—All the territory, not in any municipality, bounded as follows: Commencing at a point in the international boundary line, being the south east corner of the present Greenwood electoral district; thence north, following the easterly boundary of said Greenwood electoral district to the north east corner of the said Greenwood electoral district; thence north and east, following the height of land to the most northerly point in the former Rossland riding of West Kootenay electoral district; thence south and east, following the eastern boundary of the said Rossland riding to the international boundary line; thence west along the international boundary line to the point of commencement.

Greenwood License District—All the territory, not in any municipality, heretofore included in the Boundary creek license district, except that portion thereof included in the Grand Forks license district.

MINERAL ACT.

Certificate of Improvements.

NOTICE.

"W S" and "Eagle Fractional" Mineral claims, situate in the Greenwood Mining Division of Yale District. Where located: In Boomerang Camp, West Fork Kettle River.

TAKE NOTICE that I, Elizabeth Galloway, Free Miner's Certificate No. B91652, intend, sixty days from the date hereof, to apply to the Mining Recorder for Certificates of Improvements for the purpose of obtaining Crown Grants of the above claims.

And further take notice that actions, under section 37, must be commenced before the issuance of such certificates of improvements.

Dated this 15th day of January, A. D. 1906.

IN THE COUNTY COURT OF YALE HOLDEN AT GREENWOOD.

IN THE MATTER of the Judgment Act, 1899 and Amending Acts and
IN THE MATTER of the Judgment obtained in this Honourable Court
BETWEEN
COSENS BROTHERS, Plaintiffs (Judgment Creditors.)
—AND—
JAMES WILDER, Defendant (Judgment Debtor.)

NOTICE is hereby given that on the 7th day of February, 1906, at eleven o'clock in the forenoon, at the Court House at the City of Greenwood, I shell offer for sale by PUBLIC AUCTION for cash to the highest bidder, the lands hereinafter mentioned, to satisfy a certain judgment above mentioned amounting to $109.61, with interest accrued due from the 17th day of September, 1904, to the date of sale at five per cent. [5 per cent.] per annum and costs of proceedings for sale and Sheriff's fees and poundage. Following is a description of the property to be sold: The interest of the judgment debtor being an Equity of Redemption, in the South West quarter of Section eighteen, Township sixty-seven (S. W. ¼ Sec. 18, Tp. 67) in the Osoyoos Division of Yale District, British Columbia.

The following charges appear registered against the said lands;

1. Mortgage in fee to secure payment of the sum of $3,00.00, made by Jan es Wilder as Mortgagor, in favor of Joseph A. Devlin as Mortgagee, registered the 20th day of May, 1903.
2. Mortgage in fee to secure payment of the sum of $200.00 made by James Wilder, as Mortgagor, in favor of Joseph A. Devlin as Mortgagee, registered the 21st day of April, 1904.
3. The Judgment above mentioned, registered the 28th day of November, 1904.

INTENDING PURCHASERS must satisfy themselves as to title.

Dated the 9th day of January. A. D. 1906.

JAMES S. BIRNIE, Deputy Sheriff.
A. M. WHITESIDE, solicitor for Judgment Creditor.

IN THE COUNTY COURT OF YALE HOLDEN AT GREENWOOD.

IN THE MATTER of the Judgments Act and Amending Acts. and
IN THE MATTER of a Judgment obtained in an Action in this Honourable Court.
BETWEEN
THE YALE-COLUMBIA LUMBER COMPANY, LIMITED, Plaintiffs—Judgment Creditors.
—AND—
FRED FOREST TRAVIS, Defendant—Judgment Debtor.

NOTICE is hereby given that on the 7th day of February, 1906, at 11 o'clock in the forenoon, at the Court House at the City of Greenwood, I shall offer for sale by PUBLIC AUCTION for Cash to the highest bidder, the lands hereinafter mentioned, to satisfy a certain judgment above mentioned amounting to $282 51 with interest accrued due from the 15th day of May, 1902, to the date of sale at five per cent (5 p. c.) per annum and costs of proceedings for sale and Sheriff's fees and poundage. Following s a description of the property to be sold: The interest of the Jndgment Debtor, being an Equity of Redemption in Lot 1, Block "J", according to the registered map or plan of Garland's Addition of the City of Greenwood, Osoyoos Division, Yale District, British Columbia, deposited in the Land Registry Office at Kamloops and therein numbered 46.

The following charges appear on the Register against the said lands:

1. Mortgage in fee to secure the sum of $1,200.00 and interest thereon made by the Judgment Debtor as Mortgagor, and the Canadian Birkbeck Investment and Savings Company as Mortgagees, registered the 29th day of May, 1901.
2. Judgment, Yale-Columbia Lumber Company, Limited, against Fred Forest Travis dated the 15th day of May, 1902, and registered the 11th day of May, 1904.

INTENDING PURCHASERS must satisfy themselves as to title.

Dated the 9th day of January, 1906.

B. C. MINING REVIEW

Large Increase in All Departments of Work—Records Beaten.

THE BOUNDARY DISTRICT

Copper Mines of Greenwood and Vicinity Especially Active.

The following comprehensive review of mining operations in British Columbia for the year 1905 was published in the last number of the Mining Reporter. It deals most thoroughly with the year's work and shows that great progress has been made in all departments of gold, silver, copper, lead and zinc mining. Readers will note that copper takes second place in point of value and that this excellent showing is the result of the active operations in the Boundary district. Reference is made to the Granby smelter as the "peer of all others in respect of its capacity and equipment." The article continues:

"Weekly reports received during 1005 from the various camps in British Columbia all indicated that a strenuous effort was being made to make 1905 a record breaking year in point of production. Toward the end of the year this spirit seemed intensified, with the result that the final figures are indicative of the most prosperous twelve months yet experienced in the province. The estimated total value of the metalliferous production, that is, including silver, copper, lead and zinc, is $15,913,000. This figure shows an increase of $2,500,000 over the production of the corresponding metals in 1904. The production of coal, coke and building materials, which play no small part in the prosperity of the province, amounted to $5,050,000, a decrease of $500,000 compared with 1904. This gives a total production of $20,963,000, which is an increase of about 10.4 per cent. over 1904. The quantity of placer gold produced suffered a decrease of $5,300 as compared with the the quantity produced in 1904, while the gold produced from lode mines exceeded in value that produced in 1904 by a trifle over $50,000. The dry and short season for placer mining was accountable for the lack of progress in this branch of the industry. Taken as a whole, however, the production established a new high record and gives British Columbia unquestioned claim to the distinction of being the 'mineral province of Canada.'

"The various sources from which the mineral value of the output was derived was shown in the following table:

Gold—placer	$1,110,000
Gold—lode	4,640,000
Silver	2,045,000
Copper	5,430,000
Lead	2,368,000
Zinc	320,000

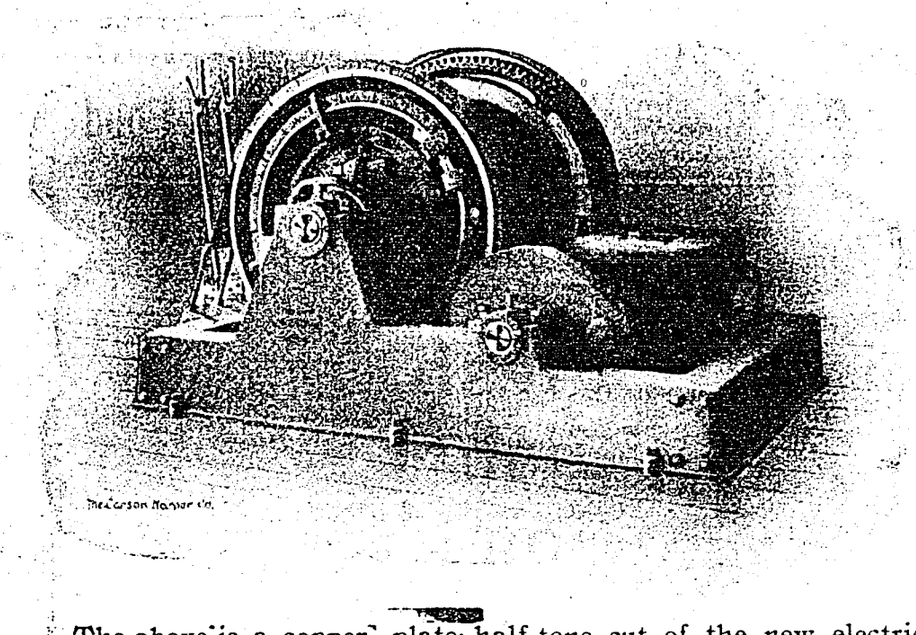
"It will be noted that copper takes second rank in value of production. The year has certainly been a favorable one for copper mining, for if the larger copper companies conducted profitable operations in 1904, with copper at an average price of about 12.5 cents, there is every reason to believe that with the improved market conditions and almost total absence of labor troubles, the result of the 1905 operations were certainly most satisfactory. The estimated gain in copper is attributable mostly to the Boundary district, to which an increase of nearly $1,000,000 has been credited.

"The increased output of lead and silver is attributable almost entirely to East Kootenay, and in fact to a single mine—the St. Eugene. Conditions at this property seem to be especially favorable to a large output of valuable ore.

"The production of zinc in 1905 probably represents in only a small degree what may be expected of the province in the next year or two. The recent ruling of the department of the treasury of the United States regarding the importation of zinc ores will probably have the effect of keeping a large quantity of British Columbia zinc out of the American markets. There has already been ample evidence given that this will be taken advantage of by Canadian interests to establish zinc reduction works on a large scale and handle the output of their own mines. As has been pointed out in this journal before, there is quite a striking analogy between the conditions which at one time existed between lead mining and smelting in the province and that which now exists relative to zinc mining and smelting. If the results that were achieved in the home production of lead are any criterion, we may expect to see Canadian zinc smelters conducting a thriving business in the near future. One of the chief subjects of interest in the Slocan during the year was the work done by the zinc commission appointed by the Dominion government for the purpose of investigating the industry in the province. The work of the commission so far has been preliminary to experimental work on ore treatment, which will be conducted later. Various types of magnetic and electrostatic separators are being tested and and no effort is being spared to complete the work as rapidly and thoroughly as possible.

"In Rossland considerable interest has centered about the Le Roi, Center Star and War Eagle mines, owing to the proposed combination of those properties, which has been in the air for many months. It is interesting to note that in the latter part of the year A. J. McMillan, who had been removed from the board of directors of the Le Roi company on account of his opposition to the proposed amalgamation mentioned above, has since won out in in his fight for re-instatement, and is again managing director of the Le Roi Company at Rossland. A recent consolidation proposition which was rejected so far as the Le Roi Mining Company was Concerned, involved the amalgamation of the Center Star, War Eagle, Le Roi, St. Eugene and the Canadian Smelting works at Trail. It is probable that this proposition was rejected owing to the questionable value of treating the Le Roi Company's ore at the Trail works, instead of at the Northport plant, Washington.

"The smelting industry of British Columbia is developing very satisfactorily. At Marysville is located the lead smelter of the Sullivan Mining company, and at this point the Huntington-Heberlein proeess of roasting lead ores was introduced last year. At Pilot Bay, Nelson and Trail in West Kootenay are other smelting plants. The first mentioned plant was only recently acquired by the Canadian Metals Company, while the latter has been adding to its capacity and improving its equipment throughout the year. In the Yale district there are four smelters, located at Grand Forks, Greenwood, Boundary Falls and Kamloops. The last mentioned plant has been erected merely for experimental purposes and is not to be classed with the others. The Granby plant is easily the peer of all others in the province in respect to its capacity and equipment. The Hall Mines smelter, situated at Nelson, is supplied with ores from the lower Kootenay and the Boundary country. In addition to owning the Pilot Bay smelter, which it recently acquired, the Canadian Metals Company also owns and operates a zinc smelter at Frank, Alta."



The above is a copper plate half-tone cut of the new electric hoist recently installed at the Elkhorn mine, and very similar in construction to the one just put in at the Crescent and also Preston mines. The hoist was made at Denver. Col. E. G. Warren being local agent. The power for operating same is supplied by the Greenwood Electric Co.

John Moran has contracted with R. Myerhoff of Midway for the delivery of 1,000 tons of copper ore from the Big Copper claim, to be delivered at the Greenwood smelter before spring.

The B. C. Copper company ars calling for tenders for 1,000,000 feet of lumber for the construction of their new bins. Work on the additions to their smelter will start as soon as the frost begins to loosen.

The new electric hoist to be used on the Crescent mine has arrived and is being placed in position. The organization of the Crescent Mines, Ltd., has been completed and work will be started at an early nate.

Mrs. Robert J. Moffatt has returned from a pleasant visit with her son, W. H. Moffatt, of San Francisco. Miss Bessie Moffatt, who has been for some time a member of the Canadian Bank of Commerce staff in the Golden Gate city, has also returned to Greenwood.

The new ambulance which was ordered from St. Paul has arrived at Phoenix over the Great Northern. It is being held there, however, pending an adjustment of freight charges, the railway having charged more than the agreement called for.

The Epworth League will give another of their very enjoyable social evenings in the Methodist church on Monday, January 22nd. An unusually fine programme has been arranged. Refreshments will be provided by the ladies. A cordial invitation is extended to all.

ELKHORN AND PRINCE HENRY.

The Elkhorn mine continues to look promising and work is being vigorously pushed. Elkhorn stock is commanding attention among local investors and several shares changed hands during the week at 40 cents a share.

At the Prince Henry the work of sinking the shaft is being continued, having reached the 215 foot level. This will be continued until a depth of 250 feet is reached, at which drifts will be opened and ore taken out.

MONDAY NIGHT'S MUSICALE.

The musicale held Monday night at the home of A. M. Whiteside, was a pleasing affair. A large number of guests were present and enjoyed the hospitality of the host and hostess. An excellent programme was rendered, every selection being enjoyed by by all present. Piano duets were rendered in a most pleasing manner by Mrs. H. McCutcheon and Mrs. Sidney Oliver. The piano solo of Mrs. J. E. McAllister was also a feature of the programme. Both Mr. and Mrs. Oliver rendered vocal solos, while N. F. Kendall, Mrs. William Allison and Miss Whiteside contributed largely to the enjoyment of the evening by their excellent solos. The duet of A. M. Whiteside and Miss Whiteside was pleasingly rendered and much enjoyed by all.

A marked feature of the evening's gathering was the evident genial sociability. Everyone felt perfectly at home. The event was held in aid of the Presbyterian church to which the proceeds will be devoted.

Broadway Brand Clothing

HOCKEY MATCHES.

Greenwood Seniors and Juniors Both Defeat Phoenix.

The return hockey match between Greenwood and Phoenix seniors Thursday night resulted in a victory for the home team of 2 to 1.

The Phoenix rover, McKinnon, was injured early in the game by being struck in the small of the back by the puck and was unable to continue the play. He was taken home to Phoenix and soon recovered from the shock.

The game was fairly evenly contested, though Greenwood had more advantage than the score would indicate, and had it not been for the excellent playing of Goal Keeper Wade the winners would probably have doubled their score. The following was the line-up:

GREENWOOD.		PHOENIX
Stow	Goal	Wade
Dill	Point	Collins
Warren	Cover Point	Hagen
Higman	Rover	McKinnon
Moe	Center	McKelvie
Bedkey	Right Wing	MacMillen
McBeath—2	Left Wing	Dunlap—1

McCush, Umpire

The juniors played their game after the seniors, and the boys followed the example of their elders and handed out defeat to their opponents with a like score of 2 to 1. Their game, though lacking in speed, was not devoid of interesting features. Fate seemed to have marked Phoenix rovers, for young Oxley received a bat on the nose that made the blood flow for a few minutes. The home boys kept their visitors busy and the Phoenix goal keeper had lots of practice warding off shots. The game was not marked by any sensational rushes or brilliant combination work, though there was plenty of individual playing. The following was the line-up:

GREENWOOD.		PHOENIX
McCutcheon	Goal	Johnson
Parker	Point	Murray
MacMillen	Cover Point	Yob
Russell	Rover	Oxley
Archibald	Center	McKelvie
Summers—Capt.	Right Wing	Glasgow
Horton	Left Wing	Pierce
