A Socialist Lie Nailed

Attempt to Stampede Labor Vote for Socialist Candidate Exposed. Denial by Mr. Naden.

In the Greenwood Ledge of January 13th appears a letter over the signature of Chas. Phillips, president of the Miners' union, in which it is made to appear that the Liberal candidate, Geo. R. Naden, was hostile to the eight-hour day being applied to the smelting industry. A Times reporter immediately called upon Mr. Naden, who cheerfully furnished the following statement of his position on that question, not only at the conference which led to a settlement of the recent labor difficulties at the smelter, but on every other occasion in which the hours of laboring men have been under discussion:

Editor Boundary Creek Times:

DEAR SIR—In order to clear up any misapprehension as to my views on the eight hour question. I beg to submit the following:

Whenever, by reason of dirt, dust or fumes, or any other circumstance, the work of smelter employees is of such a nature as to endanger their health or their lives, such employees shoule have for their benefit a compulsory eight hour law enacted. That such other employees, if any, are entitled to a similar compulsory law, just as soon as there is a general eight hour law in the province. GEO. R. NADEN.

The annual Rossland Winter Carnival, which is coming to be regarded as a provincial event, will beheld on the five days beginning February 12th. A large number of prizes, totalling over $2,000, as well as five grand trophies, will be distributed among the successful contestants in the various games, which includes skating, hockey, ski-ing, snowshoeing and curling. Reduced rates have been secured on all lines of railways and every effort is being made to have this eclipse any previous carnival from an entertaining point of view.

THE FUEL QUESTION

It is hard to tell what a day will bring forth, to say nothing about a week. In the early part of the week rumors were plentiful of a long shut-down of the mines and smelters in the Boundary on account of the inability of the railroads to furnish the coal and coke necessary for the operation of the various plants.

It is now stated that fuel in abundance can be furnished. The Granby plant started up four of their furnaces on Thursday, and work will be resumed full blast at the company's Phoenix properties before the end of the week.

A Jamaican Lady Speaks Highly of Chamberlain's Cough Remedy.

Mrs. Michael Hart, wife of the superintendent of Cart Service at Kingston, Jamaica, West Indies Islands, says that she has for some years used Chamberlain's Cough Remedy for coughs, croup and whooping cough and has found it very beneficial. She has implicit confidence in it and would not be without a bottle of it in her home. Sold by all druggists.

Kaien Island Scandal

Duplicity and Incompetence of McBride Government. Facts Revealed by Investigation.

Briefly stated, the facts concerning the Kaien island transaction are as follows: Shortly after assuming office the McBride government had to consider various applications for mineral as well as applications for land made under the South African war grant act, and provincial land act. In each case these applications were rejected, and the applicants refused a title on the plea that by an order in council, dated 12th day of October, 1891, a reserve had been placed upon a portion of the Tsimpshean peninsula and that this reserve covered the land for which applications had been made. Shortly after this a large portion of Kaien island, comprising land for which applications had been refused, was sold by the government to speculators, headed by Peter Larson, the railway magnate, and a Mr. Anderson of Victoria, for the nominal price of $1 per acre. The sale was kept absolutely secret until the same group of speculators and their friends had acquired large blocks of valuable land adjacent to that already secured. These and other facts coming to the knowledge of the opposition members of the legislature, an investigation was demanded. The committee, appointed, consisting of a majority of McBride supporters, brought in a report exonerating the government from any blame. Dissenting members of the committee filed a minority report which the government refused to publish, but which, summarized, contains the following facts:

"That the provincial reserve dated 12th October, 1891, did not extend to Kaien island, and was not intended to do so.

"That applications under the land laws of the province under the South African war grant act and under the mineral act, were not considered by the government upon their merits, but that the same wore rejected under the subterfuge of applying the reserve of 1891 to said lands contrary to the purport and intention of the order in council creating the same.

"That the government did not deal directly with the Grand Trunk Pacific Railway company, but on the contrary with a band of adventurers (male and female) who applied for the said lands for purely speculative purposes, to the knowledge of the government. That the government had no communication either verbal or written, with any representative of the Grand Trunk Pacific prior to the passing of the order in council of May, 1904, and that the telegram of the 29th of April was a mere move in the game to enable the speculators to contend that they could carry aut their original intention of procuring the establishment of the Grand Trunk Pacific terminus on these lands and to give the government a pretense, a very specious one at that, that they had heard in an indirect way, if not in a direct way, from the Grand Trunk Pacific company.

"That by the order in council of May, 1904, the government placed in the hands of Messrs. Anderson and Larsen one of the most valuable public assets in the prouince for barter with the Grand Trunk Pacific. And that Anderson, shortly after the passing of the order in council, proceeded to Montreal, where he succeeded in getting an agreement from the Grand Trunk Pacific to pay himself and Larsen $40,000 for the concession which they had obtained from the government by said order in council.

"That no satisfactory evidence was offered showing the ultimate fate of this $40,000 agreement.

"That the government had no power to make this grant, either to Messrs. Anderson and Larsen or to the Grand Trunk Pacific without the assent of the legislature, and that the ministers wrongly advised his honor, the lieutenant governor, and obtained the order in council contrary both to the spirit and to the letter of the law.

"That the government took no steps whatever to ascertain whether or not the grant in question was in the public interest. That ministers had no knowledge upon which to proceed in deciding that question, and beyond making one or two modificatians in Mr. Bodwell's original proposal were utterly reckless with the rights of the province.

"That the provision to divide the foreshore into blocks of not less than 1,000 feet was a most unwise one and enables the Grand Trunk Pacific to divide the foreshore into large blocks, and after the government has selected its block, or blocks, to place its terminals and wharves in such a position as to render almost valueless that portion of the foreshore belonging to the government.

"That by reason of the secrecy maintained by the government and Messrs. Larsen and Anderson, the said Larsen and Anderson and their immediate associates were enabled to obtain other lands, including North and South Porpoise islands, contiguous to Kaien island and the proposed railway line, to the extent of over 3,000 acres.

"That James Anderson received from his partner, Larsen, in settlement of their interests in Kaien island and other adventures in the immediate neighborhood, the sum of $10,000, besides salary and expenses. He also received one-sixteenth interest in North and South Porpoise islands and in other lands contiguous to Kaien island, located by him under South African war script. And also about five square miles of coal lands some distance down the coast."

From the above it will be noted that speculators and corporations have received from the McBride government what private parties were refused, tho entitled by their prior applications to first consideration. That property, which from the very nature of its location, will in a few years be worth millions, was practically given away. That public affairs are being conducted in secret, underhanded ways, in the interest of speculators and friends of the government. A return to power of the McBride government means a continuation of these methods of conducting public business. Electors, are you satisfied with the condition of affairs revealed by that investigation? If not record your dissatisfaction by sending to Victoria a strong Liberal government with Geo. R. Naden as the representative from Greenwood.

SUMMIT CAMP NOTES

Summit camp, near Eholt, in which are located the famous old B. C. mine, Oro Denero, Emma and Jumbo mines, will in the near future add another property to its shipping list.

James Cunningham, one of the veteran prospectors of the Boundary district, has about completed arrangements for the working of his group of claims situated in Summit camp, and bordering on the Emma and Jumbo claims. This group, containing the Molly, Treadwell, Climax' Lockport, Gem Fraction and Emma Fraction claims, has long been looked upon as a likely producer of good ore, and the announcement that active development will begin as soon as the snow permits will be a surprise to no one with a knowledge of the Summit district.

The Gem and Emma Fractions adjoin the famous Emma property, and is a continuation of the Emma lead, with a parallel undeveloped vein on the latter property also running through the claims.

The Molly and Treadwell claims adjoin the Jumbo, one of the Emma group, at present working and shipping good ore.

The work heretofore done on these properties has, of course, been of a prospective nature, but the results have surpassed the most sanguine expectations of the owner. Two shafts on the Emma and Gem Fractions of 26 and 30 feet respectively, with crosscuts on the Molly and Climax revealed the presence of a large body of copper ore carrying $5 in gold and 2 per cent copper. This, of course, is no record breaking amount, but considering the magnitude of the ore bodies in this district and its close proximity to two railroads, as well as the low cost of "glory holing" the ore, it is sufficient to guarantee these claims as dividend payers with an extremely small outlay, at no distant date.

UNION LABEL

FRIDAY, JANUARY 18, 1907.

CULTUS POLITICS.

The attempt of the Socialists to create the impression that the Liberal candidate is opposed to the eight-hour day being extended to smelter employees will in the end act as a sort of boomerang, but it serves as an example as to the lengths, or depths, rather, that their local leaders will go in their frantic endeavors to secure this riding for a supporter of Mr. Hawthornthwaite.

Organized labor in the Boundary district has long recognized G. R. Naden as one of its staunchest friends, and his reputation for fairness and cool judgment has more than once been requisitioned by both employer and employee in settling labor disputes that threatened to assume serious proportions, and which in all probability would have resulted in prolonged struggles, but for the influence he brought to bear upon the situation. During the recent labor troubles at the Greenwood smelter, his advice and influence were largely responsible for the pacific settlements of the points at issue, for which he had forwarded to him by the union a resolution containing a unanimous vote of thanks. In view of this fact, it is somewhat peculiar to have the same union officials vainly endeavoring to make him appear as the enemy of organized labor. It is too ridiculous to be taken seriously by those whom it seeks to influence, and can only be set down as another example of cultus politics.

A WEAK DEFENSE.

Hon. Richard McBride and his chief lieutenant, Mr. Bowser of Vancouver, addressed the electors of Nelson at a largely attended meeting on Friday evening January 11th. Beyond a general denial of the charges made against his administration, there was nothing of importance in his address, either new or original, the only striking features of his speech being its entire absence of anything resembling an explanation of the many interesting political situations that have from time to time existed during his term of office, and the feeble defense put up against the many serious charges preferred against his administration by the opposition press and speakers.

Coming to the Midway & Vernon railway question, he informed his audience that he had always been opposed to "paper railroads," and that it came to his knowledge that these "charter mongers" were trying to sell their enterprise to Jim Hill of the Great Northern, who had written and exposed the whole thing, which correspondence he read.

Now, what any sane person familiar with the circumstances would like to know is what particular sin the promoters were guilty of, even if they did attempt to dispose of their charter? Is there any clause in the charter forbidding them selling it, or which restricts the sale to any individual or corporation?

Did not the court decide that the company had complied with the terms of the charter and were entitled to their subsidies, and if any doubts existed as to the legality of the Midway-Vernon's claim to their subsidy, why was it necessary to convey this information to the investors through C, P. R. channels?

The explanation, if indeed, it can be termed such, is hardly of a nature that will appeal to the public, who are interested either in the road itself or in the larger question of fair dealing between governments and individuals. Because Premier McBride professes to dislike paper railways, or because promoters of railways express a willingness to dispose of their charters, will hardly be taken as sufficient reason for the attitude the government adopted toward the Midway-Vernon road.

There is a widespread opinion that this act was an unwarranted interference on the part of the administration, instigated by the C. P. R. Co., and any explanation vouchsafed so far by the government supporters only tend to strengthen the public in that belief.

ONE RESULT OF SOCIALISM

It has been contended by opponents of Socialism, as preached in British Columbia, that their presence in any numbers on the floor of the Provincial legislature will have a tendency to discourage the entrance of capital to the province, and thus retard the natural and healthy development of this portion of the great dominion. From the utterances of their leader, Mr. Hawthornthwaite, down to those of the most humble member of their associations, one is forced to the conclusion that commercial interests of all kinds would meet with but scant consideration at their hands, were these gentlemen ever entrusted with the conduct of public affairs in this country.

That such is the case, the following extract from the Ledge will prove:

MORAL SPPORT.

Greenwood, B. C., Oct. 25, 1906.

To the Gladstone Miners' Union, U. M. W. of Fernie, B. C.:

At a regular meeting of Greenwood Miners' Union No. 22, W. F. M., the following resolutions were adopted:

Whereas, Gladstone Miners' Union of Fernie, B. C., are having a bitter fight against co-operative greed.

Whereas, The action of the Mine Owners' association throughout the American continent are well known to Greenwood Miners' union.

We, as fellow workers fully recognize the class struggle being waged throughout the United States and Canada, therefore we know that the capitalists class will violate any agreement to further their dastardly purposes, but go ahead brothers; the smelting industry of the Boundary is quaking.

Copper was never so high as it is now, and with the coal mines tied up the smelting industry of the Boundary will be crippled.

Resolved, That Greenwood Miners' union pledge you their moral support You have nothing to lose but your chains, and a world to gain; be it further

Resolved, That a copy of these resolutions be sent the Greenwood ledge, Gladstone Miners' union and Fernie Ledger, and spread on the minutes of this union. Signed,

R. A. Matheson, Committee.

This is from the Socialistic element that controls the Miners' union, and who are the chief supporters of Edgar Dynes the Socialist candidate. It is a matter of history that, in this case at least, capital did not "violate any agreement to accomplish their dastardly ends," but lived up to it fully, as the representative of John Mitchell, the union leader, frankly admitted. But be that as it may, do the electors of this riding consider it in their interests to have as their representative a man who shares such opinions as this resolution contains? We very much mistake the intelligence of the electors if they do.

Ex-Attorney General Wilson, one of the "charter mongers" of the Midway-Vernon road, is seeking re-election as a Conservative candidate in Cariboo. It would be interesting to know just what inducement was held out to him in order to get him safely back into the fold.

Premier McBride declares he dealt directly with the G. T. P. in the Kaien island deal. How, then, did James Anderson and Peter Larsen come by that $40,000 for transferring the same land to the officials of that company? If $40,000 was the amount paid by the Grand Trunk Pacific why is it the provincial treasury received only $10,000? Some member of the McBride government please answer.

Dated this 17th day of January, 1907.

EDITORIAL NOTES

JOHN HOUSON, ex-M. P. P. for Nelson, has decided to again be a candidate for legislative honors, this time as an independent candidate in Ymir riding. In an interview at Goldfields, Nevada, at which camp Houston has been for some time, he thus deals with the claim of Premier McBride that whatever prosperity exists in B. C. is due to his government.

"The province is reported to be prosperous and the McBride government claims all the credit for the prosperity; but in my opinion the prosperity of British Columbia is wholly due to the great increase in the population in Alberta and Saskatchewan, the newest provinces of Canada, whose people draw their supply of lumber almost wholly from the mills of British Columbia; and to the high prices of copper, lead and silver that have prevailed for nearly two years. The building of the Grand Trunk Pacific, although construction has not been commenced in the province, and the demand for fruit lands in the Kootenay and Yale districts, have also been factors in bringing prosperity to the province. The McBride government gained office in 1903, and if it evolved any great measures it has kept them pigeonholed, for none have been laid before the legislative assembly."

John has hit the nail squarely on the head for once.

Try This for Your Cough.

To relieve a cough or break up a cold in twenty-four hours, the following simple formula, the ingredients of which can be obtained of any good prescription druggist at small cost, is all that will be required: Virgin Oil of Pine (Pure), one-half ounce; Glycerine, two ounces; good Whisky, a half pint. Shake well and take in teaspoonful doses every four hours. The desired results can not be obtained unless the ingredients are pbre. It is therefore better to purchase the ingredients separately and prepare the mixture yourself. Virgin Oil of Pine (Pure) should be purchased in the original half ounce vials, which druggists buy for dispensing. Each vial is securely sealed in a round wooden case which protects the Oil from exposure to light. Around the wooden case is an engraved wrapper with the name—"Virgin Oil of Pine (Pure)"—plainly printed thereon. There are many imitations and cheap productions of Pine, but these only create nausea, and never effect the desired results. 11-24

The Ladies' Aid of the Presbyterian church held their annual meeting on Thursday at the manse for the election of officers and transaction of general business. The report submitted by the retiring officers showed the past year to have been the most successful in the history of the Aid, the large sum of $377 having been contributed by the association toward church support. The retiring officers were all unanimously re-elected, Mrs. R. Whiteside as president, Mrs. M. D. McKee, vice, and Mrs. B. M. Snyder sec-treas. Several new members were enrolled and a comprehensive plan laid out for the present year's work. The Aid at present is in a flourishing condition and begins the new year's work under the most favorable auspices.

The Greenwood band, which is holding a carnival in the skating rink on January 24 h, are sparing no pains to make it the most attractive winter event of the season. Admission, 50 cents. Children, 25 cents.

A BRIGHT LANDLORD

How He Met the Emergency With a Backward Tenant.

A Montreal landlord developed an ingenious idea for getting the rent out of a backward tenant. The reason the man did not pay his rent was because he hadn't the money. The reason he hadn't the money was because he was down on his luck.

The landlord took his tenant down to McLean & Campbell's Semi-ready Wardrobe, bought him a new suit of clothes, and made him feel like a new man with the courage to go out and land a job. And a few days ago the tenant had paid up all his back rent. That is the kind of a landlord to have

P. W. George & Co. will be pleased to show you how what "Semi-ready' tailoring profits the wearer.

ROSSLAND CAMPAIGN

In no other place in the province is the hand of the C. P. R. so clearly shown as in the campaign now being conducted in Rossland. The Rossland Miner, a C. P R, property, but hitherto supporting the Liberal cause, is now out in favor of the Conservatives and is particularly bitter in its hostility to J. A. Macdonald, liberal leader. Lorne Campbell, manager of the West Kootenay Power and Light Co., a concern closely allied with the C. P. R., has been selected as the Tory standard bearer, and every effort is being made by the company to drive Macdonald out of public life for having the courage to oppose the Columbia & Western land grant and insist that no favors be shown the C. P. R. in the matter of taxation. What the people of Rossland would gain by turning down J. A. Macdonald, who three weeks from now will be premior of British Columbia, in favor of Lorne Campbell, who, in all probability, will only be a C. P. R. tool, none of the Tory press have undertaken to explain. It is safe to assume that Rosslund electors will not prove the easy mark the C. P. R. evidently expects, and that the Liberal leader will be returned by a greatly increased majority.

WANTED—VOTERS' LIST

Never before have the people of the province been subjected to such treatment as has been handed out to the Liberal organization of this district in regard to the voters' list. Although the election has been announced since the 24th of last month, and it is now the 10th of January, yet the Liberals have been unable to secure a copy of the lists. The powers that be seem to forget that the lists are for the people and not for any one particular party, and the cost is paid out of the taxes levied upon the members of all parties alike. Such petty devices to secure what they might think is partisan advantage illy becomes what is called the great party of British Columbia.—Cranbrook Herald.

Ditto Greenwood, only more. Soit is now, the 18th, and still no lists are in sight here.

BILLINGSGATE POLITICS

It is a mistaken notion that communications like the one appearidg in the last issue of the Greenwood Ledge, will have any weight in influencing electors in the marking of their ballots on polling day, and it is questionable if either the party in whose interest the article was written, or the paper who throws its columns open to such mud slinging productions, will in the least benefit by it. Greenwood knows the record of the writer of this article just as well as it knows the record of G. R. Naden, and the public are invited to make their own comparisons.

Greenwood riding is fortunate in this campaign in having candidates singularly free from any taint. In E. G. Warren the Conservatives have a man of clean morals and good business ability, with a record of successfully managing the interests entrusted to his care, and any communication reaching this office containing reflections upon either his moral or business reputation will be promptly consigned to the stove.

In G. R. Naden the Liberals have a candidate of unblemished character, with a long and successful career in civic politics, and an intimate knowledge of the various interests of this part of B. C. It is, as far as Greenwood riding is concerned, not a question of men, but of politics. These, our friends, the enemy, are at liberty to hammer as much as they please, and we shall endeavor to return the compliment with interest, but they must not expect from us the publication of such scandalous fabrications as those that disgrace the pages of the Ledge's last issue.

TENTH ANNUAL

Rossland Winter Carnival

FIVE DAYS

February 12, 13, 14, 15 and 16, 1907

FIRST-CLASS CAFE, OPEN DAY AND NIGHT

Can Consumption be Cured?

There is plenty of indisputable evidence to prove that Consumption has been cured even after the symptoms were well defined and the lungs actually involved.

On the other hand, there has always been a point beyond which the disease has been considered incurable. Until a comparatively recent date this point had a place at a very early stage of the malady, but modern scientific discovery and common-sense methods of treatment have gradually moved the hopeless point further and further back, until now the Consumptive is not "given up" until the very last stage of the disease is reached.

Nothing in recent years has done so much to improve the chances of Consumptives as the advent of

FERROL

In fact, it is claimed that, with plenty of fresh air, sunlight and comfortable surroundings, FERROL has pushed the hopeless point to the limit, that is to say, where these fail the chances of cure are very slim indeed.

FERROL does not kill the germs of Consumption (anything that will do that will kill the patient), but FERROL does the work by repairing the waste tissue, enriching the blood, toning the nerves, in short, by building up the whole system and thus enabling nature to expel the disease.

The only possible chance of curing Consumption is by proper nutrition, and FERROL is the only perfect nutrient, because it combines in palatable and easily digested form the very essentials of life—Oil, Iron and Phosphorus.

We feel some diffidence in claiming that FERROL will cure Consumption, lest we be misunderstood, but we have not the slightest hesitation in stating that it is an infallible cure for BRONCHITIS, CHRONIC COUGHS, CROUP, WHOOPING COUGH, CHRONIC RHEUMATISM, NEURALGIA, NERVOUS EXHAUSTION, SCROFULA and all wasting diseases.

For restoring lost weight and building up the run-down system FERROL is absolutely without an equal.

Your Doctor

Can cure your Cough or Cold, no question about that, but—why go to all the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years: let SHILOH be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

The next time you have a Cough or Cold cure it with

POLITICAL NOTES.

The Conservative convention called to nominate a candidate for Ymir turned out to be a surprise to the party leaders. Harry Wright, the old member, and James Schofield, C. P. R. agent at Trail, being almost neck and neck in the running. Failing to come to any understanding, the Wright faction walked out of the hall, declaring they will support J. Fred Hume, the Liberal candidate, in preference to a C. P. R. official who would, in all probability, obey the instructions of the big corporation to the letter. Among a large section of the Conservatives in the upper country there is a strong desire to shake off the C. P. R. shackles and the break in the ranks at Ymir will further swell the majority of the Liberal candidate in that riding.

W. W. B. McInnes, the terror of the unfortunate Conservatives, arrived in Nelson Tuesday night on his upper country campaign.

In view of Premier McBride's oft repeated assertion that in the Kaien island deal he dealt directly with the G. T. P., it is interesting to read what he had to say under oath before the commission which investigated the scandal:

Q.—Had you any communication with the Grand Trunk Pacific company prior to the 3rd March (1904)?

Premier McBride—I may have had some communication with them, I can not say.

Q.—Or at the time you passed the order in council on the 3rd may (1904)?

Premier McBride—No letters, if they were not produced.

Q.—Neither from the government to the railway company, nor from the Grand Trunk Pacific to the government?

Premier McBride—None, if they are not produced.

Q.—Now, where do you find that you carried out your intention of dealing direct with the Grand Trunk Pacific Railway company?

Premier McBride—In the order in council and in the crown grant which was afterwards made.

Q.—Still you say you had no communication with the Grand Trunk Pacific Railway company.

Premier McBride—Well, Mr. Bodwell was given to understand that that was the only way that the government would deal with the proposition. The proposition to establish a townsite there was made by Mr. Bodwell. We treated with Mr. Bodwell in a confidential way, knowing that he was the representative of the Grand Trunk Pacific and having his word tor it, and as he was an eminent nian of standing in the commuity the government felt that it had every right to treat with him in that way.

Q.—Then the only communication that you have seen, or received, varying Mr. Bodwell's position from that outlined on the 19th of January, and from which you could assume he was acting for the company, was this telegram of the 29th of April?

Premier McBride—Yes, and in addition to that we have his word of honor, certainly.

And Mr. Green swore:

Q.—Therefore, you had no talk with any official of the Grand Trunk Pacific in connection with the transaction, no dealing nor bargaining with them at all?

Mr. Green—No, absolutely none.

Mr. Bodwell's sworn evidence as to his connection with the Grand Trunk Pacific Railway company was as follows:

"As far as I was concerned I had no interest at all except that I was glad to be connected with a transaction of that kind, because it brought me into close connection with the Grand Trunk Pacific Railway company. The Grand Trank Pacific would have paid me had I been their solicitor in the matter, but I was not their solicitor and had no bill against them. In so far as Mr. Larsen is concerned I did a great deal of business for him and, as a matter of fact, I did not render him any bill on the matter, and really I am out of pocket for disbursements."

Any pretence that Mr. Bodwell was acting for the Grand Trunk Pacific on the 3rd of May, when the order in council was passed, is disposed of by what Mr. Bodwell swore took place between himself and Mr. Hayes (president of the G. T. P. company) in June, 1804. Mr. Bodwell said:

"I would like you to understand, Mr. Hayes, that it was perfectly understoon as far as I know, that there was to be no attempt made to hold up your company at all, and I said there was no possibility of it. Mr. Hayes said: 'Well, I would like you to advise us in the matter,' and I said I cannot act for you in the matter. I am Mr. Larsen's solicitor and I think I am going as far as I have any right to go in saying what I do, but I cannot attempt to think of advising the Grand Trunk Pacific, and I cannot act as your solicitor, or take anything from you by way of professional fees in the matter."

John Jardine has been unanimously chosen by Esquimalt Liberals to oppose Mr. Speaker Pooley. It is predicted that Pooley will have difficulty in saving his deposit. In the last election Jardine ran within 15 votes of Pooley and on that occasion he did not have the united support of the Liberals.

Stuart Livingston, Independent Conservative, has announced his retirement from the race in Richmond. He has been sick at home for several weeks and physicians positively forbade him entering on the necessary stumping tour.

SCALDED BY BOILING FAT

COULDN'T USE HAND FOR A MONTH

Zam-Buk Then Applied and Gave Instand Relief.

An accident in a Toronto home the other day might have had very serious consequences had it not been for Zam-Buk. Miss Martha Green of 9 Claremont street, in taking a pan of boiling fat from the oven spilt it over her right hand. "The boiling fat ran into the palm of my hand," she says, 'and over all my fingers. You may well imagine the agony I suffered in consequence. I was almost wild with the pain. The hand became swoolen, and large blisters formed all over the palm and along the fingers. For over a month I was unable to use the hand at all. I tried several kinds of salves and liniments, but the wound seemed apparently no better. It was altogether too severe for these preparations to heal. About this time I was advised to try Zam-Buk. I stopped using all other preparations and applied Zam-Buk instead. The very first application soothed my hand and seemed to draw out the fire and inflammation; and as I kept on using Zam-Buk the blisters gradually dried up and disappeared. In a very short time the scald was healed completely."

This is but one instance of the uses to which Zam-Buk can be so advantageously applied. It is equally effective for burns, cuts, bruises, abrasions sprains and stiffness. It also cures eczema, ulcers, sores, blood poison, ringworm, scalp sores, chronic wounds, acne, blackheads, pimples, sold sores, chapped hands and all skin diseases and injuries. Rubbed well on to the chest, in cases of cold, it relieves the aching and tightness, and applied as an embrocation it cures rheumatism, sciatica, neuralgia, etc. All druggists sell Zam-Buk at 50 cents a box, or it may be obtained from the Zam-Buk Co., Toronto, upon receipt of price. Six boxes for $2 50.

The Phoenix Pioneer Special Annual edition is now out and will be mailed today.

Mark Madden, president of the Providence Mining compony, left on Monday for Chicago.

Mrs. McKnight, who has been seriously ill at the Sisters' hospital, is reported to be progressing favorably.

Special reductions in all lines of Crockery and China. Anderson Bros.

Mr. and Mrs. Fisher, former residents of Greenwood, are in the city visiting their daughter, Mrs. Julius Erhlich.

In the future the morning service at St. Jude's church will commence at 10:45 a. m., and the Sunday school will be held at noon.

Thos. Henderson, foreman of the Wallace Mountain Mining Co., came in on Tuesday's stage from Beaverdell on a business trip.

A good pair to draw to, Dekajulie Tea and Our Best Coffee. Anderson Bros.

Joe Chenier, who succeeded S. B. Yuill in the cigar and tobacco business, carries the finest line of pipes, cigars, etc., in Greenwood.

A. F. Thomas, who was nominated as school trustee, has dropped out of the race, the seat going to Mr. Jas. Birnie by acclamation.

The Windsor Cafe will hereafter be under the management of G. H. Courtenay, an experienced caterer, who will spare no pains in making this the most attractive cafe in Greenwood.

Yesterday was a busy day at the civic offices, over $2,000 being taken in by City Clerk Taylor as license fees for the current half year. Not a bad collection for one day.

Val. Haines, foreman for the Southern Okanagan Land Co., with his gang of rough riders, arrived in Greenwood Tuesday with a heavy consignment of cattle for P. Burns & Co.

Charles Wilson, the popular local manager for P. Burns & Co., has purchased from Duncan McIntosh the two lots and house on Church street near the Roman Catholic church.

Special edition of Phoenix Pioneer for sale by McRae Bros.

James Cunningham, the veteran prospector, left on Monday for his old home in Pennsylvania, where he will take a three months' holiday. He expects to return early in April to resume work on his claims in Summit camp.

J. A. Frechette, manufacturer and dealer in harness, saddles and leather trappings of all kinds, has moved to Greenwood and opened up a business on Copper street in the building formally used as a reading room by the Miners' union. The Times wishes him success in his new venture.

The annual Congregational meeting of the Presbyterian church will be held January 21st, at 8 o'clock, in the church building. As this is the business meeting of the Presbyterians a large turnout is specially requested. All members and adherents of the church are cordially invited to attend

Geo. R. Naden, the Liberal candidate, returned Thursday from Eholt, Denero and Summit, where he has been conducting a vigorous canvass. Since accepting nomination, Mr. Naden has pretty well covered the entire riding and is now able to to sum up his majority. Mr. Naden, however, is one who takes no chances, and will keep hard at work until polling day.

Greenwood's fire brigade had a run last night, about 11 o'clock, fire being discovered in the basement of Frawley's barber shop. The recent cold weather has been playing havoc with the water pipes in connection with the baths, and until late last night the plumber was engaged in thawing them out. It is presumed that the fire originated from this, as it was only a short time after he left that the fire was noticed. The boys were promptly on the scene, and succeeded in confining the fire to the basement. Beyond the rough usage incidental to a hurried removal of the furnishings, little damage was done.

Dr. Simmons, dentist, Phone 96 Wallace-Miller Block, open evenings.

Canadian Almanac for 1907 for sale at McRae Bros.

Owing to the demoralized train service, it has been found necessary to considerably altar the schedule of meetings at which W. W. B. McInnes was billed to speak. At the present time it looks as if the Boundary district will not have an opportunity of hearing the eloquent and able Liberal lieutenant, as his whole time will be occupied in East and West Kootenay. The Liberal meeting here, the date of which will be announced later, will be addressed by the Liberal leader, J. A. Macdonald, F. J. Deane, of Nelson, and perhaps other prominent campaigners.

That appointment you made for next week can easily be kept track of in one of our nice line of office and pocket Diaries. Coles & Frith.

CITY ELECTIONS

There will be no civic election this year, the entire council board, including the mayor's chair, being filled by acclamation. Four of the new councilmen have sat on the board before, Messrs. Wood, Nelson and Sullivan having been members of the old council, while James Sutherland comes back after a few years' absence to again tackle the problems of municipal agairs. Two members of the 1907 council, Messrs. Gulley and Drosiers, are new in official duties. Both are old timers with considerable interests at stake, and both are possessed of qualities that produce careful, conscientious legislators.

For a few days there were strong probabilities of Duncan McIntosh being put up for mayor in opposition to Mr. H. Bunting, but for some reason Mr. McIntosh's name did not appear in the list of nominations.

The following gentlemen comprise the councilmen for 1907:

Mayor—Mr. Herbert Bunting.

Councilmen—North ward, J. W. Nelson, Christopher Wood, I. B. Derosier; South ward, D. J. Sullivan, Thos. Gully, James Sutherland.

Board of School Trustees—Messrs. I. H. Hallett, I. C. Eales, with A. F. Thomas and J. S. Birnie as aspirants for the vacant seat.

PHOENIX ELECTIONS

The Phoenix civic election resulted in the defeat of George Rumberger, who has held the office ever since Phoenix was incorporated, by a majority of 13. The following gentlemen will occupy seats at the council board for 1907:

Mayor, D. J. Mathison. East ward—L. B. Birnie, R. C. Carson, Arthur Jacobs. West ward—G. W. McCauley, A. D. McKenzie, W. J. Porter.

The unsuccessful candidates in East ward were Edward Brown, Michael Kane and David Oxley. In the West ward, James Marshall and Julius Carson. Mathieson has thus secured a majority of the council in favor of his reform policy, and in all probability an exodus of undesirable citizens will soon begin.

PROSPECTS IN ROSSLAND

Special to the Times.

ROSSLAND, Jan. 16.—Friends of the Liberal leader, J. A. Macdonald, need have no fear of his re-election by a handsome majority. The campaign being waged against him by the Miner is thoroughly understood here, and is doing him good.

The nomination of Campbell by the Conservatives was in the nature of a last resort. Goodeve would have jumped at it if he had thought there was even a look-in for a supporter of the local government.

Mr. Campbell's candidature is resented by all the workingmen. Their attitude is simply this: If Chinese had votes, Campbell might have a show to win.

Rossland is proud of J. A. Macdonald and fully expects the Liberals to carry the province, and intends to be the riding that will give the new government its premier.

Dangers of a Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all druggists.

A COLD SNAP

The cold wave that struck here a week ago still continues. Which way it is heading, or whether it is stationary, is hard to tell. At all events, it seems to linger here regardless of the many forcible expressions made regarding it.

The thermometer registered 48 degrees below zero in the glass at L. B. Hodge's residence on Sunday night. Many others recorded something over 40, so that this surpasses anything on record in the Boundary district.

The severity of the weather does not at all appear local in character, but extends over the entire Northwest as well as the Pacific slope. At Edmanton 60 below has been the limit, while for a whole day the glass stood at 42.

At the coast great suffering has been caused by the unusual cold, and even in the sunny Okanagan and Similkameen valleys unheardof records have been registered by the thermometer. At Hedley the big power plant of the Nickle Plate mine is completely tied up, the flume conducting the water from Twenty Mile creek, being frozen solid, and the glass reading 17 below zero. At the mine itself, which has an altitude of nearly 6,000 feet, the snow fall this season totals nearly 11 feet. At the present time there is no indication of any break in the weather, and good curling ice and frozen water pipes continue to be the order of the day.

RESULTS OF FUEL FAMINE

The fuel famine, or the results of it, has struck the Boundary district, and like the accompanying cold wave, has struck it hard. Neither of the two big railroads that handle the output of the various camps can supply themselves with fuel, to say nothing of supplying the mines and smelters. As a consequence, everything is at a standstill in the mining and smelting industries, with the exception of the Mother Lode mine and smelter, and these also are expected to close at any time. The Granby and Cominion Copper Co.'s mines and smelting plants have been closed for some days, and will not likely reopen until assured of sufficient fuel to guarantee continuous operation. When that will be even the railroad authorities themselves do not appear to know. It is to be hoped that the shutdown will be of short duration and that no further obstacle will be encountered in making this, in point of production, the banner year of the Boundary district.

Subscrike for the Times.

DISEASE MADE BONES SNAP LIKE GLASS

Frank L. Wellington has died at his home in Trinity avenue, New York, the victim of a disease which caused his bones to snap like glass. One day, while holding a strap in a street car, his arm snapped off. A short time later a leg bone snapped. According to his physician this terrible condition was brought about by taking medicine which contained a certain mineral poison.

Again and again has it been demonstrated that mineral medicines are harmful. It is because Bileans, while so effective for all liver and digestive disorders, yet contains no trace of any mineral, but are, on the contrary, purely herbal, that they have won the praise of medical men, trained nurses and scientists all the world over. Bileans differ from pretty nearly every other liver medicine in containing no mercury, and from pretty nearly every other stomach medicine in being free from bismuth. They are also free from alcohol. They are compocnded from the finest known medicinal herbs and roots, and are thus the best family medicine that can be obtained. They operate gently on the bowels, curing constipation and piles. They correct acidity of the stomach, stimulate the digestion, tone up the liver, and correct the secretions of bile. Their general action is at the same time corrective and tonic—correcting faulty secretion, toning up weak and debilitated organs. They thus cure anemia, green sickness, female ailments and irregularities, blood impurities, rheumatism, etc. For nausea, headache, gas, pain in the chest and between the shoulders they are also very effective. Their operation is mild, yet effective. In curing constipation they do not cause after-constipation, nor do they ever cause griping. Mothers will find them beneficial in the many little ailments to which children are subject. All druggists sell Bileans at fifty cents a box, or they may be obtained post free from the Bilean Co., Toronto, on receipt of price. For $2 50 a parcel of six boxes will be mailed. This is the most economical form for family use.

PAY ORE COLUMN

The Dominion Copper company has discontinued operations on the group of claims near Danville, Wash., upon which they recently took a bond.

The Montreal Star suggests that the company who recently secured the privilege of pumping out Cobalt lake had better extend their operations and pump the water out of the mining stocks of companies operating there.

Development work on the cinnabar deposit on the Kuskokwin river, Alaska, has revealed the richest lead of that ore ever known, running from 9 to 80 per cent quicksilver. Recent mineral strikes there indicate that it is a country of remarkable resources, and it is likely a heavy rush of prospectors will be made to that country in the spring.

Manager Drummond reports that the Dominion Copper Co. are still operating one furnace at Boundary Falls, and that by the end of the week both furnaces will be in operation, so that the fuel question will not, after all, seriously affect the Boundary.

The well known Sally mine, at Beaverdell, is shipping another car of high grade ore. Frank Bubar, of Midway, having the contract for hauling the ore to the Midway station. Some time ago, in drifting on the lead, a break was encountered. Crosscutting for the ore was immediately begun, and last week the work was crowned with success, the lead being located, bigger and stronger than at any previous time in the history of the mine. Work of extracting the ore is progressing rapidly in order to ship as much as possible while the sleighing is good.

Large deposits of tin ore are being located in southwestern Mexico.

The report submitted by Foreman Henderson of the Wallace Mountain Co 's group, is of the most encouraging nature. In sinking to the 100 foot level, a break in the lead was encountered. Sinking was continued, however, to the level aimed at, and a cross cut run in a southerly direction to tap the lead. This was accomplished by eight feet of work, showing the breaks in that property to be of an insignificant nature. Drifting on the vein has continued steadily and now at a distance of 20 feet from the bottom of the shaft, 2½ feet of solid ore is exposed in the face of the drift. Forty tons of ore are in the sheds awaiting the ore haulers. The local owners of this property are naturally jubilant over the condition of affairs as revealed by the report, and efforts will be made to continue the vigorous development policy now being carried sn.

J. W. Nelson, one of the local owners of the Rambler mine, reports that the ore at present being extracted is the richest yet encountered on the claim. A car for use in the mine is being shipped by him to Beaverdell this week.

Southern Pacific railway officials are having elaborate tests made of smelter slag as to its merits as a material for making concrete for heavy railway work.

WEDDING BELLS

Charles Oliver, the well known Greenwood contractor, and Miss Beatrice Kemp, of Sydney, N. S. W., were quiety married on Saturday evening at the residence of Mr. Wm. Rowe, superintendent of the Skylark mine, by the Rev. M. D. McKee, only a few intimate friends being present at the ceremy.

After a sumptuous wedding repast the newly wedded couple repaired to their future home on Long Lake street followed by the best wishes of all who know them, in which the Times heartily joins.

At Yakima, Wash., when a train load of coal pulled up at the station for orders, a mob of citizens took possession of the entire lot, and in a few hours nothing but a string of empty cars remained. Over 600 tons were carried off, very little of which was paid for.

The Grip.

"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy not one case has ever been reported that has resulted in pneumonia or that has not recovered. For sale by all druggists.
