MYSTERIOUS DEATH

Body of Thomas Lewis Found on the Road.

REMAINS BROUGHT TO THE CITY

Officer McMynn Will Be Here Today, When It Will Be Decided If an Inquest Is Necessary.

Lying in the undertaking department of Gully Bros. & Co. is the body of a man, going under the name of Thomas Lewis. The body was brought to the city last night from a point on the main wagon road between here and Boundary Falls. where the branch road goes to the No. 7 mine. It was first noticed, lying by the side of the road, by the passengers on the east bound Penticton stage, yesterday afternoon. The stage was stopped and two of the travellers got out and staid by the remains, while the rest drove on to their destination. The stage met Dr. Jakes, the corner, driving out to Midway and he was informed of the finding of the body. After examining the remains Dr. Jakes drove on to the Boundary Falls hotel and telephoned to the city for a rig to bring the remains in.

DR. JAKES INTERVIEWED.

Dr. Jakes was called up on the 'phone by the Times last night at Midway, and in reply to an enquiry for particulars said. "In coming home this evening, I met the Penticton stage between Anaconda and Boundary Falls and was told that a man was lying dead on the road and that two of the passengers had dropped off the stage and were with the remains. I found the body near the junction of the No. 7 wagon road and the main road. There appeared to be no signs of violence and I should judge that the man came to his death through exhaustion. He had evidently been drinking. A search of his clothes was made. He had a pocket knife, tobacco, and a note book. In the note book were two names, one was R. Lloyd, the other I forget now. He also had a bundle with some clothes. I notified McMynn and he will be in Greenwood to-morrow. I cannot say if it will be necessary to hold an inquest."

THE REMAINS INSPECTED.

On the arrival of the body in town, accompanied by Constable McKenzie a Times man saw the remains at Gully Bros. & Co. The moment the constable saw the body he recognized the man as one having recently been discharged from the jail after having served a sentence of 30 days for petty larceny. The man was dressed in a brown canvas coat, woolen shirt and blue overalls. There were marks on his face that might have resulted from a fall, but the police are inclined to the belief that they were not produced that way. Over the left eye it is considerably bruised and cut. Over the right eye there is a slight cut, and on the left side of his nose the skin was broken as though from a heavy blow. The top of the head, which is bald, showed a depression of the skin, but the skull was not fractured. Another thing was the position of his left arm and the fact that his fist was tightly closed. It was these small details that lead the police to think that there might possibly have been foul means used that brought Thomas Lewis to his death. The deceased was a man past 40, of robust frame, and his hands showed signs of hard manual labor in past days. Upon the arrival of Provincial Officer McMynn this morning it will be decided if an inquest be held or not.

WAS IN THE N. W. M. P.

From Constable Lawder a little of the man's past was learned. The constable had been of assistance to him last week in helping him to get odd jobs around town He told the constable that he had been a member of the Northwest Mounted Police and had been stationed, in 1892, at Maple creek under Superintendent Steele. Nothing is known what occcupation he followed after he left the force. He had been employed the past year on railroad construction, and probably drifted into town when the line arrived here. On December 9th he was arrested here and sentenced to serve 30 days in the jail for stealing a cross-cut saw. His term expired last Monday week. Constable Lawder found him employment as a porter in Tom Walsh's place. He worked for a day or two, and did odd jobs for Mrs. Harry King. He also worked around the city hall. Some time the end of last week he left town, saying that he had been offered a position at Camp McKinney, and started out to walk there. Who he has been with, or what he has been doing since he left town, could not be learned. It is probable that he had been dead some hours before his body was found. Thomas Lewis, or Ellis, as he was sometimes called, was born in England. His death is shadowed in mystery.

Dr. Jakes considered it unnecessary to hold an inquest.

CITY OF DEADWOOD

The Boundary Creek District's Latest Townsite.

WILL HAVE A LARGE PAY ROLL

The Mines that Surround It—Buildings that Are Going Up—Its Ideal Location With Lots of Water.

The prominence that Deadwood camp has recently attained, through the development of its numerous properties, is responsible for the laying out of a townsite to be called the City of Deadwood. The townsite is located on the northern portion of Scott McRae's ranch and 80 acres has been surveyed and streets laid out. The townsite is within three miles of town, traversed by the Deadwood spur of the Columbia & Western railway. It is an admirable location, on a series of gently sloping benches, covered with a light growth of timber and with abundance of clear spring water. But a beautiful location is not the only requisite for a prosperous town. Deadwood City is surrounded in every direction with developed mines and promising prospects. It is assured a pay roll that within a short time will nearly equal Phoenix.

SURROUNDING MINES.

Immediately adjoining the townsite are the Ah There and Greyhound properties, both being developed. Nearby is the Sunset mine that is now installing machinery and will shortly have a pay roll of 40 or 50 men. Its next door neighbor, the famous Mother Lode, is ready to ship ore, and has made one shipment of 100 tons to the smelter, and the force is to be increased from 35 at present to 150 employees within the next 30 days. Surrounding this mine are the St. Lawrence, St. Dunstan, Butcher Boy, and Silver Crown claims, which have forces of from two to five men. In the south end of the camp is the Buckhorn mine that has just recently installed a big machinery plant, and which will have a force of at least 25 men. Adjoining this property is the Arlington-Burns property, yet in its primary stage of development. A. E. Bielenberg, the owner, is at present in New York arranging for the formation of a company to acquire the group. Shortly it will be seen that there is something to back a townsite proposition, and this something is a pay roll.

BUILDING OPERATIONS.

Yesterday a Times representative visited Deadwood city. The sound of the hammer was going merrily, for building has already commenced. T. Kaake, an enterprising hotel man from Phoenix, has finished his hotel and is doing business. The Yale-Columbia Lumber company has a saw-mill busy at work turning out lumber. The company has a dozen men at work on the townsite cutting timber, hauling and putting it through the mill. Foley Bros. and Walker & Posty, two Phoenix mercantile firms, are opening branches. H. Forbis of Nelson has secured lots and will build a hotel. J. P. Harlem is opening an assay office, and there are others whom the Times man was unable to obtain the names of who propose going into business in this, the latest townsite of the Boundary Creek dis ict eadwood city.

NEW LICENSE COMMISSIONER,

Official Gazette Contains List of New Appointments.

VICTORIA, Jan. 18.—The Official Gazette of this week contains the list of license commissioners newly appointed, including the following: Richmond license district, N. C. Schou, of Vancouver, and J. Morton Drummond, of Moodyville; Chilliwack, Joseph Ogle, of Sardis, and John Denholm, of Chilliwack; Nicola, D. G. Armitage, of Coutlie P. O., and F. P. Cook, of Granite Creek; West Yale, William Teague, of Yale, and W. H. Flood, of Hope; Ashcroft, Alex. Lochore, of Foster's Bar, and I. Sehman, of Ashcroft; North Yale, J. L. Lauder, of Nicola, and R. H. Lee, of Kamloops; Southeast Yale, L. W. Shatford, of Fairview, and Ainsley Megraw, of Camp KcKinney; Northeast Yale, Fred Billings, of Vernon, and Isaac Heard, of Lansdowne; Boundary Creek, J. C. McNicol, of Midway, and T. W. Coleman, of Trail; Revelstoke, Thos. J. Graham and William M. Lawrence, of Revelstoke; Ainsworth, Neil F. McKay and Edmund F. Stephenson, of Kaslo; Slocan, Thos. Brown, of Sandon, and Roderick O. Matheson, of Silverton; Southeast Kootenay, Andrew B. Grace, of Fort Steele, and Robt. E. Beattie, of Cranbrook; Northeast Kootenay, Chas. H. Parson and Chas. A. Warren, of Golden; West Lilloet, Wm. Boyd and R. T. Graham, of Clinton; Nelson, E. C. Arthur and Peter C. Wilson, of Nelson.

DUNCAN ROSS.....EDITOR.

SATURDAY, JANUARY 20, 1900.

BOUNDARY REPRESENTATION

As the government has expressed its intention through the speech from the throne of amending the constitution act in order that representation may be granted Boundary district, the board of trade and others interested should seriously consider the question at an early date. The district will be a large one and it is important that it should be formed in such a manner that important mining section should be thrown into one district. A constituency including Camp McKinney on the west and Cascade on the east would include some of the most important mining camps in the province. It would have a voting population of over 1000. All portions could be conveniently reached by a representative. This district would draw from the constituencies of Rossland and East Yale, both of which are under represented today. We strongly recommend that if the government succeeds in passing the legislation outlined, the Boundary district should include the territory suggested.

We must take exception to Hon. Jos. Martin's remarking in the house in reference to the granting of representation to Boundary district. He objected to the measure on the ground that a general redistribution bill should be introduced and the object of the government was to make itself safe by subdividing a constituency that gave a large majority to a government supporter. The necessity for a general redistribution will scarcely be questioned, but Mr. Martin knows full well that a gross injustice was done Boundary district by the last redistribution act. Mr. Martin cannot help his cause by placing obstacles in the way when an effort is being made to remove this injustice.

GREENWOOD'S GROWTH.

A good indication of Greenwood's remarkable growth is to be found in the many substantial buildings which are being erected in the city. Usually at this season of the year the building trade is dull, but here in Greenwood the demand for new premises overcame the barriers which the winter months place in the way of active building operations. A visitor walking down Copper street and seeing under course of erection such handsome blocks as Thomas Walsh's, Louis Bosshart's, the new Windsor, the Times block and others, cannot but be convinced that the metropolis of Boundary is Greenwood, and that it is rapidly forging ahead of all towns in the district. Commercial travellers have exceptional opportunities of making business comparisons. The consensus of opinion among them is that Greenwood today is the liveliest, most enterprising and most progressive city in the province.

SENSIBLE SPOKESMAN.

THOSE living on this side of the line who are anxiously watching the trend of the strife in South Africa, cannot but appreciate the broadmindedness of the editor of the Spokesman Review which prompts him to put forth views that do justice to the British cause. Unlike the yellow journals the Review is not seeking popularity by twisting the lion's tail. If comments on the war bear the earmarks of warm sympathy towards Britain and an accurate knowledge of the situation. The better classes in the states endorse the British position and the Review is only expressing their sentiments when it says:

So far, England has been more humiliated than hurt by her South African reverses. All told, her losses from battle, sickness and capture will fall short of 8000. The Union army lost nearly three times that number in the single battle of Gettysburg. In the civil war 12 battles were fought in each of which the Union losses exceeded 11,000 men. In one day's fighting at Antietam the Union army lost 12,410 men, or 50 per cent more than the British have lost from all sources in the entire campaign in South Africa. Compared with Gettysburg, Spottsylvania, the Wilderness. Antietam, Chancellorsville, Chickamauge, Gold Harbor, Fredericksburg, Manassas, Shiloh, Stone River or Petersburg, the losses of Methuem at Modder river and Magersfontein, and of Buller on the Tugela river, were skirmishes Methuen lost 438 men at the battle of Modder river, about one-thirtieth the number that Grant; the greatest soldier of the civil war, lost at Shiloh. No wonder the war office in London began to question Methuen's sanity when he gravely reported the Modder river action as "the bloodiest battle of the century."

No one who understands the depth of the warlike feeling among the English people can believe for a minute that they will be checked by these preliminary losses.

ASSOCIATED PRESS SERVICE.

The associated press service furnished Canadian newspapers has for years been unsatisfactory. Time does not alter it in this respect. It is as unsatisfactory now as it was five years ago and five years ago it was sufficiently bad to call forth the anathemas of all newspaper men. The service furnished Canadian papers is not an exclusive Canadian service but is borrowed from that sent to the different newspapers in the States. The news relative to English politics or Britain's foreign relations is usually tainted by American bias.

Apparently some operator away back east takes off a chunk from the full service and sends it British Columbiaward. Here is a specimen of what the poor telegraph editor is supposed to make into intelligent news:

(Follow Rutherford Harris dispatch.) London, Jan. 15—[Later.]—Mr. Harris denied having received the telegram referring to the alleged repulse of General Buller.

It may be ignorance, but we are free to confess that we are not acquainted with Rutherford Harris nor his dispatch; that we don't know what is to be followed, and that we are very glad that this man Harris did not receive a telegram referring to the alleged repulse of General Buller.

Nearly every night the tail end of some interesting story is all that is received and the newspaper man and the readers are left to guess what it is all about.

INDECENT JOURNALISM.

The Times is always prepared to defend newspapers against those who believe that the criticism of public acts should be limited to what is in consonance with their own peculiar views. The public acts of public men are very properly subjects of criticism, and so long as nothing is said beyond the bounds of decency every newspaper is entitled to its opinions, no matter how strongly they may be expressed.

Vulgar personal references to individuals is a different matter. Last session the Kamloops Standard received letters from Victoria that were a disgrace to journalism. These letters were unnoticed, although they were good grounds for contempt proceedings. This session similar letters are being published in the Standard. In all probability steps will be taken to put a stop to what cannot but lower the tone of the provincial press. In the letter to which the Hon. Mr. Martin took exception in the house, the lieutenant-governor is referred to as "a thing in gold lace," "a bewhiskered monstrosity" and "an obese and shining power." Joseph Martin was described as a "political Ishmael and prairie outcast." Mr. Martin, according to a dispatch to the Nelson Tribune, vigorously denounced the insults to the lieutenant-governor and called upon the house to take some steps to mark its disapproval.

Premier Semlin promised that steps would be taken to have the persons responsible brought before the bar of the house. The house has the power and should use it to protect the Queen's representative and the members from the insults of irresponsible scribblers.

MR. MARTIN'S OBJECTION.

HON. JOS. MARTIN'S objection to representation to Boundary is voiced in the following paragraph from a report of a recent speech deliveerd by him in the house:

The proposed new representative for Boundary was condemned by Mr. Martin unhesitatingly on the ground that if such things be allowed it would be impossible to defeat any government. All they would have to do would be to cut up a "hive" and award a safe constituency to one, two or members to secure a majority. And if the excuse for this was that population had increased so much in the Boundary district that it was entitled to another member, then Vancouver city should be entitled to two more on the same ground.

We think the reasons advanced in the speech from the throne for granting a representative has given Mr. Martin an opportunity to offer the above criticism. There is an excuse beyond the rapid increase of population for granting representation to this district. A gross injustice was done Boundary district by the last redistribution bill and its clearly the duty of the legislature to remove this injustice. Had Boundary been treated airly at the last redistribution, Mr. Martin's argument would have some weight. The increase of population grants Boundary no rights over Vancouver or other portions of the province, but Vancouver was granted representation by the last redistribution act, Boundary was practically disfranchised.

STRATHCONA'S OFFER.

LORD STRATHCONA'S offer to the imperial government is a remarkable indication of the patriotism of Canadians. Sir Donald Smith, as Lord Strathcona is more familarly known is a typical Canadian. At an early age he became associated with the Hudson's Bay company and through his exceptional business ability he made a vast fortune in this country. He is now Canada's representative in London and he comes forward with an offer to personally arm, equip and convey to South Africa 400 mounted men. The cost of the undertaking will be upwards of $1,000,000. The men will be taken from the Northwest and British Columbia and all will be expert marksmen, rough riders and scouts. The offer has been accepted by the war department. Lord Strathcona is a wealthy man and can easily afford the expenditure of this large amount of money. His offer nevertheless is an extraordinary one. British history can give no precedent for such enterprise or patriotism on the part of any representative of the great colonies that honor the British flag. The greatness of the British empire cannot be diminished so long as men like Lord Strathcona are ready to spend fortunes in equipping picked men to fight her battles.

EDITORIAL NOTES.

GREENWOOD has a morning paper in the Times that it should be proud of. t is well edited and well printed. Duncan Ross is the manager.—Nelson Tribune.

THE TIMES carrier would become an ardent supporter of the municipal council if that august body would get the streets named and the houses numbered.

THERE are still some people in the city who cannot or will not believe that a daily paper published in Greenwood has exactly the same press service as that received by outside papers. The Times publishes the full Associated Press service. A comparison with the Rossland Miner, Nelson Tribune, or any of the provincial dailies, ought to convince the most skeptical.

THE MILL IS SEIZED

Camp McKinney Mines, Limited, in Trouble.

FIVE WRITS HAVE BEEN ISSUED

Deputy Sheriff Elkins Seizes the Banner and Granite Claims—Also a Stamp Mill.

CAMP MCKINNEY, Jan. 13—[Special Correspondence to The Times.]—The affairs of the Camp McKinney Mines, Limited, are in pretty bad condition. On Friday Deputy Sheriff Elkins arrived here from Greenwood and made a seizure of the two claims, the Banner and Granite, owned by the company, the five stamp mill, 15 horse power engine and other property of the company. Sam H. Hughes, the superintendent, is at present in Montreal and has been telegraphed regarding the seizure. Henry Nicholson was appointed by the deputy sheriff to take charge of the property, pending an adjustment of the difficulties by the company or a sale of the property.

FIVE ACTIONS STARTED.

Five suits have been entered against the company. In two of these the Canadian Bank of Commerce and J. P. Flood are figured as plaintiffs. Besides the actions taken to recover there will probably be instituted other cases here, as the company is indebted to more than one party, including the local merchants. Even the Chinese have been let in, one Chinaman, being owed a considerable sum for which worthless cheques were given in payment.

GOVERNMENT TAKES A HAND

This is not all the trouble, as the government officials at Ottawa have taken a hand in the game and ordered their local representative to take possession of a mill, pending the payment of the sum due to the government. It is not exactly known what this sum amounts to, or for what it is due The matter is in the hands of the customs department at Ottawa. The amount is said to be $500. It is hard to say just how much the company is owing. At the time the mill started to turn out a small gold brick, every now and then, the public were duly informed and by the time the item would go the round of the press, the sum the mill was producing became greatly enlarged. On the outside little was known of the company's affairs, but here, it has been known for some time that things were not exactly alright.

WAS TO RE-ORGANIZED

Mr. Hays left for the east some weeks ago, and it was then stated that there would be a re-organization of the affairs of the company. No company received such a lot of "free boosting" as did the Camp McKinney Mines, Ltd. It was done chiefly to sell stock. The company started operations a year ago next month, and it appears that this brief period has been amply sufficient to result in a great deal of mismanagement and to place the property in such a state of indebtedness. The claims owned by the company are promising, the work done was by shaft sunk on a strong six foot vein of quarz. The sale of the mill and property is set for the 27th.

STORY CORROBORATED.

Deputy Sheriff Elkins was seen yesterday by a Times man and corroborated the above report, sent by the correspondent. He said he went to McKinney last Thursday with instructions to seize the claims and mill. When he arrived he learnt that R. G. Sibley, the customs officer, had been instructed by the Ottawa authorities to seize the mill. He did not know for what indebtedness. On his arrival at the mill he found no notices of seizure and therefor took possession of same and the ground under five writs. He does not know what action the government will take to secure its claim. The Banner and Granite claims were about to be crown granted, and Mr. Elkins was advised by wire from Victoria, but a deed had not yet been issued.

CHESAW NEWS.

The Place Is Building Up—Recent Greenwood Investors.

CHESAW, Wash., Jan. 14—[Special Correspondence to The Times.]—J. Schroder, manager of the Chesaw townsite, came in on the stage this evening from Greenwood, where he spent a week in the interest of Chesaw. Mr. Schroder reports having had a right royal time in the city.

Linn & Company are getting the lumber on the ground for their large hotel building, and expect to have it finished in two months.

Joseph Cook of Greenwood, has secured a lot on Myers avenue and will immediately erect a building to be used for a news stand and cigar store. Work will be commenced on the building tomorrow.

A. B. Campbell of Greenwood, is going to open up a hardware store, which will be located at the corner of Myers avenue and Court street. The building will be rushed so as to be ready for the stock of hardware which Mr. Campbell has gone east to buy.

The resident building of W. H. Wisgerber is nearing completion and he expects to move into it in a couple of weeks.

Chesaw is starting on the new year livelier than ever and with bright prospects. It might not be out of the way to predict that by the end of the year 1900 Chesaw will be a bustling little city with at least one railroad, electric lights, water works, telephones and other things that make life delightful and worth the living.

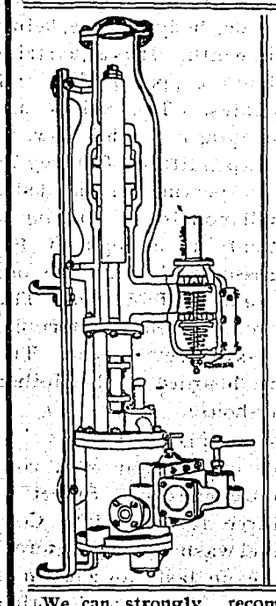
VERTICAL SINKING PUMPS



For Mine Duties

We can strongly recommend this Pump to those requiring its special type. The extreme convenience of the outside packed form enables it to be readily packed and taken up. The absence of the projecting valve gear etc. is a feature in avoiding breakages during hoisting and lowering in the confined space where these pumps are used. It is fitted with convenient suspending hooks and the piping arrangement takes up the least possible space. Mining superintendents and those interested in Mining Machinery would consult their interests by sending for catalogue and quotations before installing their plants. We manufacture Pumping Machinery for every conceivable duty.

T. Bedard of the Hotel License now held by them for the St. Charles Hotel, situated on Copper street in this city.

BERGER & BEDARD,

Greenwood, B. C. Dec. 15th, 1899.

A SPOKANE COMPANY

Developing the Butcher Boy in Deadwood Camp.

WILL SINK ONE HUNDRED FEET

To Re-Organize the Morrison—B. C. in Summit Camp to Ship—The Records—Metal Quotations.

Spokane capital is behind the Butcher Boy Gold and Copper Mining company, owning the Butcher Boy in Deadwood camp. The company held its annual meeting in this city on Wednesday and elected a board of directors, as mentioned in yesterday's Times. General Manager John Mack was out to the property yesterday in company with Vice-President J. E. Tormey, and on their return the following information was obtained about the claim:

A LARGE ORE BODY.

The Butcher Boy is located in the north end of Deadwood camp, northwest of the Mother Lode, and adjoining the Primrose and St. Lawrence claims. It was located on August 28, 1896, and the present company was formed last October. The claim has been surveyed and an application for a crown grant will shortly be made. It is a full claim of 52 acres in extent. The surface showing of the ore body is large, being over 250 feet in width. It is a quartzite and the ore shows copper pyrites and copper carbonates. The values are sufficiently encouraging, while low, to warrant the expenditure of money in a thorough prospecting of the lode. This work will consist of sinking a prospecting shaft to a depth of 100 feet, with crosscuts through the ore body at the 50 and 100 foot levels. The company has constructed a comfortable bunk-house, 14x16 feet in size. The employees are boarded at the Mother Lode boarding-house.

THE DEVELOPMENT.

The surface exploration work consists of two trenches 40 to 50 feet in length and three feet in width. Considerable gravel wash was encountered, lying over the ore body for a depth of about three feet. There are also other surface open cuts exposing the ledge in several places. Midway between the two long trenches the shaft, 4x6 feet in the clear, is now being sunk. Yesterday it had reached a depth of 45 feet, all timbered. If the character of the ore improves as depth is attained the company will install a power plant and compressor. It is the intention of the management to thoroughly prospect the ore body. A night and day shift under Superintendent H. W. Warrington will be kept constantly at work until this is accomplished. The company is said to be amply supplied with funds, has an efficient board of directors and a good management.

The annual meeting of the Butcher Boy Gold and Copper Mining company of Spokane was held in this city yesterday. Attending the meeting, besides numerous local shareholders, were John Mack and J. E. Tormey of Spokane. The officers elected for the coming year who will attend to the interests of the company, were: President, George Pahl, Spokane; vice-president, J. E. Tormey, Spokane; secretary, D. M. McLeod, Spokane; treasurer, Frank Shoenwald, Spokane, and resident director, Louis Blue, Rossland. John Mack was appointed manager and H. W. Warrington mine superintendent. A full report of the company's property in Deadwood camp; the work accomplished and future plans will appear in tomorrow's mining department of The Times.

The First Shipment.

Superintendent Richard H. Hutchens of the Mother Lode mine, has returned to the city from Trail. He went down to the smelter town with the recent shipment of 100 tons of ore from the mine. Yesterday he said: "The ore was put through on Sunday. It will be some time before we hear the returns, as the same will go to the New York office first, where Mr. Keffer is at present.

His Wife Saved Him.

My wife's good advice saved my life, writes F. M. Boss of Winfield, Tenn., for I had such a bad cough I could hardly breathe, I steadily grew worse under doctor's treatment, but my wife urged me to use Dr. King's New Discovery for consumption, which completely cured me. Coughs' colds, la grippe, bronchitis, pneumonia, asthma, hay fever, and all maladies of chest, throat and lungs are positively cured by this marvellous medicine. Fifty cents and $1. Every bottle guaranteed. Trial bottles free at Miller Bros. drug store

CONCENTRATED MINING NEWS.

It is said that Jay P. Graves has taken up the $10,000 bond on the Alena in Central camp.

The B. C. mine, in Summit camp, has made its first shipment to the Trail smelter. This mine is now prepared to send out four carloads every alternate day.

Drifting on the 250-foot level in the B. C. mine has been started, and the winze is being continued from the 50 to the 150-foot level. Over 30 men are employed.

Secretary K. K. Peiser is sending out notices advising that the pool on the preference shares in the Okanogan Free Gold Mines, Limited, has expired and for holders of pooling receipts to send the same to him to be changed into certificates.

A night shift was placed at work yesterday evening on the Ah There in Deadwood camp. A company to be known as the McRae Copper Mines, limited, to acquire the Ah There and Sydney Johnson claims, is in process of organization.

Yesterday the first carload of ore from the Winnipeg mine was loaded at Hartford junction, and will be sent to the Trail smelter tomorrow. There are three more carloads ready for immediate shipment that will go to the smelter this week.

Work has resumed on the Ah There in Deadwood camp. There is now sufficent lumber on the ground to timber the shaft to the 50-foot level. The shaft is to be continued on down an additional 100 feet. At the 50-foot level, the crosscut into the ore body was run 55 feet.

Attention is called to the advertisement of the Zala Consolidated company of Rossland in to-day's Times calling for tenders for hauting two to three hundred tons of ore from the Zala mine to the C. P. R. depot here. The Zala mine is in Sheriden camp and has now reached a producing stage.

John Sarginson, a spokane mining operator yesterday obtained an option on the St. Dunstan claim in Deadwood camp. Mr. Sarginson has been spending a few days in this section taking in the mines in Greenwood and Deadwood camps. He was particularly impressed with the big ore bodies in the latter camp and the result of his visit has been his taking back with him to Spokane an option on the claim mentioned. He is said to represent some ready money for mining investment and will probably be seen in Greenwood again within a short time.

Work is to be immediately resumed on the properties of the Camp McKinney Gold Mining and Milling company. The company was formed in this city nearly four months ago and considerable local money went into the venture. When seen yesterday, Secretary James N. Paton said that the company's treasury had been recouped and work would from now on be continuous. The company own a group of five claims in Camp McKinney, all surveyed. It is a promising piece of ground, traversed by more than one ledge, with good surface values. The past development has been mainly

The reorganization of the Morrison Mining company will be completed on Monday. It is to be a provincial company with head offices at Spokane and a local office here. The capitalization has been raised from $1,000,000 to $1,500,000. The additional half a million shares will be placed in the treasury. The stock of the company is made assessable. What the amount will be, or how often the shareholders will be assessed has not yet been decided. Practically the officers of the old organization will be at the head of the new. The company owns the well known Morrison mine in Deadwood camp.

Within a month the force at the Mother Lode mine, The Times is reliably informed will be increased to 150 men. At the present time it is about 35. The main shaft is down 325 feet and at the 300-foot level a station is being cut out. They are also making preparations to install the cage, which is daily expected to arrive. It will be 4½x5 feet in size. The connection from the old workings down to the 200 foot level has been completed. Besides proving the ore body, this connection has made it possible to ventilate the mine for 600 feet on the lower level. Mr. Keffer, the mine manager, is in New York. It is understood that while east he will place orders for the proposed additional machinery plant. It is said that it will include a 30-drill air compressor, three 100 h. p. boilers for the same, an engine with a hoisting capacity of 500 tons daily and two 200 h. p. boilers. By May it is expected to have 40-drills working in the mine.

NOTICE OF PRIVATE BILL.

Notice is hereby given that an application will be made to the Legislative Assembly of the Province of British Columbia at its next session for an Act to incorporate a company with power to construct, equip, maintain and operate Telephone and Telegraph lines within and throughout the Province of British Columbia and to construct, erect and maintain such and so many poles and other works and devices as the Company deem necessary for making, completing, supporting, using, working, operating and maintaining the system of communication by telephone and telegraph and to open or break up any part or parts of the said highways or streets as often as the said Company, its agents, officers or workmen think proper and for the purpose of the undertaking, to purchase acquire or lease and hold and sell and dispose of lands, buildings or tenements within the limits aforesaid and to purchase or lease for any term of years any telephone or telegraph line established to be established in British Columbia, connected or to be connected with the line which the Company may construct and to amalgamate with or lease its line or lines or any portion or portions thereof to any company possessing as proprietor, any line of telephone or telegraph communication connecting or to be connected with the said company's line or lines, and to borrow money for the purposes of the Company and to pledge or mortgage any of the Company's assets for that purpose and to receive bonuses or privileges for any person or body corporate and with all other usual, necessary or incidental rights, powers or privileges as may be necessary or incidental to the attainment of the above objects or any of them.

Dated this 15th day of December, 899

J. R. BROWN,
16-22 Solicitor for the Applicant.

Certificate of the Registration of an Extra-Provincial Company.

"COMPANIES ACT, 1897."

"The No. 7 Mining Company, Limited."

Registered the 12th day of December, 1899.

I HEREBY CERTIFY that I have this day registered "The No. 7 Mining Company, Limited," as an Extra-Provincial Company under the "Companies' Act, 1897," to carry out or effect all or any of the objects hereinafter set forth to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in the City of New York, State of New York, U. S. A.

The amount of the capital of the Company is $1,000,000, divided into 200,000 shares of $5.00 each.

The head office of the Company in this Province is situate at Anaconda, and Frederic Keffer, mining engineer, whose address is Anaconda aforesaid, is the attorney for the Company.

The objects for which the Company has been established are:—

Acquiring, by purchase, lease or otherwise, mineral lands or mineral rights, including gold, silver, copper and other minerals (except coal), and any and every other form and kind of mineral lands, and lands, estates and properties of any tenure whatsoever, in either or all of the States and Territories of the United States of America, the Dominion of Canada, the Province of British Columbia, or any or either one of the Provinces of British North America; and to hold, improve, develop, convey, lease, sell, dispose of, or mortgage all the same, or any part or parts whatsoever; to purchase, or otherwise acquire, to sell, dispose of, and deal in and with mines, mining properties, mining claims, mining rights, mills, smelters, plants and machinery or works for the treatment of ores and minerals, and all grants and undertakings connected therewith; and to buy, treat and sell ores and minerals of any kind or description: to acquire the holdings or lien of any corporation or individual owning or holding mining or other property necessary for the objects and business of the Company; to discover, lay out and locate, take on lease or bond, or otherwise acquire and develop, manage, improve and operate mines, mining claims, tunnels, mill sites, furnace sites, water rights, mills, plants, machinery or works, and such any and other estates and interests as are necessary and expedient for the interests of the Company; to join with, or consolidate with, any person, firm or corporation for the purpose of prospecting, locating, laying out, developing, improving and operating any mine, mining property; to acquire by purchase or otherwise, wise, build, construct, equip, maintain, work, manage, carry out or control the necessary railway and railroad facilities, branches, sidings and bridges, reservoirs, watercourses, manufactories, sawmills, artificial and natural lighting and power plants, warehouses, shops, stores, and other works, plants and conveniences that are necessary and that seem calculated to inure to the benefit of and advance the interests of the Company, and to sell, lease or otherwise dispose of all or any part or interests that may be so acquired by the Company, as above set forth or relating thereto; and generally to engage in any and all lawful business of the Company, and for the purposes appertaining thereto, and any or every act or acts, thing or things incident to, growing out of, or connected with said business, or any part or parts thereof; so far as authorized or permitted by law, to purchase and sell shares of the capital stock and mortgage bonds and other evidence of indebtedness of other corporations, and to purchase and sell the bonds, deeds and notes and other evidences of indebtedness of individuals and firms, and to negotiate for and borrow all money necessary for the conduct of the business of the Company by bond and other evidences of indebtedness therefore, as may be necessary for the proper conduct and operation of the business of the Company; to cause the Company to be registered as an Extra-Provincial Company in the Province of British Columbia; to acquire a domicile and conduct any or all of its business in the Dominion of Canada, the Province of British Columbia, or any or either one of the other Provinces of British North America.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 12th day of December, one thousand eight hundred and ninety-nine.

[L. S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.
