ESTIMATES GIVEN FOR TIN ROOFING.

AMONG THE MINES

The Blue Bell in Summit Camp is in Rich Ore at the

30-FOOT LEVEL — OTHER

Properties that Are Looking Well and Will Soon Be Producers. Mining Notes

John Dorsey, who promoted the Lake Shore and B. C. Copper Mining and Development company, was down from Summit camp the end of last week, with samples of chalcopyrite taken from the bottom of the Blue Bell shaft, at a depth of 30 feet. The specimens exhibited to local mining operators attracted much attention, so much so that before Dorsey returned to the property he had received a substantial sized cheque for a block of 50,000 shares in the company. The purchaser was Pat Welch, the Spokane railroad contractor. Mr. Dorsey stated that the money was on hand to take up the second payment of the $67,000 bond on the Blue Bell and J. S. claims. A party representing the Chicago shareholders is shortly expected in camp.

A. B. Clabon, a Rossland mining operator, after spending several days in the district returned to the Golden City on Monday's train. After a brief visit to the Lardo Mr. Claborn goes to Quebec to consult with the eastern directors of the Quebec-Bouddary Mining company, of which he is managing director. At this meeting plans will be made for the further development of the Strawberry mine, in Brown's camp, including the installation of a machinery plant.

The Chicago-British Columbia Mining company is a recent Illinois incorporation that will operate in the Boundary. The undertaking has an eight-month's bond on the Lake claim and Yellowstone group in Skylark camp. The first payment has been received by the Spokane owners. R. McCullough has a force of men at work on the Yellowstone group, consisting of four claims. Harry Shallenberger, his partner, is at present in Spokane.

In addition to the three-drill compressor plant purchased for the No. 7 mine, Central camp, the management has ordered from the James Cooper Manufacturing company, through its local agent, Mr. Kirkpatrick, a double cylinder, 8x10, hoisting engine, rated at 30-horse power, a 10-horse power boiler, wire cable, skips, ore cars and all necessary sundries for such an outfit.

Tuesday, Messrs. Cunningham & Andersen closed a contract with the smelting department of the British Columbia Copper company for the complete installation of the smelter electrical machinery plant. Work is now in progress. This firm is also in receipt of the electrical plant for the Standard Pyritic smelter which they are about to install.

At the B. C. mine, Summit camp, the main shaft is now down past the 400-foot level and is being continued. The pay roll averages 105 employees, and this will doubtless be increased when new levels are opened up.

At the Knob Hill, Phoenix camp, the double tracking of the tunnel has been completed for a distance of 450 feet. The tunnel is to be continued on through the Grey Eagle ground so as to develop that property.

Sufficient work has been performed on the Little Bertha, Little Burne fraction, Little Burne, Brandon, and Brandon fraction in Phoenix camp, to allow the owners to obtain a crown grant.

Today is pay-day for the employees at the Knob Hill-Old Ironsides-Victoria group of mines and the Dominion Copper company's properties, Phoenix camp.

Work on the properties of the Dominion Copper company, Phoenix camp, is progressing satisfactorily. Sixty-five men are at present employed.

OFFICERS INSTALLED.

Last Tuesday night the officers of Boundary Valley Lodge, I. O. O. F., were installed by D. D. G. M., W. M. Law, assisted by a staff of past grands from Grand Forks, Greenwood and outside lodges. There was a very large attendance of members and visitors, the following being over from Grand Forks:

A. L. Clements, Fred Clarke, T. E. Cooper, Jeffrey Hummer, D. Munroe, J. A. McCallum, George Chapple, A. E. Savage, Alex Dinsmore, Dr. C. M. Kingston; Dan McLaren, Carson.

The officers installed were as follows: P. G., Jas. Kerr; N. G., G. B. Taylor; V. G., D. A. MacKenzie; R. Sec., Fred B. Holmes; Permanent Sec., Duncan Ross; Treas., W. M. Law; conductor, H. B. Munroe; warden, Wellington Elson; O. G., Ralph Smailes; I. G., J. P. Flood; S. S.; M. Eilderman and John Sauvey; R. S. N. G., Thos. Gulley; L. S. N. G., Neill Lamont.

After installation an adjournment was made to the banquetting hall where an appetizing repast greeted the Oddfellows. The evening was spent in fraternal speeches, songs, etc. The visitors from Gateway lodge left by special train for home on Wednesday morning.

WEST FORK RAILWAY.

In this week's issue appears a notice from local people who intend making application for an act to incorporate a company to build a railway up the West Fork. Their intention is to connect with the C. P. R. at a point near Midway and tap the rich mines of the West Fork district. The immense showings in that section and the amount of development already carried out justifies the application for a charter. It is hoped that there will be no opposition to this project. While wagon roads are important, a railway is of the greatest value in the opening up of a mining district. The project has the distinct advantage of being handicapped by no engineering difficulties and in the event of the charter being granted there is reasonable assurance that the railway will be constructed at an early date.

It is to be hoped that the development of this rich section will not be delayed by lack of railway facilities and every encouragement should be offered those who show a bona fide interest to give the connection so much desired in the interests of the district.

FOR GREENWOOD AND GOOD GOVERNMENT.

For Mayor—DUNCAN ROSS.

For Aldermen, North Ward—A. E. ASHCROFT, W. J. KIRKWOOD, GEO. R. NADEN.

For Aldermen, South Ward—J. J. CAULFIELD, M. KANE.

All in favor of good government and an unstuffed Voters' List are requested to vote for the above.

THE SIMILKAMEEN

A District that is Rapidly Coming to the Front.

THE NICKEL PLATE MINE

Has Over 1,500 Feet of Development Work Done on It—A General Review of the District.

The past year in the Similkameen district has been noticable by the interest taken in its future by large mining operators on the outside. The realization that this section of the province is without doubt, capable with development and the now absolutely necessary means of transportation, of producing both valuable minerals and coal, is gradually dawning upon those who are looking for virgin fields for the investment of capital. The solution of the transportation problem is, from all accounts, near at hand. From Vancouver word comes that the old Vancouver, Victoria and Eastern charter is to be resurrected and that the provincial government will bonus the line to the extent of $4,000 per mile, and the federal authorities will also assist. This line will open up a magnificent stretch of country, both arable and mineral, from the cities of the Pacific to the interior. When the construction of this railway shall be started, the scenes and activity that characterized the building of the Columbia and Western railway will be repeated on a larger scale.

Gold was first discovered on the Similkameen river in 1860 and from authenticated reports still in existence, it is learned that placer miners, by the old method, made from $4 to $20 per day from the bars and beds of the streams worked. On the Similkameen itself the returns were fairly uniform for many miles, but sevejal of the adjacent streams were rich only in spots. The Cariboo excitement drew the pioneer prospectors away from the district which, however, the Chinese continued to work with varying success up to the present time. Now large syndicates and capitalists are paying attention to hydraulicing and dredging the rivers of the upper Similkameen.

Mineral claims were also staked in the early 60's, and it is reported that a shipment of ore was sent to San Francisco via the Hope trail to the coast and thence by sailing vessel to Frisco. The returns of this trial shipment gave 37 per cent copper. Since Granite creek excitement the district has progressed steadily. Only those who have been through the country and know its vast resources can form any appreciable idea of what it is capable of producing in the near future when transportation is available for Copper Mountain, Hedley and other promising camps.

The area of the Similkameen covers over 100 square miles and is divided into two mining divisions, namely the Similkameen mining division, with the recording office at Princeton, and the Osoyoos mining division with the government office at Fairview. The headwaters of the Similkameen river rise in the Cascade range of mountains, south of the international boundary line and flows north for about 50 miles, dividing Copper mountain from Kennedy mountain, twelve miles south of Princeton. The town of Princeton is situated at the forks of the Similkameen and Tulameen rivers and comprises 320 acres which were first pre-empted in the early sixties by J. F. Allison, the pioneer settler of the Similkameen valley. In the spring of 1898 the townsite was acquired by the Vermillion Forks Mining and Development company. Since then the place has grown rapidly. Last year some excitement was caused by the discovery of an excellent grade of coal on the Tulameen river, and experts say that there is sufficient to amply supply the whole district as well as the requirements of the Boundary.

Among the principal mining camps in the upper Similkameen is that of Copper mountain, which is noted for its deposits of bornite copper. The best known property is the Sunset, owned by a company of which R. A. Brown, of Grand Forks, is general manager and a heavy shareholder. Mr. Brown, accompanied by Smith Curtis, ex-minister of mines for the province, was recently in New York arranging a deal whereby sufficient money will be forthcoming to place the property on a shipping basis. The ore body from the surface cropping to the bottom of the shaft, at that time at a depth of 150 feet, is reported to assay 12 per cent copper. The whole mountain has been staked out and during the past year considerable prospecting has been done on the numerous claims. Kennedy mountain, across from Copper mountain, Friday creek and Roch river are other sections that have received the attention of the prospectors with favorable results.

The camps in the Tulameen river district are located on Otter, Boulder, Granite, and Brown's creek and Summit camp, situated near the summit of the Hope range, are the headwaters of the main river. It is in Summit camp where a pass has been found for the Coast-Kootenay railway.

In the central Similkameen district are Camp Hedly, Sterling creek, Pearson's and Riordan's camps beside Fifteen and Sixteen Mile creeks. Similkameen City is the principal supply point for this district, and is situated half way between Keremeos and Princeton, on the main wagon road, traversing the valley of the same name. For many years this townsite was unoccupied, under the belief that it formed a portion of Chuchuwayha Indian reserve, which lies in the center of Camp Hedley. This proved on a survey being made by Frank Bailey to be inaccurate and consequently he purchased the land from the government and crown granted it. It is now laid off in lots and blocks on modern principals and the coming summer should attract a considerable population. The adjacent mining belt is about 80 miles in width, running for over 40 miles in a northeast and southeast direction from Copper mountain to Bullion mountain on the east side of the Keremeos valley. All of the above mentioned camps are distinguished not only by the number of really first class mining properties but by the large extent of the ore in sight, and the high grade of the minerals. The ores in Camp Hedley are chiefly arsenical iron and chalcopyrite, carrying good commercial values, while Sterling creek and Pearson's camp is chiefy copper sulphides of a shipping character. There are several properties in Camp Hedley capable of shipping ore as soon as transportation facilities are provided in the valley below, the most important being the Nickle Plate group, comprising eight surveyed claims. This group is owned by the Standard Oil company interests and the estate of the late Marcus Daly. It is one of the best developed in the whole district, some 1,500 feet of work having been done the past year. In 1899 a car load of ore was packed out to Penticton and shipped to the Everett smelter, which is said to have given highly satisfactory returns. Last fall Mr. Rodgers, the superintendent of the mine, constructed, with the help of the provincial government, a wagon road from Penticton to Camp Hedley, which traverses Pearson's and Riordan's camps. It will be continued on this spring to Similkameen City, 6,000 feet below, where it will join with the main highway.

Adjoining the Nickle Plate group is the Copper Cliff and Mound, owned by W. Yolen Williams and associates. South and adjoining these two is another group owned by Superintendent Hedley, of the Hall Mines, and Paul Johnson, of the local smelter.

On Twenty-Mile creek is located the Wellington, Cracker Jack, and Cannon ball, owned here. Sterling creek camp is noted for its rich surface croppings of copper ore and many claims were located last year.

The Similkameen district only awaits transportation facilities when its numerous camps will afford employment for hundreds of men in the mines and prospects of its mountain ranges and in the valleys below in the cultivation of the soil. It is a district destined to become no little factor in the production of both copper and gold ores of the province.

I have added to the equipment of my dental office an apparatus for the administration of

Nitrous Oxide and Oxygen

for dental operations. This is the latest, safest and best method for the painless extraction of teeth or removal of the pulp—destroying the nerve.

UNION LABEL

THURSDAY, JANUARY 1900.

FOR ALDERMEN.

MUNICIPAL mismanagement extending over a period of two years has at last aroused the citizens to a keener interest in the affairs of the city and good men have set aside their natural repugnance to municipal politics in order that interests of the city may be properly protected. It is not often that the electors have an opportunity to place the right men in municipal offices and they are to be congratulated upon the fact that men like Messrs. Caulfield, Ashcroft, Kirkwood and Naden have consented to run. Outside of M. Kane, who is a new man and who should make a good alderman, the rest of the candidates announced, have been members of the last council. They must answer for sins of omission or commission, and with a record of mistakes, litigation and impaired credit they can hardly complain if the electors take matters into their own hands and elect new men to take their places. "It is time for change" holds good in Greenwood if the career of blunders is justification for defeating the holders of elective offices. The electors are not forced to make a change for change sake. They have an opportunity to make a change for the better, a change that will give the city such management as it needs at this critical juncture in its history. It is not a question of using conciliatory methods towards those who cap a period of municipal mismanagement with stuffing the voters's lists, but it is a question of relegating to private life those who are accountable for the mistakes and placing capable men in position.

Mr. Caulfield is blessed with abundance of public spirit, is a good business man and has wise and well defined views on all questions relating to the public welfare. Liberal and broad minded, he is just the man for office in these growing times in the growing west. If merit and ability count, the electors of the South Ward will place Mr. Caulfield at the head of the polls. In the North Ward, the electors are equally fortunate. Mr. Ashcroft has courage and ability and when elected to office, as he undoubtedly will, he will exercise his good judgment and common sense in the interests of the city. Mr. Kirkwood is pushing, enterprising with plenty of ability. He has lived in the west for years, has become inbued with the western spirit and his energy and push is required in making Greenwood the big city it ought to be. Mr. Naden is so well known to the electors and his election is so certain that little need be said in his behalf. He has been identified with the city's interest almost since its inception. He has always been a stalwart champion of everything that was for the upbuilding of Greenwood and the fact that he has consented to run is a hopeful sign that the municipal history of the past two years is at an end. Mr. Bannerman, in private life, is an estimable business man, but he made the fatal mistake of associating himself with those who were in charge of affairs during the past two years and must stand sponsor in the North Ward for their long list of municipal blunders.

The fate of the city is in the hands of the people. If they want good government they can secure it by voting against every member of last year's council who seeks re-election.

THE TRAMWAY.

Now that eastern capitalists have purchased the rights of the Greenwood-Phoenix Tramway company and are ready to construct a tramway system, the electors will doubtless be interested in the relations that exist between the tramway company and the city. On Nov. 23rd, 1899, the ratepayer ratified an agreement between Duncan McIntosh, acting as a trustee for a tramway company, and the corporation. This agreement imposed certain conditions upon the company and the corporation. The company had to secure a charter under the tramway act and had to complete the road within 365 days from the time the charter was secured and had to deposit with the city $5,000, which sum should be forfeited to the city in the event of the company not carrying out the terms of the agreement. The city had to assist in getting the charter and agreed to guarantee the interest on a sum not exceeding $100,000 for a term of 20 years at a rate of 5 per cent per annum,

It will be impossible for the tramway company to carry out the terms of the agreement on account of delay in beginning operations and consequently the new owners will probably ask for a new agreement with the city. It should be distinctly kept in mind in order that the Tramway may be kept out of the domain of municipal politics that any agreement entered into between the city and the company must be ratified by the ratepayers. No council can enter into any agreement whatsoever with a tramway company without the ratification of the ratepayers. The tramway question is not a political one. All are agreed that the tramway should be built during the year. It is of the greatest importance to Greenwood. The duty of the electors at this juncture is to elect business men to the council so that construction of the tramway may not be delayed by unwise municipal administration.

MUNICIPAL ELECTIONS, 1901.

To the Electors of the Municipality of the City of Greenwood:

LADIES AND GENTLEMEN:—I am a candidate for the office of mayor at the approaching municipal election and respectfully solicit your votes and influence. During the campaign I will have opportunities of explaining my views at length. Briefly stated, I am in favor of the following:

The present state of city finances and the stringency of the money market make it impossible to enunciate a well defined policy of public improvements. An adequate system of waterworks is necessary and also some suitable plan of sewering the city, but these and other improvements must be deferred until the city is in a better financial position. I confidently believe that by the exercise of wise judgment, the finances of the city can be placed upon such a sound footing that necessary public works can be constructed without placing excessive burdens upon the present taxpayers.

The credit of the city must be restored and maintained. Litigation should be avoided and I am in favor of an amicable settlement with those who have just claims against the corporation.

If Greenwood is to occupy the prominence to which she is entitled by natural advantage, the city must be brought into the closest touch with the surrounding mining camps. During 1901 every effort should be made to secure the construction of the tramway without imposing additional burdens on the ratepayers beyond those to which they are already pledged.

The strength of every city, particularly one situated in the heart of a mining district, lies in its workingmen and its future depends upon them. I am in favor of recognizing their claims to proper protection. I believe eight hours should constitute a legal day's work and this principal should be adopted by the municipality. Generally speaking, I am in favor of municipal work being carried on by day labor, but in the event of contract work being necessary, I would insist that contractors should pay the current wage.

I am opposed to the employment of Chinese and the encouragement of Chinese immigration and any power granted to the corporation by the Municipal Clauses Act should be exercised to the fullest extent in restricting their employment in the city.

The mayor's time should be devoted to the work of the city. I am not rich enough to do this without compensation and if elected I will expect a sufficient sum to properly represent the city without loss to myself.

The first of each year, estimates should be prepared giving each section of the city an equitable share of the expenditure and these estimates should be religiously followed.

I am your obedient servant,

DUNCAN ROSS.

MUNICIPAL ELECTIONS 1901.

Greenwood, Dec. 29, 1900.

A. E, Ashcroft, Esq., P.L.S.

Dear Sir:—We, the undersigned residents and ratepayers in the North Ward, respectfully request you to become a candidate for alderman. Recognizing that an important time in the history of the city has been reached, we believe that our best men should take charge of civic affairs and we pledge you our votes and influence should you consent to become a candidate. Signed

Thos. Miller, Duncan McIntosh,
J. F. Caulfield, W. J. Kirkwood,
And thirty-five others.

To Mr. Thomas Miller and others:

Gentlemen:—In reply to your request to allow myself to be nominated as a candidate for the position of alderman for the North Ward in the ensuing municipal election, I hereby consent to stand, and will, if elected, do my best to promote the interests of the city.

AN OLD PIONEER DEAD.

E. A. Bielenberg, a Prominent Mining Man Dies Suddenly.

E. A. Bielenberg, one of the best known of the pioneer prospectors of Boundary Creek, died at the Greenwood hospital on Saturday last after a brief illness. Before death he made a will, leaving his estate in charge of F. J. Finucane and Geo. A. Guess, whom he named as executors.

E. A. Bielenberg was born 38 years ago in Holstein, Germany. As far as can be ascertained he leaves a married sister in San Francisco; a brother who is the Imperial German Consul at Lima, the capitol of Peru, and two uncles in Montana.

Of a restive disposition, his travels had extended to many quarters of the earth. At the age of 18 he left home for Chili. From that country he went to Honolulu. For a time he was manager of the sugar plantations of Claus Spreckels. His interests in the manufacture of food products brought him into intimate association with the late KKalakaua I, King of Hawaii, with whom he amassed quite a fortune, but left the islands before the outbreak of the revolution. From San Francisco he again journeyed south, crossing the Andes and touring Patagonia, Bolivia and other Central and South American states. Then he drifted north and in the 80's was engaged in the banking business in Montana. Here he lost a fortune. Nothing daunted he joined a party bound for Hot Springs camp, arriving in the fall of 1890. Ainsworth, as the place was afterwards called, was the leading mining camp of a vast stretch of country little known to the prospector, extending west from the towering Rocky mountains to the Arrow Lakes. In July of the following year John Seaton and Eli Carpenter discovered the rich silver-lead deposits of the "Silvery Slocan," but it was not until 12 months after when the news became generally public that the first rush was witnessed. Bielenberg and Eli Carpenter made the trip into the Slocan, by the way of Nelson, up the Slocan river, and onto Slocan lake, thence following Carpenter creek to Three Forks. His venture proved unsuccessful.

In the spring of 1895, the "Count," a sobriquet by which he since became familiarly known, wandered into the Boundary district, and from that period resided in this city. He was largely interested in the Buckhorn Gold Mining company, and at the time of his death was superintending the development of this company's holdings. He practically owned the whole of the stock in the Arlington-Burns company. With partners he had considerable interests up the West Fork of the Kettle river and in the far Kittimat district. He acquired considerable money from the sale of mining properties, the greater portion of which he reinvested in the district. Mr. Bielenberg had a large number of friends. He was a cosmopolitan in the true sense of the word. Well educated and intelligent and having travelled extensively, he was alike at home in the great city or in the prospector's cabin in the mountain; a brilliant conversationalist, he often entertained his friends by splendid descriptions of exciting incidents in his life. He was one of the most interesting of the argonauts of Boundary and his death is universally regretted.

Funeral services were held Sunday afternoon at Gulley's undertaking parlors and at the cemetery Boundary Valley lodge I. O. O. F., of which the deceased was a member, attended in a body. Short but impressive services were conducted in the parlors by Rev. Mr. Anderson, of the Presbyterian church, and at the grave, Noble Grand James Kerr and Chaplain Fred B. Holmes conducted the services for the Oddfellows. In addition to the members of the lodge there were a large number of friends and acquaintances present.

TO THE PUBLIC.

Having sold our business to the Russell-Law-Caulfield Company, Limited, we desire to thank our friends and patrons for their liberal patronage during the time we have been in business in Greenwood. The new firm will commence business on or about January 15th. Until the three stores have been inventoried, they will occupy all three stores as at present. As soon as the inventories are completed, the Caulfield & Lamont stock will be removed to the Russell Hardware company's store, and until their new brick block is erected they will continue business at the old stores of the Russell Hardware company and W. M. Law & Co.

Again thanking you for your courtesy in the past and requesting a liberal share of your patronage, for the new firm, in future, we are sincerely yours,

RUSSELL HARDWARE CO.,
W. M. LAW & CO.,
CAULFIELD & LAMONT.

PANTHER KILLED.

A large female panther was killed last Sunday at the ranch occupied by Watson and Berry, near Boundary Falls. The animal had entered the hen house and was making a feast of the chickens when the noise awakened Captain Berry who went out and whilst the animal was in the hen house shut the door of the high-fenced chicken run. He then called Mr. Watson who shot it through the brain. On being stretched out it measured six feet from tip to tip, and while Messrs. Watson and Berry regret the loss of about 16 hens which the panther had killed, they are glad that they succeeded in riding the neighborhood of this beast which has lately been causing such depredations in their vicinity.

THOUSANDS SENT INTO EXILE.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. Don't be an exile when Dr. King's New Discovery for Consumption will cure you at home. Its most infallible medicine for coughs, colds, and all throat and lung diseases on earth. The first dose brings relief. Astounding cures result from persistent use. Trial bottles free at Miller Bros.' drug store. Price 50c and $1. Every bottle guaranteed.

A PAINFUL ACCIDENT.

Jim Smith, a miner at the Ah There, Deadwood camp, suffered severe injuries to his face, by a powder blast, on Saturday, and was removed to the Greenwood hospital. On Mondy he left for Spokane for treatment by an eye specialist. It is feared he will loose his right eye. The accident happened, as near as can be ascertained, by his candle being put out from the the spitting of the fuse, which he had lighted in the bottom of the shaft. He ascended to the drift, lighted his candle, and was bending down into the shaft to haul up a ladder when the blast went off and he received the full effect in his face.

A DEEP MYSTERY.

It is a mystery why women endure backache, headache, nervousness, sleeplessness, melancholy fainting and dizzy spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mrs Phebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me, and, although 73 years old, I now am able to do all my housework." It overcomes constipation, improves appetite, gives perfect health. Only 50c at Miller Bros.' drug store.

NOTICE OF PRIVATE BILL.

Notice is hereby given that application will be made to the Legislative Assembly of the Province of British Columbia at its next session for a private bill to incorporate a company to build, equip, maintain and operate a line or lines of railway of standard guage with any kind of motive power from a point at or near the town of Midway to a point at or near the mouth of Rock creek, thence in a northeasterly direction to the West Fork of Kettle river, thence following the West Fork of said river to its head, thence by the most convenient route via Okanagan Mission valley to Vernon, with power to construct, operate and maintain branch lines to any point within twenty miles of the main line of railway, and with power to construct, operate and maintain all necessary bridges, roads, ways and ferries, and to construct, acquire, own and maintain wharves and docks in connection therewith, and to construct, own, acquire, equip and maintain steam and other vessels and boats and operate the same on any navigable waters, and to construct, operate and maintain telegraph and telephone lines along the routes of said railway and its branches or in connection therewith, and to transmit messages for commercial purposes, to generate electricity and supply light, heat and power, and to erect, construct, build and maintain the necessary buildings and works, and with power to take water from the falls on Spallumcheen or Shuswap river near Lumby and on the West Fork of Kettle river near Bull creek, to generate any kind of power for the purposes aforesaid or in connection therewith for reward, and to acquire and receive from any government, corporation or persons grants of land, money, bonuses, privileges or other assistance in aid of the construction of the company's undertaking, and to connect with and enter into traffic or other arrangements with railway, steamboat or other companies; and for all rights, powers and privileges necessary in or incident to the premises and for other purposes.

Dated at Vancouver, B. C., this 22nd day of December, 1900.

WILSON & SENKLER,
Solicitors for Applicants.

NOTICE OF FORFEITURE.

To C. A. Peterson, late of Eholt Creek in Yale district

Sir: You are hereby notified that we have expended $100 in labor and improvements upon the "Silent Friend" Mineral Claim, situate in Long Lake camp, formerly Gold Drop Camp, in the Kettle River Mining Division of Yale District in British Columbia, as will appear by a Certificate of Work recorded December 1st, 1899, in the office of the Mining Recorder for the said Kettle River Mining Division, in order to hold said claim under the provisions of Section 24 of the Mineral Act, such being the amount required to hold the said claim for the year ending 10th May, 1900.

And if at the expiration of ninety (90) days of publication of this notice you fail or refuse to contribute your proportion of the expenditure required under said section 24, together with all costs of advertising, your interests in said claim shall become vested in the subscribers (your co-owners) under Section 4 of the "Mineral Act Amendment Act, 1900.

Dated at Greenwood, B. C., this 9th day of November, 1900.

THOMAS MCDONNELL,
SPENCER BENERMAN,
JOSEPH A. FRANK.

HALLETT & SHAW, Solicitors.

NOTICE.

NOTICE is hereby given that at the first meeting of the Licence Commissioners for the City of Greenwood held after thirty days from the date hereof I shall apply for a transfer from me to Thomas Pieckart and Phil McDonald of the Hotel Licence held by me for the Arlington Hotel, Copper street, in the City of Greenwood,

J. E. HOOPER.

Dated December 3rd, 1900.

NOTICE.

Notice is hereby given that at the first meeting of the License Commissioners for the City of Greenwood, held after thirty days from the date hereof, we shall apply for a transfer from us to Frank Fera & Co., of the hotel licence held by us for the "Ottawa Hotel" situated on Silver street, in the City of Greenwood.

KNUT WILSON.
J. HAGEN.

Greenwood, B.C. Dec. 12th, 1900.

Corporation of the City of Greenwood.

PUBLIC NOTICE

Is hereby given to the electors of the municipality of the City of Greenwoon that I require the presence of the said electors at the City Hall, Greenwood, on the 14th day of January, 1901, at 12 o'clock noon, for the purpose of electing persons to represent them in the municipal council as mayor and aldermen.

The mode of nomination of candidates shall be as follows:

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of the notice and 2 p. m. of the day of the nomination, and in the event of a poll being necessary, such poll will be opened on the 17th day of January, 1901, at the City Hall, Greenwood, of which every person is hereby required to take notice and govern himself accordingly.

Sec. 14.—The council of every City Municipality incorporated after the 23rd day of April, 1892, and of every City Municipality hereafter incorporated under the "Municipalities Incorporation Act," shall consist of a mayor and not more than nine nor less than five aldermen:

(a) After the first municipal election, the persons qualified to be nominated, for and elected as the mayor of such city shall be such persons as are male British subjects of the full age of twenty-one years, and are not disqualified under any law, and have been for the six months next preceding the day of nomination the registered owner, in the Land Registry Office, of land or real property in the city of the assessed value, on the last municipal assessment roll, of one thousand dollars or more over and above any registered incumbrance or charge, and who are otherwise duly qualified as municipal voters:

(b) After the first municipal election, the persons qualified to be nominated for and elected as aldermen of such city shall be such persons as are male British subjects of the full age of twenty-one years, and are not not disqualified under any law, and have been for the six months next preceding the day of nomination the registered owner, in the Land Registry Office, of land or real property in the city of the assessed value, on the last municipal assessment roll, of five hundred dollars or more over and above any registered incumbrance or charge, and who are otherwise qualified as municipal voters.

G. B. TAYLOR, Returning Officer.

COMPANIES' ACT, 1897.

Morrison Mines, Limited (Non-Personal Liability).

Take notice that the shares in the Morrison Mines, Limited, (Non-Personal Liability) hereinafter described, have been declared in default and will be sold at public auction to the highest bidder for cash, at the office of the said company, Rendell building, Copper street, Greenwood, B.C., on Friday, the 1st day of February, A. D., 1901, at the hour of four o'clock in the afternoon, to satisfy assessments which have been made thereon and are in default for a period exceeding sixty days after notice and demand of payment of such assessments.

Dated at Vancouver, B. C., this 10th day of November, 1900.

WILSON & SENKLER,
Solicitors for the Applicants.

BUREAU OF PROVINCIAL INFORMATION

IN ORDER that the Government may be in possession of definate information with which to supply those seeking investments in this Province, I am instructed to invite particulars from those who have properties for sale, and who may feel disposed to forward such purticulars to this office for the purpose in question.

In view of the proposed early re-organization of the Agent General's Office in London, England, the desirability of having on file a list of farms and other properties for sale, with full and accurate details, is obvious. Properties submitted may include farms and farm lands, industrial or commercial concerns, timber limits, water powers, or other enterprises affording opportunities for legitimate investment.

It is not proposed to recommend properties to intending investors, but to afford access to the classified lists and all available information connected therewith, and to please enquirers in communication with the owners.

The fullest particulars are desired not only of the properties themselves, but the localities in which they are situated, and the conditions affecting them. For this purp5se printed schedules will, upon application, be forwarded to those desirous of making sales.

R. E. GOSNELL,
Secretary, Bureau of Provincial Information.

Do you owe the Greenwood Times $2. Your subscription lable will tell you. Subscriptions payable in advance.

A NEW COMPANY.

Russel I-Law-Caulfield Company, Ltd., Begin Business Next Week.

The Times is pleased to announce the final amalgamation of the interests of three of the largest mercantile firms in the city which took place yesterday. Some weeks back it was given out that a firm to be known as the Russell-Law-Caulfield company, limited, would seek incorporation for the purposes of carrying on a general mercantile busines. This has been successfully accomplished, and the new corporation will open up for business about the middle of the month. The capital of the undertaking is $100,000, in 100,000 shares of the par value of $1, and it is a matter of congratulation to all concerned to know that resident capitalists have gone into the venture, and no assistance has been required from the outside. It is an evidence of Greenwood's prosperity, that when a local business proposition of merit is placed before investors they are to be found ready to back it.

Stock-taking is now in progress and when finished the store of Caulfield & Lamont will be closed and the hardware stock moved to the Russell Hardware company, and this end of the business carried on in that store. Mr. Law for the present will attend to the grocery and clothing department in his store premises. The company has acquired the three lots south from the Commercial hotel to the Russell Hardware company's building. This building will be removed early in the spring and a substantial brick block, with a frontage on Copper street of 75 feet and a depth of 100 feet, two-storys in height, built. Ample room will then be had for the business, which will carry exceptionally heavy stocks in clothing, hardware and grocery departments, both for the wholesale and retail trade. Excavation work for the cellar, retaining wall and foundation is to be started at once.

The personnel of the Russell-Law-Caulfield company, of which Mr. Law will be at the head, includes James Russel, Thomas Hardy, Duncan Mc Intosh and J. J. Caulfield. These gentlemen are the heaviest individual shareholders, but other parties have acquired stock. The three firms combined represent a strong aggregation and propose carrying a stock of some $100,000 value in all departments.

Mayor Thomas Hardy and James Russellfor the past three years have been carrying on a hardware business under the name of the Russell Hardware company. Mayor Hardy is one of the prominent pioneers of the Boundary and Mr. Russell has been a resident of the city since 1897. The firm have held a large share of the trade, making this a leading feature. William Law first came to the district in 1896, and for a time was in businesss in Anaconda, but removed to this city two years later and since then has become one of the most popular and successful merchants in his line—groceries. J. J. Caulfield for the past two years has been in the hardware business, associated with Mr. Lamont, and their trade was profitable in supplying largely local contractors and the home consumption. Duncan McIntosh is associated with the undertaking from a monetary point only, believing that a business, especially in the wholesale line, can be built up to supply all points bstween Cascade City and the Similkameen, and together with the retail trade will be profitable in the shape of dividends.

PUBLIC MEETING.

The Times has received the following communication:

"Greenwood Times: Will you kindly publish the following notice in your issue of today:

"A meeting in the interosts of Dr. R. W. Jakes, candidate for the mayoralty, will be held in the Masonic building, governmedt street, on Wednesday evening, Jan. 16. Mr. Ross and all aldermanic candidates are cordially invited to be present.

M. H. KANE,
J. P. MYERS-GRAY,
W. S. KEITH,
Committee."

Ross campaign committee engaged the Auditorium for a public meeting on the evening of Wednesday the 16th inst., ten days ago, and intend holding a meeting on that date. As the Auditorium is the most suitable building in the city for public meetings, the committee invite Dr. Jakes and the candidates for aldermen who are supporting him, to be present, and they will be granted the same time to address the electors as Mr. Ross or his supporters. They are quite willing that the meeting in the Auditorium should be a joint one but are not prepared to cancel their meeting to suit Dr. Jakes or his supporters at the same time appreciating the invitation from M. H. Kane, J. P. Myers-Gray and W. S. Keith. Posters announcing the meeting in the Auditorium will be circulated a reasonable number of days before the date thereof.

THE CITY COUNCIL.

The council met on Monday evening with Mayor Hardy in the chair, and Ald. Bannerman, Sutherland, and Sullivan present. A letter was read from the Bank of Montreal notifying the city that note infavor of Greenwood Trading company was due and unpaid. The clerk was instructed to make arrangemente to renew the note. A number of accounts were marked O. K. and left for the incoming council to pay. Several by-laws were advanced a stage and the council adjourned until Saturday night which probably be the last meeting of last year's council.

TO THE DEAF.

A rich lady cured of her deafness and noises in the head by Dr. Nicholson's artificial ear drums, gave $10,000 to his institute, so that deaf people unable to procure the ear drums may have them free. Address No. 14520C, The Nicholson Institute, 780 Eighth Avenue, New York, U. S. A.

F. J. Mitchell, the well known merchant tailoor, of this city, was married at Moose Jaw on New Year's day to Miss Laura Battel. Mr, Mitchell's many friends will extend congratulations upon his return to the city.

Since its opening the skating rink has been crowded nightly. Suring the afternoon the rink is given over to beginners and the ladies. The management anticipate a far larger attendance this season than last. Hockey will shortly be in order.

Eastern society papers contain the formal announcement of the engagement of Miss Rebecca Brooks Cornell, daughter of Madame de Ricardo de Blas Albertine, to Mr. Clive Pringle, of this city, son of Mr. and Mrs. Roderic Pringle, of Cobourg, Ont.

Police Magistrate Hallett held a court of revision for the purpose of correcting errors that may have been made in the preparation of the voters' list. Applications for a dozen names were made and the court was adjourned until 4 o'clock next Wednesday when the magistrate will give his decision.

On Sunday the town bell will be rung for the first time for church services. In order to avoid a fire scare it is well that the citizens should remember that the bell is swung and gives a pouble toll for church services, whereas in case of a fire, only the clapper is used. It will be rung in the morning at 10;30 and a few minutes before 11, stopping at 11 exactly. In the evening it will ring at 7 o'clock and 7.30.

Duncan Smith, D. D. G. C., assisted by S. W. Houston, P. C., and Chas. Jameson, installed the following officers in Greenwood lodge K. of P.: D. A. MacKenzie, C. C.; A. D. Hallett, V. C.; Chas. Dunne, P.; John A. James, M. of W.; A. S. Embree, K. of R. and S.; K. C. B. Frith, M. of F.; M. E. Miller, M. of E.; Norman McLeod, M. at A.; Chas. R. Pittock, I. G.; M. Eilderman, O. G.

District Deputy W. M. Law, Jas. Kerr, N. G.; G. B. Taylor, O. G.; T. M. Gulley, P. G., of the local Oddfellows lodge, went over to Grand Forks last week when the following officers were installed for the Gateway lodge: A. L. Clements, N. G.; Fred Clark, V. G.; J. F. Kennedy, R. S.; T. G. Park, P. S.; J. A. McCallum, Treas.; J. Hammer, W.; D.D. Munro, C.; Thos. Smith, O.G.; M. C. Davidson, I.G.; I. A. Dinsmore, R. S. S.; Dr. J. Westwood, L. S. S.; R. B. Thomas, R. S. N. G.; N. McLellan, L. S. N. G.; G. K. Bradshaw, C.; A. F. McCormick, R.S.V.G.; R. J. Wasson, L. S. V. G. The visitors were royally entertained by the Grand Forks Oddfellows.

Local exchanges have much to say regarding the propofed meeting of Andy King, of Rossland, and Billy Armstrong. amusement manager of the National Music hall, in the four cornered ring. Last week Andy King, through the columns of the Rossland Miner, issued a challenge to Armstrong for a bout, with the stipulation that his opponent should weigh in at 132 pounds. Now Corbett's protege," when he so desires, can get down to such a weight, and its up to King either to back down or fight. Armstrong would prefer to have the bout here, at the Auditorium, and is willing to allow the winner 80 per cent and the looser 20 per cent of the proceeds or for the winner to take the whole pot. He only stipulates that in case of any official or outside interference the referee must give a decision in favor of the man having the best of it up to that time. Armstrong can get plenty of backing here, and this is also true of King, so there should be little trouble in arranging a match satisfactoay to both principals and their friends.

To the Public

We beg to thank our patrons for the good-will shown us in the year just passed and hope for a continuance of the same during 1901, when we will be better able to fill all demands upon us more promptly.

Wishing you all a prosperous New Year. Respectfully yours,

SPROTT & MACPHERSON,
