SATURDAY, DEC. 26, 1874.

THE RAILWAY—SUCCESS OF MR. WALKEM'S MISSION.

The following official telegram was published in the Victoria Daily Standard of Dec. 9 h, and although of the greatest interest and importance to the entire community, the telegraph operator in the lower country who makes up the news report for the SENTINEL did not think it of sufficient importance to transmit by telegraph, preferring to send instead a garbled version of the same telegram which appeared in the Colonist of the 10th:

The Hon. Mr Walkem arrived at Kingston on his way to Ottawa on Saturday, the 5th December.

Lord Carnarvon's decision is that Railway construction shall be commenced immediately.

That there [illegible] railway communication [illegible] Pacific to Lake Superior.

That there shall be a minimum expenditure on Railway construction in this Province of Two Millions of Dollars per annum.

The portion of the Canadian Pacific Railway from Esquimalt to Nanaimo to be commenced immediately.

And that construction will be commenced on the Mainland as soon as the surveys shall warrant.

Public opinion in the Cariboo district is very generally favorable to the acceptance of these relaxed terms, as the best that could be obtained. The farmers on the Mainland, however, to whom railway communication with the seaboard is a necessity, are not so well pleased; but we have no doubt Mr Walkem has arranged matters so as to insure the immediate commencement of construction on the Mainland as soon as the surveys are completed and the route adopted.

The result of the mission may be summed up as follows:—An increase in the railway expenditure of $500,000 annually, and the commencement of the work at one point definitely fixed. Uncertainty with regard to the construction of the road being now removed, confidence in the country will be restored. People can now set to work and prepare themselves to reap the advantages sure to follow the construction of this great national work.

Mr Walkem's successful conduct of the negotiations in the face of Mackenzie and Blake's Repudiation policy, meets with the highest praise on all hands; and the present Local Government of British Columbia may look forward to a renewed lease of the confidence of the people should its members seek their suffrages at the election to take place next year.

CHRISTMAS.

Christmas is always celebrated in the mountains of Cariboo with a degree of jollity which one would not expect in a community numbering amongst its members many disappointed gold-hunters, the majority of whom consider themselves as exiled from their native lands, where they were accustomed to pass the day under the roof of the old home, surrounded by father, mother, brothers, sisters, and friends, and where the time passed joyously by in the enjoyment of those social pleasures which make men forget for the time the disappointments and trials which are the common lot of all. "Let joy and mirth go unconfined," is the motto of Cariboolites at this season of the year, and the miner who has had years of bad luck throws dull care to the winds, and enjoys himself as heartily as his more fortunate brother who has "struck the lead."

We hope everybody enjoyed a "Merry Christmas!" Everybody should have done so. There is no place in the world where Plenty more widely reigns, no place where want is so seldom seen, no place where the people are so generally blessed with the greatest blessing which they can enjoy, the most robust health. A measure of Contentment, and Wives for our Bachelors, would make Cariboo the happiest spot in the world.

VEGETARIANS.—At a meeting of the Vegetarian Society held lately at Manchester, England, one of the speakers alluded incidentally to eaters of flesh meat as "blood-lappers" and "patronizers of slaughter-houses." A gentleman present took exception to these hard words, and informed the audience that he had been an abstainer from intoxicating liquors and tobacco for 33 years; but he emphatically repudiated, as an Englishman, the statement that he was a "blood lapper." He ate beef and mutton; and if he had been one of the 5,000 who were fed by the two fishes, he should never have refused the food which the Lord gave to his people. He might be wrong; but he must say that after what he had heard in favor of vegetarianism that night, he left the meeting less inclined to become a vegetarian than when he entered the room. He believed that animals were given for the food of man. He believed it was according to the Word of God that the fish in the sea lived on each other, and he required to be convinced that we were not entitled, as human beings, to live on the fish of the seas

CHRISTIANS IN TURKEY.—The following from the London Times throws some light on the persecution of Christians in Turkey, lately reported by telegraph:—Three Ansairyeh Christians were arrested, bound, beaten, and dragged to Damascus before a word was said to them of their serving in the Army, and at a time when no conscription was being made in their part of the country. Not until they refused to abjure the Christian faith were they compelled to serve as soldiers, and even then the cruelties inflicted upon them were the subject of complaint and remonstrance by the British Consul. In the case of the Christians seized at Marash Awen, the pretext of enrolment has not been raised. They were bound and carried to Aleppo, thence to Constantinople, and have been banished to Smyrna, where they remain separated from their families. No charge whatever appears to have been brought against them, and the English Minister—Sir Henry Elliott—has represented, though without result, the gross injustice of sending into banishment persons for their religious convictions.

PEARSON'S EXPRESS, with a heavy load of express freight, arrived at Barkerville on Thursday.

BERKELEY, September, 1869.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking 'Norton's Camomile Pills.' I applied to your agent, Mr Bell, Berkeley, for the above-named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable Pills, I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may be thus afflicted.—I am, sir, truly yours, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS."

THE CARIBOO SENTINEL

SATURDAY, DEC. 26, 1874.

BIRTH.

At VanWinkle, on Monday, 21st December, 1874, the wife of Mr A. THOMAS of twins—boy and girl.

MARRIED.

At the residence of the bride's parents, Farleigh, Cowichan, by the Rev. David Holmes, on the 3d of December, 1874, ALEXANDER E. B. DAVIE to CONSTANCE LANGFORD, third daughter of Thos. J. Skinner, Esq.

BY TELEGRAPH

VICTORIA.

Victoria, Dec. 18—The captain of a ship recently arrived here from Peru brought with him some silver bars which he had taken in payment of freight. One of the bars was sent to San Francisco to be assayed, and a telegram was received yesterday pronouncing it bogus and of no value.

The Lieut.-Governor yesterday received a petition from the citizens of Nanaimo praying that that town may be created a municipality and designated as the city of Nanaimo.

The Myrmidon returned last night from Jarvis Inlet. All was quiet. The Indians promised to allow loggers and other lumbermen to return and to behave peaceably.

EUROPE.

Berlin, 15th—The argument in the VonArnim case is concluded. Judgment will probably be rendered on Saturday

Herr Majanke, a member of the Richstad and editor of the Germania newspaper, arrested for a Pres offence, has been released.

London, 15th—A special from Santander to the Times says the storm which has been raging in the Bay of Biscay for several days created much havoc. More boats are missing. N foreign mails have been received for eight days. The storm continues unabated.

Berlin, 16th—The German Commission to the Centennial Exhibition at Philadelphia has been appointed. Dr. Jacoby is President of the Commission, with headquarters at Berlin.

Paris, 17th—Specie in the Bank of France has increased 211.000 francs.

The roof of the market hall in Autiers fell under the weight of snow yesterday. Several persons were killed and injured.

London, 17—Bullion in the Bank of England has increased £510 000 the past week. The proportion of the Bank reserve to liabilities the last week was 44 3-8 per cent. It is now 45½ per cent.

Berlin, 17th—Bismarck had an interview with the Emperor to day. Rumors of his resignation still circulated. It is the almost universal opinion that the vote in the Parliament yesterday was not one of want of confidence, and it is considered certain the Emperor will not accept Bismarck's resignation. Another report gives Herr Deujen, deputy in the Richstag, as the authority for the statement that Bismarck intends to resign in view of the vacilating course of the majority in the Richstag.

London, 17th—A special to the Morning Post from Berlin says it is positively asserted that Bismarck tendered his resignation, which was refused. He afterwards conferred with the leaders of the national party regarding the future conduct of affairs in Parliament, and an understanding was secured.

London, 19th—A Berlin special says the crisis is over. At a Cabinet council held on Thursday it was proposed that the Richstag be dissolved as a remedy for Bismarck's complaint, but Bismarck declined the proposal.

The News correspondent at Berlin telegraphs that Bismarck stated in conversation on Monday that he had received warning from the Police of a fresh plot against his life.

Constantinople, 18th—The Levant Herald publishes an account of the famine in Asia Minor, and says the prospect is appalling.

London, 19th—Judgment in the case of VonArnim was pronounced this afternoon.—The sentence is three months' imprisonment, which includes the one month he has been under arrest. The cause of the delay in pronouncing the sentence was the refusal of the Count to appear in court, which insisted on his presence. The Count's son and counsel finally induced him to appear.

The German Parliament passed the Imperial Budget to-day, and adjourned till the 7th January.

Berlin, 20th—The sentence, in addition to imprisonment, requires the payment of costs of court. VonArnim will be permitted to retain official dignities with the title of Excellency. He will go to Italy on the expiration of his imprisonment for the benefit of his health.

London, 21st—A special to the Daily News from Berlin states that both prosecution and defence have appealed from the sentence in the VonArnim case, which will be taken to a higher court in about three months' time.

London, 21st—The Morning Standard has a dispatch from Spain reporting the total defeat of the Republicans by Gen. Lopez Demanque in Catalonia, with heavy loss in killed and wounded.

Queenston, 20th—The steamer City of London, which sailed from Queenston Dec. 17th, returned to-day disabled. The mails will be transferred to the steamship Cuba for New York.

London, 20th—The salvage on the French steamship Amerique has been reduced on appeal to 900.000 francs.

London, 21st—The Cologne Gazette says on the 11th inst. the German brig Gustave, from New York, entered the harbor of Guertari, ten miles from San Sebastian. On nearing the shore she was fired on by Carlists, notwithstanding she hoisted the German flag and put out a signal of distress. The next day the brig struck off San Sebastian, and was saved by the Republican volunteers, who took the crew to San Sebastian. The Carlists on shore fired on the boats during the rescue of the crew, and afterwards seized the cargo of the abandoned vessel.

MEXICO.

City of Mexico, 21st—It is reported that the Mormons in the United States propose forming a colony in Mexico with the intention of emigrating en masse from Utah.

UNITED STATES.

San Francisco, 21st—The steamer Mikado arrived to day with dates from Sidney to Nov. 31, and from Auckland to Nov. 12. Arrangements were completed for the temporary reestablishment at New Zealand of a station, and the California and Australian mails will be carried. The Sidney steamer will receive and land New Zealand mails and passengers each way. The citizens of Auckland were interested in the expected arrival of the new Governor. Commercial affairs in Auckland are favorable. Two emigrant ships had arrived within the past month bringing about 800 passengers. The lumber trade had increased of late years, and is now an important interest.

Washington, 21st—During the storm of Monday lightning struck the powder magazine in Santaire and caused a terrible explosion. A portion of the walls were overthrown, many houses demolished, and over 200 killed and wounded.

CUBA.

Havana, 20th—Paul Garcia, a noted banditti, with his followers, surrendered themselves to the authorities.

JAPAN.

Hong Kong, 19th—The Pacific mail steamer Japan, for San Francisco from Yokohama for this port, was burned on Thursday eighty miles from Yokohama. The loss of life was fearful. The mails were lost. The Japan was an old wooden vessel.

JUSTICES' COURT.

TUESDAY, Dec. 24, 1874.

Samuel Greer was charged by W. B. Cameron with using threatening and violent language to complainant.

W. B. Cameron, sworn.—While standing at my shop door to day talking to Mr A. Macfarlane, the defendant called me a son of a b-h, and said I am going to cut your heart out, and called me other names; I told him to take his hand out of his pocket; he then said, "you made a whore of my wife, and I will murder you the first chance I get.

A. Macfarlane, sworn.—I was at Mr Cameron's shop this morning when Greer came along; Cameron was standing facing the street; Greer said to Cameron, "you're the son of a b-h that made a whore of my wife; I interfered and held Greer; Cameron had no weapon; words passed between Cameron and Greer; cannot say what they were.

Robert Barr, sworn.—Was present when words passed between Cameron and Greer; did not hear much that passed between them: Greer said he could handle Cameron in any shape; Macfarlane asked Greer to leave and he went away; I saw no weapon with Greer.

The Magistrate said that as Cameron's statement was not corroborated he would dismiss the case. As, however, there appeared to be a bad feeling between the parties, he warned them that if they were brought before him on a charge of committing a breach of the peace, he would punish them to the utmost extent of the law.

TRANSCONTINENTAL RAILWAY CO.—Notice is given in the Canada Gazette that application will be made at the next session of the Dominion Parliament for an Act to incorporate a Railway Company with powers to construct, own and operate a line of railway from Red River, Province of Manitoba, to some point in British Columbia, on the Pacific coast.

MINING INTELLIGENCE.

WILLIAMS CREEK.

Several claims below Cameronton are making wages. James MacMillan & co. are building a shaft-house and will commence work in the old Grizzley ground after the holidays, where they expect to find good pay. This company have cleaned out about 500 ft. of the bed-roch drain, which is now clear up to the upper line of the old Caledonia. The Cariboo co. are making considerably over wages. The water in the claims above the Cariboo is fast draining off, and in a few days more there will be no difficulty in opening the bed-rock drain its entire length.

CONKLIN GULCH.

The Ontario co. have re-commenced work. Good pay has been struck in running the drain, and 4 oz. of gold obtained in the bottom of a shaft sunk three feet deeper, and in which no prospect was got when first bottomed. Cora co. got 8 oz. from a small set and a half in opening out from their new shaft.

GROUSE CREEK.

Princess Marie co. have found what they suppose to be the lost Lady of the Lake lead. Rocked out about $40 this week, and the ground looks well in the face.

ANTLER CREEK.

The Nason co.'s ground looks more favorable; got 2 oz. from the last 2 sets, 4 ft. cap.

MOSQUITO CREEK.

The Oliver co. are now working ground which pays 3 oz. to the set, the pay increasing as they get in.

LIGHTNING CREEK.

VanWinkle co. washed up 200 oz. last week and 245 oz. on Friday morning. Victoria co. had 530 oz. last week, and 240 oz. on Friday. Vancouver co 193 oz. last week, and 280 oz. on Friday. Vulcan co. 35 oz last week, and 45 oz. on Friday. Nothing new from the Costello. Gladstone co. have struck more water in the diggings, and have stopped work for a few days.

HARVEY CREEK.

The Minnehaha co. is still doing well.—Cummings co. running a drain; got a fair prospect in the face.

We need hardly advise people who know anything about politics, that they (the supporters of the Local Government) are carefully enumerated by agents of the Federal Government, and that any predilection for the Local Government, or even a connection with it, is carefully noted. It is necessary to state, that the Local Government is condemned, and that, therefore, the best policy for those desirous of future Government patronage, is not only to aid in ousting the present Local Government, but to be thoroughly clear of all possible appearance of siding with them.—[Mainland Guardian.

The above unparalleled piece of impudence we commend to the attention of our readers as showing the principles which control the columns of Mackenzie's organs in this province. Support Mackenzie's Government to the sacrifice of the interests of the Province, and you will be rewarded with a share of the "public plunder" which his agent says will be distributed amongst faithful followers. This was the doctrine of "Boss Tweed" and a host of other scoundrels in the neighboring Republic, who are now suffering martyrdom within the walls of various penitentiaries. We don't think, however, that the "party" in British Columbia represented by the editor of the Mainland Guardian will ever be favored with an opportunity of plundering this province, for, fortunately, honesty is still at a premium, and "antecedents" are carefully looked into.

LILLOOET.—In our last issue we published the political platform of the lately elected members for Lillooet—Messrs. Humphreys and Brown—and in doing so, a correspondent informs us that we have done the latter gentleman an injustice in not reporting his political platform in extenso. We cheerfully make the correction. The "platform" should have read as follows:

"I support Mr Humphreys' platform, and will be guided entirely on all political questions by him. If I have any grave doubts on my mind at any time, I have a big brother in Victoria to whom I shall appeal for advice."

$10,000 DAMAGES.—A suit was entered on Tuesday by Samuel Greer against W. B. Cameron for debauching plaintiff's wife. The damages are laid at $10,000.

A FASTING GIRL.

The German papers have been for some months discussing the case of Louise Lateau, the fasting girl, who has been declared to possess miraculous gifts by a number of the Roman Catholic newspapers. A correspondent, writing from Jena, gives the following particulars about her:

At the meeting of German naturalists and physicians recently held in Breslau, Professor Virchow delivered a speech on a subject which has made no small sensation in many parts of Germany. Some three years ago a book appeared entitled "Louise Lateau, sa Vie, ses Extases, et ses Stigmates." Not much notice was at first taken of it. This year, however, a pamphlet was published by Professor Rohling, of the Academy in Munster, entitled "Louise Lateau, die Stigmatisirte von Bois d'Haine." It states that the young woman to which it refers was born in Bois d'Haine, in the diocese of Fournais, a Walloon district of Belgium. In her childhood she suffered much from illness, and showed extraordinary zeal in the performance of her religious duties. In 1866 she became subject to ecstasies, of which we shall afterwards speak, and two years later, on the 21st of April, 1868, on a Friday, just at the time when she had completed her noviciate in the third Order of Saint Francis of Assisi, stigmata—that is to say, marks representing the wounds of Christ—made their appearance on her body. They were received by her just similar as signs were by Saint Francis and other Saints. They first appeared as red places on the skin, out of which afterwards blood issued. On the first Friday there were bleedings on her left side, the following Friday there were similar bleedings from her feet and from her hands. Eventually, on the 25th of September, spots appeared on her brow which one could recognize as decidedly similar to those a crown of thorns would produce. We have stated that she had become subject to ecstacies, generally occurring on Fridays, and these still continue. While under these influences she loses all sensibility for the outer world. It is stated that she cannot even feel electric shocks. She has extraordinary visions. More recently she has found sleep and food unnecessary to existence, and we are informed that for the last three years she has only eaten a wafer daily and drunk two spoonfuls of water weekly. During all this time she has never slept.—Such are the facts which are gravely recorded in the pamphlet, and the fact that it is written by a professor, who declares himself unable to explain the phenomena, has brought the story under the notice of a class of persons who are not likely to attach importance to contemporary miracles. Professor Rohling did not feel satisfied with the success of his pamphlet. He wrote to Professor Virchow as to a great physiologist, to ask him his opinion about this very remarkable phenomena. In his letter he remarked that the Catholic Apologists lay down the principle that a phenomenon may only thus be treated as a miracle when science has proved unable to explain it according to fixed incontrovertible laws. Professor Virchow treats the case as one of a class familiar to him. He has been 16 or 17 years physician to the department of sick prisoners at Berlin, and knows very many kinds of simulation. One case has come under his notice of ceasing to take nourishment, in which the whole supply of food was consumed in an extraordinary manner. 'It has given him,' he says, 'the greatest trouble, even perfectly organised as his hospital is, to trace out the tricks and shifts to which such persons as Louise Lateau resort.' Still, despite all the annoyance likely to result, he said he would not object to receive the girl into his establishment, and that he would look carefully into her case, which he admits has become of serious importance, now that the colportage is still carrying thousands of pamphlets on the subject into every village of the Rhine, and a great part of the country is in a ferment about it.
