THE CARIBOO SENTINEL

WEDNESDAY, DEC. 4, 1872.

BY TELEGRAPH

QUESNELMOUTH.

Quesnelmouth, Dec. 3—Mr John Macoun, a botanist, who was one of Sandford Fleming's party as far as Edmonton, arrived here last week via Forts Dunvegan, McLeod, and St. James. He gives a very favorable account of the country on the other side of the mountains, and speaks in glowing terms of its capabilities for grazing and agricultural purposes. Judging by the road he travelled, he also gives it as his opinion that a better route for a railway can be found through it than has yet been explored.

The weather here has been very mild for the last week; the snow is disappearing fast, and sleighing is not very good for six miles out. Teaming is nearly over for the season.

The Omineca mail will leave about the 10th.

YALE.

Yale, Dec. 3—Barnard's Express canoe carrying mail and express, arrived from New Westminster at 8 a.m. to-day in charge of W. Bristol. The stage leaves for above at 9 a.m. to-morrow. Very few passengers. Weather warm and wet.

A canoe from Hope on Sunday conveyed the sad intelligence of the death of Mr George Dunbar. He leaves a widow and many warm friends. His remains were interred at Hope.

SODA CREEK.

Soda Creek, Dec. 3—Owing to an ice jam in the canyon the river rose 15 feet this morning, depositing immense quantities of ice on the banks.

H. Horsford starts to-morrow for Barkerville with 80 head of beef cattle.

Weather moderating.

SAD ACCIDENT—THREE MINES DROWNED.

New Westminster, Nov. 30—By the schr. Nellie Martin intelligence was received in Victoria of the upsetting of a canoe on or near the Kitzukla canyon, Skeena river, by which three men, named Edward Falle of Ohio, Wm. Downey, of Olympia, and John Collins, of Ireland, were drowned. The other parties in the canoe—Jackson, James McCaffry, Robt. Sidley, John Neil, and John Braan—were saved. McCaffry and Collins lost 1040 oz. in dust, and the others all they possessed.

VICTORIA.

Victoria, Dec. 2—The Assizes were held on the 27th.

Mr Richardson, of the Geological Survey, started for the East on the 28th.

The Idaho will make one more trip, after which the Prince Alfred will run regularly.

Messrs. Thompson and Barnston arrived here on 27th.

It is said that Wells, Fargo & Co. will open a banking house at Barkerville.

Mr Marcus Smith will leave Victoria in a few days to explore a line for the railroad from Esquimalt to a point opposite Valdez Islands.

Benjamin Evans and Peter Arthur, passengers by the steamer Otter, and last from Slate Creek, Omineca, were arrested on a charge of burning sluice boxes belonging to Matthew Kane and robbing them of the gold contained in them. The alleged thieves are in jail.

The Idaho sailed at 10 a.m. on the 28th for San Francisco, carrying about 120 passengers, 80 tons freight, a large mail, and about $200,000 in gold.

The Otter arrived from Skeena on 28th.

The Woollen Mills at Oregon City, valued at $750,000, have been totally destroyed by fire. Insured for $65,000 between the Imperial and Phœnix.

Thomas Stevenson, who pleaded guilty to an indictment charging him with obtaining $1200 from Wells, Fargo & Co., is to be indicted for fraudulently obtaining $1500 from the Bank of British North America at Barkerville.

Mrs Fair's friends are writing threatening letters to Judge Dwinelle, of San Francisco, before whom she was convicted. The letters state that he will soon be taken off by an avenger.

DEATH OF HORACE GREELEY.

New York, Nov. 29, 8 p.m.—Horace Greeley died very quietly and without pain at 10 minutes to 7 this evening. He was conscious and rational to the last. His life was insured for $100,000 for the benefit of the Tribune Association. It is announced that the Chappaqua homestead of Greeley is to be abandoned by the family, and the property is to be auctioned off to-morrow.

New York, Dec. 1—The remains of Horace Greeley were brought to this city from Pleasantville on Saturday evening, and are now at the residence of Daniel Sinclair. The two daughters of Greeley and Mrs Gibbon accompanied the remains to this city. The Herald says that President Grant will take part in the obsequies of his late distinguished rival in the political field. The Trustees of the Tribune, at a meeting on Saturday, appointed a committee consisting of Sinclair, Reid and Cleaveland, to take charge of the arrangements for Greeley's funeral, and they have fixed it for Wednesday, at 11 o'clock, from Rev. Dr. Chapin's church. No special invitations will be sent out, but it is already known that organizations of various kinds are taking measures for attending in a body.

EUROPEAN.

Berlin, Nov. 30—The German Government has authorized an emphatic contradiction of the report telegraphed from Paris to London that agent Mantifuel, Commander of the German forces in France, had orders to concentrate his forces in case of certain contingencies.

Paris, Nov. 30—The Assembly approves of the resolution of Minister Dufaure, which has had a quieting effect, and tranquility prevails. It is reported that the Gaulois is to be suppressed. In the Assembly this afternoon the minutes of the preceding sitting were ratified. The gloomiest impressions prevail this evening in Paris. It is believed it will be impossible for Thiers to govern the country under the circumstances. The Monarchists declare they will oppose Thiers to the bitter end unless he disavows all responsibility for the course of Gambetta. Le Fource has resigned. The President and Ministers are now closeted with Thiers.

London, Nov. 30—Queen Victoria has sent £2000 to Italy for the benefit of the sufferers by the inundation.

Versailles, Nov. 29—After an excited debate this afternoon the Assembly approved of a resolution proposed by Minister Du Faure. Before the close of the debate Thiers elaborately addressed the house for an hour and a half. He acknowledged the Assembly had sovereign power, condemned Socialist doctrines, and impressively affirmed his belief in God. He claimed to belong to no party, but he was personally in favor of a Constitutional Monarchy. "The Monarchy is impossible. We have a Republic: let us make it conservative." He closed with the declaration that the duty of Government was firmness, moderation and impartiality to all orders and all parties.

PREVENTION BETTER THAN CURE.

I HAVE been requested by several respectable parties, who can testify to the efficacy of my system, to again make public the fact that

Moses' Hair Invigorator

WILL PREVENT BALDNESS,
RESTORE HAIR THAT IS BECOMING THIN OR FALLING OFF, and effectually CURE SCURF OR DANDRUFF.

This is not a mere assertion on my part, as I have in my possession numerous testimonials certifying to the success of my remedy.

I do not of course pretend that I can make the hair grow on heads which have been bald for years; but I will guarantee to stop the hair from falling off, to increase its growth, and effectually remove Scurf or Dandruff.

CERTIFICATE.

This is to certify that during last spring my hair was rapidly falling out and my head was fast becoming bald, when I applied to Mr W. D MOSES, Barber Barkerville, who in a few weeks restored my hair to its former healthy state (DAVID GIBBONS.

NOTICE.

HOUSE OF ASSEMBLY, 2d August, 1872.

Extract from Rules relative to Private Bills.

50. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line, the construction or improvement of a Harbor, Canal, Lock, Dam or Slide, or other like work; the granting of a right of Ferry; the Incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the right or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz.:

A Notice inserted in the British Columbia Gazette, and in one newspaper published in the district affected, or if there be no newspaper published therein, then in a newspaper in the next nearest district in which a newspaper is published.

☞ Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the petition.

51. Before any Petition praying for leave to bring in a Private Bill for the erection of a Toll Bridge is presented to the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed in the preceding Rule, also at the same time, and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

CHARLES GOOD,
Clerk of the Legislative Assembly.

THE CARIBOO SENTINEL

SATURDAY, DEC. 7, 1872.

A communication lately appeared in the Victoria Standard which is of interest to this community, as showing the spirit in which this district would be dealt with by the Opposition should they unfortunately succeed in defeating the Ministry and take office without some leaven of the present Government to temper the revolutionary tendencies of their would-be successors. The writer, after disposing of the Indemnity question to his own satisfaction—a matter that we do not intend to re-open, as the people of this district have already expressed an opinion upon it—goes on to say: "Cariboo's endorsement of increased remuneration is of very small significance; dollars are of much less relative value there than elsewhere, and besides it may well be satisfied. Has it not obtained leave to draw its main supplies from abroad, over roads sustained at the cost of the rest of the community? And Cariboo has also endorsed what the entire voice of the country outside of it has condemned—namely, the reckless extravagance of Ministers." The assertion about the free roads maintained at the cost of the rest of the community is simply absurd. The main articles of consumption in Cariboo are now raised in the Province. That there are still large quantities of foreign goods imported is not the fault of the Cariboolites, but due to a lack of energy and enterprise on the part of our friends in the lower country, who could spend their time and money much more profitably in endeavoring to develope the natural resources of the country than in wrangling about the wages of a constable or a clerk; and when they find that money must be raised to defray the expenses of the Government, seeking to throw the burden of taxation upon the miners of Cariboo. The people of this district are still large contributors to the public exchequer from which the cost of the maintenance of the wagon road is defrayed, and not from funds provided by the rest of the community to the exclusion of Cariboo. Although it would be but a fair return that it should be so, as this district has borne a very large proportion of the taxation of the Province prior to the last session of the Legislature. No better proof can be adduced of this than the fact that the lessening of taxation here is expected to create a deficiency in the revenue much more than the alleged "extravagance of Ministers."

We can well understand that some people with narrow, sectional views feel somewhat annoyed now they are called upon to bear their fair share of the public burdens, so much of which has hitherto been borne by the miners of this district—no doubt imposed under the impression that "dollars are of much less relative value here than elsewhere." This idea is one that our legislators must resolutely abandon, as our industry has been seriously crippled by the withdrawal annually of such enormous sums from our people in the shape of road tolls and excessive mining fees that we are only now beginning to recover from our previous exhaustion and project fresh enterprises that will bring wealth to their projectors and increase the material prosperity of the whole country. Again, does the fact of an excessive and unjust impost having been repealed debar the people of Cariboo from expressing an opinion upon other matters outside of those that immediately affect their own district? Public opinion should be Provincial and not sectional. Cariboolites have too high a sense of the duty they owe to their country to entertain any such narrow-minded views of these duties, and intend to make their voice heard and their influence felt upon all matters of public interest, without favor on the one side or prejudice on the other, and will most earnestly protest against the re-imposition of any taxation levelled specially against our one great industry. In that they will have the support of all those districts depending upon this for a market. The interests of the whole country are so interwoven with the successful result of our mining enterprises that any taxation tending to prevent their inception or retard their completion would react most injuriously upon all classes of the community.

Extravagance in the administration of public affairs is the last thing that Cariboo will endorse. Prove the fault first, pass judgment upon it after. Nothing is so essential to the well-being of the country as that its business be conducted in an economical manner. Economy, however admirable, when carried to the verge of parsimony, may defeat the very end it seeks to attain. It is possible to save the spigot and let out the bung-hole. Efficient services are worth paying for, and we should be sorry to see a system inaugurated by which honorable and upright men would be driven from the public service and their place supplied by the ready tools of time-serving politicians.

THE CARIBOO SENTINEL

SATURDAY, DEC. 7, 1872.

BY TELEGRAPH

LAST NIGHT'S DISPATCHES.

SODA CREEK.

Soda Creek, Dec. 6—The weather is quite mild, and the snow on the hill sides is disappearing fast.

Mr and Mrs R. H. Brown arrived here this afternoon.

In several places between here and Alexandria the water is six inches deep on the road.

CLINTON.

Clinton, Dec. 6—Barnard's stages met at this place to-night. The up-stage has no passengers. The weather continues mild, with more or less snow every day.

Mr George Purdon's star engagement at this place with the British Columbia Telegraph Company terminates from this date. He takes his departure for California by next stage. Mr P. is succeeded by Moike O'Conor, of Oregon, a well known and experienced artist.

YALE.

Yale, Dec. 6—Weather moist. The steamer Hope is expected this evening. No business doing. The butcher shop starved out and closed to-day.

HOPE.

Hope, Dec. 5—Mr Thomas Robinson, with a mail from Kootenay, and Mr Landveight, from Rock Creek, arrived in Hope to-day. They report travelling across the mountain very good for this season. The weather has been very severe at Rock Creek and Osooyos.

VICTORIA.

Victoria, Dec. 6—Yesterday the new Christ Church Cathedral was consecrated. In the evening Archdeacon Reece preached a sermon in which he warmly advocated the adoption of Ritualism, with all the services and ceremonies connected therewith. He said the Church of England had been dead for the last century, and predicted its decay unless Ritualism were adopted. The sermon was listened to with ill-concealed impatience by the congregation. At its close Dean Cridge said he raised his protest against the views expressed by Archdeacon Reece. They were wrong, and he could not again sit quietly and listen to their expression.

The congregation here gave vent to their feelings by stamping and clapping, during which a number of ladies retired precipitately. After the service was over the congregation gathered in knots and groups and discussed the matter in rather an excited manner.

UNITED STATES.

New York, Nov. 29—The Herald's Washington special confirms the report of trouble between France and Germany, mentioned in yesterday's dispatches.

VIOLENT STORM.

New York, Dec. 1—A St. John's, N.B., dispatch gives an account of a violent storm which raged there on Friday night and Saturday, doing great damage to the shipping in the harbor and wrecking a number of vessels outside, with considerable loss of life. In the city several buildings were blown down, houses and barns demolished, and fears are entertained for the safety of the fleet which left this port the other morning.

FUNERAL OF HORACE GREELEY.

New York, Dec. 4—The funeral of Horace Greeley took place at the church of the Rev. Dr. Chapin. The Rev. Chapman opened the ceremony, reading from the Scriptures. Miss Clara Louisa Kellogg sung very touchingly, "I know that my Redeemer liveth," after which Rev. Henry Ward Beecher delivered a funeral oration.

The procession then started for Greenwood Cemetery. Among the prominent personages present were President Grant, Governor Hofman, Vice-President Wilson, Minister Washburne, Secretary Belknap, Gen. Schurz, Vice-President Colfax, and Senator Trumbull.

It is estimated that 40,000 persons visited the City Hall yesterday. The funeral procession, both in point of numbers and in representative personages, was the greatest the city ever witnessed.

EUROPEAN.

Berlin, Nov. 29—In the Lower House of Diet, after a brilliant speech by Herr Falk, in which the determination of Government to wage war with the influence of Rome was announced, a motion was introduced by Herr Maltinkrodt against all exclusion of members of ecclesiastical orders as teachers from the public schools. The motion was rejected by a vote of 242 to 815.

London, Nov. 29—The steamships Russia and Oceanic have arrived out. The latter experienced very heavy weather.

Madrid, Nov. 29—An excitement was created by the announcement that France contemplated placing an army of reserve on the Spanish frontier, and that troops were already arriving on the border. The statement, however, proved unfounded.

The King is fast improving in health.

Rome, Nov. 24—The meeting of Radicals called for to-day having been prohibited trouble was anticipated. Troops were posted yesterday in the principal squares and at all strong points of the city. The radicals have as yet made no organized attempt to resist the Government decree, and the city is quiet this morning. During last night some arrests were made of disorderly persons, but with this exception no disturbance has occurred.

FEARFUL STORMS IN EUROPE.

London, Dec. 4—The storms in the north of Europe on November 4th were unprecedented in severity. There is no record of so furious or destructive a tempest for nearly 20 years. The railways to different points of the compass from Berlin are encumbered or broken. Business on the Bourse is at a standstill. Sea walls have been smashed to atoms, and railroad trains swept away by the angry waters.

Accounts from other points are of a like description. The greater part of Grasse (in France) was under water, there being five feet of water in the streets of the town.

The total number of crafts foundered at St. Kautzand (?) was over 80.

The steamship Cresswell, from Falmouth for Cork, was lost during the voyage, add the crew and 31 passengers perished.

MINING INTELLIGENCE.

WILLIAM CREEK.

The Forest Rose, Ballarat and McPherson companies are washing underground with very good results.

LOWHEE CREEK.

The Black Bull co. are rocking under ground with fair success, considering the difficulties under which they labor. The Victoria and Brown companies are making good wages, the latter rocking. The Calaveras are driving ahead with their drain.

JACK OF CLUBS CREEK.

The Discovery cleaned up 93 oz. last week without having cleaned any bedrock, consequently expect a big wash up this week—probably 200 oz.; they are only 150 feet from the upper line of the Two Sisters. The Two Sisters cleaned up 59½ oz. for the week, but on Monday last the gudgeon of the wheel broke from some unexplained cause, consequently this week they are not working below. The Two Brothers are going to run their tail-race ahead to find clay.

LIGHTNING CREEK.

The Vanwinkle co. continue running their drain. The Vancouver co. have their pump in position and will commence pumping to-day (Dec. 4). The Gladstone co. are driving for the channel; the ground is wet and troublesome. The West of England are about getting a new pump, not being able to master the water with the present one.

HARVEY CREEK.

The Manitoba co. are blasting over falls.—The Perseverance co. washed up 28 oz. last week. The Foster co. are down about three feet in rock, and purpose sinking three feet more before driving out. The Cummings co., who have been driving up stream, think that they are not in the channel, and as their labors have hitherto been unsuccessful, will take steps to ascertain that fact.

MINING RECORDS.

WILLIAM CREEK.

Rising Sun co.—Nov. 25—Recorded in favor of R. H. Brown, 2 interests in the Rising Sun co., on the right bank of William creek; a re-record.

PERKIN'S GULCH.

Nov. 22—Recorded in favor of Henry Jones, W. Brown and A. Townsend, 3 claims situated on the flat at the west side of Perkin's gulch, near its mouth, commencing at the right side line of the Vanwinkle co. and running up stream 300 feet. To be known as the Gopher co.

WILSON GULCH.

Nov. 25—Recorded in favor of John McCormick, John Ritchingham, Sam. Pearce and H. McDermott, 4 discovery creek claims on Wilson gulch, commencing at the old Discovery shaft and running down stream 600 feet; also in favor of R. H. Brown, James Wickham, M. Hilton, A. Mountford, John Martin, James Montgomery, and Alex. McFarland, 7 creek claims in trust for the above co., commencing at the lower line of the Discovery co. and running down stream 700 feet, in all 1300 feet creek claims. To be known as the Discovery co.

ANTLER CREEK.

Nov. 25—Recorded in favor of Paul Cairn and Bule Jack, leave to divert 50 inches of water from a small creek about 7 miles below Grouse creek, and falling into Antler about one mile below applicants claim; point of diversion about one mile from mouth of said creek, on left side of Antler; said water to be conveyed in a ditch to applicants claim on tributary of Antler creek, about 6 miles below the mouth of Grouse.

LOWHEE CREEK.

Dec. 2—Recorded in favor of Matthew Lynch and Peter Lynch, 200 feet of ground for mining purposes situated on Lowhee creek, commencing at the corner of the Blacksmith's shop and running up stream 200 feet on the western bank of the creek. To be known as the Point co.

GROUSE CREEK.

Dec. 3—Recorded in favor of John G. Bastedo, 100 feet of mining ground, commencing 270 feet below the Canadian co.'s upper line and running down stream. To be known as the Winter co.

MINING COURT.

[Before H. M. Ball, Esq., Gold Commissioner.]

FRIDAY, Dec. 6, 1872.

MINERS' DRAIN CO. (per J. Pascoe) vs. CARIBOO CO.—Suit to recover $60 for work done.

The examination of the plaintiff showed that he had been hired by the Drain Company, against whom his action should have been brought, as he was not authorized by them to sue the Cariboo Co. for their assessments as shareholders in the Drain Co. Plaintiff was therefore non-suited.

DEATH OF HORACE GREELEY.—It is with heartfelt regret that we record the telegraphic announcement of the death of Horace Greeley, and we cannot let it pass without paying our little tribute of respect to the memory of a good man, who by his talent and perseverance raised himself from a position of obscurity, until by a large section of his countrymen he was considered worthy of filling the Presidential chair. He has undoubtedly wielded a great influence, and perhaps done more to mould public opinion into its present shape in the United States than any living American. To say that he at times advocated doubtful doctrines and made mistakes is but to say he was human. His death is the more to be regretted at the present time, as one cannot but feel that his last moments must have been embittered by the sense of his defeat. Americans of all shades of political opinion will deeply mourn his loss, and it will be long ere the country of which he was so distinguished an ornament forgets the name of Horace Greeley.

THE FIRE BRIGADE held their regular monthly meeting last night. Mr E. Neufelder was elected Treasurer in the place of Mr J. H. Todd, resigned. The indebtedness of the Company up to 1st October is $138, and next week a subscription will be started to pay the liabilities. We hope our citizens will subscribe liberally, so that this highly useful institution may be placed in a satisfactory financial position. The new hose sleigh will be ready next week.

Notwithstanding the great difficulties he has had to contend with lately, Superintendent McMicking has succeeded in putting the line in British Columbia in good condition, and it is now in excellent working order through to Victoria.

THE REV. FATHER MCGUICKEN arrived in Barkerville yesterday. The usual services will be held in the Roman Catholic Church, Richfield, on Sunday.

FIRE.—On Monday last the roof of the house in Barkerville occupied by Mr D. Nordenburg was discovered to be on fire. The alarm was given and the Brigade were quickly on hand, but their services were not required as the fire was extinguished by a few buckets of water. The fire was caused by foul stove-pipes. This is the second time within a few weeks that this has happened in the same place. It would be well if the authorities were invested with the necessary power of fining delinquents for neglecting to clean their stove-pipes; failing that, the Brigade might turn on the water and drench them a little as a warning to others.

POLICE COURT—In the Police Court on Wednesday two Indians—Tom (Thompson river), and Tom (Stickeen)—were brought up charged with creating a disturbance in a Chinese house at Vanwinkle. It appeared from the evidence of Constable Archer, who brought the prisoners over, that both Indians had drawn knives and threatened to kill all the Indians in the country. They were sentenced by the Stipendiary Magistrate to one month's imprisonment with hard labor.

"WE'LL ALL TAKE A RIDE."—Harry Willmot's fast team still runs between Barkerville and Lightning creek, opposition having failed to drive the irrepressible Harry off the road. We advise pleasure seekers to avail themselves of the opportunity to enjoy a good sleigh ride, as the roads are good, the air exhilirating, and the Lightning creek claims will now well repay a visit.

ON Antler Creek lately, in the Nason claim, a quarrel occurred between two men named Evans and Davis, resulting in Davis being knocked down the shaft twice with a shovel, without, however, very seriously injuring him. There would appear to have been but very little provocation for such a serious assault.

MR R. H. BROWN, Superintendent of the Lane & Kurtz Company, left here on Wednesday for the lower country to expedite the forwarding of the machinery for that company left on the road by the teamster, who it is said has been guilty of negligence in not making greater exertions since the snow fell to send it on to its destination.

MR JAMES WHEARTY, a well known old Cariboolte, and a member of the Black Bull Company, Lowhee Creek, died last month in San Francisco. Requiescat in pace.

MRS. ANDREW KELLY, of Barkerville, was thrown from a sleigh on Thursday on the road to Lightning Creek, and her wrist severely sprained.

BARNARD'S EXPRESS, with the mails, is expected to arrive on Thursday next.

SLIPS OF THE PRESS.

LORD BROUGHAM

Was fond of relating an instance of misreporting, which was no joke to the victim of it. A bishop, at one of his country visitations, found occasion to complain of the deplorable state of a certain church, the roof of which was evidently anything but water-tight; after rating those concerned for their neglect, his lordship finished by declaring emphatically that he would not visit the "damp" old church again until it was put in decent order. His horror may be imagined when he discovered himself reported in the local journal as having declared: "I shall not visit this damned old church again." The Bishop lost no time in calling the editor's attention to the mistake; that worthy thereupon setting himself right with his readers by stating that he willingly gave publicity to his lordship's explanation, but he had every confidence in the accuracy of his reporter. The editor of an evening paper could hardly have had similar confidence in his subordinate when the latter caused his journal to record that a prisoner had been sentenced to "four months'

IMPRISONMENT IN THE HOUSE OF COMMONS!"

In this case we fancy the reporter must have been in the same exhilirated condition as his American brother, who ended his account of a city banquet with the frank admission: "It is not distinctly remembered by anybody present who made the last speech!"

Advertisers are adepts at ambiguity. A lady advertises her desire to

OBTAIN A HUSBAND

"with a Roman nose," having strong religious tendencies." "A spinster, particularly fond of children," informs the public that she "wishes for two or three, having none of her own." Somebody wants "a young man to look after a horse of the Methodist persuasion." A draper desires to meet with an assistant who would "take an active and energetic interest in a small first-class trade, and in a quiet family;" and a Boston chemist advertises "the gentleman, who left his stomach for analysis, will please call and get it, together with the result."

SLIPSHOD ENGLISH

is not, however, confined to the advertisement columns, or we should not be able to read of the shooting of a wild cat "by a little boy five feet eight inches long;" of a procession, which "was very fine, and nearly two miles in length, as was also the prayer of Mr Perry, the chaplain; nor should we be "much scandalized to note the fact" that "Miss Corry, in the presence of a large number of Admiralty officials, named the ship yesterday, and she was quietly warped out to her moorings in the river by ropes." An American paper, dilating upon the success attained by a "self-made man," said he "arrived in California twenty years ago with only one shirt to his back, and since then has contrived, by close application to business, to accumulate over ten millions!" President Taylor's celebrated bull: "We are at peace with all the world, and continue to cherish relations of amity with the rest of mankind," is pretty fairly matched by one perpetrated by an English theatrical paper, which, after announcing a forthcoming benefit performance, went on:—"Of course 'every one will be there,' and, for the edification of those who are absent, a full report will be found in our next paper."

SEPARATING BEDFELLOWS.—At the Wisconsin Fair, says a writer in the Chicago Journal, one of the most laughter-provoking of the many "patents" exhibited was a bedstead with a partition extending from the head-board about half way down the bed. The inventor claims that the object of this great invention is to prevent bedfellows from inhaling each other's breath. Doubtless, in some cases, the dividing line would be very desirable. Many were the jokes perpetrated on the "patent divorce court," as the new invention was called; and as all the married folks took a wide latitude in discussing the new arrangement, very many sharp hits and dubious puns were made at the expense of the invention, and at each other's as well.

A MICHIGAN MEJUM—ONE OF HER PATIENTS AFFLICTED WITH "MEWCUSS" AND "KATARR."

A lady living in the Western part of the city, who has been ill a couple of years, the disease being of a rheumatic character, with no dangerous symptoms, was induced a few days ago to let another lady make a clairvoyant test of her case. A lock of the sick lady's hair was cut off and sent to a woman at Milford, Oakland county, who makes a business of going into trances, discovering the causes of disease and curing them. The hair was sent, the woman went into a trance, and the following letter gives her diagnosis of the case:

"I find your case is one that baffles scill. The dyses is complycated; the spine is much disessed; have hurt it by a fall. The liver is ulserated, cause you raise a thick mewcuss. Your hed sympethises. You hev spels of feeling dizzy, and the scrofula in the blood, which has destroyed the vitality, causes some tendency to dropsy. The throat is effected by Katarr in the hed. You can, with proper treatement, be helped. I hoap this is not too late to Benafitt you; if you want treatment, I will attend you at wonce."

It is, perhaps, needless to add that the clairvoyant did not hit one symptom of the case, though she was in a trance for several hours, and guarantees a perfect cure inside of four weeks.
