JOB PRINTING OFFICE.

Cards, Circulars, Posters and Programmes for Balls and Theatrical Entertainments

Executed with neatness and dispatch. Terms moderate.

TO ADVERTISERS.

All advertisements (not inserted for any definite period) will be continued until ordered out, and charged for accordingly.

TO CORRESPONDENTS.

All communications must be accompanied by the real name and address of the writer; not necessarily with a view of publishing the same, but as security for its good faith.

THE CARIBOO SENTINEL

Is published in Barkerville every Saturday. Advertisements intended for insertion, must be delivered at latest at Six o'clock, P. M., the day before publication.

MINING RECORDS.

CHISHOLM CREEK.

Welsh Harp co.—June 29—H. O. Jones and Dav. Edwards, two creek claims commencing at the upper line of the Good Hope co. and running up stream 200 feet, including an old tunnel. To be known as the Welch Harp co.

LIGHTNING CREEK.

Ah Nee co.—June 30—Ah Nee & co. three hill claims situate on the south side and about ¼ mile below the Lightning Ditch co.'s claims.

Point co.—July 4—Chas. Ettershank, N. McCullough, T. Osborne, three hill claims on N.E. bank, commencing about 100 feet below Beedy & Lindhart's store and running down stream 300 feet. To be known as the Point co.

July 4—G. Aime, 100 feet on the canyon opposite the Kelly point.

NELSON CREEK.

Montgomery co.—July 1—J. J. Robertson, J. Topiano and Pat. Lynch, the whole of the Montgomery claim, consisting of 450 feet discovery claims. Re-record.

ANTLER CREEK.

Little Hope co.—July 1—Wm. Moses, 100 feet, creek claim, in the Little Hope co., abandoned by P. C. Donnelly.

VALLEY MOUNTAIN.

Huntingdon co.—June 30—Emily Bowron, J. W. Elder, W. C. McCormack, Wm. McKenzie, G. McKay, W. W. Dodd, six hill claims adjoining the Discovery co.'s upper lines. To be known as the Huntingdon co.

VALLEY MOUNTAIN.

Discovery co.—July 14—300 inches of water, to be taken from a point about a quarter of a mile below Mohawk gulch on Pleasant Valley creek.

Valley Mountain co.—July 6—Wm. H. Thompson, Robt. Michaels, Sam. Walker and Robt. Starrett, four hill claims adjoining Discovery co.'s west side line, and running down stream 400 feet. To be known as the Valley Mountain co.

M'ARTHUR'S GULCH.

Mahring co.—July 4—W. Keynton, A. Wilson, Thos. Gartling, F. Mahring and R. Middleton, each one interest. Re-record. Also. R. Middleton, Chas. McLean, A. Wilson, T. Gartley and F. Mahring, five hill claims adjoining the upper lines of the Mahring co. and running up stream 500 feet.

WILLIAMS CREEK.

Wide West co.—July 5—A. R. Carnochan, one interest; L. Wintrip and T. McCormack, each one-half interest. Re-record.

Well-Mary-Ann co.—July 5—George Janes, 125 feet. Re-record.

Foster-Campbell co.—July 5—Henry Shepherd, one interest. Re-record.

GROUSE CREEK.

Shy Robin co.—July 5—S. Pearce, one hill claim on west side commencing at the lower lines of the Shy Robin co. and running down stream 100 feet. To form part of the Shy Robin co.

Shy Robin co.—July 5—Thos Brydges, one hill claim on west side, commencing at the lower lines of the Shy Robin co. and running down stream 100 feet. To form part of the Shy Robin co.

Grouse Creek co.—July 7—Chas. O'Neil, O. Fontaine, P. McDonell, O. Crolly and J. McCartney, five creek claims, commencing at the French shaft and running up stream 500 feet to the lower line of the Big Gun co. To be known as the Grouse creek co.

MOSQUITO CREEK.

Discovery co.—July 1—Jos. Trevithick, two interests, and John Hollman one interest. Re-records.

Middle Shaft co.—July 2—N. H. Jenkins, 100 feet, and W. Pendray, E. Symons, J. Trevithick each two-thirds of 100 feet, creek claims, commencing at the upper lines of the Little Minnehaha co. and running up stream 10 feet above the middle shaft of the Willow co. To be known as the Middle Shaft co.

Willow co.—July 2—Hugh Phillips, 200 ft. Re-record.

Holman co.—July 2—F. Came, four interests. Re-record.

CANTON CREEK.

July 2—Wing Mow & co. four creek claims on a creek about five miles from Snowshoe and ten miles from Antler—a tributary of Keithley.

COOPER'S GULCH.

July 2—Ah Ling, 58 inches of water.

WHIPSAW GULCH.

Sing co.—July 6—Ah Sing & co., two creek claims, commencing at the upper line of the Cornubian co.

TELEGRAPHIC NOTES.

Dispatches from Fort Hays, Kansas, report the Indians between Camp Supply and Bear Creek to be numerous and on the war path. Several government wagons had been attacked, and a fight took place between 100 braves and a company of U. S. cavalry.

A great Independence mass meeting is reported to have been held in Montreal.

Fenians are said to have plotted to blow up a powder magazine at Gibraltar.

Bills have been introduced into Congress providing for the admission of British North America as States of the Union.

A tidal wave at Guadaloupe, West Indies, covered a great extent of land and suddenly dragged vessels far out to sea.

A number of Fenians had been brought before the U. S. Court at Canandaigua, N.Y., for breach of the neutrality laws, but the Grand Jury found no true bills. None of the witnesses summoned knew anything about the raid.

Louis Seligman, cigar dealer, Pacific street, San Francisco, committed suicide in San Mateo.

The British Columbia delegates have made satisfactory terms with the Dominion Government.

A pirate-filibustering expedition had been organised in San Francisco, and landed in Guaymas. The pirates, after committing sundry outrages and robberies, on hearing of the advance of Mexican troops, left with their plunder and two vessels which they seized. The steamer Forward, recently sold at Esquimalt, conveyed the pirates to the Mexican coast.

The Senate of the Republic of Colombo has proposed an alliance with the South American republics for the purpose of establishing independence in Cuba.

The miniature steamer City of Ragusa, only 21 feet in length, with a crew of two men, left Liverpool for New York and was driven ashore on the Irish coast. She is to be repaired and proceed on her voyage.

In the southern part of California small-pox is causing great mortality among the native population.

A house was burned on Hughes' ranch, 14 miles west of Knight's Landing, California, and Hughes' four children, and Miss Emma Wright, 16 years old, were burned to death.

The English steamer Prince Alfred, the pioneer steamer of the Nicaragua line, bound for San Francisco, had met with heavy weather and put into the port of San Quentin.

R. H. Lindsay, an actor, was badly stabbed at Virginia city by a man named Isaac Tompkins.

The volcano of Caburuco, near Tepic, Mexico, which has been dormant since the time of Cortez, has burst forth again, throwing ashes an immense distance and filling the skies with a column of smoke visible at a distance of 50 miles.

A Carson dispatch says that Price, tried for killing Decker at Empire City, has been found guilty of murder in the second degree.

At Ehrenberg, Arizona, a shooting affray occurred, and Jack Swartz mortally wounded one McIntosh. Swartz was released, having shot in self defence.

A Frenchman, named Henry Seguinard, an optician, committed suicide in San Jose, Cal. Cause—disappointed in business.

MEXICAN MINES.—In the States of Sinaloa, Sonora and Baja California, in northwestern Mexico, citizens of the United States have lost in mining adventures, within the last ten years, over $7,000,000, and fully one third of this sum has been furnished and lost by the people of California. All the mining adventures of Californians in Mexico have resulted in total and complete disaster; excepting perhaps one or two instances where a fractional part of the money invested may have returned to the pockets of the dupes inveigled into the foolish enterprises by the usual appliances resorted to by brokers and gamblers in mines to create a furore and sell worthless property. After the gold or silver is taken in the shape of bullion from the hacienda, before it can be got out of the country it encounters risks of robbery against which no insurance company would issue a policy at a much less premium than the amount insured. And, finally, a series of Government imposts amounting on the average to fully 20 per cent., decreases the bulk of coin by that amount. The exportation of bullion is against the law, which decrees confiscation if it is discovered at a seaport, or in the interior, if being conveyed towards the coast.—[S. F. paper.

THOMAS O'NEIL, an old pioneer of British Columbia and a well-known character, died last week in a farm-house on the Bonaparte river. The deceased figured conspicuously as a military man, in former days, under Walker in Nicaragua, and is said to have been a full brother of General O'Neil of Fenian notoriety. Singular to say, he breathed his last at the home of a Canadian, in a peaceful, natural way, while his supposed relative is doing his best to reach a Canadian prison on the frontiers of the Dominion.

BUSINESS NOTICES.

PAIN KILLER

PERRY DAVIS & SON PROVIDENCE R.I.

PROP.

1840 1870

This Valuable Family Medicine has been widely and favorably known in our own and foreign countries upwards of

THIRTY YEARS.

It has lost none of its good name by repeated trials, but continues to occupy a prominent position in every family medicine chest.

It is an External and Internal Remedy. For Summer complaint, or any other form of bowel disease in children or adults, it is an almost certain cure, and has, without doubt, been more successful in curing the various kinds of CHOLERA than any other known remedy, or the most skillful physician. In India, Africa and China, where this dreadful disease is more or less prevalent, the Pain Killer is considered by the natives, as well as European residents in those climates, a SURE REMEDY; and while it is a most efficient remedy for pain, it is a perfectly safe medicine, even in unskillfull hands. Directions accompany each bottle.

Sold by all Druggists. jn2 1m

DR. SIDDALL, M.A.E.S., U.S.,

AND DENTIST,

HAS REMOVED TO BARKERVILLE, and is prepared to treat all kinds of disease and execute DENTISTRY in all its different branches in the neatest and best style. Teeth filled with pure Gold and Silver; also, False Teeth put in on Gold Plate, and upon pivots on old stumps or portions of the teeth, which very often remain quite sound in the jawbone after the tops are gone, and this is the best way for any person to have false teeth, as they are never removed for the purpose of cleaning like those upon plate, and are perfectly natural to the mouth and tongue, as much so as the original teeth were.

Parties who have got sound teeth would do well to call and have them cleaned, thus avoiding losing them as others have done through the injurious effects of what is called tartar, consisting of salivary (mucous) animal matter and phosphate of lime, which encrusts the teeth with a dark scale, loosens the gums, continues down to the bones, loosens the teeth and causes them to fall out without being decayed.

☞ Teeth extracted in the very best way known. Charges moderate. The best references given, and all work warranted to give perfect satisfaction.

☞ OFFICE—Opposite the Government Assay Office, my21 BARKERVILLE.

MISCELLANEOUS.

LUMBER! LUMBER!

MESSRS. MEACHAM & NASON are prepared to furnish Lumber at their Mills, William Creek, or deliver it to order.

LUMBER DELIVERED ON LIGHTNING CREEK AT THE SAME RATES AS ON WILLIAM CREEK.

Having a Planing Machine in operation they will also furnish Dressed Lumber at satisfactory rates. Planed Lumber and Shingles constantly on hand. jel1 tf

For Sale,

MOST EVERYTHING THAT IS USEFUL!

At Low Prices,

—AT—

THOS. FLETCHER'S

Second-hand Store,

BARKERVILLE. jel1

E. WATSON,

WATCHMAKER, JEWELLER AND ENGRAVER, Government street, next to the St. Nicholas Hotel, Victoria, V. I. Chronometers and Watches cleaned, repaired, and warranted. Every description of Jewellery made to order. Plain and Ornamental Engraving neatly executed.

Orders from the Upper country promptly attended to.

THE CARIBOO SENTINEL

SATURDAY, JULY 16, 1870.

THE NEWS.

The dullest mining season ever known in Cariboo will probably terminate in the most encouraging way, for future work, judging from the developments of the week. The great drawback on the success of mining in this region is the depth at which the richest placer deposits lie buried, and the absence of the capitalist miners who in California and Australia make up by the extent of their operations the deficit in the general yield of the mines. If mining in Cariboo were only a question of skill and hard work, we would have the pleasure of chronicling every week astonishing large yields of gold from our placer mines, for our miners possess sufficient of that kind of qualification for unearthing the precious metal. But there is a vast extent of auriferous ground in every section of the Cariboo gold range which the most enterprising and skilful miners cannot—if at all but slowly—bring into the condition necessary to enable them to extract the gold without the assistance of capital. The news of the week furnishes an illustration. The strike in the Black Bull tunnel, Lowhee creek; that of the Clarke company, on Last Chance creek, and the large yield of the Lightning claim. In each of these instances of success, a few working miners with the sparse means earned by their labor have succeeded in opening rich ground after two and three years of toil which, with the appliances capitalists could bring to the work, might be opened in as many months. There is not a better country, for mining, in which capital has so fair a field for enterprise as is Cariboo to-day. The present yield of gold is no criterion of the wealth it contains, of the yield which it can show if it had the same advantages which other gold mining countries are favored with by capitalists. In all this we are aware that we are indulging in the tedium of reiteration, but one of the principal objects of a newspaper should be to draw attention to the resources of the country. Our mines have only been worked where the labor of the miner, the carpenter, and the blacksmith suffices for the extraction of the gold. The more scientific appliances require to be introduced, and now is the time for doing so, when labor and material have levelled down to figures compatible with the profitable employment of capital. With quartz assaying as high as $1900 to the ton, we think we are justified in saying so. With placer leads paying as much as a hundred ounces of gold to a set of timbers—or in other words, ground measuring twelve feet by three and a half yielding $1600—it is plain that this country is worth the attention of capitalists. Untouched quartz ledges and deep placer deposits in all parts of Cariboo are available to all who have the means to work them. Then, again, there are large tracts of ground which are known to be rich with gold, but which cannot be utilized for want of water. Not exactly for want of water, but for want of facilities for distributing it. Enormous fortunes have been made in California by conducting water on to far poorer gravel benches than are to be found in Cariboo. Unfortunately, however, those who are engaged in attempting to develop the great wealth of the country are few in number and light of purse. Slowly, too slow, but necessarily so, the work goes on, and the limited results create a wrong impression abroad as to the resources of the country. The bad impression is made worse by the frequent efforts made to attract population from abroad by unconfirmed reports—we might fairly say by false pretences—of rich discoveries, as the news of the week goes to show, in another column of this paper. Let us all encourage exploration and prospecting, but do not throw disparagement on Cariboo and divert the population from their accustomed locations without the best of reasons for doing so. There is no better gold-mining country, we repeat, than Cariboo, and with the assistance of capital, it would soon place the colony in a prosperous light.

CARIBOO LITERARY INSTITUTE—This valuable institution is being made more attractive than usual by the receipt of additional books, and we understand that books have been ordered so that every month the subscribers will have the pleasure of perusing something new. It is intended to increase the stock of books, and by this means render the institution thoroughly worthy of public support.

RICH AGAIN—Yesterday, when the Black Bull co. were trying to secure the diggings, some dirt—about half a car load—fell from the face into the drift. On washing this dirt they obtained nearly 4 oz. of gold.

AQUATIC.—The miners of Harvey, Pine and Keithley creeks enjoy a little aquatic sport occasionally, and enjoy it all the more because, like ducks, they are not afraid of water. Last week a race came off between a Harvey creek crew and a crew from Pine creek. The distance to have been rowed was four miles on the Cariboo lake, but only one of the boats, the "White Swan," with a Harvey creek crew, succeeded in gaining the winning point. The other boat, the "Water Witch," manned by a Pine creek crew, was upset by a foul in the fourth mile, and a good ducking was enjoyed. We understand that these occasional enjoyments of the manly sport are for practice, as a grand regatta, to take place on the lake in September next, is in contemplation. It will be open to all comers. The value of the prizes has not yet been determined, but will be proportioned to the results of the "clean up" for the season. We are requested to state that Omineca boatmen are particularly invited to attend.

SUPPOSED FATAL ACCIDENT—On Saturday last, a colored man named Ferguson, who was engaged as teamster for H. Wilmot, at Quesnelmouth, was missing, together with Wilmot's horse and dray. On search being made, the tracks made by the dray were traced to Quesnel river. It is supposed that Ferguson had driven the dray into the river for the purpose of washing the wheels and filling up the shrinkage caused by the dry weather, and unexpectedly getting into a deep part was carried away by the current.

TRAILS—The want of good trails is a cause of much complaint on the part of miners, and as the Grand Jury will soon assemble it is desirable that they should again place the complaint before Government. The trail from William creek to Lowhee creek is particularly a bad one, and as there are six companies of miners, and likely to be for many years, on the latter creek, it would not be unreasonable to ask that the trail should be put in good condition or a new one made.

LIKE OLD TIMES—The strike in the Black Bull claim is to be honored to-day with the customary champagne treat of old times in Cariboo. Next to the complimentary toasts to the Black Bull co., the health of Mr. Lallier, of Richfield, will be drank, that gentleman having determined to revive the custom of the good old times in compliment to the perseverance of the company.

JUST IN TIME—The dry weather of the past two weeks has greatly diminished the supply of water for mining purposes. Some hydraulic companies have been obliged to stop work and others to commence cleaning up. Yesterday, however, rain began to fall and appearances indicate a rainy "spell," which would now be very acceptable and just in time.

[ADVERTISEMENT.]

Having, without authority, issued a challenge through the medium of the SENTINEL for Mr. Thomas Stocker to wrestle any man in Cariboo, and Mr. Stephen Mattice in particular, I hereby retract the same, as Mr. Stocker repudiates my agency in any matter pertaining to himself. JOSEPH MATTHEWS.

THE CARIBOO SENTINEL

SATURDAY, JULY 16, 1870.

BIRTH.

In Barkerville, on Monday, July 11, 1870, the wife of John Bowron, of a son.

MINING INTELLIGENCE.

WILLIAM CREEK.

The Gold Hill co. have opened the right bank a distance of 250 feet from the creek, and have commenced tunnelling and building a winter shaft-house. Last Saturday they struck the blue gravel, and expect to get bedrock in about ten days. The San Juan, Mountain, Bradley-Nicholson and Downie companies are about to clean up. The Bedrock flume co. are hydraulicing. The Forward co. have struck excellent prospects. The McLaren co. cleaned up 140 oz. last week and expect to have a corresponding amount this week. The Six toed Pete co. washed up 37½ oz. for four days' run last week, and had over 61 oz. for four days of this week. The other hydraulic companies are about to clean up. The Cornish co. have piped off a large extent of ground this season and a good yield is anticipated. The Barker co. are prospecting. The Diller co. are washing the surface. The Cariboo co. washed up 40 oz. last week. The Caledonia are on pay again, and the Lillooet co. are getting small pay. The Schoodiac co. are getting pay. The St. George and Forest Rose co. washed up 51 oz. for last week, and are preparing another set of works for the ground in which pay was struck last Winter. The Ballarat co. are still repairing their tunnel and are now making good progress.

M'CALLUM CREEK.

A few Chinese companies are working on this creek. The Cowling co. are drifting and making wages.

WALKER'S GULCH.

The Torquay co. are sinking a second shaft and had better indications of the channel than in the first shaft. The First Trial co. have sunk a shaft and found the bedrock pitching at an angle of 45 degrees. They think they are on the side of the channel. The Last Trial co. have set boxes and will have the ground tested very soon.

STOUT GULCH.

The Tattrale co. washed up 39 oz. for three days last week.

CONKLIN GULCH.

The Felix co. washed up 14 oz. last week. The Lone Star co. washed up 16 oz. The White Pine co. ran off the pay. The Ericson co. made wages. The Renfrew co. have got on to pay again and expect to wash up 60 oz. this week.

VALLEY MOUNTAIN.

The Discovery co. are bringing in a large ditch. The ground above and below the Discovery has been taken up for a distance of more than a mile.

VALLEY CREEK.

Barker No. 2 are sinking a well for drainage.

LOWHEE CREEK.

On Wednesday the Black Bull co. struck a prospect—a 4 oz. piece and $7 worth of smaller gold. Their tunnel is in about 2300 feet. The prospect was obtained in a drive of 25 feet from a blind shaft 35 feet deep and about 200 feet from the face of the tunnel. The company have been working for over two years under the most discouraging circumstances, and the good fortune indicated by this prospect has been fairly earned.

The Kelly co. have commenced cleaning up and got 27 oz. on Wednesday. The Victoria co. expect to take out 40 oz. this week. The Russell-Robertson co. are sinking a shaft. The Brown co. are cleaning up.

MOSQUITO CREEK.

The Minnehaha co are still washing headings. The Little Minnie co. have fixed up their shaft and are ready to open out. The Point co. are ground-sluicing. The Willow co. are again at work and expect to make good wages. The upper Willow co. are making $4 and $5 per day to the hand. The Tabb co. are washing underground. The Discovery co. have been repairing their tunnel and would commence taking out pay again this week.

RED GULCH.

The ground-sluicing claims at the head of this gulch are taking out small wages. The Boston co. are making about wages.

WHIPSAW GULCH.

The Connubia co. have been running a tunnel, and would open out on pay this week.

COULTER CREEK.

The Discovery co. are hydraulicing and will commence cleaning up next week. From prospects obtained they expect to do well.

SUGAR CREEK.

From 50 to 60 Chinamen are working on this creek and getting satisfactory pay.

GROUSE CREEK.

The Shy Robin co. are cleaning up and making wages. The Salt Spring co. have run off a large piece of ground and are preparing a pump to bottom in the deep ground which paid well last year. The Union co. are cleaning up. The Queen of Sheba co. are ground-sluicing. The hydraulic companies were obliged to stop work on Wednesday for want of water. The Waverly tunnel is being run ahead.

GAYETTE RAVINE.

A few Chinamen are making about $3 per day.

BEGGS' GULCH.

The Welsh co. are averaging an ounce a day to the hand. The Skym co. are getting wages.

ANTLER CREEK.

Ground-sluicing is generally continued on this creek. A few companies have commenced cleaning up and taking out some pay. Hilton & co. have struck a prospect of $1 50 to the pan.

KEITHLEY CREEK.

The Monte Christo co. struck a prospect of 10 oz. to a set of timbers last week. The Gold Flat co. are running a drain and expect to strike bedrock in three or four weeks. The Stonewall co. are sinking a shaft for air. The other companies have repaired the damages done by the recent freshet and expect to take out pay soon.

HARVEY CREEK.

Point co. still prospecting. Laidlaw & co will clean up on bedrock this week. The Minnehaha co. are making wages.

LIGHTNING CREEK.

In the latter part of the week the Lightning co. came to rich pay again, and at the end of the week they had 233 oz., 123 of which were taken out on Friday and Saturday. The Ross co. washed up 46 oz. The Dunbar co. are said to be doing well. The South Wales co. have got down with their new bedrock shaft over 34 feet. The Victoria co. have sunk 34 feet in bedrock and are puddling up.

LAST CHANCE CREEK.

The Clarke co., at the mouth of this creek, after drifting through bedrock into the channel at the bottom of their shaft, struck a good prospect, consisting of a three-quarter oz. piece and about an ounce of fine gold with a few pieces of coarse.

CHISHOLM CREEK.

The Good Hope claim has not paid as well during the past two weeks as before. The Caradoc co. are sinking a second shaft. The Elim co. are preparing to sink a shaft. The Snowdon co. are running a tunnel and making from 10 to 12 feet per day. Halliday & co are drifting and making small wages. The Robertson co. continue cleaning up. The company above the forks on Jackson gulch are drifting, and the North Wales co. are preparing to sink a shaft.

CONGRATULATORY—The marriage of his Excellency Governor Musgrave to Miss Field, daughter of Cyrus Field, of telegraphic fame, has been the subject of much congratulatory remark, and in wishing them all happiness, coupled with a hearty welcome to the bride, we echo the general sentiment of Cariboo.

FOR FRANCE—M. Auguste, who has been engaged in farming at Okanagan lake for several years, has sold his stock and farm and intends to enjoy his little fortune of $30,000 in his native country, la belle France. Messrs. Harper Bros. bought his sheep, numbering 2500.

RICH QUARTZ—Some quartz from a vein in the Brown claim on Lowhee creek has been assayed at the Government Assay Office, Barkerville, and the result is—$1900 to the ton! The vein, however, so far as seen, is only ten inches wide.

EXPRESS—Barnard's express arrived early on Saturday morning last and left on Saturday night. Mr Dowdney came by the up express, and Hon. H. M. Ball and Mr A. Hoffman left by the down express. The express is expected to arrive again this morning.

RHUBARB—In the garden of the Rev. Mr Derrick there is some very large rhubarb growing. The stem of one of the plants measures 6½ inches in diameter and 28 inches high. The leaf measures 25x32 inches.

BENEFIT—Mrs S. P. Parker has been tendered a benefit performance, to take place on the 30th inst., by the Cariboo Amateurs, in consideration of services rendered to the Dramatic Association.

LATEST—The latest arrivals from Vital creek have brought news to the 1st July, but there is no change to note in addition to the news we publish to-day under the head of "Omineca Intelligence."

OMINECA INTELLIGENCE.

By the arrivals from Omineca this week the news previously received is confirmed. The backward stampede had not diminished but increased in the number of disappointed and returning miners. A few men, however, seem determined to continue in the new mining district for the summer, or as long as their supplies last. Some of them still cling to the belief that good mines are to be found in Omineca, and think that the country has not yet been sufficiently prospected. The majority of those who have returned are men who were not prepared to prospect, but had rushed up to the new diggings for the chances of immediately finding work or paying claims, and having been disappointed in both respects they were compelled to hurry back again. Not many of the Cariboo miners have returned, but those who have done so give the most discouraging accounts of the country and of the labor done. The Chapman, Discovery, Vital and a few smaller companies were working on Vital creek. According to the latest intelligence, however, the Vital co. were the only one which had taken out anything over wages, having washed up from six to nine ounces of gold per week with three men at work. Nothing new had been struck, and the disappointment was general, including the companies composed of the expeditionary parties of last year, who found on resuming work that the good pay taken out last year did not extend beyond the ground they had worked. Altogether not more than 100 ounces had been washed up at latest dates. Fred. Black intended to make another effort toward discovery on the tributaries of Nation river, and if not successful there he would return and start out from here to the country explored last autumn, between William creek and Castle river. A shaft had been sunk by Norton & co. on a tributary of Fall river, but only a few fine colors were found. A great many creeks in all directions from Vital creek and for a distance of fourteen miles around it had been prospected, but no satisfactory results were obtained. On Quartz creek some Chinamen had obtained prospects for $2 and $3 per day. They intended to test the ground more thoroughly. This creek, a very long one, lies about fourteen miles from Tatlah Landing, and is intersected by the trail to Vital creek. It derived its name of Quartz creek from the large quantity of quartz scattered on its bed. Flour was selling at 25c at Tatlah Landing, and was sold on Vital creek at prices ranging below cost of freight, owing to the quantity thrown on the market by the men about to return. John Polmere was making an effort to bottom a shaft in the Adair ground. The deep ground on Vital creek had not been thoroughly tested, and Polmere received assistance in the work from a few Caribooites, who were desirous of seeing the bottom before leaving. Silver creek, which was thought at one time to look well for mining, had been well prospected and abandoned.

THE CROPS.—Mr. Veith has twenty-five acres under cultivation at the mouth of Keithley creek, and good crops of barley, oats and vegetables are expected to be gathered. At the ranch about ten miles below Keithley creek, on the North Fork, the barley, about twelve acres, looks well. All the ranches in the upper country, which are not supplied by ditches, have a prospect for light crops in consequence of droughty weather.

MEMORY presides over the past; FELL'S COFFEE over the present. The first lives in a rich temple hung with glorious trophies, and lined with tombs; but FELL'S COFFEE has but one shrine, and that is every breakfast table. Its aroma walks the earth like a spirit, and can be found for sale at every respectable dealer's in British Columbia. Beware of spurious imitations.

ERRATUM—In our previous mining report it was stated that the Victoria co. on Lightning creek were down 13 feet with their bedrock shaft. It was the Vancouver co. who had sunk to that depth. The Victoria co. are down 30 feet in bedrock.

A PIONEER—The first butcher's cart ever seen in Cariboo arrived in Barkerville on Wednesday. It was brought from Victoria, and is for Messrs. Van Volkenburgh.

NUGGETS—The Dominique co. found a nugget of gold weighing ten ounces in their ground sluice last week. The Montgomery co. also picked up a two oz. piece.

DROWNED—Last week an Indian woman named Chau Tat was drowned in Fraser river near Soda creek. Shuswap Kate, another Indian woman, was with her at the time.

FOREST FIRE—A large fire occurred on Harvey creek last week. Laidlaw & co.'s flume narrowly escaped its ravages.

BOYLE'S train, laden with flour, arrived here on Tuesday.

HON. G. A. WALKEM is expected to arrive here to-day.

SUDDEN DEATH AND INQUEST.

On Sunday last an Indian woman named Lucy Bones was found dead in her bed in a cabin opposite the St. Savior's Church, Barkerville. An inquest was held on the following day by Dr. Bell, when the following particulars came out on examination as to the cause of death:

Tom, an Indian, saw Lucy about 1 or 2 o'clock on Sunday afternoon. She was in bed with a white man and her arm was under his head. He (witness) at once told the Siwashes who were in his room at the time that Lucy was dead, and he went to Chief Constable Lindsay and told him. He knew the white man at sight.

Swap-Shin—Saw Lucy alive on Saturday night; she was washing clothes in her house; she did not complain of being sick; saw her again on Sunday about 9 o'clock; she was drunk abed: a white man was with her, and her arm was under his head; knew the white man; Siwash Charley was also in the room; saw Lucy again at midday; she was dead.

Andrew Kelly—Heard a noise on Sunday morning; it seemed to proceed from Lucy Bones' cabin; didn't go near the cabin because the Siwashes were in the habit of making noises; between one and two o'clock was told that Lucy Bones was dead; gave information to Constable Bowron; didn't see any white man in the cabin; the noise was like that of a drunken woman.

J. W. Scott—On Saturday evening saw Lucy Bones from my cabin, which is opposite that of Lucy; she was hanging out clothes; on returning from work on Sunday morning at 1½ a.m. heard a good deal of noise in Lucy's cabin; spoke to one of them, named Charlie; asked him if Lucy was drunk; he said she was hi-you drunk all night; asked him if a white man slept in Lucy's cabin the night before; told me no; asked him if a white man was there in the morning; told me no; he said Lucy was at home alone; he didn't say she was dead, but hi-you drunk; between 4 and 5 p.m. on Sunday went into Lucy's cabin and saw her dead in bed; saw no blood or marks of violence.

Charlie, an Indian—On Saturday night Lucy was ironing; I was in the house, when a white man came and asked to sleep there; Lucy demanded money; the white man said he had none; Lucy told him it was very good if he would get some cocktails; he went and got one bottle; about midnight he went and got another bottle; I slept on the table; Lucy and the white man slept in the bed; the white man slept until midday, when he rose; I didn't hear any quarrel or high words between them; Lucy shouted a good deal, but it was from the effects of whiskey; I had no idea she was going to die or I would have told the white man.

Charles Hughes—Had been drinking on Saturday night; about 10 o'clock went to Lucy Bones' cabin; she was crying and drunk; said she had a sick tum-tum because she had lost her tillicum at Soda creek; after a while I told her I wanted to sleep with her; she told me she wanted some whiskey, and I replied that she had had enough, and I would not get it for her; I went away; she told me I might come bye-and-bye; I returned about two o'clock; she was pretty drunk; I went to sleep and in the morning I awoke and she was crying again; she got out of bed, went out, and came back to bed; Siwash Charlie was in the room; I went to sleep again; when I woke up there were some Siwashes knocking at the door; they came in and sat down; I told them to clear out as I was going to get up and dress; they wanted me to give them whiskey; I told them I would not do it; they all went out but one, a relation of Lucy; after I got up and dressed Siwash Charlie came in; about noon I went away, leaving the woman asleep in bed; didn't send for any whiskey; had no quarrel with her; she said she intended to be drunk for three or four days.

Hudson Bay Charlie—About 12 o'clock on Sunday, when taking a walk, Swap Chin and I went over to see Lucy; through the key-hole of the back door saw an Indian and white man; opened the door and went in; I shook Lucy and asked her if she was drunk; she screamed; I told the white man to put his hand over her mouth to stop her screaming; he did so; I went away; didn't see her dead till six in the evening; didn't think she was sick—only drunk.

The Coroner's Jury returned a verdict of "Death caused by intemperance."

SUPREME COURT—The Supreme Court will be opened at Richfield on the 18th July, at 11 a.m. Judge Crease will preside. He is expected to arrive to-day. Mr Pooley, Registrar, is also expected.

COFFEE—The Coffee prepared by WILLSON & RICKMAN, Fort street, Victoria, has superseded all other Coffee in the lower country. It is manufactured from the very best raw coffee, and its superiority is attested by the fact that wherever introduced it has become the favorite beverage.

MISCELLANEOUS.

STRANGE FREAK OF NATURE—A GIRL-HORSE. A poor German couple residing in New York have a female infant, which was born on the 2nd of April last, whose face and head are strangely deformed. The lower portion of the face resembles that of a horse, and the whole front portion of the upper jaw is wanting, and the nasal bone and cartilege are extended down over the lower jaw, making two large nostrils, which connect without division with the mouth, thus making but one large orifice in the face. The tongue is long and bifurcated. There is no roof to the mouth, the formation of the interior being exactly like that of a horse. The child is unable to take natural nourishment and is fed by hand. It eats voraciously, and devours as much as four ordinary children of its age. Its breathing is stentorous. The child's mother is 34 years of age, and this is her first child. A large number of persons have visited the family. The child is sickly and will not live long. The cause of the malformation is simple. Last summer, while enceinte, passing the carcase of a dead horse, the effluvia so overcome her that she threw up her hand to her head, uttering an exclamation of terror.

THE TWO SCROGGINSES—An Irishman, who had been absent for some time on an excursion, met one of his friends, who inquired of him what luck he had had. "O," he replied, "we had a most illigant time intirely." "Who were of your party?" asked his friend. "There was mesilf, one; the two Scrogginses, two; Terry Toole, three; Jim Kasin, four. There were five of us. There was Terry Toole, one; mesilf, two; the two Scrogginses, three; and Jim Kasin, four. There certainly were five of us. There was Jim Kasin, one; Terry Toole, two; mesilf, three; and the two Scrogginses, four. It's very strange that I can't remember who the fifth man was! There was mesilf, one; Jim Kasin, two; the two Scrogginses, three; and Terry Toole, four; and may the devil fly away wid me if I can recollect who the fifth man was!"

SINGULAR PHENOMENON—On the afternoon of the 4th ultimo there occurred a terrible storm of stones at a place called Las Playas, Argentine Republic, the same in which took place the memorable battle of 1863, in which El Chaco was defeated. The witnesses of the terrible scene have not yet recovered from their fright. The storm commenced about two o'clock in the afternoon and lasted until sundown. Gardens, orchards, vineyards, trees and crops of all kinds were cut into pieces by the stones.

A LAND GLACIER—The Nevada City Gazette says: Mr Ashburne, of Scotch Flat, informs us that the immense slide on their claim is still moving forward as regularly as a glacier. The mass thus moving is about 2,000 feet long by 500 feet wide; depth unknown. The moving mass occupies about 24 acres of surface.

WANTS TO KNOW—They have just introduced gas into Akron, Illinois, and whenever a metre is put into a house the man always wants to know "how long that box full will last?" The people out there all think the company retail it by the quart.

A CUTE DODGE—A man lately advertised in the London papers that for five shillings he would send to any address a handsome package containing one hundred presents. Each package turned out to be a paper of pins.

THE REASON—Hooper, the Mormon delegate to Congress, says that the reason our first parents did not practise polygamy was "that their marriage was exhaustive!" in other words, that Adam married "all the women in the world.

DANGEROUS CURIOSITY—An Illinoisan has become the fifth husband of a woman, just to see what effect it would have on him, as he has heard that her first husband ran away. that the second hung himself, the third shot himself, and the fourth drowned himself.

WANTED—By a maiden lady, "a local habitation and a name." The real estate she is not particular about, so that the title be good. The name she wishes to hand down to posterity.

PERSEVERANCE.—Determined perseverance seldom fails of reward. If you whistle long enough, a breeze will spring up.

WHERE?—An Ohio paper, after chronicling the death of a boy from the kick of a horse, furiously asks, "Where are the police?"

ADVERSITY—Josh Billings says that "adversity is a godless with frozen smiles."

LEA & PERRINS'

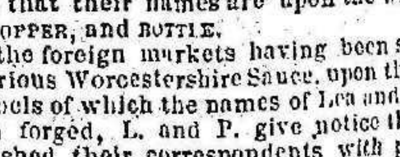
Celebrated

WORCESTERSHIRE SAUCE,

Declared by Connoisseurs to be

THE ONLY GOOD SAUCE.

Caution against Fraud.—The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" the public is hereby informed that the only way to secure the genuine, is to



ASK FOR LEA & PERRINS' SAUCE, and to see that their names are upon the WRAPPER, LABELS, STOPPER, and BOTTLE.

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against MANUFACTURERS and VENDORS of such, or any other imitations by which their right may be infringed.

Ask for LEA & PERRINS' Sauce and see Name on Wrapper, Label, Bottle, and Stopper.

Wholesale and for export by the Proprietors, Worcester; Crosse and Blackwell, London, &c., &c. and by Grocers and Oilmen universally.
