VICTORIA.

Victoria, July 19—The Terminus talk in our midst has given increased confidence to the public pulse. Real estate has an upward tendency, and it was noticeable at the auction to day of dry goods, clothing, &c., by Messrs. Davies that the buyers bid with much greater confidence than formerly.

Mr Mabood will be given charge of a party by the Local Government to survey and lay out blocks of land in the New Westminster district in readiness for settlement. Mr Sumers, of New Westminster, will have charge of a sectional corps in the same district. These are the first instances in the history of this province in which a regular system of surveys will have been instituted with a view to the settlement of white lands.

Six acres of land were purchased on Thursday for $3000, and an offer of $4000 for a small property lying near the anticipated Terminus was made a short time ago.

The Standard says: "We are in a position to state that the Railroad survey between Esquimalt and Seymour Narrows will be proceeded with at once."

The expected advices from Ottawa with regard to resuming work on the new Federal buildings have not yet been received.

London correspondence dated June 21st says the General Court of the Hudson Bay Company has published a report showing a profit on the year amounting to $100,000, as against $85,000 last year. A dividend of 12s. per share has been declared, which with the interest paid in January makes £1 per share as against 17s. last year.

W. H. McCrea, who for 14 years was chief clerk of the British Columbia Custom House, has resigned in consequence of ill health, with a pension of $600 per annum.

Victoria fish are in demand at Portland, but owing to wet weather cannot be delivered in good order.

The California, from Portland, will arrive to-day.

Victoria, July 21st—The rumors which are afloat on the Northwest coast concerning the fate of the unhappy occupants of the G. S. Wright at the time she was wrecked, are incorrect and have no foundation whatever. To those who are best able to judge of the locality of the disaster and the circumstances connected with it, the idea that any of the crew or passengers reached the shore is preposterous. This should allay the suspense under which the friends of the lost must be laboring.

A gentleman walking on the beach yesterday, near Beacon Hill, picked up a boulder which contained a large per centage of gold.

The schooner Oneida, from San Juan with a cargo of lime, experienced very rough weather on Friday night. Part of the cargo had to be thrown overboard, and the crew reached here in a most miserable plight.

EUROPE.

London, July 18—In the House of Commons to-day Ryland gave notice that when the Civil Service Estimates come up for consideration he should move to throw out the appropriation for building a house for the British Legation at Washington.

The Gazette announces that the Queen has given her consent to the marriage of Prince Alfred with the Grand Duchess Maria Alexandrina of Russia.

The Khan of Khiva has signed an agreement to pay Russia 2000,000 roubles as indemnity within ten years, in view of which he is confirmed on the throne. Russia continues to occupy Kingard, and will construct a new fortress on the Oxus.

Paris, July 18—The Cure of Santa Cruz having escaped into France, the Spanish Government, through its Charge d'Affairs, made application for his extradition as a common criminal. President McMahon refused the demand on the ground that the case did not come under the provisions of the Extradition Treaty.

Bayonne, July 18—Don Carlos, with 10,000 men, is marching on the city of Bilboa. Septano ordered his agents to purchase torpedoes with which to storm the fort.

Paris, July 19—The Shah and suite left Paris to-day by special train for Geneva.

The Assembly to-day voted a recess from July 18th to November next.

London, July 19th—A special to-day announces that a large Carlist force has been defeated by Government troops at Inqultada, after a battle of 18 hours, during which the town was frequently taken and lost by the opposite forces. The killed and wounded on the field of battle were so numerous that all the vehicles in the town and surrounding country were pressed into service for their conveyance.

Private advices from Vienna, dated 17th, state that up to that date there had been 61 cases of cholera reported, 41 of which were fatal. At one hotel, where there were 42 persons, some cases appeared, several of which proved fatal. The hotel was closed.

Perpignon, July 20—The Carlists have captured Inqultada, with 1500 prisoners.

UNITED STATES.

St. Louis, July 21—In the town of Louisiana, Pike county, Mo., eight deaths from cholera were reported between 8 and 12 o'clock last night, causing a great panic. Two deaths from cholera reported to-day.

Omaha, 21st—100 Mormons for Salt Lake passed here yesterday. To-day 200 Russian Mennonites left here for Columbus, Nebraska.

Philadelphia, July 21—John C. Cloud left here to-day to row to New Orleans for a wager of $5000. The conditions being that he must not sleep on shore till he reaches the latter place. The boat will be carried over the mountains and put into the Ohio river. Weight allowed 60 lbs.

New York, July 21st—Isaac Logan was stabbed and killed with a pitchfork lately by Michael Kearin in London. Logan was in charge of a loaded wagon with hay when Kearin, who had been on a spree, came up, took the pitchfork from him, and stabbed him through the lower part of the body, inflicting wounds from which he died this morning.

John Pitt, the Russian deserter, in pursuit of whom Marshal Stephenson lost his life, was arrested this morning by Deputy Marshal Crowley in a timber yard at South river, where he had obtained employment. A number of Russians in the yard made a desperate attempt to rescue him, but were cowed by the determined manner of the Marshal.

SATURDAY, JULY 26, 1873.

THE QUESTION OF "HEADSHIP."

It would appear from an article in a late number of the Victoria Standard that the question of "headship" or leadership of the British Columbia delegation at Ottawa has a rather close bearing on the policy pursued by the Dominion Government on the question of Cabinet representation. It is apparent a difference of opinion exists amongst the brilliant and learned gentlemen who do us the honor to represent us in the Dominion Parliament, as to who has the best right to the leadership of the small but ambitious band, and this disagreement has resulted in a sort of temporising policy having been carried out by the majority of our members on the question of Cabinet representation. We must confess that pevious to the publication of Mr. Thompson's letter on this subject, we, as well as the great majority of the people of the province, were under the impression that Mr DeCosmos, as the oldest, most successful, and at present our leading politician, was fairly entitled to be styled "leader" of the British Columbia delegation But it now appears that a majority of his colleagues think otherwise, and have not so far seen fit to acknowledge one of their own number as "leader," being probably impressed with a due sense of their own individual importance. This lack of "headship," however, may act injuriously on the interests of the Province. It is very generally admitted that each Province of the Confederation is entitled to representation in the Cabinet, and we think that but for this want of "headship" in our delegation the claims of British Columbia would have been pressed upon the attention of the Dominion Government during the present session of Parliament.

The Victoria Colonist is opposed to the assumption by Mr DeCosmos of the title of "leader of the British Columbia delegation." Now we are not aware that Mr DeCosmos has ever laid claim to that position, but why should not the leader of the Local Government, and consequently the leader of popular opinion be entitled to consider himself the leader of his colleagues at Ottawa, so far as the opinions of the people of this province on any matter of public import are concerned? Success is the true measure of ability, and Mr DeCosmos has been successful both as a journalist and politician; and it would be well if the Colonist were to cast aside its professional jealousy, swallow a dose of truth in order to rid itself of the painful mouth diarrhœa with which it is afflicted, and manfully acknowledge the status of a successful rival.

THE POST OFFICE MONEY ORDER SYSTEM.

Last year the question of extending to British Columbia the privilege of drawing Post Office orders on the other Provinces of the Dominion was brought before Parliament by Mr Thompson, our representative, and during the present session that gentleman, in conjunction with other members from this Province, has been urgently pressing the subject on the attention of the Postmaster General, and as appears by the subjoined letter, which has just been received, their efforts have been successful

The several offices recommended, we believe, were Victoria, Nanaimo, New Westminster, Yale, Clinton, and Barkerville:

Post Office Department, Canada,
Ottawa, 17th June. 1873.

GENTLEMEN,—Referring to your communication of the 20th ult., recommending the establishment of an exchange of Post Office Money Orders between British Columbia and the other Provinces of the Dominion, I am directed to inform you that the Postmaster General intends to take the necessary steps for giving early effect to this measure, and that he is much obliged to you for your suggestion as to the particular offices in British Columbia to which the system should at first be extended.

I have the honor to be,
Gentlemen,
Your very obedient servant,
WM. WHITE,
Secretary.

Hon. A. DeCosmos, M.P.,

THE CARIBOO SENTINEL

SATURDAY, JULY 26, 1873.

BY TELEGRAPH

Quesnelmouth, July 25—Mr H. F. Davis and Robert Armstrong arrived yesterday from Omineca. They report things looking up.

The party working on the river d'Elior are making good wages. The Osalinka prospecting party at latest dates were at the head waters of the d'Elior.

SODA CREEK.

Soda Creek, July 25—During the last few days the following teams have arrived:

Lawrence & Bailey's mule team goods for J. R. G. F N & Co, and diamond N. George Stewart's ox team, goods for H B Co and diamond N. Innes's two teams, goods for H B Co and diamond N. All the goods went up on the steamer.

The salmon run has commenced here. The wheat harvest will commence in about a week. Weather fine.

NEW WESTMINSTER.

New Westminster, July 25—The Government are starting parties under Mahood, Hammond and Turner to survey this district and lay it out in sections and quarter sections.—They commence at the boundary line at Semiahmoo bay, and work from there towards Langley.

The run of salmon is very great. Logie & Co. are canning at the rate of two thousand pounds per day. They have about sixteen men at work, and are salting at the rate of from sixty to seventy barrels per day. Gnen and Keays about the same each. The quality of the salmon is excellent.

A number of logging camps have been started on Pitt Lake.

The lumber business at Burrard Inlet is lively, the mills are running night and day.

The C. P. R. Survey under Hixon, and the trail party under Joseph Hunter, have commenced operations from Howe Sound to Lillooet.

Fruit of all kinds promises to be very abundant. The farmers are busy haying.

Four of the five sections of the Semiahmoo road have been let by contract and work commenced.

VICTORIA.

Victoria, July 23—Messrs. Dewdney and Mahood left yesterday morning for the mainland to engage in surveys of public lands of the province. The first mentioned gentleman will survey pastoral leases in the upper country. Mr. Mahood, with Mr. Turner of New Westminster, will take the lands of the lower Fraser and lay them out in blocks of 60 acres each for settlement.

Plans of the new Federal buildings are said to be on board the steamer Prince Alfred.

Victoria, July 24th—Right Rev. Bishop Seghers sailed in the steamer California for Sitka, Kodiac, the Aleutian Islands and other places on the Northwest coast, for the purpose of establishing Catholic missions in those places. He will be absent several weeks.

Messrs. Janion, Rhodes & Co. received letters from their correspondent at Honolulu of date June 20th, which state that H. M. Repulse would sail for Esquimalt on June 27th, from which it is inferred that the flagship was in port at date of writing.

At 5 o'clock this afternoon, at Esquimalt there will be a race between the cutters of H.M. ship Naid and the cutter of H.M. ship Reindeer. The course will be from the gunboat Boxer to Magazine Island and back.—Stakes $100 a side.

The Victoria Board of School Trustees advertise for an assistant teacher for the boys' department, salary $75 per month.

The Standard says: "We regret to learn that the efforts made in London by Mr J. D. Pemberton, to raise capital to work the Baynes Sound coal mine have proved a failure. At one time it was thought that no difficulty would be experienced in floating the project, but it appears from the unsettled state of the money market consequent on the stupendous failures at Vienna recently reported, together with other financial matters, it has been rendered impracticable to do anything at present in the way of opening up the above coal seam.

The steamer Otter is preparing to receive new boilers brought out from England in the Brierly Hill.

CANADA.

Montreal, July 20—About 4 a.m. yesterday a fire broke out in a planeing mill in Sauterne street. The fire brigades were promptly on the spot, but owing to insufficient pressure of water were unable to keep the fire from spreading to the surrounding buildings, and soon the entire block bounded by Sauterne, Baurell, Rue de Genet and Inspector streets, was in a mass of flames. At 7 o'clock the fire was got under control. About twenty buildings were destroyed, amongst which were Horboy & Co.'s carriage factory and planeing mill. Over one hundred families rendered houseless.

St. Johns, July 23—The steamship Tigress, in search of the Polaris, arrived this morning, all well. She will remain a day or two to coal.

Chicago, July 22—The members of the Dominion Cabinet have authorised the Toronto Mail to deny the charges made against them by McMullin and his associates in the correspondence published. The Mail says the statement therein made that Government or any member of it was a party to any agreement concerning the award of the charter and contracts are false. The Government promises to make all facts of the case public at an early date.

UNITED STATES.

New York, July 23—One of the survivors of the wrecked steamship Atlantic has entered suit against the owners for $100,000, claiming that he has been disabled for life by having his legs frozen.

New Orleans, July 23—A dispatch from Matamoras says an official telegram from General Cebattas, military commander of that city, dated Tepic, July 12th, reports the complete defeat of the revolutionary forces in the State of Jalezco, also the capture of the famous chief—Lozarda, who has for the last fifteen years refused to submit to the authority of the Federal Government, and has headed a band of malcontents in open revolution.

Washington, July 21—The Attorney-General has refused to recommend a pardon in the case of James Pickett of Idaho, sentenced to be hanged in that territory on Thursday for the murder of an Indian last August with a miner's pick.

St. Louis, July 23d—J. W. Hilliard, a well known actor, died here yesterday.

Williamsport, Pa., July 23—Isabella McBride, aged 50 years, was murdered last night by being shot through the head. Her husband, John McBride, was knocked down with a club, receiving severe cuts on his head, and when found this morning was found lying on the floor insensible. The old people lived alone, and a large sum of money—$3000—was found in the house. There is no clue to the murderers.

Des Moines, Iowa, July 22—An extraordinary daring robbery was perpetrated last night on the Chicago, Rock Island and Pacific Railroad. At this point there is a sharp curve on the road, where the robbers placed heavy timbers across the track. The engineer saw the obstructions and put on the breaks, but the robbers observing the movement fired on him and shot him dead. The engine struck the logs, went off the track into the ditch, followed by one wagon and car. Several passengers were bruised, but none seriously hurt. The robbers, who were masked, after emptying the express safe of its contents, rode off into the bush.

A BISMARK YARN.

New York, July 18—A correspondent of the World, under date of Berlin, June 19th, makes public a most remarkable conversation with Prince Bismark, in which the Prince, after giving expression to his weariness of spirit, is made to say:—"The truth is, there is not half a dozen men in Germany on our side. I mean those who clearly comprehend the real meaning of the conflict in which we are engaged, and in which, notwithstanding our success thus far, I believe we shall be beaten. The Emperor does not understand it; if he did, he would change sides in a moment. The Crown Prince perhaps does understand it, but he will put himself on the other side, if indeed he is not already there. The fight is, the Empire against Republicanism. It is a fight of the State for Empire and Monarchy, or a Republic against God; and in the fight the State will get the worst of it unless it succeeds in destroying the idea of God and placing itself in His place. Men say they must have something to worship. Well, then, let them worship the State in place of the family, as well as of the Deity. Let it be the Deity. In two generations, if we had the field wholly to ourselves, we could so obliterate the idea of God and of the imaginary rights bestowed on men by Him as their Creator, that the substitution of the State in His place would be effected, and the State, as in Pagan rule, be all in all." Bismark also remarked: "Nothing has amused me more than the praise which I have received from Protestant Churchmen of England and America. I have wished to crush Rome, that I might crush Christianity, and they have praised me for my services in the cause of what they called the reform of Christianity."

CUBA.

Havana, July 21—An official dispatch from Santiago de Cuba announces a severe engagement with the insurgents. No particulars received.

MEXICO.

City of Mexico, July 16—Yellow fever is spreading on the Gulf coast, and cholera has appeared in Vera Cruz. The elections are progressing quietly throughout the country. The Liberals claim that their candidates will be elected for Judges of Supreme Court and Attorney-General.

Madrid, July 21—The Carlists sacked and burned Iqualtado.

Bayonne, July 21—The Carlist forces which captured Iqultado were under the command of Don Alphonso, and comprised 3500 infantry, 200 cavalry, and three batteries of artillery. In consequence of this Carlist success the municipal authorities of Barcelona have organised a committee of safety, and press into service all men between the ages of 18 and 40.

Madrid, July 21—The Mayor of Valencia was assassinated during disturbances growing out of the recent elections.

EUROPE.

Madrid, July 21—The crews of the Spanish men of war Almanzeac, Vittoria, Mendez, Numeraz and Fernando Elicalaco having mutinied, the Government has issued a proclamation declaring them pirates, and authorising their capture and trial as such by any foreign power on the high seas. A decree has also been issued dismissing from the public service several Generals, and removing from office the Civil Governors of several provinces. A majority in the Cortes proposed to move a vote of censure on the Government for declaring the insurgent crews conspirators. It is reported that Prior, a member of the International Society of England, is in command of a rebel man-of-war.

Biarrariz, July 21—An attempt was made yesterday to assassinate Marshal Serrano while he was walking in the grounds of his villa. The assassins were arrested.

MINING INTELLIGENCE.

LANE AND KURTZ COMPANY.

The Lane & Kurtz company have their ditch completed, and their water-wheel will be finished to day. The pumps will start and the sinking of the new shaft resumed next week. The Superintendent expects to recommence work in the face next month.

WILLIAMS CREEK.

The Bedrock Flume co. washed up 50 oz. last week; this week a good yield is expected, as over 60 oz. was cleaned up in the middle of the week. Several of the other hydraulic companies have commenced to clean up. The Ballarat co. washed up 30 oz. for three days' work last week.

JACK OF CLUBS CREEK.

The machinery of the Two Brothers co. is running and works beautifully; sinking has been commenced. The Two Sisters co. is taking out good pay. The Discovery co. is still running up stream; have lost the bedrock, but expect to strike it soon.

ANTLER CREEK.

The Lothair company cleaned up 62 oz. last week.

LIGHTNING CREEK.

The Ophir co. have completed their drain tunnel and will let a contract for sinking a shaft. Eleven of England are making a little over wages; they are now on what they suppose to be a bench, have run across it over 80 feet, and still find it level. The Sawmill-Costello co. are still running their tail-race; have struck gravel on the top of the clay that will pay $3 or $4 a day. The Vancouver co. have been running a drive down stream, quartering across, to tap the water; will be in full blast by the middle of next week; washed up 107 oz. last week, and 40 oz. on Thursday. The Victoria co. are supposed to be across the channel, and have started a drive up stream; in running across with a 5 foot cap they have taken out 49 oz. which looks quite favorable; it is quite wet in the face, but the ground stands well. The Van Winkle co. are still running ahead with their drain; have about 50 feet more to go; will be in next week. The Point co. are working on a bench some 75 to 100 feet from what they supposed to be the channel, but are now under the impression it is the original level, from the fact that it is on a line with the Kelly and Nason points; they washed up 70 oz. last week and 88¼ oz. on Wednesday, and on Thursday night in the gravel got in one pan 3¼ oz.; they think they will have on Sunday some 200 oz.; as the ground now prospects it will pay over 30 oz. to the set. The Spruce co. are working from their upper shaft on the top of the old timbers, and last week got into the solid ground; the impression is that it will pay well from this out, gold having for the first time this season been seen in the face. Hunter & co. are still running ahead in the Great Eastern ground; expect to be in the "solid" in some two weeks. The Lightning co. will commence work next week, and will take out wages or more from the word "go." The Ross co. are working but not doing much; working over a pothole; expect to be on pay next week. The Eldorado co. are running ahead with their bed rock tunnel; do not expect to be in for some months. The Watty co. are making good wages.

NELSON CREEK.

Water on the outside creeks is small. The Chinamen on Nelson creek are taking out good pay, and have had a first-rate season for water. On

DAVIS CREEK

one company has washed up thus far $5000, and expect to wash up $2000 more.

BURNS CREEK.

McLeod & co. are drifting and making about wages. Stevens, McLean, & co. and Sangster & co. are idle for want of water.—Discovery co. have sunk a new shaft and are drifting from it; got a small prospect. Murdoch & co. are making about wages. Hit or Miss co. prospecting. Happy Jack co. drowned out. Dawson co. stopped for want of water. Buffalo co. are washing up the ground sluice; think they will make about wages. Haslow co. paying a little over expenses—Water is very short, or all the claims on this creek would be yielding much larger returns.

OLALLY CREEK.

Dawson & co. and Sangster & co., six men have started to sink a shaft on Olally creek. In case they do not succeed in bottoming it, they will run a tunnel.

FIRE.—The roof of the outbuildings attached to Kelly's hotel, Barkerville, was yesterday set on fire by sparks falling from the adjoining Assay office building chimney.—The Fire Brigade were quickly on the spot, and in two minutes and thirty seconds from the time of the first alarm had their hose laid and were ready to throw water, but fortunately their services were not required, as the fire was extinguished by a few bucketsful of water.

BARNARD & Co.'s up Express, with the mails, arrived about half-past 1 o'clock yesterday afternoon. The following passengers are booked for Sunday's down Express:—J. H Todd, A. Pendola, Wm.
