THE CARIBOO SENTINEL

WEDNESDAY EVENING, NOV. 20.

BY TELEGRAPH

YALE.

Yale, Nov. 20—Manifest of steamer Onward, Nov. 17: 28 pkgs, A K; 22, dia B; 14, Dunbar; 17, J G N; 162, M W; 150 dia O; 174, C W; 7, dia F; 4, J B; 30, A dia B; 3, A S B; 3, M & N; 68, R F D; 17, J; 4, K; 2, J B; 4, C Bros.; 1, B; 1, H B Co.; 16, B & G; 11, Tuttle; 6, B X; 11, Douglas; 1, Clapperton; 2, Wing Woo; 3, dia O; 1, Moorhouse; 2, Tingley; 1, Pope.

The Onward, after great difficulty, was able to reach Yale on Monday morning. As the water in the river has risen a foot or more since then, she will probably have no difficulty in reaching Yale to-morrow. It is now warm and rainy.

VICTORIA.

Victoria, Nov. 16—Walter Miles, an old Pioneer of this Province, died a few days ago at Victoria, leaving his children quite destitute.

Mayor McMillan and the new City Councillors were sworn in on Monday last.

The Local Government has ordered another Essay on British Columbia to be prepared in England by Mr Sproat, Agent General for the Province.

The Surveyor Generalship has been tendered to Joseph Hunter, M.P.P.

A banquet tendered to ex-Mayor Lewis and accepted by him, came off last night at the Pacific Telegraph Hotel.

A writ is to be issued at once for the election of a representative for Lillooet to fill the vacancy created by the death of the late A. T. Jamieson.

Matsqui, Nov. 19—During the past five weeks the weather in this vicinity has been very severe, commencing with very heavy rains, which lasted four days, causing a most unusual overflow throughout the entire country, carrying away bridges and doing great damage to the farmers. Several head of cattle were drowned near Chilliwack. The rain storm was followed by a heavy gale of wind from the north which lasted six days, doing great damage to the telegraph line and blocking the trails with fallen timber. Until within the last few days it has been utterly impossible to repair the line. Every means have been taken to hasten repairs, and we hope soon to have communication restored.

UNITED STATES.

San Francisco, Nov. 12—An old man named John Purcell was attacked by two highwaymen at Protorero last night. He resisted, when they knocked him down, leaving him senseless on the ground. The scoundrels only got $3 for their pains.

Salt Lake, Nov. 12—The horse disease has made its appearance in this city, to-day.

A new diamond excitement exists. It is believed to be the result of a scheme to sell diamond stock.

TERRIBLE CONFLAGRATION.

Boston, Nov. 9—3.30 p.m.—A terrible conflagration is now raging at the corner of Sumner and Kingston streets, and north and south of Sumner. The engines are hauled by hand.

Chicago, Nov. 10—The following dispatch has been received here, addressed to General Stager, General Superintendent of the W. U. Telegraph Co.:

"New York, Nov. 10—At 2 o'clock the fire was considered under control. The losses of property are very heavy. I have no data upon which to base an opinion as to the amount. I have seen several estimates of $250,000,000. Few people have been rendered houseless compared with the Chicago fire, and although large numbers have lost all I think none will be without shelter or food for many hours."

Boston, Nov. 11—The following are the general boundaries of the fire and the whole length burned:—Sumner street, across Federal, and nearly down to Drake and Wharf, and thence in a nearly direct line to Fort Hill; along Hamilton and Battery March to Kibbey street, as far as Central street, and from Mill to Sumner. Taking Washington street within these boundaries is an area of nearly 70 acres, in which every building is consumed. The number of firms and business houses burnt is 840, the number of dwellings and lodging houses 60.

Boston, Nov. 12—Estimates as accurate as could be made from the best informed sources under existing circumstances as to the extent of the fire and losses, place the burnt district at 60 acres, and the total losses, including buildings and merchandize, at not to exceed $100,000,000. Another correspondent says the best judges place the loss at $80,000,000

ANOTHER DISASTROUS FIRE.

London, C.W., Nov. 10—A fire broke out last night in the City Flour Mills. The entire Mills are destroyed and the fire is still raging. The losses are very heavy, but at this hour no idea can be formed of the amount.

London, Nov. 11—The conflagration on Saturday was extinguished, but not until the Mills were entirely destroyed. The loss will exceed $680 000. One fireman killed and several injured. This fire is the most extensive and disastrous that London has suffered since 1861.

DELAYED DISPATCHES.

Quebec, Nov. 9—The ship Cargo, hence on the 24th September, with lumber, was abandoned at sea. The captain and two men were drowned.

Toronto, Nov. 4—The Halifax steamer Hope was burned to the water's edge while lying at the wharf.

New York, Oct. 30—A World's London correspondent says that Earl Russell, who is now upwards of 80 years of age, has addressed him a letter in connection with a scheme which he proposes introducing at the next session of Parliament for home rule in Ireland, and in which he says he wishes to promote Irish improvement and bring about Irish prosperity, but he fears that if an Irish Parliament is set up in Ireland her energies will be wasted in contention.

New York Oct. 31—A New York special says the cable dispatches relating that the Russian forces are preparing to march upon Khiva are confirmed by foreign files received this morning by the Java. The Czar has long complained that the rebellion of his subjects residing between the Ural and Caspian seas has been supported by Khiva, also that he has proof that the Khan has endeavored to induce the ruler of Bokhara to renounce his allegiance to Russia. There is another reason: For years the Russian Government has hankered after his territory, for it will give continuous way over all the land and water from the Caspian Sea to the Chinese frontier, as well as open a new and safe route to Central Asia. Russia is evidently in earnest, and should her armies reach Keahwa of Khanate as is undoubtedly decided upon, it would either be incorporated or reduced to an absolute dependency. The troops of the Czar have a difficult task before them, but the Cossacks, who will doubtless form the main portion of the army, are accustomed to such campaigning.

MISCELLANEOUS.

STANLEY HOTEL,

LIGHTNING CREEK.

MR. S. P. PARKER

HAVING PURCHASED THE ABOVE Hotel from Mr J. J. Robertson, begs to inform the travelling public and the Miners of Cariboo that he will do his utmost to sustain the well-earned reputation of the house as a first-class Hotel.

THE TABLE

Will as usual be furnished with the best the Market affords.

THE BAR

Is well stocked with Spirits, Ales, Wines and Cigars.

THE BEDROOMS

Are comfortably furnished, and a large addition to the number of rooms is now being made.

THE STABLES

Are the best in the Upper Country, and will always be well supplied with Hay and Grain.

ju20

PREVENTION BETTER THAN CURE.

I HAVE been requested by several respectable parties, who can testify to the efficacy of my system, to again make public the fact that

Moses' Hair Invigorator

WILL PREVENT BALDNESS,
RESTORE HAIR THAT IS BECOMING THIN OR FALLING OFF, and effectually CURE SCURF OR DANDRUFF.

This is not a mere assertion on my part, as I have in my possession numerous testimonials certifying to the success of my remedy.

I do not of course pretend that I can make the hair grow on heads which have been bald for years; but I will guarantee to stop the hair from falling off, to increase its growth, and effectually remove Scurf or Dandruff.

W. D. MOSES,
Barkerville, B.C.

CERTIFICATE.

This is to certify that during last spring my hair was rapidly falling out and my head was fast becoming bald, when I applied to Mr W. D MOSES, Barber Barkerville, who in a few weeks restored my hair to its former healthy state DAVID GIBBONS.

Barkerville Dec. 29, 1866. 026

Miners' Saloon.

ANDREW JEFFRAY

HAS JUST OPENED THIS SALOON at the old and favorite stand of the Miners' Store, formerly kept by Mr P. Manetta, where all comers will be welcomed.

MINING REVIEW.

It has been our invariable custom at the close of the mining season to comment upon the labors of the past, and speculate upon our chances in the future; and if in the present instance we cannot point to any increase in the yield of the mines of this district as a proof of our material prosperity and an inducement for future prospecting, it is not because the mineral wealth of Cariboo is by any means exhausted, but arises from the fact that the shallow and more easily worked placers are to a very great extent worked out. we have now to turn our attention to a somewhat different different and certainly more expensive kind of mining.—seeking for auriferous deposits in the deep channels and beds of streams where the surface indications are of a nature to lead the prospector to believe that his efforts will meet with an adequate reward—which necessarily involves a much larger outlay of money and a far greater exercise of energy, patience and perseverance than we have been previously been accustomed to. And we think we have good foundation for the opinion that in most cases where this kind of mining has been carried on in a business-like manner, that the result will eventually quite equal the expectations of those engaged in it. As an evidence that we are really in a transition state, when our new ventures have not yet realized our hopes, we may with some pride point to the really great prospecting operations that are going on throughout the district. On Antler, Cunningham, Harvey, and Lowhee Creeks the work being done with every prospect of success is of a character to command the greatest admiration for the skill and energy displayed by our hardy miners. On Lightning, the great hope of such a large proportion of our mining population, we have some half-dozen claims prospecting on a scale that four years since, had any one been sufficiently in advance of his time to have proposed, he would have been laughed at for his pains; and yet in those claims the prospecting is about being brought to a successful issue, and many others now about starting, with the dearly bought experience of the others to guide them, may reasonably expect that they will attain the same result at much less cost. On the Williams Creek Meadows, the Lane & Kurtz Company have so far obtained very good prospects, sufficient to justify the further expenditure of large sums of money in the erection of costly machinery and providing large pumps, so that with capital at their command and the skill to guide it they will without doubt shortly bring their great work to a successful issue.

Apropos of this work, we think some alteration in the Mining Law enabling companies of miners to locate a larger amount of ground than they can legitimately do under existing arrangements, when their works are of such an extensive nature, would be received by them with great satisfaction as offering an extra inducement to undertake such great prospecting operations. It is not our purpose, however, to more than refer to this subject at present, as we intend on a future occasion to discuss the matter more fully.

If then in the past we have had many more favorable seasons than the one just brought to a close, so far as immediate results are concerned, we think future developments will bear us out in the assertion that we are on the eve of a really much more prosperous time. The discovery of rich deposits on Harvey, the big strike of the Point on Lightning, the success of the Lane & Kurtz, and the renewed activity which the success of such enterprises will give, together with the increased confidence in our mineral resources which will naturally arise from an augmented yield of gold, make us of opinion that there is really a prosperous future in store for the mining interests of Cariboo.

An Accident occurred in the Bawden claim yesterday evening. A bucket fell down the shaft, striking James Cohen and breaking his arm. He was removed to the hospital.

THE CARIBOO SENTINEL

SATURDAY, NOV. 23, 1872.

BIRTH.

At Barkerville, on the 21st November, 1872, the wife of Mr Fred. Rose, of a son.

MARRIED.

At St. John's Church, Victoria, Oct. 31st. 1872, by the Rev. P. Jenns, Walter, youngest son of the late Rev. Joseph Powell, Normanton-on-Soar, Notts, to Ann Bayley Denny, eldest daughter of William Denny, Esq., of Victoria, V.I.

BY TELEGRAPH

Baltimore, Nov. 8—At an election held today in the Sixth Ward to fill a vacancy in the City Council, just before closing the polls a crowd of a thousand people gathered around the corner of Fayette and Broadway streets. A party of men, mostly colored, left the crowd and proceeded about midway to Broadway, when they turned and deliberately fired upon the crowd in front of the polling place, killing Isaac Best, aged 18, and mortally wounding John Conway. Another boy received a flesh wound. Immediately after firing they broke and ran, when those fired into returned the shots. Some 18 or 20 shots were fired in a minute. Previous to the firing, which was wholly unexpected, no disturbance occurred.

Dover, N. J., Nov. 7—Two Italians came here this morning from New York, and going into the store of G. Pariotti one claimed his housekeeper as his truant wife, and after some words he stabbed her dead and inflicted probably a mortal wound upon Pariotti. The murderer was arrested. There was much excitement and threats of lynching.

New York, Nov. 8—The trial trip of the Japanese Government steamer Xuroda took place in New York harbor yesterday. She will be officered by Americans, and will probably sail for Japan within three weeks, in view of the impending war between Japan and Corea, and receive her armaments after her arrival in Japan.

MEXICO.

City of Mexico, via Havana, Nov. 7—The election for President of Mexico has resulted almost unanimously for Lerdo de Tegada. Porfirio Diaz has sent in his submission to the Government and surrenders his command in a paper dated October 23d, and Gen. Proteiso has presented himself at the capital.—The pacification of the country is now complete. It is reported that President Lerdo intends to restore Diaz and Proteiso to their former rank in the army.

THE BALLOT.

In a late number of the SENTINEL there appeared a communication on the subject of the Ballot, and as it is a matter that will in all probability engage the attention of Parliament at the coming session, we think it well that it should be thoroughly discussed and its known effects carefully considered before it is applied to this Province. The Ballot should not be forced upon an unwilling people by those who may seek to acquire a little temporary popularity by proposing the introduction of a measure they know very little about, and only advocate because it is a political pet with those demagogues whose sole aim appears to be to destroy existing institutions without caring whether they can replace them with better: in fact, change without progress.

We certainly fail to see how the Ministry are likely to increase their already well-earned popularity by instituting a system of voting not at all suited to the requirements of this people, and certainly not wished for by the miners of this district, who have already been considerably troubled by the vexatious requirements of the Registration and Qualification of Voters' Act. They are quite capable of arriving at a conclusion as to the merits of a candidate, and have no desire to keep their opinions secret, and are not at all likely to "cheer one way and vote another." The protection of this latter class of people would appear to be the great end to be achieved by the Ballot,—a not very glorious result for a so much vaunted piece of legislation. In fact, the tendency of much modern legislation appears to be to treat men like children needing the care of a paternal Government (which of itself implies a childish people), to restrain their vices, and train them in the way they should go by Act of Parliament.

It is worth our while to inquire into the effects of the Ballot in those countries with institutions analogous to our own. In England, where it has lately been put upon trial, we very much doubt whether it is heartily approved of even by those who have been most instrumental in carrying it into effect; and its result would appear to be, judging from the only two elections held under its provisions, that it does check riot and disorder, but at the same time promotes a feeling of apathy as to the result of an election—a thing not at all to be desired in this country, where, having but recently come into the possession of all the privileges arising from the exercise of the electoral franchise, we should be more than ordinarily careful, and take a genuine interest in attending to the duties attached to those privileges.

In the United States the ballot certainly has not prevented fraud and corruption in their worst shape, and elections in the "old country" under the system of open voting will compare favorably with those conducted in the former country by ballot. A writer on this subject in a recent review, referring to the adoption of the ballot in England, says "the opinion of journalists and politicians in the States is that in abolishing open voting we have wantonly sacrificed the only permanent security for honest elections and prepared the way for all those processes of fraud and corruption which have been brought to such high perfection in their own country."

Now it would be worse than folly for us not to profit by the experience and mistakes of others; and as we are convinced that fraud, corruption, or intimidation are things entirely unknown in elections here, we think there is much more important work for our representatives than attempting the passage of an Act specially designed (although its efficacy is doubted) to prevent evils that do not exist.

CAPTURE OF A THIEF.—Last week the proprietor of a way-side house, after finishing his morning smoke, laid down his pipe, a valuable meerschaum, and went into the dining-room to partake of breakfast. Of course, a smoke after breakfast was necessary, and when our friend went after that pipe, it was gone. A heathen Chinee was among the guests that morning, and suspicion immediately fastened upon him as being the thief. John unblushingly denied the theft, and as a proof of his innocence displayed a purse containing some two thousand dollars. This was considered satisfactory at the time, and the man allowed to depart, but on after thought it was decided to pursue him, and after a ride of several miles he was overtaken, brought to a stand, and thoroughly searched. The missing pipe was found snugly hidden between a pair of mocassins, and the thief, after apologizing for his misconduct, proceeded on his journey.

PROBABLE ELECTION.—It will be seen from our telegrams that Mr Joseph Hunter, M.P.P., has been offered, and will doubtless accept, the position of Surveyor-General, rendered vacant by Mr Pearce's acceptance of office under the Dominion Government, in which event it will become our duty to elect a member to fill the vacant seat. It is a matter of common prudence on the part of voters to refrain from pledging themselves yet to any one, until it is known that there will be an election and we have the names of all the candidates for our suffrages before us. The election of an M.P.P. is one of our most important duties, and we should not rashly promise our support until all the legislative aspirants have an opportunity of being heard

GOOD CHANCE FOR INVESTMENT.—It will be seen by advertisement in another column that Mr Sanderson Pearcy, another on the long list of lucky Cariboolites, who is about to leave us with a well earned "pile," will sell by auction his large interest in the Forest Rose Company (so long known as one of the best paying claims on Williams Creek), in SMALL LOTS, and on terms that will enable miners with small capital to become shareholders in that lucky claim; and we are given to understand that there is a good prospect for the purchaser of a favorable winter's work.

OUR old friend, David Kurtz, has been appointed agent for, and has just received a consignment of Calbraith & Hawkes' best brand of flour—"Baker's Extra." We advise intending purchasers to try this flour, as it is made from Fall wheat raised in the best grain producing district in the Province.

MINING INTELLIGENCE.

Our mining items, owing to the late cold snap, are of a meagre description.

WILLIAMS CREEK.

The McPherson co. are preparing for underground work this winter.

THE LANE & KURTZ CO.

The extension of the shaft-house and the boiler room being built by this Company are approaching completion, and a number of men are engaged in the forest cutting wood, which is being hauled to the Mill by the Company's teams. The large boiler, pumps, and other machinery shipped for this Company have been discharged at the 59-mile post, where they will remain until there is good sleighing, when they will be pressed forward with all possible dispatch.

LIGHTNING CREEK.

The Spruce co. are fluming the lower end of the canyon, and also the tail-race from their upper shaft. The Victoria co. have their pump in position, as yet on the lifting stroke only, and commenced pumping yesterday.—The Vancouver co. will lower their pump and commence work next week. The Clarke co. has stopped on account of their elevator belt not working satisfactorily. The Eleven of England co. are altering their present machinery in order to work their new 10-inch pump, which has arrived on the ground. The West of England have resumed work and are preparing to sink.

HARVEY CREEK.

The Perseverance co. are doing well. The Minnehaha co. are still running their drain ahead to cut off water. The Cummings have found some little pay. Other companies still prospecting.

MINING RECORDS.

LIGHTNING CREEK.

Pandora co.—Nov. 12—Recorded in favor of James Dunn, Henry Hyde, George Montgomery, W. H. Woolcock, and David Robertson, 5 hill claims on the right-hand side of Lightning creek, situate about four miles east of Cold Spring house, the base line being about one half mile below the wagon road.—To be known as the Pandora co.

Nov. 13—Buffalo co.—Recorded in favor of Sam. Montgomery, Alex. Swan, John Cranston, Robert Greig, Wm. Fraser, and I. B. Fisher, 6 hill claims on the left bank of Burns creek, commencing at the Haseltoe co.'s lower line and running down stream 600 feet. To be known as the Buffalo co.

ANDERSON CREEK.

Nov. 21—Anderson Creek co.—Recorded in favor of James Stevens, William Croft and John Merritt, 4 creek claims on Anderson creek, commencing at the mouth of said creek and running up stream 400 feet. To be known as the Anderson creek co.

WILLIAMS CREEK.

Nov. 13—Ballarat co.—Recorded in favor of F. Neufelder, 2 interests; Wesley Hall, 1½ interests; D. Carey, John Bowron, Jas. Dingwell, Andrew Fletcher, John McAlister, D. McDermid, Donald McEwan, John Munroe, A. Monroe, each 1 interest; Wm. Jeffares, ½ interest in the Ballarat co., consisting of 2200 feet; re record.

Nov. 18—Bowmanville co.—Recorded in favor of James Heal and Robert Heal, each 1 interest; and in favor of John Golliksen, 1 interest in trust for the Bowmanville co.; re-record.

Nov. 22—Cariboo co.—Recorded in favor of Oliver Cromwell and George Ferguson, 200 feet of ground on William creek, commencing at the Ericsson shaft house and running down stream 200 feet alongside the Cariboo co. to the upper line of the old Cariboo; in width from the side line of the Cariboo co. to the base of the hill; to be worked in conjunction with and form part of the Cariboo company.

JACK OF CLUBS CREEK.

Nov. 15—First Chance co.—Recorded in favor of H. Gilmore, A. Wilson, J. Tindall, P. Manetta, F. Lallier, R. Barr, C. Leggett, F. MacLennan, B. Deffis, H. Molieur, and W. Griffin, 200 feet each; N. Maury and F. Saforcada, 100 feet each, the same being a re-record of 16 discovery claims, held in 12 interests, in the First Chance co. Also, in favor of A. Wilson, R. Barr, W. Griffin, E. Leggett, and F. MacLennan, 700 feet creek claims in trust for the co.; re-record of First Chance company.

BANK ROBBERY.—Mr Fraser, of the Bank of British Columbia, experienced a heavy loss last week, some thief having decamped with a pan containing over three thousand dollars in dust. Suspicion naturally attaching to a Chinaman employed in cleaning preparatory to closing the Bank, a search warrant was issued and he was arrested, but without avail, as the money has not yet been recovered.

REGISTER OF THERMOMETER

" 21,	32	28	26.02
" 22,	32	9.30	26.02

THE HOPE SILVER MINE.—We gather from the Victoria press that there is some probability of the real value of this ledge being satisfactorily tested, as some ten tons are awaiting shipment to Swansea and thirteen tons have already been forwarded to San Francisco. Should the expectations that have been based on the preliminary assays be only partially realized, the fortunate shareholders will reap immense profits and a new era in the mining history of British Columbia be inaugurated.

CHANGE OF MANAGEMENT.—Mr Frank Perret has been elected to fill the managerial chair of the Amateur Dramatic Association in the room of Mr Marcus Wolfe, who left by the last Express; and although the Association and the public have experienced a great loss in the departure of some of the favorite players, we have no doubt that the accession of new members, coupled with the acknowledged skill and ability of the Manager, will maintain the well won reputation of our Cariboo actors.

MR G. B. WRIGHT, so well and favorably known as a contractor and steamboat captain, paid us a visit last week prior to his departure East for the benefit of his health. Before his return we understand Mr Wright will visit Ottawa, and we presume we may yet find his name associated with the great work of building the Canadian Pacific Railway.

THE inhabitants of Van Winkle and Lightning Creek will regret the loss of Mr Isaac Van Volkenburgh, who has left on a visit to his friends in the East. While from a social point of view we regret the departure of so many of our most esteemed citizens, we cannot but congratulate them on escaping the rigors of a Cariboo winter.

THERE appears to be no lack of legislative talent waiting for development in this district, judging by the number of probable aspirants for Mr Hunter's seat, should it become vacant. The names of Mr Geo. Byrnes, Mr Edward Pearson, and Mr A. E. B. Davie are mentioned as likely candidates for the suffrages of "the free and independent electors."

A PAINFUL RUMOR was in circulation in the beginning of this week to the effect that Mr Morgan Lewis, of the Point Company, who was on his way down, had left his bed at Dan. Kennedy's under circumstances that created great apprehension for his safety. We are happy to say that he had but arisen earlier than his partners and gone on his way.

MUSIC HATH CHARMS.—Lovers of music will be glad to hear that an effort is being made to reconstruct the Cariboo Band, which had become disorganized by the departure of some of the best musicians; and judging from the harmonious sounds that proceed from the practising room, their efforts will be crowned with success.

A SERIOUS AFFRAY took place last week at Dan. Nolan's place, near Alexandria, between Pete, a Frenchman, and Isaac, a half-breed in which the former was dangerously cut with an axe on his head and side. It is supposed Pete was the aggressor. Both men were intoxicated at the time.

WE are indebted to the courtesy of Judge Ball for the Register of the Thermometer which will be found in another column, and which we will publish during the winter months for the benefit of the curious in such matters.

A LUXURY.—In addition to his good assortment of Groceries, &c., Angelo Pendola will always keep on hand a supply of the best Java Coffee—roasted daily under his own superintendence.

IN addition to the departures by Barnard's Express this week, J. D. Scott left for Yale with six passengers—Messrs. J. H. Todd, R. Beecher, I. Van Volkenburgh, and two Chinamen.

MR J. H. TODD.—Among the departures this week we notice the name of our respected citizen Mr J. H. Todd, J.P., who has returned to his home in Canada to pass the Christmas holidays in the bosom of his family.

CAPT. BAUGHMAN, one of the oldest and best Columbia River Pilots, is in charge of the steamer Victoria at her winter quarters. He has his wife and three children with him.

THE MAIL is expected to arrive on Tuesday evening.

LEGAL NOTICES, &c.

"The Registration of Births, Deaths and Marriages Act, 1872."

NOTICE.

PUBLIC NOTICE is hereby given, that from and after the 1st day of September next, all Births, Deaths and Marriages within the Province of British Columbia are to be Registered under the provisions of "The Registration of Births, Deaths and Marriages Act, 1872," at the Office of the District Registrar of the District wherein the same respectively shall take place, and within the times following, that is to say:

BIRTHS—Within 60 days from the date thereof.
DEATHS—Within 30 days after interment.
MARRIAGES—Within 90 days from the date thereof.

Every Householder, Head of a Family, Clergyman, Physician, or other person or persons, required by the said Act to report Births, Deaths and Marriages, who refuses, or wilfully neglects to do so, within the times before named, will be liable to a penalty for each and every offence of not less than Five Dollars or more than Twenty Dollars, to be recovered with costs before any Justice of the Peace having jurisdiction within the locality where any such offence is committed against the said Act.

By command,
H. B. W. AIKMAN,
Registrar General.

Land Registry Office,
Aug. 31, 1872. se14

NOTICE.

HOUSE OF ASSEMBLY, 2d August, 1872.

Extract from Rules relative to Private Bills.

50. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line, the construction or improvement of a Harbor, Canal, Lock, Dam or Slide, or other like work; the granting of a right of Ferry; the Incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the right or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz.:

A Notice inserted in the British Columbia Gazette, and in one newspaper published in the district affected, or if there be no newspaper published therein, then in a newspaper in the next nearest district in which a newspaper is published.

☞ Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the petition.

51. Before any Petition praying for leave to bring in a Private Bill for the erection of a Toll Bridge is presented to the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed in the preceding Rule, also at the same time, and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

CHARLES GOOD,
se21 m Clerk of the Legislative Assembly.

LEA & PERRINS'

Celebrated

WORCESTERSHIRE SAUCE

Declared by Connoisseurs to be

THE ONLY GOOD SAUCE.

Caution against Fraud.—The success of this most delicious and unrivalled Condiment having caused certain dealers to apply the name of "Worcestershire Sauce" to their own inferior compounds, the public is hereby informed that the only way to procure the genuine, is to

ASK FOR LEA & PERRINS' SAUCE

and to see that their names are upon the WRAPPER LABELS, STOPPER, and BOTTLE.

Some of the foreign markets having been supplied with a spurious Worcestershire Sauce, upon the wrapper and labels of which the names of Lea and Perrins have been forged, L. and P. give notice that they have furnished their correspondents with power of attorney to take instant proceedings against MANUFACTURERS and VENDORS of such, or any other imitations by which their right may be infringed.

Ask for LEA & PERRINS' Sauce and see Name on Wrapper, Label, Bottle, and Stopper.

Wholesale and for export by the Proprietors, Worcester; Crosse and Blackwell, London, &c., &c.; by Grocers and Oilmen universally
