THE CARIBOO SENTINEL

WEDNESDAY, OCTOBER 16.

BY TELEGRAPH

QUESNELMOUTH.

Quesnelmouth, October 16—Sam Addler and several others arrived by canoe from Stewart's Lake. On the way down they prospected on Canyon creek, and their impression is that good diggings will be found there. The town is going to send a prospecting party to work in that section; $250 have already been subscribed toward that object.

George Bent and John Bryan are just in by trail.

George Coxon, with two boats, went down the river yesterday morning.

Weather cold but fine.

YALE.

Yale, October 11—Polls declared to-day by Mr O'Reilly, returning officer for this district, as follows:—Dewdney, 40; Smith, 19.

Yale, Sept. 14—Twenty tons freight arrived here per Onward yesterday afternoon. Barnard's express stage left this morning at 6 o'clock, with eastern mails, express, and following passengers: Colonel C. C. Lane, for Barkerville; Marcus Smith, 150 mile house; Mrs Seegers, Kamloops; John Saul, Cache Creek; Miss Laumeister, Lytton.

The Lane & Kurtz Company's boiler and machinery was shipped on Saturday by Saul's bull team, driven by Thomas Saul.

The McGinley Variety Nuisance gave their first performance of the season here this evening.

VICTORIA.

Victoria, October 11—The steamer Prince Alfred arrived at noon yesterday. She goes to Nanaimo for coal.

The first Exhibition of the Provincial Agricultural and Horticultural Society was held yesterday, and was an immense success. To-day a number of races take place at Beacon Hill track.

At the Firemen's election Wm. Lopez was elected Chief Engineer and F. M. Saunders 1st Assistant for ensuing term.

It is said that instructions are daily expected from Canada to commence dredging Victoria harbor.

During the past three weeks gold has been offered for sale to the Puget Sound Company by three different Indians, one of them having some ten ounces. The gold was fine, and they stated that they found it in the mountains east of Seattle, but refuse to state where.

Victoria, October 14—Stolzberger's distillery in this city was totally destroyed by fire on Saturday morning. Loss over $5000; no insurance.

H.M. sloop Retereto arrived yesterday, 45 days under sail from Antifogasti, Bolivia.—One of her seamen, named Gevery Amor, was washed overboard from the forecastle during a heavy gale of wind on 26th July last in the Gulf of Renas.

The Governor-General has signed the warrant for the execution of George Bell, convicted of the murder of Dathan at Nanaimo, and the day of execution will be fixed by the Lieutenant-Governor of this Province.

NEW WESTMINSTER.

New Westminster, October 11—The Onward, from Yale, arrived at 2 p.m. to-day, bringing the Governor and a few passengers.

The remaining cases of small-pox are doing well. No others reported. Weather fine and clear.

UNITED STATES.

New York, October 10—A London dispatch says the publication of the ponderous judgment of the Geneva arbitrators has had the effect of creating the belief that the award was fragrantly unjust to England. The language of the Lord Chief Justice is very severe, and he is alike indignant at the British and American Governments. A London correspondent says also that the more the Alabama adjudication is studied the better it is understood.

Washington, October 10—The announcement of the death of ex Secretary Seward was received with regret in all quarters. The departmental buildings were draped in mourning in respect to memory of deceased.

New York, Oct. 11—A Mr Fogge was burned to death in the Elizabeth street fire yesterday. He is reported to be an Italian nobleman, banished for political reasons and living under an assumed name.

EUROPEAN.

London, October 10—Several speeches made by leading members of Parliament at public meetings severely condemn the course pursued by the Government on the Alabama question.

The Sultan has conferred the Order of Osman on the Grand Duke Nicholas of Russia.

It is estimated that three millions of inhabitants have died from famine in Persia.

The telegraph dispatches forwarded and received at the expense of the British Government on the subject of indirect claims cost $400,000.

Paris, October 10—The Soire publishes a sensational report this afternoon that a Bonapartist movement was on foot and a coup d'etat attempted in Paris to-night, but up to this hour nothing has happened.

It is reported that Prince de Joinville and Duke d'Aumale will resign their seats in the Assembly.

Prince Napoleon and Princess Clothilde, now here, have received notice to leave France. The Prince replied to the agent of the Government who brought the summons by refusing to quit his native land, and declaring that he would yield to force only, and leave France between two Gens d'Armes.

Paris, October 11—Midnight.—Prince Napoleon has yielded to the order of the Government and has left Paris.

A transport sailed this week with 58 more Communists for penal colonies.

London, October 11—An additional military and constabulary force is ordered to Lisburn, Ireland, as another Catholic disturbance is threatened there.

Madrid, October 11—The public refuse the notes of the Bank of Spain on account of the number of counterfeits in circulation, and shares of the bank have fallen 5 per cent. in consequence.

Madrid, October 12—A Republican insurrection has broken out among the troops at Ferral, a province of Corunna. The Government has dispatched troops there, and summary measures will be at once adopted to suppress the revolt. In the Cortes to-day the existence was announced of a revolt of 1500 troops belonging to the garrison. Some of the population have joined the movement. It was further stated the troops in the fortress of Ferral refused to join the insurrectionists, and are awaiting reinforcements to suppress the revolt.

LATER.—The insurgents at Ferral took possession of the gunboats anchored in the harbor, and imprisoned the light-house keepers. This closes the port and prevents the Government sending reinforcement by sea. In the Cortes the Republican deputies disavowed any complicity in the movement, and declared their sympathy with the Government.

Paris, October 12—The announcement last night that Prince Napoleon had left Paris was premature. His notice to depart directed him to leave at noon to-day, but not having complied therewith, at 12.30 he was waited upon by the Secretary of the Prefect and two agents of the Government, with orders to follow them. The Prince thereupon left the city, and the Princess Clothilde voluntarily accompanied him.

London, October 12—A Berlin special to the Telegraph says it is believed that the decision of the Emperor on the San Juan boundary question will be favorable to the United States.

The Czarovitch and Prince Alexander have gone to Vienna on invitation of the Emperor Francis Joseph.

Madrid, October 13—An official dispatch from Ferral reports insurgents still holding out, although badly demoralized and poorly provided with ammunition. The Red Republican flag is flying from the masts of the gunboats and over the palaces seized by them.—Troops will arrive before the city to-morrow, and combine with the garrison in an attack on the rebels without delay. The citizens seem to look upon the movement with indifference, taking no part therein.

THE CARIBOO SENTINEL

SATURDAY, OCT 19 1872.

THE ELECTIONS FOR THE HOUSE OF COMMONS.

Now that the elections are over in all parts of the Dominion it is worth our while to review briefly the results which have been obtained. Our readers will recollect that shortly before the issuance of the writs for the election the ever memorable debate on the Washington Treaty occurred in the House of Commons, when Sir John Macdonald and his Government were upheld by a two-thirds vote in a full house. It was then generally felt that Sir John's policy in the matter had been right, and that the Imperial Government ought not to be hampered in their action by any conduct of ours. We all know what a tremendous cry was raised on the subject throughout the length and breadth of the Dominion—a cry which the leaders of the Opposition especially in Ontario, were not slow to make use of. We are also aware that that Opposition was in no way upheld by those most directly interested in the Treaty—namely, the Maritime Provinces—for on reflection it soon became evident to them that the operation of the Fishery clauses of the Treaty would in all probability result to their advantage. Such being the case, it was not so very surprising that Messrs. Mackenzie and Blake should have been left in a large and decided minority. At the time this vote was given we expressed a confident opinion that it must be in a manner considered as a test vote, and taken as some criterion of the estimation in which Sir John Macdonald's administration was held throughout the different provinces of the Dominion. In fact, the state of parties in the country was such that if a good opportunity had occurred it would have been taken advantage of for the purpose of defeating the present Ministry and obtaining "a new deal." Why was this not done? Simply because members of the House were well aware that the cry raised by the leaders of the Ontario Opposition against the Treaty was not supported by the general mass of the people, and if they supported the Opposition in their attempt to render nugatory the Fishery clauses of the Treaty they in their turn would remain unsupported by the constituencies which they were then representing. Under these circumstances, we consider that we were justified in looking upon that vote not only as expressing the confidence of the members of the House, but also of the country at large, in the Government as then constituted. Nor does it now appear that that view was in any respect erroneous; for looking at the returns as given us by the Eastern papers we must come to the conclusion that the Government will have a good working majority in the new House. In fact, the only newspaper which we have seen which claims anything like an opposite result is the Toronto Globe, which only, however, claims a tie. Need we say that when the Globe can only claim an even result, it is a sure sign that it is defeated. But if the Ministry have succeeded in obtaining a majority, it has not happened without meeting with some of those disagreeable defeats which are sure reminders of the frailty of everything dependent on popular support. Two of the members of the Administration were defeated—Sir Francis Hincks in South Brant, and Sir George Cartier in Montreal. The former has already found a resting place in Vancouver District in this Colony, and the latter will find many constituencies whose representatives will be only too glad to resign in his favor. In fact, it is already stated that the opposing candidates in a Manitoba constituency have resigned, and that the hon. Baronet will accept the seat. "It is an ill wind that blows nobody any good." The defeat of these gentlemen in the older Provinces and their election in the new ones will have the tendency to bring these Provinces into public notice, and our representation in the Cabinet as well as the House of Commons by a Minister may be of some assistance to us in obtaining the passage of measures that will tend to develope the great and latent resources of this part of the Dominion. If the Manitoba report be true, every Province of the Dominion will be represented in the Cabinet. This is as it should be, the Globe notwithstanding to the contrary. It is very easy work for that periodical to argue that we have obtained an unfair share of representation, and that we are now acquiring a position in the Cabinet to which neither our resources or population entitles us. But that journal ought to take into consideration that when the terms of Confederation were agreed upon our consent was not obtainable unless favorable terms were offered us; and although with our limited population it might at first sight seem that we were obtaining the best of the bargain, still on reflection it will be found that the population of British Columbia must rapidly increase, and then the gain in the revenue will result altogether to the advantage of the Dominion Treasury. Besides it must be recollected that this arrangement has been "for better and for worse," and it would have been poor policy indeed for the older Provinces to have attempted to grind us down to harsh terms simply because we were young and poor. We, of course, would not have stood any such treatment. Our object, however, is not to discuss the terms of Confederation, but examine the results attained by the general election just over. With that result we think we ought to be well satisfied. This majority is variously estimated, but the following figures, taken from the Montreal Gazette, are not far from being correct:

	Ministerial.	Opposition.
Ontario, - -	41	47
Quebec, - -	41	23
New Brunswick,	14	2
Nova Scotia, -	20	1
Manitoba, -	4	0
British Columbia,	6	0
	126	73

Giving a majority to the Government of fifty-three, with one constituency yet to be heard from. Even supposing these figures to be not quite correct, it is evident that the Government will have a good working majority, in which event the terms of Confederation will be carried out in their integrity, the great Pacific Railway will be built, and a new era of prosperity dawn upon this at present somewhat remote and disconnected Province.

THE CARIBOO SENTINEL

SATURDAY, OCT. 19, 1872.

BY TELEGRAPH

LAST NIGHT'S DISPATCHES.

QUESNELMOUTH.

Quesnelmouth, October 18—The steamer Victoria arrived here at 6.30 a.m., with fifty tons freight, viz.: HB Co., 747 pkgs; D Kurtz, 15 pkgs; F Neufelder, 6 pkgs; J W Lindhard, 229 pkgs; Lane & Kurtz, 12 pkgs; R H Brown, 4 pkgs.

Barnard's stage left at 8.30 a.m., with the mails, an express, and Colonel Lane as passenger.

One of the H. B. Co.'s boats arrived here yesterday from Stewart's Lake with four miners from Omineca. Quite a number of men have arrived from Omineca during the past week, a few only of whom have been fortunate.

Barlow's, Brousseau's, and P. Gannon's teams left this morning with full loads for Barkerville.

EUROPEAN.

London, October 11—The announcement of the death of ex-Secretary Seward is received with great surprise, no intimation whatever of his illness having reached here. The Daily News in its obituary says that though Seward was unpopular by reason of his rather peremptory bearing, yet he leaves behind him a great example of vigor, energy and success.

London, October 12—A severe storm has prevailed on this coast for the past 24 hours. Several disasters to shipping in the British channel are reported.

London, October 14—Roundall Palmer will take the oath of Privy Councillor to-morrow.

Geneva, October 14—Prince Napoleon has arrived here. He was accompanied to the frontier by agents of the French Government.

Madrid, October 14—The Carlists continue their agitation in Catalonia, where several have been arrested, including soldiers on furlough. No further news received from Ferral. The capital is perfectly tranquil.

Lisbon, October 11—The Rio Janeiro steamer, with dates to September 22d, has arrived. She reports that the Congressional election in the northern provinces of Brazil have been attended with riot and bloodshed.

UNITED STATES.

New York, July 12—At Jerome Park races this afternoon the third race—a dash of a mile and 5-8ths—was won by Ortolan, beating seven horses, time 2.59¾. The great interest of the day was centered in the 4-mile dash between Harry Bassett and Monarchist, and the excitement ran very high. The spectators crowded every available spot, and the most intense excitement was exhibited. The two horses ran neck and neck all the way to the beginning of the 4th mile. Bassett pulled out after the third mile. Monarchist worked nobly and won the race—time, 7.33¼.

THE MEMBERS' INDEMNITY PLOT.

Under this heading an article appeared in a late number of the Victoria Standard, and if it were not for the tone and nature of some of its remarks we would now hardly deem it worth our while to notice it. In saying this, we have no desire to treat our cotemporary's arguments and views except with the utmost respect, but the indemnity question has been so often before this constituency in a variety of ways that the appearance of an article in opposition to the views held by the majority of the people in this district would hardly be of itself a sufficient incentive to touch upon the subject again. The meeting held by the Chief Commissioner of Lands and Works and the Indemnity Resolution passed at that meeting are made the occasion of the article. The people of this district are accused of having been hoodwinked into passing the Indemnity Resolution "by the liberal promises of appropriations from the public chest for the benefit of the district." It is also insinuated that the meeting was a small one, composed simply of "a few Cariboo miners," and the apparent inference intended to be conveyed is that it was a kind of hole and corner meeting, the proceedings of which are not entitled to much consideration. Now, as regards the liberal promises made by the Chief Commissioner for the purpose of obtaining the passage of this Resolution, our readers will probably recollect that no promises of the sort were made. In fact, Mr Walkem's remarks were confined to a review of the proceedings of the Legislature during its last session, and for reasons best known to himself that gentleman most carefully refrained from making any pledges of the nature indicated by our contemporary. In fact, he did not even attempt to explain why certain monies appropriated for this district had not been spent. In the face of these facts, what right has the Standard to assume that the whole constituency was bribed by a mere promise? or that the meeting was a mere hole and corner concern, attended by a few miners? It is a well-known fact that the feeling in this constituency has always been most strongly in favor of an increased indemnity to the upper country members, but it was generally felt that a system of indemnification which contemplated a discriminative rate would not meet with that general approval which it was desirous should be given to any scheme of this kind, and as people here were really desirous that no conflict of that sort should occur, the Resolution was worded and passed in the form in which it was published in this paper. As regards the meeting itself, we will inform our contemporary that it was both "largely and influentially attended," not only by the mining community, but by merchants, traders and professional men; and if he has any doubt on the subject of our ability to get up a decent sized meeting here, all we can say is let our friend of the Standard come here himself, and we will guarantee him both a big meeting and a good reception, even if he does differ with us on the Indemnity or any other question. As regards the course to be pursued in the future by the members for this district on this much-vexed question, we must consider that settled by the action of the constituency. If members in other parts of the Province have any doubts as to the proper course for them to adopt on this rather personal kind of question, we would honestly advise them to take the sense of their constituencies, and thus obviate a possible disagreement with them at some future time. Perhaps the Cariboo Resolution might serve as a basis for action elsewhere.

IMPROVED BREEDS.—In the Colonist of Oct. 1st there is a very sensible article upon the introduction of improved breeds of live stock into British Columbia, in which reference is made to stock recently introduced by Harper Bros. and Mr Allison of Similkameen. The stock introduced by the Messrs. Harper consisted of some exceedingly fine Cotswold rams, imported at great expense from Canada,—that is, the Eastern portion of the Dominion—which is rapidly becoming famous for being one of the best stock raising countries in the world. In the same article the advantages possessed by this province in the respect alluded to are well pointed out. It says: "The grasses of the interior possess nutritive properties which cannot, we believe, be claimed for any other known grasses; the ranges are practically illimitable, water is everywhere in abundant supply, and such is the nature of the climate that stock passes the winter well without handling or housing. In the more favored localities animals come out in early spring equal in condition to the best stall-fed." Now although the last statement is perhaps a little far-fetched, still there is no doubt of the substantial correctness of the whole extract. Every one in the upper country is well aware of the immense success that has attended the enterprise and exertions of the stock-raiser east of the Cascade range of mountains, where bunch grass abounds the whole year round and almost countless herds luxuriate. What a difference is there between such a country as this and the one mentioned in the article of the Colonist. At "Hillhurst Farm," in the Eastern Townships of the Province of Quebec, there is no bunch grass, nor is there an unlimited amount of pasture land over which stock can graze the whole year round. On the contrary, stock must be housed there and fed for six months in the year. Notwithstanding these disadvantages, it has there been found possible to make stock-raising a lucrative and paying employment by importing and raising only the best kinds. When such feats are achieved in such an unfavorable country, surely success must attend the stock-raiser in this province who devotes a certain amount of time and money to the improvement of his flocks by the importation of thoroughbred cattle, and surely the climate of Vancouver Island and the lower Fraser ought to be in this regard almost as favorable as that which exists east of the Cascade range. We feel satisfied that the experiment has only to be tried to prove a success. Under these circumstances, we have no hesitation in expressing our confident belief that the enterprise shown by the gentlemen previously alluded to will result in success and pecuniary profit.

THEATRICAL PERFORMANCE.—On Saturday evening last the Amateur Dramatic Association gave one of their best and most attractive entertainments for the benefit of Florence Wilson. The first piece performed, a Vaudeville, in one Act, entitled "Done Brown," was put upon the stage in very good style and the parts well acted throughout. The same remark may be made of the second piece performed, "Betsy Baker." In the first piece Mr Thompson's personation of the ardent Gallic gentleman, Mr "Octave Alfred Leglef," was quite masterly. Florence Wilson, as Mrs Winks, and Mr Sullivan as Murphy O'Filliloo, a Bricklayer, a (H)odd Fellow and a very Free Mason, both did well. Mr Sullivan's appreciation of Mr. O'Filliloo's character was quite natural, and caused much amusement. In the second piece, in which there were only four characters—Mc Marmaduke Mouser (J. S. Thompson), Mr Crummy (F. Perrett), Mrs Mouser (Eufrasia Auriana Theresa Jones), and Betsy Baker (Florence Wilson)—Mr Thompson again succeeded in earning the applause of the audience. Mr Perrett also performed his part well. We consider, that the palm must in this play be accorded to the ladies. Florence Wilson's performance of Betsy Baker, the laundress, was really good; and Miss Jones, whom we are informed by the play bills was engaged at great expense for this special occasion, performed her part with a combined vigor of body and grace of movement that was quite charming to behold. In fact, Miss Jones, as Mrs Mouser, carried the house completely with her. The two songs by Mrs Kelly were rendered with much taste, and were received with much favor by the audience. Mr H. Calder also danced with his usual proficiency. We regret to say that Mr Gomer Johns, in consequence of a severe cold, was unable to favor the audience with a song. The orchestra played their selections with their usual good taste, and on the whole the performance passed off to a full house as well as anything of the sort that we have seen in Barkerville for a long time.

LAYING OVER CLAIMS.—It will be seen on reference to a notice published in this issue of the SENTINEL under the hand of the Gold Commissioner, that all mining claims situated within the limits of the Cariboo district are laid over from the 1st day of November next until the 20th day of May, 1873, subject, however, to the 9th section of the Gold Mining Amendment Act, 1872. It may be possible that some of our readers may not be aware of the meaning of this latter proviso, and for their information we will state that the section referred to is the clause of the new Mining Act which gives the co-partners representing two-thirds of the claim the right to work the mining ground of the company during the close season, in which event all the members of the company, as in ordinary cases, are responsible for the expenses incurred by reason of such working. Copartners, therefore, who represent two-thirds of a company may, by resolution to that effect, compel the working of a claim during the close season and collect assessments therefor.

COUNTY COURT.

(Before H. M. Ball, Esq., Gold Commissioner and County Court Judge.)

TUESDAY, October 15.

MARY NATHAN VS. ANTOINE BROUSSEAU.—Action to recover $440 damages for the defendant's alleged improper detention of the plaintiff's cattle.

Counsel for the plaintiff stated his client had delivered a horse and mule to the defendant in March last for agistment; that by the common law the plaintiff was entitled at any time to retake the cattle without paying for them, but in this case at the time a demand was made the defendant had been offered payment, but refused to say what was due or to deliver up the cattle. That his avowed object was to keep them until they had eaten their heads off; and although they had been returned it was not until a long time after the demand, and when the plaintiff had lost the profits she would have derived from the use of the cattle during the summer months.

From the evidence adduced on the part of the plaintiff it appeared that Joseph Mathews went to the defendant's ranch at Quesnelmouth and demanded the horse and mule, but it did not appear that he had offered, or was prepared to offer any money for their keep, or that he had any order for the animals from the plaintiff; further, that T. H. Flynn, on behalf of plaintiff, had applied to the defendant at Barkerville to communicate at plaintiff's expense with his [defendant's] agent at Quesnelmouth to let Mathew's have the horse and mule, and that Flynn had asked for the account for keep in order that it might be paid, saying that he was good for it.

On behalf of the defence, evidence was given that no tender of money had ever been made; and further, that the plaintiff had before sued for the animals and for damages in the Supreme Court for the same alleged detention, and that an order had been made on the consent of the plaintiff by the Chief Justice in that action that all proceedings should be stayed, the defendant having tendered and the plaintiff having accepted the horse and mule, 1s. for nominal damages and costs, in full satisfaction of the causes of action.

Counsel for defendant contended that no reasonable demand on the part of the plaintiff had been proven; and that the usage of the country necessitated the payment of the keep before the animals were taken away; further, that the defendant had been before impleaded for the same cause of action, which suit had been brought to a final determination, and that the defendant ought not to be subjected to repeated litigation for the same cause.

After a short summing up by the Judge, the jury returned a verdict for the defendant.

Mr Park for the plaintiff, and Messrs. Barnston and Davie for defendant.

ARTHUR JOHNSON VS. RODERICK MCDOUGALL. Action for $12 60. Judgment confessed.

ALEX. MCWHA VS. JOHN GUNN.—Action on a promissory note for $24 80. Adjourned until the 31st October on account of short service.

F. V. LEE (by Geo. Byrnes) vs. JOHN G. BARNSTON.—This was an action on a promissory note for $60 and interest, drawn in favor of E. Edwards, and endorsed by him to plaintiff, Lee. Defendant pleaded satisfaction of the note by means of professional work and advice given to Edwards, who was the real owner of the note previous to his departure from Cariboo. His honor gave judgment for plaintiff with costs, but ordered execution to be stayed until Mr Lee could be communicated with—viz., for the space of three months.

MINING INTELLIGENCE.

WILLIAMS CREEK.

The Ballarat co. got to work after the freshet on Thursday of last week, and by the following Saturday had taken out 24 oz. For this week, up to Wednesday, they had taken out 30 oz. for two sets of timbers. The company intend sinking a new shaft. The hydraulic companies at and above Richfield are cleaning up with average results.

JACK OF CLUBS CREEK.

The Discovery co. paid considerably over expenses last week. The Two Sisters co. is taking out pay.

HARVEY CREEK.

The Clyde co. have commenced work. The Perseverance co. is paying over expenses.—The New Dominion co. is putting up a dump-house and preparing for the winter's work. The Manitoba have commenced work in the face with favorable indications. The Cummings co. have fixed their flume and are pumping out, and will be to work in the face to-day. The Minnehaha co. will probably commence work in the face to-day. The Foster co. is still sinking and are down about 13 feet from the platform, going along favorably. Most of the claims on this creek have been much retarded by the freshet, but all trouble in that respect is now over.

EAGLE CREEK.

The Walkem co. are in 800 feet, when falls were struck. The channel was followed to this point, and the company are now endeavoring to trace it on high rock.

LIGHTNING CREEK.

The Point co. paid a dividend last week, and obtained 127 oz. for the commencement of the week at noon on Wednesday last. The Gladstone co. expect soon to be in the face. There is nothing more of interest from this creek.

MISCELLANEOUS.

NOTICE.

HAVING DISPOSED OF OUR entire business to Messrs. NEUFELDER & CO, we would thank the public for their kind patronage, and ask a continuance of the same for our successors.

Mr MARCUS WOLFE is our authorized Agent, who will pay all liabilities, and to whom all accounts must be paid.

We would here request all those indebted to us, either by Note or Book Account, to make as speedy a settlement as possible.

OPPENHEIMER BROS.

Barkerville, Sept. 13, 1872.

THE ELDORADO

Richfield, Sept. 9, 1872.

"The Registration of Births, Deaths and Marriages Act, 1872."

NOTICE.

PUBLIC NOTICE is hereby given, that from and after the 1st day of September next, all Births, Deaths and Marriages within the Province of British Columbia are to be Registered under the provisions of "The Registration of Births, Deaths and Marriages Act, 1872," at the Office of the District Registrar of the District wherein the same respectively shall take place, and within the times following, that is to say:

BIRTHS—Within 60 days from the date thereof.
DEATHS—Within 30 days after interment.
MARRIAGES—Within 90 days from the date thereof.

Every Householder, Head of a Family, Clergyman, Physician, or other person or persons, required by the said Act to report Births, Deaths and Marriages, who refuses, or wilfully neglects to do so, within the times before named, will be liable to a penalty for each and every offence of not less than Five Dollars or more than Twenty Dollars, to be recovered with costs before any Justice of the Peace having jurisdiction within the locality where any such offence is committed against the said Act.

By command,
H. B. W. AIKMAN,
Registrar General.

Land Registry Office,
Aug. 31, 1872. se14

NOTICE.

HOUSE OF ASSEMBLY, 2d August, 1872.

Extract from Rules relative to Private Bills.

50. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line, the construction or improvement of a Harbor, Canal, Lock, Dam or Slide, or other like work; the granting of a right of Ferry; the Incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the right or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz.:

A Notice inserted in the British Columbia Gazette, and in one newspaper published in the district affected, or if there be no newspaper published therein, then in a newspaper in the next nearest district in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the petition.

51. Before any Petition praying for leave to bring in a Private Bill for the erection of a Toll Bridge is presented to the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed in the preceding Rule, also at the same time, and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

CHARLES GOOD,
Clerk of the Legislative Assembly.
