THE CARIBOO SENTINEL

SATURDAY, SEPT. 4, 1875.

THE ISLAND "OPPOSITION."

We observe by the newspaper reports of political meetings held recently in two of the agricultural districts of the Island that the chief complaint of the speakers opposed to the Local Government is that the leader of the Government—Mr Walkem—was always trying to do something good for Cariboo." A genius called Smithe, one of the members for Cowichan, was particularly distinct on this point, and advocated the reimposition of the road tolls, as he thought the miners of Cariboo did not bear their fair share of taxation. It appears also that the "Opposition" find fault with the Government for building the Quesnel River Bridge, and regard the $40,000 required for its construction as "so much money carried away from Victoria!" Fortunately for the Province, this "Opposition" party is very small and uninfluential, although the leaders manage to make considerable noise through the columns of two newspapers subsidised by the Dominion Government to raise sectional jealousies amongst the people. We are not aware that Cariboo has received any benefits in the shape of legislation to which the district was not fully entitled to. True, Mr Walkem, after considerable hard fighting, succeeded in getting the obnoxious road tolls abolished—an exceptional tax which pressed heavily on our miners and traders. True, our representative Mr Walkem, succeeded, notwithstanding a strong opposition from some parties who imagine that the whole Province is centered in Victoria, in relieving the miners of Cariboo of another exceptional tax—the exorbitant recording and laying-over fees levied for years, which retarded the development of the district, and caused many a poor miner to abandon his claim because of his inability to raise the money to pay them. This relieving of the miners of heavy burdens was certainly "doing some good to Cariboo," and may be styled "distinctive legislation" by a small section of malcontents on the Island who are clamoring for "distinctive legislation" in their own behalf in the shape of a "modified tariff," which would raise the cost of the necessaries of life to such an extent as to drive people out of the country! Cariboo has never asked any special favors from Mr Walkem's or any other Government—only justice; and there is not a single man in this district but who will give Mr Walkem credit for having done his utmost while representing the constituency to see that we got that justice to which we were entitled.

If the Cariboo district is not at present in that prosperous state which its mineral wealth should place it in, is it to be wondered at? The district is suffering from a paucity of population, and the most villainous efforts have been made for some years past, and are now being made, to prevent people from coming to it. The Victoria Colonist and Mainland Guardian—two "Opposition" papers—are constantly publishing for the benefit of the outside world, from the most malicious motives, statements to the effect that "Cariboo does not occupy that prominent position which she formerly did," and that "it is a flagrant waste of the public money to expend it in building roads or bridges in a district which is simply a burden to the rest of the Province!" And, for the purpose, if possible, of driving the few remaining miners out of the country, the road tolls are to be re imposed, and we suppose other exceptional or "distinctive" modes of taxation resorted to in order to accomplish that patriotic object. The Government of the Province is also published in these same newspapers as being of the most corrupt kind, and the people groaning under the weight of taxation! This, however, is the orthodox "Reform" plan of building up a country. It has been tried successfully in "Old Canada," and the Dominion is now advancing in the same style that this Province will advance, should the electors at the coming general election not "stamp out" of existence the miserable men who call themselves "Reformers," and who are opposed to the building of roads, bridges, and every other measure calculated to build up a country. Look at the prosperous condition of Canada under the Government of Sir John A. Macdonald, and note her now—let us hope temporarily—waning prosperity,—increased taxation, decreasing commerce, diminished revenue,—the result of wide-spread political corruption and administrative incompetence. Canada, with her millions of acres of the finest agricultural land in the world lying idle, has, under the able statesmanship of spurious "Reformers," been compelled recently to publicly inform Europe through her Emigration Agents that there is at present no place within her broad domain to which she can invite immigrants. Let the electors of this Province beware of spurious "Reformers!"

QUARTZ AT SODA CREEK.

Mr. R. T. Ward, of the Soda Creek Mills, has lately made a discovery which we hope a further test of the rock in a quartz mill will substantiate. It appears that the gentleman we have named has had some experience in quartz mining, and in the neighborhood of Soda Creek he observed some rock cropping out along the river which his experience as a miner told him contained some of the precious metals. A sample of the rock was sent to Mr Foster, of Clinton, who made a rough assay of it, when he found it contained both silver and gold in paying quantities. The result of this partial assay was so encouraging that it was thought advisable to get an assay of the rock made by a professional assayer, and two samples were sent for that purpose to the Government Assay Office at Barkerville, where the result of the assays bear out that made by Mr Foster. One sample of the rock, consisting of quartz, yielded 2 oz. 9·6 gold, 3 oz. 11·20 silver; the other, consisting of decomposed rock, of a pulpy nature, yielded 3 oz. 8.14 gold, 3 oz. 18·9 silver to the ton. The rock crops out along the bank of the river for about a mile, commencing at the lower end of the town of Soda Creek and extending as far down as the mill. A company has been formed, in which we observe the names of two gentlemen of means, and application has been made for a prospecting licence, and steps will be taken to ascertain the value of the discovery.

A MYSTERY.—We have been permitted to make the following extract from a private letter received from Clinton by last night's mail:—"We have another mystery on the Bonaparte. The leg of a white man has been found on the Bonaparte, about two miles above Cache Creek—the leg from the hip down. The flesh is still on the calf of the leg and on the foot, which has on a No 9 brogan shoe. A piece of the spinal bone has also been found. Inquiries have been instituted, but we can learn of no one as missing. We should not have entertained much thought on the subject, except for the boot on the foot, and the flesh on the limb, as it might otherwise have been washed from some old grave.'

THE standard fineness for gold coin in England is 11 12ths fine gold and 1-12th alloy, or milesimal fineness 916·66. For silver coins, the standard fineness is 37-40ths fine silver and 3 40ths alloy, or milesimal fineness 925. The weight and value of gold and silver coined at the English Mint during the year ending the 30th of June last was as follows: 235 464 oz. of gold were made into sovereigns, and 43,327·120 oz. were used for half-sovereigns, the total value of the gold coined being £169,621 16s. 2d. Of silver, 1,781,280 oz were converted into a coinage of the value of £489,852.

MARRIAGE.—Our esteemed townsman Mr William Hitchcock, Government Assayer, was united in marriage on Wednesday last to Miss Hyde, daughter of Mr George Hyde of Beaver Pass. The numerous friends of the happy couple will be unanimous in wishing them the utmost measure of prosperity.

THE LAST LINK.—The contract for the last section of the Hope Nicola road has been awarded. This section will complete the connection with the seaboard of a fine grazing and agricultural district.

THE CARIBOO SENTINEL

SATURDAY, SEPT. 4, 1875.

MARRIED.

On the 1st September, 1875, at Beaver Pass, B.C., by the Rev. C. L. Thompson, WM. HITCHCOCK, Esq., Government Assayer, Barkerville, to ELISA E., only daughter of GEORGE HYDE, Esq., and granddaughter of the late CAPT. GEORGE HYDE, R.N.

At Victoria, B.C., on the 27th August, by the Rev. Mr McGregor, Mr HARRY WILMOT, of Barkerville, B.C., to Miss ELIZABETH MARTIN, second daughter of Capt. Thomas Martin, of Victoria.

BY TELEGRAPH

UNITED STATES.

New York, August 25—O'Baldwin, the Irish Giant, is dying here of lung disease.

New York, 25th—A London special says at the opening of business this morning the market was dull.

Sioux City, 25th—The most terrific rain storm that ever visited this region occurred last night, and lasted from 9 p.m. to near mid night. The damage to the crops was immense.

Washington, 25th—The President has accepted the 6th section, comprising 20 miles of the Southern Pacific Railway of California.

San Francisco, August 25—The depression of the market to day has been such as to amount to a panic, and it is supposed that many stocks have gone under.

Portland, Oregon, 27th—At 5 o'clock yesterday afternoon the startling intelligence reached this city by telegraph that the Bank of California, one of the leading financial establishments of the Pacific Coast, and in the volume of its transactions second to but few in the United States, had suspended—Of course, growing out of the report of the suspension, were rumors of failures, great losses, and a complete panic. Unfortunately, the wire broke in Southern Oregon before our dispatches were sent. Ladd & Tilton received a telegram from the officers of the Bank saying that they were compelled to suspend payment. At 2.30 p.m. Ladd & Tilton announced that arrangements will be made to-day for the payment in San Francisco of all checks drawn by them on the Bank of California, and notice of the same will be given here and in the San Francisco Alta and Bulletin to-day.

ASSASSINATION OF A PRESIDENT.

Panama, 16th—President Garcia Moreno of Equador was assassinated in his palace at Quito on the 6th by an officer. Capt. Rayo, whom he had displaced from office, aided by two young men of Quito. Rayo first struck the President over the head with a machee, when he was instantly run through by the sentry, who fired his piece at the same time, killing the assassin immediately. The President fell on his face mortally wounded, and has since died. The two young men escaped. Great alarm has seized on all foreigners, and strong reason exists for believing that there will be a massacre of them.

EUROPE.

London, 25th—Captain Webb has succeeded in his second attempt in swimming from Dover to Calais, without float or life-saving apparatus. The passage from Dover occupied 21 hours and 40 minutes.

London, 25th—The Times says great depression continues here and on the continent, partly owing to the apprehension of political complications, but in a great measure due to mere absence of business.

The Times makes an announcement as follows: "Alexandria, Egypt, Aug. 15—Three men of war, with a force of troops and marines, have been called hastily to that part of Egypt bordering on Abyssinia to banish the blacks invading Egyptian territory. Four thousand infantry were held in readiness for any emergency at Suez. The Khidive is determined to have full satisfaction for the infringement on his soil.

VICTORIA.

Victoria, August 26th—Moody and Sankey have returned from Europe to New York.

The proprietors of the Palace Hotel, San Francisco, have ordered a machine for the manufacture of ice which will turn out ten tons per day, at a cost not exceeding $25, while the same amount of this article at market rates would cost $250.

A little boy named David Stephens, son of J. Stephens, of Saanich road, while riding into town yesterday morning, was rolled upon by his horse and sustained a fracture of the leg below the knee.

The following vessels laden with steel rails for the Island railway have been dispatched from Liverpool: Onanima, Longfellow, Beulah, Dovenby, and Valparaiso. They are due at this port during September and October and will come consigned to Spreat & Co.

It is rumored that the Pacific Mail Steamship Company have purchased the steamer Olympia, now lying at San Francisco, to run on Puget Sound in connection with their Victoria line of steamers in opposition to Goodall, Nelson & Perkins, whose steamers proceed from here to Seattle, Port Vancouver, and Tacoma.

A public meeting at South Cowichan on Tuesday was addressed by several speakers, among whom was Hon. Mr Walkem.

The Russian Government is engaged in putting 50,000 cavalry on war footing.

Complaint of scarcity of hotel accommodation is heard from all new comers.

The mail steamer San Salvador arrived at 10 45 a.m. yesterday, having left San Francisco at 1 o'clock on the 21st. She met with strong N. W. winds the first day after leaving San Francisco, and smooth water and heavy fog the rest of the way. The Pacific also arrived at 2 p.m.

Victoria, August 27—The Water Commissioners have fixed the scale of charges for water at $1 per month for dwellings containing not over four adults, where there are over four adults in one house the price will be fixed by agreement.

The steamships Salvador and Pacific will leave for San Francisco on Saturday evening. The fare on the Salvador has been reduced to $5 in cabin and $3 in steerage; on the Pacific, $4 in cabin and $2 in steerage. Both steamers will be crowded to their utmost capacity, as it is cheaper to travel than to stay at home.

The American rifle team have reached New York, where they were accorded an enthusiastic reception by the populace.

Major General Sheridan has arrived at San Francisco and will visit Portland, and may come to Victoria.

The steamship Vasco de Gama is advertised to sail from San Francisco for the Sandwich Islands, New Zealand and Australia on October 9th.

A London dispatch of 23d says Edward Hewitt & Son, provision dealers, failed for $125,000.

The failure of the Bank of California is not supposed to affect any bank or business house in British Columbia.

CORONER'S INQUEST.—Dr. Chipp held an inquest in Barkerville on Saturday last on the body of Ah Sou, a Chinaman, who died from the effects of injuries received in a mining claim situated on a small creek four miles from Keithley. Eh Tie deposed that on Friday, 20th August, about 8 o'clock in the morning, while at work in the claim, the bank caved upon deceased, injuring him seriously. Witness went to Davidson's crossing to get medicine, but could not get any; also sent a man to the Forks for a doctor, but there was none there. He then sent a letter to Sam Wha at Barkerville to get a doctor; no doctor was sent, but a Chinaman came over to assist in bringing the injured man to Barkerville, and he died in a cabin a quarter of mile distant from Grouse creek on the way in. The Jury returned a verdict that the man came to his death by accident.

VENI, VIDI, VICI.—The arrival of last night's Express recalled to our mind Cæsar's famous dispatch to the Roman Senate: "Veni, vidi, vici"—"I came, I saw, I conquered." Our old friend Wilmot, of the Lightning Express Line, who left Barkerville some four weeks since bound for the lower country in search of a wife, returned last night, and, like another Cæsar, was able to report to his friends, "I came, I saw, I conquered," having been so fortunate as to succeed in capturing a fair daughter of Victoria, who has now the felicity of being help-mate to our irrepressible Expressman. We wish the happy couple much joy, and recommend our bachelor friends to follow Wilmot's example.

BARNARD & Co.'s EXPRESS arrived at six o'clock last night, having made the run from Stanley in less than two hours. Mr and Mrs Wilmot, and Mr W. P. Barry were passengers.

WM. DIXON left Barkerville this evening en route for Ashcroft, with the racers Jack Minor and Big Mandy. Trifle and Nell Flaherty left for the same place about a month since.

DEATH.—Capt. Fleming, a lower Fraser steamboat owner, died at Oakland, California, on the 9th August.

A NOVELTY.—Paper Curtains, now used generally throughout Great Britain. A sample can be seen at W. D. Moses' store.

HEAVY RAINS in the lower country have, it is reported, seriously damaged the crops.

COUNTY COURT.

RICHFIELD, August 31.

BYRNES, Executor of Dr. Bell, deceased, vs. F. J. ALEXANDER.—Action to recover $45 for medical services.

On behalf of plaintiff, the books of the deceased were put in evidence, from which it appeared that the defendant had been professionally attended by Dr. Bell, and that $45 was the sum charged.

The defendant testified that in casual conversation with Dr. Bell the defendant's health was mentioned, and he told the doctor that professional men in Victoria had unsuccessfully treated him for deafness, whereupon Dr. Bell stated he would like to try what he could do, saying "never mind money"—defendant supposing he undertook the case for honor and glory.

On cross-examination, it appeared that after this conversation defendant was professionally attended for two complaints, and the conversation had reference only to one.

The Jury gave a verdict for plaintiff for the amount claimed.

BYRNES, Executor, vs. J. W. WILSON.—Action for medical services to defendant's wife.

Plaintiff stated he had applied to defendant for payment of $125, a charge appearing against him on Dr. Bell's books. When defendant stated he had asked Dr. Bell if he owed him anything, and he said no. On a subsequent application, defendant said he had paid Dr. Bell enough, but declined to say how much he had paid him.

The defendant deposed that the doctor came to his house, and performed his duties on the morning of September 9th, and before the doctor left he paid him $100, being under the impression that such was the fee for such cases; and on a subsequent occasion asked the doctor if he owed him anything to which a negative answer was given. Defendant's counsel also proved by the evidence of Dr. Chipp that it was not customary in England for doctors to give receipts for the fee received by them in midwifery cases, which was almost universally paid at the time the service was rendered.

On behalf of plaintiff, it was advocated, amongst other things, that if the defendant's version were true, he should be mulcted in the costs for not having given a better explanation to plaintiff's application, for if defendant had then given the explanation he now gave the case might not have been brought into Court, whereas his conduct forced plaintiff to bring the action.

The Jury returned a verdict for the defendant, and recommended that he should pay all costs. Judgment accordingly.

BYRNES, Executor, vs. MCNAUGHTON.—Action for $75 for medical services.

The defence was that defendant had asked Dr. Bell for his account, whereupon the latter replied to the effect that defendant did not owe him anything. Defendant also stated that he had rendered favors to the doctor, and believed that the latter under the circumstances did not intend to charge him anything.

On behalf of plaintiff, the doctor's books were produced, with the charge as above against defendant; and on plaintiff's behalf it was contended, both as a matter of law and in a business point of view, that a mere present of a debt was no answer to an action brought for its recovery.

The Jury disagreed, and were discharged after having deliberated for three hours.

A fresh jury was then empanelled and the case again gone through, and the jury, after ten minutes' deliberation, returned a verdict for plaintiff.

In the above cases, Mr Davie appeared for plaintiff; Mr Park for defendants.

B. VANVOLKENBURG vs. CHARLES MCKANE. Action for $31 L, balance of principal and interest due on covenant in mortgage executed by plaintiff to defendant. Judgment for plaintiff.

MINING JURISDICTION.

AIME ENDE vs. ANTOINE BALISH and W. L. JONES.—Action for $490, balance of wages due.

It appeared that plaintiff commenced work in the Canadian Company on Grouse Creek in the spring of 1871, when Balish was the sole owner; that Jones purchased one-half of the claim in October, 1871, and plaintiff continued working until some time in 1872, and quit some time before Jones sold out.

On behalf of defendant Jones, it was contended that as he had paid the representation of his share of the claim, the plaintiff must be taken to have worked for Balish alone. On the part of the plaintiff, it was argued that unless he was party to an express agreement by which he was to have recourse for his wages against Balish alone, he was entitled to recover against both, at all events for wages subsequent to October, 1871, especially as it was a partnership concern and not registered, and it had appeared that plaintiff had been paid sums on account out of the partnership moneys.

Judgment against both defendants for $206, being wages accrued since defendant Jones became a partner, and judgment for the balance against defendant Balish; Balish to pay three-fourths of the costs and Jones one-fourth.

Mr Davie for plaintiff, and Messrs. Barnston and Park for defendant Jones.

FRIDAY, Sept. 3.

IN BANKRUPTCY.

DOMINIQUE ERCOLE, a Bankrupt.—The Bankrupt appeared for his second examination, and being opposed by Mr Barnston on behalf of Girod & Guichon, the examination was adjourned to the Supreme Court at Richfield, in accordance with the Bankruptcy Act. Mr Davie appeared for the Bankrupt.

MINING.—The mining news is of very little interest this week. On Conklin Gulch, the Cora company are working on good pay and washed up 80 oz up to Friday noon. The Ballarat co. are making over expenses. On Lightning creek, the Victoria co. had 532 oz. last week. The Vulcan co. had 56 oz. on Tuesday. Costello co. are running up stream directly under the town of Stanley; the channel is narrowing and the ground looks better. Gladstone co. expect to break through in a couple of weeks; rock very hard. Eleven of England co. found the rock pitching, and have gone back to the lower level. Spruce co. will resume operations in a week or two.

THE TELEGRAPH LINE has been down south of Yale for a week.

PEARSON'S EXPRESS.—The next stage will leave Stanley on Saturday, Sept. 18th.

BERKELEY, September, 1869.—Gentlemen, I feel it a duty I owe to you to express my gratitude for the great benefit I have derived by taking "Norton's Camomile Pills." I applied to your agent, Mr Bell, Berkeley, for the above-named Pills, for wind in the stomach, from which I suffered excruciating pain for a length of time, having tried nearly every remedy prescribed, but without deriving any benefit at all. After taking two bottles of your valuable Pills, I was quite restored to my usual state of health. Please give this publicity for the benefit of those who may be thus afflicted.—I am, sir, truly yours, HENRY ALLPASS.—To the Proprietors of NORTON'S CAMOMILE PILLS."

RULES RELATIVE TO PRIVATE BILLS.

All applications for Private Bills, property the subject of legislation by the Legislative Assembly of British Columbia, within the purview of "The British North America Act 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line, the construction or improvement of a Harbor, Canal, Lock, Dam or Slide, or other like work; the granting of a right of Ferry; the Incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the right or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz.:

A Notice inserted in the British Columbia Gazette, and in one newspaper published in the district affected, or if there be no newspaper published therein, then in a newspaper in the next nearest district in which a newspaper is published.

Such notice shall be continued in each case of a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the petition.

Before any Petition praying for leave to bring in a Private Bill for the erection of a Toll Bridge presented to the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed in the preceding Rule, also at the same time, and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.
