First Good Citizen Receives Award

Photo by C.G. Ballentine.

Harry Winn of Gibsons receives the First Good Citizen Award From Magistrate Johnston, who made the presentation on behalf of the Gibsons Board of Trade. (See page 3 for text of scroll.)

Minister of Fisheries To Sell Foods

The Hon. James Sinclair, M.P., has an exhausting itinerary mapped out for his next selling trip.

"Jimmie" if off for the United Kingdom to further the sale of salmon from Canada. The carry-over from the 1952 pack is said to be 'large' and the pack from 1953 will run in high figures. It is thought that Mr. Sinclair may be able to promote the sale of a goodly portion of this.

His further travels will take him to Asia, where he will deal with the Nations presently being aided by the Columbo Plan. By April of this coming year, the Member for Coast-Capilano will have visited a great portion of the "Other Half."

The tour of the Prime Minister will closely follow that of Mr. Sinclair to the Asiatic nations.

Sechelt Volunteer Fire Brigade

Mr. E. Pearson, chairman of the publicity committee of the Sechelt Board of Trade, advises that McMillan, Bloedel Ltd. have lent a truck for the use of the Sechelt Volunteer Fire Brigade. The Brigade have the use of this truck until such time that McMillan, Bloedel Ltd. resume operations here. The people of the area will be pleased to know this, as the previous truck collapsed some time ago. Fortunately, there have been no fires.

The Brigade members are busy making a deck and tank for this truck. It is being constructed in such a manner that should the truck be required by the owners, the tank can be removed to be used on another vehicle. The various garages are co-operating with the Brigade by lending welding equipment, etc.

The Brigade may be a hobby to the members, but they do spend a good deal of time and energy on it, and there is always the time of a fire, when it is anything but a hobby for them. The residents of the district are grateful to these volunteers, although they may not be vocal in their thanks.

Another New Business

Mr. Walter Flay, of the Selma Fishing Resort, this week announces the opening of a new business at Selma Park.

He is opening a bicycle sales and repair business, and will include the care of all wheeled goods, ranging from lawn mowers to baby carriages. His business will be carried on at his Resort property in Selma Park, right on the blacktop.

Before coming to Selma Park this spring, Mr. Flay had been in the cycle business in Vancouver for some years, and is a member of the Cycle Trades Association.

A.N.A.F. To Meet

The Army, Navy and Air Force Veterans are to meet at Gambier on Sunday, October 11th, at 2:00 p.m. This is the Anunal General Meeting, which had ben postponed.

Word was received on Tuesday that the Island had been somewhat cut off since Sunday last, due to storm damage, and no word of the meeting could be sent sooner.

Gibsons V.F.B. Answers Call

Sunday morning last, the Gibsons Volunteer Firemen answered what proved to be a 'false alarm' in record time.

At 10:01 a.m., the siren sounded. Sunday, the worst possible day for a local Volunteer Brigade, did not deter the Gibsons boys. At 10:07 they had assembled at the new duplex built by Mr. Thomas, in the Bay area called by a neighbour who had seen what seemed to be flames shooting up from the roof.

On rounding the corner of the house, they discovered Mr. Thomas busily burning brush and debris at the rear of his lot. (Permit, hose and all complete was Mr. Thomas.)

The Fireboys, relieved to find there was no trouble, returned to the firehall, all in order, at 10:18 a.m.

Pender Board Of Trade Dinner

The First Annual Dinner and Dance of the Pender Harbour and District Board of Trade was a very successful and enjoyable event with members from as far away as Blind Bay, Nelson Island and visitors from Vancouver and Victoria.

The M.C., Mr. Jim Marsh, opened the affair by proposing a toast to the Queen, Canada, The Boards of Trade and Pender Harbour District.

The President of the Board of Trade, W.P. Peiper, introduced the guests who were Mr. and Mrs. Merrillees, representing the Vancouver Board of Trade, Mr. and Mrs. Tom Larson, Gibsons Board, Mr. Ken Whitaker, Sechelt Board, Mr. and Mrs. Bob Cook. Mr. Cook represents the B.C. Power Commission on the Sechelt Peninsula. Mr. G. Frith and Mr. R. Godfrey representing Black Ball Ferries, Mr. G. Griffiths, from Victoria, representing the B.C. Power Commission. Dr. Richard Hitchings, the new Pender Harbour doctor and his bride were introduced, also Mr. and Mrs. Eric Davidson who have just returned from their honeymoon.

Regrets were sent by representatives of the Government who were unable to attend as the Legislatature was in sessiion.

Following the dinner Mr. Peiper called on the guests for a few words. Mr Merrillees drew comparisons between the work of Boards in Rural Districts and those in the Cities. Other speakers were Mr. Tom Larson, Mr. Frith, Mr. Ken Whitaker and Mr. Bob Cook. Each of the speakers brought words of appreciation and encouragement from their organization.

Mr. G. Griffith of the B.C. Power Commission gave an outline of the work of the Commission since its inception to the present time but did not commit he Commission to any definite time for the arrival of power at Pender Harbour. However, since hearing Mr. Griffiths re-

(Continued on page 5)

See Annual Dinner

B.C. Power Has Trouble

The regional manager of the B.C. Power Commission, Mr. R. Cook, advises that the outage last Tuesday evening was caused solely by a damaged insulator at Sechelt.

Shooting, with a rifle or sling shot, or throwing stones, often results in cracked insulators. These are often not discernible from the ground, even with binoculars. While the weather is dry, no great harm results, if the glass is just cracked.

As soon as the driving rains of autumn begin, the water penetrates the cracked or broken insulator, and the short occurs.

In the case of Tuesday night, the insulator was not hard to find, and it was close. The time lost from movies, bowling, radio, or just plain use of power or light was short.

As Mr. Cook explained, when the damage is done along the lines in the country, the time that must elapse before the breaks can be discovered, and the necessary time for repair, are much greater, and cause much more inconvenience to everyone.

These annoying interruptions that inconvenience everyone who use light and power will continue as long as insulators damage in this way. There is not a sufficient crew to patrol the lines and to climb every pole in the area to find these cracked insulators, even supposing they had no other work to occupy them.

Mr. Cook requests that anyone noticing cracked or broken insulators, or anything else unusual about the power lines or poles, should phone to him. He adds the word "Collect". Such a phone call may be the means of preventing further annoyance and inconvenience to a great number of people.

Peninsula Building Supply Completey Destroyed

Peninsula Building Supply premises at Sechelt were completely destroyed by fire of unknown origin early Monday morning, September 28th. The alarm was turned in at 2:20 a.m. by Mrs. R Larson, whose son had been awakened by the flames reflected on his bedroom window.

Sechelt Volunteer Fire Brigade turnd out in full force, connected here hoses to the hydrant at the end of the Sechelt Wharf, to play water on the fire, which was blazing furiously by that time.

The Bank of Montreal building across the lane, owned by Mr. E. Adernick, was scorched, but the Brigade saved it.

Rolls of slate surfaced roofing could be seen still standing at the hight of the fire. Surprisingly few people gathered at the scene of the fire.

No estimate of the damage has been made as yet. Fortunately, the gale which had been blowing early Sunday evening had died down. To the north of the building, there is unoccupied space and a lane, before the cement block bowling alley. What wind there was, was blowing away from the Home Oil storage tanks on the waterfront.

Good Citizen's Wife Stands Beside Him

Photo by C.G. Ballentine.

On being informed that he had been chosen as the Good Citizen of Gibsons and District, Harry Winn said that his wife had always stood beside him, and asked that she do so at the ceremony. Mrs. Winn, (Lou to most of us,) joined Harry at the head table.

Storm Damage

High winds and storm tossed waters in Howe Sound on Sunday evening caused the crew of the 'Bainbridge' to regard as unnecessarily hazardous the early evening trip to Horseshoe Bay. In addition, there was no power available at Horseshoe Bay so that the incoming trip at that hour was greatly delayed, Travellers were all eventually accomodated, though the hour was late before the final crossing was made.

Trees were broken and blown down, telephone and power services intrupted, gardens in exposed areas were partially dismantled.

By Monday morning, most of the damage had been cleared away, and services were for the most part operating normally.

New Business

Gibsons loss is Penders gain. Mrs. Nina M. Jones, of Gibsons, is moving to Garden Bay to open her 'Specialty Shop' there in the little shop formerly iperated as a dress shop by Mrs. Lyons of Sechelt.

Mrs. Jones has lived in Gibsons for just under two years, having come from Golden, B.C. She will be joined in Garden Bay by her son, as soon as he comes from Golden. She hopes to make Garden Bay her home as well as business headquarters.

Local Grads Go To U.B.C.

Seven Peninsula graduates, more than at any time in the district's past, have enrolled at the University of British Columbia for the coming session. Maldwyn Thomas, of Gibsons, and Eugene Blomgren, from Roberts Creek, both scholarship winners, have re-enrolled. Betty Brown, Granthams; John Clayton and Bernard Heskins, Sechelt; Wally Sandberg, Roberts Creek; and Gerry Glassford, Gibsons, are all entering First Year.

Two 1952 graduates, Betty Pratt of Sechelt and Maureen Ross of Roberts Creek, attended Vancouver Normal last year, and are now rooming together at Abbotsford, where both are teaching.

Editorials

LIGHTS OUT!

B.C. Power Commission, through their local manager Bob Cook, have a real headache on their hands. This headache is shared by all theatre, concert and radio audiences, by every home-owner and business operator, by all the schools, doctors, hospitals in the whole community. It is the cutting of power from a cracked or broken insulator.

These insulators may stand for many weeks during dry weather with no power failure, but as soon as the heavy rains begin, so does trouble.

As long as foolish, thoughtless people with rifles, sling shots or merely stones, make the insulators their targets, so long will we have these sudden, unpredictable and costly power failures.

Surely the community is now sufficiently civlized to realize the effects of such damage, Children must be taught, its true, but there are so few children so young as to be unknowing in their damaging sport who can hit an insulator. This smacks of youthful or adult strength, directed by either complete thoughtlessness or by the mind of a moron.

Parents and school teachers should impress their charges with the seriousness of the offence, and those who are adult in strength and skill, who still persist in childish play, must eventually be curbed by the Law.

Good citizenship

The award given last week by the Gibsons Board of Trade to one whom they considered to be the greatest exponent of the "Golden Rule" is a pleasant form of recognition by the people of an area of the worth of one of their members as a man, as a member of society, and as a worker among them.

This first year's award has been given to Harry Winn. We can think of no one who more deserves the choice, nor can we think of any one who will wear the title with more grace and modesty. We congratulate the Board of Trade upon their judgement.

Safety precautions

Now that we have all turned our clocks back for an hour, the closing-in evenings seem to have practically shut with a snap. That means that more and more people will be compelled to move about after dark.

With the highways being blacktopped, and more vehicles moving, pedestrians are not easy to see, particularly when the driver is operating with his "courtesy beam" for on-coming traffic.

It would be a measure of safety for all foot travellers to have flashlights. Children's clothes might bear a patch or stripe of Scotch-lite tape, or some other reflecting material. Bicycles should definitely be equipped with both front and rear reflectors, and headlights.

Vehicles travelling with projecting loads, such as timbers, logs, etc., are reminded that while a bit of red flag waving from the end is quite effective by day, it is not so by night, and either a light or a reflector should be fastentd to the projecting portion of the load. Horse drawn vehicls should be equipped with reflectors or lights. Aboveall, live stock should not be permitted on the highways unattended.

Reader's Right

GOOD CITIZENS

Editor, The Coast News,

In regard to the choice of citizenship award, shouldn't the selection have been made in regard to civic progress, rather than public service?

For instance, Men such as the following have been builders of Gibsons, and worked for its welfare over a number of years, although little is ever said of their accomplishments.

For instance, Mr. Ballentine or Mr. C.P. Smith. Mr. Smith is an elder citizen who has had Gibson's welfare at heart. Noted for his hospitality, he has also shown his confidence in his town by investments to further its growth and success.

Mr. Ballentine is doing a fine job of administering to Public welfare through public works, and has been a foremost contributor to progress.

John Cattanach.

Gibsons.

Ed's Note: We, too, appreciate the difficulty, and are glad the responsibility of the choice was not ours. We do believe the final choice was a logical one.

B.C.'s New Forests

by JAMES K. NESBITT

By special permission from the "News Herald."

Way back of beyond, in the hills of Vancouver Island, new forests are growing.

They can't be seen from the main highways, these magnificent splashes of green, small trees now, but a tremendous hope for the future.

It's only when you travel miles along logging roads that you suddenly come upon new trees—and then you travel through acres and acres of them. It's a wonderful sight—and when you see those lush new trees you know that acres that were logged or burned are no longer left nude and ugly. New timber is being grown, covering the scars—and much more important than that, it's timber that will be ready for cutting 80 to 100 years from now.

Thus this generation is looking after the interests and the well-being of generations yet unborn.

Government and Industry are now doing there best to see that BC's rich forest resources are preserved for all time, so that this province will never lose it's very backbone, it's blood and it's sinew. Without the forest industry, B.C. would amount to very little.

A few days ago I saw new forests springing up in the country that was laid bare by the great Campbell River fire of 1938. I was astonished, and comforted. I stood on hilltops and looked down on those new forests, and wished that all the people could know they're growing.

James Sheasgreen, manager of Canadian Western Lumber, and his chief forester, Fred Mullholland were standing on the hilltops too, and fairly bursting with pride. These two, like most forestry men, eat and sleep and talk trees, all the time, any time. A forest tree, to them, is what a prize azalea is to a nurseryman. Messrs Sheasgreen and Mullholland supplied many of the statistics in this article.

From 1943 to 1948, Canadian Western Llmber, for instance, planted 3,026,000 trees on 3,650 acres of denuded land, mostly on the site of the Campbell River fire.

Total planting throughout the province, since 1930, now amounts to 91,517,450 trees, on 110,647 acres, while the government's forest service has planted 75,930,350 trees on 91,412 acres.

UBC forestry dean George S. Allen was standing on those hilltops looking down at the new forests, and he said: "The forest will renew itself quickly if given half a chance. The menace of fire, however is always present. If we continue tohave fires such as that which swept the Campbell River area in 1938, and the Mount Benson fire in 1951, then we shall have to plant in a big way.

"If we can only solve the unintentional incendiarism of our people while fishng and hunting, travelling and berry-picking, Nature will grow forests here continually for all time to come. Even with the tremendous fire menace, the industry and the Forest Service are doing a pretty good job—but a lot of their effort can go up in smoke over the next fifty years."

Planting of new trees is done by regular logging crews when deep snow at higher levels makes logging impossible. They are assisted from time to time by school boys. The men, most of them local loggers, take a keen

Mrs. A.F. Hurd is visiting her son and daughter-in-law, with an aunt, Mrs. J.F. Redstall, both of Sherbrooke, Quebec.

The Phil Strides have had Mr. and Mrs. W. Stride of Vancouver, phil's parents, as guests.

The M. Watsons and W. Wilkdes took a quick trip to Kelowna for the week-end.

Two Japanese freighters have been in port loading, recently.

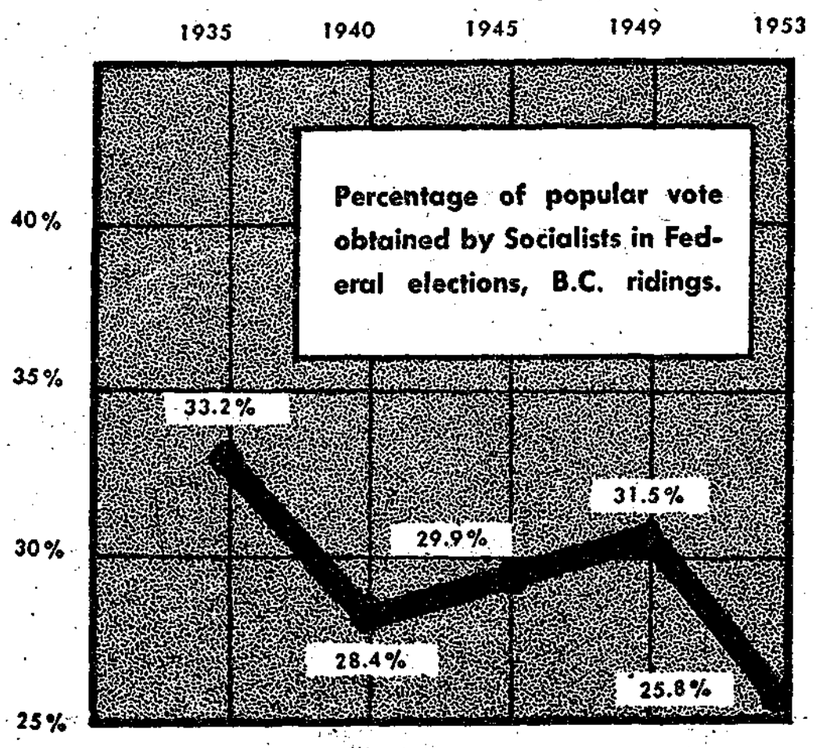
Mrs. Swan is off for a two week's trip to the United States.

How Socialism Has Fared in Five Federal Election Campaigns in B. C.

Since 1935 there have been five Federal elections.

In these, the fortunes of the Socialist Party, formed at Regina in the midst of the depression, has fluctuated.

In terms of popular support in British Columbia, the accompanying graph shows what percentage of the total vote the Socialist candidates won in Federal elections.



It is significant that this year's voting saw Socialist support at an all-time low. Nevertheless, with redistribution and a multiplicity of parties in the field, Socialist candidates won three more seats.

As elsewhere in Canada, the citizens of British Columbia appear to be less and less willing to support the great Socialist plan of Government-run-everything.

BRITISH COLUMBIA FEDERATION OF TRADE AND INDUSTRY

Community Planning Conference

The British Columbia Division of the Community Plaining Association of Canada is holding its Sixth Regional Conference in conjunction with the Pacific Northwest Chapter of the American Institute of Planners. Invitations to attend the Conference have been extended to all Municipal Councils and Community Planning Commissions throughout the Province.

The wide interest in community and town planning is apparent today and Communities are concerned with the tremendous developments and expansion they are experiencing and are looking to planning advice to assist in solving the problems caused by the expansion now going on.

Members of the Pacific Northwest Chapter of the American Institute of Planners will also participate in the programme and discuss such matters as Non-Conforming Uses, Shopping Centres and Industrial Dispersal in Metropolitan Planning.

The plan for the new town of Kitimat will be presented by Mr. C. McC. Henderson, Municipal Manager of this recently instituted community.

The Conference will be held in the Stanley Park Pavilion, near Malkin Bowl, Vancouver, on Friday October 2nd, and Saturday October 3rd. Registration opens on Friday at 9 a.m. There is no registration fee.

A dinner will be held in the Brock Hall, U.B.C. on Friday, October 2nd at 7 p.m.

Gower Gleanings

All the friends of Mr. James Beaton will be glad to hear that he is now doing a little better although still confined to the Vancouver General Hospital.

The Harry Chaster's back from their whirlwind tour up the John Hart Highway to Dawson City to Banff, Lake Louise and back down the Hope-Windermere highway through glorious sunshine to nice juicy rain at Chilliwack and on the trail to home sweet home!

Mrs. Alice Henderson, Miss Dora Wright and Mrs. McKay enjoying a few pleasant days at Bedeque.

Mrs. Sydney Porteous relaxing with the Jules Mainil's up Pratt Road while Mr. Porteous indulges in duck dinners and Rainbow trout while visiting the old home town in Carlyle, Sask.

Mr. Charles Bedford sharing his prolific garden produce with all his neighbors.

Mrs. Freda Jordan much improved and looking more like her radiant self entertaining at tea and Canasta parties.

Mr. and Mrs. Fred Fisher, accompanied by Mr. and Mrs. Guy Fisher and friends back from a thrilling boat cruise through the Gulf Islands and up the Coast. All looking refreshed and planning further adventures up the Cariboo.

Mrs. John Coleridge still improving. planning to winter in Montreal with her daughter, provided of course, that Mr. Coleridge doesn't get too lonesome!

And that folds it up for another week.

C.N.I.B. Notes

by F. W. Dawson

The C.N.I.B. asks for the backing of the general public, not only in contributing to the "Drive for Funds", which commences on October 15th, but in suggestions for productive work for the handicapped. Suggestions for older people, too, would be welcomed, which would tend to relieve their enforced solitude.

The C.N.I.B. does much, but outside suggestions are very welcome. Mrs. Norman Hough of Gibsons is the local secretary.

Around the School

Each Day 2, if you smell something peculiar it will likely be coming from the Boys Home Ec. Club.

There wasn't a very big turnout, but Mrs. Evans hopes for a larger group next meeting.

Increasing 10 A's class total to 29, is Lynne Peverette. Th.s 16 year old sports enthusiast, comes from King George High School and says the kids are all friendly. Lynn likes typing, so mayb we have a future steno in the making.

It seems Mr. Peers; IAA Club for girls didn't pan out exactly as planned. Anyone interested please show up at noon on Day 2.

In grade seven this year, we have a boy who has never been to school before, Bobby Sowden, from Simon Sound in the Charlotte Sound area has been taking correspondence since grade one.

Bobby has three new subjects this year which he could not by correspondence. Music, Physical Education, Industrial Arts, the latter being his favorite.

He finds a school of this size very different from his former life, with the nearest kids approximately ten miles away. When asked what he thought of school, he said, "There is nothing wrong with this school, but I just don't like school at all."

He is staying with his Grandmother at Gower Point, his parents still live in Simon Sound.

Sports Views

By BILLY NICHOLS

House competition here at the High School still is not underway, but the newcomers to Elphinstone have been assigned to the respective housese and organdized sports will resume very soon, probably early this week. During the fall season volleyball and soccer (until the weather takes over) will be played. The boys will have the field three days a week for soccer and two days in the gym for volleyball. Three of four boys have volunteered to set up a pair of good goals in preparation for soccer.

If this year's senior basketball team doesn't make such a good showing this winter, it won't be from lack of condition. Each noon hour for the past week, the squad, under the watchful eye of coach Clark, has been jaunting to the Pratt Road and back for conditioning for the coming hoop campaign. Regular practices will begin in October.

Winter Postal Hours

Jim Marshall, Postmaster at Gibsons, announces new Postal Hours as follows:
Mail Received: 9:45 a.m.
Mail Dispatched: 3:00 p.m.
General Delivery: Opens 11:30 a.m. Wednesday closing: 1 p.m.

Pulp and Paper Essay Contest

"How Pulp and Paper Have Aided Progress" will be the question running through the minds of hundreds of Junior and Senior High School Students as the date rolls around for the Annual Pulp and Paper Industry Essay Contest.

Giving plenty of scope, this topic is also educational and interesting. Students express their opinions in an essay not to exceed 250 words.

The thirty winners throughout all parts of B.C. will select their awards from a choice of valuable items. There will be three Junior and three Senior prizes for each of five zones which divide British Columbia equally by school population. Last year over 5000 students entered the contest.

don't miss a thing in The Coast News

WHAT'S ON WALLY'S MIND ??

Answer this question and there's a prize of $500 plus the accumulated jackpot of $50 a day. Prizes for questions too. Wally Crouter is emcee of this exciting quiz heard Monday to Friday at 10:50 a.m. on CKWX

SCOTLAND'S FOREMOST CHARACTER comedian Alec Finlay, above, returns to Vancouver at the Georgia Auditorium for four hilarious nights - October 14, 15, 16, 17. The "Riot of Fun" show also includes Will Starr, Scotland's ace accordionist, Alfred Lowe, Baritone, Evelyn Holmes, soprano and other Scottish entertainers in two seperate shows - the first on October 14-15, the second October 16, 17.

Reserved seats are $3, $2.50, $2 and $1.50 at Modern Music, 536 Seymour St., Vancouver (Phone "Concert Reservations" TAtlow 3622).

The Alec Finlay Show is sponsored by St. Andrew's and Caledonian Society and the B. C. Piper's Association.

Power Blackout

Monday evening there was a power blackout for about an hour in Sechelt and district. It was caused by an insulator breaking and the rain shorting the line, which touched off a display of fireworks. League play at the bowling alley was interrupted. but the players waited for the break to be repaired and then finished their bowling, even though it was getting on toward midnight.

Legals

Notice of Intention to Sell.

Notice is hereby given of intention to sell the following land: Lot 1, Dist. Lot 695, Plan 2746, Block 2, Dist. Lot 695, Plan 2746. approximately 10 acres, some buildings.

Sverre Odin Fladager of Gibsons in the Province of British Columbia, as follows:—

To change my name from Sverre Odin Fladager to Samuel Odin Fladager. Dated this 23rd day of September, 1953.

S.O. Fladager.

Scottish Comedian Returning To Vancouver

Alec Finlay, Scotland's foremost character comedian and only surviving successor to the late Sir Harry Lauder, will appear in person with his celebrated company of Scottish stars at the Georgia Auditorium, Vancouver, for four nightly performances, October 14, 15, 16 and 17.

"The wee mon wi the crooked stick" is coming back to Vancouver again under joint sponsorship of the St. Andrew's & Caledonian Society and the British Columbia Pipers' Association. Last year Finlay and his entertainers held two nightly performances which packed the auditorium to capacity and forced hundreds to be turned away. In view of this it was decided to extend the performances to four nights this year with two distinctly separate shows, the first on October 14 and 15, and the second on October 16 and 17.

Reserved seats are obtainable from Modern Music Concert Reservations, 536 Seymour Street, Vancouver.

Finlay brings with him the late Sir Harry Lauder's famous crooked "Roamin' In the Gloamin'," stick which he personally presented to Finlay. At the time he made Finlay promise that whenever he used it in his performances, he would sing one of Lauder's songs.

ANNUAL DINNER
(Continued from Page 1)

marks it is hoped that the power will reach the area in the not too distant future.

Mr. Peiper gave a brief resume' of the work of the Pender Harbour Board in the past and the projects the Board is working on at present.

The Orchestra ran into tire trouble and missed the Ferry, so after a brief intermission for removal of tables etc., a singsong was lead by Mrs. Ed. Green, of Vancouver, accompanied by Mrs. Fred Clarke on the piano.

The Orchestra — Pat Gerow and his Westerners, accompanied by Clover Lane (Mrs. Pat Gerow) finally arrived and the dancing got under way. A very enjoyable evening with an excellent attendance was brought to a close in the "wee sma' hours".

The Entertainment Committee Art Cherry, Jim Marsh and Royal Murdoch assisted by Mrs. Peiper and Mrs. Art Cherry wish to thank everyone for their very generous donations and also the many members and non-members and their wives who literally rolled up their sleeves and pitched in and helped, and last but not least, the members of the Board of Trade wish to thank the entertainment Committee for their weeks of preparatory work without which the dinner and dance could not have been the success it was.

Date Pad

Oct. 2 — St. Bartholomew's WA general meeting in the parish hall at 2 p.m.

FOR SALE

You will love me, my present owners just hate to forsake me, but illness demands that they do. I am on a beautiful 50 foot waterfront lot, extending to a grand beach, close in to Gibsons. My family have spent years of time and oodles of money on gardens and rockeries, my grounds are fertile, fine fruit trees too, and lovely roses and flowers, there is a boat house and a good garden house and shed, I have a lovely large living room with good fireplace, two nice bedrooms, kitchen, 3 piece bath, lights, telephone, and the view from my front windows is entrancing, I sit on a solid cement foundation and am heated by automatic oil furnace. Truly I am a gem in a perfect setting, just have my friends the Totem Realty bring you along, I do hope you will take good care of me, you can have me for a very little down payment and my total price is surprisingly low.

Selma News

by "Brevittee"

Mr. and Mrs. R.H. Higdon and family have arrived from North Vancouver and are now occupying the Olgie cottage on the waterfront.

Mr. and Mrs. George Kynoch paid a flying visit on the week-end, to see that their summer home was in good sape. Mrs. Kynoch has been ill and is still under the care of her docter.

Mr. and Mrs. H. Morely, and a friend have been occupying one of the Wigard cottages for a short time. Mr. and Mrs. Morely were formerly of Wilson Creek, and moved to Vancouver just a couple of years ago.

Dr. Pat Radcliffe and Dr. Rolly Radcliffe have been holidaying at the Wigard cottages. Both these doctors are on he saff of St. Paul's Hospital.

Mr. and Mrs. Jack McAllister and family, of Gordon River, and formerly of Roberts Creek spent the week end in Selma Park.

Mr. and Mrs. Gunnar Wigard and family managed to take a holiday in Vancouver visiting with Mrs. Wigard's sister, Mrs. Henry Eddie. The children enjoyed the zoo at Stanley Park and the P.N.E. exhibition and parade. Then they all went on to Chilliwack, which is Mrs. Wigard's home town, to visit with her brother, Mr. Clifford Skelton. The Wigards have been busy this summer with visitors, so were pleased to be able to squeeze in a short holiday before school opening.

Guides & Brownies

A meeting was held at the home of Mrs. Ritchey on Sept. 9th. Mrs Stenner reported seven Brownies now ready for Guides.

It was decided that awards should be made for the Brownie of the Year and for the Guide of the Year.

Mrs. Inglis was appointed Secretary to the Brownies. Mrs. Turner is assisting with the Brownie Pack.

Leaders for the Guides and Brownies are needed. Mrs. Ritchey offered to receive phone calls from any person interested in helping with this work.

The date of the next meeting was set for Monday, October 6th, and those interested in the movement are invited to attend.

Commission Meeting

The Clerk, read from former letters on this problem, and stated that it was an old problem, and that there were several culverts that had been placed during road construction by the Province as well as by the Village. The Province was partially responsible for results of work done.

An application for water service to a property on Pratt Road, where water connections were already in place, and where the initial shares had already been paid by a former owner, was approved.

Committee reports were received. Water Commissioner J. Schutz reportd all well in his department.

Commissioner Ritchey reported work commencing on the Blacktop or Flush Coating of the four roads outlined for same, and that the clearing of the right of way on roads in the Bay area to be progressing favorably. It was decided to put up a 'no parking' sign near the fire hydrant by the United Church.

Commissioner C.P. Ballentine drew attention to the clearing at the church corner. Mr. Locke Knowles, present at the meeting, offered to donate peat moss, fertilizer and grass seed to improve the little area.

After Commissioner Schutz again brought up the matter of the Ferry traffic blocking access to the Shell station, the Clerk was directed to telephone re the signs that had been ordered previously.

It was also decided to re-open correspondence with the Black Ball Company and to ask that and official of sufficiant authority be asked to come to Gibsons to review the traffic situation, and that a copy of this letter be sent to the Provincial Government Department of Public Works that they might also send an engineer to meet with the Commission a the same time. A date was suggested as October 6th.

The commission felt that their previous efforts in this direction had been in one instance shelved and in the other ignored.

The meeting then adjourned to a committee of the whole to study water service.

Roberts Creek Round-up

by Madge Newman

Last week the Badminton Club met and voted to play weekly during the winter, each Tuesday evening in the Hall. Len Allen was elected president of the club, with Doreen Matthews as secretary. This is a good game; more people should try it.

Mrs. J. Eldred and two children have come from Kitimat to visit Mrs. Eldred's mother, Mrs. W. Forrest.

The J. Bevington family have left the district to reside in Vancouver.

Rod and Gail MacKenzie have returned to Vanderhoof after visiting their grandmother, Mrs. C. Coughlin, and aunt, Mrs. L. MacDonald. During their short stay they renewed acquaintances with former school buddies.

St. Aidan's Junior Choir is again present at church following a summer vacation. Mrs. Dora Blake shoulders the responsibility of training the children and choir practice is Thursday evening. Organist is Mrs. C. Harbord.

Our congratulations to Harry Winn on winning the Good Citizen award.

The Herb Berdahls are rejoicing in the birth of a son in VGH last week.

The ladies of the Canadian Legion Auxiliary held a very successful tea at the Legion Hall on the 25th. The door prize, a large bath towel, was won by Mrs. P. Edmonds. A handsome silver butter dish was raffled and the lucky winner was Mrs. M. Warlow. Mrs. R. Hughes received a box of hasty notes for her skill in the guessing contest.

The Rhythm Pals, Mike, Mark and Jack, have been engaged to play for the PTA dance on October 10. Don't forget that date.

Birthday Party

Mrs. J. Redman, Sechelt, was hostess of an afternoon party, the occasion being the birthday of her mother, Mrs. M. Clampitt, who lives in West Sechelt.

The tea table was centred with a birthday cake, which was cut by the honoree, after she had blown out the candles.

Guests who were there to wish Mrs. Clampitt many happy returns of the day, were Mrs. E. E. Redman, Sr., Mrs. W. B. Billingsley, both of West Sechelt; Mrs. C. Lucken, Wilson Creek; and Mrs. A. J. Meating, of Vancouver, a recent visitor to Sechelt.

New Forests

(Continued from page 2)

interest in the planting and do a much better job than casual labor ever would; this is an important factor, as care with which the seedlings are handled determines to a large degree, the survival rate. At present, survival about 85 percent, which is very high. Frost heave, and other factors, such as animals eating the small trees, often bring it down.

Here are some surprising figures supplied by Messrs. Sheasgreen and Mullholland: a good planter, working favorable country, can plant from 750 to 1,000 trees a day—enough to reforest a little more than an acre.

The government's forest service furnishes all seedlings, with the exception of exotics being planted experimentally. The seedlings are supplied by the government free of charge from Forest Service nurseries at Duncan, Campbell River and Green Timbers.

Foresters are learning more about planting each year, and they have found that seeds do best right on the spot where they were grown. Slope, shade, elevation, water supply, soil conditions and other factors all affect the growth rate and vigor of the young trees.

At least 90 percent of all cutover lands on the coast will restock voluntarily if given a chance. The only "fail spots" found so far on lands of Canadian Western Lumber are areas which suffered fires after the regeneration had become established but before the trees were old enough to throw seed. This eliminated the seed source, and automatically necessitated planting.

I came away from the beautiful new forests convinced that as long as government and industry are determined to grow trees—either by encouraging Nature, or by planting—the people of this province have nothing to worry about.

However, the public also has it's responsibility, and that is to help cut down the fire hazard, and to keep its elected representatives alive to the importance of our forests.

"Henson, the company appreciated your efforts to avoid accidents, but after all, you must do some work."

Text Of Good Citizen Scroll

"Gibsons and District Board of Trade Good Citizen Award 1953."

Do unto others . . . has long been the finest rule of life. To him who can practise this great precept goes the thanks and appreciation of the world. and a vibrant well-being within.

The recipient of this, our first award, has well exemplified the Golden Rule. His friends are legion. They who have received kindness from him stretch down the years—a monument of memory—to a man who has given far and beyond the call of duty.

It is the hope of this Board of Trade in awarding Harry Winn our first Good Citizen Award, that he will be spared many years in which to guide by his example, those of lesser calibre.

Harry Winn has obeyed with modesty and fidelity, the greatest injunction of all.

. . . as you would have others do unto you."

Visitors At Sechelt

Mr. and Mrs. A. J. Meating of Vancouver, were guests at the Sechelt Inn. Mr. Meating was here making routine audits for the S.S. & M.A. Branch of the Provincial Government. Mrs. Meating, who is from London, England, said she had enjoyed the friendly way in which they had been greeted by the people of Sechelt. Both of them had had time to do a little sight-seeing, and remarked on the beauty of the district.

Selma Community Club

Selma Park Community Club is holding a whist drive and bingo game on Saturday evening, Oct. 3, 1953, to entertain the members and residents, also to raise funds for the projects which the Club sponsors.

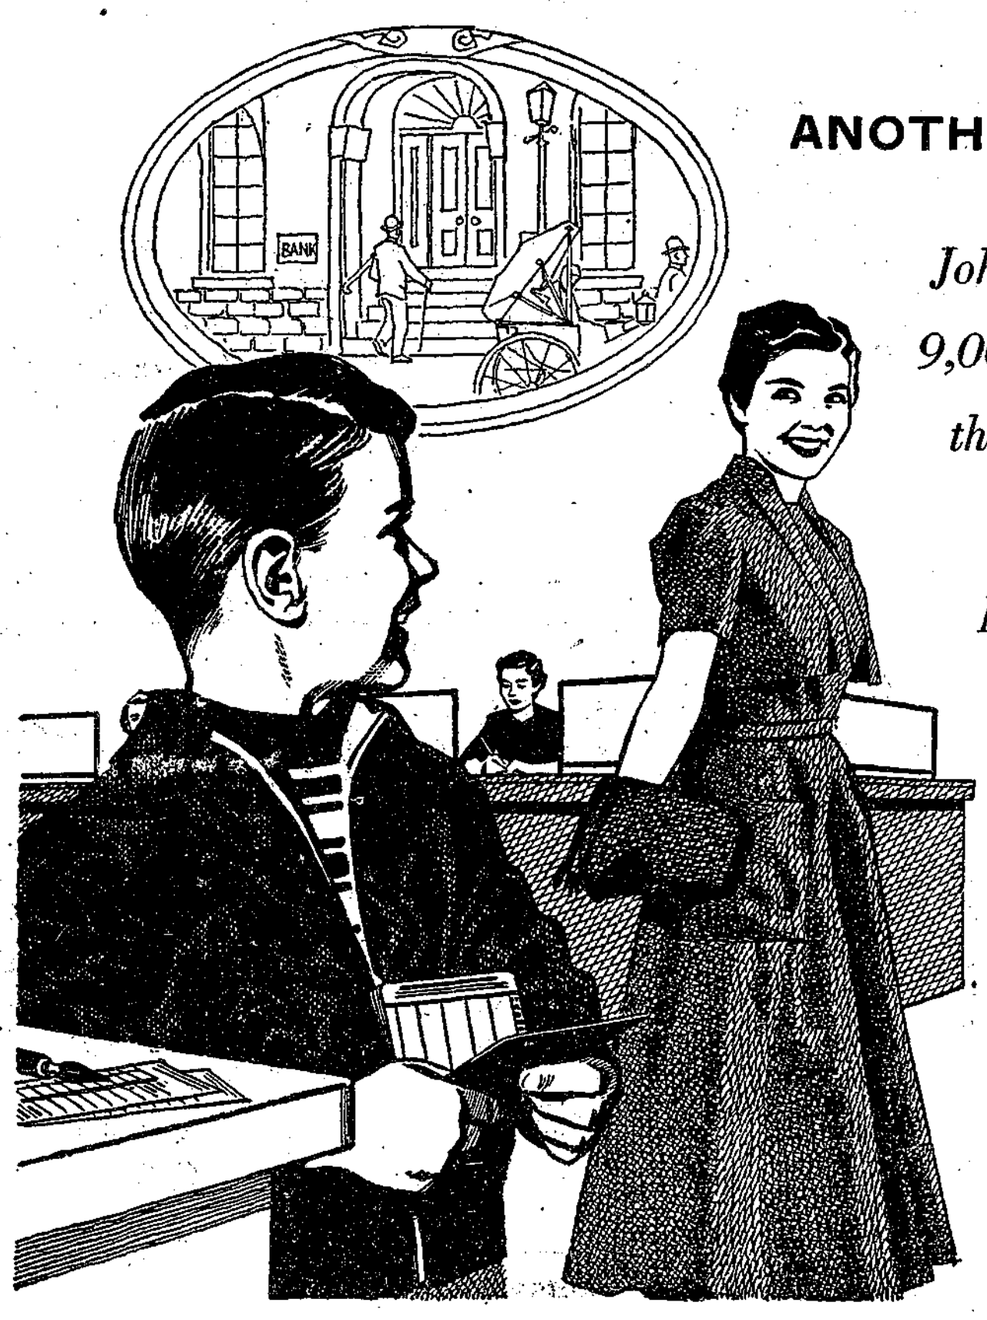
This Club assists by the members volunteering to do door to door canvassing for various drives for funds. They are financially responsible for the street lights of Selma Park, which the residents and motorists alike must appreciate, as they are placed on some of the rather blind curves in the road.

S.S. & M.A. AUDITOR ON PENINSULA

Mr. A. J. Meating of Vancouver has been holding routine audits for various firms on the Peninsula this past week. He is only too pleased to be of any help to merchants and businesses, and states that there are many ways in which he can give hints and instructions tha may make the collection and payment of this levy a little less onerous.

So pleased was he with the place and the weather when he came, that he phoned for his wife to join him. She enjoyed the little stay in Sechelt greatly.

Mr. Meating has not completed his work here, and expects to return shortly.



ANOTHER NEW BANK CUSTOMER

Johnny's bank account is one of nearly 9,000,000 now carried by Canadians in the chartered banks—3,750,000 opened in the last ten years alone. Today, practically everybody goes to the bank. Competition among the banks in all forms of banking service is one of the reasons why you, like Johnny, can expect prompt, efficient, courteous attention to your needs at your own local branch.

Police Court News

In MAGISTRATE JOHNSTON'S COURT

In Magistrate Johnston's court this week, traffic violators were the most numerous. Mrs. Pearl Tyson exceeded the speed limit at Selma Park, and paid a fine of ten dollars and costs.

Driving without due care and attention on the roads within the Pulp Plant Area at Port Mellon, despite the caution signs indicating ten miles per hour, cost Walter John Lenson, a surveyor, $15 and costs.

Ronald Bendy of Vancouver, also Telma Brooker of Vancouver, were clocked at fifty miles an hour in the vicinity of Sea View Cemetery. They were assessed a fine of $20 and costs.

Sidney Skarbek of Port Arthur, Ont. was fined $20 and costs for exceeding the speed limit at Davis Bay. When checked, he produced a license issued by the Province of Manitoba, which had expired on June 30th. He was fined an addition $25 dollars and costs for not being in possession of a current B.C. driver's license.

Lorne Campbell of Duncan exceeded the speed limit at Davis Bay, as did Norman Boyd of Vancouver. Each was fined $20 and costs.

Donald Head of Selma Park failed to observe the speed limit in his own home area, and that cost him a fine of $20 and costs.

Norman Walker of Sechelt was found guilty of creating a disturbance at the community Hall at Roberts Creek during a dance there. He was fined $15 and costs.

For travelling at an excessive speed in a thirty-five mile zone west of Gibsons cost Norman Clark of Vancouver the usual fine of twenty dollars, and costs.

Earl Edward Coe and John Thornton of Selma Park were each fined $20 and costs for exceeding the speed limit at Selma Park.

William Crawford of Vancouver paid a fine of two dollars and costs for parking in a no-parking area at the intersection near the Bank in Gibsons.

Sechelt

By ARIES

First fall meeting of Sechelt PTA was held n the newly renovated basement of the elementary school. President Mr. Douglas Oike was in the chair. Several new members were received, and three offices were filled: Vice-president, Mr. Fisher; Librarian, Mrs. Alice A. French; and Program, Mrs. H. Stockwell.

A school party will be held at Hallowe'en for the small children, and an entertainment for the teen-agers of Sechelt district.

A Harvest Supper will be held with Mrs. Edna Wakefield convening, date to be announced later. Representatives will go to Pender Harbour to the Convention on October 3.

The new officers for the year were installed by Past-president Mrs. Jack Redman. The meeting was addressed by Mrs. L. S. Jackson, trustee of School District No. 46.

Nice to see Mrs. Evelyn Haslett visiting Sechelt, also her niece, Mrs. Hendericks.

Visiting his mother, Mrs. Marjorie Hackett, were Mr. and Mrs. Bob Hackett and infant son. Mrs. Hackett is on a return visit with them to Vancouver.

Visiting Mr. and Mrs. Stuart Killick was Mr. and Mrs. J. Borthwick and Mr. and Mrs. Tom Killick, formerly of the B.&K. Stores in Vancouver.

Mrs. E. E. Redman entertained at luncheon. Mr. and Mrs. Tom Killick and Mr. and Mrs. J. Borthwick.

Nice to see Thelma Brooker on a visit to Mrs. Dora Doyle. Sorry to hear she got a ticket for speeding though it's a temptation to hurry up when one has so little time to spend on the Peninsula and that little bit of paved highway encourages the foot on the gas.

Mr. and Mrs. MacLean are guests at Breamar for a few days.

Mr. and Mrs. Art Redman are visiting the Redman Estate, coming from New Westminster.

Mrs. A. Scott visiting Mrs. Smurthwaite from Vancouver.

Over 150 mothers and friends went to school recently at open house to see how the children get along in class and the work they do. Action songs, models, and drawings were the features most talked about in grade one.

All rooms were visited, and tea was served by the PTA. The young mothers enjoyed the get-together with their friends and the teachers. They were received by Mr. Maxwell Tracy, school principal.

It always distresses us when we hear of a callous act regarding one of our four-footed friends. In this instance a dog owned by Mrs. Buller on Marine Drive was run over and injured and left on the highway. Fortunately Mrs. Buller went to look for him when he did not come in when called and found him before another car would have killed him outright. What kind of a person would leave an animal in distress? Surely we have room for more compassion these days.

We would like to welcome to Sechelt, Mr. Minor, who is to work at Standard Oil. Understand he is a nephew of Mrs. Grace Cooke, so that makes him one of us, and doubly welcome.
