THE CRESTON REVIEW

VOL. XV. CRESTON, B. C., FRIDAY, SEPTEMBER 7, 1923 No. 31

Wyndel

Miss P. Foxall and Miss D. Penson left the latter part of the week for Nelson, where they will attend high school this term.

Tom Mountford of Hillcrest, Alberta, was here on Sunday looking up old friends.

The steam shovel is now at work in the gravel bank below the Andestad ranch, the material being hauled to Kootenay Landing for the fill the C.P.R. is making on the trestle at that point.

Mrs. Dalbom returned on Monday from Nelson, where she had been a patient at the Kootenay Lake General Hospital.

Fishing for black bass is still going strong and many fine specimens of this fish are being taken.

Mrs. Dunseath, accompanied by her son, Clarence Wilson, left for Nelson on Monday, where he will attend high school this year.

J. P. Brooke, who is at present working at Crescent Bay, was here over the weekend.

Miss Inow of Fernie and Miss Walsh of Nelson are Wynndel's new school teachers, and arrived on Monday to take charge of the school, which opened on Tuesday morning.

There will be a dance in the old schoolhouse on Monday night. The Happy Five orchestra from Cranbrook supplying the music. The charge is $1.50 per couple; extra lady 50c. Everyone come and have a good time.

Sirdar

Miss Riddle of Calgary, Alberta, who has been a visitor here at the C.P.R. Hotel for a week, returned home on Monday.

Mrs. Sid McCabe and two children left on Monday for a two weeks' holiday with friends at Cowley, Alberta.

Mrs. Moore and two children, who have been the guests of Mrs. Loasby and Mrs. Martin for six weeks, left for their home in Vancouver on Friday last.

Mrs. Heap and daughter, Eileen, who were guests at the C.P.R. Hotel, with the former's sister, Mrs. Whiteside, left for their home in Coalhurst, Alberta, on Friday.

Mrs. Dennes was a between-trains caller at Creston on Saturday.

Mrs. Morrow of Cranbrook, who was a visitor here for a few days last week, returned home on Saturday.

Mrs. George Cam was a Calgary, Alberta, visitor a few days last week.

Mr. and Mrs. Jack Cameron are receiving congratulations on the birth of a daughter on August 31st.

Mr. Neil, engineer on the switch engine, is away on a month's holidays, and during his absence Percy Graham of Cranbrook is in charge of his engine.

Jas. Wilson, who has been at the coast for several weeks, returned home on Thursday.

Mr. Walthers, C.P.R. agent here, who is on his annual two weeks' vacation, is in Spokane for a few days this week. Mr. Andrews, relieving agent for this division, is in charge here during Mr. Walthers' absence.

REGULAR PRICES

Alice Siding

Mrs. Campbell and daughter, Jean, who have been working for R. Stewart this season, left on Monday for Nelson.

Mr. and Mrs. Downs arrived last week from Hosmer to help with the fruit harvest on the Alderson ranch.

Tom Harris had a small crew at work a couple of days building a road at the K.V. to give Mr. Kelly an entrance to his Hummingbird ranch.

Hen roost robberies are becoming somewhat frequent here of late, this week's theft being at the Rose ranch where quite a number of birds were made off with.

R. Alderson is here again from Hosmer for a few days, arriving on Thursday, and with Mrs. Alderson spent the weekend at Nelson.

Mrs. J. Corner arrived on Thursday from Michel.

Jeffrey and Marion Collis were visitors at Boswell a couple of days last week, attending the juvenile water sports at that point.

P. Andestad is making his home with Victor Carr whilst in charge of the steam roller on hard surface road work.

School opened on Tuesday with Principal Lallamond in charge, and the usual opening day attendance in evidence.

Misses Gladys and Eva Webster got back on Sunday from a month's holidays with their sister in Calgary.

Tennis Nearing Finals

It is expected that the finals in all sections of the 1923 tennis tournament will be played off this week. So far but one class has been decided. This is the B class men's singles in which Benadetti of Wyndel won in straight sets from G. M. Argue, 6—0, 6—0.

In the mixed doubles A class, Chas Moore and Miss Hoyle won from Mr Meldrum and Miss Vera Lister, 6—4, 6—2.

In the men's doubles, A class, Wigen and Benadetti of Wynndel beat Corp. Smith and Walter Long, 6—1 6—2. Hester and Bill Long lost to Benadetti and Wigen, 7—5, 6—3. This leaves Wigen and Benadetti sure of place in the finals.

Rev. J. A. James lost to Bill Long in the Men's singles, A class, while Wigen went down before Moore in A class singles, 6—3, 7—5, 6—4.

An August Wedding

A very pretty house wedding was that of Thursday, August 30th, at the residence of Mr. and Mrs. S. A. Speers when Mrs. Speers' sister, Miss Elizabeth McMahon was united in marriage with Mr. Alexander J. McEacheron of Hortain, Ontario, Rev. J. A. James officiating. The bride, who was given away by her father, was gowned in grey canton crepe, and the only attendant was little Miss Betty Speers, as flower girl. Following the ceremony, which was attended by just the close friends of the contracting parties, a buffet luncheon was served, the happy couple leaving on the afternoon train for a honeymoon trip to Vancouver and Seattle, the bride travelling in a suit of blue and grey with hat to match, returning via Prince Rupert and Edmonton to their home at Hortain. The bride, who was a resident of Creston for about three years prior to 1912, has numerous friends hereabouts, all of whom join in extending best wishes for a long and happy wedded life.

Fall Fair Looks Promising

The committees handling this year's fall fair, which will be held September 24, 25 and 26th have things coming along nicely in all directions, and if the weatherman is in good humor there is every indication that the outdoor features of the exhibition will be the most pretentious ever.

For the afternoon of the second day there will be the championship school sports in which the crack athletes from all the Valley schools will participate, whilst for the afternoon of the third day arrangements are being completed for indian sports and features that have never before been seen in West Kootenay.

Prize lists have been mailed to all likely exhibitors, but if any have been overlooked these can be had at the Review office. Right now indications are for a bigger than ever showing in the cooking and canned goods classes, with the needlework well up to other years, and due to an earlier season certainly the flower show will be better.

Special prizes still continue to come in and announcement will be made next week of the sections in which these attractive prizes will be offered.

Local and Personal

ONIONS—Dry and pickling, for sale, orders filled as received. Richardson, Erickson.

Mr. and Mrs. C. G. Bennett and family, who have been Invermere visitors the past few weeks, returned on Sunday.

Rev. J. A. James was at Nelson a couple of days the end of the week, attending the fall session of Kootenay Presbytery.

LOST—At Kuskanook, on Sunday, August 12th, Eastman kodak. Reward to finder on leaving same at Review Office.

FOR SALE—$225 cash takes Lot 251, Block 19, containing about ten acres, near Creston. Apply Box 450, Medicine Hat, Alberta.

The Presbyterian Sunday school scholars had their usual big time at the annual picnic at Goat River on Labor Day afternoon.

Mrs. McCreath and children got back on Saturday from a two months' holiday at the old home at Kincardine, and other Ontario points.

FOR SALE OR TO LEND—For winter, good horse, well broke, five years old, weighs 1000 lbs., can be had at once. H. W. McDonald, Creston.

Miss Thelma West left at the end of the week for Calgary, Alberta, where she has enrolled as a student at the the provincial Normal School.

POULTRY FOR SALE—Laying 1922 chickens, well bred, good laying strain, 35 of them, will sell the lot for $30. W. Ferguson, West Creston.

Mr. and Mrs. C. H. Hare and little Miss Ruth got back on Friday from Winnipeg, Man., where they have been holiday visitors for a few weeks.

Miss Rose Cherrington left on Monday for Twin Butte, southern Alberta, at which centre she has accepted a school for the ensuing year.

Mr. and Mrs. Floyd Rodgers got back last week from a two weeks' motor holiday trip, which took them as far as Banff and Lake Louise. The Banff dance orchestra are taking to the road early this month and will make their first appearance in Creston on October 16th.

Canyon City

F. Knott and son, Jeffrey, were visitors at Nelson, Kaslo and Slocan points last week, arriving in the former city for the last day of the road opening celebration.

J. W. Wood, who is again working at Birchbank, and Tom Hickey of Yahk, were Labor Day weekend visitors at their homes here.

Matt. Clayton, who has been working at Kimberley the past two months, is home looking after fall work on the ranch.

John Anderson left at the first of the week for a visit with friends at Calgary and other Alberta points.

Jack McRobb was here from Klockmann for a few days visit with his family last week.

Wealthies are now being picked in this section and are showing good size and considerable color. They are being handled through the packing shed at Erickson.

School opened on Tuesday with a fairly large turnout ofscholars in both rooms. W. H. Kolthammer and Miss Sadie Wood again comprise the staff.

E. Nougier and Charles Burgess left at the end of the month for southern Alberta, where they will help with threshing and harvest operations.

Miss Frances Knott spent a few days last week with Kaslo friends before going on to Victoria to attend Normal school this year.

Mrs. George Strong is around again after sustaining injuries to her shoulder, arms and face when she missed her step and fell down cellar with an armful of canned goods one day last week.

The Ladies' Community Club netted almost $40 at their cafeteria tea and concert as well as the raffle of a quilt at the schoolhouse on Saturday night, Mrs. Guy Browell being the holder of the lucky raffle ticket. The concert features were numerous, including recitations and vocal and instrumental music, Messrs. W. B. Embree and Percy Truscott of Creston helping out in the latter line, while the recitations of Miss May Littlejohn of Erickson, and Mrs. George Jacks of Lister were also much appreciated.

Lister

Mrs. Johnston, who has been a visitor at Vancouver for the past few weeks, returned home on Wednesday last. Mr. Johnston's condition shows little sign of improvement.

Col. Lister was a motor visitor to the opening of the Ymir road on Wednesday last, and was a guest at the official luncheon in connection with the affair.

Jack Head, who is working at the flume camp at Klockmann, Idaho, was home for the week end looking after his ranch. Due to his enforced absence from Lister he is going out of bees.

Miss Redpath of Nelson, a former teacher of the Lister school, was here a few days last week, the guest of Mrs. Johnston. She has taken a school at Salmo for this year.

Harold Langston is a visitor with friends in Winnipeg, Man., at present.

Most of the residents of Huscroft are away at haying operations on the flats, Charles Frampton being at work with one of the crews.

Miss Flossie Evans is a patient in the hospital at Nelson at present, recovering from an operation for appendicitus, which she underwent early last week. Mrs. Lister accompanied her to Nelson.

School re-opened on Tuesday, with most every child of school age in attendance. F. H. Pearce of Creston is in charge, with Miss Brander of Fort Steele taking the second division. She is stopping with Mrs. Noble, and Mr. Pearce expects to move the family out here in about six weeks.

The special committee which interviewed Hon. W. J. Bowser, on the occasion of his visit at the end of June regarding the purchase of five acres of his land near here for a community recreation ground, have just been advised that he is willing to sell the land provided satisfactory terms can be arranged.

Misses Hazel and Agnes Hobden and Vera and Ruby Lister are attending high school at Creston this term.

H. Banfield, who has been working for John Huscroft the past few months, left last week for Alberta, where he will help with harvest operations for a few weeks.

Threshing operations are under way at the Jim Huscroft ranch this week, with the wheat averaging 40 bushels to the acre.

C. H. Phillips, who has been working out of Cranbrook for the past few weeks, was at the ranch here for the week end.

Erickson

Mr. and Mrs. Peter Jensen, who occupied the Helay ranch up till about a year ago, but who are now at Lacombe, Alberta, are rejoicing on the arrival of a son and heir on August 27th.

Frank Botterill left by motor at the end of the week for southern Alberta, where he will help with harvest and threshing operations.

Mrs. Bundy got back on Sunday from Macleod, Alberta, where she has been visiting with friends for a week.

Mrs. H. M Whimster returned to Nelson on Monday, after a ten-day stay with her parents, Mr. and Mrs. M. R. Palmer.

M. McCarthy is the latest Ericksonite to invest in an auto, taking delivery of a 1923 Chevrolet from Lidgate Brothers at the end of the month.

E. W. Harrison is a daily visitor to Creston, where he is in charge of the Beattie-Oatway drugstore in the absence of Mr. Argue.

School re-opened on Tuesday morning with a regulation turnout of pupils for opening day. Miss McCaslin has charge of the senior room, and Miss Edna Holmes is back in command of Division II

Mrs. Dolf. Weir and Mrs. Sexton are spending a few days with friends in Spokane this week.

Mrs. Kemp was hostess at quite a large house party on the 24th in honor of Miss Phyllis Small of Creston, who left next day to attend Normal school at Vancouver.

Kitchener

Forest fires in this section are very serious at present and a heavy rain would be most welcome. All the mills are shut down and all available men are fire fighting.

Mrs. Halbert of Moosejaw, Sask., is here at present on a visit to her parents, Mr. and Mrs. Fransen.

Kitchener school opened after the summer vacation on Tuesday with Miss Willoughby in charge.

Mrs. Geo. Young and two sons of Creston, were here last week on a visit with Mrs. Driffil.

Mrs. Carney of Butte, Montana is a visitor with Kitchener friends, the guest of Mrs. McGonegal.

Mrs. Walby spent a couple of days with Nelson friends last week.

Z. Geroux was a visitor with his son at Salmo last week, and was amongst those present at the Ymir road opening on the 29th.

W. Talbot, who is in the government engineer in charge of the new road construction, was also away for a few days at the Ymir road opening ceremonies.

If your Piano is worth anything it is worth

EXPERT TUNING

Any other kind will ruin it

Alvin E. Perkins

a strictly independent tuner, and the best-recommended man in Canada, with 35 years of valuable factory and other experience, stands for positively the best in the profession of tuning and repairing of pianos. Honesty of purpose and conscientious workmanship, and strongly indorsed by the best authority in Canada—piano manufacturers who are positively particular where they put their signature, as follows: Morris & Karn Co., Heintzman & Co., Gourlay Piano Co., Dominion Piano Co., Newcombe Piano Co., Fletcher Bros., Gerhard Heintzman House, Vancouver, Prof. J. D. A. Tripp, Vancouver., Mason & Risch Co., and others. Mr. Perkins will be in Creston within four or five weeks and will make his regular calls.

WILDER ANTHONY

Canadian Rights Arranged With Publishers, F. D. Goodchild Co., 266 King St. West, Toronto.

(Continued)

"Nothing."

"But—" She loked at him curiously. "You were going to say something, weren't you?"

"Yes; but I'm fiot going to do it until I can get to a hair-brush, and a wash-basin, and a clean skirt," he an swered lugubriously. "What I've got on my mind is a church-going sentiment and I want to be in church-going clothes." The expression of his countenance contributed more than his words to the humor he strove for, and she laughed at him, merrily with her mouth, very tenderly with her eyes.

"There's the house." She pointed ahead. "Even though I'm riding bare-back, I can beat you to it. Come on!"

Once Wade was within reach of food, his hunger became insistent, and he could not wait for the cook to prepare a meal of fried chicken. He foraged in the larder beforehand, and then did full justice to the meal put before him. By the time this was over, Mrs. Purnell arrived, and he had no chance to get into his "church-going clothes," as he called them. He had to tell the old lady all that had befallen him.

"I never would have thought it of that Miss Rexhill," Mrs. Purnell declared.

"It wasn't Miss Rexhill, it was her father and Race Moran," Dorothy interposed.

"Or the Senator either, speaking merely from the looks of him," her mother retorted. "And think of the position he holds, a Senator of the United States!"

"That's no hall-mark of virtue these days," Wade laughed.

"Well, it should be. If we're to have people like him running the Nation, there's no telling where we'll end."

"It just goes to show how an honest man, for I think Rexhill was an honest man when I first knew him, can go wrong by associating with the wrong people," said Wade. He could not forget his earlier friendship for the Rexhills, and to him the word friendship meant much. "He not only got in with a bad crowd, but he got going at a pace that wrung money out of him every time he moved. Then, in the last election, he was hit hard, and I suppose he felt that he had to recoup, even if he had to sacrifice his friends to do it. We mustn't judge a man like that too hard. We live differently out here, and maybe we don't understand those temptations. I'm mighty glad they've gone away. I can get right down to work now, without any qualms of conscience."

"But think of you, Dorothy, out all night in those mountains!" Mrs. Purnell exclaimed.

"Mother—" Dorothy smiled tenderly. "You always think backward to yesterday, instead of forward to tomorrow."

By then, the first of the neighboring ranchers were drifting in, in response to Wade's summons. When all were present, and Trowbridge had wrung Wade's hand in a hearty pressure of congratulation, they were asked into the living-room, where Santry stood in a corner, munching slowly on a mouthful of tobacco and smiling grimly to himself.

"Gentlemen," began Wade, facing the little group of stern-faced men, "you all know why we are here. To a greater or lesser extent, we've suffered from Race Moran's depredations, although until lately none of us knew his motive. Now, however, we know that there is gold here in the valley—on our land—which Moran is trying to get possession of. He has proved that he is willing to resort to any villainy to get what he wants, and while he and his men are at large our lives and most of our ranches are in danger.

"We have tried the law, but it has not helped us. Such little law as we have here is entirely in the hands of the enemy. We must now assume the direction of our own affairs. Many of you all know the purpose of such an organization. My idea is to form one now to take possession of Crawling Water and run Moran and his hired bullies out of the county. Between us, we can muster about a hundred men; more than enough to turn the trick, and the quicker we get to work the sooner we'll be able to go about our business affairs without fear of being shot in the back. My plan is this: Let us assemble our force quietly, ride into Crawling Water, capture Moran and his followers, and escort them out of the county. There must be no lynching or unnecessary bloodshed; but if they resist, as some of them will, we must use such force as is needed to overcome them."

He stopped speaking, and for some minutes silence prevailed. Then Bill Santry shifted the quid in his cheek, spat unerringly through the open window, and began to talk. His loose-jointed figure had suddenly become tense and forceful; his lean face was determined and very grim.

"Being as I've suffered some from this skunk, and have lived here some while, so to say, mebbe I can horn in?" he began.

"Go ahead!" said Wade heartily.

"Gordon here has stated the gist o' this business a whole lot better'n I could, but I'd like to make a few additional remarks. We've all been neighbors for some years, and in the natural course of things we've been pretty good friends. Until this feller, Moran, got to monkeyin' around here, there wasn't no trouble to talk about, and we was all able to carry on our work calm and peaceful like. But since this skunk camped among us, we ain't hardly knowed what a decent sleep is like; he's grabbed our range, butchered our stock, shot up men, lied and carried on high, in general. We've given the law a chance to do the square thing by us. All we asked was a fair shake, and we turned the other cheek, as the Bible says, hopin' that we could win through without too much fightin', but we've been handed the muddy end of the stick every time. It's come to a show-down, gents. We either got to let Moran do as he damn pleases 'round here, or show him that he's tackled a buzz-saw. Most of us was weaned some earlier than the day before yisterday. We graduated from the tenderfoot class some time back, and it's up to us to prove it."

He paused and looked around him earnestly for a moment; then, as his audience remained silent, he went on:

"I'm older'n you men, an' I've lived a heap in my time. For nearly forty years I've been knockin' 'round this Western country without no nurse or guardeen to look after me. I've mixed with all kinds; and I've been in some scrapes; there's notches on my gun handles to prove that I ain't been no quitter. I've rode with the vigilantes more'n once, and the vigilantes has rode after me—more'n once; in my young days I wa'n't exactly what you'd call a nickel-plated saint. But I never killed a man, 'cept in a fair fight, an' I don't believe in violence unless it's necessary. It's necessary right now, fellers! Moran's gone too far! Things have drawed to a point where we've got to fight or quit. In my experience, I ain't never seen but one judge that couldn't be bought; money an' influence don't count a cent with him. He's Judge Colt, gents! You all know him; an' with him on our side we can round up Moran an' his crew of gun-fighters, an' skip 'em out of the country for keeps. Now's the time! The quicker we get busy, the quicker the air in these hills will be fit for a white man to breathe."

"I'm a go with me," Lem Trowbridge declared grimly. "That's what I'm here for. How about the rest of you?"

When the other stock men assented, Wade smiled, for he knew their type. Honest, hard-working, peace-loving men though they were, when aroused they possessed the courage and tenacity of bull-dogs. They were aroused now, and they would carry on to the end, with a step as firm and relentless as the march of Time. Woe to whoever attempted to thwart them in their purpose!

Wade's neighbor to the north, Dave Kelly, spoke up in his slow, nasal drawl. "You say there's to be no lynchin'," he remarked. "How about Tug Bailey, when he gets here from Sheridan? According to what Lem says, Bailey shot Jensen."

"Sure, he did," Trowbridge put in. "We'll just slip a noose over his head and make him confess. That'll publicly clear Gordon and Bill. Then we'll give him a good coat of tar and feathers and run him out of town."

"That's right," said Santry. "Jensen was only a Swede and a sheep-herder. This here committee's to protect men."

Kelly chuckled. "Have it your own way," he said. "I'm not particular. As it is, there'll be plenty doing."

For an hour or more the cattlemen went over the plan of their campaign, which worked out into simplicity itself. Early the next evening they would marshal their force outside of Crawling Water, each man armed and mounted. After dark they would ride up the main street, where they would halt at each crossing, while a squad detailed for the purpose searched each saloon and other gathering place for members of Moran's gang. After the prisoners were rounded up they would be assembled in a compact body and marched to the railroad, where they would be set free, under threat of instant death if they ever returned to Crawling Water.

Although counting on superior numbers and the morale of his men, Wade, who had been chosen to command the little army, knew that there would be considerable hard fighting. Moran's people would probably be scattered and otherwise unprepared for the attack, but many of them would resist to the death. If Moran should attempt an organized resistance, the cattlemen meant to storm the town. Once the first shot was fired, the fight would be to a finish, for any other outcome than victory would spell ruin for the cattle interests in that section.

The prospect was more than serious. Moran had established himself in Crawling Water and practically ruled it, surrounded as he was by some sixty adherents, the off-scourings of a dozen lawless communities. The decent citizens held aloof from him, but on the other hand the lower element viewed his reign with favor. The gamblers, particularly Monte Joe, who proclaimed himself Moran's lieutenant, had welcomed him, as had the saloonkeepers, to all of whom the presence of his men meant gainful trade. The better class, in the town itself, was in the minority and unable to restrain the unbridled license which flourished everywhere.

No matter how stiff Moran's resistance proved, however, Wade felt very sure of the final result. He knew the men in his party and he knew that they meant business. He was relieved to believe that Dorothy and her mother would be safe at the ranch until after the trouble was over, and that Helen and Senator Rexhill had left Crawling Water. The two factions were now arrayed against each other almost like opposing armies, and the cattleman shuddered to think what his state of mind would have been had Dorothy and Mrs. Purnell remained in Crawling Water.

"You'll be entirely safe here," he told them, when he was ready to leave for Crawling Water on the following evening. "I shall leave Barker to look after your wants, but you won't really need him. There isn't sheep-herder, or any of the Moran gang, between here and Crawling Water. The fighting will all be in town, thank goodness."

At the word "fighting" Dorothy caught her breath sharply, too proud to urge him against his duty and yet afraid for him. He had not been able to muster courage enough to speak of what was in his heart, foolish thought that was in him, and he sat there in the saddle for a moment, looking tenderly down on her as she stood smoothing out his horses's forelock.

"Do be careful of yourself, Gordon," Mrs. Purnell called to him from the porch, but he did not hear her.

MOTHER OF TWIN BOYS

Tells How Lydia E. Pinkham's Vegetable Compound Relieved Her of Inflammation and Great Weakness

West St. John, N. B.—"I was in a general run-down condition following the birth of my twin boys. I had a great deal of inflammation, with pains and weakness. Finally my doctor recommended Lydia E. Pinkham's Vegetable Compound. He said that your medicine would be the only thing to build me up. I am sure he is right, for I am feeling much better and am gaining in weight, having gone down to ninety-three pounds. I was in bed for over a month, but am up again now. I have recommended the Vegetable Compound to my friends and give you permission to use my letter."—Mrs. ELMER A. RITCHIE, 82 Rodney St., West St. John, N. B.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. Here is many cases relieved those symptoms by removing the cause of them. Mrs. Ritchie's experience is but one of many.

You might be interested in reading Mrs. Pinkham's Private Text-Book upon the "Ailments of Women." You can get a copy free by writing the Lydia E. Pinkham Medicine Co., Cobourg, Ontario. G

CHEEKS COVERED WITH PIMPLES

Also Chin. Large and Red. Cuticura Healed.

"About a year ago a few small pimples broke out on my face. A month later my cheeks and chin were entirely covered with large, red pimples that festered and scaled over, and frequently caused irritation. I tried different remedies without success. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After using it I could see an improvement so purchased more, and after using two boxes of Cuticura Ointment, together with the Cuticura Soap, I was healed." (Signed) G. Marcoux, Laval Hospital, Ste. Foye, Quebec.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes.

Sample Each Free by Mail. Address: "Lymans, Limited, 344 St. Paul St., W., Montreal." Sold everywhere. Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Soap shaves without mug.

Woman Flier Makes Record

Mrs. Bertha Horchem, professional aviatrix, of Ransom, Kansas, established a new official altitude record for women by ascending 16,300 feet at St. Louis. The previous record was 15,700 feet and was made by Andree Peyo, France woman flier, in California, last May.

Corns Between the Toes Painlessly Removed

A real sure, dependable remedy that has been lifting out corns for the past fifty years will surely lift yours out. Putnam's Corn Extractor is the old reliable corn remedy—it stands the test of time and never fails, 25c everywhere.

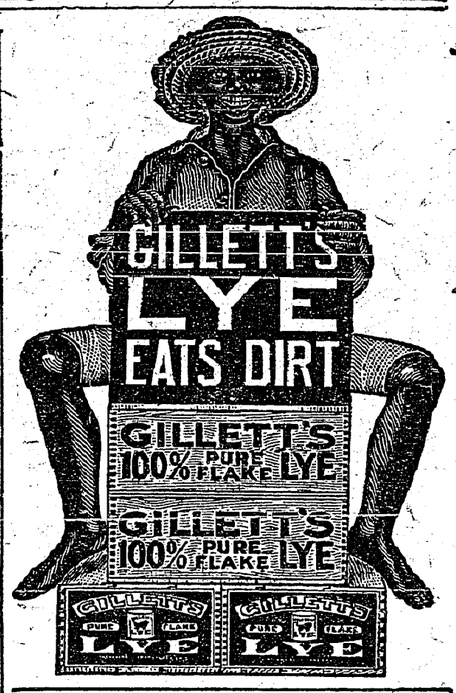
Testing World's Best Clocks

France, England, Denmark and Switzerland Have Entered Competition

One hundred and forty-four chronometers have been deposited at the Observatory of Neuchatel to undergo the International Breguet chronometer competition test.

Thirty-one of them are to be tested for marine service and 113 for land. Four countries have supplied the entries for the test, France, England, Denmark and Switzerland, represented by 20 competing firms, 1 French, 2 English, 1 Danish and 16 Swiss.

The results of the test will be made known in September at a public gathering to commemorate the centenary of A. L. Breguet, the famous Swiss clockmaker of Neuchatel.



Build Many Elevators

Milling and Elevator Company Have Ambitious Programme for This Year

The greatest elevator building programme for Western Canada in years is contemplated this summer, according to milling and elevator companies. If the present programme of the estimated building is carried out there will be 175 to 200 additional elevators erected in the prairie provinces before this year's crop begins to move from the farms, at least this is the number now on the programme as laid out by the different companies.

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without opiates.

The genuine bears signature of

Chas. H. Fletcher.

Serve Mustard with all meats

Mustard neutralizes the richness of fat foods and makes them easier to digest. Mustard enables you to enjoy and assimilate food which otherwise would burden the digestive organs.

but it must be Keen's 232

Added reach means fewer blisters

Well worth 15¢ a box

Human Sacrifices In India

Many Slaves Burned In Naga Hills Every Year

Slavery and human sacrifices are still going on in some of the mountain districts of Northern Burma, according to the annual report of the commissioner of the northeastern frontier, published by the Government at Rangoon. It is in the territory known as the Naga Hills that the sacrifices take place.

Attempts by the Government to eradicate these practices have not entirely succeeded. The redemption of slaves intended for sacrifice has only resulted in the use of money saved for a bigger and more expensive sacrifice later on.

By a recent Government investigation, it was discovered that the number of human sacrifices in the Naga Hills is never less than from six to ten a year. Sometimes when funds are plentiful, the number in a year amounts to 20 or 30. The most common victims are Indian children.

WEAK DIGESTION DUE TO POOR BLOOD

Perfect Digestion Will Come If the Blood is Made Rich and Red

There is no tonic for the stomach that is not a tonic for every other part of the body. But the stomach depends, as does every other organ, on the blood for its energy.

There can be no perfect digestion unless you have rich, red blood. This is scientifically true. The way, then, to tone up the stomach is to enrich the blood.

Most stomach remedies try to digest your food for you. How much better it is to tone up the stomach so that it will do its own work, as nature intended. There is no pleasure in eating predigested food. Tone up your stomach, then your appetite and digestion will soon be normal.

If your digestion is weak and your blood thin, you need Dr. Williams' Pink Pills to restore the strength to your blood; in addition use care in the selection of your diet and your stomach trouble will soon pass away. Mrs. Charles La Rose, Fruitland, Ont., suffered severely, and tells what Dr. Williams' Pink Pills did for her. She says:—"I was a terrible sufferer from stomach trouble. The doctor called it nervous indigestion. Everything I ate distressed me, and I became so weak and run-down I could hardly walk. I had a pain around my heart most of the time, and I slept very poorly. I was afraid I would not get well, as the doctor's medicine was not helping me. In this serious condition Dr. Williams' Pink Pills were recommended and I decided to try them, and I can truthfully say that they made me feel like a new person. I will always give this medicine a word of praise when I get a chance for I think there is nothing to be compared with it for dyspeptics, or anyone weak, nervous or run-down."

You can get these Pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Spirited Conversation

The Waiter.—Ah do' know, sah; but I does believe in table-tipping! Yes, sah!—New York Sun.

Purchases Glengarry Ranch

P. Burns Again Turning Attention to the Ranching Industry

Although some years ago, P. Burns, millionaire rancher and packer, sold eight of his ranches, the new turn of the cattle industry following the removal of the British embargo, has turned his attention again to the ranching industry and he has traded his $400,000 Calgary business block for the Glengarry Ranch, west of Claresholm, a property that was owned by British investors. This ranch consists of 22,000 acres of deeded land with improvements.

DR. HAMILTON'S PILLS

A Medicine Which Enjoys a Sound Reputation Because It Brings Good Health

These vegetable pills possess in a truly remarkable way the power to strengthen and tone the stomach, the liver and bowels.

Thousands use Dr. Hamilton's Pills every day, and derive from this wonderful medicine the assistance the system requires in order to run as nature expects.

If you have headaches, bilious attacks, indigestion, get Dr. Hamilton's Pills to-day and learn what this wonderful vegetable remedy can do for you. 25c at all dealers.

Send Written Messages By Wire

New Invention May Revolutionize Sending and Receiving By Telegraph

A new selective apparatus has been designed and patented by Irving Nachumsohn, a young Winnipeg electrical engineer, who is employed at the present time as supervisor of the Canadian Pacific Railway telegraphs at Moose Jaw, Sask., which, it is stated, will revolutionize line telegraph sending and receiving apparatus and will make it possible to send written messages over the ordinary telephone connections.

The apparatus consists of a new design typewriter, electrically controlled and operated on the permutation code principle. The sender will sit down at his machine and type off a letter or message as he would on an ordinary typewriter and the receiving apparatus will record it in printed form. The invention is already protected by five patents recorded at the Ottawa patent office and applications have been made for patents in all other countries of the world.

The inventor is the son of Mrs. Mary Nachumsohn, Redwood Apartments, College Avenue. He is a graduate of St. John's Technical School in Winnipeg and a member of the local radio club. He also organized the radio club at Saskatoon. Recently Mr. Nachumsohn graduated in electrical engineering from an American college.—Manitoba Free Press.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

British Will Erect Arch

A British firm has secured in public competition the contract for the erection of an arch, almost as large as the Arc de Triomphe in Paris, across the Menin Road, to commemorate the defence of Ypres. It will cost 10,000,000 francs (£140,846).

Used After Shaving Keeps Skin Soft and Smooth

Many men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly. By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and Barber's Itch and Eczema are prevented or relieved.

DR. CHASE'S OINTMENT

WORLD HAPPENINGS BRIEFLY TOLD

The German Governor-General of the Rhine provinces has posted a proclamation strongly condemning sabotage.

The Rumanian-Jugo-Slav defensive alliance has been renewed for three years in a protocol signed at Bucharest.

Mrs. Bertha Horchem, aviatrix, Ransom, Kansas, established a new altitude record for women by ascending 16,300 feet.

It cost the province of Ontario approximately $20 for each vote polled at Moose Factory in the recent election.

C. A. Magrath, head of the Government Advisory Committee on Fuel, is issuing a warning to householders to lay in next winter's coal at once.

Paper manufacturers in the United States are becoming alarmed over the bill passed by the Canadian Parliament which empowers the Government to prohibit the exports of pulpwood.

The German Government itself is responsible for the catastrophic depreciation of Germany's currency, is the finding of the Reichstag's Committee of Inquiry.

When food riots started at Mowawas, near Potsdam, thousands of angry people besieged the butcher shops, compelling the dealers to sell meat at 10,000 marks per pound instead of 40,000.

Change of Water Change of Diet Change of Climate Cause DIARRHOEA

Mr. Fred Palmer, 217 Dalhousie St., Brantford, Ont., writes:—"When I first went out to the North-West the water played havoc with my bowels, and being in a remote spot I could not get anything to give me relief for any length of time.

I wrote and told my wife about the time I was having and she sent me a bottle of Dr. Fowler's Extract of Wild Strawberry, and I cannot speak too highly of it for what it did for me.

Whenever the children have any bowel trouble from eating fruit or drinking strange water, which they have done for the past five years, living in the country, the only remedy we use is 'Dr. Fowler's,' and nobody should be without it as it cannot be beat for instant relief."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 78 years, you don't experiment with new and untried remedies when you buy it, but be sure and get 'Dr. Fowler's' when you ask for it as a substitute may be dangerous to your health.

A Flying Wing Aeroplane

Bodyless Machine Expected to Prove Faster Than Previous Type

An aeroplane which will be nothing more or less than a flying wing is shortly to be tested. The body has been so shaped that it has itself become a lifting surface and instead of so much dead weight in flight it will carry more than a tail. This bodyless machine is expected to prove faster and more economical than any previous type. It will be multi-engined with a saloon for twenty-five passengers and additional space for mails and baggage.

Household Hints

Valuable Recipes For the Busy Housewife

Yellow Sauce

2 egg yolks, ⅛ teaspoon salt.
2 tablespoons sugar, 1 cup hot milk.
½ teaspoon lemon extract.

Beat egg yolks and add sugar and salt. Add hot milk and cook in double boiler until mixture thickens. Cool and add flavoring.

Fruit Cream Filling

¾ cup heavy cream, 1-3 cup figs.
1-3 cup powdered sugar, 1-3 cup prunes.
1-3 cup Sun-Maid seeded raisins.
Few grains salt, 2 teaspoons lemon juice.
3 tablespoons chopped walnut meats.

Beat cream until stiff and add sugar, salt, nutmeats, figs, prunes and raisins, cut in very small pieces, and add lemon juice.

History Of Tea

Industry Was Established in the Fourth Century, B.C.

The history of the tea-growing industry is said to have commenced in Korea before the Fourth Century before Christ, and to have reached Japan more than 1,000 years later. Tea was unknown to Europeans until the Sixteenth Century, when Maffel, a Portuguese, mentions it in his "Historiae Indicae" as a product of China and Japan. Not until 1615, however, was it mentioned by an Englishman. During that century small quantities found their way as presents to wealthy Londoners, or later into the markets. The first direct importation from Japan came from Yokohama to San Francisco in 1868.

In conservatories and greenhouses tea is often grown as an ornamental plant and as an object of interest. The plants are managed like their close relatives, the camellias, but are less popular because more limited in their uses, especially because their flowers are auxiliary, and hence less useful for cutting than those of the camellias.

Doing Nothing Hard Work

"The lazy man has a wretched time; doing nothing is the hardest work in the world," Louis Witey, manager of the New York Times, said in a speech to boys broadcast for the New York Boys' Week Committee.

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

"I should like to know when you are going to pay that bill. I can't come here every day in the week." "What day would suit you best?" "Saturday." "Very well, then, you can call every Saturday."—Tit-Bits.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, SEPT 7

The Fall Fair

Creston Valley's annual fall fair is less than three weeks off. This announcement is made more especially for the benefit of some considerable few residents who during the progress of previous exhibitions have been in the habit of asserting that they had better stuff at home than even the prize-taking exhibits.

The Review has no desire to quarrel with the good opinions held by non-exhibitors as to the excellence of their fruit or other products, but after all the only way to definitely ascertain whether this superior excellence really exists or not is to place it on exhibit and let the judges do the deciding.

In compiling the prize list some care has been taken to confine the awards to what may be termed standard lines, and so far as funds would permit the prize money has been allocated the more generously where the heaviest work is entailed upon the exhibitor

The list is far from being perfect in many directions, but it must be admitted that amongst the 221 sections in which prizes are awarded there is ample scope for both townspeople as well as the country folk to lend a big helping hand in making this year's fair the biggest and best of the five previously held

The directors have done and are doing their part in every other direction to make the exhibition a banner one. What is needed to assure its success is a large entry list in all classes.

The fall fair is Creston Valley's one and only community celebration. If everyone will do his and her part by contributing to it in the way of a generous entry in its several departments fair visitors will not only have a splendid afternoon or two off, but should combine a certain amount of profit in the way of prizes captured, with the satisfaction that a successful exhibition establishes that in Creston Valley we have a goodly heritage and that, by and large, our lot has been cast in pleasant places.

Potato Grading

The Review is asked to publish the following ruling in connection with Section 19, Clause A, of she Root and Vegetables Act:

The correct interpretation of this alause concerning what are generally known as New Potatoes, is of pital interest to the growers of aotatoes and their marketing ggents, insofar as the placing of crading tags upon the sacks is concerned.

The above named clause which exempts New Potatoes refers only to those potatoes which are in the early green state and are marketed for early table use Such potatoes are exempted from the grading regulations under the Root Vegetables Act, for the period between June 1st and September 30th of each year.

All other potatoes which are in a cured or matured condition are not exempted from the grading regulations, and when potatoes have reached such stage of maturity, they must be graded throughout the whole of the year.

Drainage and Haying

Following last year's exceptionally heavy cut of hay on the flats comes the report that the 1923 crop will be considerably lighter. This may be due to the season, as some allege, but certainly this year's lighter crop cannot be charged to a lessened supply of moisture, as our recollection is that 1922 was about the dryest season the Valley had ever experienced.

If, as some argue, this continuous cropping without any opportunity being given the lands to reseed, is beginning to have its effect in a shortened crop, decision as to whether these lands can be reclaimed or not is all the more insistent—that is if the stockman is to continue in business, even on his present scale, in the future.

If the desired total reclamation is out of the question the sooner such announcement is made the bettr, so that experiment can be made to see if a crop of green feed oats, or other suitable grain, can be produced between the disappearance of the high water and the coming of the more severe frosts of early fall.

Judging by the five-foot growth attained by the dyked lands at Bonners Ferry up to the middle of July the cropping of these same lands after the high water period to oats should be entirely feasible.

With stockmen unwilling to reduce their herds and the rancher constantly adding a head or two to his livestock the feed question is assuming serious proportions—the exact extent of which would have been felt this year had not the bench lands yielded so abundantly.

Making Real Roads

"When this road is completed you will be able to drive from Nelson to the international boundary without changing gears."

This significant remark was made by Engineer Ramsay at the luncheon in connection with the opening of the Ymir road last week, and when one stops to think of the class of country the road traverses for its entire length of 42 miles some idea may be gleaned of the uniform grades that have been maintained and the excellence of a roadbed that will permit of a trip of that distance on high, or even intermediate.

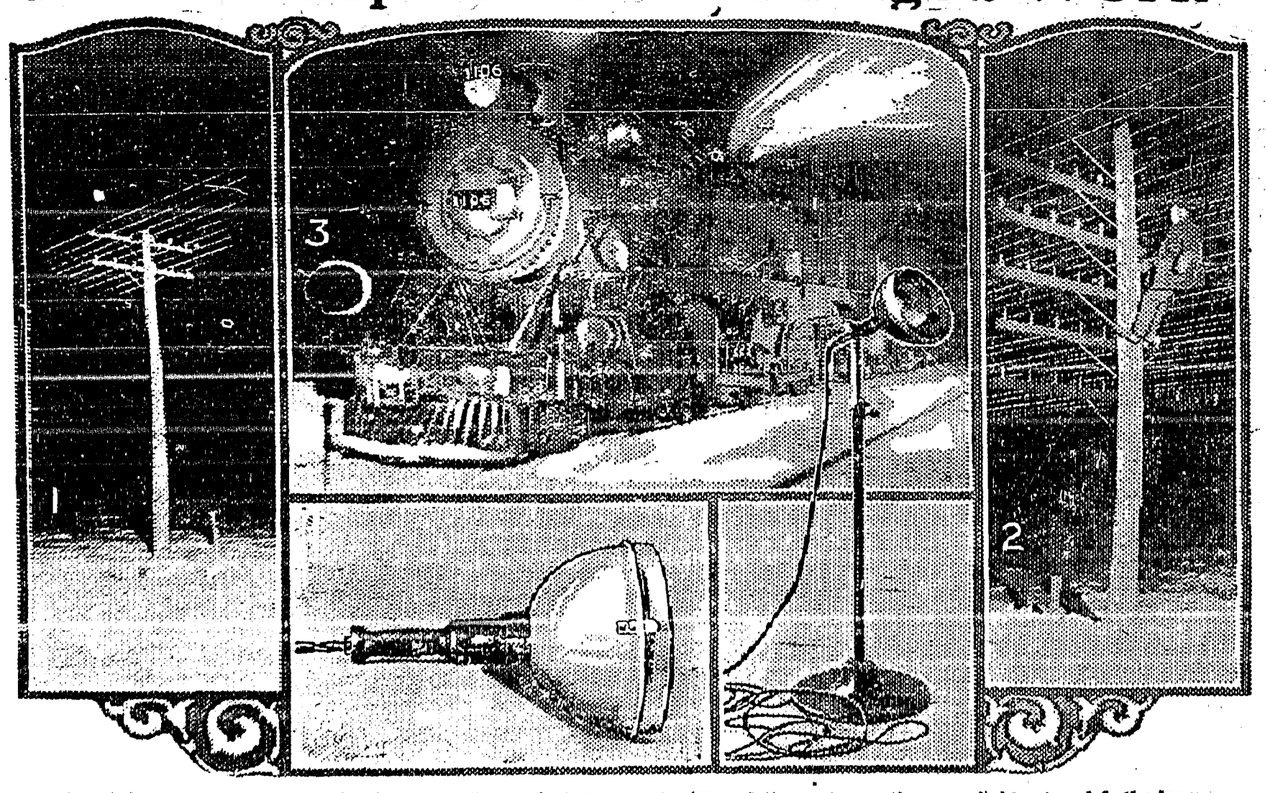
And the quality of the Ymir road is no exception to the high standard of work done by Mr. Ramsay right here in Creston Valley. The Sirdar Kuskanook road, and the Wilds Creek diversion are of the same excellence.

The Goat River to Kitchener highway will be equally good, with the Arrow Creek diversion due to receive similar attention next year. And in addition to this we have all the hard surface road complete or under construction.

This year, as last, it is quite safe to say that in new roads and repairs the season's outlay will not be far short of $40,000 in Creston Valley, and in the same Creston Valley it is doubtful if more than $15,000 is paid in provincial taxes, yet in spite of this policy of returning two dollars for every one dollar paid there is no let up to the shout about high taxation.

If good roads are an asset to a community Creston Valley has a poor way of showing appreciation for value received.

New Lamp Facilitates Night Work



1 and 2. Views of wires as illuminated by lineman's lamp 3. Looking at the engine in the same light. 4 and 5, the lamp.

IN the past interruptions to telegraph service caused by damage to outside wires could only, in the majority of cases, be rectified by daylight, when the damaged section could easily be located. There is no doubt this was a disadvantage which delayed the recovery of interrupted services. Where the trouble may have been anywhere along the line between points some 20 to 100 miles apart it was not possible to take care of the interruption especially at night. To overcome the disadvantage due to night interruptions to its wires, the Canadian Pacific Railway Telegraphs provided a special electric light and all the linemen on the System were equipped with it, enabling them to successfully take care of interruptions and do their work at night as well as by day. The special light is provided with its power from the locomotive dynamo turbines with which all Canadian Pacific locomotives are equipped.

The special light in itself is of simple construction, the power is derived from the dynamo turbine from the locomotive which provides electricity for the illumination of the headlights and cab lights. A headlight globe is used and an especially designed reflector throws a beam sufficiently strong to allow working operations at a distance of 600 feet. The conducting wire attached to a socket in the cab of the locomotive is of sufficient strength to enable the operator to work any place within two car lengths of the locomotive. There is also a semi-permanent stand to which the lamp can be attached for the convenience of men working at night on bridges or, in fact anywhere that requires a steady flow of light. The lamp can also by interchange of globes be used where there is a domestic current, but not with such good effect.

As there is so much that can affect the Telegraph System, such as fire aurora, lightening, snow, wind and rain, the advantage of being able to locate the source of trouble cannot be overestimated and time and time again, when the lines have been seriously damaged during the night, it has been found that the electric hand lamp, which is now used throughout the System, has been of great benefit. During the past winter when the service experienced a considerable number of interruptions the lamp was often used during snow and sleet storms and not in one instance is it known of its having failed to meet all services put upon it. There is no doubt that the perfection of this lamp has been a decided progressive step in telegraph maintenance at night.

LETTERS TO THE EDITOR

Poor Sportsmanship

EDITOR REVIEW:

SIR,—On Sunday evening, Aug. 26th, some "sportsman" left quite a number of good-size bass lying on the ground, close to the cribbing on the long slough above Nick's bridge.

It seems a shame something cannot be done to put a stop to such wasteful behaviour. It is true that in this district the bass are not protected by law, but surely common sense of good sportmanship should suggest that a valuable food fish should not be taken from the water merely to be left as food for crows, etc.

There is among some of the younger members of our community a spirit of wasteful destruction that is exhibited sometimes in window smashing or other wanton damage, and sometimes in destruction of fish or game without the intention of using it.

Would it not be possible for you, in your valuable paper, which gets into every home in the Valley to endeavor to check this foolish spirit, and bring home to the youth—to whom these remarks apply—what they are, in a way, trustees of the common property, and that their own interests, as well as those of the community, are best served by care of other folks property and sportsman like behaviour. SPECTATOR.

The first potato bugs ever seen in Cranbrook were gathered in the Baynes garden on Hanson Avenue last week.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 2 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 80 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

NEWS OF KOOTENAYS

Commencing September 1st the sawmill at Bonners Ferry is running a day crew only.

The hay crop in the farming district around Cranbrook this year will total at least 1000 tons.

In most parts of East Kootenay both bird and big game is more abundant this year than ever before.

300 tons of Penticton's peach crop will go to the cannery this year.

Geo. Stott of Kaslo claims to have produced some Lambert cherries this season that went 34 to the pound.

The co-operative fruit selling agency's box account at Penticton this year will amount to almost $100,000.

Nakusp board of trade has just decided that the time is not ripe for the incorporation of that place into a village.

Announcement has just been made of a cut of 15 cents a box in the freight rate on apples going to the Old Country.

The Okanagan apricot crop has been a disappointment this year. For some unexplained cause the fruit did not obtain normal size.

Trail council will build its new fire hall by day labor. Only one contractor bid on the job, and his offer of $13,548 looked too high.

Harvest help was short this year in the Greenwood section, necessitating Alex. Waddell putting up 225 loads of hay with one team of horses.

The Associated Growers figure on handling 4174 cars of fruit out of the Okanagan this season, and possibly as many as 2000 cars of vegetables.

As soon as the new Ymir road is surfaced it will be possible to make the 42 mile run from Nelson to the boundary without shifting gears.

The Associated Growers is trying out the Minneapolis, Mississippi and middle west states markets for part of the Okanagan Transcendant crab crop.

Nelson Women's Institute has entered a strong protest against the allowing of children under ten years of age to swim across the lake at that point.

The Courier claims that the wheat crop in the Cranbrook district will average 25 bushels to the acre this year, with at least 1000 acres of it now being cut.

N. E. Suddaby of Fernie last week caught a three-and-a-half pound trout with a fly in Sand Creek—the biggest fish ever caught that way in the history of Fernie.

J. W. Cockle, Kaslo's cherry king, claims to have shipped at least five tons of cherries this year, and estimates that his two packers handled over one million cherries.

A. B. Fenwick of Fort Steele, who spent his summer vacation in the Windermere country, complains of a decided shortage in fresh fruit and ice cream at most points.

In the prospective redistribution of seats in the B.C. legislature it is now reported that the Greenwood and Grand Forks and Trail and Rossland riding will be merged.

Thieves entered the garage at the home of E. S. Hume, Cranbrook one night last week and made off with the rear wheel of his Dodge car, as well as an extra tire and rim.

Men are now at work connecting up the telephone line between Wasa and Windermere, thus giving telephone service all along the route of the Banff Windermere highway.

In order to assure a clear market for the Duchess apples, the Associated Growers are arranging to send the front end of the Wealthy crop to the Old Country and eastern markets.

In the Okanagan the McIntosh Red stands second to the Jonathan in the estimate of the 1923 crop with a total of 764 cars, as compared with a total Jonathan movement of 862 carloads.

It will cost $8.80 per day to pay the cost of operating three motor trucks to haul children to school at Penticton over three routes the coming school year. A total of 70 scholars will be transported.

In its expected tonnage from Okanagan points this year Jonathans lead the winter apples the Associated will have to dispose of. There will be 862 cars of these. The next heaviest winter variety is the Wagner of which there will be 284 cars.

Tom Mix in Arabia

Tom Mix, the popular William Fox star, gathers additional laurels in his latest picture, "Tom Mix in Arabia," a fast combination of thrills and laughter, which will be shown at the Grand Theatre Saturday night. Good as the other Mix pictures have been, this is probably the most entertaining of the lot.

As usual, Mix takes a number of chances that are real thrillers. He descends a mountain, for example, by the simple but dangerous process of lassoing a tree and swinging from the tree to the grounk. He does all this very casually, as though it were the regular method of procedure.

But the thrills, many of them as there are, are outnumbered by the laughs. Mix starts as a ranch owner who, through a series of strange circumstances, goes to Arabia, where he is taken for the heir apparent to the throne. He begins immediately running the harem on a strictly American plan, beats up a shick or two, and makes a whirlwind getaway with the girl of his choice. A picture, all in all, that you will thoroughly enjoy.

The Senate Hold-Up

The destruction by the Senate of the whole branch lines construction programme of the Canadian National Railways is one of the worst blows Canada has received for some time. It is a blow at immigration, at production, at even holding our present population, not to speak of the direct blow at transportation and the future success of the national system of railways. The action of the Senate is the reverse of patriotic, and if the men who cast their votes against the C.N.R. programme were responsible to the people, and had to go to them for re-election, it is safe to say that the majority of them would have voted exactly the opposite way, and in accordance with the wishes of the electorate.

It is small wonder that the Governments of all four Western Provinces are vigorously protesting the action of the Senate, that Boards of Trade, farmers' organizations, and business interests generally are alarmed over the prospect of the country's development being retarded and its future jeopardized by an irresponsible and autocratic body.

The action of the Senate does not mean a saving of expense to Canada, but added expenditure and consequently increased taxation. Many of the proposed branch lines are already graded and the refusal by the Senate of authority for the laying of steel on these lines and their early operation cannot but result in deterioration of the work already done.

Hundreds of settlers who have gone into districts and commenced clearing land and begun farming operations must stop, because it is worse than futile to raise crops if they cannot be marketed, or if the cost of hauling long distances to a railway are greater than the price that can be realized for them. Scores of these people anxiously waiting for railway facilities, and living from hand to mouth in expectation of their construction, are now losing all hope because what an irresponsible Senate will do in 1923 it may repeat in subsequent years. The movement of these settlers away from their holdings and into cities and towns, or out of the country altogether, has already begun. And even those who cannot move away and must perforce stick it out, see their children denied schools and an education, and must look to ekeing out a bare existence and possibly being forced to accept relief from Governmental or charitable organizations.

Immigration is bound to be checked, because people cannot be induced to come to Canada and settle on its vacant but at present remote lands when they cannot be given a guarantee by the responsible Government of Canada that their transportation needs will be met owing to a reactionary and irresponsible Senate.

And what of the effect on the Canadian National Railway system? That system is now being operated at an enormous cost to the people of Canada. Its weakness as a national system is that it has extremely long main lines to operate through sparsely settled parts of the Dominion. It must have many small feeders in the form of branch lines into productive districts in order to create and provide a sufficiently large volume of traffic to make these main lines pay. A responsible railway directorate decides that certain branch lines are needed and will add to the earning power of the whole system. A responsible Government and a representative House of Commons approves the railway directorate's programme. Then our reactionary and irresponsible Senate steps in and vetoes it, and puts an end to all C.N.R. branch lines construction in a year when the country is faced with the largest crop in its history.

In the meantime, the Canadian Pacific Railway is free to go ahead with its ambitious programme of branch lines construction. And it is proceeding to do so with the vigor, vision and business-like administration which characterizes that great Company. Every Canadian welcomes the activity being shown by the C.P.R. The lines it is building are all needed. But it is a fact that some of these extensions are into territory from which the Canadian National now draws the bulk of the traffic. However, competition is a good thing and is heartily welcomed. The C.N.R. cannot be given a monopoly in any portion of the country. Therefore there is not, nor cannot be, anything but welcome and approval of C.P.R. activity in branch lines construction.

But what is to be the future of the Canadian National if, while its big rival is in a most business-like manner extending its branch lines and developing new business for its main arteries, even to some extent at the expense of the C.N.R., the nationally-owned system is to be kept tied hand and foot by the Senate? There can be but one outcome, and that is the failure of the national system, the piling up of still larger deficits until the point is reached where the people can bear the burden no longer, and, in disgust and desperation, turn the system over to some private corporation.

Is that what the Senate is striving to accomplish? Signs are not lacking that the Senate would rejoice at such an outcome. The majority of Senators are opposed to public ownership and would like to see Canada's great experiment end in failure. The question is, are the people of Canada going to permit the Senate to have its way? If not, the people must bestir themselves and insist upon a complete and careful revision of the constitution and powers of that body.

Passing Habeas Corpus Act

Bill Became Law By Way of a Jest

It is one of the undignified facts of our history no doubt very properly suppressed in our school and text books, that the Habeas Corpus Act, that palladium of our liberties recently invoked in the case of the Irish deportees, came upon the statute book by way of a jest, says the Manchester Guardian. Not even Macaulay mentioned it (though he must have read it in a footnote of Bishop Burnet), but his brilliant grandnephew, G. M. Trevelyan, has too unerring an eye for the picturesque to let it slip.

At a critical moment the bill only just passed the House of Lord because the tellers, as a jest, had counted a certain fat lord who voted for the bill as 10 votes, and in their mirth over this excellent witticism had failed to rectify their figures until it was too late. A fitting origin for the one good measure of the Merry Monarch's reign.

"It was," says Trevelyan, "the best joke ever made in England. The fat lord's vote secured that even James II. could not imprison his subjects at pleasure."

Joint Soreness Subdued, Swellings Quickly Reduced

Wonderful Results From Rubbing The Sore Parts With

NERVILINE

"My testimony should convince anyone that 'Nerviline' is a splendid preparation to use on swelled joints. Rheumatism left me badly crippled," writes Amos F. Fleury, from Kingston. "I went to McKay's Drug Store and they recommended Nerviline, which restored me completely."

For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a 35c bottle of Nerviline. Sold everywhere.

Fish From Alberta

A recent survey shows that the lake fisheries of Alberta are worth $390,000 annually to the province. Forty-four thousand hundredweight of fish were marketed last year, the greater proportion of the catch being whitefish.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are growing children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Natural Resources Bulletin

Muskrat Pelts Taken in Alberta Last Year, Valued at $779,562

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:—

From record based on reports from licensed fur dealers and buyers, there was a total of 742,440 muskrat pelts taken in Alberta last year, valued at $779,562, equalling in value all other classes of pelts of wild animals combined. The muskrat pelt is used for the manufacture of what is known in the fur trade as Hudson seal, and the fact that this fur is at present exceedingly fashionable has led to the intensive trapping of the muskrat. The Chief Game Guardian of Alberta sees danger of the supply of this animal becoming depleted, and suggests that it may be necessary to limit the trapping of the species.

Powerful Medicine.—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Eclectric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can testify as to its power in allaying pain, and many more can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Saskatchewan Clay Deposits Are At The Present Time Attracting Wide Attention

Saskatchewan's natural resources are at the present moment attracting international attention to Waldeck, Sask., where deposits of volcanic ash and Kieselghur clay are now being investigated by minerologists in an effort to ascertain the extent of the deposits and their potential values. Indications at the present moment, show that the volcanic ash deposit is the largest field on the North American continent, while the Kieselghur clay deposit is the only known one in America.

Development of the Kieselghur clay field will result in a reduction of Canadian imports by approvimately $8,000,000 annually. Estimates submitted by outstanding Canadian minerologists and technical experts indicate that there are 10,000,000 tons of the clay in the Waldeck field, while another expert, after an investigation, declared there is sufficient clay to last Canada for the next hundred years. The fields were discovered two years ago, but active steps in their development are now being undertaken for the first time. Several experts, including Professor L. H. Cole, Mineral Technologist from the Department of Mines, Ottawa; A. Worcester, Ceramic Engineer from University of Saskatchewan; and Dr. D. B. Dowling, Chief Geologist of the Geological survey, Ottawa; have visited the fields within the last few weeks, and a party of 12 men, with rotary drill equipment, will shortly be placed at work to discover the exact possibilities of the deposits.

Volcanic ash is used, commercially, for clarifying crude oils, as a base for paints, talcum powders, soaps, cleansers and other staple articles. Scientists, who have visited the field, estimate that the deposits occurred during the volcanic period, preceding the glacial era in the world's history. Kieselghur clay, which is also known as tropilite, is used for dynamite packing, ceramics, abrasive soaps, medicine, lining steam boilers, blast furnaces, fire proof rooms and similar purposes, and for the manufacture of polishing materials and imitation meerschaum. No other deposits of Kieselghur clay have been discovered on the American continents, and all supplies at the present time, are imported, both in Canada and United States, from Germany and Tripoli. Imports into Canada, in Kieselghur clay and its products, annually total $8,000,000, so the importance of the Waldeck deposits can be gauged from this fact.

Professor Cole, Ottawa, who has already made wide investigations of the deposits, stated he believed 10,000,000 tons of clay are available.

Mr. Worcester stated that, according to an estimate, there is sufficient material in the Waldeck field to last a century. Tests by Professor Cole show that there are 37 feet of volcanic ash, while the Kieselghur clay deposit is known to be 10 feet deep.

Federal and provincial governments are taking a keen interest in the fields, and the Natural Resource Department of the Canadian Pacific Railway, is also assisting in the exploitation of the fields. Analysis of the clay have been made by individual firms, in both Canada and United States, and analysts have declared that the Waldeck clay is even better material than that which is now being imported from Germany and Tripoli.

Western Exhibits of Relief Maps

Exhibits of the new form of relief map, prepared by the Topographical Survey of Canada, will be made for the first time at the Brandon, Regina, Saskatoon and Edmonton exhibitions this summer. A number of these maps were on view at the Central Canada exhibition at Ottawa last year, when they caused much favorable comment, being awarded a diploma on account of their finished workmanship.

Settler Makes Good

Starting with a borrowed capital of $10 in the Waskatenau district, Alberta, fifteen years ago, John E. Vance now has a fine farm of 400 acres, well stocked with cattle. Last year, although drought prevailed, his wheat average was 24 bushels to the acre and in the year previous it was 47 bushels.

Since Confederation

Dominions Take a More Conspicuous Place in Dealing With Foreign Countries

During this fifty-six years there has been no revolution, or even an approach to a revolution in the relations of Canada and other Dominions to the Empire. Through a gradual and by no means rapid process of evolution, the Dominions have taken a more conspicuous place in dealings with foreign countries, though if we look back to the early days of the Dominion we shall find that in actual practice they were in commercial relations about as independent as they are now. The greatest change in external relations is shown in the conferences and interchanges of opinion among the oversea statesmen as well as between them and the statesmen of Great Britain. Conclusions of these conferences are worked out by the concurrent legislation and not by any surrender of authority by either Great Britain or the Dominions. Yet it goes without saying that in the development of closer union within the Empire, there must be on the part of each nation a consideration of the interest and opinions of the rest. While the Dominion of Canada develops a national consciousness she fully shares in the consciousness of Empire.—The Vancouver Province.

Stick to Your Job

Exhaust All Opportunities Before Changing to Something New

You speak of changing your job. What are your reasons? Have you stuck until its possibilities for you are tested, until you must give it up and go your way? Stick and work and learn. The difficulties of getting more out of your job are wholesome. The exercise in patience is good for you. The necessity of looking about to find and learn new things is true education. The chance to grow in business knowledge, in skill, and in character is more important to you than money. The new job may pay more for a time. But your progress there will depend on the same principles. By giving up before you have exhausted all opportunities, you go back a little and are not quite so much of a man.—Collier's Weekly.

Fifty-Two Years In China

After fifty-two years continuous residence in China as a medical missionary under American Board of Missions, Dr. Leonara Howard King, accompanied by her husband, Dr. King, has returned to Canada, to visit her birthplace in the township of Yonge and Escott, Ont. She has been medical adviser to three generations of the Chinese royal family and is now in her eighty-first year.

Some men boast that they can't be fooled twice in the same way—but there are lots of other ways.

Manuring For Grain Crops

Rotted Manure Should Be Applied in the Spring Before Ploughing

Experiments have been carried on at the Scott, Saskatchewan, Experimental Station, to determine the value of manure applied to grain crops. A comparison, extending over seven years, has been made between rotted and fresh manure on wheat, oats and barley, applied at various times and under different conditions. The highest average yield was obtained when rotted manure was applied in the spring before ploughing. The yield was practically 26 bushels to the acre, which, was eight bushels higher crop than when no manure was applied.

The disadvantage of applying fresh manure during the winter on fall ploughing was that the volunteer growth from the grain and weed seeds not only robbed the crop of nourishment and moisture, but fouled the land. The Superintendent of the Scott Station, in his report for 1922, makes the observation that if it is desired to obtain clean seed, or if registered seed is being grown, nothing but well rotted manure should be used. While there is considerable loss in the value of the manure in the process of fermentation, the destruction of viable weed seeds is necessary when growing clean crops.

As compared with ploughing under green crops, rotted manure gave better results. At the Scott Station it has been found that any green crop grown on summerfallow tends to increase the yield. Cultivated summerfallow, receiving no manure, gave a higher average yield than any of the plots where a green crop was ploughed under. The rotted barnyard manure produced an increased yield of four bushels and 13 pounds, as compared with the highest yield obtained by the ploughing under of any crop under test. The green crops used in the experiment, which was conducted for eight years, were peas and vetches ploughed under at different stages of maturity.

Trinity House has authority over all British lighthouses and pilots.

Ability To Muddle Through A National Characteristic Of The British People

Fattening Lambs In Alberta

Conclusions Drawn From Eight Years' Tests at Lethbridge Experimental Station

Western lambs have been commanding a good price on eastern markets. Some useful conclusions are to be drawn from eight consecutive years (1911-12 to 1918-19) of feeding tests, given in the annual report for 1922 of the Superintendent of the Dominion Experimental Station at Lethbridge, Alberta, as follows:

It is profitable to stubble-graze and fatten range lambs in the fall and winter months.

It is more profitable to dispose of alfalfa by feeding it to fattening lambs than to bale it and ship it off the farm.

Owing to the high cost of production, roots are not likely to be raised for fattening range lambs. When fed as an extra in the form of an addition to alfalfa, slightly higher gains were secured than when alfalfa was fed as a sole roughage. Roots are therefore valuable as a supplement.

When a ration of two-thirds alfalfa and one-third oat sheaves are fed, the lambs ate more roughage and made greater gains than on straight alfalfa.

Screenings (No. 1 stock food) are a valuable substitute for grain. When alfalfa was the sole roughage fed it was found that it took 105.9 pounds of screenings to equal 100 pounds of grain (equal parts barley and oats) that is, recleaned screenings are 94.4 per cent. efficient as grain.

Screenings, owing to their low price, produce cheaper gains than grain.

In order to finish lambs satisfactorily it is necessary to feed grain in addition to alfalfa.

The only protection necessary for fattening lambs is shelter from winds and a dry place to bed.

Homicide In New York

Statistics Show Average Lower Than Other Large Cities

According to figures published by the Spectator, an insurance journal, there were in 1922 more than twice as many killings in Chicago in proportion to population as there were in New York. Nashville, Tenn., had a homicide rate five times as great as New York's, St. Louis and Cincinnati a rate nearly three times as great. Baltimore, Washington, Cleveland and Dayton ran far ahead of New York. New York's rate—5.8 homicides to the 100,000 inhabitants—was 3.2 to the 100,000 below the average for twenty-eight of the larger cities. The positions of Boston, Rochester, Minneapolis, Milwaukee and a number of smaller towns were better than New York's.

Parsimonious Bug

Prof. (in zoology lab).—"What insect lives on the least food?"

Bright Pupil.—"The moth. It eats holes."—Upper Iowa Collegian.

The ability to "muddle through" is a national characteristic which continues to stand Great Britain in good stead, says the New York Times. With no blowing of trumpets or any very clear notion, apparently, of how all the things that need to be are going to be done, the British people and Government continue to pull themselves out of trouble. The unemployment situation, for example, has for more than two years been regarded as menacing. Only a few months ago bands of unemployed men and women were marching upon London, demanding an interview with the Prime Minister in person and holding great meetings of protest when their request was refused. The Government admitted that it had no definite plan, although it ventured a few proposals, but in one way or another the number of unemployed has been going down week by week. A strike of farm laborers drifted along for a month or so, to be finally settled by a practical compromise in which, oddly enough, Mr. Ramsay Macdonald appeared as mediator. The British war debt to the United States was an irritating subject which the British taxpayer did not like to hear discussed, but a working arrangement for the payment of the loans was finally reached and that sore spot ceased to hurt.

The English Government seems now to be recovering its political influence on the continent. When the Poincare ministry came into power in France, eighteen months ago, a section of the French press rejoiced that the "weak yielding" to Lloyd George's persuasions would cease, and when French troops occupied the Ruhr and France set about executing parts of the Treaty of Versailles for herself, the "isolation" of Great Britain was spoken of as an accomplished fact. The short-lived Government of Mr. Bonar Law, if it had a policy, did not proclaim it. Nevertheless, Britain floundered along. There was no breach with France, though the Ruhr policy was not approved. Contact with Berlin was kept up, but German shortcomings and evasions were not condoned. Now, it would seem, the practical bunglers of Downing Street are making progress. The French agree to another conference of all the Allies, and this is plainly the result of British urging.

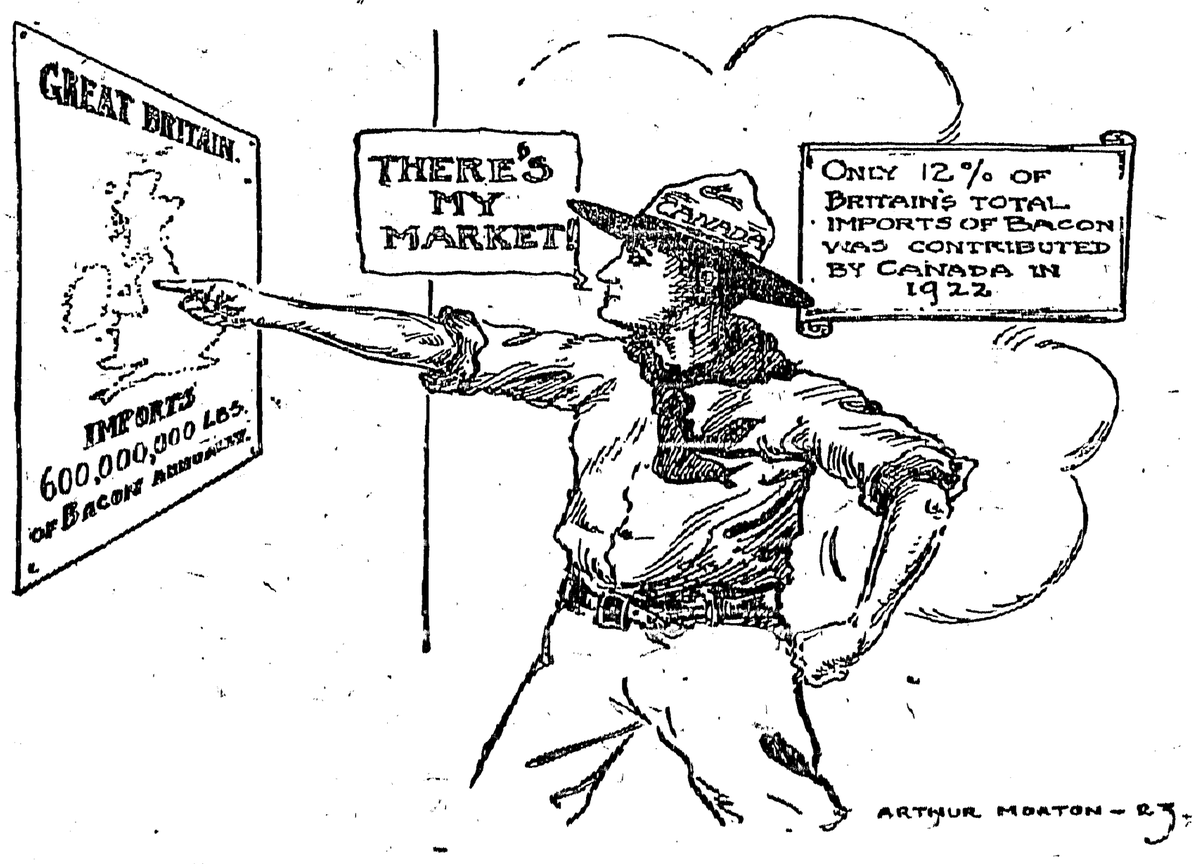
As for Russia, formal recognition of the Soviet Government seems as far away as ever, but the British representatives stay on at Moscow, Russian representatives remain at London, and trade between the two countries is unfettered.

Naming Prairie Lakes

Death of Veteran Big Game Hunter Recalls Interesting Episode

The death on May 28 of Viscount Chaplin, the veteran English parliamentarian and big game hunter, at the age of 83, recalls some interesting reminiscences in connection with the large lake named after him lying to the west of Moose Jaw, Saskatchewan. In 1860, Viscount Chaplin, then at Oxford, with another undergraduate named Sir Frederick Johnstone, planned a hunt to Western Canada, but the latter being a Chancery ward an arrangement was made by which Sir John Rae, the famous Arctic explorer, accompanied them. This was accomplished through the kind offices of a relative, the Rt. Hon. Edward Ellice, at that time Chairman of the Hudson's Bay Company, whose memory is perpetuated in several place-names in the west. The hunt started at Fort Garry (Winnipeg) with the Cypress Hills as the objective. The Blackfeet Indians happened, however, to be on the warpath and the Indians of Rae's party insisted on a detour, during which Lakes Chaplin and Johnstone were discovered.

The Geographic Board of Canada, which is charged with the duty of deciding upon all matters connected with Canadian place-names, also endeavors to ascertain the origin of the same. As indicative of the labor and patience that are involved in following these matters up, it is noted that it was not until 1918 that the board were able to confirm authoritatively the reason for giving the present names to these two lakes.



Local and Personal

FOR SALE—Cauliflower. Fred Lewis, Creston.

PIANO FOR SALE—Terms if desired. E. W. Ryckman, tinsmith, Creston.

Mrs. J. A. Lidgate was a visitor with Nelson friends a few days last week.

Miss Violet Morrow has gone to Victoria, where she will be a student at Normal School this term.

Mrs. Garland got back on Thursday last from a six weeks' holiday with Vancouver and Victoria friends.

Miss Grace Comfort left on Monday for Johnston's Landing near Kaslo, where she will teach school this term.

Mr. H. Wood of Pincher Creek, Alberta, was a visitor here over the weekend, the guest of H. W. McDonald.

Mr. and Mrs. Shirley Macdonald of Summerland are being congratulated on the arrival of a daughter on August 24th.

Miss Phyllis Small left at the end of August for Vancouver, where she will attend Normal School the coming term.

Members are reminded of the September session of Creston Board of Trade which is announced for Tuesday night.

Miss Lyda Johnson left on Tuesday for a three weeks' holiday visit with friends at Vancouver and other coast points.

RUBBER STAMPS—Also supplies. New Grade stamp sets are now ready P. R. Truscott, agent for Dickinson stamps.

C. O. Rodgers is a business visitor at Lethbridge, Calgary and other Alberta points this week. He left on Monday.

Christ Church Sunday school which has been on vacation the past two months, will resume on Sunday at 10.30 a.m.

Mrs. C. O. Rodgers is a Spokane visitor this week, for the annual fruit fair which is in progress in that city at present.

Creston public library will not be open on Tuesday afternoons until further notice. The Saturday afternoon hours are extended from 2.30 to 5.30.

H. Price of the Fernie branch of the Bank of Commerce is here taking the place of Accountant W. E. Thomas, who is relieving at Greenwood.

E. W. Thomas, accountant at the Bank of Commerce, left on Sunday for Greenwood, at which point he is relieving in the absence of the manager on vacation.

Ideal weather has prevailed for the haymakers since the cutting season opened on August 29th. The number operating on the flats is almost as large as last season.

FOUND—Near town, Ingersoll radiolite watch with fob. Owner can have same at Review Office, on proving property and paying advertising expense.

Mr. and Mrs. J. W. Hamilton and the Misses Hamilton, were at Boswell a couple of days at the end of the week visiting friends and taking in the aquatic tournament.

Miss Mildred McDonald, who has spent the summer with her parents, Mr. and Mrs. H. W. McDonald, left on Monday for Ensign, Alberta, where she will teach this term.

Mr. and Mrs. J. D. Siddons arrived home from their honeymoon trip on Tuesday of last week, and are now nicely settled in the W. K. Brown residence on Vancouver Street.

Canuck, Imperial, U.S. and Western Super X shot gun shells at Mawson Brothers. Our prices are right, with very special price on 250 lots. Watch for our announcement next week.

Mrs. Lyne was a visitor at Nelson last week on Institute business. It is expected the annual conference of the Kootenay Boundary institutes will be held at Nelson early in November.

LOST—On Saturday morning, Sept. 1st, on road or lane between my place and T. Goodwin's, an English horn handled clasp pruning knife. Finder please return to R. G. A. Hockley, Creston. Reward.

Mrs. H. McLaren and children arrived home on Monday from a three weeks' holiday visit with friends in Spokane, Nelson and Salmo. Mr. McLaren is also back on duty again after two weeks' holiday.

G. M. Argue of the Beattie-Oatway drugstore, left on Saturday for Cranbrook for a short stay after which he goes to Toronto, Ont., for a visit with friends and will be away all month. In his absence Mr. Harrison is in charge of the store.

Mr. and Mrs. W. H. Crawford and Mr. and Mrs. R. S. Bevan motored to Bonners Ferry, Idaho, for the community picnic on August 24th, and had a most enjoyable outing, Dick being called upon to speak at the affair on behalf of the Canadian visitors.

A silver tea in aid of Holy Cross Church will be held at the home of Mrs. Crompton on Tuesday afternoon, Sept. 11th, from 3.30 to 5.30 p.m. During the afternoon the drawing will take place for the rug which is on raffle, and on which there still a few tickets available.

Mrs. Cherrington has received and accepted the appointment of judge of needlework and cooking at the Boswell and Nelson fairs. The former opens on the 15th, and the latter on the 19th. Mrs. Cherrington has had previous experience in this work and her selection is an excellent one.

School re-opened on Tuesday morning with the usual large opening day attendance, especially in the primary room, where there are almost two dozen beginners. Mr. Siddons has been relieved of the Entrance class, which is this year in charge of Principal Simmons of the public school.

Messrs. C. W. Allan, C. B. Garland, E. C. Gibbs, C. F. Hayes, Geo. Johnson, H. McLaren and C. O. Rodgers were the Creston delegation at the opening of the Ymir road on August 29th. Col. Fred Lister, M.P.P., also attended the affair and was one of the guests at the official luncheon following the opening ceremonies.

The September meeting of Creston Valley Women's Institute will be held in the Parish Hall on Friday afternoon, 15th. Mrs. F. B. Pearce will demonstrate raffia work, making baskets, etc. The committee in charge will be pleased to have the names of those who wish to take the dressmaking course to be given by Mrs. Dunk of Nelson the early part of October, to enable them to make arrangements. Particulars will be given later.

The August meeting of the Rod and Gun Club on the 27th was very largely taken up with a discussion of routine matters with a decision to forward another letter to Col. McMullen, chief of provincial police, urging upon him the necessity of immediately appointing a game warden for this district. The club will also plant out wild rice on more of the nearby sloughs, and in this work it is expected the Nelson Rod and Gun Club will co-operate.

The always inviting appearance of the interior of the P. Burns & Co. butcher shop is made still more attractive by the placing of a three-foot strip of linoleum around the walls and on the windows. The pattern is a light blue and white check that matches the general appearance of the shop admirably. This firm may have bigger shops in other parts of the country, but certainly it has no branch that presents a better all round appearance than the Creston store.

BEATTIE-OATWAY, Ltd.

Clearance of

MEN'S DRESS and WORK SHOES

Nothing develops and stimulates confidence like giving the public more than they anticipate—that is what is happening at this sale. It's the biggest demonstration of value-giving that the people of Creston Valley ever witnessed. Consider what these genuine savings mean to you:

100 pairs Men's Dress and Work Shoes clearing at..... $4.85 per pair

And when we say "clearance" we mean a complete clearance of every pair of Work and Dress Shoes in the store, hence our prices have been fixed to completely clear them out. You can't go wrong. Every pair is worth almost double the price now asked. See our window display.
