THE CRESTON REVIEW

VOL. XXII. CRESTON, B.C., FRIDAY, AUGUST 29, 1930 No. 26

Canyon City

Rev. R. E. Cribb and Dick Penson spent three days last week at the lookout at Mount Thompson with Chas. Pipe, Dick remaining in charge at the weekend in order to give Mr. Pipe a chance to do a little shopping in town on Saturday.

Canyon United Church Sunday school had the annual picnic on Monday afternoon at the Gallon place. There was a line of sports, plenty of ice cream and supper, and a most enjoyable time is reported by all.

John Bedry is just back from two weeks spent at prairie points in quest of work and reports an over supply of men, with the result that wages are as low as a dollar a day and board.

Canyon school will open for the fall term on Tuesday, with W. L. Stephens in charge, and Miss Vera Lister assistant.

It is just announced that John Gertland has purchased the R. Hurl ranch, formerly the Harry White place, which the Hurl's purchased about nine year ago on their arrival from Saskatchewan. The first owner of the of the place was Bob Kifer.

Cripple Creek, Col., News: Mr. and Kenneth Knott entertained on Thursday in honor of Mr. and Mrs. Frank Knott and daughters, Misses Muriel and Frances Knott of Creston, B.C. Those present were Mesdames W. F. Hassenbug, E. D. Upton, Harold Ryan, E. T. Mason, R. B. Rutherford Herrick, McLeod and Misses Gertrude Campbell and Mason.

Principal Stephens is due home on Sunday. He has been time-keeping for the forestry service at Boulder and Boundary Creeks the past month.

Wyndel

Mrs. Matt Hagen is a visitor, with her daughter, Mrs. Cecil Moore at Nelson.

E. Davis is spending a few days at Riondel with his sister, Mrs. Cornwall.

Chas. Moore was a business visitor this week, serveying the P. Hagen ranch property.

Mrs. T. Dunseath was a visitor with Cranbrook friends.

Opening meeting of the winter session of the W. A. held in the home of Mrs. D. Butterfield on Wednesday of last week, at which the annual sale of work was discussed and time set for November, exact date to be announced later.

Misses E. Towson and B. Hulme and Messrs. A. E. Towson and E. Hulme were auto visitors to Cranbrook on Saturday.

A. Hedley is at present a patient in Creston Hospital, and his condition is reported satisfactory.

W. Johnson, who has been at Vancouver, returned home last week.

Anglican Church service here on Sunday, 31st, at 11 a.m. There will be a celebration of Holy Communion.

The August meeting of the Women's Institute was held on August 21st, at which the fall fair was discussed and date set for September 27th. A charge of 25 cents to exhibit will be made and no admission charged. October 31st is the date arranged for a minstrel show by the institute.

A very enjoyable time was spent on Thursday evening at Monrad Wigen's packing shed when Mr. Bond of the Wearever Aluminum Company served supper to some 80 residents, cooked by their new method, without water. The supper was thoroughly enjoyed by all. Afterwards Mr. Bond gave a very interesting talk on the food values wasted in cooking foods in water, and explained the mineral values found in vegetables and fruit, and their effect on the body. He showed how food cooked by the waterless method retains the natural minerals so necessary to good health. He also showed some films to emphasize the facts he had already stated. During the following days Mr. Bond called at the homes and personally explained the value of the new Wearever utensils in this cooking, and most of the homes gave him an order for the whole or part set.

IN MEMORIAM

In memory of a loving husband and father, Reginald Price, who passed away August 31st, 1929, at Rossland, B.C.

Nothing can ever take away
The love a heart holds dear;
Fond memories linger every day—
Remembrance keeps him dear.

Inserted by loving wife and children at Wynndel, B.C.

Wheat Harvest Now Under Way

Combines at Work on Reclamation Farm—Rogers Crop Runs 40 Bushels to Acre—Cutting on Farms Use Five Combines.

Wheat cutting at the north end of the Reclamation farm got under way at the first of the week, when Dudley and Jared Rogers, who between them have over 1000 acres in the area adjoining the old farmhouse, put two combines at work and with ideal weather prevailing are handling 25 acres each in a shift that starts about 9 a.m. and goes through until dark. The rather late morning start is on account of the dew, which must be allowed to disappear before successful combining is possible. The Rogers boys are operating McCormick-Deering machines with 16-foot cut and are laying low a magnificent stand of Marquis wheat that will readily go 40 bushels to the acre, and this is not the best of it, as some of the grain is expected to go 60 bushels per acre. Before the week is out three more combines are expected to be in action on the Holben, Bishop and Chistensenfarms, Mr. Holben operating a combine with a 20-foot cut. Just at present three trucks appear to be sufficient to handle the output from each combine for the haul to Creston, but as the machines get cuttiug further away from the ferry it seems likely four trucks per combine will be required for the haul, to accomodate which a night shift is being worked on the ferry, with W. Burling in charge.

With but two machines at work shipping h s averaged a car of wheat a day, and it is being loaded out at present at the siding put in some years ago just east of the section house for the loading out of ties from the Putnam, Palmer & Staples sawmill. At this location the Midland-Pacific Grain Company have two loading depots. These consist of a hopper located in an excavation into which the trucks dump the wheat which is elevated into the cars by iron discs on an endless chain which carry it up through an eight-inch pipe, with a gasoline engine suppl ing the power.

On a site just east of the McCreath coal shed there is being erected two bins which will hold a carload each and midway between the two containers the trucks back in and loading can take place direct into the car or into either or both of the big bins. This plant will be in operation before the end of the week, and the belt on which the cups that elevate the grain are attached will be operated by power from Creston Power & Light Company plant.

Up till last night about half a dozen carloads of grain had rolled to the coast going out over the Kootenay Central to Golden and main line west. If the expected average of 40 bushels for the whole acreage is maintained the outgo of wheat from Creston this year will be around 80 carloads.

Lister

It is officially announced that John Lloyd of Canyon has secured the Lister-Creston mail contract, and will commence his duties at the first of September. For the past four years this work has been in charge of Geo Jacks, who has given excellent satisfaction.

Mr. and Mrs. Chas. Neuman (nee Doris Yerbury) spent the weekend here with the latter's parents, leaving for Nelson on Sunday.

Fred Thompson, jr. who has been a guest of Cyril Bird for the past month, and Sidney Fisher, who has been a guest of Wallace Sinclair, both left for their homes in Nelson on Sunday.

Rev. Carl Baase of Creston was here for Lutheran Church service on Sunday afternoon, and Rev. R. E. Cribb will take United Church worship at Lister on Sunday at 11 a.m.

Miss Edith Faulkner of Cranbrook is a holiday visitor at the home of Mr. and Mrs. Geo. Hufstedler this month.

Jos. W. Hoff of Kimberley motored in on the weekend on a visit with Col. and Mrs. Lister, and was looking over the Malthouse place, which he recently purchased.

School is due to open for the fall term on Tuesday morning.

Miss Aimee Sinclair has again been awarded the contract for janitor work at the school for the coming year. R. T. Millner and A. W. Sinclair are making needed repairs to the schoolhouse, desks, etc., and everything will be in shape for opening on Tuesday.

C. H. Phillips of Kimberley, who has been holidaying at his ranch here, got a sudden call back to that town on Wednesday on official business as coroner.

Jas. Huscroft and son, Fred, have had their threshing rig at work in this section the past week, and have threshed out the wheat crops at the Lindhorst and Beard places.

Mr. and Mrs. Berry and three children of Edmonton, Alberta, were weekend visitors with Mr. and Mrs. R. Stevens, making the trip by auto, and on their return are accompanied by their son, Norman, who has been visiting with the Stevens' for the past few weeks.

Sirdar

Mrs. Whiteside and Jack Grundy of Crowsnest were Sirdar visitors on Tuesday last.

Jas. and Chas. Wilson were Yahk visitors on Saturday.

Miss Margaret Backus, nurse in training at the Sacred Heart Hospital, Spokane, is visititg with her uncle, Norman Backus.

Mr. and Mrs. W. T. Simister of Creston were guests of Mrs. Martin on Thursday.

Mrs. Jenkins, Mr. Pendergrast and Miss Lila Ryckman of Kellogg, Idaho, returned home on Sunday after a visit with the former's uncle and aunt, Mr. and Mrs. D. Cameron.

FOR SALE—Early Ohio potatoes. Fred Lewis, Creston.

FOR SALE—White Leghorn hens from R.O.P. stock, good layers, 75 cents each. Mrs. A. Cameron, Erickson.

FOR SALE—Purebred Jersey cow, 5 years old, freshened July 29th, very quiet and good milker. Also Shorthorn-Jersey heifer due to freshen September 1st. Mrs. Ed. Smith, Huscroft, district.

Erickson Siding

Misses Rose and Dorothy Seaver left on Tuesday for Spokane, after an extended visit with their grandparentt, Mr. and Mrs. R. Stewart.

Miss Marion Collis left at the end of the week for Proctor, where she has secured a position and will be remaining.

Bob Marshall was a visitor at Cranbrook on Monday.

Mrs. Tom Marshall and two children, Florence and John, returned on Wednesday from a visit with friends at Michel.

School is due to re-open for the fall term on Tuesday morning.

With almost a month of ideal weather the haymakers have about completed operations on the flats for this season.

CORPORATION OF THE

Village of Creston

Dry Goods, Groceries. PHONE 3 Furniture, Hardware

He had closed the deal already by telephone

Three men were business rivals, each of them selling a commodity required by a firm in another city, The latter was about to place a big order, and, of course each of the rivals was anxious to get the business.

One man wrote a letter, another decided to go in person, but the third, wisely combining the "personal touch" with speed, used the long-distance telephone.

As a result, the man who used the telephone had closed the deal while the rival and the letter were still on their way.

CRESTON, B.C., FRIDAY, AUG. 29

LETTERS TO THE EDITOR

Educational System

Editor Review:

Sir.—A word on the subject of Educational System may be in order just now when our schools and colleges are about ready to open once more.

On all sides one hears the claim by the Native Sons and Daughters of B.C., "Our school system is the best in Canada." And somehow it is good to hear them say it. We admire the loyalty and the aspiration of the statement.

But education and system are two different things. Education —from the Latin e-duco (leading out) to higher things—we take it is a cultural state fostered by an older order than of the present. When all those learned Greeks of the fifteenth century were driven out of Constantinople—the seat of the Byzantine era of learning they brought with them a culture that spread all over Europe and thus the Renaissance. And so when we speak of our perfected school system ought we not to pause and give quiet consideration to the older provinces of this dominion. And ought we not to lay a boquet upon the grave of our own Dr. Ryerson, the father of our Canadian public school system.

Education is an instinct in peoples, born of cultural surroundings, and not a formulated system. It mus be an integral part of every community; every activity, whether church or civic, to promote culture, must be a part of the home, and not entirely left to a handful of teachers, granting that their responsibilities are large; it must be the golden dream of every small boy and girl who goes to school, and it must not stop with the last grade of the common school.

Too often we hear the remark, "Look at Johnny Jones, he was bright, he finished school at the age of 12." And we ask, "what do you mean by finished school?" "Why he finished Grade 8." But Grade 8 is not the finish of school. No indeed. Examine the records of men and women who have attained prominence in this country, you will find that they have all had at least a High School education (with a few exceptions), and in the older provinces especially, a college education as well. Out of the little Island in the Gulf of St. Lawrence came the prominent Schurman, who was President of the Cornell University, and might have been President of the United States but for the fact of his British birth.

There should always be a proportionate representation of the youth of these districts writing the High School examinations at the Creston centre each year. Is such the case? If it is so, then we can commend our system. When the Province of British Columbia is sending out men and women to take prominent place in the public life of this nation, and in other nations as well, though the latter is not necessary, they are needed at home; when the farmers here are mortgaging their farms to send the boy and girl to college (and for that purpose alone) as they have done in the Maritimes, then I believe we will be able to truly say—Our school system is the best.

M. V. BAKER.

Local and Personal

FOR SALE—57 acres of land 1¼ miles from Creston, East Creston Irrigation District pipe runs along one side of the land, about 30 acres of good bottom land, balance pasture. Price $1500 cash; or $1750 on terms to be arranged. Chas. O. Rodgers, Creston.

The public weigh scales at the Lomont building were taken up at the first of the week and moved to a site on the C.P.R. team track, near the McCreath coal shed, where they are being used to weigh the grain that is coming in from the Reclamation Farm for shipment.

FOR SALE—Wigen's 40-acre farm at Wynndel, in whole or in two 15-acre and one 11-acre lot, with irrigation and improvements, offered at one-half the cost of improvements. Failing health compels retirement. If unable to sell will rent out part or all to right parties for 1931 or longer. Address O. J. WIGEN, Wynndel, B.C.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, AUG. 29

A Little Service, Mr. Esling

Early next month there is to be a special session of parliament at which Premier Bennett has stoutly assured that his government will grapple with the unemployment problem, and in less vigorous, but none the less uncertain, terms has promised that he will raise the tariff. With a very comfortable working majority in the house there is every reason to believe he will make good these assurances.

Just what legislation he has in mind to provide work for Canada's jobless is not yet disclosed, but when it comes to raising the tariff the Review is very happy to submit for the serious consideration of W. K. Esling, M.P., the matter of insisting on an increased duty on all coal entering Canada.

For years past Canada has been bringing in from two to three million tons of this fuel from the United Statos at a nominal if any tariff charge. What is now required is a generous boost in the tariff to, say, $3 a ton. By the assistance of such added protection the mines in Eastern British Columbia as well as Alberta will be able to successfully compete on the eastern Canada market.

Assuming that western Canada coal to a total of two million tons can be sold at a price of $3 a ton f.o.b. shipping point, six million dollars of extra money will be put in circulation. And assuming that half a million tons of this is shipped from the mines in the Crows Nest and closely adjoining territory it will loosen up a million and a half dollars in the very centers where Creston Valley sells the bulk of her fruit crop, and where other fruit districts in West Kootenay also find a very desirable market.

In a year like 1930 when fruit has slow movement on the market the availability of an extra million and a half dollars would pretty well solve the selling problem for West Kootenay orchardists, while the other four and a half million dollars realized on western Canada coal sales would greatly expedite the sale of the balance of British Columbia's fruit crop.

For about six years Mr. Esling has been boasting of what protection will do for the industries of Canada. Next month he is going to have an opportunity to demonstrate that he and his party practice what they preach, and this extra duty on coal is Mr. Esling's one best bet to benefit the people who have been sending him to Ottawa with increased majorities ever since 1925.

CARD OF THANKS

Mrs. Ludwig Johnson and family take this means of expressing their sincere appreciation of the sympathy and kindnesses shown them in their recent bereavement.

WORLD HAPPENINGS BRIEFLY TOLD

The first member of the Canadian navy to qualify for pension is Charles J. Hill. He enlisted in 1911.

The coronation of King Carlos II., of Roumania, has been definitely postponed, and will take place in the spring of 1931. Queen Helen plans a prolonged absence on a journey.

An order sheet of the Fascist party states that the total death, in Italy, of the earthquake of July 23, numbered only 1,475, in contrast to the previous official total of 2,142.

The Canadian Wheat Pool now has a membership of 142,000, the number of members having increased by more than 2,000 within the year, according to Gillis Percell, of the Canadian Press.

Drastic action to end the recent hoarding of silver coin in Russia has been taken by the Soviet secret police. Four men, convicted of counter-revolutionary activities, were arrested and shot. They were a speculator, cashier, and two traders.

The dumping of inferior gasoline by United States companies into the Canadian market has severely hit local oil refineries. Toronto refineries have been forced to lay off from 25 to 90 men because of the dumping of this oil.

In a further effort to bring before the people of the province the great variety of the products of farm and factory, the Made-in-Manitoba Committee of the Winnipeg Industrial Development Bureau is staging an extensive publicity program.

Records at Meridian Cabin, at the entrance of Prince Albert National Park, reveal that 14,000 persons have entered Saskatchewan's playground since the opening of the present season. Park officials are confident the 1930 total will reach, if not exceed, 20,000 before the season ends.

Development of a petrified forest six miles east of Drumheller, Alberta, was discussed by the Drumheller town planning commission, and a recommendation made to the Parks Development Board of Alberta that a survey of the bad lands in the vicinity be made with a view to the creation of a national park.

Canadian Cheese Grading

There has been a steady improvement of the quality of cheese year by year since grading was undertaken by the Department of Agriculture at Ottawa, about seven years ago. The chief of the division of dairy produce in the department states that a new mark has been set in 1929 when 93.1 per cent. graded were found to be of first grade.

"FRUIT-A-TIVES" DID IT

The Wheat Stem Sawfly

By Major H. G. L. Strange, Director Agricultural Research Department, Searle Grain Company, Limited

This insect, which up till 1914 had only been the cause of a comparatively small amount of damage in Western Canada, and that in Manitoba alone, has since that date rapidly spread over Saskatchewan and Alberta, and is now damaging crops almost up to the Rockies.

Entomologists who have given the sawfly a great deal of investigation and study, are of the opinion that the sawfly is with the wheat grower to stay, and that the control or partial control of sawflies will have to be one of the operations of the wheat grower that will rank in importance with any other farm operation.

The wheat stem sawfly normally lives in the prairie grasses, but of late years has developed a liking for wheat, and is damaging crops and causing direct money loss to farmers more and more each year, until today the losses due to the sawfly are estimated to run into millions of bushels per annum in each of the Provinces of Manitoba, Saskatchewan, and Alberta.

Neglect of any attempt to control the sawfly has resulted in some years in from seventy to one hundred per cent. loss in certain districts in the West.

Fortunately, however, in the majority of wheat growing districts at the present moment, the wheat stem sawfly only operates and damages wheat around the edges of the fields, particularly around the edges of those fields that are growing a crop on stubble.

Entomologists who have given particular study to the sawfly are of the opinion, from the result of their careful investigations and experiments, that no cultural methods are really very effective in the control of this insect pest.

They have found, however, that there is a certain and definite way to minimise the damage to wheat, and in time avoid any damage whatever.

This is by the seeding of what is called a "trap crop" around the edges of the fields, and in addition around the edges of any sloughs or watercourses inside the fields where the native grasses can grow, because it is in these native grasses that the insect usually lives over during the winter.

Oats make a very good "trap crop." The sawfly lays its eggs in the oats and eventually becomes drowned out in the stem. The oats, however, must be seeded before the wheat.

By far the best "trap crop," however, is brome grass, and it has been found that if a permanent crop of brome grass is maintained completely around the edge of a field, the brome grass strip to be from eight to ten feet wide, then the field will be almost certainly protected from sawfly damage. The brome grass can be cut for hay or can be allowed to mature and cut for seed.

Unless some effort is made along the lines indicated, the entomologists assure us that the losses from sawfly damage will steadily increase.

Sometimes a crop that is known to be affected with sawflies can be saved by cutting on the green side before the wheat stem has been cut by the sawfly. This, however, is only a temporary method, because the grade of the threshed grain is usually reduced.

A permanent trap of brome grass is the only sure method advised.

Wheat growers should note carefully those fields which are damaged this fall and take means to combat the trouble for next year.

Universities, Dominion Experimental Farms and Government Departments of Agriculture will gladly supply further details of this damaging pest.

Area Of Manitoba

The area of Manitoba is 251,832 square miles according to information furnished by the Dominion Government. Of this area, the Topographical Survey, Department of the Interior, has issued thirteen sheets of the National Topographic Map of Canada, either wholly or partially in the province. Each of these sheets covers an area of approximately six thousand square miles.

The world now has 7,000,000 acres of land planted to rubber.

Minard's Liniment removes Warts, relieves Bunions.

SUNDAY SCHOOL LESSON

AUGUST 31

AMOS—A HERDSMAN CALLED OF GOD TO BE A PROPHET

Golden Text: "I heard the voice of the Lord, saying, 'Whom shall I send, and who will go for us?' Then I said, 'Here am I; send me'."—Isaiah 6.8.

Lesson: The Book of Amos.

Devotional Reading: Isaiah 55.1-7.

Explanations and Comments

The Time Of Amos' Prophecy, 1.1—Amos was a herdsman of Tekoa (a small village of Judah), who lived in the eighth century B.C., in the reign of Uzziah, king of Judah, and Jeroboam II., king of Israel. Uzziah reigned forty-five years in Judah (782-737 B.C.), and somewhere in that reign occurred an earthquake so startling and devastating that the Judeans dated events from it, just as they often dated them from the deliverance from Egypt. It was probably 755 B.C., "two years before the earthquake," that Amos wrote his book, the first of all the prophetical books, wherefore he is called "the father of written prophecy."

"Two years before the earthquake! What an ominous beginning. But no words could better introduce the stern book of Amos. The world into which it ushers us is a world crowded with wrong of every kind — of false worship and social injustice. Such a world needed to be shaken and Amos knew that it would be. That, indeed, is the burden of his message; and already in the opening words the rumbling of the coming shock is heard. Sharp ears, however, were needed to detect it. To the average man of those days, society must have seemed stable enough, for the brilliant reign of Jeroboam the second had been marked by peace and prosperity. But not far beneath the shining surface the clear eyes of Amos saw the symptoms of rottenness and inevitable decay; and the words of his first recorded message are that Jehovah, the God of this easy-going people, would roar from His temple in Jerusalem, like a lion just before he makes his spring. The implication is that Jehovah will soon spring upon His people, to tear them in pieces; and Amos' message we might describe as the Gospel of the Lion's Roar."—J. E. McFadyen.

The Prophet Must Be Jehovah's Agent, 3.7, 8.—Amos proclaims his message because he must: God had revealed to him His secret of Israel's doom, and as every one fears when a lion roars, so when Jehovah speaks, as He had spoken to the soul of Amos, how could the prophet help delivering his message? "Amos himself is in the grasp of that great law which explains and runs through all the phenomena of the universe, or rather of that great Person who is behind all phenomena. The great Course which explains the prophet's appearance and justifies his message is Almighty God Himself."

London is to have a children's museum, containing toys and clothes of children of all ages and races.

Ruins of streets, shops and villas of one section of ancient Carthage are being excavated.

An Amazing Exploit

Two Young Boys Set Out To Sea In A Stolen Yacht

An amazing exploit by two London, England, boys, aged twelve and thirteen, who set out to sea in a yacht, was revealed recently.

The boys, who lived at Hornsey, filled two suitcases with bread, meat and bottles of water, and travelled to Southend. They waited until darkness fell, and then crept over the mud to the racing yacht "Nomad," which was moored off Leigh. On board the yacht, they lay down to sleep until the tide rose.

When the "Nomad" was afloat, they cast off the moorings, hoisted the mainsail a few feet, and with the tiller lashed, began their adventure.

Neither of them knew anything about sailing, but they determined to go to Dover and return, so that their school mates would acclaim them as heroes.

But the plan miscarried. The yacht drifted helplessly about the Thames estuary, all through the night. Liners constantly passed her, and the boys several times narrowly escaped being run down.

Then, in the morning, the yacht was seen drifting towards the harbor at Sheerness. Boatmen put out and were able to save her from crashing into the harbor wall. The boys were lying, helpless and frightened, in the cabin.

A waterman sailed the yacht back to Southend. On the way, the yacht was seen by the owner, Major W. J. Edwards, of the Essex Yacht Club, and he intercepted her in a motor launch.

The death penalty for crime has been abolished in Denmark.

BOILS GO OVERNIGHT
"Many Boils on neck. Doctor said lance. Tried 'Sootha-Salva' first; boils vanished overnight." C. T. Scott. "Sootha-Salva" stops pain in 1 minute; boils go in few hours. At all druggists.

Memorial To Ben Eielson

Alaska To Pay Fitting Tribute To Her Pioneer Aviator

Alaska's memorial to her pioneer aviator, Col. Ben Eielson, will be a $100,000 aeronautical engineering building at the Alaska Agricultural College and School of Mines, the farthest north college in the world.

The campaign to raise the fund for its erection is being sponsored by the American Legion posts of Alaska, under the leadership of Dorman Baker, Post No. 11, of Fairbanks, Alaska, whose flag Eielson carried on his flight with Sir Hubert Wilkins across "the top of the world," from Point Barrow to Spitzbergen.

Since the finding, last February, of the bodies of Eielson and his mechanic, Earl Borland, who were instantly killed in the crash of their 'plane on the way to rescue passengers and cargo from the ice-trapped ship Nanuk, there has been a growing sentiment in Alaska to establish an appropriate monument to Eielson's memory.

Guard Against Thefts

The London Daily Herald reports that it was understood extra precautions were being taken to guard against further thefts of priceless art treasures from Buckingham Palace. Several such thefts have occurred recently, with America declared to be the chief market for stolen pictures.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

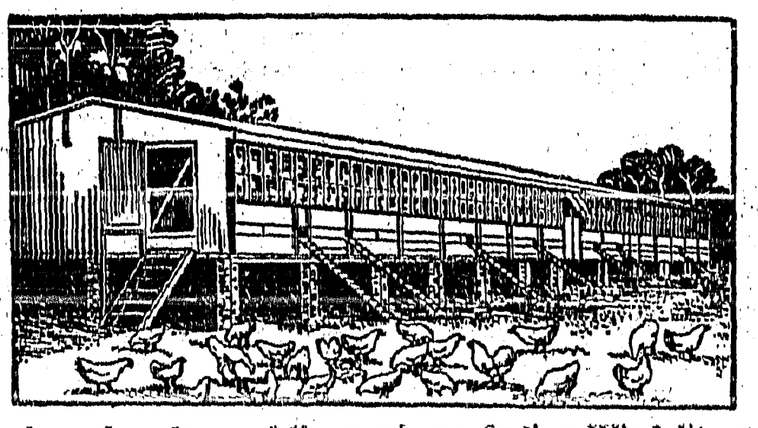
WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE



USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARNS SUNROOMS ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

H. R. TOWNSEND,
Provincial Collector.

Dated at Nelson, B.C., this 5th day of August, 1930.

Grand Theatre **Sat, Aug. 30**

Dolores Del Rio

in

'Evangeline'

From Henry Wordsworth Longfellow's immortal epic of Nova Scotia and the Acadians. A story and picture you all will enjoy and, no doubt, will remind you of your school days, and the wonderful poem.

News *Comedy*
