THE CRESTON REVIEW

Vol. XVIII. CRESTON, B.C., FRIDAY, JULY 9, 1926 No. 21

Rod and Gun Club Open Rifle Range

The July meeting ef Creston Valley Rod and Gun Club. on Thursday night. was mostly taken up with routine business, the most important of which was the report from the miniature rifle range committee who stated their labors were completed and that uhis week practices will start.

Teams will be picked from Club members and for a start at least semi-weekly shoots w ll be held for a silver cup Vic. Mawson has promised to donate. The terms are that the cup will be awarded the team making the most points each month and at the end of the season will probably be awarded the team winning it the more often during the season.

The correspondence was light, being but a single letter from the Game Conservation Board stating that the club's recommedations as to open seasons would have every consideration.

The report on the wild rice sown on flats sloughs last fall stated that the plants were showing in head and much of it is already in flower.

The hut committee was authorized to raise the building to sidewalk level. and it will be run on open house fashion so that members and visitors can use it for a reading and writing room.

After a little practice at the range the club proposes to issue a challenge to neighboring clubs, and groups of rifle experts. for shoots, and it is hoped a few more will join up and make it interesting.

A badge submitted the club was approved, and members authorized to purchase same. Work is well under way on the plans for selling shares in the clubhouse and it is expected these will be offered for purchase within a very short time.

Erickson

W. W. Hall, who is working at Kimeerley, spent a few days at the ranch the latter part of the week.

There was a fine turnout at the open air United Church service at the G. Cartwright home on Sunday evening, and later on when the heat is less extreme it is expected the service will be repeated, as it was very much appreciated by all.

Express shipments are getting back to oldtime quantities again, Sunday registering high water mark with an outgo of 200 crates—half of which were raspberries.

Miss Ruby Palmer, who has been teaching at Maidstone, Sask., for the past few months, is home for the summer vacation with her parents, Mr. and Mrs. M. R. Palmer.

Mr. and Mrs. Harvey Cartwright, who have been visitors with his brother, E. E. Cartwaight, left on Saturday on the return to Regina, with a stop at Calgary for the stampede. Mr. Cartwright, sr., who has beeu here all year, went back with them.

Hugh Graham is making it on crutches these days having had the bad luck to severely sprain his ankle on Thursday last.

Wednesday evening, July 28th, is booked for a garden concert at the W. H. Kemp ranch, under Christ Church auspices.

Frank Putnam got back on Sunday from a months' trip to Nova Scotia, on a visit to the old home and with other friends in the land of Evangeline. He states that the talk of secession from Canadain confederation is strong everywhere in that province, as well as in New Brunswick and Prince Edward Island.

At the school meeting on Satuaday night it is likely the trustees will ask for as high as $1700 to carry on with for the next twelve months., an increase of $200 over last year. We were in error last week in stating trustee E. Cartwright's term had expired. It is trustee R. Telford's term that is up, along with that of E. J. C. Richardson, auditor.

Lister

Ken. and Harry Demchuk of Seattle were visitors here with their parents, last week, coming home for the double wedding of their sisters, Nellie and Doris, which took place at Bonners Ferry on June 30th.

Sam Lazachuk was up from Kellogg, Idaho, for a few days this month, being one of the guests at the double wedding on the 30th.

Mrs. Ed. Smith and children have gone to Klockmann, where they will spend most of the summer with Mr. Smith, who is employed at the mine.

Mrs. D. J. McKee and children were here for a few days stay wiih her sister, Miss Annie Yerbury.

The wet and threatening weather that previaled last Thursday prevented the Dominion Day picnic at the Huscroft receation grounds from being the usual big success.

C. H. Phillips of Kimberley, who has been stopping at the ranch here for about a week, left for home on Thurseay last.

Mrs. Delbridge got tack from Wynndel at the end of the week, but left immediately for Canyon to help with berry harvest tnere.

Geo. Jacks is making daily shipments of raspberries from his ranch, the fruit going out at Erickson.

The potato bug is making considerable spread in this section, the beetle being in evidence on at least three farms at Huscroft, and about ten at Lister. J. W. Eastham, the provincial plant expert, with Mr. Dennys, the Dominion entomologist, were here at the middle of the week appiying extermination remedies.

The mail carrying job between Creston, Erickson, Canyon and Lister is now in charge of Geo. Jacks, who started work on a four-year contract on July 1st, using his Ford car at the delivery. F. N. Thompson, the former carrier, will likely be leaving Lister temporarily.

Bonner's Ferry Herald: The office of justice of the peace A. J. Kent was the scene of a double wedding on June 30th, when two sisters became the brides of the party. Reno House of Porthill and Miss Nellie Demchuk of Camp Lister composed one of the happy groups. The second party was Orval VanEtter of Porthill and Miss Doris Demchuk also of Camp Lister. Witnesses to the marriage were Kindiat Demchuk, Katherine Demchuk, brother and sister of the brides, Anna House, and Lester Daufau. The young couples plan to establish their homes at Porthill after a brief honeymoon.

COWS FOR SALE—Two milch cows, Holstein-Shorthorn, 7 years old. Both cows freshen soon. Also Shorthorn heifer. E. Nouguier, Canyon.

Alice Siding

Alice Siding will again this year be mecca for the Orangemen and their friends, with the usual Twelfth of July doings to be held at the old site at the Compton ranch, with dance at night in the Compton packing shed.

W. H. Watcher, who has been working on the Arrow Creek road crew the past couple of months, re-opened his shop here at the first of July.

Chas. Ratcliffe of Kimberley was a visitor here for a few days last week, the guest of Mr. and Mrs. Kelly.

The depot at Smith crossing was opened for the season on July 1st, and there is quite a heavy cherry and raspberry movement. 90 crates going out on Sunday.

Officials of the water rights branch Nelson were here fast week making a general survey of irrigation water affairs.

Mr. and Mrs. Alko of Michel, who have been here on a visit with Mrs. Parkin, left for home on Monday.

The berry pickers and their friends had another dance at the Reed & Mather packing shed on Thursday night. Messrs. Tom Anderson and Rob Miller had charge of the floor and the half hundred merrymakers all report a very fine time.

A quiet wedding was solemnized at the home of Mr. and Mrs. Thos. Trevelyan on Friday evening when Edwin Barraclough of Calgary, Alberta, and Mrs. Barraclough, widow of the late Wm. Barraclough, were united in marriage by Rev. J. Herdman, in the presence of the members of the bride's family. Mr. and Mrs. Barraclough left on Sunday for Calgary, where they will make their home.

Canyon City

Misses Muriel and Frances Knott are home from Glenlily and Skookumchuk respectively, where they have been teachinc school the past year.

The first carload of pipe for the Coldstream irrigation system has arrived and the laying of it will commence at once.

Geo. Hewitt left at the end of the week for Calgary, Alberta, where he has secured work, and will be remaining for a few months.

Jock McRobb, who is in charge of the blacksmitn work at the Idaho-Continental mine at Klockmann, was home for the Fourth of July holiday, and returned on Tuesday, accompanied by Martin Nelson.

Mr. and Mrs. John Porterfiled of Spokane were here at the weekend on a visit with the latter's father, Eric Olson, who has returned with them for an extended holiday.

Mr. and Mrs. Messenger and family from Vangnard, Sask., were here for a couple of days this week on a business visit with Mr. Halsted who has the ranch leased. They are en route to Vancouver for a month's holiday stay.

Canyon opened the cabbage shipping season on Monday, when the Huygens & VanAckeran place made the initial shipment for this year. They expect quite a good crop with 3900 plants set out at the first of the season.

The annual school meeting is announced for Saturday night, July 10th, at 7 o'clock. H. Young's term as trustee has expired, and F. Bnott, auditor, has also consleted the usual one year term. We understand $1700 will be asked for this year—about $100 less than in 1925.

The term end report of Canyon school shows honor rolls awarded as follows: Division 1: Deportment—Elsie Clayton. Regularity and punctuality—Helen Nouguier, Holly Bond. Proficiency—John McPherson. Division 2: Regularity and punctuality—Leonard Bond, Frank Clayton, Jack Clayton. Deportment—Helen Johnson.

Wynndel

C. O. Ogilvie and M. Wigen took two cars of people to Bonners Ferry on Sunday to look over the Fourth of July celebration. E. Uri and party made the trip on Monday and all report having a real good time.

Andrew, a local indian, is reported to have taken a first and one or two seconds in the horse racing events at Bonners Ferry on Monday.

Due to one or two misunderstandings the Tennis Club dance for last Saturday had to be postponed, but it will be held this Saturday and bigger preparations than ever have been made to give a large crowd a great time, so everybody come and enjoy themselves.

Mrs. R. Uri left last week for Nelson where she is in the hospital undergoing treatment for her eyes.

The berry season is finished, and most of the pickers and packers have left, and Wynndel is again settling down to normal quietness.

The Tennis Club are holding a dance in M. Wigen's packing shed on the flats on Saturday night, July 10th. Music by Creston orchestra. Supper provided. Good floor, and nice and cool. Popular prices, and all welcome.

Duck Creek had its first Dominion Day celebration last Thursday. There was a ball game between Creston and Wynndel, which had to be called off on account of rain, with the score 4 all on even innings. With the rain too heavy to play ball the whole crowd moved to the M. Wigen packing shed, where refreshments were served, after which a dance was started at 6 o'clock, lasting until 1 a.m. Lunch was served about midnight, and a most enjoyable time was spent by all.

Wynndel baseball team played Creston on Creston grounds on Sunday, losing by a narrow margin due to some hard luck. The teams are to meet again on Thursday night in town and it is hoped Wynndel will be on their toes and clean up this time.

We are not sure as to the news being correct, but it is reported Sirdar baseball team will be here on Friday night for a game with the boys. This is the first time anyone has heard of a Sirdar ball team, and one wonders where they do their playing. However, we hope they are not just trying to fool us.

Card of Thanks

Mr. and Mrs. W. H. Gobbett and family take this means of expressing their sincere appreciation of all the assistance, the flowers, the sympathy, and many kindnesses shown them in their recent bereavement.

Double Drowning Saddens Creston

The lives of two of Creston's most promising young men were tragically ended on Monday night in a double drowning in Goat River that claimed Harold, aged, 25, ane Arthur, aged, 23, second and third sons of Mr. and Mrs. W. H. Gobbett.

Following the extreme heat of the day the two boys in company with others had gone to what is known as the "second bend" of the Goat for a cool off swim. Both had taken a plunge or two, with Arthur remaining in the water. Whilst swimming around he was taken with an attack of heart trouble and almost immediately began to sink, Spectators immediately alarmed Harold who dove in to help his brother but was unable to bring the body to the surface at the first attempt, but on coming up shouted to those on the bank to go for help and went down the second and last time, as he, too, never rose to the surface again.

Help was at hand quite promptly in the persons of his brother, Harvey, and Pat Downey, who were motoring down to join the unfortunate swimming party, and hearing the shouts of the spectators of the tragedy for help reached the spot with all possible speed, Harvey being successful in bringing up the body of Arthur about the second plunge down, but although every effort was made to restore life all were of on avail. The body of the other brother was recovered by grappling effort almost two hours after the tragedy.

The funeral took place from the family residence on Tuesday night, to Creston cemetery, the largest gathering of citizens ever seen at a burial turning out to pay a last tribute of respect at the service on the lawn in front of the Gobbett home, with Rev. J. Herdman and Rev. Dr. Daly conducting the last sad rites in impressive fashion, the former delivering a short but touching address, and R. Comfort, Vern Cook, Bert Boffey, Ivan Staples, Vic Mawson and Harry Smith officiating as pallbearers. In addition to the very large concourse of sympathizing friends floral tributes that completely hid both coffins eloquently bespoke the high esteem in which the two young men and the family are held.

The late Harold and Arthur Gobbett were born at Medicine Hat, Alberta, coming here with their parents in 1906, where the former has resided continuously, though Arthur had been at Calgary about 18 months, where he was employed in a garage, and was at home on vacation. Due to their likable dispositions and steady and industrious habits both boys were very highly esteemed and, as more than one citizen has been heard to remark, in their deaths Creston has lost two of its finest samples of young Canadian manhood.

Death under any circumstances is sad enough but to have two lives in the prime of youth removed under such dramatic circumstances evokes a sympathy that the printed word is altogether too inadequate to express but none the less shared by every member of the community with the heartbroken parents and family.

Those sending floral remembrances were: Wreaths—Family, Sister Vida, Alberta Lodge I.O.O.F., Calgary; Trinity Church Young People and Sunday School, Trinity Church, Mrs. Craigie, Mr. and Mrs. Couling, Mr. and Mrs. Bush, Mr. and Mrs. H. A. Dodd, Lionel Moore, Mr. and Mrs. R. B. Staples; Mr. and Mrs. W. Truscott. Sprays—Mr. and Mrs. S. Watson, Mr. and Mrs. W. K. Brown, Mr. and Mrs. Adlard, Mrs. Bolton, Mr. and Mrs. Beninger, Mr. and Mrs. Boyd, Mr. and Mrs. A. L. Cameron, Rev. J. and Mrs. Herdman, Mr. and Mrs. S. Hendren, Mr. and Mrs. Hayes, Mr. and Mrs. C. Moore, Mr. and Mrs. C. O. Rodgers, Mr. and Mrs. T. Mawson, Mr. and Mrs. H. S. McCreath, Mr. and Mrs. Ed. Martin, Mr. and Mrs. Angus Cameron, Mr. and Mrs. Manuel, Mr. and Mrs. A. D. Pochin, Mr. and Mrs. J. D. Spiers, Mr. and Mrs. S. A. Speers, Mrs. Stace Smith, Mr. and Mrs. H. Young, Mr. and Mrs. F. Smith, and many others.

WORLD HAPPENINGS BRIEFLY TOLD

Two army aviators escaped injury by jumping with parachutes when their planes collided 3,000 feet above Langley Field, Virginia. The planes were completely demolished.

Doctors Baroin Klint and Hegelund of Sweden, who have been conducting experiments for several years, claim that they have discovered a cure for sleeping sickness.

For the first time in the history of the historic river Thames, an international boat race will take place June 26 this year, for the Duke of York's international gold trophy.

The Federal Government does not intend to establish an Indian hospital in Central Saskatchewan, it was stated in the House of Commons in answer to a question.

There are only 147 unemployed persons in Paris, whereas London, before the strike there, had 800,000 and Berlin 450,000, Minister of Labor Duratour said at a banquet inaugurating the Tours exposition week.

A dispatch from Chicago says out of his own pocket State's Attorney Robt. Crowe has offered $5,000 reward for information leading to the arrest and conviction of the machine gun slayers of his assistant, William H. McSwiggin, and two beer runners.

A column of French troops tramped over the route to Soueida and buried the remains of 3,000 of their comrades who were massacred by Druse tribesmen nine months ago while attempting to relieve the Soueida garrison, which was besieged by the tribesmen.

A new cabinet has been announced in Poland, with Premier Witos at its head. The new ministry reports both the centre and the right wing parties. Foreign Minister Morawski of the previous cabinet retained his portfolio.

England Makes Best Lenses

Knowledge Gained During War Is Put To Good Use

The opening of the optical convention the other day at the Imperial College of Science of Technology, South Kensington, is an event of real significance. People will now be able to see for themselvs the strides that have been made in optics since the last optical convention was held in 1912.

It is satisfactory to know that England has now ousted Germany as the maker of the finest lenses and has regained her position of supremacy in the construction of optical instruments in general which she was in danger of losing before the war. For the war, of necessity, taught us much, forcing us to perfect such things as range-finders, periscopes and field glasses, and that hard-won knowledge has proved of immense value in enabling British optical manufacturers to take and retain the front place.

Optics undoubtedly have played an enormous part in the advancement of the modern world. When we think of all the wonders revealed by the telescope and all the essential knowledge gained from the microscope, when we consider how widely the camera has affected life, we perceive that the vital importance of optics cannot be overstated.

Money In the West

Revenue of the Prairie Provinces Reaches High Figure

Revenue of the prairie provinces last year from all sources, is estimated by the Financial Post at $1,050,000,000. This is a considerable increase over the preceding year, when receipts totalled $860,000,000. The returns for last year were derived from the following sources: Agricultural, $725,000,000; industrial, $150,000,000; tourist, $50,000,000; mines, fisheries, etc., $40,000,000. Compared with 1921, there was a substantial increase in each division.

Farm Worth $50,000

The possibilities of successful farming in the Champion district in Southern Alberta, have been demonstrated by Clarence Davis, who came to this part of the country from Geneseo, Illinois, in 1905. His capital then consisted of $1,200, part of which he used to buy a quarter section of land. Mr. Davis now owns and farms 960 acres, all of which is paid for and which is valued at $50,000.

Work On H. B. Railway

Over One Hundred Men Employed On Track Work

D. R. Campbell, superintendent of construction, Canadian National Railways, western lines, accompanied by C.N.R. Engineers J. W. Porter and Thomas Turnbull, are now making inspection trip over the Hudson Bay Railway. It is their intention to examine in detail the entire mileage to the end of steel at Kettle Rapids. To Mr. Campbell has been assigned the task of the completion of the railway to Hudson Bay. It is expected that further construction equipment, together with sufficient men, will be placed on the work immediately in order to put the track into shape to withstand the hauling of heavy trains to Kettle Rapids by this fall. Over 100 men are already at work replacing old ties with new ones.

As the work progresses, more ties will be received from time to time. The eighty-pound steel rails, which were laid on the road in the beginning in preference to lighter steel, soon came back into shape when relined. Notwithstanding the many years of disuse, the entire railway track laid of 332 miles can easily be made equal to many of the first-class main lines now in operation throughout Canada.

For the Little Fellow

The small boy will revel in this attractive version of the Oliver Twist suit. We call it the "little brother suit" because boys and girls of a similar age are sometimes dressed alike, and it makes a delightful companion to our "little sister dress," No. 1284. The blouse fastens with three scallops at the front, and has scalloped edges on collar and cuffs. The sleeves are marked for a shorter length, and the lower edge of the blouse is gathered to a wide band. The straight trousers open at the sides and button onto the blouse. No 1286 is in sizes, 2, 4 and 6 years. Size 4 years requires 1¾ yards 36-inch material for the suit. Price 20 cents.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

Cost Of Immigration

Considerable Sum Spent In Ocean and Railway Fares For Immigrants

Immigration costs came up in the House of Commons recently. In answer to a question it was stated that in the eleven months ended Feb. 28 last, the Federal Government contributed $247,530 in assisting ocean or railway fares for immigrants. Of this, $130,703 are recoverable loans.

Assistance for land settlement of immigrants cost another $284,725 in that period and assistance in the keep of immigrants cost the Federal Government $13,161.

Nine-tenths of the best leaders of men are women.

New York Sees Strange Craft

Rotor Ship Completed Experimental Journey of 6,000 Miles

When a strange craft, neither sailing nor motor ship, but a combination of both, came into New York harbor recently it evoked as much curiosity from the latter day Manhattanites as did Henry Hudson's half-moon from the Indians 300 years ago.

It was the world's first rotor ship, the Baden-Baden of Hamburg.

Flying the flag of the new German Republic, she came up the harbor on windpower alone at a nine-knot clip, while tugs and shipping tooted and ferry boat passengers stared.

The 600-ton ship, with its two huge rotor towers revolving at an average of 85 revolutions a minute, was carrying a cargo of building stone. It completed an experimental trip of 6,200 miles in 38 days.

Anton Flettner, inventor of the rotor, met the ship at quarantine, expressing satisfaction at the success of the rotor principle. A considerable saving in Diesel oil is practical evidence, he said.

The rotor which act in place of sails and have no connection with the propeller, were in operation about 70 per cent. of the voyage, frequently unassisted by the six-cylinder 250 horsepower main Diesel engine.

One of the best days during the voyage the ship made 212 miles. The average was 168. Once in rough weather when the main engine was shut down for repairs the Baden-Baden made five knots on the rotors alone for several hours.

Perform Wonderful Feat

Two Mountaineers Scale Ice Clad Peak In French Alps

Scaling Mount Meije, 13,065 feet high, the most formidable peak in the French Alps, was the feat performed by two French mountaineers. They travelled on skiis over the lower slopes to the Promontoire Refuge, which is 10,335 ft. They found the hut buried in snow, but dug a way in and passed the night there. At daybreak they scaled the precipitous heights to the summit, forcing their way through a mass of giant icicles, which often broke under their weight and threatened to hurl them to destruction. At one time they had to climb the face of an almost perpendicular wall of ice 80 ft. high. They had nearly reached the top by following little ridges in the ice when M. Dalloz dropped his alpenstock. He maintained his grip with a Swedish knife and reached the ledge. At the summit the climbers found a flagstaff which had been planted there by a summer climber 25 years ago. They used it as an alpenstock on the return journey.

Drink Kills Russian Peasants

Alcohol Takes Heavy Toll In Land of Soviets

Professor Alexander Sholomvitch, director of the narcotic section of the department of health, Moscow, says that every year 6,000 Russian workers kill themselves with alcohol.

He adds that 65 per cent. of all the workers are addicted to intoxicants and that their average expenditure for alcohol is 13 per cent. of their yearly earnings. These figures, he declares, are based upon official registrations and take no account of the millions of peasants who make their own home brew.

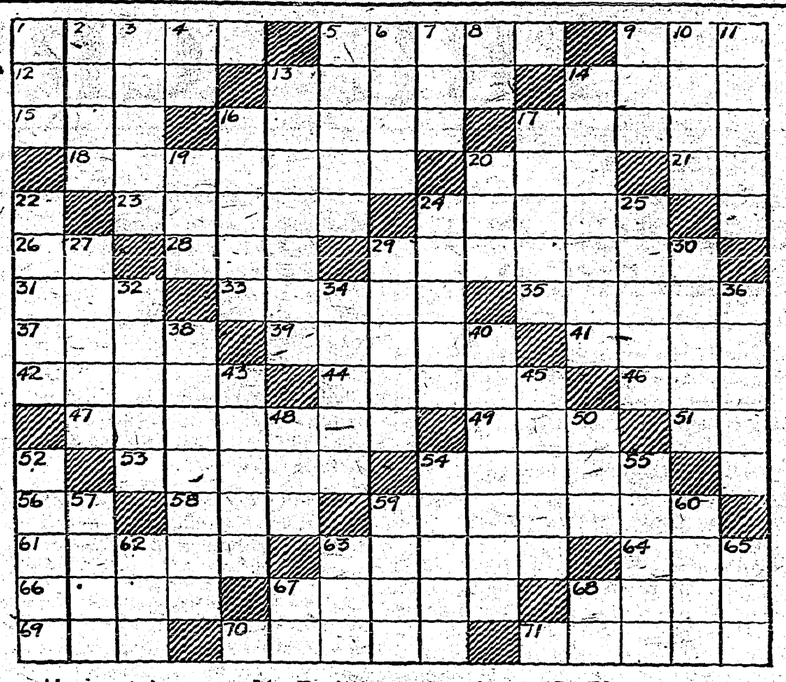
Professor Sholomvitch asserts that if a continuous line of freight cars reaching along the entire 6,000 miles from Vladivostock to Leningrad were loaded to their full capacity with alcohol this would represent the quantity of alcoholic liquor Russia consumes annually.

Farms Hands Placed Quickly

Young Men From England Find Work On Canadian Farms

The splendid manner of receiving immigrants arriving in Canada this year, is well exemplified by the handling of a party of forty-three young men, trained at the Claydon, England, training centre, destined to be placed on farms in Canada, which recently arrived under the aegis of H. K. Bluck, assistant manager of the farm. Within an hour of their arrival in Toronto from England, all of them had been placed on farms in Ontario. Mr. Bluck has since either visited or written to all of these men so placed, and states that the result of his visit had been far beyond his expectations.

OUR CROSSWORD PUZZLE



Horizontal

1—To make a glancing movement.
5—Work hard.
9—Evergreen tree.
12—So be it.
13—Organ of the body.
14—In this place.
15—Anything that fastens.
16—Doctrine.
17—Resin.
18—Surrender or turn over.
20—Obstruct.
21—Prefix meaning from.
23—Adult females.
24—Hut.
26—Exclamation.
28—By or through.
29—One who provides food, as for a party.
31—Wicked.
33—Something owed.
35—River of W. Africa.
37—Barren.
39—Surmounts.
41—Box, sheath, or bag.
42—Piece left undetached on a statue.
44—Pertaining to a foot
46—A lower limb.
47—Director.
49—Dress up (slang).
51—Symbol for tantalum.
53—Fast.
54—Positions; situations.
56—Indefinite article.
58—A number.
59—Continued.
61—Island in Aegean Sea.
63—Large bodies of water.
64—Vigor.
66—Above.
67—Sortie.
68—Smooth; unaspirated
69—Novel.
70—Veins of gold in a mine.
71—Jeweler's unit or weight.

Vertical

1—Covering for the head.
2—In the midst of.
3—Regenerate.
4—Above and in contact with.
5—Fabric.
6—State emphatically.
7—Wager.
8—Alternative.
9—Affirmation.
10—A Great Lake.
11—Serving-maid.
13—Young hare.
14—Pertaining to Homer.
16—Kept time.
17—Black bird.
19—Cut off the top of.
20—Minute point.
22—Collar turned down and falling over the shoulders.
24—Abhorred.
25—Lawful.
27—Female quarters in Turkey.
29—Expressed juice of apples.
30—Repair, as jewelry.
32—Silver Serbian coin.
34—Having two feet.
36—Royal.
38—Donor, contributor.
40—Please; suit.
43—Back of the neck (pl.).
45—Plant of water lily family.
48—Trap or snare.
50—Precious stone.
52—Stonecutter.
54—Finds a market.
55—Cut asunder.
57—Hub of a wheel.
59—Govern.
60—Girl's name.
62—European seagull.
63—Ramble; stray.
65—Encountered.
67—Thus.
68—Note of diatonic scale.

Germany Cannot Engage In Military Aviation

But Terms of Versailles Treaty Modified In Other Respects

Negotiations concerning modifications of the Treaty of Versailles as it applies to German aviation, which have been in progress four years, have ended in the initiating of an accord between France and Germany and Belgium and Germany.

Under the agreement German military aviation still is prohibited.

The terms of the treaty referring to horsepower and climbing qualities of the German planes are modified, however.

Separate agreements entered into by the French, Belgian and German Governments will permit aviators of one country to fly over territory of the others.

Heavy Cargoes For the Orient

Big Trade Being Developed With China and Japan

That the recent improvement in Oriental trade is in no way imaginary, is proved by the heavy cargoes carried by the last few liners sailing for Japan and China from the Port of Vancouver. In fact the recent partial recovery in the volume of business being done with China is viewed by local merchants as a sure sign that the country is coming back to normal. This improvement is noted especially in the recent heavy bookings of the Canadian Pacific steamers.

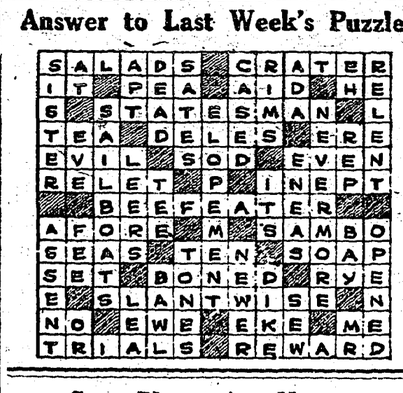
Big Tourist Trade

There is a very rapid increase in the number of tourists entering Canada by automobile. In 1925, 1,945,035 cars came into Canada for one day; in 1924, this figure was 1,534,885 and in 1923, 966,499. Of the one-day tourists entering Canada 1,209,090 came into Ontario, 467,555 into New Brunswick, and 111,983 into Quebec.

Largest Lumber Cargo

An Oregon paper reports that the largest cargo of lumber ever loaded on a ship on any sea at any time, was the cargo of the Montgello, loaded at Portland, Oregon. This load of lumber consisted of 6,356,612 board feet. It represented the lumber used in 366 ordinary houses.

Answer to Last Week's Puzzle



Says Plants Are Human

Indian Psychologist Studies Working Of Their Brain and Heart

Sir Jagadis Chandra Bose, the well-known India plant psychologist, has been making some further interesting experiments regarding plant life.

Sir Jagadis is among the first of the modern scientists to consider plants as having hearts, minds and feelings, and to study the workings of their "brains" as closely as any student of human psychology.

One of his experiments, starting at five o'clock in the afternoon, showed that the plant was fully conscious until after midnight, but did not really "sleep" until about six o'clock in the morning, after a prolonged period of drowiness.

In one of his tests he gave a carrot a drink of water, and by means of a delicate instrument called the crescograph, which recorded its movements, he discovered that it became "intoxicated."

When chloroform was substituted for water, the carrot actually became unconscious.

Sir Jagadis maintains that the effect of alcohol on plants is the same as on animals. At first there is a maudlin depression, then wild exaltation. Carbonic acid kills plants, and chloroform and ether either kill or stupefy them.

Consider Air Stations

The whole question of the allotment of air stations in Canada is under consideration, Hon. E. N. MacDonald, minister of national defence, informed the house at Ottawa, following complaints of air service conditions at certain points in British Columbia and Alberta.

Good for All the Family

It makes them smile—it's sure worth while.

Dauphin Celebrates Anniversary

A Quarter of a Century Since Town Was Incorporated

The town of Dauphin, on the northern branch of the Canadian National Railways in Manitoba, is preparing to celebrate its 25th birthday this year. It is just a quarter of a century since Dauphin was incorporated as a town and the celebration is to be marked by an Old Home Re-Union, to which every former resident of the district, who can be located, will receive a personal invitation. An historical pageant is contemplated, which will give a panoramic view of the history of Dauphin and district from the time of the discovery and naming of the lake by Francois de LaVerandrye in 1739 to the present. The occasion is stimulating much historical research and considerable data is being unearthed of the story of explorer, trader and pioneer, which would otherwise pass into oblivion. The celebration will be held in conjunction with the agricultural fair on July 8, 9 and 10.

Strange, Romantic Love Adventures of the Flapper you know!

Joanna

by H. L. GATES

Copyright 1925 by H.L.GATES

Published by arrangement with First National Pictures, Inc.

THE STORY THUS FAR

Joanna, flapperish, pretty, shop girl is informed by her employer, Graydon, that an unknown benefactor has given her a million dollars to spend as she wishes. There are no conditions which she must meet to gain the money. Dazedly she attempts to discover the name of the unknown benevolent, but he cannot, or will not, inform her. At the bank she meets the banker, Eggleston, who adds nothing to her mystery, and his man-about-town nephew Brandon. The latter helps her write her first check. Armed with ten thousand dollars and the suave Brandon's statement that he intends to make love to her she goes to the furriers. The furrier implies that she must have "hooked" a rich man. The chauffeur also implies this. Hurt, Joanna starts home.

CHAPTER V.—Continued.

What else was there to say? What else to think about? Ready any time he was. But John asked her, then:

"What sort of a wife will you be to me, Joanna? And do you think I'll be the kind of husband you really want?"

And that was John's old-fashioned way. Mussing things up. As to what sort of a wife she'd be, how could she explain? She knew, deep down inside her, that she'd be a darned good one to him, but she hadn't been spending her time thinking up ways to explain why. Small chance! The wives she knew were the kind that men who weren't their husbands were always buying red roses for. She had tried to wonder, once, why men bought red roses for other men's wives, but she had given it up. She knew why these other men's wives drank more out of other men's hip pocket flasks than they did out of their husbands', but she couldn't have put that into words, either. And she knew, too, that these wives, whom she met at dancing places, at the cheaper and gaudier cabarets to which her boys could afford to take her, and at occasional beach parties in the summer time, were not the kind she'd be to John. But how in the dev—the deuce! could she get all that into common sense words? So all she could say to John that time was:

"Aw, you give me a pain! You take what you get, and I'll take what I get, and whoever kicks first can take the gate!"

Which made John say a thing of two she didn't like and a quarrel was the outcome, and so that was that. She knew perfectly well what she'd do with fifty dollars all at one time. With ten thousand dollars she was like a schooner at sea with the masts broken down. With one million dollars—her head ached! Joanna wasn't very good at figuring things out!

Why? Who? What was the strange, astounding, unbelievable thing behind it? She'd always marvelled at the things people thought up for the movies, and for the plays. She'd even thought of herself as married to a Wall Street broker with an apartment on Park Avenue and a butler and a maid all her own. All girls had crazy dreams like that. But she'd never heard of a thing such as had happened to her. She didn't know what to do about it, except to go to Mrs. Adams, where she roomed, and, somehow, that was a waste of time. She ought to be out spending her money. But where should she begin? Let's see! First, now that she had the cost, she'd buy some—what?

Good Lord! With a million dollars everything she could think of seemed cheap and useless. And Cohen! He thought she'd fallen for a—!

Well, she'd get some flowers for Mrs. Adams, who had been worrying about her last week's room rent, take them home, sit down and see if she could think it over. Then she'd try to get that jazz mind of her's down to business and figure out what was to be what. She'd been let in for something by somebody for some reason or other, and while the going was good she'd go!

Joanna didn't like the way the chauffeur acted when she rapped on the glass that separated them and, when he had stopped the car and put his head in through the door, she told him to stop at a flower shop. He was cold, and up in the air—like he knew things. He said that she didn't need to rap on the glass; that there was a speaking tube. And he added:

"That's one of the things you must learn, since you've pulled the gears into high speed." She knew what he meant and she wished she knew how to give poison to some people. She tilted her chin and told him she'd asked for a flower shop and not education.

Roses? No! The last time she'd wanted a day off from the store, to go on an automobile drive with a fellow who'd got a car from somebody, she'd told old "Good Morning" that it was her birthday and she was giving a party. "Good Morning" had sent her a bunch of roses as a birthday remembrance of his plans upon her, and she had to listen to his soft stuff for a week afterwards—until she thought the roses were paid for. So she didn't like roses.

Lilies? They were what she remembered of her mother's funeral.

Geraniums? A long time ago, when she was a very little girl, she used to go out in the mornings and water the geraniums in the front yard before she went to school. Gee! that was a long time ago! If there was anything she hated at that time it was geraniums, because they seemed to be such utterly useless things for a girl to have to put water on. But her mother liked her geranium bed. That was about the time that her mother and father used to talk about her marrying the druggist's son when he grew up. They were about the same age.

She was always in trouble in those days. She had to kiss the druggist's son whenever they happened to be together with nobody looking, because he'd quit giving her ice cream sodas if she didn't, but she didn't like him. He demanded too many kisses for each soda. Ten cents apiece would have been cheaper, if she'd had enough dimes. The fellow always passed her house in the mornings while she was watering the flowers and stopped. And she had had to go around the corner of the house and kiss him or he'd charge her for her ice cream soda after school.

She'd never liked geraniums. But her mother did. So, she wouldn't take roses nor lilies to Mrs. Adams, but geraniums. Mrs. Adams was not a bad sort. If she didn't kick about her money maybe she wouldn't get it.

The florist explained that geraniums didn't come in bunches, but in plants only. "People don't buy them as cut flowers, you know," he explained. "They take them in pots."

"Well, here's where you learn something you didn't know," Joanna informed him. "Just cut me up ten dollars worth of plants, will you? When I want geraniums I want geraniums. I'm a different class from other people, you know!" Funny that she should think of geraniums, and her mother, and the druggist's son, because she had a lot of money in her bag and wanted to do something for Mrs. Adams! She'd forgotten what geraniums looked like.

But Mrs. Adams hadn't. When Joanna, overdue in her room rent, as usual, stepped out of the automobile in front of the rooming house something electric brought the slatternly but motherly landlady to the window. When she'd rubbed her eyes and recognized her delinquent roomer she estimated the armful of flowers. Joanna and geraniums! And a limousine! What's wrong?

To the chauffeur who helped her to descend and who took her bundle—the wrap she had put aside for the new one of mink, Joanna said:

"You may go back now to your boss. And if he asks about me—tell him I'll see him at church, will you?"

The man saluted. Mrs. Adams, watching from the window, saw it. Joanna suddenly was upset again.

(To be continued)

EXPECTANT MOTHERS

Read Mrs. Menard's Letter. Her Experience May Help

Chatham, Ontario.—"I want to tell you how much good your medicine has done me. Before my baby came I felt so weak and run-down that I could hardly do my work. My head ached continually and I was so discouraged that I could cry from morning till night. I had another baby just one year and a half old and it gave me a lot to do. So I thought I would try Lydia E. Pinkham's Vegetable Compound, as I had read so much about it in the little books. I found a difference right away as my head was relieved and my tired feelings gone. My sister had been doing my washing and she continued doing it, as she said it might set me back if I started to do it again. It sure did help me and I had taken just two bottles when my baby came. He is a fine big boy, now nearly five months old. I am taking your medicine again and I am able to do my work all by myself now. I always recommend the Vegetable Compound to women, and especially to expectant mothers, as I believe they need help at those times."—Mrs. OLIVER MENARD, 54 Center St., Chatham, Ontario. C

BLACKHEADS AND PIMPLES

On Face and Neck. Itched Badly. Cuticura Healed.

"My trouble began with blackheads which after a while festered and caused little red pimples. The pimples were scattered over my face and neck and itched badly. When I scratched them it caused little sore eruptions, and the trouble lasted about four months.

"I sent for a free sample of Cuticura Soap and Ointment and after using it I purchased more which healed the pimples in about two months." (Signed) Ivan Towriss, 51 Frederick St., Arthur, Ont.

Clear the pores of impurities by daily use of Cuticura Soap, with touches of Cuticura Ointment as needed to soothe and heal. Cuticura Talcum is fragrant and refreshing.

Sample Each Free by Mail. Address Canadian Depot: [illegible] Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.

Cuticura Shaving Stick 25c.

WOULD WAKE UP TIRED

Stomach Out of Order and System Run Down

"I suffered from stomach trouble for several years," says Mrs. Mary Crouse, of Nineveh, N.S. "I would have severe pain after eating, and as a result I ate sparsely, and so ran down in general health. I grew pale and weak, was easily tired, and would wake up in the morning as tired as when I went to bed. Then my nerves began to give out, and my sleep easily disturbed. Naturally I was being treated for the trouble but it did not help me; indeed I was growing worse and could not walk to the nearest neighbor's without stopping to rest. It was at this stage that, as the result of an advertisement I read, that I decided to try Dr. Williams' Pink Pills. I had taken the pills for several weeks before I could notice any improvement in my condition, then I seemed to have a better appetite, and less difficulty after eating, and this encouraged me to continue taking the pills until I had used a dozen boxes, by which time I could eat a hearty meal and enjoy it. My general health had improved so much that I felt I was again a well woman. I have not since had any return of the trouble, and feel that I can with confidence recommend Dr. Williams' Pink Pills to other weak and ailing people."

For indigestion, or any of the numerous troubles due to thin, watery blood, Dr. Williams' Pink Pills are strongly recommended. Sold by all medicine dealers, or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

One that hath a pleasant voice.—Ezek. xxxiii., 32.

Her voice was ever soft,
Gentle, and low. —Shakespeare.

There is no one thing that love so much needs as a sweet voice to tell what it means and feels. One must start in youth, and be on watch night and day, at work and play to get and keep a voice that shall speak at all times the thoughts of a kind heart. It is often in youth that one gets a voice or a tone that is sharp, and it sticks to him through life, and stirs up ill-will and grief, and falls like a drop of gall on the sweet joys of home. Watch it day by day as a pearl of great price for it will be worth more to you than the best pearl hid in the sea. A kind voice is to the heart what light is to the eye; it is a light that sings as well as shines.—Elihu Burritt.

Oil in Okanagan Valley

It is understood that the Shell Oil Company has secured options on territory in the Okanagan Valley, with a view to boring for oil. It will be some months before any definite results are obtained.

Useful in Camp.—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Eclectric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

It is estimated that 4,300,000 acres are under plantation rubber at the present time.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Exterminator.

The statesman in his flights of oratory merely spreads his o-pin-ions.

Colds Are Not Necessary Evils

Observance of One Fundamental Rule of Health Protects Against Them

Whether one catches cold easily is largely a question of physical condition. If the general vitality is low, resistance to disease is weak and at such a time a cold is easy to contract and difficult to check.

Constipation is frequently the cause of such a state of health, with its attendant listlessness, biliousness, headaches and a general lack of vitality. Poisons from the waste matter that remains behind after improper, irregular bowel elimination are picked up by the blood and carried to every part of the body. They weaken your resistance to disease.

Thousands of people who have suffered from self-poisoning in this way have found that *Nujol*, the internal lubricant makes bowel elimination sure and easy.

Nujol softens the waste matter and permits thorough and regular elimination without overtaxing the intestinal muscles. *Nujol* can be taken for any length of time with no ill effects.

If you take cold easily, ask your druggist for *Nujol* to-day—and remember, look for the name "*Nujol*" stamped on both bottle and package.

THE CRESTON REVIEW

Issued every Friday at Creston. B.C. Subscription : $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, JULY 9

Wynndel

Mrs. Constable's orchestra played for the dance in the old schoolhouse on Saturday night, June 26th, and though the heat was rather oppressive the floor was crowded all evening, and an enjoyable time was spent by all.

Harry Price of Winnipeg, who has been here for a nouple of weeks, looking after his berry crop, left on Tuesday for his home in Manitoba capital.

The Fruit Growers Association have supplied a total of fourteen cars of berries, which is considerable better than was expected just after the season opened. Most of the growers have taken off from one-half to two-thirds of the crop they figured on. Reports on prices are quite favorable.

G. Taylor of the Dominion Express Company, who ha' been here looking after the express end of the berry business, left on Wednesday for Nelson and other lake points, to supervise the shipping of the cherry crop.

Mrs. Cochrane and small grandson have arrived from Winnipeg, Man., and are guests of Mr. and Mrs. H. A. Bathie, sr.

Miss Edna Shepherd is visiting her her brother, Reg. Price at Riondel, before returning to her home in Winnipeg, Man.

Miss A. Rosindale, who is on the staff of the Creston Hotel, was here on Tuesday night for the berry season hop at the Wigen packing shed.

Although the berry crop did not come quite up to expectations there is every indication of a heavy raspberry yield, and with tree fruits all bearing well the district as a whole will not do too bad this season

During the prevailing hot weather swimming is the most favored sport of both youny and old. The channel where the hay road bridge crosses is crowded most of the time both by boys and girls, all intent on keeping as cool as possible.

A local berry season "hop" was held in Wigen's packing shed on the flats on Tuesday night last. Besides all the regular Duck Creek dancing crowd all berry pickers were there, and a most enjoyable time was spent. Charles Price of Cranbrook, drums, and Miss D. Penson, piano, supplied most of the music, relieved at times by other players.

Duck Creek played its first ball game of the season on Sunday afternoon, June 27 when the Creston nine was here for a contest. Local boys have had very little chance of working together and got the worst of a 13 to 5 score.

Wynndel United Church congregation are certainly grateful to Thos. Hunter of Vancouver, who has generously presented them with an organ. It is a very fine instrument and is now in use, and helps out the musical part of the service very much.

GRAND THEATRE Fri. & Sat., July 23-24

CHARLIE CHAPLIN in "The GOLD RUSH"

A Dramatic Comedy Written and Directed by CHARLIE CHAPLIN

Heartaches become rib-ticklers.
Tragedies turn to laughter
Miseries bring mirthfulness
Hardships bread chuckles
As Chaplin burlesques all the Human Ills

Sirdar

C.P.R. Supt. Flett with Mrs. Flett and family were Dominion Day visitors here, putting in most os the time fishing with fair success.

Miss Shepherd of Wynndel was a weekend visitor here, the guest of Mrs. Brawn.

Jas. Wilson of the Atbara Quarry was at Creston the fore part of the week, looking after the erection of some headstones in the Creston cemetery.

Although there seems nothing to account for it the water guage shows the lake is rising about one-thirtieth of an inch these days.

On account of Sunday being the glorious fourth there was an unusually large number of American cars both east and westbound at KusKanook on the Sabbath.

Mr. Plattsburg, who has the Neil ranch leased, had to be taken to Creston by auto on Saturday, having almost severeb a finger on his left hand while cutting kindling that morning.

J. A. Nowell of St. Paul; Minn., who owns most all the standing timber in this section, was here on a business visit at the end of the week. He was non-communicative as to the possible date of erecting the expected sawmill below Sirdar, but it will not be this year, as he is leaving in a few days on an extended trip into the the Peace River country.

A change of interest in the operation of the Crow's Nest division of the C.P.R. took place last week, when a new system was inaugurated whereby the engines pulling Nos. 67 and 68, the west and east bound passengers respectively, go from end to end of the run between Lethbridge and Sirdar. Thus, instead of an engine stopping over in Crambrook for twenty-eight hours, it is "kept rolling." More motive power is thus available for use on the division.

Kitchener

E. W. Thomas and D. T. Scrimgeour of Creston were business visitors here on Tuesday.

Miss Ester Nelson, who has been packing berries at Duck Creek the past few weeks, returned home on Friday.

Fred Androsoff left last week for Nelson in which city he will spend a two weeks' vacation.

A. N. Deshone and C. F. Rowland of Vancouver were business visitors here on Wednesday last.

G. E. Clerihew, barber at the new hotel at Yahk, was here on Wencsday last taking care of several customers needing tonsoral attention.

Mrs. Z. Geroux left on Sunday to spend a few days with her husband, who is in Nelson.

H. McLaren of Creston was here on a business visit on Wednesday, coming in by auto.

Harry Spence and son, of the Sash & Door Company, Limited, left for Cranbrook by car on a visit.

Edwin Gregory and Dix H. Rowland of Tacoma, Wash., were business visitors here on Thursday.

Ray Burch, fire warden at Yahk, made an official call here on Thursday.

Miss Alice Molander arrived from Nelson, She has been attending business college in that city the past nine months.

Mr. and Mrs. Chas. Bramwell, Mr. and Mrs. R. Jones and Mr. and Mrs. Ray Bartlett of Spokane were business visitors here on Friday, motoring in.

Miss Mary Haptonstall, who has been employed at the McConnell Hotel since last September, left with her sister and brother-in-law for Macleod, Alberta, on Saturday. She will certainly be missed from the younger set at Kitchener.

Mr. and Mrs. F. C. Chapper and J. Guthrie motored up from Copeland, Idaho, on Saturday.

Miss Beatrice Molander left for Creston on Sunday, where she is visiting Mrs. Charles Fransen.

Mr. and Mrs. Connor and Mrs. M. McCofferty of Spokane motored in on a business visit.

We had a very fine dance in Hunt's Hall on Saturday night. Alice Siding orchestra furnished the music. Creston, Yahk, Canyon, Ericason, Bonners Ferry, Porthill, Duck Creek and other places were well represented, and everyone reported having a very good time.

Mr. and Mrs. McInteer and party of Porthill, Idaho, were business visitors her on Saturday.

M. G. Smith, Ed. Patterson, L. Patterson and S. M. Adolphe of Cranbrook were motor visitors here on Sunday.

C. F. Williamson of Penticton was a business visitor here during the week.

Joe Veron, who is in charge of reclamation work in the Kootenay Valley, paid us a business visit from Porahill one day last week.

Messrs. Keith M. Mewbaum, D. A. Leach and G. C. Kummuch of Spokane were Sunday callers at Kitchener.

Chas. Cheney, who has been away for at least eighteen months, arrived on Monday, and is spending a few days renewing oldtime acquaintances.

J. L. Whitford, the Rawleigh products man, was here from Cranbrook on Monday.

A crowd from here witnessed the baseball game on Sunday between Yahk and the picked Kimberley-Wycliffe nine, in which Yahk went down to defeat 7 to 11.

Mrs. Laura Mohr of Spokane, and Miss Marguerite Mohr of Walla Walla, wash., were here a few days' visit with Mr. and Mrs. C. R. Paulson.

Alf. Speaker and Jack McComb, who have been working for the Continental Lumber & Pole Company, Limited, left on Sunday for Dorr, where they have secured a job.

Rossland's magistrate recently tacked a fine of $1 on four Doukhobors caught tethering their cows out at nights on the town streets.

Fernie parted company with considerable regret this month with their United Church pastor, Rev. Wm. Burns, whom the Free Press describes as an "honest to god human being, whom it was a pleasure to meet and associate with"

Fernie council has donated $100 to help finance the town's Board of trade.

700 residents of Cranbrook have signed the petition asking another vote on the beer parlor question. The "wets" claim that if the parlors are established it will mean a greatly increased business for the new and enlarged Crambrook brewery

Creston is Oversupplied with Dairy Butter !

Some of it is good, some of it is bad, and a lot of it is indifferent.

But all of it is sold in wrappers marked "Choice Dairy Butter."

Buyers have no way of telling who made the particular pound they happen to buy—be it good, indifferent, or poor stuff.

And worse still—for the good buttermaker—so long as this haphazard way of putting butter before the public continues the demand for Dairy Butter will fall off.

If you are one of at least a few who make *really good butter* why not let folks know *your* butter by using PRINTED BUTTER WRAPS—*showing your name.*

They cost very little more than the readymade sort you use now—to your own disadvantage.

By way of inducing you to use the printed sort—with your name printed on them—we will supply you with FIVE HUNDRED Wrappers at the popular price of $3.00.

It's a pleasure to show samples.

Local and Personal

According to the Kootenaian Ollie Hassis and Leonard Gariano have taken a lease-bond on the Texas mineral claims at Spring Creek in the Kaslo district and have started work on the property.

It took Creston an extra inning to beat Wynndel at baseball on Sunday afternoon at Exhibition Park, the final score peing 13 to 12. The veteran Joe. Goodman did the hurling for Wynndel.

Creston Board of Trade meets in July session on Tuesday night and a full turnout is desired as there is important business arising out of the recent Associated Board's convention at Nelson to dispose of.

Unless some real heavy rains are encountered within the next few days the haying in the flats this year will be very light. The cuts on Nick's Island were anything but promising at the first of the month.

The Fourth of July falling on Sunday this year Creston was favored with visits from an unusually large number of Idaho and Washington states cars, most of which had made calls at Kitchener during the weekend trip.

Mr. and Mrs. H. Bleumenauer and two children of Kimberley were Friday to Sunday visitors with Mr. and Mrs. C. H. Hare, enroute to New Denver for a month's vacation, and travelling in quite a classy new Star sedan.

Mr. and Mrs. Jimmy Lockeead and children got away on Thursday lor a holiday visit with friends in Southern Alberta, going first to Calgary for the Stampede. In his absence "Happp' Eastlake is skipper on the Kootenay River ferry.

Friends of Mr. and Mrs. Don. Bradley will be pleasen to hear that their young daughter, Patricia, who had to be motored to Cranbrook hospital for treatment early last week, is making a slow but satisfactory recovery.

Trinity United Ladies Aid announce a lawn social with sale of ice cream, raspberries and cream, and other light refreshments, along with a sale of home cooking, at the parsonage grounds on Friday, July 16th, commencing at 5 p.m.

Business was fairly active at the provincial police headquarters last month, the cash intake running to $450. Of this total $296 was from auto licenser, $96 of amusement tax, and four liquor cases accounted for $34 collected in fines.

Worship in Trinity United Church on Sunday evening will take the form of a memorial service for the late Harold and Arthur Gobbett, the former being a prominent worker in the young people's department of Trinity chutch effort.

Up till the first of July 195 number plates have been issued to local auto owners, which is a number slightly in exess of the business done at this time in 1925. 200 plates have been stocked at the first of the year, and these will most likely be needed before the year is out.

The annual school meeting starts at 7 p.m. prompt Saturday at the schoolhouse. The trustees are having a final meeting tonight to complete the estimates and will probably ask for $7500 to run the school the next year—a reduction of $400 as compared with the past year.

Quite a number of Creston people took advantage of the auto trip to Erickson to attend the United Church service on the lawn at the G. Cartwright home. In spite of the unprecedented heat the turnout was large, and everyone enjoyed the service throughout.

H. Munro of Ottawa, chief migratory bird officer for Canada, was a Creston visitor on Thursday last, en route to the coast on a holiday trip. He conferred with Secretary Hendy of the Rod and Gun Club, and has promised to have a meeting here when his vacation is over.

The village council has its regular July meeting on Monday night, and it is expected there will be developments in connection with the electric light situation in view of the action taken at the June meeting on the proposition from Manager Horsley of the Nakusp Power & Light Company.

Cecil Kimberley, a former member of the Imperial Bank staff and prominent in Creston baseball about four years ago, is pitching great ball at Vancouver this year, where he is on the Young Conservative team, who are at the head of the senior league. One night this week he beat the Elks 6-2.

A. A. Dennys, the Dominion entomologist, who is handling the potato bug outbreak in the Valley, was recalled to Cranbrook at the end of the week, but will be back in a few days to commence extermination operations. All the equipment is here and spraying will be gone on with on his return.

The annual basket picnic of Creston L.O.L. and L.O.B.A. will be held on the afternoon of Monday, July 12th, at the old stand west of Jas. Compton's ranch, commencing at 2 o'clock. Some speeches will be delivered during the afternon, and a good time is assured. Come one and all and enjoy the fun—and bring your baskets too. There will be a refreshment booth on the ground.

The Twelfth of July celebration is to conclude in time honoree fashion, with a dance at the Jas. Compton packing shed, commencing at 9 p.m., and Alice Siding orchestra music. The admission is 75 cents to gents, and 50 cents so ladies, which includes supper. The "hop" is under the direction of the L.O.B.A., who will operate a refreshment booth during the evening.

Chas. Moore is this week organizing a survey party of half a dozen men and will start work at once running the lines on Lot 274, formerly a Winlaw limit, which adjoins Erickson and Lister, and contains about 1500 acres. He will also survey Lot 287 in the Corn Creek distict, in which is about 500 acres. It is expected the department of lands will throw both tracts open for settlement this year.

FORM No. 13.
(Section 39)

LAND ACT

NOTICE OF INTENTION TO APPLY TO PURCHASE LANDS

In Land Recording District of Kootenay, Group One, and situated in the vicinity of Kitchener, B.C.

TAKE NOTICE that WILLIAM LEE HATHAWAY, of 310 Sansome Street, San Francisco, California, U.S.A., Manager, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the intersection of the westerly boundary of Sub-Lot 14 of Lot 4592 with the northerly boundary of Sub-Lot 13 of Lot 4592 in Group 1, Kootenay District, thence north 20 chains more or less to the north-west corner of Parcel 3 Hathaway land; thence west 100 chains more or less to a post marked 10, Sub-Lot 13 of Lot 4592; thence south 20 chains more or less to a post marked 9, Sub-Lot 13 of Lot 4592; thence east along the nortnerly limit of said Sub-Lot 13 for 100 chains more or less to the point of commencement, and containing 200 acres more or less.

WILLIAM LEE HATHAWAY.

Dated 5th June, 1926.

COW FOR SALE—Holstein, T B tested, gives 20 quarts of milk per day. Mrs. R. Dalbom, Wynndel.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Your Pocket

used as a bank has many disadvantages.

Money carried in it is easy to spend on trifles or may be lost or stolen.

Weekly deposits in our Savings Bank will accumulate rapidly.

Small or large accounts are welcome.

Britain Not Bolshevistic

One of the most remarkable, and at the same time most satisfactory, features of the great strike in Great Britain is the way in which the people kept their tempers and passions under control. With millions of men on strike, and many millions more dependent on them for support, and all feeling more or less bitter against the Government and those throughout the country opposed to the strike, it is little short of the miraculous that rioting and indulgence in excesses of all kinds was not general.

Then, too, the strike imposed discomforts, inconvenience, and in some cases even hardship on every other citizen. Had short tempers and the voicing of bitter complaints and the development of bitternesses of all kinds been the rule it would not have been surprising. It would have been expected in almost any country. But despite any and all provocation the people of Britain kept their heads, remaining, with few exceptions, calm and unruffled.

It speaks volumes for the sturdy character of the British people, and their inherent loyalty, that they have thus "played the game." Grim and determined as both sides to the dispute proved themselves to be they wage battle for a principle, and the strikers in more ways than one proved the truth of their assertion that they were not fighting Britain, but for what they conceived to be the highest and truest interests of the country. British labor in this struggle—the greatest in the history of the country—demonstrated that it is not Communistic nor Bolshevistic.

The "Reds" in Russia welcomed the British strike with unconcealed joy. For years they have been striving to convert the British worker to communism. They have desired the overthrow of the present form of government and have conspired and intrigued to bring about a Soviet republic in Britain. The Moscow "Reds" thought success was in sight and promptly offered millions of rubles to assist the British strikers. The money was just as promptly declined by the British labor leaders. British labor had an issue to fight out with the Government, but they had no desire nor intention of destroying the Government. The strike will have served at least one valuable purpose in thus proving to the world the inherent loyalty and saneness of the rank and file of British people.

Undoubtedly the British Government and the overwhelming majority of the people are in full sympathy with the desire of the strikers for the creation of the best possible working conditions, hours of labor and pay. There is no difference of opinion as to the desirability and necessity of solving the coal mining problem in the British Isles. Where the Government and the majority took ssue with the strikers was in the method adopted by the latter to enforce their own views and opinions upon the country, namely, through a general strike to deprive all people of the conveniences and necessities of life and thus force them into submission.

If there is one national characteristic of the British race it is their love of freedom and fair play. They will not be forced, nor bow to dictation. And the strikers made an irreparable blunder when they sought by depriving all the people of means of transportation and other essential services to force compliance with their own wishes. It is not "fair play" to impose discomfort, loss and suffering upon innocent millions of people in order to "get at" those in authority with whom the strikers had a quarrel. This smacked too much of German military methods inflicted upon innocent Belgium in order to strike a blow at France.

Furthermore, while people generally are anxious that all necessary reforms in the coal industry shall be effected as quickly as possible, they resent and reject the assumption upon which the strike was based that it was necessary to take them by the throat and force them into subjection.

Methods which may appeal in Soviet Russia are not acceptable to the liberty-loving Anglo-Saxon. This was well established in the One Big Union strike in Winnipeg a few years ago. It has again been proven on a much larger scale in the British general strike. The British workers proved their loyalty to Britain by refusing Soviet money, and by their declaration that they were engaged in a purely domestic struggle which in no way involved their national honor. But they made a mistake in adopting Soviet strong arm methods in waging their domestic battle.

The result of the struggle is to establish that the British people, including the great mass of British Union labor, are in no danger of accepting the ill-digested theories and quack remedies of Bolshevistic Russia and communistic demagogues throughout the world.

Cancer Takes Heavy Toll

Death Rate From This Disease Said To Be Increasing

The increase in deaths from cancer in Ontario and the rest of the Dominion has been alarming, the committee of cancer reported to the Ontario Health Officers' Association.

"Not only have the total number of deaths from cancer in Ontario increased generally, but the rate per hundred thousand of population and the percentage of cancer to deaths, all over the continent, has increased alarmingly," the report said.

Big Irrigation Association Meet

The annual convention of the Western Canada Irrigation Association will be held in Medicine Hat on July 27, 28 and 29. Prominent irrigationists from Canada and the United States are expected to be present.

For Good Roads

Contracts Let For $106,000 in Road Work in Saskatchewan

The Saskatchewan Government has already started on a big programme of highway construction, the following contracts, a total of $195,000, having already been awarded for work to be started immediately. From Forward west, seven miles, to W. E. G. Ross, Regina, $7,500; road from Herbert to Waldeck, to F. C. Hare, Regina, $36,000; from Carievale to Carnduff, T. R. Kenderline, of Maryfield, $12,500; Kisbey, east and west, nine miles, Thorvald and Erik Lakness, of Govan, $22,000; Lestock to Punnichy, Charles B. Morgan, The Pas, Man., $36,000.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

District Welcmes Increased Service

The increased train service between Saskatoon and Edmonton, via North Battleford and Lloydminster, which took effect on May 10, will be a great convenience to the people living in that territory, according to transportation officials of the Canadian National Railways. This district has been served for a number of years by a night service only, whereas now there is a double service, trains leaving Edmonton and Saskatoon in the morning, making connections for the east and west.

Large Flour Mill For Calgary

Spillers Overseas Limited to Build One Of the Largest Mills in Canada

Advices from London, England, are to the effect that Spillers Overseas, Limited, is going ahead with its arrangements to complete and equip its big mills at Calgary. The completion of the building will cost about $1,500,000 and the equipment more than twice as much. It is expected that this mill will be in shape to handle the 1927 crop and that it will be one of the largest in Canada.

"DIAMOND DYE" ANY GARMENT, DRAPERY

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Find Large Munition Dump

Concealed Behind False Wall Escaped First Search By Dublin Police

A munition dump, one of the largest ever found, was recently discovered by Dublin detectives behind a false wall in a stable in King Street, Dublin. It contained nearly 300 live bombs, 5,000 rounds of rifle ammunition, 10,000 detonators, and two tons of high explosives, including cordite and gelignite. Many spare parts for bombs and a quantity of machinery were also found. Some of the boards of the wall were removed, revealing a secret chamber twenty feet long stocked with war material. The stable, which belongs to one of the nineteen prisoners who escaped from Mountjoy Prison about four months ago, had been searched recently by the plice, who found nothing.

Wheezy Chest Colds Subdued Over Night

Trained Nurse Tells How Colds Are Quickly Broken Up

NERVILINE

A Home Necessity

Speaking of valuable home remedies that every mother should always keep on hand, Nurse Carrington says: "I haven't met any preparation more dependable than 'Nerviline.' It is the ideal liniment; every drop rubs in—it is absorbed quickly, eases and relieves congestion in a short time. For chest colds, pain in the side, stiff neck, earache and toothache, I have found Nerviline invaluable. In treating the minor ills that arise in every home, nothing is more efficient than Nerviline."

For nearly fifty years Nerviline has been a household article in thousands of Canadian homes. Get a 35c. bottle to-day.

Of two evils some men choose the lesser—unless there is more money in the other one.

She Could Never Do The Things Other Girls Did

Miss I. J. Ross, Scollard, Alta., writes:—"I am only twenty years old, but have suffered from heart palpitation and nerve trouble for several years.

I could never do the things other girls did, that is, in the line of sports, skating, etc., and could never depend on myself at work.

About six months ago I began taking

MILBURN'S HEART AND NERVE PILLS

and am just twice the girl I was, and can enjoy everything in general life so much more. I am very grateful for what your Pills have done for me."

Always Ready To Soothe & Heal

Making Use Of Geysers

Town In Iceland Uses Water To Heat Houses

The wonderful geysers of Reykjavik, in Iceland, are now being used to heat the town and to warm and water greenhouses and gardens.

Water from the geysers is forced through narrow pipes laid at a depth of about three feet in the soil, and the warm water favors and hastens the growth of both vegetables and fruits.

Near the largest geyser a very large greenhouse has been built, where all kinds of flowers and vegetables are being cultivated, with extraordinary success. It is possible, indeed, that with the assistance of its geysers Iceland will be able to compete with the Channel Islands as a purveyor of early potatoes and flowers.

GIVE CONFIDENCE TO YOUNG MOTHERS

By Always Keeping Baby's Own Tablets in the Home

A simple and safe remedy for the common ills of babyhood and children should be kept in every home where there is either a baby or a young child. Often it is necessary to give the little one something to break up a cold, allay fever, correct sour stomach and banish the irritability that accompanies the cutting of teeth.

Experienced mothers always keep Baby's Own Tablets in the home as a safeguard against the troubles that seize their little ones so suddenly and the young mother can feel reasonably safe with a box of these Tablets at hand and ready for emergencies.

Baby's Own Tablets are a mild but thorough laxative that act without griping and they are absolutely guaranteed free from opiates or other harmful drugs. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Poison Becoming Cheaper

Calcium Arsenate Or Arsenate Of Lime Is An Economical Insecticide

The old buggy served its day and served it well, but times have changed. The car is now the popular means of conveyance. Paris green was the old-fashioned poison for potato beetles and sundry other leaf-eating insects, but its day of economical service is fast passing. According to Professor A. V. Mitchener, entomology department, Manitoba Agricultural College, a newer and much cheaper poison for insects has made its appearance upon our markets and should be much more widely known than it is at the present time. This newer insecticide is calcium arsenate or arsenate of lime. It is much cheaper than paris green, shows up on the foliage better since it is white, and will not burn the foliage when applied either dry or in water.

The price of calcium arsenate or arsenate of lime has dropped this year and this fact should make this insecticide more popular with both growers and dealers. Wholesale houses carry it and will be pleased to quote prices to local dealers. Unless the local dealer orders now he is not likely to have any upon his shelves when it is wanted. A word in time to the local dealer may save the grower dollars.

Worms are encouraged by morbid conditions of the stomach and bowels, and so subsist. Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

Orientals Like Autos

Orientals of the Far East in such places as Singapore, Java and Siam, have developed a brisk trade in Canadian automobiles, owing to the good roads built by the British, French and Dutch Governments there, according to A. B. Muddiman, former Canadian trade commissioner to those parts.

Minard's Liniment for backache

Treasure Hunt Was Profitable

Fort William Boy Found Jewelry Valued At $1,000

Buried treasure brought reward and prominence to Harvey Shable, an 11-year-old Fort William boy. Starting a treasure hunt near his home, Harvey unearthed jewelry valued at $1,000 and immediately turned it over to the police. He found it under a sidewalk near his home. The treasure was identified as part of the loot taken in a $3,000 robbery there. The robbers were never apprehended.

Felt Like A New Person Ever Since

So Says Ontario Lady After Taking Dodd's Kidney Pills

Mrs. E. Fransky suffered with inflammation of the bladder and found relief in Dodd's Kidney Pills.

Bancroft, Ont.—(Special).—"About a couple of months ago I was troubled with my kidneys and could not rest good, and my back bothered me. It gradually got worse and I decided to see a doctor. He found I had a mild touch of inflammation of the bladder, caused by my kidneys. He gave me some medicine and on my way home I bought a box of Dodd's Kidney Pills. My husband advised me to take the pills and likewise I did. After taking the first box I felt very good, but after the second box I felt like a new person. I always keep them in the house now and tell others what wonderful work they can do." This statement comes from Mrs. E. Fransky, a well-known resident of this place.

Dodd's Kidney Pills are known all over Canada as the old reliable Canadian kidney remedy. They are known by the work they have done.

A prolific author says that the only way to write a book is to start making black marks on white paper, thus preventing ideas from evaporating.

Nation-wide Fame—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Eclectric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

"The marvels of electricity have set me thinking." "Yes; isn't it wonderful what electricity can do."

Similar opportunities will make a hero of one man and a fool of another.

Do You Cough?

—Micklethwaite Studio

Mrs. Jas. McDonald

Toronto, Ont.—"I have used Dr. Pierce's medicines in my family for years and find them excellent in every respect, in cases of coughs, colds and for bronchial trouble, also as a blood medicine I find the 'Golden Medical Discovery' just excellent. It builds up the system, enriches the blood and makes one feel fine in every respect.

"I take great pleasure in recommending this medicine of Dr. Pierce's for it does just what is claimed for it. It is reliable and good."—Mrs. James McDonald, 28 McMurrich St.

Ask your druggist for Dr. Pierce's Discovery, in tablet or liquid form, or send 10c for trial pkg. of tablets to Dr. Pierce's Laboratory, in Bridgeburg, Ont.

Says Nothing To Impede Navigation Through Hudson Straits Even In Winter Time

Are ice conditions in Hudson's Strait such as to impede navigation in the summer and fall?

"No," is the unqualified assertion of Rt. Rev. A. D. Dewdney, Bishop of Keewatin, whose diocesan duties have taken him to the strait as recently as last summer. Bishop Dewdney goes further than this. He says ice will not impede navigation in the winter.

Opponents of the Hudson's Bay route for decades have argued that even if it were admitted that Hudson's Bay might be navigated for a reasonable period of the year, Hudson's Strait was an unknown quantity and would almost certainly be very dangerous to navigation at practically all times of the year.

There are no ice conditions in Hudson's Strait after the middle of July to impede navigation, he declared in an interview. In the course of supervising the work in his diocese, which extends almost to the North Pole, Dr. Dewdney has to patrol the land skirting Hudson's Bay.

On his trip to the northern part of his diocese last year, he went through the Strait, and was told that ice conditions in Ungava Bay to the south of the strait and along the Labrador coast were the worst in years, yet there was no ice in the strait to affect navigation in the least, he said.

Dr. Dewdney asserted that Hudson's Strait is never frozen, even in winter, nor is there any float ice in fall and winter, as the ice away in the northern reaches of Fox Basin is tightening up at that time.

There might be discomfort from sailing in the northern waters of Hudson's Bay and Strait during the winter months, but as far as ice in the strait was concerned, or in the open waters of the bay, there was nothing to fear, he emphasized.

Dr. Dewdney tells of great changes in the great northland of Canada. Within the past year or so the Hudson's Bay Company and Revillion Freres have opened fur trading posts in the north. Within the next ten years he predicts that the whole north country will be dotted with these posts, connected with the outside world by water transport. By that time the Eskimo will have largely discontinued his whaling and fishing and will have become, like the Indian of the north, a trapper.

Western Fisheries

Prairie Provinces Secure Large Revenue From Commercial Fishing

Inland fisheries in the Canadian west (the three prairie provinces and the Yukon) had a commercial value of $2,380,526 last year. These are the returns to the bureau of statistics and represent an increase of $307,591 over the previous year. About 44 per cent. of the marketed catch was whitefish. Manitoba leads with $1,427,071; Saskatchewan marketed $479,645 of the harvest of her lakes and rivers; Alberta made $458,504; and the Yukon $15,370.

Satisfied Settlers

British Settlers in Alberta Are Very Very Pleased With Conditions

James Tevnan, commissioner of the Allied Newspapers, Limited, comprising fifteen publications in the Old Country is making an investigation into conditions among the new settlers in Alberta. He reports that more than ninety per cent. of the settlers with whom he has come in contact in Canada cheerfully declare that they have had a square deal and are satisfied with their prospects on the prairies.

Buys Alberta Farm

One of the first of the British youths under the Hoadley scheme to buy a farm in Alberta is A. W. Waddell, of County Down, Ireland. Mr. Waddell, who studied at the Vermilion school under the Hoadley scheme last year, has bought a farm in the Leduc district.

Eucalyptus trees are being used to take up the water of the swamp lands of Palestine, as they thrive in swamps.

Good Record For Egg Pool

Handled Ninety-one Thousand Dozen Eggs In One Week

"One hundred hens on every farm in Saskatchewan, and 100 eggs from every hen." That is the slogan announced by Mrs. John Holmes, president of the Saskatchewan Egg and Poultry Pool.

In one week alone, the pool people handled 91,000 dozen eggs. This was considered a stunning record for a pool just three weeks old, with lots of the hens in the back districts not yet having heard of it.

It won't be long, however, till every one of the 9,500,000 hens in the province will know that someone is checking up on their performance, for A. S. Kyle, the recently appointed production manager, is to visit the 400 shipping stations to talk about what should be done with a hen that doesn't lay at least one egg every three days. Besides discussing the improvement of flocks, Mr. Kyle will help work out smooth systems of handling the eggs. He is to be in the south of the province for a while.

Profit From Bees

679 Pounds Of Honey Produced By Ten Colonies

In the fall of 1923 ten colonies of bees were set aside at the Ste. Anne de la Pocatiere experimental station to ascertain the profit there is in honey. The colonies wintered well and were set out in the spring for their year's work. The ten colonies produced 679 pounds of honey at 18 cents per pound, 4 lbs. wax at 40 cents per pound and 6 new colonies at $7 each; total $165.82. The expenditure was 6 per cent. on $300 invested—$18, honey and sugar consumed $22 and 128 hours of labor at 35 cents per hour $44.80, total $84.80; leaving a profit balance of $81.02, or $8.10 per colony.

A study of honey flows showed that the maximum was reached between 4 and 5 p.m.; that when the weather is dry the bees gather nectar on sunless days; that the increase is larger after a rainy day; that strong winds affect the work of the bees; that the greater increase was when the wind was southwest or northwest, and that a south wind was not favorable.

Needed Protection

Florian.—"Chief, ah needs protection! Ah done got a unanimous letter this mornin' which done says: 'Nigger, let mah chickens alone.'"

Chief of Police.—"Why protection? Just leave the chickens alone."

Florian.—"Dat's all right, boss, but how does I know whose chickens I's to leave alone?"

Eighty per cent. of the population of India get their living out of the soil.

Livestock Prospects Encouraging

Cycle of Prosperity For Industry Now Entered Upon

There is much that is encouraging in the sixth annual Livestock Market and Meat Trade Review for 1925, just issued by the livestock branch of the department of agriculture at Ottawa. It was the best year for the feeder of good livestock in this country. It would appear, says the Review, that after a long period of depression in the industry that a cycle of prosperity has been entered upon and that, given normal pasture and feed conditions during the next few years, cattle, sheep and swine production should more than compensate for the troubles of the past. Prospects, it is definitely said, are encouraging.

The hog situation in Canada in 1925 was remarkable for strong and steady prices on a pretty good run and there was a very noticeable improvement in the general quality of the offering. Hogs of good bacon weights and quality were $7 per head higher than in 1924. While short supplies from Denmark and the United States and the shipment of 86,000 head from Canada to the Pacific coast were in a measure responsible for the betterment of the situation, the main reason for the improved market was undoubtedly the generally higher standard of quality in the select and thick smooth classes, due to grading, combined with a better export pack, and a regained reputation among British consumers for the producing and manufacturing of high quality bacon.

No. 1 Hard In Austria

Canadian Hard Wheat To Be Propagated In That Country

That Canadian number one hard wheat is being propagated in Austria is the information contained in a letter received a few days ago by the department of colonization, agriculture and natural resources, Canadian National Railways, Winnipeg. The communication is from Dr. Ramek, prime minister of Austria, acknowledging receipt of a sample of No. 1 hard wheat, which was sent to him in January last by the department. Dr. Ramek writes in part as follows:

"This product, which represents a highly qualified and well known all over the world standard seed, is very valuable to us. We immediately sent it to the Austrian Federal Institute in Vienna for analysis with a view to further cultivation. The federal department of agriculture will provide for propagation of this sort of grain in order to advance Austrian agriculture."

No News To Her

A pretty girl, presiding over a booth at a charity bazaar, was approached by a wealthy man that had the reputation of being niggardly. "How much for these chocolates?" he asked, picking up a box of the confections. "Five dollars," he was told. "But," he exclaimed, looking first at the chocolates, and then at the girl, "aren't you a little dear." "So I've been told," was the demure reply.

Interesting To Speculate On The Future Development Of Agriculture In Western Canada

Small Fruits In Peace River Country

Strawberries, Raspberries and Currants Grown At Beaverlodge Experimental Station

Small fruits do well in the Upper Peace River country. The superintendent (Mr. W. D. Albright) at Beaverlodge, Alberta, experimental substation, reports that 1924 was a banner year for red and white currants, particularly for the former; that raspberries were abundant, and that strawberries should hold a substantial place in any farm garden. The New Red Dutch, Victoria Red and Cumberland Red varieties of red currants were particularly successful last year, six bushes of each yielding respectively 93.6 lbs., 93.6 lbs. and 76.7 lbs. Large White Ottawa 551 and White Cherry Ottawa 550 varieties of white currants yielded 66.3 lbs. and 73.12 lbs. Black currants have not done well the last two years. It is thought they have been pruned too liberally to obtain cuttings for distribution.

The Herbert variety of raspberry is the best yielder. In 1924 from a row not over eighteen rods long 148 quarts were gathered. Mr. Albright points out that assuming this variety drew from a width of half a rod the yield would figure out 2,631 quarts estimated at 3,946 pounds per acre.

The first ripe strawberry was picked on June 26; on July 11 there was good picking, followed by continued pickings up to August 10. From three rows 320 feet long and spaced four feet, planted in 1922, 157 quarts were gathered, being at the rate of 1,779 quarts per acre, and five rows planted in 1923 yielded 48 quarts or 1,067 quarts per acre. Early Dakota is the variety cultivated. The 1923 plantings, Mr. Albright says, had few strong early-struck plants.

Dairy Cattle For Russia

Pure-bred Cattle and Sheep May Be Shipped From Vancouver Island

Vancouver Island pure-bred dairy cattle and sheep may be shipped to Soviet Russia in considerable numbers soon to replace herds there slaughtered during the Russian revolution and the subsequent years of chaos. This was indicated in the sale of sheep from the farm of G. H. Hadwen, near Duncan, to a cattle breeder from Moscow, recently. In a letter to the department of agriculture, Victoria, Mr. Hadwen says this Russian breeder plans to come back to this province again in the fall to purchase more stock.

Since the first London-Paris aeroplanes began flying in August, 1919, British civil machines have carried more than 60,000 passengers between London and the continent.

A new homestead area in Western Canada is inevitable, in authoritative opinion, as a result of the discovery of the earlier maturing wheat which has pushed back the northern limit of agriculture for from between sixty and seventy-five miles and added millions of acres to the productive area of Western Canada. The chairman of the board of railway commissioners has given it as his opinion that it will be necessary to push railway lines north to enter this vast new empire which Canada has so sensationally added to her economic possessions. It suddenly becomes a new factor in future Canadian land settlement, and adds substantially to Canadian farming opportunity as it will exist for immigrants for years to come. Canada has just completed a most remarkable quarter century of agricultural development, and it is interesting to speculate on what the quarter century she is just starting upon may bring to her in this regard.

Twenty-five years ago Western Canadian farming opportunity was being extensively advertised and eliciting a certain response. In 1901, 49,149 immigrants entered Canada, 11,810 being from the British Isles, 17,987 from the United States, and 19,352 from other countries. The Canadian West was still at tha ttime, however, a largely unknown territory, and its potentiality sceptically regarded. There were less than 15,500,000 acres occupied as farms in the entire area, and it was not until years afterwards that it started amassing the long list of international agricultural awards which brought it world renown and drew wide atrention to its agricultural productivity. Today there are nearly 90,000,000 acres of land in the three prairie provinces occupied as farm land and in the period wheat production has increased over 600 per cent., and that of other cereals and livestock and other farm products is only lesser proportion. What will the quarter of a century opening up effect in Western Canadian land settlement?

Canada sets out on the new quarter of a century of land settlement and agricultural development under the finest of auspices. In very brief time she has penetrated the markets of the world with the products of her farms and successfully met the competition of longer established countries. The prospects facing her farmers and others who will join them are bright. That a belief in this expansion exists even beyond the confines of the Dominion is evidenced in the statement of Dr. O. E. Baker, of the United States department of agriculture, who, before Garnet wheat and its potentialities were known, estimated that Canada was potentially capable of producing a wheat crop exceeding 1,300 million bushels, whereas years ago Senator Calder, of New York, gave it as his opinion that the Dominion would develop several times the wheat acreage of the United States.

Sugar Beet Seed

Six Carloads Arrive At Raymond For Season's Planting

Six carloads of beet sugar seed for the sugar beet fields of Southern Alberta have arrived at Raymond and will be distributed to the beet growers at once in preparation for the coming season. Germination tests of this seed, made by the federal department of agriculture, shows an unusually high quality, and the returns for this year are expected to be quite good.

Would Admit Only Healthy

Stricter laws to prevent the entrance of mentally diseased immigrants into the country, the establishment of psychopathic wards in British Columbia hospitals and regulations requiring the securing of clean bills of health before marriage, were urged before the mental hygiene commission in its sitting at Victoria.

B.C. Tin Mine

Tin is being recovered commercially by the Consolidated Mining and Smelting Company at Trail, B.C. The output, which is from one-half to two tons per day in the form of conlterite, is recovered as a table by-product from its Sullivan mine ore. A number of tin ingots were first made in the company's laboratory.

Warm Welcome Given Famous Stanley Cup

On behalf of the Dominion Express Company which had carried the trophy across Canada, the Stanley Cup, time-worn emblem of the world's hockey championship, was handed by Angus Hays, depot agent of the company, to T. Arnold, Vice-President of the Montreal Hocky Club, at the C.P.R. Windsor Station, Montreal, recently. In acknowledging its receipt, Mr. Arnold expressed the gratification of his club at the service which had been given it by the Canadian Pacific Railway in the frequent trips made by the club over the company's lines to meet their engagements.

"The comfort and even luxury of the club's travelling arrangements," Mr. Arnold declared, "went a long way towards keeping the players in good condition for their games."

The cup bears evidence of the passing of the years. There is hardly a square inch of its surface, interior or exterior, or of its pedestal, that is not inscribed with the name of some club, player or official, who at one time or another had it in their possession. To celebrate the occasion of the return of the cup after an absence of three years, it was filled with champagne and passed around until everyone present had drunk the health of the trophy or the club.

Those present to receive the cup at Windsor Station included the following, left to right: W. Downey, depot agent, Place Viger Station, Dominion Express Company; Angus Hays, depot agent, Windsor Station, Dominion Express Company, who handed the cup over officially to the club; Elmer T. Ferguson, sporting editor, Montreal Herald, who welcomed the cup on behalf of the local press; W. O'Brien, trainer; Reg. Noble, Punch Broadbent; T. Arnold, Vice-President Montreal Hockey Club; C. Dinsmore; A. Cayford, Secretary-Treasurer; E. Caron and C. Kerman.
