THE CRESTON REVIEW

Vol. XX. CRESTON, B. C., FRIDAY, JULY 6, 1928 No. 22

Lister

Miss Ruby Lister arrived home at the end of the week from Cranbrook, where she has fully completed her training course and now is a fully registered nurse.

This area had a visit from both Premier MacLean and opposition leader Tolmie during their trips into Creston the past week.

In spite of anything but favorable weather Rev. A. Garlick had a good turnout at English Church service on Sunday morning.

John Hewitson left at the first of the week for Calgary, Alberta, and will spend the next month on a visit with friends at prairie points.

Ernest Stephens left a few days ago for Trail where he has secured a position and will be remaining.

Bert Yerbury is now at Ymir, where he has secured work in the Yankee Girl mine near that town.

The Community Society had a large crowd out for their dance on Saturday night last, for which excellent music was supplied by Mrs. Lister.

The almost solid week of rain is doing considerable damage to the cut-hay crop at Lister.

School closed on Thursday and the following day Principal Parker left for his home in Slocan City. The term-end reports show Charlie Malthouse captain of the roll of honor for regularity and punctuality—the fifth year in succession. Other honor roll winners were: Proficiency, Agnes Sinclair. Deportment, Irene Wellspring. The progress of the pupils has been so uniformly good that three pupils of Grade 7—Agnes and Wallace Sinclair and Peggy Smith—were allowed to write on the papers for promotion to Grade 8.

At Huscroft school Miss Littlejohn principal, announces the following winners of honor rolls: Proficiency—Dolly Tedford. Deportment—Aloha Bohmer. Regularity and Punctuality—Alice Demchuk. Writing Certificates—Alice Demchuk, Dolly Tedford, Margaret Huscroft. Prizes: Tidiness and general neatness—Minnie Huscroft. Pupils promoted are Minnie and Clyde Huscroft, Marjorie Tedford, Margaret and Waddy Huscroft, Alex. Demchuk, Thomas Tedford, Burt Huscroft, Vergene, Aloha and Rupert Bohmer, Leonard Huscroft.

Sirdar

There was a strawberry social in the schoolhouse on Thursday last. It was the term-end treat for the children.

Principal and Mrs. R. Lea Smith left for Vancouver Island on Friday. He has secured a school at Bowen Island, and will not be returning.

Messrs. Cam and Neil, who have been holidaying at Nelson, returned home on Thursday.

Mrs. Cam and children left on Saturday for Calgary, Alberta, where they expect to visit for the next two months.

M. J. Beninger and son, Earl, of Creston were Thursday visitors with Mr. and Mrs. Jack Cameron.

Mrs. Neil and Mrs. Bysouth of Kuskanook were Thursday visitors to Sirdar for tea at the schoolhouse.

Rev. Fr. Cullinan of Cranbrook took service at the schoolhouse on Saturday.

Jas. Wilson was a visitor at Kitchener a few days last week.

Mr. Alexander of Kimberley was a weekend visitor with Mr. and Mrs. Wilson, at the Grey Royal Granite quarry.

W. Neil and son, Dick, left on Sunday for Kingsgate, to spend a holiday.

Mesdames Newbury, Cherbo and Salerico were calling on Creston friends Monday. Mrs. Wilson and daughter, Gwen, were business visitors at Creston on Tuesday.

Misses Brander and Pascuzzo were Sirdar's representatives at the Legion dance at Creston Monday night.

Mrs. Art Wallace and children of Cranbrook are occupying their cottage for the summer.

Mrs. McCabe, who has been in Cranbrook, where Boley underwent an operation at the hospital, returned home on Sunday.

Alice Siding

Miss Ivin Compton was a holiday weekend visitor at her home here.

Mr. and Mrs. Clarence Pease of Princeton spent the week with his parents, Mr. and Mrs. W. A. Pease. It is at least ten years since he had previously visited the Valley and is struck with the development in that time.

Miss Gladys Webster, who has been teaching at Foremost, Alberta, the past year, arrived home this week for the holidays.

School closed on Thursday last and Principal Lukas is at his home at Fernie for the vacation.

With the exception of Monday rain rain has fallen every day since Thursday last, and it is doubtful if strawberry picking will be resumed. Considerable damage has been done to hay that was cut early last week.

J. H. Webster, whose health has been poor the past few months, and who recently returned from the hospital at Cranbrook, was forced to return there at the end of the week, and on Tuesday his condition was so serious the family was sent for and made the trip to Cranbrook by auto.

Canyon City

Mrs. Ernest Langston, who has been a hospital patient at Cranbrook, the past week, arrived home on Wednesday last.

Miss Helen McRobb left this week for Nelson, where she has secured a position.

Geo. Royce of Kimberley is here for a short visit with his old Scotch friend, Jock McKibb.

Mr. and Mrs. S. P. Poole of Nelson are spending the week on the ranch at Canyon City.

Mrs. Knott left at the end of the week for Victoria, where we understand she will spend the summer with her daughter, Miss Frances.

School closed for the summer vacation on Thursday last. Next week we will give the list of promotions and honor roll winners.

The continuous rain since June 28th has worked havoc with the strawberry crop and is splitting the cherries. Any hay that was cut will be pretty well ruined by now.

Mr. Shuttleworth of Kimberley, who has been a visitor with Mr. and Mrs. Knott, the past two weeks, returned home on Friday.

The Liberals had a well attended rally here on Friday night at the hall when Frank Putnam, the candidate, and Premier MacLean spoke. Manford Samuelson occupied the chair.

Death of Ole Ringheim

Wyndel residents turned out in large numbers on Thursday last to pay their last tribute of respect to Ole Ringheim, whose death took place at Cranbrook hospital on June 25th, after hardly a week's illness, and whose remains were laid to rest in Creston cemetery, following a service in Trinity United Church in that town, at which Rev. J. Herdman officiated, with Carl Carlson, John Wigen, Matt. Hagen, J. Wendt, C. O. Paterson and W. H. Crawford as pallbearers. The late Mr. Ringheim, who passed in his 60th year, was a native of Norway and when but eight years of age moved with his parents to Minnesota, where he continued to make his home until 1908, when he moved with his family to Saskatchewan and remained on the prairie until 1918 when he again moved west and located in the Wyndel district, where he has resided continously ever since. He was married at St. James, Minn., in 1898, and leaves to mourn his passing a widow and three daughters, Mrs. Chas. E. Consell of Minneapolis, Minn., Mrs. J. V. Orr, Monroe, Wash., and Madeline, at home; along with four sons, Henry M. Macleod, Alberta, who was here for the funeral; Ole, Elmer and John, all of Wyndel. The late Mr. Ringheim enjoyed the respect and friendship of a wide circle of friends in the Wyndel district, and his popularity was strikingly attested in the large number who forgot all about the busy season in order to attend the funeral. Deceased's popularity was also shown in a wealth of floral remembrances. A very sincere sympathy is extended the family in their somewhat sudden and heavy bereavement.

Those sending floral tributes were: The family, Co-Operative Fruit Growers Association, Mr. and Mrs. E. Butterfield, Mr and Mrs. M. Hagen, Mr. and Mrs. P. Andestad, T. and Miss Helen Sulem, Mrs. Dunseath, Mr. and Mrs. R. Andestad, Mr. and Mrs. Foxall, Mr. and Mrs. S. Johnson, Mr. and Mrs. Towson, Mrs. S. Johnson, Mrs. P. Hagen, Mr. and Mrs. C. Hindley, Mr. and Mrs. Dalbom, E. Uri, Eric Wood, Mr. and Mrs. Jas. Wood, Mr. and Mrs. Walter Cooper, Mr. and Mrs R. Uri, and others.

Wyndel

Mrs. Logan, who has been a visitor with Mrs. Sixsmith, for the past month, left for her home at Elnora, Alberta, last week.

Dave Taylor, who has been attending high school at Lethbridge, Alta., is home to spend the vacation with his parents.

Mrs. Crane of Owen Sound, Ontario, is here at present on a visit with her father, J. B. Winlaw.

Eric Wand and Henry Ringheim of Macleod, Alberta, were home last week to attend the funeral of the late Ole Ringheim.

Mr. Duncan, vice-principal of Wyndel school, left for his home at Fernie, to spend the vacation.

Miss Dorothy Payette spent the weekend at Kimberley, a guest of Misses Bild and McNeary.

Dance Saturday evening, 7th, in old schoolhouse, under baseball club auspices. Gents $1; ladies 50 cents. Bild brothers orchestra.

The heavy rains at the end of last week held up strawberry picking, but fine weather on Monday saw operations resumed, only to be united on Tuesday when further rain was encountered.

Miss Annie Hook was hostess at an informal tea, honoring Mr. Duncan, who left last week for Fernie. Miss Hook, who has been holidaying here, has returned to her home in Spokane.

Kitchener

Miss Olga Nelson and Beatrice Molander were home during the week on a visit to their parents.

Nearly all Kitchener motored to Creston on Monday evening to attend the Conservative meeting.

Mr. Strudwick was a weekend visitor at Creston, a guest of Mr. and Mrs. Bush.

Miss Vera McGonegal of Creston is a visitor with Mrs. Ragotte this week.

Misses Celina Langlois and Myrtle Anderson were weekend visitors at Creston, guests of Miss Hazel McGonegal.

Mr. and Mrs. Hathaway and friends from San Francisco, Calif., have arrived to spend the summer months here.

School closed for the summer vacation on Thursday last, and Miss Hobden, principal, has issued the following school year-end report:

Honor Rolls: Deportment—Edith Nelson. Proficiency—Richard Molander. Regularity and Punctuality—Selmer Anderson, Charles Bush, Dennis Bush, Wesley Blair, Willard Blair, Robert Johnson, Richard Molander, Frank Abar. Writing Certificates: Senior—Wesley Blair, Dennis Bush, Edith Nelson, Willard Blair, Vivian Langlois. Junior—Celina Langlois, Charles Bush. Progress—Myrtle Anderson.

A Splendid Chance to Show Appreciation

Provided no undue pecuniary sacrifice is demanded we believe most everyone is willing to show appreciation for favors conferred, and with this point conceded it will be quite in order to direct the attention of residents of the village, particularly, to benefits already received from the activities of the Liberal candidate.

One of the biggest new business bringers to Creston will, undoubtedly, be the North and South Highway which is now well under construction and very shortly should be in shape to permit of its being fully used by auto tourists.

In insisting on the building of the road over the old K.V. Mr. Putnam's choice was not exactly an easy one. Many friends of his were not backward in advising him to use his influence to have the highway traverse the present roundabout route.

With the business judgment characteristic of the man, Putnam has had the highway built by the K.V. maintaining that there is only room for one big town in Creston Valley and that Creston is the logical centre.

And in adopting that policy he has the satisfaction of knowing that the route chosen will work no hardship on any other point, and will bring many thousands of dollars annually into Creston that otherwise would never have been spent anywhere in the Valley.

And close on the heels of construction of the North and South highway comes last week's announcement that the public works department had classified the hard surface road through town as a primary highway and this year and every other year will pay 75 per cent. of the cost of its maintenance—and is already making good its promise by taking charge of this year's quite extensive repair work.

Mr. Putnam has also been given assurance that in 1829, when a good grade road to connect the North and South with the east and west highway through town has to be built it will also be classified as primary and the departmhnt will be prepared to take care of 75 per cent. of the cost of this new road construction through the village.

Appreciated commendation of his highway effort has already been given by Major Mallandaine, president of Creston Board of Trade, and the Review suggests that everyone should in the most practical fashion show that they believe in encouraging work of that sort by marking their X after the Liberal candidate's name on the 18th. Don't let your party feelings get the better of you when it comes to extending appreciation of timely considerations shown.

HOME BREW

In addition to financial men the automobile manufacturers must be convinced the credit of British Columbians is good. This year about 80,000 motor cars are in use and fully two-thirds of them are sold on the instalment plan.

When the Liberals claim they will elect four members in Victoria and six in Vancouver they make no idle boast. In this election the labor vote is undoubtedly for the MacLean administration and its support in the two cities mentioned is pretty good assurance of the predicted Liberal sweep.

Electors of the Creston riding can do themselves and the province a splendid service by electing Frank Putnam. So far as we can find out he is the only candidate offering for election who is a producing fruit grower. And along with his knowledge of fruit production his experience with marketing makes him still more valuable as a representative.

VICTORIA, June 27 — Strawberries from this province were marketed on the prairies unsatisfactorily in the season now ending because none of them except those from Creston, were up to standard, according to J. A. Grant, British Columbia market commissioner at Calgary. Mr. Grant wires that a dumping duty on strawberries could not have helped the situation.

That there is some truth in the talk of Tory dissension is furnished in North Vancouver where our old friend, A. C. MacMillan, who delivered the address at Creston's Confederation Jubilee celebration a year ago, is running as an independent candidate, as a protest against the machine methods resorted to select a Tory standard bearer in that constituency.

Let us again remind that the election of a representative on July 18th is very much YOUR business, and deserves the same unprejudiced consideration you would give to hiring a manager for your own affairs for a four year term. Mr. Rancher, which of the two candidates would you hire to run your place—even for one year? Don't force the province to employ a man you would not place on your own payroll.

During his short stay here advantage was taken of the occasion to show Premier MacLean over the Lister area and meet some of the soldier farmers. Afterwards the premier unhesitatingly stated that a development policy would be undertaken and assured that in adopting any policy the advice of Frank Putnam would be followed. After 24 years residence in the Valley and close acquaintance with pioneer farming Putnam is well qualified to define a policy—and once having defined it he is just the sort to see that action follows.

UPON the arteries of communication depend the settlement and growth of the nation. First the trails . . . then the rough oxcart ruts . . . the wagon roads . . . the automobile highways.

The scattered population of British Columbia has made the construction of roads between centres a matter of vital importance, yet one of almost insurmountable difficulties.

Mountain sides have to be blasted away . . . clefts and chasms tresselled . . . rivers bridged!

With the opening of the Cariboo Highway through Fraser Canyon in 1926, the last link of British Columbia's great arterial highway . . . a highway unexcelled the world over as an engineering feat and one of unmatched scenic beauty . . . was forged.

Eastern British Columbia greeted its western brothers! Markets and railways were brought closer to the farmer, the miner, the industrialist. New fields for agricultural and trade development were opened up.

For the ten years just past, an aggressive highway programme has been carried out. Thousands of miles of good roads and dozens of sturdy bridges have been built.

Our roads system now totals 31,900 miles . . . an increase of over 5,000 miles during the last ten years. Of this mileage, 12,000 miles are earth roads; 4,000 gravel roads; and 1,000 macadam, bituminous, concrete and cement concrete. The 5,000 miles which were added to our roads system include: 884 miles of main trunk roads, 602 miles of lateral roads, 281 miles of industrial and mining roads, 1,133 miles of settlement and farm roads, and 2,000 miles of ordinary and mining trails.

During the years just before 1917, a large number of bridges had been constructed in the Province, nearly all of which were temporary timber structures. Since 1917, the problem of maintenance and renewal of these structures has been a serious one, involving a large expenditure, particularly between the years 1920 and 1927.

The policy has been to improve design of and workmanship on temporary bridges and to renew all the large bridges on main highways over the principal rivers with concrete and steel.

Today, the valuation of our 63 miles of bridges is nine million dollars.

This construction activity has distributed wages and salaries over our whole Province and has been a material aid in bringing about the current period of British Columbia's prosperity.

[Read these announcements and understand your province's progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!]

BRITISH COLUMBIA'S PROGRESS

There are Two Sides to this Story

MOST people think of their Chevrolet dealer as a NEW-CAR dealer . . partly because of the large number of new Chevrolets which they see on the streets. But, while new car sales are the Chevrolet dealer's biggest reason for being in business, they form only *one side* of his activities. He must not only *sell* cars but he must also *exchange* them.

Every good, successful Chevrolet dealer must also be a good, successful Used Car dealer.

From his experience in selling Chevrolet cars, he knows motor-car values . . He knows that it is just as important for him to sell a Used Car as a new car . . He knows that Used Car buyers have a right to as much for their dollar and are entitled to as complete satisfaction as new car buyers . . He knows that satisfied Used Car owners will eventually become prospects for new cars . . He knows the value of good-will.

In short, our business as Chevrolet dealers depends on our reputation as used car dealers. That is why you are sure of a square deal and a sound dollar-for-dollar value, when you buy a used car here. UC-7-7-28C

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Another Great Possibility

Passengers May Soon Be Transferred From Moving Train To Dirigible

Transfer of passengers to and from moving trains by dirigibles was described at Belleville, Ills., as a "practicable possibility of the near future," by Col. John A. Paegelow, veteran commandant of Scott army field.

Paegelow based his opinion on the successful "dirigible-to-train" transfer of mail, in which a 210-foot non-rigid blimp synchronized its flying speed of 30 miles per hour with that of a moving Illinois Central train.

The dirigible came to rest on top of a coach for a period of few seconds—long enough to effect the transfer of a pouch of mail without difficulty.

The army blimp which made the test carried a crew of six men.

BABY'S OWN TABLETS THE HOME DOCTOR

Baby's Own Tablets meet all the need that exists in every home where there are young children. They are a laxative, but do not gripe. They are soothing, but do not contain one particle of opiate or other ingredient that can in any way do the slightest harm to the most delicate child.

Baby's Own Tablets reduce fever, relieve colic, banish constipation and indigestion, check diarrhoea, sweeten the stomach and allay the irritation that accompanies the cutting of teeth. They quiet the nerves and promote health-giving sleep and repose. In fact they are as good as a doctor in the home, and once a mother has used them for her little ones she will use nothing else. Thousands of mothers bear testimony as to this. Among them is Mrs. Hurst, Pine Falls, Man., who says:—"I was told to try Baby's Own Tablets by a friend who had used them for all her little ones and said she could not do without them. After using them for my baby boy I quite agree with her and certainly think they are the finest medicine in the world for little ones."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued.)

New experiences awaited us the following day when as guests of the Port of London Authority, we were taken to see something of what London's handling facilities are. It was not possible to see more than a small part, for the Port of London, in one year, handles merchandise to the value of hundreds of millions of pounds sterling. For example, the imports and exports passed through the port in 1926 totalled in value $3,500,000,000 and included 65,000,000 bushels of wheat. In the same year 50,000,000 tons net register of shipping entered and left the port. Walking through one set of showrooms, ten acres in extent, we visited the Ivory Room, where we were astounded to see a perfect specimen of pre-historic mammoth tusks 11 feet long, weighing 163 pounds, and having an estimated age of 56,000 years. In the State Room $525,000 worth of pepper was stored, and an interesting exhibit was a 28 lb. weight floating in a bath of mercury. The Wool Room which contained a number of bales of Canadian wool stores in a single year nearly 2,000,000 bales.

Another interesting warehouse was the Iodine Room, holding 25,000 small hide-bound kegs of iodine, every one worth $500. The hide covering is necessary because of the rotting effect of iodine which destroys the wooden kegs in a comparatively short space of time.

But the thrill of the day came when we explored a portion of the Port's wine vaults. Before descending to the cellars we were handed oil torches fastened to the end of staves. Torches such as these have been used for 120 years. The temperature of the vaults never varies from 60 degrees, yet the only means of regulating it are incandescent lights, and the amount of sawdust on the floor. Fungus produced on the roof of the cellars by the fumes of the wine is a curious characteristic. In the brandy vaults this fungus is absent. Twenty-two thousand pipes of wine, each worth $500 can be accommodated in these vaults which have twenty-eight miles of metal runways, apart from the vast stores of spirits contained in other vaults not included in the day's itinerary.

Again in the open air we boarded a launch en route to the S.S. Minnewaska, where we were due to lunch as guests of the Port, under the chairmanship of Lord Ritchie of Dundee. The novelty of luncheon on this beautiful ship, surrounded by great liners from almost every country in the world made a deep impression. This was followed by a river trip back to London.

In the evening we were the guests of the Empire Marketing Board at dinner in the Hyde Park Hotel and had an opportunity of learning at first hand the valuable work being done by this organization to encourage the consumption of products produced within the Empire. The sum of five million dollars per year has been placed at its disposal by Parliament to further the marketing of Empire products. The Board is a non-party body and includes representatives of the Dominions and Colonies. Agricultural research is also an important phase of its work. The chairman, on the occasion of our visit, was Lord Lovat, the Under-Secretary of States for the Dominions, who told us something of the work of the Board, which was further explained by Sir Halford Mackinder, chairman of the Imperial Economic Committee.

The next day's programme provided one of the most interesting mornings of our stay in London. This was a visit to the Tower, a grim fortress which we entered with mixed feelings, for here and on Tower Hill perished some of the most renowned men and women of their day. Here the beautiful Anne Boleyn was beheaded; and here Lady Jane Grey saw the headless body of her husband carried past her on the morning when she knew that she was to die. In it Sir Thomas Moore, Archbishop Cranmer, Sir Walter Raleigh and the little Princes met their tragic fates, and though these things happened in the days gone by, one feels the Tower to be sinister still. Even in our own time was it not chosen as the place in which the spies in the Great War should meet their doom?

We were admitted by Yeoman of the Guard "Beefeaters" who still wear the quaint uniform which was adopted in the time of Henry VII. We were shown the Bloody Tower where the bones of the two murdered Princes were found and the room (reconstructed), in which Sir Walter Raleigh, when a prisoner wrote his History of the World.

In the White Tower we saw the chamber in which Guy Fawkes and his fellow-conspirators were tortured in 1605. Here too, were the apartments occupied by Queen Elizabeth when she herself was a prisoner in the Tower. We saw the block and execution axes, one of which has a nick in the blade where it struck the neck of a victim. And then, how close to our Canadian hearts it came, we saw the cloak on which Wolfe died on the Heights of Abraham.

Many quaint forms are still retained in the administration of the Tower. The gates are shut at night to the accompaniment of ancient ceremonial and after midnight no one may enter the precincts without giving the password.

In one of the strong rooms of the Tower there repose the Crown Jewels, including the crowns of King George and Queen Mary, a display of treasure which amazed us all.

The Tower of London was built by William the Conqueror, and it is said that the site on which it stands was selected by Julius Caesar as a location for a fortress. One of the most interesting features of the Tower is the portcullis, said to be the oldest one in existence in working order.

On our way to the Tower we stopped at St. Paul's Cathedral, Sir Christopher Wren's masterpiece, but, owing to the grouting operations on the piers which support the great dome, it was not possible to see its interior to advantage, most of it being boarded up and inaccessible. Thus, we did not see the crypt or enter the Whispering Gallery.

(To Be Continued.)

For Both House and Stable. — There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Eclectric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Question Of Relationship

In a recent court case at Toronto, a nice question in relationships was propounded. The plaintiff, a woman, was testifying against a chauffeur. "Isn't he your brother-in-law?" she was asked by counsel. "Didn't you say he was?" "No. I said he was my husband's sister's husband's brother!" The councel gave up any more questioning on this point.

SUNDAY SCHOOL LESSON

JULY 8

SAUL AND STEPHEN

Golden Text: "Be thou faithful unto death, and I will give thee a crown of life."—Revelations 2.10.

Lesson: Acts 7.54; 8.3; 22.3, 4, 19, 20; 26.4, 5, 9-11; Galatians 1.13, 14.

Devotional Reading: Psalm 116.12-19.

Explanations and Comments

Stephen's Arrest and Defense, Acts 6.8 to 7.56.—When the Greek speaking Jews who were temporarily or permanently staying in Jerusalem attempted to dispute with one of the leaders among the disciples of Jesus, they found this man, Stephen, more than a match for all their logic and religious philosophy. Their original hatred of him, as a man full of faith and of the Holy Spirit (Acts 6.5), and therefore full of grace and power, then turned into cunning malice. They resorted to calumny, raised up false witnesses against him, seized him and brought him before the Sanhedrin.

From Stephen's defense, 7.48, it is evident he had correctly taught that God could be worshiped not only in the temple, but everywhere. As was true with Jesus (Mark 14.58), Stephen's words were distorted by false witnesses; he was accused of teaching that Jesus of Nazareth would destroy the honored temple, and would change the revered Mosaic laws. Fearlessly, Stephen undertook his defense. Rehearsing the ancient history of Israel, he skilfully showed that God's revelation to His people had been progressive, that theirs was a spiritual religion, and that God had no need of an earthly temple. At first, apparently fascinated by the clarity and truth of his words, his hearers were silently attentive; but as they caught the drift of his argument they displayed signs of anger which Stephen could not fail to see.

If, before the coming of the violent end which he saw approaching, Stephen was to apply his words to his hearers, he must speak quickly. "Ye do always resist the Holy Spirit," he cried boldly. "Of the Righteous One ye have become murderers!" At once they "were cut to the heart"; they "gnashed on him with their teeth," that is, only by a "brute-like grinding of their teeth" were they able to restrain their unreasoning rage. But he, still filled with the Holy Spirit, saw "the heavens opened" (a familiar Jewish figure of speech signifying one's insight into divine things) "and the Son of Man standing on the right hand of God"; and, in apparently utter disregard of the frenzied fury around him, he told of what he saw.

Receives Large Salary

Chief Harpooner Earned $39,000 In Nine Months' Whale Hunt

Few occupations tax the nerves of man more than whale hunting, but few occupations pay better. When the whale-hunting fleet recently returned from the Antarctic after a nine-months' cruise, the chief harpooner had earned a "normal" income of $33,000. In addition to this sum he had a contract granting him $20 for each whale he killed. During the nine months he killed 300 whale, and his extra income amounted to $6,000. Hardly one man in a thousand may hope to be a really good harpooner. It is upon his ability that the result of the expedition largely depends, and though his profit may seem high, it is modest compared with the profit he brings to the expedition.

Changes Name Again

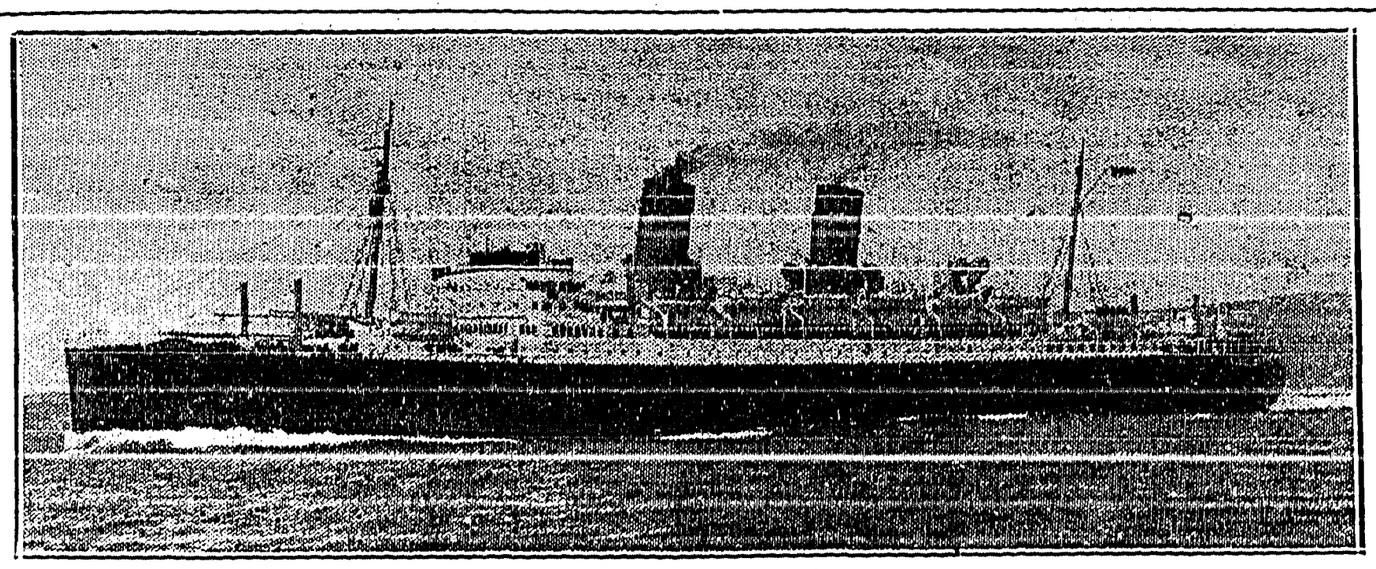
Peking Will Be Known As Peiping Meaning "Northern Peace"

The nationalist government political council has decided to change the name of the historic Manchu capital, Peking, to Peiping, meaning "Northern Peace."

The action is considered at Shanghai as an attempt by the Nanking government to destroy Peking's political importance and further that of Nanking, which they insist is now the National capital.

The announcement of the action of the council states "it is hoped Peking will continue as a centre of art and culture, but as a political centre it is dead."

POPULARIZING THE ST. LAWRENCE ROUTE



The fast maiden voyage of the Canadian Pacific liner "Duchess of Bedford," just put into the service of the St. Lawrence route as the finest of a quartette of 20,000 ton Canadian Pacific steamers has called wide attention to the increased popularity of the St. Lawrence route.

In addition to the "Duchess of Bedford" three other "Duchesses" will shortly be commissioned and this fleet of Cabin Class steamers will constitute the largest ships to call at Montreal. Their time schedule is so arranged that it is now possible to breakfast in Liverpool on one Friday and in Montreal the following Friday—an unique service for the St. Lawrence.

Excellently appointed and furnished, the "Duchesses" open a new era in Cabin Class travel and experienced travellers who have seen the new liner compare her accommodations very favorably with first class ships.

Six hundred feet long, two-funnelled, oil-burning and 75 feet wide, the new liner has broad deck spaces and many marine innovations, all conducive to passenger comfort. She is commanded by Captain H. Siddons, R.N.R., whose 21 years in the service of the Canadian Pacific Steamships have taken him through the seven seas. He was formerly in command of the "Minnedosa" and "Montroyal," having been in charge of the latter vessel on several cruises through the West Indies—a feature to be repeated by the "Duchess of Bedford."

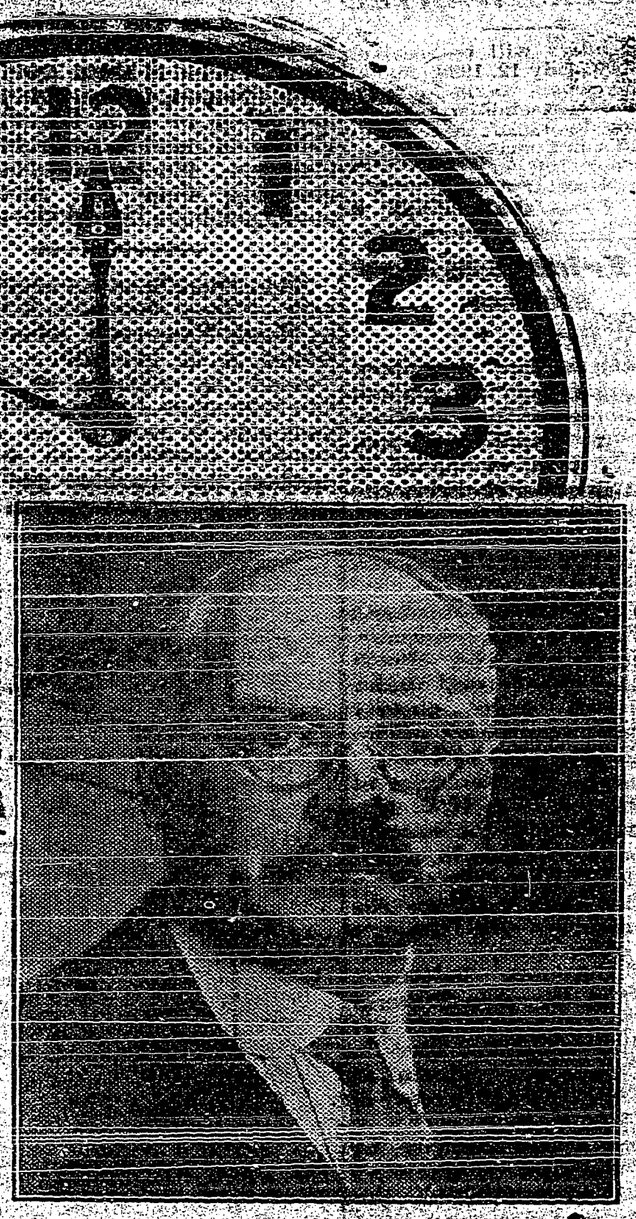
The MAN of the HOUR



DR. J. D. MacLEAN, *Premier*

TWELVE years of social reform and continued advancement under Liberal administration have brought forward Dr. MacLean as our *Man* of the *Hour*. He has been intimately associated with every measure of reform during twelve strenuous years of office as Provincial Secretary, Minister of Health, Minister of Finance, Minister of Education and Premier of British Columbia.

The Liberal Government has kept faith with the working people who build the prosperity of this country.

The Liberal Government has a record of achievement with which no other administration has ever come before the electorate.

Are we going to let Dr. MacLean continue the policy that is making our Province famous, that is bringing dollars and cents to every workingman and woman in British Columbia?

Are we going to accept the record of the Liberal Administration and show them our confidence by again reposing in them the trust they have so completely *proved* themselves *worthy* of and *able* to carry on?

Twelve years have given the Government a complete grasp of the needs of the common people of this Province. Is it likely that this knowledge will benefit these people if an untried number of men have to start all over again at Victoria?

Something accomplished, something done, has marked twelve years of Liberal Administration. As voters, *we know* what has been done for us, and *appreciate it*. We approve of Dr. MacLean's P. G. E. Policy. . . . *we know* that further reductions in taxation will follow. . . . and that Dr. MacLean has pledged himself and his Government to develop the agricultural area and natural resources of this Province.

It is a natural and human thing for us to *show our appreciation* and *gratitude* for these accomplishments. . . . to show our *approval* of Dr. MacLean's policy of *progressive* and *constructive legislation* by returning him to power on July 18th and electing the Liberal candidates to support him.

Mrs. Geo. Schmidt and Mr. and Mrs. Geo. Berg of Laird, Sask., spent a few days here last week, guests of Mr. and Mrs. Geo. Nickel en route to the coast on a holiday visit. Mr. Berg and Mrs. Schmidt are brother and sister of Mrs. Nickel.

There will be at least two vacancies in Creston school teaching staff to be filled before school opening on September 4th. Miss Kerr, primary teacher, and Miss Cowling of the high school staff, have turned in their resignations.

Hon S. F. Tolmie, Conservative leader, was greeted by a well filled house at the Grand on Monday night, for the opening Conservative campaign meeting on Monday night, and very ably presented the party platform in the present election. Other speakers were Mrs. Mallandaine, Col. Lister, and C.D. Blackwood of Nelson. F. H. Jackson presided.

The Grand Theatre was well filled for the Liberal rally on Friday night, at which the chief speaker was Premier MacLean, who gave a splendid review of the past four year administration of the provincial government. Supporting him were Mr. Winram of South Vancouver, Archie Donaghy of Nelson, and the candidate, Frank Putnam—the latter two speaking briefly. C. F. Hayes occupied the chair.

About twenty tables of players were in evidence on Wednesday night for the complimentary bridge and whist drive in the Parish Hall under the direction of the Ladies' Liberal Association. The prize scores at bridge were made by Mrs. Hayden and Mr. Stillwell, and at straight whist the prizes went to Dorothea Spratt and Hugh Graham. A substantial lunch was served, and the affair was much enjoyed by all.

The Grand Theatre was filled to overflowing on Tuesday night for the free moving pictures put on by Chas. Wilkinson, representing the Canadian Forestry Association. Six reels were displayed: B.C. Industries, Across Canada, Vancouver and District scenes, a News Reel, comedy and the feature film, "The Red Destroyer." During the showing of the latter, Mr. Wilkinson gave a timely talk on Canadian forests and their preservation.
